

# FEDERAL FUNDS TO STATE AGENCIES FY 2018-2020

*August 2020*

ILLINOIS GENERAL ASSEMBLY  
**COMMISSION ON GOVERNMENT  
FORECASTING AND ACCOUNTABILITY**

## COMMISSION OVERVIEW

The Commission on Government Forecasting & Accountability is a bipartisan legislative support service agency responsible for advising the Illinois General Assembly on economic and fiscal policy issues and for providing objective policy research for legislators and legislative staff. The Commission's board is comprised of twelve legislators—split evenly between the House and Senate and between Democrats and Republicans. Effective December 10, 2018, pursuant to P.A. 100-1148 the former Legislative Research Unit was merged into the Commission.

The Commission has three internal units—Revenue, Pensions, and Research, each of which has a staff of analysts and researchers who analyze policy proposals, legislation, state revenues & expenditures, and benefit programs, and who provide research services to members and staff of the General Assembly. The Commission's staff fulfills the statutory obligations set forth in the Commission on Government Forecasting and Accountability Act (25 ILCS 155/), the State Debt Impact Note Act (25 ILCS 65/), the Illinois Pension Code (40 ILCS 5/), the Pension Impact Note Act (25 ILCS 55/), the State Facilities Closure Act (30 ILCS 608/), the State Employees Group Insurance Act of 1971 (5 ILCS 375/), the Public Safety Employee Benefits Act (820 ILCS 320/), the Legislative Commission Reorganization Act of 1984 (25 ILCS 130/), and the Reports to the Commission on Government Forecasting and Accountability Act (25 ILCS 110/).

- The Revenue Unit issues an annual revenue estimate, reports monthly on the state's financial and economic condition, and prepares bill analyses and debt impact notes on proposed legislation having a financial impact on the State. The Unit publishes a number of statutorily mandated reports, as well as on-demand reports, including the Monthly Briefing newsletter and annually, the Budget Summary, Capital Plan Analysis, Illinois Economic Forecast Report, Wagering in Illinois Update, and Liabilities of the State Employees' Group Insurance Program, among others. The Unit's staff also fulfills the agency's obligations set forth in the State Facilities Closure Act.
- The Pension Unit prepares pension impact notes on proposed pension legislation and publishes several statutorily mandated reports including the Financial Condition of the Illinois State Retirement Systems, the Financial Condition of Illinois Public Pension Systems and the Fiscal Analysis of the Downstate Police & Fire Pension Funds in Illinois. The Unit's staff also fulfills the statutory responsibilities set forth in the Public Safety Employee Benefits Act.
- The Research Unit primarily performs research and provides information as may be requested by members of the General Assembly or legislative staffs. Additionally, the Unit maintains a research library and, per statute, collects information concerning state government and the general welfare of the state, examines the effects of constitutional provisions and previously enacted statutes, and considers public policy issues and questions of state-wide interest. Additionally, the Unit publishes First Reading, a quarterly newsletter which includes abstracts of annual reports or special studies from other state agencies, the Illinois Tax Handbook for Legislators, Federal Funds to State Agencies, various reports detailing appointments to State Boards and Commissions, the 1970 Illinois Constitution Annotated for Legislators, the Roster of Illinois Legislators, and numerous special topic publications.

# Federal Funds to State Agencies

**FYs 2018–2020**

*Annual Report to the Illinois General Assembly*

*Publication No. 472*

**August 2020**

*Prepared by*

Kathleen M. Hazelwood, Federal Aid Coordinator

*Proofing*

Jonathan Wolff, Associate Research Unit Manager

Alexis Dawson, Research Associate

The Commission on Government Forecasting and Accountability compiled the information in this volume from a comprehensive survey of all Illinois state agencies. The publication of *Federal Funds to State Agencies, FYs 2018-2020* would not have been possible without the cooperation and support of many program managers, budget analysts, and state agency directors. Although it is not possible to list every individual's name, we are grateful to all for their contribution.

