States the belief that O'Hare International Airport's noise monitoring technology should be coupled with artificial-intelligence software to match the noises perceived by each station at each time to specific individual flight operations and the operations of individual airlines and to gauge the compliance of each individual airline firm with the guidelines set down in the Fly Quiet Program. Calls for a measurable improvement in Fly Quiet compliance no later than January 1, 2017, with further improvements to follow. Urges the Aviation Department of the City of Chicago to select a trusted third party that represents the interests of O'Hare International Airport's noise neighbors and to share the information enumerated in this resolution with this third party. Urges the Aviation Department and the trusted third party to collaborate to develop a rank-ordered chart of each airline firm's compliance with Fly Quiet Program guidelines. Urges the Aviation Department and the trusted third party to give the charts explicit and formal consideration as elements in any decisions made, subsequent to the start of the generation of this data and these charts, on the reallocation of departure gates and support facilities at O'Hare International Airport.

Expresses support for the Illinois Department of Natural Resources' public education campaign, that informs the public about the exact steps to take if a sick, injured, or orphaned animal is encountered in the wild.

SENATE COMMITTEE AMENDMENT NO. 1

Removes language showing support for a robust Department of Natural Resources public education campaign that informs the public about the steps to take if a sick, injured, or orphaned animal is encountered in the wild and for increasing public education outreach in the spring months when many baby animals are mistaken as orphaned and should be left as they were found. Urges the Department of Natural Resources to administer a public education campaign that informs the public about the steps to take if a sick, injured, or orphaned animal is encountered in the wild and to increase public education outreach in the months of March and April when infant animals are mistaken as orphaned and should be left as they were found.

States opposition to the proposed change of the Determination of Need Score minimum threshold from 29 to 37, which would result in thousands of people with disabilities and seniors being left without critical support for activities of daily living in their own homes. Urges the Governor and the Illinois Department of Human Services to withdraw any and all plans to amend the Medicaid State plan to change the Determination of Need score requirements.

SENATE FLOOR AMENDMENT NO. 1

Replaces everything after the heading with similar language. Adds the Department of Healthcare and Family Services to the list of agencies that announced changes to the minimum threshold for eligibility to enter the Community Care Program and adds Supportive Living Facilities and nursing homes to the list of those institutions affected by those changes. Clarifies that Medicaid waiver service would be adversely affected by changes to the Determination of Need Assessment score requirement minimums. States that the members of the house of Representatives find it unconscionable to deny tens of thousands of people with disabilities and seniors the opportunity to receive vital care and support services. States that proposed changes to the Determination of Need score were made without any input from those that advocate for the needs of individuals with disabilities and the elderly. States that each resident residing in a nursing home with support from the State's Medicaid Long Term Care Program saves Illinois taxpayers hundreds of thousands of dollars by preventing unnecessary emergency room and hospital visits. Adds Illinois nursing home workers to the list of thousands of citizens who would be left without employment when consumers are made ineligible for assistance through the proposed changes. State the body's opposition to the proposed change of the Determination of Need Score minimum threshold from 29 to 37, which would result in thousands of people with disabilities and seniors being left without critical support for activities of daily living in their own homes and access to critical medical care in nursing homes.

Commends Chicago Mayor Rahm Emanuel for his commitment to building high speed train service between O'Hare International Airport and downtown Chicago and urges all State agencies to provide any and all assistance to the City of Chicago in implementing this crucial transportation project. Calls upon Congress to return to their previous practice in Fiscal Year 2010 of appropriating \$2.5 billion in the annual federal budget for capital grants to states for high speed rail projects in order to help fund this high speed rail project.

Urges the Federal Energy Regulatory Commission, the Illinois Commerce Commission, and the Illinois Power Agency to independently review the PJM Interconnection LLC and Midwest Independent System Operator capacity auction rules and market design and determine why the rules and market design have not protected Illinois ratepayers from significant increases, investigate whether all auction rules were followed in the most recent PJM and MISO auctions and, if so, to determine whether additional protections are necessary to ensure to protect

ratepayers from excessive rates and charges, and independently investigate whether market power was exercised by any auction participants, including the withholding of certain generation assets intended to drive up the clearing price, and whether the market design for capacity auctions allows for the exercise of market power. Urges the Illinois Commerce Commission and the Illinois Power Agency to participate in Federal Energy Regulatory Commission proceedings that will address the design and operation of the capacity market planning processes and auction practices utilized by PJM and MISO and to promote policies in those proceedings that will ensure greater transparency, prevent the exercise of market power by bidders, and to deliver capacity resources to Illinois consumers at the lowest and most stable prices.

Commends the generation of new CNEL data as a way for the communities around O'Hare International Airport to better understand the impact of airport noise on their communities and quality of life. Commends the City of Chicago for supporting P.A. 99-202 and calls upon it to continue to take steps to implement the law and generate the data mandated by this Public Act. Calls upon the Federal Aviation Administration to assist the City of Chicago in the implementation of P.A. 99-202, including the siting, re-siting, and re-equipping of noise monitoring stations, and the generation and publication of data generated by these stations in conformity with CNEL professional standards. Re-affirms the noise contour maps that cover areas surrounding O'Hare Airport, and describes that the impacts of noise upon these communities, should be based upon the best and newest possible data and technology. Calls upon the FAA to use new CNEL data to revisit the existing noise contour maps that cover areas surrounding O'Hare Airport, and to promptly redraw these maps as new airport noise data is submitted.

