Legislative Information System

Who We Are

The Legislative Information System (LIS) is the legislative support service agency responsible for providing the computer services and technical guidance required by the General Assembly and its committees, commissions and agencies.

The systems we support are used for drafting, processing, printing, filing, and handling of bills, resolutions, journals, calendars, committee reports, research reports, and other legislative documents. LIS is responsible for the operation of the legislative data center, network, and associated equipment and software.

Software Developer
