

HOUSE OF REPRESENTATIVES

SEVENTY-NINTH GENERAL ASSEMBLY

SEVENTIETH LEGISLATIVE DAY

MAY 18, 1975

GENERAL ASSEMBLY
STATE OF ILLINOIS
HOUSE OF REPRESENTATIVES

1.

Doorkeeper: "All those not entitled to the floor will you please go to the gallery."

Doorkeeper: "All those not entitled to the floor will you please go to the gallery."

Speaker Redmond: "The House will come to order and the Members will please be in their seats. We will be lead in prayer by Father Krueger, the House Chaplain."

Father Krueger: "In the name of the Father, the Son and the Holy Ghost. Amen. O Lord, bless this House to Thy service this day. Amen. The aging Ulysses says, in Tennyson's poem; that we are not now that strength wich in old days moved earth and heaven; that which we are, we are; One equal of heroric hosts, made weak by time and fate, but strong in will to strive, to seek, to find, and not to yield. Let us pray. Almighty God, pour out thy Holy Spirit upon the members of this House who are working for Thee. O Lord, take their minds and think through them; take their lips and speak through them; take their hearts and set them on fire with love to Thee; all of which will manifest to Thy glory and the benefit and welfare of the peoples of this great State; through Jesus Christ our Lord. Amend."

Speaker Redmond: "Roll call for attendance."

Speaker Redmond: "Agreed Resolutions."

O'Brien: "House Resolution 280, Sangmeister, et al."

Speaker Redmond: "Representative Madigan."

Madigan: "Mr. Speaker and Members of the House. House Resolution 280 commends Mr. Stanley Monteith of Steger upon the many contributions which he has made to the cause of education in Illinois throughout his years as a teacher and administrator. I move the adoption of House Resolution 280."

Speaker Redmond: "The question is on the adoption of the Agreed Resolutions. All in favor indicate by saying 'aye', opposed 'no'. The 'ayes' have it, the Resolutions are adopted."

Speaker Redmond: "Senate Bills, First Reading."

O'Brien: "Senate Bill 520, Terzich. A Bill for an Act to create the Sanitary District and remove obstructions in the Des Plaines and

Illinois rivers. First Reading of the Bill."

Speaker Redmond: "Consent Calendar, Second Reading, Second Legislative Day."

O'Brien: "Senate Bill 323. A Bill for an Act to amend The Civil Administrative Code. Second Reading of the Bill. Senate Bill 359. A Bill for an Act to amend the Timber Buyers Licensing Act. Second Reading of the Bill."

Speaker Redmond: "Third Reading... Bills from Second Reading to Third Reading..you're not as attentive as you usually are."

Speaker Redmond: "House Bill, Second Reading. On House Bill, Second Reading appears House Bill 450."

O'Brien: "House Bill 450, Skinner. A Bill for an Act to amend the Illinois Library Systems Act. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Second Reading. 451."

O'Brien: "House Bill 451, Skinner. A Bill for an Act making an appropriation to the Secretary of State. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 680."

O'Brien: "House Bill 680... It's being held for a request for a Fiscal Note."

Speaker Redmond: "Representative Skinner."

Skinner: "Mr. Speaker, I again to arriv.... arise to ask what remedy I should follow in prying a Fiscal Note out of the Executive Branch of Government."

Speaker Redmond: "I asked you to give me a copy of the...."

Skinner: "I'll bet... I'll bet the new person in charge of my Secretary, let her go before she had a chance to find it on Saturday afternoon."

Speaker Redmond: "twern't my fault".

Skinner: "Your correct, it is the Revenue Departments fault and the Department of Local Government Affairs fault."

Speaker Redmond: "If you get me that I will see that you get your Fiscal Note. 726.... Representative Hanahan, is here."

Skinner: "Letters to the Department of Local Government Affairs and Revenue Department, ask them for a Fiscal Note... why is my speaker on?"

O'Brien: "House Bill 726, Merlo. A Bill for an Act providing for the Ordinary Contingent Expense for the Department of Insurance..."

Speaker Redmond: "Any further Amendments on this Act?"

O'Brien: "Second Reading of the Bill. 1, Committee Amendment. Amends House Bill 726 on page 1, line 17 and so forth."

Speaker Redmond: "Representative Shea, can you handle the Amendment on House Bill 726... Committee Amendment."

Shea: "I move for its adoption."

Speaker Redmond: "The gentleman has moved for the adoption of Committee Amendment Number 1, to House Bill 726. All in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. 732."

O'Brien: "House Bill 732, Dave Jones. A Bill for an Act in relation to the Illinois State Fair. Second Reading of the Bill. 2, Committee Amendments..."

Speaker Redmond: "Take that out of the records. 738."

O'Brien: "House Bill 738. A Bill for an Act to provide for the Ordinary Contingent Expense of the Office of State Appellate Defender. Second Reading of the Bill. 1, Committee Amendment. Amends House Bill 738 on page 1, line 17 and so forth."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker and Members of the House. Committee Amendment Number 1, as you read it, reduction of approximate \$12,000 for the Ordinary and Contingent Expenses of State Appellate. I would move for the adoption of Committee Amendment Number 1."

Speaker Redmond: "The gentleman has moved for the adoption of Committee Amendment Number 1, to House Bill 738. All in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 836."

O'Brien: "House Bill 836, Luft. A Bill for an Act to provide for the Ordinary and Contingent Expenses of the Court of Claims. Second Reading of the Bill. 1, Committee Amendment, amends House Bill 836 on page 1, line 10 and so forth."

Speaker Redmond: "Representative Luft."

Luft: "Ah... Committee Amendment Number 1, reduces the appropriation by... 3,462 ah... if there is no questions I would move for Third."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 1, to House Bill 836. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 839... I don't read so well, 859."

O'Brien: "House Bill 859, Luft. A Bill for an Act to amend the Revenue Act. Second Reading of the Bill. Ah... ah... Amendment Number 4, Luft... amends House Bill 859 on page 1, line 14 by deleting the number '65' and so forth."

Speaker Redmond: "Representative Luft."

Luft: "Ah... Mr. Speaker, ah... because of errors in Amendment Number 3, I would... I ask leave to table Number 3."

Speaker Redmond: "Does the gentleman have leave to table Amendment Number 3. Representative Shea."

Shea: "You've gotta... doesn't he have to reconsider the vote by which it was adopted and..."

Speaker Redmond: "The gentleman moves to reconsider the vote by which Amendment Number 3, was adopted. All in favor say 'aye', opposed 'no'. The 'ayes' have it."

Luft: "Okay ah... Amendment Numb..."

Speaker Redmond: "Now the motion is to table Amendment Number 3..."

Luft: "I move to table Amendment Number 3."

Speaker Redmond: "The gentleman has moved to table Amendment Number 3. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is tabled."

Luff: "Okay, Mr. Speaker ah... Amendment Number 4, corrects the typographical errors and adds the definition of gross income to the Bill and I would move for its adoption at this time."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 4, to House Bill 859. All in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. 2476... Third Reading. 2476.... ah Representative Duff."

Duff: "Mr. Speaker, aren't you following the order in the Calendar?"

Speaker Redmond: "Well... Representative Shea."

Shea: "Brian, I thought we would go by Members that are here. You wanted to go right down the Calendar... we'll try it that way, I thought we could just go on Second by the Members that are here."

Duff: "Well ah... we just passed Merlo's and ah... he's not here. I didn't mind that ah... and ah..."

Speaker Redmond: "I'll be back to 899, is that's what your worried about."

Shea: "Ah... that's one we may have a discussion about."

Duff: "Well then, let's go back to it, when we get to... as long as we can be sure of getting to it."

Speaker Redmond: "It will be done. 2476."

O'Brien: "House Bill 2476. A Bill for an Act making appropriations to the Illinois Office of Prosecution Services. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 2477."

O'Brien: "House Bill 2477. A Bill for an Act to create the Illinois Prosecutors Council and the Illinois Office of Prosecution Services. Second Reading of the Bill. Ah... 1, Committee Amendment, amends House Bill 2477 on page 1, by deleting line 1 and 2 and so forth."

Speaker Redmond: "Representative Shea."

Shea: "I would move for the adoption of Committee Amendment Number 1, which is really the whole Bill and sets up the Illinois Prosecutor Council."

Speaker Redmond: "Representative Palmer."

Palmer: "Is the Governor still in, Jerry... pardon me."

Shea: "Yes he is, but I think you'll find that I'm going to move to adopt the Katz Amendment, which is next, which takes them out."

Speaker Redmond: "The gentleman has moved to adopt Amendment Number 1, to House Bill 2477. All in favor say 'aye',... Representative Mann."

Mann: "What does Amendment Number 1 do?"

Speaker Redmond: "Representative Shea."

Shea: "That sets up the whole Bill, Bob and then there... as you remember, Amendment Number 1, sets up the Council and there is an Amendment by Representative Katz that puts in the things that he talked about doing."

Mann: "Well, when you come to that would you... would you ah... tell us what that Amendment Number 2, does."

Shea: "Certainly."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 2477... Jim Houlihan.... James Houlihan."

Houlihan: "Jerry, you said that ah... Amendment Number 1, is the whole Bill ah... but you didn't indicate what the whole Bill was."

Shea: "It sets up the Illinois Prosector Council, tells what the Membership is and what its duties are."

Houlihan: "And who... who sets up the Council, how is it appointed or what is the membership."

Shea: "I don't have the Bill in front of me Jim, I'll get it. It came out of ah... if I had the Amendment ah... I could look at it but there's... I'll get that... pass that for a minute."

Speaker Redmond: "Take that one out of the Record. 2987. Representative Duff."

Duff: "Mr. Speaker, I really don't mind taking all the Majority Leaders Bills, but also we have some other Members on the floor who are here and..."

Speaker Redmond: "We'll be back there in three shakes of a lambs tail."

O'Brien: "House Bill 2987. A Bill for an Act making appropriation for the Ordinary and Contingent Expenses of the State Board of Elections. Second Reading of the Bill. 1, Committee Amendment. Amends House Bill 2987 on page 1, line 5 and so forth."

Speaker Redmond: "Representative Shea."

Shea: "I move for the adoption of Committee Amendment Number 1, which conforms the Bill of what the cost the machines will be."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 1, to House Bill 2987. All in favor say 'aye', opposed 'no'. The 'ayes' have it. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: No further Amendments, Third Reading. 3016, Representative Houlihan."

Houlihan: "Ah... Mr. Speaker, Jerry you had indicated that you would hold that on Second Reading for ah... that possible Amendment that we've been... Okay."