SR-1553 L. MURPHY AND MULROE.

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.

Affirms our support for protecting and advancing the constitutional rights and equitable treatment of all and our opposition to discrimination, prejudice, homophobia, and transphobia. Strongly urges the North Carolina General Assembly to repeal the "Public Facilities Privacy & Security Act" and for the Mississippi Legislature to repeal the "Protecting Freedom of Conscience from Government Discrimination Act" at the earliest opportunity. Encourages all businesses providing public accommodations in North Carolina and Mississippi to demonstrate their support for the dignity of all people by openly welcoming LGBT people to their places of business and by providing gender non-specific bathroom facilities for their customers and employees wherever practicable. Commends the Rauner administration for closing the EDGE credit loophole. Urges the Governor and the Department of Commerce and Economic Development to continue working with the General Assembly to tighten accountability in all corporate incentive programs. Urges Mondelez International to reconsider its decision to move production lines out of Chicago and out of the United States, and instead to work fairly and in good faith with its loyal employees, the unions that represent them, and the State of Illinois in order to keep Oreos American-made and continue to invest in its human capital in a city that has supported its products' success for many decades.

SENATE FLOOR AMENDMENT NO. 1

Replaces everything after the heading with similar language. Adds language regarding Mondelez's State EDGE tax credit status, the company's inability to utilize the EDGE credit, and the use of EDGE credits by other companies.

Urges all federal, State, and county legislators and officials to consider and enact policies to enhance access to mental health services at multiple levels in the criminal justice system which will create better results for both the individual and the system. Shows support for a wide range of programs to improve mental health treatment for individuals involved in the criminal justice system aimed to aid communities to end recidivism. Urges the law enforcement community to consider the integration of mental health treatment and services such as crisis intervention teams into the criminal justice system spectrum, in an effort to address mental

health crisis situations and to reduce arrest rates. Calls upon all states and the federal government to examine the costs and benefits of suspending Medicaid coverage instead of termination of coverage for individuals in the criminal justice system and to allow Medicaid coverage to be suspended for incarcerated persons instead of being terminated. Calls upon the states and the federal government to consider promising criminal justice interventions and policies for mentally-ill offenders such as diversion programs and mental health courts to send seriously mentally ill offenders to community-based mental health treatment programs instead of prison or jail.

Urges the General Assembly to apply any revenues which exceed expenditures to the payment of any old bills that are more than 45 days past the due date, including General Revenue Fund and non-General Revenue Fund expenditures, at the close of each fiscal year and to direct such revenues to the Budget Stabilization Fund if there are no pending bills over 45 days past the due date. Urges the General Assembly to provide for the use and maintenance of the Budget Stabilization Fund by appropriating any excess amounts "off the top" of estimated available revenues to the Budget Stabilization Fund should the growth in the annual revenue estimate exceed 3% from the previous year's estimated revenues and applying any revenues which exceed expenditures to the Budget Stabilization Fund should no unpaid bills remain due over 45 days at the close of each fiscal year.

HR-1011 FORD - FLOWERS - WALLACE - DAVIS, MONIQUE - LILLY AND EVANS.

Requests President Obama to commission a study to detail the economic impact of the slave trade and the use of slave labor; and how Emancipation, while freeing them of their literal bonds, and ending an immoral practice, did not guarantee equality in education, employment, housing, and access to quality affordable health care; that this study also include an analysis for how reparations for past harms have benefited the ethnic groups that have received them during the course of American history; and a proposal for reparations to the descendants of slaves in America, and how those reparations can help overcome obstacles that still exist today in education, employment, housing, health care, and justice.

HOUSE FLOOR AMENDMENT NO. 1

Adds language that states that the proposed study regarding the economic and social costs of slavery should only include a proposal for reparations to the descendants of slaves in America if such a proposal is recommended in the study itself.

HR-1023 WINGER - MCAULIFFE AND LILLY.

Urges the Chicago Department of Aviation to develop a more comprehensive, aggressive Fly Quiet program, including the development of a Continuous Descent Approach, a review of Noise Abatement Department Procedures, the act of maintaining at least 2 operating runways and leaving a third runway open during Fly Quiet hours, including at least one diagonal runway, and the operating use of a Runway Rotation Plan, to disperse airport noise effects during Fly Quiet hours. Urges the Chicago Department of Aviation to revise and strengthen the Fly Quiet Program Manual and operating procedures to create a pathway toward partial compliance with Fly Quiet during non-optimal weather conditions, and better familiarity between air traffic controllers and Fly Quiet principles. Recommends that the Fly Quiet Program Manual should be studied and revised at regular, periodic intervals; these reviews should include, but not be limited to, the assessment of departure paths and headings from O'Hare's newest runways and determine the best runway configurations, with the goal of directing flights over less-populated areas and reducing population impacts. Urges that the stakeholders should work together to study and implement Fly Quiet Program Manual voluntary operating procedures outside of normal Fly Quiet hours. Urges the Chicago Department of Aviation to make every effort to work with its private partners to discourage and phase down the use of older and noisier aircraft, including but not limited to the MD-80 and DC-10 aircraft, on a 24/7 basis but especially during Fly Quiet hours. Urges the Chicago Department of Aviation to enhance the report card program to measure and publicly report on the noise mitigation performance metrics posted by airlines and air cargo operators throughout the 24/7 day, but especially with respect to operations during Fly Quiet hours.