## **Foreword**

The *Illinois Compiled Statutes* require the Commission on Government Forecasting and Accountability to compile and maintain information on federal aid programs administered by Illinois state agencies, and to report to the Illinois General Assembly on those programs. *Federal Funds to State Agencies, FYs 2018-2020*, the twenty-ninth edition of this report, is submitted by the Commission on Government Forecasting and Accountability to fulfill this responsibility.

This edition includes program descriptions and outlay information, as well as sections to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the trust fund(s) used for depositing the federal grants, and a table indicates which state programs are supported and what areas and populations of Illinois are served by the federal grants.

It is the hope of the Commission on Government Forecasting and Accountability that this handbook will be a useful resource for legislators in enhancing their understanding of federal assistance.

Clayton Klenke  
Executive Director

## INTRODUCTION

The Commission on Government Forecasting and Accountability, a bipartisan support services agency of the Illinois General Assembly, has a responsibility of serving as the “. . . information center for the General Assembly in the field of federal-state relations, . . . and compiling and maintaining current information on available and pending federal aid programs.” (25 ILCS 130/4-2.1) In meeting this responsibility, the Commission on Government Forecasting and Accountability records and tracks applications for, and awards of, federal grants to state agencies. In addition, the Commission on Government Forecasting and Accountability conducts an annual survey designed to identify federal funds received by Illinois state agencies.

This *Federal Funds to State Agencies* report is designed to provide legislators and legislative staff with a comprehensive guide to federal funds that are received by state agencies. It augments the information provided in the Commission on Government Forecasting and Accountability’s weekly reports of federal fund transactions by listing federal aid awards on a state or federal fiscal year basis and including descriptive program information. Weekly reports and quarterly reports are available on the Commission on Government Forecasting and Accountability website. This report is designed to help legislators and legislative staff develop a clearer understanding of the federal programs used by Illinois state agencies, and of the levels at which those programs are funded.

The Commission on Government Forecasting and Accountability is also required to report annually to the General Assembly on the adequacy of state agency participation in programs financed by federal aid and the nature of federal aid programs in which state agencies or local governments did not participate, and to make recommendations. (25 ILCS 130/4-2.1(c))

### **Adequacy of Participation in Federal Aid Programs**

Each state agency, in its budgetary process with the General Assembly, reports evaluation and funding data as required. Through this process, the General Assembly receives information on the adequacy of programs financed by federal aid in the state. The Commission on Government Forecasting and Accountability, as requested or assigned by members of the General Assembly, produces special reports relative to federal funds.

### **Identification of New Federal Funds (Types and Nature of Programs Not Applied for)**

The Commission on Government Forecasting and Accountability works with the Illinois Federal Clearinghouse in the Governor’s office to identify and make information available on federal aid programs that may provide resources for state agencies and local governments. Extensive Clearinghouse information, including referrals to the Commission on Government Forecasting and Accountability’s publications, such as *Grant Alerts*, is available on the Commission on Government Forecasting and Accountability website. *Grant Alerts* is also published monthly and emailed to potential grant users throughout the state.

### **Recommendations**

The Commission on Government Forecasting and Accountability will make recommendations as deemed appropriate.

## Overview

Illinois state agencies received federal funds from 322 programs in FY 2020, 1 of which is a program supported by American Recovery and Reinvestment Act of 2009 (ARRA) funds.