O'Brien: "House Bill 3016. A Bill for an Act making an appropriation to the Department of Labor. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Representative Shea."

Shea: "Oh, no... there's floor Amendments, there's two, one by Schraeder and one by Polk."

O'Brien: "Amendment Number 1, Schraeder. Amends House Bill 3016 by deleting lines 13, 14 and 15 and so forth."

Shea: "Ah... I believe that this is something we've got worked out between ah... Mr. Polk, Mr. Schraeder, myself and Mr. Tuerk and therefore I move to table Amendment Number 1."

Speaker Redmond: "The gentleman has moved to table Amendment Number 1, to House Bill 3016. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment Number 1, is tabled."

O'Brien: "Amendment Number 2, Polk. Amends House Bill 3016 on page 1, line 8 by deleting 'first' and so forth."

Speaker Redmond: "Representative Polk... Representative Houlihan."

Houlihan: "Ah... Mr. Speaker, is this the Bill which appropriates ah... ten-million or some sixty-million dollars to the Department ah... of Unemployment Compensation?"

Speaker Redmond: "Representative Polk."

Polk: "Yes, it is."

Houlihan: "Ah... I have to ask if that has been printed and distributed to all the Members."

Speaker Redmond: "Is the Amendment printed?"

Polk: "Yes."

Houlihan: "The Bill itself."

Shea: "The Bill and the Amendment have been distributed."

Speaker Redmond: "3016, is that printed and distributed? Representative Duff."

Duff: "Mr. Speaker, we don't have any of the Bills distributed over 3,000."

Shea: "I think that this is one, Mr. Duff that has been printed and distributed, it is a one page Bill...."

Duff: "Ah... I can only tell ah... you ah... Representative Shea..."

Shea: "You can't find it."

Duff: "Well no, I know that it hasn't been distributed on this side... Ben has one."

Speaker Redmond: "Representative Houlihan."

Houlihan: "If it... pardon... I think Jerry, if ah... the Bill hasn't been distributed we can't consider it."

Speaker Redmond: "Representative Shea."

Shea: "The Bill been distributed Jim, and if you haven't got one ah... this came up and was put on our desk yesterday."

Houlihan: "Jerry, the... the ah... Chief Page, indicates that it hasn't been distributed."

Shea: "I don't know what the Chief Page says, I know I went down and got it printed yesterday and was distributed. But if you want to..."

Speaker Redmond: "Representative Mann.... Mann."

Mann: "Oh... Mr. Speaker ah... Jerry ah... I was among those who ah... voted to advance this to the Order of Second Reading, without reference and in all likelihood will support the Bill on Third Reading but I would like a chance to look at it. I'm not questioning the fact that its been distributed but I haven't had a chance to see it."

Speaker Redmond: "Okay, we'll take that one out of the Record. 895, G. L. Hoffman.... take that out of the Record. 899."

O'Brien: "House Bill 899, Duff. A Bill for an Act making an appropriation to the Supreme Court. Second Reading of the Bill. 1, Committee Amendment, amends House Bill 899 on page 1, line 7 by deleting eighteen-million dollars and inserting in lieu thereof three-hundred thousand."

Speaker Redmond: "Representative Duff."

Duff: "Well, Mr. Spekaer, Ladies and Gentlemen of the House. This Amendment was approved by the Committee 18 to 1, ah... it is because, that it is not possible to spend the exp... expenses that were originally layed out, that would be indicated in all probability to be necessary for a full year of operation. The three-hundred thousand dollars is the amount of money that the ah... Chief Administrator for Officer of the Supreme Court felt would be necessary in order to start the program working in the event that the two Bills should pass. I move the adoption."

Speaker Redmond: "Representative Shea."

Shea: "Well, Mr. Spekaer House Bill 900 which is on Third Reading, requires the expenditure of between eighteen and twenty-two million dollars for its operation and I can't understand how we can cut this back at this time without amending House Bill 900 and that's still on Third Reading. So, I would object to this Amendment at this time."

Duff: "Well... Mr. Speaker, if the ah... Bill is passed and the eighteen-million dollars, which will be required for a full years of operation, was allocated as under the... under 899 as presently stands we would pass the appropriation but we wouldn't spend the money. Now, what the Chief Administrator Officer of the Supreme Court had said, is he needs the legislation to pass and he needs to be able to start implementing the legislation, in a order to implement the legislation he needs the money."

Shea: "Well... Mr. Duff, as I understand 900 and I've read it, it become effective on its becoming a law. I have a letter from the Supreme Court Administrator that the salaries for the local ah... area is between eighteen and twenty-two million dollars. How can you cut this down without at least changing the effective date of 900."

Duff: "I have that same letter on my desk, Representative Shea and the..."

and the Chief.... and ah... Judge Gulley says in that letter that he assumes that you know that the appropriation will... would be changed to three-hundred thousand dollars which would be appropriate and..."

Shea: "But you haven't changed the substantiate Bill yet and I would object to the Amendment at this time."

Duff: "Well.... that is a misunderstanding on your part, Representative Shea because the substantiate Bill is the enactment of an organization which can't function and the appropriation is the monies that they will need as they put that into operation, now..."

Shea: "But, does 900 become effective, the date it becomes a law."

Duff: "That's right."

Shea: "All right that requires, on that date for all those local people to become State Employees. There's no delayed effective date, there's not a thing in that Bill about a delayed effective date."

Duff: "Mr. Speaker, if the ah... Majority Leader would like me to take this out of the Record, so I can talk to him on it, I would be glad to."

Speaker Redmond: "I think that would be a good idea, let's take it out of the Record. 954, is Representative Farley, here... take that out. Katz, 1013... 1056... any Amendments on that, Jack?"

O'Brien: "House Bill 1056. A Bill for an Act to provide for the Ordinary and Contingent expenses of the Illinois Commission on Intergovernmental Cooperation. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1057."

O'Brien: "House Bill 1057, McClain. A Bill for an Act to amend the School Code. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "Amendment Number 1, McClain. Amends..."

Speaker Redmond: "He's not here, we'll take that out. 1064 is that... Representative Choate, is that Bill in order."

O'Brien: "House Bill 1064, Choate..."

Speaker Redmond: "Take that one out. 1086, any Amendments on 1086?"

O'Brien: "House Bill 1086. A Bill for an Act to provide for the Ordinary and Contingent Expenses of the Illinois Commerce Commission. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. Is Kozubowski here? How about 1111... take that out. Any Amendment on 1128... take that out of the Record. 1278... there he is."

O'Brien: "House Bill 1278, Ron Hoffman. A Bill for an Act making an appropriation to the Department of Transportation. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. How about 1358... 1358."

O'Brien: "House Bill 1358. A Bill for an Act making an appropriation to the State Comptroller. Second Reading of the Bill. 1, Committee Amendment. Amends House Bill 1358 on page 1, line 5 and so forth."

Speaker Redmond: "Representative Choate."

Choate: "Ah... the Amendment simply ah... reduced the qualification, Mr. Chairman... Mr. Speaker from 20% to 15% ah... eliminating several Counties that could qualify under the Act as far as reimbursement or funds are concerned. I would move that the House concur in the ah... adoption of Committee Amendment Number 1."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1358. All in favor say 'aye'... Representative Duff."

Suff: "Would the sponsor yield to a question."

Speaker Redmond: "He indicates he will."

Duff: "Ah... Representative Choate has the const... does the State Comptroller approve of this?"

Choate: "Well the Com... the State Comptroller is the ones that... is the one that will issue the funds ah... I would assume that he ah... approves of it ah... it's a new Act, its not that he's done it before ah... so, I don't know why he would approve or disapprove."

Duff: "Okay, I just wanted to know if it had been discussed with him."

Choate: "It hasn't."

Speaker Redmond: "The question is, shall Amendment Number 1, to House Bill 1358 be adopted. Those in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 1487."

O'Brien: "House Bill 1487, Hirschfeld..."

Speaker Redmond: "Any Amendments?"

O'Brien: "A Bill... none. A Bill for an Act relating to the inspection of elevators. Second Reading of the Bill. No Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1493... Representative Shea."

O'Brien: "House Bill 1493, McPartlin. A Bill for an Act to amend the Illinois Income Tax Act. Second Reading of the Bill. 2, Committee Amendments. Amendment Number 1, amends House Bill 1493 on page 2 by striking lines 6 and 7 and so forth."

Speaker Redmond: "Representative Shea... Representative McPartlin."

McPartlin: "Mr. Speaker, I move for the adoption of Committee Amendment."

Speaker Redmond: "The gentleman has moved the adoption of Amendment number 1, to House Bill 1493... Representative Duff."

Duff: "Well... Mr. Speaker, we would like to cooperate as much as we can in moving things forth but we would like the sponsors to explain the Amendments."

Speaker Redmond: "Explain the Amendment, Representative McPartlin."

McPartlin: "Ah... Amendment Number 1, was adopted in Committee and it says that; to the Auditor General, or to any employee of the Auditor General, or to any special assistant auditor as defined by the Illinois State Auditing Act, designated by the Auditor General in writing. A special study under the Illinois Auditing Act and any such person who divulges any such information in any manner, except for purposes relevant to the report arising from an audit, investigation or special study shall be guilty of a Class A misdemeanor."

Speaker Redmond: "Representative Duff."

Duff: "Mr. Speaker, I remember these ah... we... I have no objections to

them."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1493. All in favor say 'aye', opposed 'no'. The 'ayes' have it, Amendment Number 1, is adopted. Any further Amendments?"

O'Brien: "Committee Amendment Number 2, amends House Bill 1493 on page 2 and so forth."

Speaker Redmond: "Representative McPartlin."

McPartlin: "Ah... Amendment Number 2, states that the returns shall be examined shall be selected at random. The number of returns examined for any particular purpose will not exceed the number necessary for a sample based on the purpose for which the sampling is intended. No Federal tax information may be examined. I move for the adoption of Committee Amendment Number 2."

Speaker Redmond: "The gentleman has moved for the adoption of Committee Amendment Number 2, to House Bill 1493. Mr. Duff."

Duff: "Representative McPartlin, this is the one is it not, which allows the Auditor General to ah... on a random sampling takes Income Tax Returns."

McPartlin: "Yes, that is correct."

Duff: "Well I'm not going to object to that but I do think it's important to warrant the attention of the floor."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 2, to House Bill 1493. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "Floor Amendment Number 3, McPartlin. Amends House Bill 1493 on page 2 by deleting lines 5 through 10, and so forth."

