Testimony:

if we have to stay home to stop the spread- and a lot of businesses are closed due to local mandates, and the people who work at those closed businesses dont have any income, WHY are we not helping people? youre going to tell someone who has been out of work for two months to just magically have rent money? from where? i support the Emergency Renter and Homeowner Protection Act, HB5574 because it just makes sense. use your brains and your hearts people.