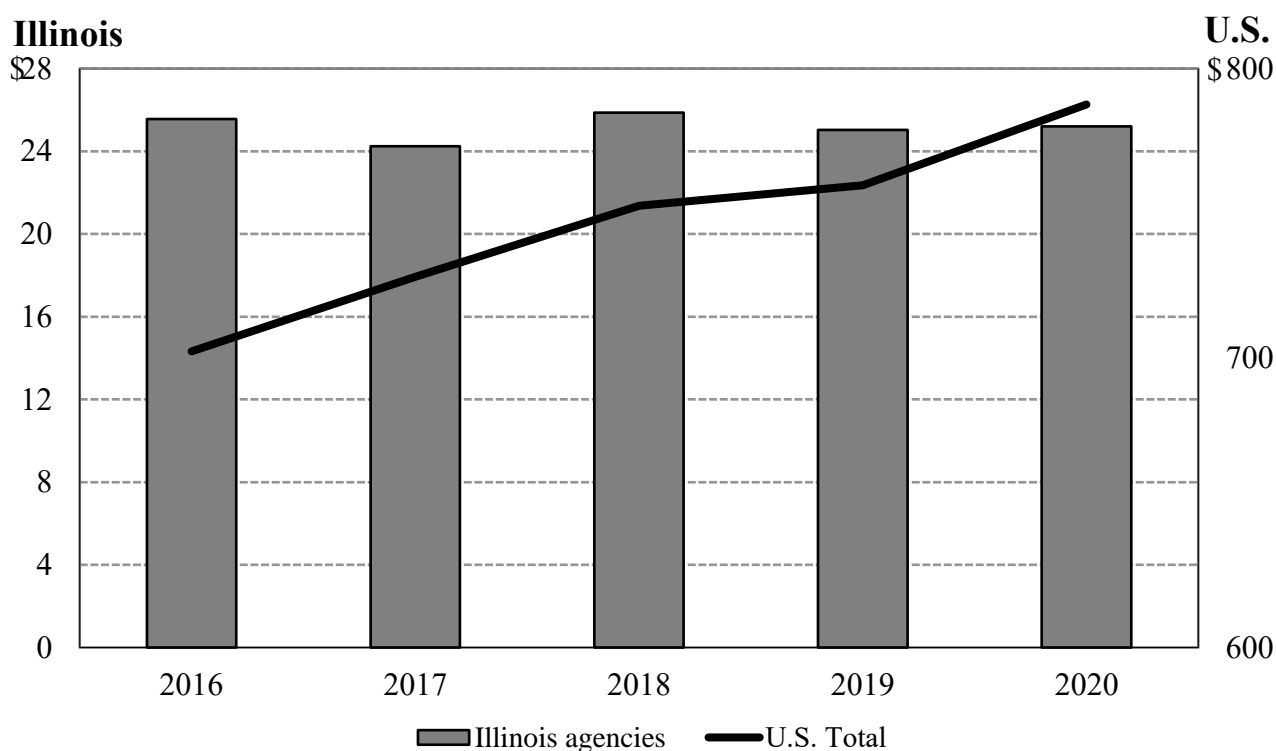

Table 1 and Figure 1 below show the total amounts of federal funds that Illinois agencies reported in each year from 2016 to 2019, and the combined estimate for 2020. They also show the total federal outlays (payments) for grants to state and local governments for the same years.

**Figure 1: Federal Funds Received by Illinois State Agencies and Total Federal Grants to State and Local Governments, 2016-2020 (billions)**

In FY 2020, awards received by state agencies are estimated to be about \$729 million above the FY 2019 awards. Program details are summarized in Appendix B.

Some of the major increases in federal funds from FY 2019 to FY 2020 include the Court of Claims' Crime Victim Compensation, the Department of Healthcare and Family Services' Medical Assistance Program, and the Department of Transportation's Highway Planning and Construction.

Programs with substantial reductions include the Criminal Justice Information Authority's Crime Victim Assistance, the Department of Children and Family Services' for Foster Care, and Student Assistance Commissions' Federal Family Education Loan Program.

### Using This Handbook

The federal programs in this handbook were included if the federal funds were received directly from the federal government or a non-state agency (such as a consortium of states that receive federal monies for a particular project or a national study group that pays the state agency for research or services). Programs in which a state agency received funds from another state agency (subgrants) have been excluded to avoid "double counting," or falsely inflating the dollar totals. However, Appendix C on subgrants shows the flow of federal funds from some state agencies to others.

The Table of Contents lists the federal programs used by state agencies from FY 2018 through FY 2020. This table shows the location of the federal program descriptions, as well as which federal programs are used by each state agency. Tables showing federal aid award totals by state agency are appended. Each agency's programs are listed by the numbers assigned by the U.S. Office of Management and Budget in its *Catalog of Federal Domestic Assistance* (CFDA). Descriptions of each program include the proper name, program description (objectives and services provided or supported), formula description, matching requirements, account identification number (federal), and a table illustrating the outlays to Illinois for FY 2018 and FY 2019, and estimated receipts in FY 2020.

