Wayne Padget: "Lord, as we prepare for Session today, I ask freshness of your spirit to quicken our thinking, that out of confused issues may come simplicity of plan, that out of fear may come confidence, that out of hurry may come deliberation, and that out of frustration may come guidance. Let us work together not head first, but heart first. May we be able to disagree without being disagreeable, to differ without being difficult, to be honest without tension, to be frank without offense in an atmosphere of team spirit. These things we ask in your son's name, Amen."

Speaker Manley: "We will be led in the Pledge of Allegiance today by Representative Severin."

Severin - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Manley: "Roll Call for Attendance. Leader Harris is recognized to report any excused absences on the Democratic side of the aisle."

Harris: "Let the record reflect that Representatives Ammons and Gordon-Booth are excused today."

Speaker Manley: "Leader Welter is recognized to report any excused absences on the Republican side of the aisle."

Welter: "Speaker, let the record reflect, on the Republican side of the aisle, that Representative Sosnowski, Stephens, and Miller are excused for the day."

Speaker Manley: "Have all recorded themselves who wish? Mr. Clerk, please the record. There being 113 Members answering the roll call, a quorum is present. Members, an announcement. This is

Speaker Manley: "Third Reading. Mr. Clerk."

Clerk Bolin: "House Bill 2628, a Bill for an Act concerning veterans. Third Reading of this House Bill."

Speaker Manley: "Representative Kifowit."

Kifowit: "Thank you, Madam Speaker. I was appointed to the Governor's Challenge, which is a nationwide initiative of states to work to prevent veterans' suicide. Twenty-two other states have a Veterans Prevention Suicide Commission. This models what other states do in order to have a holistic all-state on-hands initiative to prevent veterans' suicide. This forms the commission. Again, over 22 other states have this type of form of commission. And I ask for your support in preventing veterans' suicide."

Speaker Manley: "The question is, 'Shall House Bill 2628 pass?' All those in favor vote 'aye'; opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? LaPointe: "Speaker..."

Speaker Manley: "Mr. Clerk."

Clerk Bolin: "House Bill 3850, a Bill for an Act concerning criminal law. No Committee Amendments. Floor Amendment #3 is offered by Representative LaPointe."

Speaker Manley: "Representative LaPointe on the Amendment."

LaPointe: "House Amendment 3 was unanimously adopted in committee, and it integrates feedback from DHS and the Special Supreme Court Advisory Committee for Justice and Mental Health Planning, which is a committee of judges that implement treatment courts all around the state. I ask for its adoption."

Speaker Manley: "Representative LaPointe moves for the adoption of Floor Amendment 3 to House Bill 3850. All those in favor say 'aye'; opposed say 'nay'. In the opinion of the Chair, the 'ayes' have it. And the Amendment is adopted. Mr. Clerk, any further Amendments?"

court statutes and better aligns them with evidence-based practices. These are our drug courts, our mental health courts, and our veterans' courts. Sometimes called problem solving courts, these courts are a critical tool in our menu of options of alternatives to incarceration, and they hold people accountable while also getting at the root causes of crime. We have a lot of research about what the evidence based around treatment courts are because they've been around for a while and they've proliferated nationally and around the State of Illinois. So, in short, this Bill updates the three statutes, brings them in alignment with evidence-based practices. And I'd be happy to answer any questions."

Speaker Manley: "On this question, 'Shall House Bill 3850 pass?' All in favor vote 'aye'; opposed vote 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Speaker Manley: "Representative Jones."

Jones: "Thank you, Madam Speaker. I'd just like to state quickly that this Bill does not outlaw the issue of memberships. This Bill seeks to allow the Department of Insurance to regulate companies that sell insurance products but are not regulated by the Department of Insurance. We had a healthy debate in the Insurance Committee regarding this Bill. There has been some legal action that has been taken. We tried to incorporate that into the Amendment. This Bill, as I said, does not outright... outlaw membership, it just allows the Department of Insurance to regulate any insurance product. There's one opponent to the Bill, and of course, one proponent. I would be available to answer any questions regarding the Bill."

Speaker Manley: "Okay. Please continue."

Batinick: "Thank you, Madam Speaker. I'm going to go directly to the Bill and be brief as much as I can."

Speaker Manley: "To the Bill."

Batinick: "It would be great if we could have some briefness on the intro on a lot of these Bills. I think we've been more than cooperative over here."

Speaker Manley: "That's a great idea."

Batinick: "But it'll be Christmas over here, I believe, Representative. You'll get some red. You're going to get some green. I don't like adding... taking something that's a membership program and regulating it and adding it... making it insurance. I think the membership program is working fine. But like I said, it's Christmas over here. Some red, some green. I'm voting 'no'."

Clerk Bolin: "House Bill 3895, a Bill for an Act concerning criminal law. No Committee Amendments. Floor Amendment #1 is offered by Representative Lilly."

Speaker Manley: "Representative Lilly on Amendment 1."

Speaker Manley: "Representative, can we debate this on Third? Good. That's what I'm going to do, just so you all know. If you want to do it differently, let me know. I'm so crabby, aren't I? What has happened to Natalie? Representative Lilly has moved for the adoption of Floor Amendment 1. All those in favor say 'aye'; opposed say 'nay'. In the opinion of the Chair, the 'ayes' have it. help our correctional officers... officers deal with the issues that they are dealing with every single day when they come to work. We would like to continue the conversations so we can support the needs of our correctional officers in their place of employment. I ask for an 'aye' vote."

Speaker Manley: "The Chair recognizes Representative Windhorst. Thank you for your patience."

Windhorst: "Thank you, Madam Speaker. To the Bill. There were concerns with House Bill 3895 in its current form with regard to mental health testing for correctional officers. What that test will include, the time frame for when the test will be given. There were also ADA concerns with potential mental health testing and the disqualification for employment. In addition to that, there were concerns expressed by the department over the cost of the program. The Bill is currently opposed by the Department of Corrections, AFSCME, and CMS. In its current form, I'm also opposed and would ask for a 'no' vote."

Speaker Manley: "Representative Lilly to close."

Lilly: "Thank you. In talking with CMS, DOC, and AFSCME, each and every one of those personnel agree that this was a concern within the department. We did run out of time. House Bill 33 prohibits insurance companies in Illinois from canceling, terminating, or refusing to renew a person's life insurance policy solely on the basis of his or her participation in a substance abuse disorder treatment or recovery support program no less than five years from the date of the program. It also prevents them from denying insurance coverage because of a prescription for an opioid antagonist drug such as naloxone. So, for example, I may have a family member who has an opioid addiction and I may get a prescription for naloxone. And currently, I would be denied life insurance. Similar with first responders who carry that drug. I welcome questions. Ask for an 'aye' vote."

Slaughter: "Thank you, Madam Speaker, Ladies and Gentlemen of the House. House Bill 3616 will assist individuals that are found unfit to stand trial to be restored to fitness in the community rather than in state-operated inpatient mental health facilities. The Bill establishes a clear standard and procedure to guide courts in ordering outpatient restoration for defendants. We worked with AFSCME on this Bill. They're now in support of this initiative. As the Bill moved through the process, there was a concern regarding access and availability throughout our state to provide these outpatient services. As the Sponsor, I shared that concern. Recently in committee, we had valuable testimony from the Department of Human Services that assured us that we have indeed expanded these treatment services statewide and that we do have the capacity to adequately provide quality outpatient restoration programs in every region of the state. I urge a 'yes' vote."

Speaker Manley: "The Chair recognizes Leader Durkin."

Speaker Manley: "He indicates that he will."

Durkin: "Representative, could you give me an understanding of what... are there any limitations in this Bill of who would be able to participate in this outpatient treatment? Or is it anyone under the Criminal Code who's been charged? They would no longer be confined, they would have to become fit during outpatient services?"

Slaughter: "Instead of going to inpatient, what we're doing now is allowing them to receive quality treatment in an outpatient..."

Durkin: "So, a multiple... a person who's been charged with multiple murders or maybe has had multiple sex offenses against children or any other... or any other person, if they are deemed to be unfit to stand trial, instead of being treated inpatient, they are going to be allowed back into society to apparently try to become fit. Is that a right thing for us to do at this stage and time in this state?"

Slaughter: "Absolutely. What our law says is that, when we can, we should always provide the least restrictive treatment, if the quality of the treatment of services is available. And again, what you heard from me was that the Department of Human Services did provide critical testimony in regards to our state's ability to do that."

Durkin: "So, would the... let's talk about a person who has been charged with first-degree murder. That person perhaps has had a bond set and there's no bond. But it is also determined that they, at the moment, are not fit to stand trial. So, would the bond still be in place or would they be able to just... would the outpatient service override the bond that had been set on that person for that underlying crime?"

Slaughter: "I'm reading... this is to the Bill. If the defendant is eligible to be or has been released on bail. That's how I'm reading it. Or even on furlough, Leader."

Durkin: "Furlough means that they've already been..."

Slaughter: "We're on page two. Sorry, page one."

