

### **Carl Nyberg Short Description**

“District 1, which includes Chinatown, is 23% Asian and 51% white. I think there is a reasonable chance an Chinese American candidate can be elected.

District 2, which includes West Ridge, is 17% Asian and 56% white. There is some chance a South Asian candidate will be elected. Whomever is elected will have to pay attention to the Jewish community and South Asian community.

District 3 is 52% Hispanic and I expect will elected a Hispanic from the NW Side.

District 4 is 42% Black and includes Hyde Park, Downtown, South Shore, Lincoln Park. I expect it to elect a Black candidate who appears educated and polished to affluent whites who live in condos.

District 5 is 62% white and includes Rogers Park, Edgewater, Uptown, Lakeview.

District 6 is the 52% Hispanic district that is a wraparound that includes some of the SW Side, but is more NW Side.

District 7 is 57% Black and is dominated by the West Side but includes a good chunk of the NW Side, especially near O'Hare.

District 8 is 76% Hispanic and is a SW Side region I call Madigan land.

District 9 is 83% Black and includes various Black communities north of 95th and west of Ashland.

District 10 is 70% Black and almost entirely south of 95th.”
