Severin: "Thank you. Heavenly Father, we thank You for this day and I thank You for the opportunity to come before You this morning. And I just ask for your wisdom and guidance and direction in this building not just today, but each day as we gather as Legislators. I pray that You would just give us guidance. I pray that You would give us wisdom. I pray that you would us a mental fortitude to accomplish what needs to for this state. I'm not asking for Your blessings, Lord, You've already done that for us. I'm asking for wisdom this day, Lord and help us to honor You, help us to give You the credit when You give us that wisdom and direction. Again, I thank You for my fellow Legislator. This day I thank You for loving us and taking care of us and help us to always honor You. In Your name, Amen."

Speaker Lang: "We'll be led in the Pledge by Mr. Stewart."

Harris, D.: "Thank you, Mr. Speaker. Point of personal privilege, please."

Harris, D.: "And this morning I'd like to give a little bit of good news to the folks in the Rockford area. Because the Rockford... the Rockford International Airport was given an award recently for the outstanding recognition for a maintenance... Aircraft Maintenance and Overhaul Facility. They were awarded that in February of this year. And they were nationally recognized by the AAR Aircraft Maintenance and Overhaul Facility organization. So, hats off to the folks in Rockford."

Speaker Lang: "Thank you, Sir. Leader Currie is recognized."

Speaker Lang: "Thank you, Leader. Representative Willis."

Willis: "Members of this august Assembly, I'm standing today to be both heartbroken, angered, and just downright frustrated. Yesterday we talked about a tragic shooting in Dixon,

Illinois. As we're speaking, we're hearing the results of shooting again in another high school. This time in Sante Fe, Texas. We know of as this time that there are eight young people that have lost their lives. This is unacceptable. Governor, we are giving you solutions to try to stop this and you continue to stop us every time we come forward with something. We've reached out across the aisle to come to what we feel are sensible solutions to try to do this. Is there any one thing that's going to stop it? No. It's going to take a lot of work. It's going to take a lot of hard work together. But I am at the point in my life where I do not, I repeat, I do not want to stand up for another moment of silence, because somebody has tragically lost their life to senseless gun violence. That is what we are seeing happening every day, every week; it is some part of this nation we are hearing about this. We are hearing about a mass shooting of somebody that shouldn't have a gun, getting a gun, doing senseless shootings. It's because we don't have the proper mental health out there. We are not taking proper steps to secure guns to keep them out of the wrong people's hands. We are not educating our communities on how to deal with this gun violence. We're not doing a lot of things. And it is time we step forward and do it. We have these solutions right at our hands. We're going to have a hearing on Monday to talk about more of these solutions. But we put forth before the Governor a Gun Dealer Licensing Bill that we know will stop some gun tragedies. Will it stop them all? No. But it will stop some and if that one person is stopped from being shot is somebody that you care about, darn, that's a good Bill. We have a Bill

that's been put forth to stop bumping... ban bump stocks and trigger cranks. Again, the Governor is fighting us on that. We had a Bill that made us have a 72-hour wait period; again, the Governor stopped that. We have to keep going. We have a firearm restraining order that we worked very hard across the aisle to see put forward. We need to have that put in to action and we need to have the Governor sign that Bill and put it forth so that we can stop the senseless... the violence that is happening every day in our schools. Please, I urge this Body to work with me to get the message to the Governor that this must stop. And I do not want to have to stand for another moment of silence for somebody senselessly killed. Thank you."

Speaker Lang: "Mr. Riley."

Riley: "Thank you, Mr. Speaker. I would just like the record... just like the record to show that I intended to vote 'no' on Senate Bill 1008."

Speaker Lang: "The record will reflect your intention. Mr. Halbrook."

I want to thank everybody that came out and participated, everybody that came out and supported us. And it was great comradery for both sides of the aisle. And hopefully during all these rough times, these next couple of weeks, it can bring us to some common ground and we can succeed here in the House. So, thanks again. Good job."

standing up here and we're so proud of them here in Springfield. One of my favorite cheers even when I was growing up was the cheer from the Southeast Spartans where one side says, what side, what side, what side and they say, eastside, eastside, eastside. And we have been very proud of them. This Resolution congratulates them in their school's first ever appearance in the state tournament. They have competed in the Class 3A State Championship game in March and they had 29 wins, 4 losses. And it was so exciting and they inspired our community with passion for their team and the school and our City of Springfield. We were delighted to introduce this House Resolution to congratulate them on their incredible season. And joining us today in the gallery is Head Coach, Lawrence Smith and the student athletes that have accomplish so much in this past year and are example to all the hard work and determination on the basketball court and especially in the classroom. If you'd please join me in congratulating the Southeast High School Boys basketball team on a terrific 2017-2018 season."