Durkin: "So, do you understand when a person has been determined that they are not fit to stand trial, it means one of two things? That they cannot effectively participate in helping his defense but also doesn't have an understanding of the nature of case and proceedings against them. That is how we traditionally have looked at a person who is unfit. That means that they have significant, significant mental health challenges. But these are also combining them with person who've committed a violent crime. I don't believe moving the current system that we have in place from inpatient to outpatient back into the communities where they committed those crimes is the right thing to do. I said this yesterday, we are moving way too fast on some of these public safety issues, and I don't think people really quite understand the gravity or the nature of the things that we are doing. This is a complicated area in law that people have to deal with and they have to litigate on a regular basis of whether or

not a person is fit or unfit. But also, it is mainly in a lot of situations where people have committed some very serious crimes. And I don't believe that putting individuals who have been charged, they have either been indicted by a grand jury or there has been a preliminary hearing which was a finding of probable cause on a felony, many of them that are extremely dangerous, that they should have the option of getting outpatient treatment to get... to become fit to stand trial. So, I've said my peace on this. We need to act slower on this, folks, because this is... we are getting into a dangerous area of public safety that is going to be... continue to be compromised if we make decisions on issues like this without fully understanding what exactly the nature of the proceedings and the gravity and the depth of the legislation. I strongly urge a 'no' vote."

alone. As Legislators, we are tasked with not only being the voice of our constituents but also making sure we're passing laws to protect them to the best of our ability. The Firearms Restraining Order, known as FRO, is an Illinois law that went into effect in 2019 in an effort to prevent mass shootings, gun-related domestic violence, and firearm suicides. The law allows family members and law enforcement to petition the courts to obtain a civil order to temporarily remove firearms from people who pose a significant risk to the... of harm to themselves or others. The FRO is another tool in the toolbox to reduce violence by removing lethal means from someone who is exhibiting dangerous behavior. A tool, however, is only useful if it's utilized. Unfortunately, the implementation of the FRO in Illinois has been inconsistent due to a lack of awareness that the law exists. Since becoming law in 2019, only 59 petitions have been granted statewide with only 11 active. By contrast, Maryland passed and implemented a similar law a few months before Illinois, averaging about 75 petitions a month. It's been estimated that for every 10 to 20 orders issued, one life is saved. So, implementation is critical in saving lives. HB1092 would strengthen our Firearms Restraining Order Act by closing loopholes in the original law and educating both law enforcement and the general public on its use. It would also make sure that firearms are removed from a person exhibiting dangerous behavior in a timely manner. To address the lack of awareness, the Bill would create a public education campaign to provide information on the FRO to the general public, subject to appropriations, from the Department of Public Health. Since

law enforcement officers are the ones often to file petitions, it would also require yearly training on how to use the law. We've met with many stakeholders to seek advice and input, including state's attorneys, the Office of the Attorney General, Chiefs of Police, the Illinois State Police, advocates in the gun violence prevention and domestic violence spaces, as well as experts from across the country. Their input has helped shape this important Bill to prevent gun tragedies. Through this Bill, we can strengthen our existing FRO law and help prevent mass shootings, hate crimes, and firearm suicides in Illinois. Let's not miss this opportunity to prevent a tragedy like the many we've seen across the nation. Thank you for your time. And I urge an 'aye' vote. I'm happy to answer any questions."

Reick: "Thank you. Then you must have some at least tangential knowledge of the amount of negotiation that went into crafting this Bill. The fact that Representative Willis, who originally brought this Bill forward, came to me, or I went to her, and we hammered out what we thought, at the time, was pretty much decided was a national model that balanced the equities between public safety, both to the person who was at risk of using a firearm on themselves or others and the general public, as well as balancing civil liberties. This Bill was supported not only by the gun control groups like yours, but also by the Illinois State Rifle Association and the National Rifle Association. This was a Bill that was finely crafted with delicate balanced equities to make sure that all people's civil liberties and rights were protected along with the public as best we could. The discussion that you're bringing forth in this Bill was made at that time. And it was decided that to expand the eligibility of potential petitioners in this type of an activity would go very much against the civil liberties of the person whose rights were being denied to them under the Second Amendment. I believe that what your Bill is doing will do the same thing. Now, you're saying that there have only been, I believe, 59 or so cases or instances. I want to ask you a question. Have you talked to the Illinois State Rifle Association or any of the Second Amendment supporters?"

Stoneback: "I have spoken with the Illinois State Rifle Association. They contacted me for the first time yesterday morning. And I am continuing the conversation with them in the Senate."

Reick: "They didn't just get a hold of you yesterday. Now, I'm not against the idea of having... broadening the knowledge that this exists, but broadening the class of petitioners upsets the delicate balance that we negotiated back in 2019. I cannot too strongly urge a 'no' vote on this Bill. Thank you."

Speaker Hoffman: "Thank you, Representative. Representative McCombie."

McCombie: "Thank you. Will the Sponsor yield?"

Speaker Hoffman: "She indicates she'll yield."

McCombie: "Can you tell me who that is for the record, please?"

Stoneback: "Sure. Including members of law enforcement and nonprofit organizations, the director must... the commission will be chaired by the Director of the Illinois State Police. The... it would also include... give me a minute, please."

through Representative Willis, that only 59 petitions had been filed. And I thought that was really good because that showed me that it wasn't necessarily... an expansion wasn't necessarily needed. Do you disagree with that?"

Stoneback: "Well... so, we've been working closely with the Illinois State police and they looked up in LEADS and saw that only 59 petitions statewide in over 2 years had been issued and only 11 were active. So, that was shortly before the time I sent that letter out. And we compare that with other states, and Maryland implemented their version of firearms restraining order a few months before ours and they're now averaging about 75 petitions per month. And so, when we compare that, Maryland has a smaller population than Illinois, it is comparatively low. And we've spoken with many stakeholders and state's attorney's offices who are asking for this. They're saying that they're..."

McCombie: "Right. And I'm not going to... sorry, and I don't mean to interrupt you, but..."

support. Illinois State Rifle Association was proponents of it. And now you have zero Republicans. You have the... ISRA is not going to support this. It just goes too far. Did you get that answer for the commission?"

Stoneback: "I do believe that we do have Republican support. And I also want to just state for the record that I am very grateful to everyone who worked on the original law. I thought it was great that it was passed and signed into law. And really the reason here that I'm bringing this Bill is because we've spoken..."

Stoneback: "Sure."

McCombie: "The ISRA... G-PAC is on the commission. ISRA does not have a voice. That's unfair."

Stoneback: "G-PAC is not mentioned on the commission."

McCombie: "Well, that came up in debate yesterday in the committee. I think the system that we have in place now is working. I think to go forward is tearing down the Republicans and the advocates for gun rights by pushing this forward, expanding it without actually letting the first Bill work. I strongly urge my Republicans to vote 'no' on this Bill. It goes too far. It goes against previous agreements. And I urge a 'no' vote."

Willis: "And my names been called out a number of times during this debate. I appreciate very much the bipartisan support we had on the Bill when we passed it two years ago. I felt strongly it was a good piece of legislation then, I think it's still a good piece of legislation. I will readily admit I have major concerns about changing the definition. That definition was done with input from all parties on both sides of the issue. I felt that it worked at that time. I do have concerns that, while we pass this piece of legislation, many people, law enforcement included, do not know that we have it in place. And that is a part of this Bill that I think is very good. I think making sure that we can have a public education part to it works well. Making sure that people know that this is a resource and something that they can use is a good thing. But I'm going to go back to that agreed upon definition. And we worked really hard for that because we had concerns. We did not want this to become a vindictive thing that someone could use in a divorce situation or just because you don't like your neighbor or something like that. And that's why we worked really hard to get that definition. I have reached out to the Bill Sponsor and requested her to use the original definition. She feels that this is the best way to go. I will tell you, at this point, I am probably going to only vote 'present' on the Bill because I am concerned that we are dialing back things that we put in the original Bill that was bipartisanly supported. Thank you."

will improve education and awareness around an existing law that we have in place that has been underutilized. I will say that I have been in contact and working on these kinds of laws for a very long time with experts. Very rarely, only anecdotally is any petitioner ever accused of bringing a false claim around one of these orders. This is a critical Bill to prevent gun violence and mass shootings. And we've been seeing one mass shooting after another every week. We have to remember Atlanta, Indianapolis last week. In Indianapolis, the mother of a 19-year-old shooter reached out to police and asked... you know, with concerns about his mental state. They did not fully implement their version of our firearms restraining order and that is why the tragedy happened. Here we have an opportunity to prevent a tragedy like that here in Illinois. So, I strongly urge and would appreciate an 'aye' vote. Thank you."

Speaker Hoffman: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye'; all opposed 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. Representative Stoneback."

Stoneback: "I'd like to Postpone Consideration."

Speaker Hoffman: "Representative Tarver on Floor Amendment #1."

Tarver: "Thank you, Mr. Speaker. I believe this Amendment is a gut and replace of the original Bill. It adds a task force at the request of Leader Welter. And.. yeah, I think that's actually the primary focus of the Amendment."

Speaker Hoffman: "Representative Tarver moves for the adoption of Floor Amendment #1 to House Bill 3878. All in favor say 'aye'; all opposed 'nay'. In the opinion of the Chair, the 'ayes' have it. The Amendment's adopted. Any further Amendments, Mr. Clerk?"

Clerk Bolin: "House Bill 3878, a Bill for an Act concerning local government. Third Reading of this House Bill."