Speaker Redmond: "Representative McPartlin."

McPartlin: "Ah... in this Amendment is the same that information obtained under this provision shall be confidential except for purposes relevant to the audit and I would move for the adoption of Amendment Number 3."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 3, to House Bill 1493. All in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amend-

ments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 1510."

O'Brien: "House Bill 1510. A Bill for an Act making an appropriation to the Department of Transportation. Second Reading of the Bill. 1, Committee Amendment, amends House Bill 1510 on page 1, line 20 and so forth."

Speaker Redmond: "Representative Matijeich."

Matijeich: "Mr. Speaker, Ladies and Gentlemen of the House. Ah... Committee Amendment Number 1, ah... is a reduction in the total appropriation by a hundred and ten-thousand dollars and the ah... removal of language relating to a vehicular bridge ah... the Bill in itself ah... ah... relates to construction and channel improvements on Nippersink and Pistakee Lakes in Lake County and the Amendment removes the vehicular bridge that was in the original recommendation. I move for the adoption of the... Amendment Number 1, a Committee Amendment."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 1, to House Bill 1510. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendemnt is adopted. Any furhter Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 1522."

O'Brien: "House Bill 1522. A Bill for an Act making an appropriation to the Department of Registration and Education. Second Reading of the Bill. No, Committee Ammdments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1584."

O'Brien: "House Bill 1584. A Bill for an Act to grant law enforcement personnel the right to organize and bargain collectively. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1588."

O'Brien: "House Bill 1588. A Bill for an Act making a supplemental appropriation to the Department of Conservation. Second Reading of

the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. We'll pass 1596... 1609... Representative Shea..."

O'Brien: "House Bill 1609..."

Shea: "160...1609 and 1610 are out of the Record at the sponsors request."

Speaker Redmond: "Take them out of the Record. Representative Duff."

Duff: "Mr. Speaker, why did we pass ah... 1596?"

Speaker Redmond: "Representative Lauer is not here and there is an Amendment on it... and I don't know who could explain the Amendment."

Duff: "Thank you, Mr. Speaker."

Speaker Redmond: "1727."

O'Brien: "House Bill 1727, there is a request for a Fiscal Note."

Speaker Redmond: "Fiscal Note hasn't been furnished yet?"

O'Brien: "No, its not filed."

Speaker Redmond: "We'll have to hold that on Second Reading. 17..."

O'Brien: "Do you want to adopt the Amendments now?"

Speaker Redmond: "Representative Choate, do you want to adopt the Amendments on 1727."

Choate: "Ah... if... if the Chair desires, we can adopted the ah... Amendments, Mr. Speaker. I didn't realize there had been a request for a Fiscal Note, so we will just have to wait till before we move it..."

Speaker Redmond: "Might as well adopted the Amendments... don't you think."

Choate: "Okay."

O'Brien: "House Bill 1727, Amendment... A Bill for an Act in relation to the establishment of an Illinois Transportation Safety Board. Second Reading of the Bill. 1, Committee Amendment, amends House Bill 1727 on page 1 and so forth."

Speaker Redmond: "Representative Choate."

Choate: "Well, Mr. Speaker and Members of the House. The Amendment has been drafted by the ah... Highway Study Commission to attempt to ah... make the proposed new legislation conform with the Federal Regulations, so I ah... this was brought up in the ah... Committee. I would move

Mr. Speaker, that the ah... Amendment be adopted to House Bill 1727 and I will attempt to get a Fiscal Note prepared."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1727. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. The Bill will remain on Second..."

O'Brien: "Floor... floor Amendment Number 2, Choate. Amends House Bill 1727 as amended on page 5, line 28 and so forth."

Speaker Redmond: "Representative Choate."

Choate: "Ah... this... this was.... this... this Amendment, Mr. Speaker attempts to make clear that the complicated function of the ah... Safety Board would not exert the existing statutory authority of other State Agencies and that do operate in this area, so I would move that this Amendment be adopted also."

Speaker Redmond: "The gentleman has moved that Amendment Number 2, be adopted. All in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment Number 2, is adopted. The bill will remain on Second Reading until the Fiscal Note is furnished. 1790."

O'Brien: "House Bill 1790. A Bill for an Act to prohibit the distribution of obscene material..."

Speaker Redmond: "Representative Shea."

Shea: "He's not here."

Speaker Redmond: "Take that one out. Marovitz... not here, take that one out. 1949."

O'Brien: "House Bill 1949, McClain. A Bill for an Act to amend the Child Care Act of 1969. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1955, Representative Keller... is not on the floor, pass it. 1965... any Amendments on that."

O'Brien: "House Bill 1965. A Bill for an Act to amend the School Code. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 1977."

O'Brien: "House Bill 1977. A Bill for an Act...."

Speaker Redmond: "No Amendment.... I think so."

O'Brien: "A Bill for an Act making an appropriation to the Illinois State Scholarship Commission. Second Reading of the Bill. 1, Committee Amendment..."

Speaker Redmond: "Read the Amendment."

O'Brien: "Amends House Bill 1977 on page 1, line 11, so forth."

Speaker Redmond: "Representative Mulcahey."

Mulcahey: "1977 ah... simply changes the total to reflect a reduction by \$20,000 in the retirement line item and a reduction by \$90... \$900,000 for loan default payments and ah... adds \$600,000 for Scholarship Program to person serving the National Guard. And, I move for the adoption of the Amendment."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1977. All in favor indicate by saying 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. 1979."

O'Brien: "House Bill 1979, Mulcahey. A Bill for an Act to provide for the Ordinary and Contingent Expenses of the Board of Vocational Rehabilitation. Second Reading of the Bill. 2, Committee Amendments. Committee Amndment Number 1, amends House Bill 1979 on page 1, line 13 and so forth."

Speaker Redmond: "Representative Mulcahey."

Mulcahey: "Yes, House Bill Number 9... 1979 Amendment ah... simply changes from the General Administration, it removes \$15,948.00 and places it in the Division of Grants for case service to individuals the same total, \$15,948.00. I move the adoption of this Amendment."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1979. All in favor of the adoption say 'aye', 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "Amendment Number 2, amends House Bill 1979 as amended on page 4,

line 28 and so forth."

Speaker Redmond: "Representative Mulcahey... who is the sponsor of this, Representative Barnes... who is the sponsor of Amendment Number 2?"

O'Brien: "Committee Amendment Number 2..."

Speaker Redmond: "Representative Barnes..."

O'Brien: "Amends House Bill 1979 as amended on page 4, line 28 by deleting '21,315,158' and inserting in lieu there '26,315,158' and on page 5, line 8 by deleting '22,447,458' and inserting in lieu thereof '27,447,458'."

Speaker Redmond: "Representative Palmer."

Palmer: "Yah... you've got ah... if the sponsor will yield for a question."

Speaker Redmond: "He indicates he will."

Palmer: "Ten-million dollars additional by these two Amendments, I wonder if you can explain."

Barnes: "The... the first Amendment was not ah... any additional Romie, the first Amendment was a reduction as was explained by the ah... sponsor. The ah... second Amendment that we're talking about, adds the additional ah... Federal Fund. These are not ah..."

Palmer: "These are not State Funds."

Barnes: "These are not State Funds, these are Federal Funds..."

Palmer: "All right, thank you."

Barnes: "And these... this was Committee Amendment Number 2, I would move for the adoption of Committee Amendment Number 2, Mr. Chairman."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 2, to House Bill 1979. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. We'll pass 2056... 2097, we'll pass that one. We'll pass 2098... Is Emil Jones, here? We'll pass 20..."

O'Brien: "House Bill 2098, White..."

Speaker Redmond: "We'll pass those two ah... 2098 and... 2097 and 2098 has been requested by the sponsor. We'll pass 2109. 2119."

O'Brien: "House Bill 2119, Totten. A Bill for an Act to create Legis-

lative Services Reorganization Act. Second Reading of the Bill."

Speaker Redmond: "Representative Totten."

Totten: "Ah... Mr. Speaker, there are several Amendments on this Bill. What I would like to do is to ah... adopt a couple of them and then ah... I think there is some sponsors missing and leave it on Second Reading and ah... hold it for those."

Speaker Redmond: "Which ones do you want to address yourself to."

Totten: "Okay, Amendment Number 1, is ah..."

Speaker Redmond: "Representative Duff."

Totten: "It's Representative Dyer and she wants to withdraw that, because she has the same Amendment later on."

Speaker Redmond: "Representative Duff, for what purpose do you arise."

Duff: "Mr. Speaker, this is a very controversial Bill."

Totten: "I'm going to hold it on Second, Mr. Duff."

Duff: "Well... the only question I have Don, is that some people might want to vote 'I' or 'nay' some of the Amendments."

Totten: "That's why I'm gonna... I only want to put a couple of Amendments on that we want to get it in shape that we want and then hold it, because there are a lot of Amendments."

Duff: "Amendments with no objections, that you know of."

Totten: "I hope not, right."

Speaker Redmond: "Will you advise the Chair of the Amendments that you want to address yourself."

Totten: "Okay. Represen.... Representative Dyer has Amendment Number 1, she wants to withdraw that, because she has the same Amendment coming later. Representative Kane has Amendment Number 2 and I have Amendment Number 3 and that's as far as we want to go."

Speaker Redmond: "Representative Dyer has offered Amendment Number 1, to House Bill 2119 and Representative Totten moves that that Amendment be tabled, is that correct."

Totten: "Well, or withdrawn... it hasn't been adopted, would the motion be to withdraw it."

Speaker Redmond: "I have been advised by the Clerk that ah..."

Totten: "Okay then, I'll move to table Amendment Number 1... right."

Speaker Redmond: "All in favor of tabling Amendment Number 1, indicate by

saying 'aye'... 'aye', opposed 'no'. The 'ayes' have it, Amendment Number 1 is tabled. Amendment Number 2."

O'Brien: "Amendment Number 2, Kane. Amends House Bill 2119 on page 8, by inserting after line 1 the following, and so forth."

Speaker Redmond: "Representative Kane."

Kane: "Ah... Mr. Speaker, Ladies and Gentlemen of the House. Amendment Number 2, ah... addresses itself for a number of advisory Commissions in Dep... ah... in the Committees in the Department of Agriculture, it removes the legislative members and ah... retains the advisory Committee. I move the adoption of Amendment Number 2."

Speaker Redmond: "The gentleman has move the adoption of Amendment Number 2, to House Bill 2119. All in favor say 'aye'...'aye', opposed 'no'. The 'ayes' have it, Amendment Number 2, is adopted. Any further Amendments?"