This *Federal Funds to State Agencies* handbook contains two sections of state information to assist legislators and staff in linking the federal program data to the state budget. A State Trust Fund section identifies the fund(s) used for depositing the federal grants, and tables show which state programs are supported and what areas and populations of Illinois are served by the federal grants. See the example below:

<b>State Programs Supported</b>	<b>Pop. Served</b>	<b>Area</b>
Empowerment Zone – Chicago	501	Distressed & poverty areas of Chicago
One-Call Enforcement Program	General	Statewide
Performance Partnership Grant	12,860,000	Statewide

Descriptions of the federal programs include their proper names, common names (where appropriate), and five-digit identifying numbers (CFDA numbers). Each CFDA number identifies a federal program and the administering federal agency. In a few instances, in which federal programs are not listed in the *Catalog of Federal Domestic Assistance*, the CGFA has assigned a unique identifying number. CFDA numbers are arranged in ascending order. The list on the following page shows the basic numbering scheme and the corresponding federal agencies. The program description and the formula descriptions come from the CFDA website and can be found at: <https://beta.sam.gov>.

## Information Sources

The basic sources for the fiscal data included in the *Federal Funds to State Agencies* report are the Commission on Government Forecasting and Accountability's annual federal aid surveys, which have examined the use of federal funds by Illinois state agencies from FY 1973 until the present. The fiscal information is supplied directly by the state agencies, and it is assumed the figures are supplied in good faith and are substantially correct. The primary source for the program descriptive information is the U.S. Office of Management and Budget's *Catalog of Federal Domestic Assistance*.

**93.778 MEDICAL ASSISTANCE PROGRAM**

The program (referred to as Medicaid) provides funds under two categories. Each is presented separately below to provide as much detail as possible concerning the purpose, formula, and funding for the various units of this program.

**(1) MEDICAID VENDOR PAYMENTS**

**Program Description:** Authorized under Title XIX of the Social Security Act, Medicaid provides financial assistance to states for the provision of medical care to low-income individuals and others who may be eligible (pregnant women, infants, children, or the elderly), as defined by age and poverty criteria. Certain services must be provided by states for the categorically needy or the medically needy. Federal funds are awarded to a designated state Medicaid agency, and recipients must meet state requirements.

**Formula Description:** Funds are awarded based on a state's Federal Medical Assistance Percentage, which ranges from 50% to 83%. The percentage is determined by a state's medical expenditures and personal income relative to the national average for the three preceding years. There is a maintenance of effort requirement.

**93.596 CHILD CARE MANDATORY AND MATCHING FUNDS OF THE CHILD CARE AND DEVELOPMENT FUND**

The program provides funds under two categories. Each of these categories is presented separately below in order to show the different funding formula for each part.

**(1) CHILD CARE MANDATORY**

**Program Description:** Along with related programs, the program makes grants to states to provide child care assistance to low-income families. It is designed to: (1) allow maximum state flexibility; (2) promote parental choice in child care; (3) encourage states to provide consumer education for parents; (4) help states provide child care to parents trying to gain independence from public assistance; (5) help states implement related programs by implementing the health, safety, licensing, training, and oversight standards; (6) improve child care and development of participating children; and (7) increase the number and percentage of low-income children in high-quality child care settings.

**Formula Description:** Mandatory funds are allocated based on the federal share of expenditures for the now-repealed Aid to Families With Dependent Children (AFDC)-linked child care programs in 1994, 1995, or the average of 1992-1994, whichever is greater.

**(2) CHILD CARE MATCHING**

**Program Description:** The matching funds have the same goals as the mandatory funds.

**Formula Description:** Matching funds are allocated according to the proportion of children under age 13 in each state. Funds are awarded according to the Federal Medical Assistance Percentage rate for each state. To access matching funds, a state must obligate all of its mandatory funds allotted in a fiscal year and maintain 100% of the state’s share of expenditures for the former programs in fiscal years 1994 or 1995, whichever is greater.

