Randy Kern

Sheriff Pulaski County

MEMORANDUM FOR: Jennifer Wooldridge

8 January 2020

SUBJECT: Pulaski County Sheriff's Office 2019 calendar year body camera usage report

1. The Pulaski County Sheriff's Office is comprised of the Sheriff, Chief Deputy, Evidence Technician/Investigator and twelve Deputies. There are also four Telecommunicators and two office secretaries.
2. The Pulaski County Sheriff's Office was awarded a camera grant 4 June 2018 that provided ten body cameras (Patrol Eyes DV5-2). There are no in-car cameras in our fleet. Additionally, we purchased through our own funding three more cameras. We employ 13 body cameras (Sheriff and Evidence Tech do not have one).
3. The following are technical issues with the body cameras:
 - a. Battery maintaining charge for duration of eight-hour shift. Resolution purchase additional batteries.
 - b. Individual user error / ease of function. Resolved by training.
 - c. Storage of video medium. Videos are uploaded on backup server provided by IT service provider.
4. The review process involves periodic viewing of body camera footage by the Chief Deputy and review of every flagged video.
5. The attached "incident log" excel spreadsheet provides the information concerning video footage being used for prosecution of any criminal, conservation, traffic or municipal ordinance violations. I was unable to locate any "tracker" for the period prior to 25 April 2019, when I assumed duties as Chief Deputy.

A handwritten signature in black ink that reads "Lyle Womack".

Lyle Womack

Chief Deputy

Pulaski County Sheriff's Office