O'Brien: "Amendment Number 3, Totton, Kane. Amends House Bill 2119 as amended by inserting between pages 7 and 8 the following, so forth."

Speaker Redmond: "Representative Totten."

Totten: "Thank you, Mr. Spekaer and Members of the House. Amendment Number ah... is this 2..."

Speaker Redmond: "3."

Totten: "3... ah... Amendment Number 3, sets up the Joint Select Committees of the House and Senate. Spells out their membership, their terms ah... what Committee they would come from and also ah... eliminates ah... or exempts two other Commissions ah... from the provisions of the Bill that be ah... School Problems Commission and Legislative Investigation Commission and I would move the adoption of the Amendment."

Speaker Redmond: "Representative Palmer."

Palmer: "Ah... Mr. Speaker er... ah... a question of the sponsor. I... I'm looking at Amendment Number 3, none of the material that set forth here is underlined ah... is this ah..."

Totten: "It's all new."

Palmer: "Well, shouldn't it be underlined..."

Totten: "It's all... it's all new..."

Palmer: "Well... shouldn't it be underlined."

Totten: "It's a new Act."

Speaker Redmond: "Representative Mann."

Mann: "Will the sponsor yield to answer a question."

Speaker Redmond: "He indicates he will."

Mann: "Ah... do you exempt the legislative Advisory Committee on Public Assistance."

Totten: "Ah... Representative Mann, we do not. I understand there's going to be an Amendment offered... to do that, someone has indicated to me they have. What I intend to do is hold it on Second Reading after I adopt this Amendment and then anybody that wants to exempt the Commission, go ahead and do it we would just like to get the Bill in the... in the order that ah... we would like it, there are about maybe 6 or 7 other Amendments now... exempting other Commissions and we would just like... if you want to do that, fine. I'm going to hold it."

Mann: "Now under your your Bill, Representative Totten. Who is responsible for authorizing the ah... financing of the Committees."

Totten: "The ah... leadership of the Senate and the House."

Mann: "Not the Committee Chairman."

Totten: "The appropriation for the money would be made from the leadership and I would imagine it would come from the Chairman of the Sub-Committee or the Standing Committee."

Mann: "Well, wait a minute now.... I... I... can you elaborate for me, you said to me it would come from the leadership and then you said the Chairman and... and..."

Totten: "The money would be appropriated through the Leadership, okay... then on... if the select Committees go in action, as we would anticipate they would, they would request of the Leadership some money and it would have to be approved by the Leadership."

Mann: "It would have to be approved by the Leadership."

Totten: "They have the money, yes."

Mann: "I would like to be heard in opposition to this ah..."

Speaker Redmond: "Representative Mann."

Totten: "Well...thi..."

Speaker Redmond: "Representative Choate."

Choate: "Ah... Bob, I don't think that he's ... I don't know whether you

realize it or not but he is just trying to get the Bill in the shape he wants it right now and leave it on Second Reading. He's not talking about attempting to pass the Bill at this time, is that not right Representative Totten."

Mann: "All right, I withdraw my ah... objection."

Speaker Redmond: "Representative Palmer."

Palmer: "Mr. Speaker and Ladies and Gentlemen of the House. This is a most controversial thing, the question is whether or not we're going to adopt this on Second Reading and if it is adopted on Second Reading the question then arises is to how... Committee Amendment Number 3 would be changed by any subsequent Amendments. I think this is such a ah... this Amendment is such that we should hold it on Second before before calling it and let the Members take a look at this thing."

Speaker Redmond: "Representative Totten."

Totten: "Thank you, Mr. Speaker. Many members have asked me, I have helped them draw their Amendment to the... indicating that the Bill has been Amendment, that's why I discussed with Representative Dyer and she has her Amendment coming later so that all the Amendments would be technically correct. And, if there are all other Members who would like to Amend the Bill later on, please talk to me we'll help them draw the Amendment so that it will be technically correct."

Palmer: "We're not just talking about something being technical... technically correct, we're talking about whether something should be adopted here, these Amendments be adopted. Maybe I should ask a question or two, if I may, Mr. ah... Speaker. If the sponsor will yield."

Speaker Redmond: "Proceed."

Palmer: "What do you do in relation to the division of the numbers of the Committee relative to the House and relative to the Senate and relative to the Political Parties involved."

Totten: "Ah... Representative Palmer, the Membership is equal in both parts of your question. Equal in the House and the Senate and equal by Party."

Palmer: "Well, I'm sorry I haven't had a chance to read this. Amendment Number 2 and 3 is something new. I don't know when it was circulated but... what... let me ask you, what are the duties of powers of these

Joint Committee."

Totten: "Okay, on page 2, of the Amendment..."

Palmer: "Which Amendment."

Totten: "Amendment Number 3..."

Palmer: "All right."

Totten: "Each Joint Select Committee, I'll read you the words, shall have broad powers to conduct investigations, make studies, hold hearings, issue reports and recommend legislation within the subject matter of its jurisdiction."

Palmer: "Well then, this will block out any temporary Commission, the Bill will plus the... the ah... Commission... the Bill will block out temporary Commissions, am I correct on this."

Totten: "If... if the Bill is passed. I holding..."

Palmer: "I'm sorring, I'm talking about that."

Totten: "Right, if the Bill passed... right... we're on Second Reading now and all I'm asking is to get the Amendment on, in fashion that we want it and ah... we'll hold it on Second and when all the Amendments get adopted you'll pick a, you know, up or down on Third Reading depending on your feelings."

Palmer: "Thank you."

Speaker Redmond: "Representative Dan Houlihan."

Houlihan: "I don't have a copy of the Amendment Don and I didn't hear what you said ah... what the two ah... Commissions. Legislative Investigating Commission, what was the other which would be exempted ah... from the operation by this Amendment."

Totten: "Okay, these are new additional exemptions. The Legislative Investigating and the School Problem."

Houlihan: "Thank you."

Speaker Redmond: "Representative Hudson."

Hudson: "Would the sponsor yield?"

Speaker Redmond: "He indicates he will."

Hudson: "Don, how many... how many Commissions are ah... have... are exempted at the present time, by Amendment that is what's the total number of exemptions now."

Totten: "Ah... in the Bill as we have it drafted there were originally

were 5, we have added 2 so there are 7."

Hudson: "And your holding this open for an additional ah... possibilities, are you."

Totten: "Right. I think ah... Representative Hudson, there are about 5 or 6 Amendments that I'm aware of now trying to get other Commissions into the exempt ah... statis. And, I will continue to hold it for a couple of days, anyway."

Hudson: "Thank you."

Speaker Redmond: "The gentleman has moved the adoption of.... Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker. Will the sponsor yield to a question, please."

Speaker Redmond: "He indicates he will."

Barnes: "Don, as you know I support this but I think you should hold this there is a lot of Commissions that are involved here and there are a lot of Members that... quite a number of Members that aren't here that's deeply involved in some of the Commissions. And, I think by this Amendment going on now, at this time, you may... we may do something ah... that ah... some other Members should have some input... might not want to do at this point. I think perhaps in what we are attempting to do with this Bill and I support the concepts, you might be better off holding it right here where it is and let them have some more input. I was wondering ah... of those exemptions that your talking about, those 7 exemptions, would one of those exemptions be the Fair Employment Practices Commission."

Totten: "Ah... that Commission was never in the Bill, so that was still intact. Ah... Representative Barnes, that has no Legislative Members on it so it is... not part of the Bill as far as a repealer."

Barnes: "Well there is a Commission that is under the Legislative Structure that relates to the Fair Employment Practices Commission. I..."

Totten: "It is..."

Barnes: "Cann't give you the exact title of it, that one would be included in this, is that correct."

Totten: "Fair Employment Practices Commissions is not included as one we repeal."

Barnes: "Well, I'm not talking about the Commission, they have the Legislative Commission that relates to, as I remember in the make ups of the Commission and..."

Totten: "You got the Members and the name of that Commission."

Barnes "I forget the exact title of it but there is a Legislative one."

Totten: "I would have to discuss.... I'm... I'm not sure on that one you'll have to give me the name of it, Representative Barnes."

Barnes: "What about the Commission of Human Relations?"

Totten: "That's exempted."

Barnes: "That's exempted, also."

Totten: "Right. As is the State Commerce Commission, that's called a Commission but that's exempted... Scholarship Commission, that's exempted.... they don't have Legislative Members on them, we have not ah... touched them in the Bill."

Barnes: "What about Commission on children."

Totten: "That is ah... been repealed in the Bill and there is an Amendment to put it back in."

Barnes: "Well... as I say, I support the concept Don but I... I real.... I pretty well agree with many of the previous speakers, I... I think we would be better off and have a lot better chance of passing this Bill if we didn't go with it at this time."

Speaker Redmond: "Representative Kane."

Barnes: "That is merely a suggestion."

Kane: "This... this Amendment, all it does is, sets up an alternity structure to the Commission structure. Ah... so that if the Bill.... when the Bill comes up on Third Reading if does pass, we do have a structure to... to hold hearings and make recommendations and... and make studies. So, this Amendment is a non-controvessial Amendment it's a the Bill itself that's controversial."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 3, to House Bill 2119. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it, Amendment Number 3, is adopted. We will hold the Bill on Order of Second Reading. 2148... any Amendments on that. 2150."

O'Brien: "House Bill 2150..."

Speaker Redmond: "Any Amendments?"

O'Brien: "Ah... yes there are."

Speaker Redmond: "Take that out. 2241."

O'Brien: "House Bill 2241, Choate. A Bill for an Act making appropriation to the Department of Public Health. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 2387, is Emil Jones here? Any Amendments on 2387?"

O'Brien: "Yes sir."

Speaker Redmond: "2409."

O'Brien: "House Bill 2409, McPartlin. A Bill for an Act to amend the Election Code. Second Reading of the Bill. 1, Committee Amendment, amends House Bill 2409 on page 2, line 3 and so forth."

Speaker Redmond: "Representative McPartlin."

McPartlin: "Mr. Speaker and Members of the House. Ah... Committee Amendment Number 1, to House Bill 2409 applies to the Bill with the population of 300,000 rather than Statewide and I move for the adoption of Committee Amendment Number 1, to 2409."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 2409. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. 2449."

O'Brien: "House Bill 2449. A Bill for an Act making... E. M. Barnes. A Bill for an Act making an Appropriation to the Department of Transportation. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 2451."