**10.676 FOREST LEGACY PROGRAM**

**Program Description:** The program provides grants to protect and conserve environmentally important forest areas threatened by conversion to nonforest uses through conservation easements or fee-simple purchases. The Forest Legacy Program is a voluntary, private land conservation partnership between the Forest Service, participating states, land trusts, private landowners, and others. The program works with state partners and operators on a “willing seller and willing buyer” basis and is completely non-regulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this program.

**Formula Description:** Federal contributions cannot exceed 75% of the total project costs, and at least 25% of a non-federal cost share is required. The non-federal cost share may consist of funds, donations, land or interests in land, in-kind contributions, direct costs, indirect costs, and others as determined by the Forest Service. Funds will be provided to states on a per-project basis, as determined by the annual appropriations. This program has no statutory formula.

### **15.634 STATE WILDLIFE GRANTS (SWG)**

**Program Description:** The program is designed to develop and implement projects that benefit wildlife and fish, and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of the greatest conservation concern.

**Formula Description:** Matching requirements: SWG-formula planning grants require 25% matching, with the federal share not to exceed 75% of total costs; implementation grants require 35% matching, with the federal share not to exceed 65% of total costs; SWG competitive grants require 25% matching, with the federal share not to exceed 75% of total costs. The Secretary must apportion the remaining amount in the following manner: one-third percent based on the ratio of the land area of such a state to the total land area of all such states; and two-thirds percent based on the ratio of the population of such a state to the total populations of all such states. The amounts apportioned under this paragraph must be adjusted equitably so that no state is apportioned a sum of less than 1% or more than 5% of the amount available for apportionment under this paragraph for any fiscal year.

**15.916 OUTDOOR RECREATION—ACQUISITION, DEVELOPMENT, AND PLANNING**

**Program Description:** The program provides grants to help states and local governments prepare Statewide Comprehensive Outdoor Recreation Plans (SCORP) and acquire and develop outdoor recreation areas and facilities for the general public, to meet current and future needs. Basic, rather than elaborate, facilities are favored. Grants are also available for SCORP revisions and updates.

**Formula Description:** Each year, states and territories receive an overall allocation of funds based on a statutory formula. Depending on the amount appropriated by Congress, a certain percentage is split equally among states. The remaining percentage is apportioned on the basis of need. The Land and Water Conservation Fund Act requires that the share of federal funds not exceed 50% of the total project cost. Generally, match must be derived from state, local, or private sources, but under certain conditions all or part of the project sponsor’s matching share may be from other federal assistance programs, such as community development block grants, when such use is allowable under the other programs sponsoring legislation. Otherwise, no other federal funds may be applied to the project cost, even if all matching requirements are met.

**93.069 PUBLIC HEALTH EMERGENCY PREPAREDNESS**

**Program Description:** The program provides a critical source of funding, guidance, and technical assistance to state, local, and territorial public health departments. Preparedness activities

funded by the program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards, including infectious disease outbreaks, natural disasters, and biological, chemical, and radiological incidents and explosions. To help public health departments with their strategic planning, the CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards.

**Formula Description:** This program has a no statutory formula. Awardees must maintain expenditures for healthcare preparedness and public health security at a level that is not less than the average level of such expenditures maintained by the awardee for the preceding two-year period.

**93.815 DOMESTIC EBOLA SUPPLEMENT TO THE EPIDEMIOLOGY AND LABORATORY CAPACITY FOR INFECTIOUS DISEASES (ELC)**

**Program Description:** The program provides funds to address priority domestic capacity-building around Ebola and other emerging and high-infectious diseases. The competing supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, global migration, border interventions, and migrant health; and (2) aligns with ELC’s existing purpose, which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent, and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

### **20.106 AIRPORT IMPROVEMENT PROGRAM**

**Program Description:** The program provides funds to assist sponsors, owners, or operators of public-use airports in the development of a nationwide system of airports adequate to meet the needs of civil aeronautics. The purpose of the law includes the investment in transportation, environmental protection, and airport infrastructure that will support long-term economic benefits. Grants can be made for integrated airport system planning in a specific area, and airport master planning, construction, improvement, or repair of public-use airports. Funds are available for planning, land acquisition, site preparation, construction, alteration or repair, and terminal development. Funds may also be used for operational, safety, and required security equipment.

