Supporting: HB-5574 HA 1 Emergency Rental and Homeowner Protection Act

Testimony:

I am in support of the Emergency Renters and Homeowner Protection Act HB5574 because as a teacher who lives in the community I teach in I know that there are many families who are facing the threat of loosing their homes during this crisis. I is uncontainable that families would have to face the devastating blow of loosing their homes after already facing loss of income during a pandemic. Please make this bill a priority.