O'Brien: "It is being held for a Fiscal Note."

Speaker Redmond: "Representative Shea."

Shea: "Might I ask the sponsor a question. Is 2449 a companion Bill to

2451. Is there any need for a Fiscal Note if there is a direct appropriation and if it is a companion Bill."

Barnes: "Ah... the answer is yes, it is a companion Bill and I... I've attempted to get a Fiscal Note and there's no ah... ah... information available for the total package. The maximum that could be involved would be the million dollars that is in the appropriation Bill. That's the only amount that we're dealing with here, so actually a Fiscal Note as I see it, a Fiscal Note should not apply in this case because you set out the amount of money that can be spent and that's the only amount of money that can be spent."

Shea: "The... can the..."

Speaker Redmond: "Who requested the Fiscal Note?"

Barnes: "I have no idea."

Speaker Redmond: "Representative Duff... Representative Duff."

Duff: "Mr. Speaker ah... ah... would the sponsor answer a question."

Speaker Redmond: "He will."

Duff: "Does this million dollar appropriation go to the R.T.A.?"

Barnes: "No, this million dollar appropriation is set out for the ah... program Act... the new Act that was set out for handicap transportation. It will not go to the R.T.A. it is administered by the Department of Transportation."

Duff: "But... what I'm saying is, is the... are the monies given to ah... Transit Authorities within the R.T.A., like the C.T.A without going through the R.T.A."

Barnes: "The money goes to any... any trans... any Mass Transit Carrier that applies to the Department of Transportation for the Grants and the Grants are approved. It could very well go to someone in the R.T.A. but it does not absolutely go to them. They would have to have... develop a program set out by the guide lines, that are set out in the program and then must be approved by the Department of Transportation."

Duff: "Well, the question that I'm asking is ah... can the State under this Bill give money to the C.T.A. without reference to the R.T.A."

Barnes: "I would say.... probably not, to answer your question."

Duff: "Well..."

Barnes: "As I say, if you read the Bill... if you read the Bill you see that this Act concerns itself with carriers that would develop Mass Transportation Program for handicapped citizens, as I know it... knowing the C.T.A. as I do, they do... they don't have a program of that type. Now, if they would develop one, that's a different story."

Duff: "Well, Mr..."

Barnes: "But right now they do not have a program, of that type. There are carriers around the State that do have programs that have developed programs for the transportation of handicapped citizens and that's what this Bill directs itself towards."

Duff: "Well, Mr. Speaker I don't know who asked for the Fiscal Note but I would suggest that we should hold it until the Fiscal Note is satisfied."

Speaker Redmond: "Well it ah... under the rules ah... a Fiscal Note has been requested and it will have to be furnished unless we ah... oh, a Fiscal Note has been furnished, I understand. Call the Bill 2451."

O'Brien: "House Bill 2451. A Bill for an Act to provide reimbursement for reduced transit fares for the handicapped. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Representative Duff."

Duff: "Well, Mr. Speaker I'm just curious ah... 5 minutes ago there was no Fiscal Note and now there is one. If the Fiscal Note was just furnished it seems to me that it would be appropriate an opportunity to view it before the Bill is moved."

Speaker Redmond: "Read the Fiscal Note."

Duff: "Well... Mr. Speaker, I'm asking more than that, this is a sufficient ah... piece of legislation to everybody that was involved in R.T.A. discussions last year, it seems to me. And, we would like an opportunity to see it, talk about it and think about it."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker. If the ah... gentleman would take some time to read the Bill he will find out that the Bill is not related to the R.T.A. Apparently he has a fixation on the R.T.A. as it relates to Mass Transportation. Read the Bill, the Bill is related to Mass Transportation for handicapped citizens."

Now, I don't know whether or not you would want to exclude... the handicapped citizens from your area, since you are a part of the R.T.A. area if that's what you want to do... fine but it has no relationship directly to the R.T.A."

Speaker Redmond: "Representative Duff."

Duff: "Mr. Speaker, the gentleman is probably not unfamiliar with the fact, that the C.T.A. serves my area and I have no fixations about R.T.A. or C.T.A and have voted consistently for both of them. But, I do think that this Bill has some transportation implications to the people who feel otherwise than I do and I really do think we should have an opportunity to view it and considerate it, if somebody... and we don't know who it is at the moment, asked for a Fiscal Note . I think the best person..."

Speaker Redmond: "Representative Simms was the one who asked for the note."

Duff: "And Representative Simms, it seems to me should then have an opportunity to see that Fiscal Note and consider the implications of it as well as the rest of us. I am asking the gentleman, if he would hold the Bill so we can do that."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much. Mr. Chairman, had... the Bill has been on the Calendar for some time, it has been there for full consideration there is absolutely nothing hidden in it, it's a very... very simple Bill. It appropriates one million dollars to the Department of Transportation for reimbursement for reduced transportation for handicapped citizens. It is there... the Fiscal Note is there. Now, if the gentleman wants to take a few steps down to the Clerk, to review it, I have no problems with that..."

Duff: "Mr. Speaker..."

Barnes: "A very simple Bill, it does exactly what it says."

Duff: "Mr. Speaker, I... I ah... will remind the gentleman that I have voted for the C.T.A. and I have voted for R.T.A. and I have voted for the handicapped elderly and all of those items however, I think there is a matter of principal involved here in terms of the Subsidy of Transit Authorities, which could be under the R.T.A. and I

do think that if a Fiscal Note was just furnished 5 minutes ago we should have an opportunity to see it. And, I think the Fiscal Note Act would indicate that that was a fair request."

Barnes: "I have no problems then seeing it, it's there at the Clerk's desk all you have to do is walk down and take a look at it."

Speaker Redmond: "Would you read the Fiscal Note."

O'Brien: "Fiscal Note to House Bill 2451. There's a companion Bill House Bill 2449 which appropriates one-million dollars, this is the approximate maximum cost of House Bill 2451. Eugene M. Barnes, sponsor 18 May, 1975."

Speaker Redmond: "Representative Duff."

Duff: "Mr. Speaker, then you're making a ruling that if there is a Fiscal Note attached to any... if there's an appropriation Bill attached to any substantive Bill that a Fiscal Note is not in order."

Speaker Redmond: "Well, that isn't what the ruling at all is. As I read the rules and the... the statute on a Fiscal Note, there's is no procedure whereby the Chair will determine whether the Fiscal Note is adequate or inadequate, the requirement is that one be furnished. Now, there is a way to disregard..."

Duff: "Mr. Speaker, I would then.... I would remind the Chair of the ruling that was made in respect to House Bill 900, when a Fiscal Note was requested on it and I indicated to the Chair that there was an appropriation Bill and ah... the Chair required me furnish the Fiscal Note anyway. This is identically the same situation and if somebody has asked for a Fiscal Note on this Bill under the prior ruling of the Chair, it seems to me that we should have an opportunity to it and a Fiscal Note which simply refers to the appropriation Bill under the prior ruling of the Chair, it is not adequate, it seems to me."

Speaker Redmond: "May I again repeat that in the opinion of the Chair if a Fiscal Note is required, a Fiscal Note must be furnished unless 89 Members of this Chambers indicate that a Fiscal Note is not necessary. Now, there isn't anything in the rules of the statute that gives the Chair any authority to determine whether the Fiscal Note that has been furnished is adequate or sufficient under the law."

Now, as I view this, Representative Barnes has furnished the Fiscal Note. This matter will not be called for Third Reading for some time and ah... it would appear to me that the argument about the adequacy in the Fiscal Note as proper on Third Reading, I don't see that there is any procedure here now for that. Representative Palmer.... Palmer."

Palmer: "Mr. Ah... Speaker ah.... did Mr. Barnes furnish a Fiscal Note or did the Department of Transportation."

Speaker Redmond: "Mr. Barnes did.... Representative Barnes."

Palmer: "Under Chapter 63... ah... Section 42.32 law... it stated that the Fiscal Note shall be prepared by such Board Commission, Department Agency or other entity and furnish to the sponsor etc., this is the law."

Speaker Redmond: "Representative Shea... Representative Shea."

Shea: "Could the gentleman read a little further down in that Section he's reading, where it allows the individual sponsor to furnish the Fiscal Note."

Palmer: "That sounded pretty good, like I read it..."

Shea: "No.... but isn't there.... isn't there a couple of sentences down a little further that allow the individual sponsor..."

Palmer: "All right ah... within 5 calendar days there after, except that whenever because of the complexity of the measure, additional time is required for preparation of the Fiscal Note, the Board Commission Department Agency or other entity may so inform the sponsor of the Bill and he may approve an extension of the time within which the note is to be furnished. Not to extend however, beyond June 15 of the odd numbered year, etc. You want to read a little further?"

Shea: "Isn't there something down another line or two, letting the individual Member.... I.... Representative Walsh is very familiar with it."

Palmer: "I don't ah... I didn't see anything ah... in the rest of it ah... this effects the Department of Transportation, it is a... a grant to the Department of Transportation."

Speaker Redmond: "Representative Walsh."

Walsh: "Well... yes, Mr. Speaker I recall looking at that Section of

the statute and it does indeed provide that a sponsor may offer the Fiscal Note but, only in the circumstance that it does not effect a particular Department of State Government. In my opinion in ah... this instance the sponsor, Mr. Barnes ah... Fiscal Note would not be appropriate because it does effect the Department of Transportation and the Department of Transportation very specifically... must provide the Fiscal Note."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much, Mr. Speaker. I think in reply to that ah... ah... to the Minority ah... Assistant Minority Leader is that the Companion Bill which the Department had said, it felt has.... this is a new Act, Number 1.... Number 2, the Combat.... Companion Bill sets out the exact amount that can be expended for this purpose and that amount is one-million dollars. The Department can not expand anything beyond that so the Fiscal implication is given, right there in the Companion Bill. There is no ah... to best of my knowledge or to anyone in the Department, nothing else to go on beyond that... this program has not been undertaken in the State's process of time and that no grant can be given beyond a million dollars that's in the appropriations."

Speaker Redmond: "The Chair would suggest that we obtain the Fiscal Note from the Department of Transportation... and we'll get it, and we'll attach it tomorrow and we'll go right on. Hold it on Second, yes. 2686, is there any Fiscal Note or any ah... Amendments on that? Representative Shea."

Shea: "When you get through with this subject, come back to 2477, I would like to move for the adoption of the Amendment."

Speaker Redmond: "Okay. Any Amendments on 2686? Request for a Fiscal Note that hasn't been furnished, is that right. 2697."