**Formula Description:** This program has no statutory formula, but funds are allocated based on the number and type of airports in each state; additional funds are available on a discretionary basis. The local match, between 10% and 25%, is determined by a variety of factors. Select pilot studies under the program may have a local match of 50%.

### ***20.505 METROPOLITAN TRANSPORTATION PLANNING AND STATE AND NON-METROPOLITAN PLANNING AND RESEARCH***

**Program Description:** The program provides funding to assist the development of metropolitan and state transportation improvement programs, long-range transportation plans, and other technical studies in a program for a unified and officially coordinated Statewide Transportation System and Metropolitan Transportation System(s) within the state. As a result of this coordinated effort, CFDA # 20.515 has been discontinued. The new CFDA incorporates both the Statewide Transportation and the Metropolitan Transportation Systems.

**Formula Description:** The matching requirements vary. Funds obligated for state and metropolitan planning are granted an 80% percent federal, 20% percent local, ratio. In addition, funds can be transferred from the Federal Highway Administration to form Consolidated Planning Grants, which permit a higher federal match for metropolitan funds.

### 20.509 FORMULA GRANTS FOR RURAL AREAS

**Program Description:** The program provides funding to improve, initiate, or continue public transportation service in non-urbanized areas, rural areas, and small cities under 50,000 in population, and also provides technical assistance for rural transportation providers. The Section 5311 program supports both the maintenance of existing public transportation services and the expansion of those services through the following program goals: enhancing access in rural areas to healthcare, shopping, education, employment, public services, and recreation; assisting in the maintenance, development, improvement, and use of public transportation systems in rural areas; encouraging and facilitating the most efficient use of all transportation funds used to provide passenger transportation in rural areas through the coordination of programs and services; providing financial assistance to help carry out national goals related to mobility for all, including seniors, individuals with disabilities, and low-income individuals; increasing availability of transportation options through investments in intercity bus services; assisting in the development and support of intercity bus transportation; encouraging mobility management, employment-related transportation alternatives, joint development practices, and transit-oriented development; and providing for the participation of private transportation providers in rural public transportation.

**Formula Description:** The program operates under the statutory formula prescribed in 49 U.S.C. 5335. The federal share is not to exceed 80% of the net project cost for capital projects. The federal share may be 90% for the cost of vehicle-related equipment attributable to compliance with the Americans with Disabilities Act and the Clean Air Act, or 85% for the cost of a vehicle that complies with these requirements. The federal share may also be 90% for projects or portions of projects related to bicycle facilities. The federal share may not exceed 50% of the net cost for operating assistance. Recipients may use up to 20% of the amounts apportioned under Section 5311 for ADA complementary paratransit at an 80% federal share if certain conditions are met. Under the Tribal Transit Program, there is no match for formula grants. Under the Tribal Transit Discretionary Program, there is a 10% match requirement.

### **20.513 ENHANCED MOBILITY OF SENIORS AND INDIVIDUALS WITH DISABILITIES**

**Program Description:** The program provides financial assistance in meeting the transportation needs of seniors and individuals with disabilities where public transportation services are unavailable, insufficient, or inappropriate. The Section 5310 program is designated to supplement the FTA’s other capital assistance programs by funding transportation projects for seniors and individuals with disabilities in all areas—urbanized, small urban, and rural. While the New Freedom Program was repealed, the goals of the New Freedom Program have been incorporated into the Section 5310 program, which funds alternative forms of transportation where traditional services are unavailable, inappropriate, or insufficient. Funds can be used for capital, planning, and operations.

**Formula Description:** This program has no statutory formula. Matching requirements are 80%, and Section 5310 funds may be used to finance capital and operating expenses. The federal share of eligible capital costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration, planning, and technical assistance, which may be funded at 100% federal share. Funds for the program are allocated among the states and large urbanized areas by a formula based on the population of elderly persons and persons with disabilities in each state according to the latest U.S. Census population figures.