Speaker Hoffman: "Representative Tarver on House Bill 3878."

Tarver: "Thank you, Mr. Speaker. This is a Bill that.. we already have a fund for rental housing support... the Rental Housing Support Program through IHDA. This Bill would increase the recordation fee from \$9 to \$18 and \$1 to \$10. So, it's a fee that, when you are fortunate enough to purchase a house, you can help individuals who may not have housing or be housing insecure. I think this will probably affect people two to three times, for the most part, over the course of their life. So, I would think that 27... \$36 or so is sufficient to pay into a kitty to help individuals who are housing insecure. I urge an 'aye' vote. Oh actually, I'm sorry, I'll know they'll

be questions, but let me make sure to note that initially the recorders were in opposition. They worked very well with us and provided us some great suggestions for the Bill, which we took under advisement. I think we have a good Bill because of that. I want to thank the realtors as well, who've come out in support who and really, really helped to work the roll call with us. Also want to thank Representative Stoneback who had a similar Bill but agreed to work with us and the advocates to get what you have before you today. Happy to answer any questions."

Speaker Hoffman: "Thank you, Representative. On House Bill 3878, Representative Welter."

Welter: "Thank you, Mr. Speaker. Does the Sponsor yield?"

Speaker Hoffman: "He indicates he'll yield."

Welter: "Representative Tarver, I'd like to first commend you, build you up here because you have worked very hard on this legislation. I appreciate you taking into consideration a Bill that I had filed that had to do with a task force to look at how these funds are currently spent and to see where the funds are going in a more transparent manner. I just would like to clarify with you, the funds that support this program, where do they come from?"

Tarver: "You mean through IHDA or..."

Welter: "At the local level."

Tarver: "Through the... the local granting agencies that are selected."

Welter: "Well, I think the revenue that's collected, if I'm correct, when you record something your recorder's office there's a fee charge, correct?"

Tarver: "Oh, yes. I'm sorry. Yes."

Welter: "And that fee today is what?"

Tarver: "I believe nine dollars. Well, it's a little tricky in the Bill, but the upshot of it is, where you pay \$9 you would pay 18, where you pay \$21 you will now pay 31. So, it's a \$10 increase. And I want to say, I know your nexus, but part of the reason for the \$10 is because we wanted to make sure to include... to double the administrative fee that we provide for the recorders right now. They were already getting a one dollars, now it will be two dollars to help them defray the cost of the administration."

Welter: "And the program that this goes to help fund, what has been your experience with it? Would... in your area, would you say it's underfunded? Why are we here today looking at making this increase?"

Tarver: "I think in general there's just a lack of funding for individuals who are housing insecure. I think we still need more funds. And at a time when we have a tight budget, I think this is an opportunity where individuals who are fortunate enough to purchase a house have the ability to help those who may be a little bit less fortunate."

Welter: "Okay. And I... again, back to the point of what this program does. It's all really great things. But I would like to remind everybody in this room, we are going to be increasing, doubling the fee for this. And depending on where you're at in this state... and I would encourage you... because I reached out to my local clerks and recorders to understand at a local level how are these programs being used. And, folks, I was actually shocked, shocked to find that the

counties that I represent have been spending... sending hundreds of thousands of dollars to this program and benefitting zero dollars. So, our taxpayers are sending money to this program, and as many of you on both sides of the aisle, I can tell you that because I've looked at the map, you're going to be doubling this fee on your residents when they record fees in your courthouse. And they are going to benefit from it zero. That's important to note, folks. So, although I respect that the Representative has put into the Bill a task force, because your clerks and recorders, many of them are frustrated by the lack of transparency and where these funds are going and how they are spent. They, I'm sure, would tell you similar things to what I am saying if you live in one of these communities. My task force that I wanted to see happen should be done before we increase any fee. I would be willing to maybe even join you if I saw that there was a more transparent process and my community was actually benefitting a dollar, anything, some benefit to it. So, although this is a great program and is implemented in certain areas of this state, these funds... if a local is sending it to the state, the locals need to get something back. Stand up for your locals, folks."

Tarver: "Thank you, Representative."

Speaker Hoffman: "Representative Guzzardi."

Guzzardi: "Thank you, Mr. Speaker. To the Bill. I want to thank Representative Tarver for his work on this issue. Just briefly to say that, to the Gentleman from Grundy County, there are 16 units of rental housing support program housing in Grundy county. That's more than almost any rural county in the state.

This program is... in statute it describes that the program needs to fund units in large metropolitan areas, in small metropolitan areas, and in rural communities. And the program has done a phenomenal job to this point of getting resources to rural communities for people who are housing insecure. However, we want to continue to expand this program into more communities that aren't currently served by it but the only way to expand the program is to put more resources into it. Right now, the dollars that go into the program fund the units that the program supports. If we want to get more units in more areas, we need more dollars. I urge an 'aye' vote. Thank you."

Speaker Hoffman: "The question is, 'Shall House Bill 3878 pass?' All in favor vote 'aye'; all opposed vote 'nay'. I apologize. Mr. Tarver... Representative Tarver, please close. I apologize."

Tarver: "No. No problem, Leader Hoffman. Let me just say, I was doing some very quick numbers, and I want to be clear when we're talking about what people are paying. If you paid \$9 on the recordation fee for a \$25 thousand house, which I don't know where those exist, but the percentage of that would be .00036. We're asking people, wherever they live in the state, to pay an additional nine dollars or so to make sure individuals who are housing insecure can find housing. And if we start with the debate of what people are generating the funds and where they go, the last time I checked, those motor fuel taxes, those... large part comes from Chicagoland area. And we don't complain when roads get paved in Southern Illinois. This is about housing, the ability for individuals

to have a place to lay their heads at night. Nine dollars. Nine dollars is what we're talking about. And I want to be clear, there's a task force, to Representative.. Leader Welter's point, that will look at the issue of equitable distribution. It will issue a report by March 31, 2022, and there is an individual that will be appointed specifically to look at rural areas. So, we took all that into account. I think we have a great Bill. I urge an 'aye' vote. And I wanted to thank you also, Chairman Guzzardi, in closing for all of your help in getting us to a point that where we had a good Bill and twisting our arm to work with the recorders and some other folks as well. I urge an 'aye' vote. Nine dollars to keep people in their houses. Thank you very much."

of local control. You heard about that issue back then because our local municipalities, at least in theory, had a seat at the table, even though our local property owners did not. But even then, that Bill only passed 62-41-5. The 'nays' included our current Speaker of the House, Chris Welch. Not voting and 'present' votes included Leader Ammons, DeLuca, Durkin, Lilly, Rita, Sosnowski, Walsh, and Zalewski. The 'no' votes were bipartisan. Batinick, Brady, Butler, Carroll, Cassidy, Conroy, Ford, Frese, Greenwood, Hernandez, Hoffman, Kifowit, Manley, Moylan, Mussman, Scherer, (unintelligible), Stuart, Welter, Willis, and Yingling. The Small Cell Wireless Bill is set to sunset this year, and the sunset provisions are there so that we can learn and correct mistakes. What we should learn and correct is that this Bill is not one that should be reauthorized at all. The proponents say we need to reauthorize this Bill because we need 5G. You don't need to reauthorize this Bill to get 5G technology. Before SB1451 passed, the Members of this Body were told that we couldn't have local ordinances, that it would be a disaster, and that's why we needed the small cell statute. But then we didn't know there was going to be a comprehensive federal regulatory scheme and what it would look like. Now we do. And the states that avoided passing small cell wireless Bills, Massachusetts, California, local control has managed to work just fine under those federal regulations and they are getting 5G technology investments. One of the key pieces of local control we took away from our municipalities was to tell our units of local government that they could not stop new poles going up all over the place. So, if we didn't have the Small Cell Wireless

Act, a municipality could keep control over their parkways. They could ask telecom to truly colocate or provide proof that there was a gap in coverage if you wanted to put up a new pole. Wisconsin has a Small Cell Wireless Act. They didn't take that power away from their municipalities. Iowa has a Small Cell Wireless Act. They... in their statute, they specifically ensured that local authorities could require propagation maps to identify the location of the coverage and capacity gaps. Michigan not only allows more local control over this issue but let's municipalities require a certificate of compliance with FCC issues on radio frequency emissions. Another thing this Body didn't know when it passed the Small Cell Wireless Act was the real world experience of municipalities with new pole demands. One thing I have heard from other Members is that they haven't seen this issue in their district. That's because my district has been the pilot location for the entire state. My municipalities..."

Speaker Hoffman: "Representative... Representative Mazzochi, Representative Reick yields you his time."