O'Brien: "House Bill 2697. A Bill for an Act to amend an Act creating the Department of Children and Family Services. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the Floor?"

O'Brien: "None."

Speaker Redmond: "Representative Grotberg... take it out of the record."

2701.

O'Brien: "House Bill 2701, McMaster. A Bill for an Act making appropriation to the Department of Local Government Affairs. Second Reading of the Bill. One, Committee Amendment, amends House Bill 2701 on page 1, line 6 by deleting 'the sum of \$50,000' and so forth."

Speaker Redmond: "Representative McMasters."

McMasters: "Ah... Mr. Spekaer, Ladies and Gentlemen of the House. Committee Amendment Number 1, to House Bill 2701 ah... merely ah... parcels out the \$50,000 provided in the ah... piece of legislation in order to say how it is going to be spent. I move the adoption of it."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 2701. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

McMasters: "Mr.... Mr. Speaker, before you ah... leave the order ah... with this Bill, we passed over 2702 which in on the priority call effective June ah... before 2701."

Speaker Redmond: "We're going down in the order in which they appear on the Calendar, not on the order of priority call. So that will be the next one."

McMasters: "Fine. Thank you."

Speaker Redmond: "Unless you want it on the record."

McMasters: "No."

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. 2702."

O'Brien: "House Bill 2702. A Bill for an Act to amend the Civil Administrative Code of Illinois. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Thank you, Mr. Speaker. It just occurred to me on that 2697 Bill that we went by it on Second. Would it be appropriate to return it to the Order of First Reading for the purpose of introduction."

Speaker Redmond: "Very appropriate. Representative McMasters."

McMasters: "Ah... "

Speaker Redmond: "2702, are there any Amendments on that?"

McMasters: "No... no Amendments."

O'Brien: "No Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 2762... Howard Dunn here?"

O'Brien: "House Bill 2762, Hart. A Bill for an Act requiring Fiscal Notes on all Bills involving State or other non-federal funds. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "None."

Speaker Redmond: "Third Reading. 2769... there is no Amendments."

O'Brien: "House Bill 2769, McPartlin. A Bill for an Act to amend the Civil Practice Act. Second Reading of the Bill. This Bill is... ah... Three Committee Amendments now, this Bill has been read a second time previously."

Speaker Redmond: "Have the Amendments been adopted?"

O'Brien: "Number 1 and 2 were adopted..."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House. This is the Malpractice Bill that Mr. McPartlin and myself are handling. It was a subject of a Sub-Committee in Judiciary I of which Representative Daniels, Rayson and Getty were on and then it went to the full Committee. As I understand it, there are some 16 Amendments either potentially being offered or offered and I'm wondering if the Speaker might set this for a special order of business, sometime tomorrow so that every Member of the House will know when it is going to be there. I think that Malpractice is an important enough subject, so that the Speaker could set it and we would all know of what time that it's going to be heard and the Amendments, so every Member of the House that's interested in this subject can be on the floor. There are some highly controversial Amendments and I think every Member ought to be present."

Speaker Redmond: "Representative Daniels."

Daniels: "Mr. Speaker, Ladies and Gentlemen of the House. I think that ah... Representative Shea suggestion is an excellent one. We have a substantial number of Amendments, some of them are rather confusing some of the are duplication and I think that if we had a special time that we could go over this, I think would be of assistants to all Members of the House."

Speaker Redmond: "Representative Duff."

Duff: "Well, Mr. Speaker I wouldn't have any objections to that but since the Majority Leader has indicated that House Bill 899 is also controversial I wonder if it could also be placed at the same special order, so we can know when its going heard."

Speaker Redmond: "It is alright with the Chair, what time would you suggest for the special order, Representative Shea."

Shea: "Well, I think there a little difference between 899 and 900 and the Malpractice Bills, but if Mr. Duff thinks that they are of the same sufficients.... it's whenever he'd want them but as far as the Malpractice Bill, I would like to have.... I would like to have them set, if I might, at noon tomorrow if that would be convenient for the Chamber."

Speaker Redmond: "Representative Lundy."

Lundy: "Yes, thank you Mr. Speaker and Members of the House. Ah... not to ah... ah... be an obstuccionist or to prevent what I think would be a useful ah... procedure but if I read ah...rule 11 of the Temporary Rules, only the Rules Committee may ah... establish a special order of business. A procedure was.... a ah... a proposal was made in the Rules Committee to allow the Speaker to set a special order of business but, as I recall, Representative Walsh and other Members of the Minority Party objected strenuously to that and under the Temporary Rules, only the Rules Committee may act in this respect... ah... excuse me, I think personally it would be a very good idea to set a special order but.... I don't think the Rules permit it under the ah... Temporary Rules."

Speaker Redmond: "Well.... I've.... Representative Shea."

Shea: "Well if necess... if necessary, I would move that House Bill 2769 be heard as a special order of business on Second Reading at 12 o'clock

noon tomorrow, Monday May 18."

Speaker Redmond: "The gentleman has made the motion, all in favor of the motion indicate by saying 'aye', opposed 'no'. The 'ayes' have it and the motion is adopted. Representative Walsh."

Walsh: "Well... I don't... I don't think that I disagree particularly with it, I disagree with the gentleman not ah... discussing with the Minority Leadership ah... what he's doing and I wonder, I'm not even all together sure that the motion was proper ah... I don't think that there is anything in the rules that provides that we can set a special order of business but regardless of that I would appreciate it if he would take that out of the Record and discuss the ah... matter with us."

Shea: "Well, Mr. Speaker I don't know how much more open you can discuss it than on the floor of the House of Representatives."

Walsh: "You can do it in a way that does not consume as much time as this and you know that very well and ah... this is not the first time that you have attempted things like this without ah... consulting with the Minority Party..."

Shea: "Well, Mr. Walsh I'm not attempting anything I'm doing it right out here in the open."

Speaker Redmond: "I don't believe the debate between the Members is in order so... the motion has carried, I will set it as a special order of business at noon tomorrow and Representative Duff... Representative Duff, I will recognize you now on 899."

Duff: "Well, Mr. Speaker it is my understanding that you'd agreed that it would accompany those Bills on the same motion."

Speaker Redmond: "Well, he mention his Bill... why don't you mention your Bill."

Duff: "Well... I would like to have 899 since the Majority Leader has indicated that it is controversial, to be placed immediately after those Bills on the same special order."

Speaker Redmond: "The gentleman has moved that 899 be called as a special order of business immediately following the discussion of 2769. All in favor signify by saying 'aye'... 'aye', opposed 'no'. The 'ayes' have it.... Representative Matijevich."

Matijevich: "Mr. Speaker the rules call for 89 votes ah... for a special order for the day and this is a special order for the next day, I would guess that we ought to have 89 votes to do this."

Speaker Redmond: "As far as the Chair is concerned, what sauce for the Goose is sauce for the Gander and I have ruled that House Bill 899 will be a special order of business tomorrow immediately following the consideration of 2769. Now, Representative Skinner for what purpose do you arise."

Skinner: "Mr. Speaker, to ask which takes precedence, the ah... suggestion that this hearing will be held on Monday or the suggestion this meeting.... this hearing on Second Reading be held on May 18th."

Speaker Redmond: "Well it's ah... it's ah... tomorrow whatever date that is."

Skinner: "That's May 19th."

Speaker Redmond: "I guess its the 19th, so it's Monday and... Representative Chapman here? 2744. Representative Shea, 2744 or 2477, I have my bifocals today."

Shea: "I have, I think the people that had some question about Amendment Number 1, its been cleared up but I'll go through it. Amendment Number 1 sets up the Illinois Prosecutors Council and Prosecutors Services Office. Section 1, is a short title. Section 2, is a definition. Section 3, creates the Council in the Office. Section 4, show the composition of the Council. Section 5, lists the term of office. Section 6, gives the powers and duties of the Council. Section 7, provides for the report to the General Assembly and the Governor. Section 8, ah... defines the Prosecutor.... Prosecutorial Services Offices. Section 9, talks about the Executive Director. the salary and other officers. Section 10, talks about the Principal office and Section 11, is the effective date. I move for the adoption of the Amendment."

Speaker Redmond: "Representative Skinner."

Skinner: "I must admit, I don't have a copy of it but perhaps a general question would be in order. Is this in effect putting in State Law a State's Attorney Association?"

Shea: "No, It provides two offices. One is the Illinois Prosecutors

Council and the other one is the Illinois Prosecutorial Services Offices there still is a State's Attorneys Association, to the best of my knowledge but it is not this."

Skinner: "Who are the Prosecutors in the State?"

Shea: "Pardon me, sir."

Skinner: "Who are the Prosecutors in the State that this Office is intended to serve."

Shea: "The States Attorney's, Sir."

Skinner: "And ah... what budget are you intending to request."

Shea: "\$350,000, it is being funding by I.L.E.C. for three years, prior to this."

Skinner: "And under who's jurisdiction was it prior to the offering of this Bill and its ah... enactment."

Shea: "It was propably under the Illinois States attorney's Association, sir."

Skinner: "It sure sounds to me like your just making something that is ah... been done under a voluntary non profit organization into a creature of State Government."

Shea: "That's exactly what I'm doing, Mr. Skinner."

Skinner: "Then I think the answer to my first question was 'yes'."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker, will the sponsor yield for a question?"

Shea: "Yes."

Houlihan: "Jerry, I.... after looking at the Amendment I think that probably this is a good idea... I wonder through if you might... if there might be a possible conflict of interest ah... related to Section 4 ah... sub-section 'd' in the Membership of the Council."

Shea: "In what respect, Mr. Houlihan."

Houlihan: "The States Attorney of Cook County being a Member of the Council."

Shea: "You don't like Mr. Carey or his successor."

Houlihan: "His successor I'm interested in."

Speaker Redmond: "Representative Mann."

Mann: "Ah... would the sponsor yield to a question?"

Speaker Redmond: "He indicates he will."

Mann: "Jerry, I see ah... a Conflict here not a conflict of interest but a conflict ah... between Katz' Amendment that you are about ah... offer which would prohibit lobbying.... and the ah... Section which 6 'b', which says the prosecutorial office shall make recommendations to the General Assembly with respect to legislation concerning the duties and activities of the Council and the Office... and if you'll look at Section 5, paragraph 3, they have such broad coordination ah... powers here between the Governor, the Attorney General ah... exclusive ah... excessive rather ah... I'm just wondering if that's not going to create a conflict."

Shea: "Your talking about Section 5, 3 now? Or 3 - 5."