### **20.521 NEW FREEDOM PROGRAM**

**Program Description:** The program provides grants for the New Freedom Program (Section 5317) for new capital and operating projects aimed at reducing, beyond the requirements of the Americans with Disabilities Act of 1990, transportation barriers faced by individuals with disabilities to expand mobility through transportation, including transportation to and from jobs and employment support services.

**Formula Description:** This program has no statutory formula. New Freedom funds may be used to finance capital and operating expenses. The federal share of eligible capital and planning costs may not exceed 80% of the net cost of the activity. The federal share of the eligible operating costs may not exceed 50% of the net operating costs of the activity. Recipients may use up to 10% of their apportionment to support program administrative costs, including administration, planning, and technical assistance, which may be funded at 100% federal share. The local share of eligible capital and planning costs shall be no less than 20% of the net cost of the activity, and the local share for eligible operating costs shall be no less than 50% of the net operating costs.

**66.419 WATER POLLUTION CONTROL STATE, INTERSTATE, AND TRIBAL PROGRAM SUPPORT**

**Program Description:** The program helps states and interstate agencies establish and maintain adequate measures for the prevention and control of surface and groundwater pollution from both point and nonpoint sources. States and tribes will continue to focus on fulfilling their basic responsibilities under the Clean Water Act based upon a shared understanding with the EPA of the environmental progress expected, and will identify program activities that will best support attaining targeted environmental improvements.

**Formula Description:** Funds are allocated based on the extent of pollution problems in states, using at least 6 components; surface water areas, groundwater use, water quality impairment, point sources, nonpoint sources, and population of urbanized areas. The set-aside for Interstate Water Pollution Control Agencies is 2.6% of the total state monies appropriated under Section 106. The interstate allotment formula consists of a funding floor and a variable portion.

**66.468 CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS**

**Program Description:** The program provides grants to capitalize states’ drinking water revolving funds, which will provide a long-term source of financing for the costs of drinking water infrastructure. In FY 2019, the funding priority established by the Safe Drinking Water Act (SDWA) are for capitalization grants to each state for infrastructure improvement projects that are needed to achieve or maintain compliance with SDWA requirements, protect public health, and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. State and EPA Regions determine priorities for funding in accordance with SDWA. The program supports the agency’s strategic goal of providing for clean and safe water.

**Formula Description:** State allotments are based on the proportional share of total eligible needs reported for the most recent drinking water infrastructure needs survey. The minimum proportional share that each state can receive is 1% of total funds available to states.

**66.605 PERFORMANCE PARTNERSHIP GRANTS**

**Program Description:** The program provides modified block grants to states and tribes to address multiple environmental priorities. Performance Partnership Grants allow states to reduce administrative costs, direct resources to the highest priority problems, and support cross-media approaches and initiatives by combining any of the 20 eligible categorical grants into a single budget. The ongoing goals of the program are strengthening partnerships; providing flexibility to states, tribes, and interstate agencies; linking activities with goals and outcomes; fostering innovative approaches; and providing savings by streamlining administrative requirements.

**Formula Description:** Allocations consist of the cumulative allocations for categorical grants included in the program. Recipients calculate a single cost share based on the match or maintenance of effort requirements of the categorical grants included. This program has no statutory formula.

### **93.586 STATE COURT IMPROVEMENT PROGRAM**

**Program Description:** The program provides formula grants to assist state courts in carrying out their role in the continuum of care provided for families and children at risk. It offers support for the implementation of alternatives and improvements to, as well as the expansion of, successful court systems. It enables state courts to design assessments that (1) identify barriers to timely and effective decision-making; (2) highlight practices that are not fully successful, examine areas in need of correction or added attention, and (3) implement reforms that address the state court's specific needs.

**Formula Description:** Each state court with an approved application is allotted \$85,000. The remainder of the amount appropriated for all state courts will be divided among those courts with approved applications, according to each state's proportionate share of children under the age of 21. Twenty-five percent of the total budget cost is required by non-federal share or match. The same formula and match requirements apply to each of the three Court Improvement Program grants.