Speaker Lang: "Congratulation. Thanks for joining us today. Mr. Olsen, do you wish to rise to this Resolution? This Resolution has already been adopted. The Chair recognizes Mr. Olsen."

The intent of this Bill is to be similar to the alert... Amber Alert. Where we go looking for children immediately if reported missing. And provide them with reimbursement for state filing, permitting, or licensing fees. Subject to appropriation. The program originally focused only on new information services, biotech and green technology companies. And with this Bill, it opens the programs to entrepreneurs of any type of Illinois business. And the Bill states that entrepreneurs should apply for the program within one year of starting their business. Passed the Senate unanimously and I ask for your 'aye' vote."

Ives: "My analysis of this Bill actually says that it doesn't allow the fines just to stay within the county, but they actually have to be given to the county's animal control center only. Is that the case?"

Stuart: "Yeah. These are funds designed for animal control to let animal control... they... counties have practices in place to provide spay and neuter programs and this allows the animal control to use those funds for that."

Ives: "But every bit of these fines collected would have to go simply to animal control and the county could not otherwise use funds for anything else but that."

As I look around the chamber at my colleagues I'm so proud to see so many intelligent, talented woman on both sides of the aisle who have dedicated to representing their communities and improving the lives of people in our state. Half of our own caucus is composed of those powerful women. Most of us mothers and we work every day to find the balance of being both effective Legislators and good parents even if that means bringing our babies to the floor with us, like we're doing just today. While we still have a lot of work to do to make Springfield a better... a better place for women in many ways we have come far in our State Government over the years. But when we look at Capitol Hill where our very own Senator Tammy Duckworth was the first U.S. Senator to give birth while in

office and had to receive special permission to bring her child on the Senate Floor. It's a reminder of the glass ceiling that we face in the workplace. Men in the Legislature and all of the workplaces are generally not forced to navigate between affective... being effective at their jobs and taking care of their physical wellbeing of themselves and their children and their husbands or spouses the way that most women who are mother do. In a couple of weeks... a couple of week ago, we had vote on a Bill to allow breastfeeding so mothers were reasonably accommodated to pump milk at work. There's a Bill in the House right now to address the fact that many courthouses don't have adequate space for breastfeeding for women including members of the public and lawyers who are just trying to do their job. Women in the workplace are still being discriminated against for being pregnant. They're still being forced to choose between the physical wellbeing of themselves and their children and keeping their job. This is happening even with laws like the pregnant... Pregnancy Discrimination Act that Representative Flowers introduced that is in law and laws that can be weakened and replaced. We need the Equal Rights Amendment now to ensure that women are not forced to completely sacrifice caring for themselves and their children in order to provide for their families. Governor Rauner, I spoke to you this week and I said I love you, and I bless you and I'm praying for you, but it is also your responsibility that falls heavy for this state. The responsibility to all the working mothers in Illinois to encourage, please encourage my colleagues on both sides of the aisle and your Republican counterparts to do the right

thing by women and support the Equal Rights Amendment. Thank you, Speaker."

Speaker Lang: "Representative Ives."

Ives: "Thank you, Mr. Speaker. I rise for a point of personal privilege."

Speaker Lang: "You may proceed."

Ives: "While I appreciate the previous speaker's remark, I'd like to point out that if we were to pass the ERA Amendment everything that she just spoke about and advocated for would be gone. There would be no distinction between sexes at all. There would be no breastfeeding rooms. There would be no Bills as Representative Moeller even passed stating that we should have a women's task force that dealt with women's issues. All of that would be negated if we were to pass an ERA Amendment. It would literally say there is no distinction or difference between sexes, which is absolutely ridiculous and unscientific. So, enough of this. Let's... let's just get back to the duties and the work that we're supposed to do here. I will tell you what. Personally, I have never felt that my progress in the State House has been impeded by my sex nor have I ever felt held back by my sex. Women have more opportunities than ever before in our lifetime. Women complete more college degrees than men do. So, let's just realize that scientifically speaking there is a difference between the sexes and yet come up with a number of Bills. You have proposed a number of Bills to recognize that distinction and I'd just like to point that out. Thank you very much."