Mann: "I'm sorry, I guess it ah... "

Shea: "3, is ah... "

Mann: "Oh, no... it's ah... 6 'c', between the... the Katz Amendment and 6 'c'."

Shea: "Well 6 'c', says convenes regional or statewide conferences for the purpose of implementing the provisions of this Act."

Mann: "Strike that, 8 'c', I'm sorry Jerry."

Shea: "Well, I think that you can cooperate the activities of those agencies, Mr. Mann without certainly lobbying or coming to the General Assembly to do it."

Mann: "Well all I'm saying is, that when you take ah... ah... 8 'c' and put it together with ah... 6 'a', I... I... or I mean 6 'b', I think that argument could be made that ah... they have broad powers to make recommendations with regard to a whole host of ah... legislation involving the States attorney ah... the Attorney General, the Judiciary, the Department of Correction and the State and Local Law Enforcement Agencies."

Shea: "Would you prefer to have 6 'c', out of there... or 8 'c', I'm sorry now I'm getting confused."

Mann: "Ah... yah, I'm not saying that that's going to change my basic attitude on the Bill, necessarily but I think it would remove this lobbying aspect."

Shea: "Could I adopt Amendments 1 and 2, move it to Third Reading and then, with you, certainly move it back and accept your Amendment to

strike 8 'c'."

Speaker Redmond: "Representative Houlihan."

Mann: "I mean the answer is yes, as far as I'm concerned."

Shea: "All right."

Houlihan: "Ah... Mr. Speaker... Is the sponsor of Amendment Number 1, talking also to the Amendment Number 2?"

Shea: "Amendment Number 2, is Mr. Katz's Amendment and I have already said that I would accept that Amendment."

Houlihan: "Amendment Number 2, deletes ah... in Section 4 of paragraph 'd'."

Shea: "Yes, I know it does and it was the feeling of Judiciary II Committee that the Governor should not be involved in this, that it's a States Attorney Association... as Mr. Skinners says, and I said that I would accept that Amendment."

Speaker Redmond: "Representative Palmer."

Palmer: "If the sponsor will yield to a question."

Speaker Redmond: "He indicates he will."

Palmer: "I have some problem here in the making a private organization which prohibited under the 1870 Constitution, a member of a governmental council... now I just wonder if we don't have Constitutional conflict by having the President of the Illinois States Attorney Association, which is a private group, do that."

Shea: "You mean becoming a member of the Council."

Palmer: "That's right."

Shea: "I just think its defines the membership of the Council."

Palmer: "Well, they have there in the... there in the Council, they have certain duties and responsibilities. The question arises to whether or not... in the creation of a governmental council, like this, that a member ah... that a member of that council can be a... the President as designated here, the President of a private organization or any private organization. Under the 1870 Constitution it was prohibited as I understand."

Shea: "Well, Mr. Palmer I'm putting this in at the request of the Illinois States Attorney Association. Your Chairman of the States Attorney Advisory Commission or the Commission. I know there is a conflict

between them. Now, if you have some way to cleanup this Bill so it would be more compatible with your theories, I would accept the Amendments."

Palmer: "Well... I... I opposed that, Jerry ah... as the matter... I asked a question and I just don't know, I wondered if you had an answer to it."

Shea: "Well, I don't see anything wrong with posing as a member of this council, a member of that body. Later on in the Act I specifically delineate the... that if that individual is no longer a member of that Association or no longer holds that Office, he's automatically removed from the council and his successor, when he qualifies, becomes a member."

Palmer: "All right, you're going to hold it on Second, then."

Shea: "No, I was going to put it on Third, Mr. Palmer and I would bring it back for an Amendment."

Palmer: "All right, if... if... I'll try to get an answer to this question which I think is a Constitutional question, tomorrow sir."

Shea: "I would have no hesitation at all about bring it back, sir."

Palmer: "Thank you."

Speaker Redmond: "Representative Walsh."

Walsh: "Mr. Speaker, I wonder if the gentleman ah... means by that statement that he will take it back, regardless of what his opinion of the Amendment is, so that it may be offered."

Shea: "Mr. Walsh, so there is no question in your mind, I said I would bring it back for the Amendment not whether I liked it or not but I would bring it back for the Amendment."

Walsh: "Thank you."

Speaker Redmond: "Representative Stone."

Stone: "Mr. Speaker, I think we might as well stayed home. I want to make a point of order colloquy between two Members here back and forth, I... I think its sort of ridiculous for a Body like this to carry on like we are."

Speaker Redmond: "The Chair agrees with you. Representative Duff."

Duff: "Well, Mr. Speaker and Ladies and Gentlemen of the House. If anybody will look at House Bill 2477, it's a two paragraph Bill. Then

if they will look at Amendment Number 1, they will see that it isn't the entire Bill. Now, I have got almost every Bill and Amendment in my book, I don't happen to have this one for some reason so I have gone and found it and I recall in the Judiciary Committee the questions that were asked of the sponsor relative to the Section 4, composition of the Council whether or not he had discussed this Bill with the ah... Attorney General of Illinois who is included in it, or with the States Attorney of Cook County who is included in it. Ah... or with the Governor who was included in it and who I guess, he intends to take out of it, and he said no he hadn't, and I gather he still hasn't."

Speaker Redmond: "Representative Shea."

Shea: "Well... I will explain once again what happen on this Bill. Some two months ago at the request of Mr. Robert Hutchinson, the Executive Director of the present organization, he sent me what appears to be Committee Amendment Number 1, along with an appropriation Bill and requested that I put it in. I have found on the night of April 12, about 7:30 in the evening, that I had not put the Bill in, that I made a very bad mistake and had not introduced it. I then introduced a two paragraph Bill, I explained at great length to the gentleman from Cook, Mr. Duff and every Member of the Judiciary Committee exactly what I was doing, I continued it for some three or four days before the Judiciary Committee, when everybody had an opportunity to look at it then we discussed it at great length before the Judiciary Committee which Mr. Duff is a Member of. At that time we went over all these things, I agreed with the consensus of the Committee, Mr. Katz's lost his Amendments and I said I would take them on the floor. That's why they are not a Committee Amendment, now I don't think that I'm trying to do anything that I haven't done or promised to that Committee and the Members of this House."

Speaker Redmond: "Representative Daniels."

Daniels: "Mr. Speaker, might I suggest to the sponsor of this Amendment that ah... possibly the best course to follow right now would be to take this out of the Record and get together with those of us that has some problems with Amendments Number 1 and 2, as they tie in

because during the course of the Committee hearing, and I would like to point out to the Members of this Body, that this matter came out of Judiciary a vote 10 to 8, and that ah... looking at Amendment Number 2, since we have been addressing that point I don't think it meets some of the problems that we had with the Bill and I don't think it meets some of the concerns that we have. Now, I further point out to the Members of this Body that this matter came out of Committee without Amendment Number 2, being heard which is a highly unusual procedure by the Chairman of that Committee but he overruled the objections and it came out. It appears now that we have substantial problems even though 2 and 3, which appear to be the same are before us, so I might respectfully suggest that we take this out of the Record and discuss it ah... further."

Speaker Redmond: "Repres..."

Shea: "I have no... I have no objections to that, if I can get some kind of a commitment from Mr. Duff and yourself, that we'll sit down and do it. But, the only thing I see Mr. Duff and Mr. Palmer want to do is kill this and if they want to do that, I would just as soon vote it up or down now."

Daniels: "Well, Mr. Speaker in regards to..."

Shea: "I will take it out, Mr. Speaker it's easlier but I would like to get it called or if they want to kill it, ~~let them~~ kill it."

Speaker Redmond: "Representative Houlihan... Dan. Its out of the Record. Representative Duff."

Duff: "Mr. Speaker, I would point out to the Majority Leader that I think I voted for the Bill would it came out 10 to 8, and if I hadn't of it wouldn't of..."

Speaker Redmond: "I don't think there's nothing pending before the House. 10957... 1057."

O'Brien: "House Bill 1057, McClain. A Bill for an Act to amend the School Code. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Representative McClain... there he is."

McClain: "There is one Amendment, floor Amendment."

O'Brien: "Floor Amendment Number 1, McClain. Amends House Bill 1057 on page 2, by deleting all of line 1 through 3."

McClain: "Ah... Amendment Number 1, to House Bill 1057, strikes ah... uniform rate of advancement for ah... teachers, this a ah... minimum wage Bill for ah... teachers and it would be agreed with Representative Hoffman after we strike these.... this phrase and because of the ah... this will remove some of the collective bargaining powers of teachers and school boards, I agreed to remove this language so this is ah... because of Representative Hoffman's suggestion and I move the adoption of Amendment Number 1, to House Bill 1057."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 1057. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "No further Amendments, Third Reading. Representative Skinner."

Skinner: "I would really like to know what the minimum wage ended up being under that Amendment."

McClain: "Ah..."

Skinner: "And, I know I'm totally out of order but that's only because my flashing light was under your elbow again."

McClain: "Ah... Cal, ah... Amendment Number 1, to 1057 simply removes ah... the level of teachers adv... teacher salary advancement after they have been employed. It has nothing to do with the minimum salary."

Skinner: "Thank you."

McClain: "So it struck that... that's still a collective bargaining agreement between the school board and the ah... teachers."

Skinner: "Thank you."

Speaker Redmond: "No further Amendments. Third Reading. 5.... 954, Representative Farley... out of the Record. Representative McClain."

McClain: "Ah... Mr. Speaker, according to my records ah... 1949 is still on ah... Second Reading, Second Legislative Day, would that be correct ah... Mr. Clerk."

Spekaer Redmond: "1949 is on Third Reading."

McClain: "Thank you."

Speaker Redmond: "Which one is that... Representative McClain."

McClain: "Thank you, Mr. Speaker. I thought I was correct and I am, on House Bill, Second Reading page 5 ah... 1949 is still on Second Reading there ah..."

Speaker Redmond: "If you'd been here a little earlier you would have known it went to Third Reading."

McClain: "Cheap shot... Thank you, sir."

Speaker Redmond: "I understand it also appears on Third Reading today. I have been advised that it was moved yesterday, Representative McClain and the printer didn't take it off, and we moved it today again to make sure. We moved House Bill 1493 today from Second to Third Reading, we will return that to the Order of Second Reading for the purpose of removing some Amendments. Representa...1493."

O'Brien: "We adopted Amendment 1, 2 and 3 previously."