Mazzochi: "Thank you. My municipalities have been the canary in the coal mine. And you don't want this to be coming to your districts without serious change to the Small Cell Wireless Act. You don't want to have a new 65 foot pole installed in your parkway a hundred feet apart. You don't want canisters hung from an electric cable right outside your bedroom window. You don't want your residents to have no advance notice that you're going to get these things showing up on your private property just because maybe you have a water or sewer utility easement. It doesn't have to be that way and other states

have made sure it won't be that way. There's no reason why we can't too. Critically, this Bill should not move without amending the colocation, right-of-way provisions and giving our municipalities more meaningful control over the placement of small wireless facilities. Our Small Cell Wireless Act is full of thickets of confusion that seemed reasonable on their face but are unreasonable in practice. And here's some examples of why. The Act says colocation is encouraged. But we also, in later sections, take away municipalities authority over that very issue. We tell our municipalities they may not require the placement of small wireless facilities on any pole or utility pole. We tell our municipalities they may not require minimum separation distances of any kind between these installations. So, if Crown Castle, and Verizon, and AT&T, and others want to put in a mess of poles a 100 feet apart, 25 feet apart, even 5 feet apart on your block, you have no rights. Your municipality is not allowed to say no. That doesn't happen in other states. Our Midwestern neighbors are willing to give their municipalities that authority regulate. Some of them even say you have to keep from at least 500 feet apart. Why can't we? And as for the definition of colocation, it's incredibly broad. You can install, mount, maintain, modify, operate, or replace wireless facilities on an existing pole or anywhere else adjacent to that pole. Adjacent is unlimited. That means, in Illinois, you can put up a new pole anywhere you want. Again, doesn't happen in other states. Other states regulate where you can put things on colocation and requires colocation to occur on existing infrastructure and poles. I

can give you a lot more examples of ways in which our statute is deficient relative to other states. To date, telecom has not come to the table to address these new issues that this Body didn't know about back then, that no one could've predicted when the Small Cell Wireless Bill was enacted. They've agreed to better statutory language in other states. They've agreed to forgo this type of Bill in other states. There's no reason Illinois residents should miss out."

Andrade: "House Bill (sic-Amendment) #2 is a page and (sic-line) Amendment that entirely deletes a Section and amends the definition of digital signature in the State Comptroller's Act and repeals Section 14.1 of the State Comptroller's Act, allows any party to fix digital signature complying with the requirements and such communication between a state agency and the comptroller that requires a signature. Specifically, it prohibits law enforcement agencies from conducting background checks of speakers at meetings of public bodies, including police disciplinary board meetings, except to provide security for the premises of the meeting and for the protection of public officials and other person who attend the meeting. This Bill was negotiated over a period of time both with the Attorney General's Office and law enforcement, who have now come to be neutral on this. There is still one more piece of the Amendment that did not make into this actual iteration, and it's going to be worked on by the Senate Sponsor. I just wanted to make sure I go on record to say that. And that piece of it will make sure that this does not create a private right of action so that cities and municipalities are not civilly liable if this Act does occur. I would urge an 'aye' vote."

Speaker Hoffman: "Representative Wheeler."

Wheeler: "Thank you, Mr. Speaker. In my office we affectionately refer to this as Henry's Law. This Bill was brought to my attention when my district office director got the news that he was going to be a father. The baby's mom has a full-time job, which is a lengthy walk from the employee parking lot up to the hill and many steps up a very steep incline to get to her door. As her pregnancy progressed, she found herself having more and more difficulty carrying a heavy work bag such a great distance. So, my district office director tried to get her a parking placard and learned, upon doing research, that she wasn't definitively eligible for getting one under current law. So, we brought this Bill forward. It only applies to moms in their third trimester for a 90-day temporary pass. We worked with the Secretary of State's Office to get the language right. We believe that this Bill would be incredibly helpful for working moms who find themselves facing a similar situation, especially during our harsh winter months. Imagine all the times you've been at a place of business with an icy parking lot. This Bill is aimed at protecting moms and babies when they need to go to work, when they need to go shopping for their families, and when they need to visit their doctor. Unfortunately, the inspiration for this Bill went into preterm labor at 21 weeks. Baby Henry Marcum was born in November of 2019 and was only with us for about 30 minutes before he passed. Our vote today is a great way to honor his memory and demonstrate that a life that only lasted for half an hour can make a huge difference in the lives of thousands of moms and babies across our state. What a wonderful legacy

It addresses the question of the ways that we are rethinking sentencing and we're attempting to create an opportunity for fairness. And I ask for your support. Basically where the process has been finalized. I'm fundamentally opposed to reopening cases, especially cases involving victims of violent crime where they will have to go back to court, testify at a sentencing hearing, provide a victim impact statement, essentially be brought back into the process that should've been finalized. Many hours were spent by Legislators, staff, insurers, health care providers, and patient advocates on working out the details of this legislation. House Bill 3498 empowers Illinoisans to receive the right care, at the right place, at the right time. In response to the COVID-19 pandemic, both the State and Federal Government enacted policy changes to make telehealth services easier to access and provide. These

coverage and payment flexibilities have allowed the health care community to make significant, rapid investment in telehealth technology. Over the last year, we've seen firsthand evidence that telehealth preserves quality and safety, meets individual patient needs, decreases health care disparities, and protects public health. Allowing patients to receive health care services through telehealth, whether it be in their home or another safe and convenient location, reduces and eliminates barriers that worsen health care disparities. Easier access to care leads to healthier patients and saves lives. Telehealth also reduces overall health care costs by making it easier to manage chronic conditions, keeping patients out of the emergency room and other expensive care settings. Mental health and physical health are two sides of the same coin. Limiting access to telehealth services for either mental health or physical health will have a negative impact on the patients overall health outcome. Marvin Lindsey, CEO of the Community Behavioral Healthcare Association of Illinois, stated that people with serious mental illness and/or substance abuse disorder die on an average of 25 years earlier than the general population. The vast majority of these deaths are due to chronic physical medical conditions that could be more effectively treated via telehealth. The COVID-19 pandemic has been devastating to Illinois. We must not let the lessons we have learned during this difficult time go to waste, including the lesson that telehealth is an important tool for improving the health of Illinois residents. Now is the time for the General Assembly to shape the future health care delivery in

802 requires municipalities receiving or using state funds, either partially or fully, for the purposes of municipal projects to adopt an ordinance or resolution creating diversity and inclusion goals for projects in that municipality. Provides that diversity inclusion requirements and goals, to the extent possible, being no less restrictive than diversity requirements and goals provided under the BEP Act of the State of Illinois. I really want to take this opportunity to thank Representative Chesney who has shared with me the need to do this kind of effort at the municipal level. He has expressed concerns about, kind of, using a one-size-fits-all scenario. So, what we'd like to do is hopefully pass this out and then continue to work in the Senate where we can maybe tier the inclusion of municipalities so that larger municipalities that have more capacity can do this more immediately, but then smaller municipalities, they would be phased in over time. That is something that I have agreed to and would like to continue to work on with... just for the sake of putting it out there already, someone may ask, we know that the IML is opposed. I had an opportunity to talk to their representative this morning who says that he is not opposed to the intent of what we are trying to do. But very similar to that which Representative Chesney is speaking of, he is concerned about the one-size-fits-all and how immediately asking smaller municipalities to do this may cause them to stumble. So, again, we'd like to work on how we structure it to allow for smaller municipalities to

Gabel: "Thank you, Mr. Speaker. This Bill brings in alignment the ability to detain children in the juvenile detention center. It allows that the children can be detained pretrial at the same time... at the same way they can be detained if they've been convicted. So, it's for children under the age of 13 cannot be held in detention, except the Bill says this year it's up to age 10, next year 11, and the following year 12. We are working with the Illinois Probate Association, and they have agreed with Amendment 1, would like some other changes. So, we'll continue to work on this Bill in the Senate."

Gabel: "Sure. So, the probate... I just spoke with them yesterday. They said they were okay with Amendment 1 and that, as I said, we committed to continue to work with this on the Senate. They said it was okay to move it, and we'll continue to work on it."

Windhorst: "And was there anything from the Sheriffs' Association on that?"

Gabel: "The Sheriffs' Association was just on the Zoom, and I told him that we would continue to work with them as well."

Windhorst: "Thank you for that clarification. Based on the court language of the law I'll be opposed, but I appreciate the explanation. Thank you."

Speaker Hoffman: "Thank you, Representative. Representative Gabel to close."

Reick: "Representative, we also made an arrangement in lame duck about the roll back of certain provisions in Public Act 101-693, I believe. And can you explain why it is that we're getting rid of that agreement as well?"

Guerrero-Cuellar: "Actually that's the Amendment that we're going to address with CPA to ensure that we amend parts of the original HB1160. So, Section 45 will no longer be included in that House Bill."

So, these are students that are higher education universities and community colleges who are also parents. These are students who are particularly susceptible to dropping out, and we want to make sure we provide the services these students need. But first we need to know who they are and where they are. So, this Bill is simply a measure for data collection and would require the universities to collect data about the student parents at their campuses and the community colleges. As I mentioned, House Floor Amendment #1 narrowed the scope of the Bill considerably after negotiations with the Board of Higher Education and the various universities. Right as of now, there's no opposition to the Bill. And I urge an 'aye' vote."

access towards degree completion for immigrant and mixed status students across Illinois. First, second, and third generation immigrant-origin students are responsible for 60 percent of college enrollment across the U.S. House Bill 3438 recognizes the diverse and unique needs of these students in Illinois and ensures they have the support they need to be successful. This positive change will support all undocumented and mixed status students regardless of ethnicity. It is especially important for immigrant students to have support from liaisons who are familiar with how the immigration system interacts with higher education. This Bill does not require implementation of a new office or hiring of new staff. Over 80 institutions in Illinois are already doing this type of work, and we are asking to give a title to the critical role these folks play in the lives of students and families and to uplift the position to make it more accessible. The success of all students in Illinois is a direct benefit to the future economic success of a rich and vibrant state. In short, not only is House Bill 3438 good for students, families, and institutions of higher education, it is also good for the economy of Illinois. I ask for an 'aye' vote."

career. What this Bill is doing is putting a title to a person that, in our universities, already exist. So, we're putting another mandate, another burden, making all kinds of changes to our higher education that are not necessary because these resource officers currently exist. Thank you."

