LRB103 29676 BMS 59258 a

1 AMENDMENT TO HOUSE BILL 3957

2 AMENDMENT NO. _____. Amend House Bill 3957 by replacing
3 everything after the enacting clause with the following:

4 "Section 1. Short title. This Act may be cited as the
5 Pharmaceutical and Health Affordability: Restrictions on
6 Manufacturers' Amoral Behavior through Reasonable Oversight
7 Act.

8 Section 2. Legislative Findings.

9 (a) The General Assembly finds that public reports by
10 Congress and the news media have demonstrated the devastating
11 impact that increasing drug prices can have on the 60% of
12 Americans and 90% of seniors that take prescription drugs.

13 (b) The General Assembly further finds that public reports
14 describe a repeated pattern and practice of price gouging by
15 certain prescription drug manufacturers once they acquire the
16 ownership rights for a new generic drug.

1 (c) The General Assembly further finds that price gouging
2 has forced patients to choose between copayments exceeding
3 tens of thousands of dollars per year and risking their health
4 to find a more affordable drug.

5 (d) The General Assembly further finds that this choice
6 has led patients to delay or forgo necessary medications
7 creating greater health risks and complications.

8 (e) The General Assembly concludes that addressing
9 accessibility of these life-saving medications is a matter of
10 health, safety, and welfare for the People of the State of
11 Illinois.

12 Section 5. Definitions. As used in this Act:

13 "Essential off-patent or generic drug" means any
14 prescription drug sold within the State:

15 (1) for which all exclusive marketing rights, if any,
16 granted under the Federal Food, Drug, and Cosmetic Act,
17 Section 351 of the federal Public Health Service Act, and
18 federal patent law have expired;

19 (2) that appears on the model list of essential
20 medicines most recently adopted by the World Health
21 Organization or that has been designated by the United
22 States Secretary of Health and Human Services as an
23 essential medicine due to its efficacy in treating a
24 life-threatening health condition or a chronic health
25 condition that substantially impairs an individual's

1 ability to engage in activities of daily living; and

2 (3) that is actively manufactured and marketed for
3 sale in the United States by 3 or fewer manufacturers.

4 "Essential off-patent or generic drug" includes any
5 drug-device combination product used for the delivery of a
6 drug for which all exclusive marketing rights, if any, granted
7 under the Federal Food, Drug, and Cosmetic Act, Section 351 of
8 the federal Public Health Service Act, and federal patent law
9 have expired.

10 "Manufacturer" has the meaning provided in Section 15 of
11 the Wholesale Drug Distribution Licensing Act. "Manufacturer"
12 does not include an entity operating as a wholesale drug
13 distributor as defined in Section 15 of the Wholesale Drug
14 Distribution Licensing Act.

15 "Price gouging" means an unconscionable increase in a
16 prescription drug's price that:

17 (1) would result in the wholesale acquisition cost of
18 a 30-day supply of the essential off-patent or generic
19 drug exceeding \$20 and would result in an increase in the
20 wholesale acquisition cost of the essential off-patent or
21 generic drug of:

22 (A) 30% or more within the preceding year;

23 (B) 50% or more within the preceding 3 years; or

24 (C) 75% or more within the preceding 5 years;

25 (2) is otherwise excessive and unduly burdens
26 consumers because of the importance of the essential

1 off-patent or generic drug to their health and because of
2 insufficient competition in the marketplace.

3 "Price gouging" does not include a price increase that can
4 be reasonably justified by:

5 (1) an increase in the cost of producing the essential
6 off-patent or generic drug; or

7 (2) the cost of appropriate expansion of access to the
8 essential off-patent or generic drug to promote public
9 health.

10 "State health plan" means the program of health benefits
11 under the State Employees Group Insurance Act of 1971.

12 "Wholesale acquisition cost" has the meaning provided in
13 42 U.S.C. 1395w-3a.

14 "Wholesale drug distributor" has the meaning provided in
15 Section 15 of the Wholesale Drug Distribution Licensing Act.

16 Section 10. Price gouging prohibited.

17 (a) A manufacturer or wholesale drug distributor shall not
18 engage in price gouging in the sale of an essential off-patent
19 or generic drug that is ultimately sold in Illinois.

20 It is not a violation of this Act for a wholesale
21 distributor to increase the price of an essential off-patent
22 or generic drug if the price increase is directly attributable
23 to an increase in the wholesale acquisition cost for the
24 essential off-patent or generic drug imposed on the wholesale
25 drug distributor by the manufacturer of the drug.