Speaker Manley: "Representative Hirschauer to close."

Hirschauer: "Thank you. I respectfully disagree with my colleague.

There is a lack of consistency in our public universities and community colleges. And not all universities have a go-to person and you need to wait often for a long time to find a person in the upper level of administration to find the support you need. We are not asking for the creation of a new position. We are uplifting the work that's already been doing and presenting a model for other institutions to follow. Quickly, I would like to say that the idea for this Bill was brought to me by my district director, Miguel Molina-Ventura, who came to this country from Mexico as a young child. He is a DACA recipient who followed his path from community college to attend Valparaiso University. He knows firsthand the struggles that undocumented and mixed students face in accessing financial aid, housing, and pathways to citizenship. Now Miquel is doing amazing work on behalf of the State of Illinois, helping folks in our community navigate the unemployment system, helping to plan mass vaccination clinics, and doing his very best for the people of the 49th District. He is just one of many shining examples of how lifting up and supporting students in Illinois can lead to powerful change. Education is a right for all people regardless of their status. Slaughter: "Thank you, Madam Speaker and Ladies and Gentlemen of the House. House Bill 3587 creates a task force to examine and recommend innovative methods to implement discretionary and retroactive resentencing of offenders. As we look to address our mass incarceration crisis, it's important that our state provides second-look opportunities for offenders to ultimately petition the courts to get their cases rereviewed and resentenced. This is a very important matter regarding our criminal justice system. A few Members in the General Assembly in both chambers have resentencing Bills. As states across the country start to look at resentencing, we need to be at the forefront of this as a national model. Whether it's judges in our courts, correctional agencies, or even offenders that initiate these efforts, we'd like this task force to put forth comprehensive recommendations to establish and implement this intervention. We just passed a Bill earlier today that empowers state's attorneys to initiate resentencing. This task force would look at or examine the other ways that we can bring about resentencing and how that can happen. I'm asking graciously to vote this Bill out of this chamber. Of course, I remain open to any suggestions or Amendments in the Senate that could make the task force more impactful and more comprehensive. The Bill came out of committee on bipartisan leave. Ladies and Gentlemen, this is a task force. Okay? I ask for a 'yes' vote."

McCombie: "We appreciate that. I just want to... just for the... to the Bill. We are having another task force. This is actually a task force that is happening after the fact in some cases. We have somehow got into a pattern of passing legislation prior to looking at data and reviewing what is going on in our state. We've passed several decriminalizing, defelonizing, lowering sentences prior to knowing this information. So, I hope that we can put all of that on hold until we can get the results of this task force. I'd be very interested to see those results. Thank you."

Speaker Manley: "Representative Slaughter to close."

So, what this Bill does... there was a concern in the new contract for IDOT employees that gave snowbirds and part-time employees a leg up on veterans. And so, the original intent when we passed the veterans hiring preference was to make sure that we are giving veterans a leg up for their service. And so, what this does is it says is, when we're looking to hire snowbirds and part time employees at IDOT, we will use the veterans' preference for that part-time hiring and that way that gives them a leg up on their way in. There was a concern by CMS that it may conflict with the memorandum of understanding. But I went through that, I do not believe there's any conflict. Speaker Manley: "Representative Cassidy."

Cassidy: "Thank you, Madam Speaker. House Bill 2784 is an initiative of Access Living, working with the parents of Stephon Edward Watts for whom this Act would be named. Stephon was a 15-year-old autistic child who... whose father had always been afraid that he'd have to call the police if he lost control of his son. And he resisted and didn't call and didn't call. His mother had called a couple times. So, the officers were familiar with Stephon. Stephon's father called 9-1-1 and the officers responding in a very high-profile case in 2012 out of Calumet City. And I know that my colleague Mayor Jones is very familiar with the case, we've talked about how heartbreaking it was. He was shot by the police upon arrival and killed. When you call 9-1-1 for a medical emergency, you appropriately get a medical response. When you call 9-1-1 and someone's breaking into your home, you appropriately get police or criminal response. But when you call 9-1-1 in a mental health crisis, you don't get a mental health response. This has led to unnecessary and dangerous situations and this Bill aims to create alternatives that allow well-trained mental health professionals to respond to these crisis situations. Some of you may have heard of the CAHOOTS program in Eugene, Oregon. This would create a similar system here. But we also know that this cannot be a one-size-fits-all response, which is why we built in the flexibility for each emergency response region to design their systems in a way that makes sense for their communities. And this was one of the darkest days in Calumet City where an autistic young boy was shot by a police officer. And this is not the last incidence that happened. There was an incident that happened in Chicago with an autistic young man. I have a family, my nephew is autistic. here, and we have discussed that. I would like to see this Bill be allowed to go forward with an idea of how it's going to be paid for, because it is going to have to be paid for. Absent moving this into a capitol project, how do you expect this to be paid for? What are the mechanisms, please?"

Robinson: "Again, Representative, our President and our two U.S. Senators have talked about this issue. They've talked about putting a huge funding mechanism across the United States to tackle this issue. But, Representative, we have to have a mechanism to be able to do so. And this Bill put forth, we'll be able to do that. So, when the funding does happen, we can be able to acquire it. If we don't, then we're back at square one and not being able to provide folks in this great state with clean drinking water."

somebody like to give their time? Representative Grant. Thank you. Continue, please."

Reick: "Representative, we need... we do need to work this out. And I don't necessarily feel comfortable with Plan A, the Federal Government coming in and doing this, because it seems like what we're trying to do with this money is put 10 pounds into a 5 pound bag. If we could carve out the cost of doing this out of that federal money and not have it be going someone else's oxen, I would be in full support of it."

Robinson: "Thank you, Representative. Look..."

Reick: "Yes, Sir."

Robinson: "...I hear you loud and clear. And I look forward to working with you to make sure that we put the funding mechanism in place. Absolutely."

Reick: "As far as plan B is concerned, I don't know how it would go over in my community, and I'm 20 times smaller than the one you come from. So, at this point, I am skeptical about the ability of us to be able to pay for this. And that's why I voted for it against... against it in committee. You and I discussed it personally, and I gave you those same concerns. I'm afraid I can't support the Bill because I need to know how it's going to be paid for. The mechanism is one thing. But if you provide a mechanism without any kind of ability to pay for it, you're making a promise to people that you cannot fulfill. And I can't support that. Thank you very much."

Spain: "Thank you. Representative, I understand your passion about this topic and fully support your efforts and concept to reduce and eliminate lead service lines. That plan B that the previous speaker brought up is one that I'd like to understand better. So, what do you anticipate being the funding plan for plan B, if federal dollars do not materialize as we hope, and then what are the consequences to individual communities for failing to achieve your goals within the time frame of 2027?"

Robinson: "Leader Spain, thank you for your question. The consequences is that our folks cannot continue to be in a situation where they cannot have clean drinking water, where folks that are already saddled with financial obligation have to go out and buy bottles of water. We know the issues in our community where folks are hurting."

Spain: "Representative, I... and I apologize for being rude and interrupting. I understand that. But to the communities, to the municipalities themselves, what are their financial consequences is what I'm trying to get to."

Robinson: "Leader Spain, again, the consequences is that folks, particularly youth, we know that lead is an issue. We know that lead has mental elements. We know this, Leader Spain. And so, I'm asking this Body to be able to circumvent that and finally put this in bed. In 1972... 1978, excuse me, we tackled this issue in paint. Here we are in 2021 tackling the same issue, where we have the opportunity to do so right now, Leader Spain."

Spain: "So, Madam Speaker, to the Bill. And I appreciate, absolutely, the earnest interest of this Sponsor and this topic. There are some serious issues that we still need to

resolve in order to move this forward. I would recommend that as this... if this Bill moves forward in the Senate, we consider answering the questions, perhaps making this subject to... not appropriation but subject to availability of federal funds would be a great suggestion. We have to answer the question of what do municipalities do, both Home Rule and non-Home Rule. Where will the resources be made available if federal funds do not materialize? The other thing that's really important, if you happen to come from a community that is served by a private water utility. That's the case in my community. We've created an arrangement in the State of Illinois that those existing ratepayers finance the cost of acquisition of additional water utilities. So, if you're a small community that finds yourself unable to satisfy the terms of this provision... and, Madam Speaker, I'll bring my remarks to a close... you may be a community that is forced now to sell your municipal waterworks to a private operator. The cost of that acquisition will be paid for by other ratepayers. And the result will be, we'll have fewer municipal water systems all with existing ratepayers paying a higher cost. Trying to understand how we can satisfy this very laudable goal, which is very important, but we need to think about the entire balance."

Speaker Manley: "Representative... would somebody like to give time to Representative Spain?"

Spain: "I urge a 'no' vote."

Speaker Manley: "Representative Luft."

Luft: "Thank you, Madam Chair. Just to go off what Representative Spain... there are some other points to this that have to be

102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

interjected. There are... the private industry has already been working on this problem for years. Since 2018, there's a private industry here in Illinois that's injected over \$36 million of their own dollars into this already to be proactive. Part of the timeline with this is before any funds would be dished out, there has to be an analysis done. Each community is different when it comes to lead. Some have full lead lines, the entire line from the house to the street is lead. Some others that have galvanized lines. They have about a two foot, what's called a goose neck, a lead goose neck. That's all that needs removed, and then there are lead inserts in the tap to the main. So, each municipality that owns their own water system, the cost is going to be different. But that cost won't be known until there's an analysis done, which takes an extremely long time. This is also creating... this lead situation is also creating acquisitions of smaller communities that cannot afford to remove this lead. They're being absorbed by larger communities who do have the funds to do this. At this point, the way the Bill is structured, knowing what I know about this situation, I think it needs some work before I would vote for it. But I just wanted to interject a few items into this entire picture because there is... there is a need to get this lead out. I'm 100 percent for that. But there's a process that's going to be timely, not because municipalities or companies don't want the lead removed, but there's going to be a process to figure out where the funding would come from and how much funding would be needed per municipality. Thank you."

Robinson: "That is correct, Representative."

Mayfield: "And can you speak to the effects of lead in the water that it has on our children?"

Robinson: "Representative, I pause because this effects poor brown and black communities across our state. Major health concerns with our children, again, in poor black and brown communities that cannot go out and buy this every day. It's a mental health issue that I'm asking this Body to alleviate today."

Mayfield: "So, you're also addressing an equity issue in these poor communities who do not have access to high-quality, clean, lead-free, drinking water. Is that correct?"

Robinson: "That is correct."

I urge an 'aye' vote for our children, if not for any other reason than to make sure we are providing safe, clean drinking water for our children, particularly in the lowest income areas, including the rural areas that are represented by the other side of the aisle. It prohibits discrimination by brokers and appraisers when preparing a brokers price opinion or comparative market analysis for residential real estate. The Bill provides that a broker, manager broker, or appraiser... or an appraiser discriminates when he or she considers the actual or perceived race, color, religion, or national origin of the owner of the real estate or the resident of the geographical area in which the real estate is located in when determining the market value of real estate. Ladies and Gentlemen, this is a very important Bill. In my community, when you think about the wealth gap that African Americans and Hispanics have lost because our property is valued lower but our taxes is higher. And when you think about the unscrupulous things that's been happening, and there has not been anyone that has been brought up for charges for the wrong that has been done for generations, and again, the wealth that has been lost in my community for years, and years, and years. Right now, only children's immunizations are. This will help provide and be able to track immunizations across the state. The intent is to allow people to opt out. If they do not want their information in the registry, they don't have to have it. And then the second part of the Bill increases the vaccine for children's reimbursement to pediatricians to

70 percent of the Medicare rate. Right now, they are only paid \$6.40. And the average amount that physicians are paid for these vaccines is 30 to 60 dollars. This will increase it to \$16."

Hammond: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Hoffman: "Indicates she'll yield."

Hammond: "Thank you. Representative Gabel, I know that you've put a lot of work into this, and I appreciate that. We had over 15 thousand witnesses slip in opposition and surely I have received many of those in my own emails as well. People are very concerned about having this information based in a data registry. Can you explain for the Body who is going to hold those records and how they will be disseminated?"

Gabel: "The records are only for the Department of Health. They are not disseminated anywhere with actual identifying data. They're used in the aggregate to be able to check immunization rates across the state to identify areas that are low immunizations and to target services for those areas. As I said, initially it was going to be mandated, but we are going to make sure that it's an opt out, that people do not have to put their information in if they don't want to. I think that was the concern from all of those people who wrote and called me as well. And so, I told the pediatricians that we had to make sure that there was an opt out. People have the right to decide if they want their data in the data base or not."

Hammond: "And certainly we're very appreciative of that. And explain to me exactly how that opt out process is going to work, Representative?"

Gabel: "I believe there is. I believe there's actually a form they can fill out right there."

Hammond: "Okay. And if I'm understanding you correctly, we're not going to be using this to look at an individual but rather as an aggregate of the citizens of the state and areas as a whole?"

Gabel: "Correct."

Hammond: "Okay. And I appreciate that, Representative. And I certainly appreciate what it is you're trying to do. I just don't think that I can support it at this time, but thank you."

worked with Representative Lewis, he's not here today, but I think he deserves a mention. His name is spaced out on the board. It's not on the board, but he is listed on our brief analysis. But I just wanted to mention him because he not only championed this, but he knows that this Bill is going to help save the lives of children. And that's what we should be about, working in a bipartisan manner to save children all around the State of Illinois. That's what this Bill does. I want to commend Representative Lewis and ask for an 'aye' vote on this Bill."

Speaker Hoffman: "Representative Lewis to close."

Lewis: "It is an honor to be standing here today looking at all of you in this Body, that when I began campaigning, I said my goal is to help people and to work together. And that if we cannot agree on how to help children with cancer, then we are in trouble. We worked together bipartisanly and my faith has been restored in everyone here. And I request an 'aye' vote for Cal's Law. Thank you."

Speaker Hoffman: "The question is, 'Shall House Bill 2109 pass?' All in favor signify by voting 'aye'; all opposed voting 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. On this question, there are 106 voting 'yes', 0 voting 'no', 0 voting 'present'. And this Bill, having received the Constitutional Majority, is hereby declared passed. Congratulations. Leader Harris for the purpose of an announcement."

Clerk Bolin: "House Bill 3592, a Bill for an Act concerning State government. No Committee Amendments. Floor Amendment #2 is offered by Representative Robinson."

Robinson: "Thank you, Mr. Speaker. HB3592 amends the Department of Public Health Powers and Duties Law of the Civil Administrative Code of Illinois to include coroners as a part of medical examiner offices. It's specifically to comply with Sections 212(e) and 214(i) of the Federal Immigration and Nationality Act so that coroners here as part of the Federal Exchange Visitor Program are considered in compliance with Federal Law. Speaker Hoffman: "Representative Guzzardi."

Guzzardi: "Thank you, Mr. Speaker. Thank you, Members. House Bill 275 is an initiative of the Chicago Teacher Pension Fund. It simply clarifies how the fund is to handle overpayments and underpayments made in error. There's no codified mechanism in statute for how to handle such payments. So, the Teacher Pension Fund would like to borrow some of the statutory language from other funds that already exist and apply it to their fund as well. I urge an 'aye' vote. Thank you."

Batinick: "There's no reason to borrow bad language. What this does if you make... if you're overpaid for 37 months, you get to keep all of the money. And I understand there's an IRS tax thing if you are overpaid going back and correcting your taxes. However, if you're overpaid for 35 months, you have to pay back all of it. The way this Bill should be written, the pension funds are already underfunded. If you're overpaid for up to 36 months, you should have to pay that back. I understand anything after 36 months is too far to try.. for the pension funds to try to recoup, but this Bill could be written a lot better. I recommend a 'no' vote. Thank you. I.."

Representative Andrade, Representative Avelar, Batinick, Bennett, Bos... no, I won't drag this out any further than it needs to. Representative Batinick, I appreciate your point. I would simply respond that the provisions, as I say, in this statute are already in place and a number of other pension funds. We simply want the Chicago Teacher Pension Fund to have uniformity in how it handles these overpayments and underpayments. Right now, this is handled on a case-by-case basis, member to member. The fund doesn't believe that that's an adequate way to handle such a... such issues. And because of the inconsistencies that's

Slaughter: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 3958 requires the electronic recording of custodial interrogations that pertain to felony offenses, those crimes that carry longer sentences. As many of you know, our state continues to develop an embarrassing reputation for wrongful convictions, enforce plea deals. Every year, in our state, many people are jailed because of false confessions during custodial interrogations. It's important that we do as much as we can to promote fair interrogations for both suspects as well as law enforcement. As well as law enforcement. This is also a matter of being fiscally responsible. Many of us know that wrongful convictions have cost our taxpayers a great deal, whether that's settling wrongful conviction cases or incarcerating innocent people. What the Bill does is eliminate disputes about interrogations, thereby significantly improving the prosecution of the guilty, while affording protection to the innocent. The Bill puts us in line with 20 other states around the country. And law enforcement agencies that use electronic recording have proven its value. Of course, I'm open to any

recommendations that may arise in the Senate on this critical matter. Listen, it's going to be a razor-thin vote here. We're going to put this on the board. The message here is that we're protecting suspects, protecting law enforcement, protecting taxpayers. I urge a 'yes' vote."

Speaker Hoffman: "On House Bill 3958, Leader Durkin."

Durkin: "Will the Sponsor yield?"

Speaker Hoffman: "He indicates he'll yield."

Durkin: "Representative, what is the current state of the law with respect to the use of this type of recording of interrogations in Illinois?"

Slaughter: "Currently, Leader, we do require electronic recordings for a set of felonies. Honestly, what this Bill is doing is expanding it to all felonies. Of course, we stop short of comprehensively including misdemeanors. That's not in the Bill. But this is just for felonies."