1 For the purpose of the enforcement of this Act:

2 (1) the Director of Healthcare and Family Services
3 shall notify the Attorney General of any increase in the
4 price of any essential off-patent or generic drug under
5 the Medical Assistance Program under Section V of the
6 Illinois Public Aid Code that amounts to price gouging;
7 and

8 (2) the Director of Central Management Services shall
9 notify the Attorney General of any increase in the price
10 of any essential off-patent or generic drug under the
11 State health plan that amounts to price gouging.

12 (b) If the Attorney General has reason to believe that a
13 manufacturer or wholesale drug distributor of an essential
14 off-patent or generic drug has violated this Act, then the
15 Attorney General shall send a notice to the manufacturer or
16 the wholesale drug distributor requesting a statement:

17 (1) itemizing the components of the cost of producing
18 the essential off-patent or generic drug;

19 (2) identifying the circumstances and timing of an
20 increase in materials or manufacturing costs that caused
21 an increase in the wholesale acquisition cost of the
22 essential off-patent or generic drug within the 5-year
23 period preceding the date of the price increase;

24 (3) identifying the circumstances and timing of any
25 expenditures made by the manufacturer to expand access to
26 the essential off-patent or generic drug and explaining

1 any improvement in public health associated with those
2 expenditures;

3 (4) identifying any communications with competitors of
4 distributors about that drug and any price changes; the
5 request for a statement shall serve as a litigation hold
6 regarding documents and communications about that drug;
7 and

8 (5) providing any other information that the
9 manufacturer or wholesale drug distributor believes to be
10 relevant to a determination of whether a violation of this
11 Act has occurred.

12 Within 45 days after receipt of the request, the
13 manufacturer or wholesale drug distributor shall submit the
14 statement to the Attorney General.

15 To accomplish the objectives and carry out the duties
16 prescribed in this Act, the Attorney General may issue
17 subpoenas or examine under oath any person to determine
18 whether a manufacturer or wholesale drug distributor has
19 violated this Act.

20 (c) Upon petition of the Attorney General, a circuit court
21 may issue an order:

22 (1) compelling a manufacturer or a wholesale drug
23 distributor:

24 (A) to provide a statement required under
25 subsection (b); or

26 (B) to produce specific records or other documents

1 requested by the Attorney General that may be relevant
2 to a determination of whether a violation of this Act
3 has occurred;

4 (2) restraining or enjoining a violation of this Act;

5 (3) restoring to any consumer, including a third-party
6 payor, any money acquired as a result of a price increase
7 that violates this Act;

8 (4) requiring a manufacturer or wholesale drug
9 distributor that has engaged in price gouging in the sale
10 of an essential off-patent or generic drug to make the
11 drug available to participants in the State health plan or
12 Medical Assistance Program under Section V of the Illinois
13 Public Aid Code for a period of up to one year at the price
14 at which the drug was made available to participants in
15 Illinois immediately before the violation of this Act;

16 (5) imposing a civil penalty of up to \$10,000 per day
17 for each violation of this Act;

18 (6) providing for the Attorney General's recovery of
19 costs and disbursements incurred in bringing an action
20 against a manufacturer found to be in violation of this
21 Act, including the costs of investigation and reasonable
22 attorney's fees; or

23 (7) granting any other relief.

24 In response to any petition brought by the Attorney
25 General under this Section, a manufacturer or wholesale drug
26 distributor who is alleged to have violated this Act may not

1 assert as a defense that the manufacturer or wholesale drug
2 distributor did not directly sell a product to a consumer
3 residing in Illinois.

4 (d) Any financial information provided by a manufacturer
5 or a wholesale drug distributor to the Attorney General in
6 accordance with this Section may not be disclosed to the
7 public by the Attorney General. The financial information,
8 while in the possession of the Attorney General, shall be
9 exempt from disclosure by the Attorney General under the
10 Freedom of Information Act. Notwithstanding the other
11 provisions of this subsection, if it appears to the Attorney
12 General that a manufacturer or wholesale drug distributor has
13 engaged in or is engaging in any practice declared to be in
14 violation of this Act and that legal proceedings would be in
15 the public interest, then the Attorney General may disclose
16 any financial information provided in accordance with this
17 Section in support of the filing of an action in the circuit
18 court.

19 Section 99. Effective date. This Act takes effect January
20 1, 2024.".