Durkin: "Even property crimes which there's no... someone who has not been injured? Let's say it's a theft or a forgery and that the person is Mirandized and say... and they will make an admission. In that case, we have to have an electronic recording of the interrogation?"

Slaughter: "Okay. Leader, what's the... what's the question? I'm sorry."

Durkin: "The question is... you said all felonies."

Slaughter: "Yes."

Durkin: "We have felony theft, we have cases of forgery, but there's no personal or injury that has occurred to those victims. And so, in those situations where a person is brought in and they are Mirandized and they state I am going to waive

my Fifth Amendment rights, even in those situations they will have to have that admission recorded... video recorded?"

Slaughter: "Yes."

Durkin: "You're... okay. Do you... I've dealt with this issue before, and there is a cost that is associated with this type of work. Have you been able to convince the Sheriffs' Association or the Chiefs of Police that they do have the means to be able to have this equipment accessible for all felonies?"

Slaughter: "No. The law enforcement did not testify in committee about anything in regards to what you're saying. They already, obviously, have these devices and resources to conduct recordings."

Durkin: "But... well, let's look at Chicago. On any given day, there's three to four hundred felonies that may be charged. Some of them, a small portion of whom will be violent crimes, a murder, or a rape. But a great deal of them also are... let's say a Class 4 possession, as long as we still have possession as a felony. And I guess, after the last couple of days, we may not have to worry about that again. But a burglarized automobile, and as I said before, thefts, forgeries, property crimes that will be in the hundreds. How is the Chicago Police Department to be able to man that type of situation when a person is prepared to waive their Miranda rights? Because if they don't, if they don't have that captured, it means that their admission, you're telling me, is not admissible in a court of law."

Slaughter: "Okay, Leader. What's the question?"

Durkin: "What? How does Chicago manage this when they're going to have anywhere from three to four hundred felony cases that

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

24th Legislative Day

are going to be charged on any given day by the Chicago Police Department? How can they..."

Slaughter: "I would think that they would want to manage this. A wrongful conviction is going to cost them a lot more to not manage it, to not address it."

Durkin: "Are you saying that every admission that... that every admission that is made by a defendant is inherently coerced and has been given under duress? Is that what you're telling me?"

Slaughter: "I'm sorry, Leader. Could you repeat the question?"

Durkin: "I said, I guess you're saying if we don't have this, then they'll be the cost of wrongful conviction. So, what I'm asking you, is you're saying if we don't have every admission by an individual in a court room, then what we're stating is that every admission is done under duress or coercion?"

Slaughter: "Leader, this would also protect law enforcement. In regards to everything that you're saying and those concerns, we're protecting law enforcement in regards to..."

Durkin: "There's a theory... okay. Let me ask a couple more questions."

Slaughter: "Sure."

Durkin: "One of them is, it has to be in a police station or a..."

Slaughter: "Custodial. Yeah, custodial... yeah, Leader."

Durkin: "...place of detention. A police station. And a place of detention could be more than just the traditional police department. Would you agree?"

Slaughter: "Yes."

Durkin: "So, a person under the law has determined that they are in custody when they are no longer free to leave. And that

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

24th Legislative Day

4/23/2021

doesn't necessarily mean they're at a detective bureau or they're at one of the districts. So, the situation is this, and this often happens. An arrest is made, the person is handcuffed, he is Mirandized. And he says, you know what, yeah, I did this. That doesn't get in... that is not admissible into evidence, correct? When it is in a place of detention, which could be the squad the car or outside the squad car on the scene."

Slaughter: "That's correct, Leader. And I'm open to, again, if that Amendment needs to arise, if we are graciously able to get this Bill out of the Senate, I'm open to that, that Amendment."

Durkin: "We have been debating this for decades, and it's just... I... and, Representative, again, look, I'm coming to you and I know you have well intentions on this. But some of us have been involved with this type of practice where we've been involved with working with police and Mirandizing defendants, and we are often caught with situations where we are dealing with motions to suppress on a number of levels. So... and, here's one thing that I think we've got to be very careful about. And I'm going to get... over-lawyer it, but this is a reality. So, you do have a situation where an admission is made, and there is evidence that comes from that admission in which allows police officers to either make the case stronger or it gives them a codefendant, which they are able to begin to investigate. The problem is... there's a theory in law that goes back for decades called the fruit of the poisonous tree. That means that if a statement is made in inadmissible... under inadmissible situation or proceedings, any evidence that is

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

24th Legislative Day

4/23/2021

drawn from that is inadmissible per se. So, we're getting into a very... I would say a complicated a more complicated area of law that I'm not sure if you understand the complications that... it's a little more trickier than it appears on the paper. Because when we say that something is per se inadmissible, that means that any evidence that would be drawn from that statement cannot be used against that codefendant or can be used against that defendant. What if he says I got the gun over here, it's two blocks away. And he makes that full admission, but it's not recorded. The gun is found. The gun is not allowed into evidence. That is going to be suppressed."

Slaughter: "Leader, it sounds like you like the spirit of this, the objectives of this, and you're maybe articulating or highlighting some carve outs. That's what it sounds like to me."

Durkin: "No. I'm giving you my explanation of the current state of the law and how this is going to be applied on a real basis in a court of law when there's going to be a judge, a defense attorney, and a prosecutor who are going to have to try to figure out whether or not this person was in custody or not. And secondly, was there admission? Was the admission captured on a recording? And if there was any evidence that was gleaned from that interrogation, is it going to be admissible in the case in chief or against a codefendant? But I'm telling you right now that our case log, all the way up to our Supreme Court going back decades, says that that information is, as I said earlier, it's inadmissible under the concept of the fruit of the poisonous tree doctrine, and that hasn't changed.

STATE OF ILLINOIS
102nd GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

24th Legislative Day

4/23/2021

So, Representative Slaughter, I think that we're going down a path that I think that we could be making a very big mistake on a concept that you are trying to... and I respect what you're trying to do. But this is a complicated area of law, criminal procedure that we don't really have a great grasp on. I understand it, but I think that there's more to this, and it's not as simple as the way that the Bill is being explained or drafted."

Slaughter: "Leader, I respect your perspective and definitely willing to keep working with you when the Bill gets over to the Senate."

Durkin: "All right. Well, again, folks, we're... I'm just going to finish up and just say that, while we have a lot of well-intended issues that we try to address here, oftentimes we have the theory of unintended consequences and that we often make decisions that we should've thought through thoroughly and given some more contemplation to. I've just given it a couple of examples that are coming out of crim pro 101 that are very dangerous if the... if this law was to... if this Bill was to become a law. So, when we deal with these complicated areas within the area of criminal law and procedure, my recommendation is to move slowly. And first of all, let's see where the problem lies. But secondly, the way a Bill is drafted, is it really going to solve and make the streets safer? Is it going to make sure that someone is getting their fair day in court? In this Bill, in its current form, doesn't do it."

Speaker Hoffman: "Thank you, Leader. The Bill has been moved to Standard Debate. The Sponsor has spoken in favor. We will

Speaker Hoffman: "Indicates he'll yield."

Tarver: "Chairman Slaughter, I just want to make sure I understand. So, this is requiring video when there's a felon... essentially interrogation about a felony. Is that right?"

Slaughter: "Yes. Electronic recordings. So, that's correct, Representative."

Tarver: "Electronic? Okay. And so, I just want to make sure I understand this. There was a lot of talk about a property crime. To the best of your knowledge, can you have your freedom taken for a property crime?"

Slaughter: "Yes."

Tarver: "Okay. Okay. What's the cost of freedom?"

Slaughter: "There is no cost, Representative. You know that."

Tarver: "Yeah, I know. We been trying to figure out for 400-plus years. But, okay. So... but we want to talk about actual costs. Let's do that. We bring up Chicago. Would it surprise you to know that Chicago has spent approximately a half billion dollars over the last 20 or so years with excessive force cases and things like that?"

Slaughter: "A half a billion, Representative."

Tarver: "Do you think that for less than, I don't know, a half a billion dollars we can get some people recorded and find out if these are actual valid statements that are being provided?"

Slaughter: "I think we can, Representative."

Slaughter: "I think that we can, Representative."

Tarver: "Do you think we can do it for less than that?"

Slaughter: "I know that we can. Thank you, Representative. And this is, Ladies and Gentlemen, a fiscally responsible measure that we're bringing forward as well, underscoring Representative Tarver as well..."

Tarver: "I don't want to talk about fiscal responsibility. I don't even want to talk about fiscal responsibility at this point. Because we have the money when people... oh actually, let's take a step back. And then we have the fact that we have to pay these families, right? Okay. But beyond all that, because we want to talk about Chicago and Cook County. Would it surprise you to know that in 2017 there was a study, a national study, about exonerations? Twenty-one hundred cases. Did you know that 193 came from Chicago? Did you know that, Chairman Slaughter? Would that surprise you?"

Slaughter: "Not at all."

Tarver: "Would it surprise you that nationally 28 percent of the cases that were studied came from Chicago? One in four in Cook County? Would that shock you?"

Slaughter: "No."

Tarver: "Okay. So, when we talk about property crimes, when we talk about costs and things along those lines, I just want to bring it to a close and understand. Again, if you can help remind me, what is the cost associated with wrongfully taking someone's freedom?"

Speaker Hoffman: "Representative Windhorst, and then we will go to Representative Slaughter to close. Representative Windhorst."

Windhorst: "Thank you, Mr. Speaker. To the Bill."

Speaker Hoffman: "To the Bill."

Windhorst: "There was another issue with including all felonies and requiring those to be recorded. There are times when the officer does not know necessarily that the offense is a felony, and I want to give an example of that. Domestic battery is a Class A misdemeanor. If a person is convicted and they commit domestic battery again, that is a felony offense. I think most people in this Body would agree it should remain a felony offense. However, at the time of interrogation the officer may not know that it qualifies as a felony offense and any admission regarding that domestic battery would then be thrown out of court. And any evidence that may be gathered from that admission, as was pointed out, may be thrown out of court. We have in the past, as was noted, we started with homicide in 2003. We expanded to other very serious and violent felonies in 2013. But to expand beyond to all felonies will create problems that we are not foreseeing today. We have to be cautious as we go forward with this. I appreciate what's been said. And I agree that a videotaped confession is powerful evidence in a courtroom, but we don't want to create a situation where that evidence, if it's... just because of some technicality that may not be thought of today,

gets tossed out and a rightfully guilty person is not convicted. So, I would urge a 'no' vote. Thank you."

Slaughter: "All right. Thank you, Mr. Speaker. And just to the previous speaker. Thank you, Representative, for those concerns and certainly committed to working on those good faith exemptions that perhaps we need to get in the Bill. As we continue to look at our criminal justice system, Ladies and Gentlemen, it's important that we address wrongful convictions, forced plea deals, and false confessions. With this Bill, our state protects suspects and law enforcement when we promote fairness with custodial interrogations. I urge a 'yes' vote."

Clerk Hollman: "House Bill 109, a Bill for an Act concerning finance. This Bill was read a second time previously. No Committee Amendments. Floor Amendment #1, offered by Representative Tarver, has been approved for consideration."

Speaker Hoffman: "Representative Tarver on Floor Amendment #1."

Tarver: "Thank you, Mr. Speaker. The Amendment becomes the Bill. So, I'd like to discuss it more on Third. If you need to know what it is, it just guides where the eight percent in the Cannabis Revenue Tax Act that goes to local law enforcement. It guides where it goes and it breaks those funds down."

Speaker Hoffman: "Representative Tarver moves for the adoption of Floor Amendment #1 to House Bill 109. All in favor signify by saying 'aye'; all opposed 'nay'. In the opinion of the Chair, the 'ayes' have it. The Amendment's adopted. Any further Amendments, Mr. Clerk?"

Clerk Hollman: "House Bill 109, a Bill for an Act concerning finance. Third Reading of this House Bill."

Speaker Hoffman: "Representative Tarver on House Bill 109."

Tarver: "Thank you, Mr. Speaker. This Bill is an initiative of the Illinois Black Caucus to look at what cannabis revenue goes as it flows into local law enforcement and to correct the error of the Body by not really providing any guidance on where that money goes. My understanding is that the Bill essentially says 'law enforcement purposes', and there really hasn't been much guidance as to what that means. And so, what we did was, as a Black Caucus, is look at how to guide those funds. So, the eight percent would be divided up, with two

percent discretionary, two percent for high-risk traffic stops and de-escalation training, two percent would be for... I just had this in front of me. One percent would be for expunging juvenile records. One percent for the... it's been there an hour and can't remember. One percent for juvenile expungements. One percent for pretrial services. And I'm sure I'm missing something that my good friend Welter will point out to me. Oh, I'm sorry. The most obvious thing, body cameras. Two percent towards body cameras. So, again, this is an initiative of the caucus. We've heard a lot of rumors about the fact that we have these unfunded mandates. Here's a pot of money that can go and support some of these efforts that we passed in House Bill 3653, which is now a Public Act. I look forward to a spirited debate."

Speaker Hoffman: "This Bill being on Short Debate, Representative Welter, are you in support or opposition?"

Welter: "Opposition."

Speaker Hoffman: "Please proceed."

Welter: "Does the speaker yield?"

Speaker Hoffman: "He indicates he'll yield."

Welter: "Representative Tarver, I know you and I have spoke about this Bill a couple times now as it's come through committee and you've worked on this Amendment that you brought forth. The eight percent that we specifically negotiated in the cannabis Bill when we initially passed the recreational use, can you tell me any history that you may have gotten from anybody about why we landed at eight percent and how those funds were to be used?"

Tarver: "I can tell you the history, but that doesn't make the argument of coming to eight percent very valid. So, I do believe that law enforcement wanted a 24 percent premium for opposing the Cannabis Revenue Tax Act, and then settled upon the 8 percent premium for, again, opposing a Bill but extracting funds from it once it passed. That's my estimation.

Welter: "It's a little bit of a different explanation than what I remember being involved in the negotiations. But to the Bill here, and I don't believe I'll have any other specific questions for the Representative."

Speaker Hoffman: "To the Bill."

Welter: "As many of you in this Body were here back when we passed the legalization of cannabis, I was one of the few Republicans to actually support the Bill and a chief cosponsor of the Bill. I spent over a year and half of my life, probably the most involved I've ever been in any legislation in this Body, because I felt it was too important of a topic for the Republican Party to just say no and not have a seat at the table. So, I went up to Chicago and Springfield for dozens and dozens of meetings to try to craft the best possible legislation we could. And one of the big topics that we had was, how should this revenue be used? And we went back and forth many times, had great lively debate. There were a lot of important things that needed to be funded in Illinois. And I think we came to a fairly decent carve up of how that should be. And we, at the time, made an agreement in good faith that we would revisit this revenue in 2024 as the Bill states. So, it's very disheartening to me, as somebody in the Minority Party who has on multiple occasions worked with many of you

on the other side on things that have not been popular on my side. And by doing this, although I get the intention of the Sponsor, it makes it very difficult for folks like myself who have really good intentions to want to extend the olive branch, put our votes on difficult Bills, to only see that that is not going to be followed through on the agreement that we originally made. And my concern to that eight percent, and I've offered to the Representative, I think there's a compromise that might be able to be made here where we still prioritize body cameras, the training that he so desires, but we're also not taking away from our local governments and the ability in which they use these funds today. I would remind you... I know the Representative said that it wasn't very specific in terms of what these funds were to be used for. Folks, we're striking this specific language about prevention programs, training, including detection enforcement prevention efforts. And here's a very important one for a lot of us because we wanted to make sure this was in the Bill. For driving under the influence of cannabis. So, this is supposed to be to go toward to help roadside testing, enforcement in that end. So, if you vote on this Bill the way it currently stands, and this is one of my grave concerns, is you're basically saying that's not an important topic to be funded at a local level. That, I think, is not a very good sign to send. I think there is a way that we could look at these overall funds, if that's our purpose, if we want to reopen and look how these funds are used and what percentages. I'm happy to have that conversation again because I think there's a way we can still meet what you're trying to do, but

also not take away how the local funds are using those... that revenue today. Because I've talked to my local governments, I used to run local governments as a county board chairman. And in my community..."

Speaker Hoffman: "Representative, if you could bring your remarks to a close. I know..."

Welter: "I'll bring them to a close here. In my community, we use those funds for multiple things that are related to the cannabis dispensary in our community, traffic control, all these things that have been an added cost. Again, agree that we need to find revenue for body cameras and these other items, but this is not new revenue that we're going to be giving towards these programs. It's just shifting these funds around and not necessarily for the intended purposes in which we all put our vote on when we passed the cannabis Bill."

Speaker Hoffman: "Representative Tarver to close."

Tarver: "So, I appreciate that. And I just want to be clear. When we look at how the funds are divided up, it's two percent that's discretionary. So, certainly if a county determine that... to the Representative's point, that something specific was more important than what it prioritized it, they could do that. I want to talk about, just very briefly, we're talking about DUIs and things like that. I mean, there's nothing more dangerous for a black man in society right now than a traffic stop. And so, I think it's very, very important that, when we talk about these funds and providing training, it's for those exact situations. For those exact situations. You know, I'm happy to work with the Representative. And I'm glad... I don't know if he's put it on record, but it sounds like we're going

to work together to find a funding for some of these things that are very, very important that we passed in the criminal justice pillar. But, again, I just want to make it abundantly clear that this is not taking any money away from local government. It's not taking any money away from law enforcement. What it is doing is helping to provide parameters and guidelines on how those funds will be spent. And I think that's particularly important right now. And so, I would urge an 'aye' vote, and we'll see where we go from there."

Speaker Hoffman: "The question is, 'Shall House Bill 109 pass?' All in favor signify by voting 'aye'; opposed voting 'nay'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. Representative Tarver."

Representative Windhorst, so the changing the definition of... the changing of the definition to a local road, is that for any and everything across the state that this definition now applies? So, in my community that... what I would consider a local road in that community, is that now considered a state road?"

Windhorst: "No. What this... the term local road is a term that is used in regulation in both the State and Federal Government for the transportation of materials. So, it actually applies and relates to those regulations to clarify that, when we say local road, we mean those materials can be transported on a two-lane state highway."

Davis: "Fair enough. Thank you."