McPartlin: "Yes, Mr. Speaker I talked to the ah... Representative Walsh on the other side of the aisle and the move was to ah... table Amendment Number 1 and Amendment Number 2, and adopt Number 3. So, I would move to table Amendment Number 1 and 2, they are all of the same subject matter."

Speaker Redmond: "The gentleman moves to reconsider the vote by which Amendments Number 1 and 2 were adopted. All in favor of reconsideration vote 'aye';... 'aye', opposed say 'no'... now he moves for the Amendments 1 and 2 be tabled, is that correct. All in favor say 'aye' opposed 'no'. The motion carried and the Amendments Number 1 and 2 are tabled. Third Reading. We will be at ease for about 10 minutes."

Speaker Redmond: "Representative is she on the floor? 2925, are you ready for that one... Oh... that doesn't belong here, I take it. Representative Ralph Dunn, 2715."

O'Brien: "House Bill 2715. A Bill for an Act in relation to a tax on persons who remove or extract minerals from the water, soil or subsoil. Second Reading of the Bill. One, Committee Amendment, amends House Bill 2715 on page 1 by delting line 17 through 19, and so forth."

Speaker Redmond: "Representative Chapman... or Dunn, Ralph Dunn, pardon me."

Dunn: "Thank you, Mr. Speaker. I would like to move the adoption of Amendment Number 1. This is a Committee Amendment and its cleaned the Bill up the way I intended it to be when it was introduced. I move the adoption."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 2715. All in favor say 'aye'... 'aye',... Representative LaFleur, did you..."

LaFleur: "Yes, I just wanted to ask the sponsor of the Bill, if that's the Amendment that takes the sand and gravel out of the ah... "

Dunn: "Would you want me to explain the Amendment, I didn't hear who was asking the question."

LaFleur: "Yes."

Dunn: "No, Amendment Number 1, ah... Amendment Number 1, is... was a Bill that was filed on the last day for filing and it wasn't exactly in the form that I wanted. I had Amendment Number 1, prepared and it was offered in Committee and I'm a member of Revenue Committee and we adopted it. It doesn't take out sand and gravel, it straighten the Bill out as I intended it to be, I could explain it if you would like..."

Speaker Redmond: "Any further questions? The gentleman has moved the adoption of Amendment Number 1, to House Bill 2715. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendments?"

O'Brien: "Floor Amendment Number 2, Ralph Dunn. Amends House Bill 2715 by striking line 7 and 8 and inserting in lieu thereof the following."

Speaker Redmond: "Representative Dunn."

Dunn: "Thank you, Mr. Speaker. Amendment Number 2, is offered at the suggestion of friends from Cook County and said, this Act should not limit on any County which is a home rule unit, I move the adoption of that Amendment Number 2."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 2, to House Bill 2715. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendment?"

O'Brien: "Amendment Number 3, Ewing. Amends House Bill 2715 as amended

in Section 1, by deleting County Mineral Production Act, and so forth."

Speaker Redmond: "Representative Dunn... Representative Ewing."

Ewing: "Yes, Mr. Speaker, Ladies and Gentlemen of the House. This is an Amendment which would make this Bill the Coal Extraction Tax Act instead of the Mineral Extraction Act. This Bill eliminates everything from this Tax except coal. Now, this is done because ah... in discussion with sponsors of this measure, they indicate that... really they intended to have Tax on coal and secondly its done because the tax is applied to other minerals, is in my opinion terribly unfair. The tax rate in this Bill for coal on extraction is 2/10's to 4/10's percent. The tax on other minerals is 2% of minimum of 100% higher tax on other minerals outside of coal. I believe also, that in considering this Amendment we should consider the respective competitive position of coal and other minerals. For instance coal does not have the competitive problem that our mineral, such as rock silica sand, limestone have in this State. I would like to point out that if this Amendment is not adopted we are very likely to have a 4 or 5 percent increase in the cost of building materials made out of rock and mineral, glass for automobiles and area.... other finished products which comes from these minerals. I do not believe at this time that we can afford to put a 4 or 5 percent added burden on the consumer and I would ask for the adoption of this Amendment. Thank you."

Speaker Redmond: "Representative Shea."

Shea: "Ah... perhaps either the sponsor of the legislation or the sponsor of the Amendment would explain something to me. Last year to the best of my knowledge, Representative Hart passed a Bill that said, Minerals extracted, from the ground and soil, that the 1% of the sales tax that was paid would be paid to the County of Extraction or to the municipality of Extraction. Now, does this allow Counties to add an additional tax on. Does the main Bill do that, as I read it."

Speaker Redmond: "State your point."

Skinner: "I think that's a legitimate question, if he wants to ask it of the Amendment. Ah... perhaps it could be limited to the Amendment."

Shea: "Well.... well.... then perhaps I will rephrase it, would the gentleman tell me what the Amendment does to Bill and what the main Bill does."

Speaker Redmond: "Representative Ewing."

Ewing: "Mr. Spekaer, ah... I'll just talk to the Amendment. The Amendment takes out the tax that Counties would be permitted, it's permissive, would be permitted to extend to gravel, stone, sand and other minerals outside of coal and it would be a tax of 2% and it is a permissive tax and it would be an addition to any tax which you were referring to, if such legislation is already on the books."

Shea: "Well... as I understand it, the main Bill permits..."

Speaker Redmond: "Representative Beaupre, for what reason do you arise?"

Beaupre: "On a point of Order, Mr. Speaker."

Speaker Redmond: "State your point."

Beaupre: "Ah... it seems to me, if we're going to get an explanation of the Bill that that explanation ought to come to the... from the sponsor who knows what the Bill does. Ah... I would suggest to you that ah... doesn't exactly characterize what the Bill does and I think the sponsor ought to explain it if that is what the question is."

Shea: "Well, I tried to get that done, Mr. Beaupre but evidently there is a gentleman on the floor that doesn't want to let us know how we're going to tax people."

Speaker Redmond: "Representative Dunn, do you care to respond?"

Dunn: "No sir, I'll be glad to respond to the gentleman, I was waiting until he got around to asking me about it and I'll be glad to do so. Of course, I think the point that Skinner made was that this was an Amendment that ah... that would remove everything except coal from the Bill. The Bill as it calls for now, Representative... ah... ah... Minar... May... Mr. Majority Leader, says that Counties may... it's a permissive tax, that they may levy a tax on all minerals extracted from the County or from the soil of a County, except oil and gas, they can levy a tax of not to exceed 5¢ a ton on deep mine minerals, not to exceed 10¢ a ton on surface mine minerals and in no case can it exceed 2% of the selling price of the cash value

of the mineral extracted. The person who ah... Representative who moved Amendment Number 3, referred to 4 or 5 percent, it would raise the cost of material. This is a misconception about the Bill, the Bill is permissive, any County doesn't have to put it on if they don't want to and if there's.... they can put it on any or all minerals in the County or they can leave it off any or all minerals and it's a 2% minimum on any mineral and its not a... and ah... the money, I might say goes for... if you would like me to explain the Bill a little farther, 20% of the money that the County would gain from... Counties would gain from a tax like this, 20% would go into the General Revenue of the County, 80% of it would go to the direct reduction of the Real Estate Tax and so be shown as a tax credit on the tax Bill of the... after the extended in the Counties."

Shea: "Might I ask you this, would you have any objection to an Amendment to say that this is not a limitation on home rule counties."

Dunn: "Ah... ah... Representative Shea, that was an Amendment Number 2, you missed it. That was an Amendment I forgot...."

Shea: "Well... that's what I was concerned about..."

Dunn: "It's Amendment Number 2."

Shea: "Amendment Number 2, says it's not a limitation on home rule counties if this is a Bill for propoting to let counties do certain things, is that correct."

Dunn: "That's right. Amendment Number 2 said that this Act is not a limit on any county, which is a home rule unit."

Shea: "All right. I understand that one but still... then your main Bill goes to all extracted minerals from the ground except oil and gas, is that correct, sir."

Dunn: "Correct, yes sir."

Shea: "And the Amendment of Mr. Ewing, would say tht it would limit those minerals to coal only."

Dunn: "That's... that's correct. and I am resisting that Amendment..."

Shea: "I understand perfectly well what we're talking about now."

Dunn: "Fine, thank you."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Yes, Mr. Speaker, Ladies and Gentlemen of the House. I arise

in support of Amendment Number 3, to House Bill 2715. I think that it is important that we realize in the State of Illinois among all of our emergency procedures ah... I have done my share in the energy field, coal is back in style... and thank God it is for Illinois. There are many exciting thing that are going to happen in the coal ah... fields in Illinois in the immediate and long distance ah... future of our State. The other minerals that we're talking about the sand and gravel and... and others that have been around for years, coal is going for 25 and 30 dollars a ton or whatever it is ah... sand is still going out at \$2.00 a ton the... the nature of the two industries at this point in time ah... Mr. Sponsor of this Bill, are completely different. Ah... the competitive market place for... for the other minerals ah... is not nearly as... as ah... easy to get along as it is the the coal field, coal production is all contracted and long range contracts ah... by the Utilities and many others and they deal in a whole different given set of circumstances but to cripple the large and small operators in the other mineral fields is really a ah... ah... I don't think germane to this day and time in this State Legislature and there for I would encourage a 'no'.... an 'Aye' vote on this Amendment to confine the thing presently to that sort... that energy source that's being turn on by the crunch that's on nation in the energy field."

Speaker Redmond: "Representative Beaupre."

Beaupre: "Mr. Speaker, and Ladies and Gentlemen of the House. The gentleman who ah... are supportive of this Amendment ah... come from the largest producing area of silica sand in the world, as I understand it, and I can't for the life of me understand ah... why... when you look at the benefit that this Bill carries for their Taxpayers ah... they are supporting this Amendment... take it out. One thing that I am sure about however, is that this Bill contains a provision which may very well not have been thought about by those who originally proposed it, I think that it was originally introduced to provide benefit to small counties that happen to be in areas where a good deal of mining ah... takes place. But, It also does something else, it does indeed provide an extraction tax, now if you look at

the methods which is normally used for assessing real property in this State, you know that there is no way that a township assessor for instance can take a look at a mining area and know how much to assess it at, that is to say, there is no way of telling what the value of those minerals are under the ground and the result of that is, that these areas that are being mined are assessed just like farm land. They don't pay their actual fair share of the tax base in these counties. Now... this Bill won't provide a way of evaluating that coal or limestone or sand or whatever underground because we really don't know what's down there but it will at the time that this coal or sand or limestone is extracted... provides some contribution to the local tax base. It seems to me that its the fairest way possible of achieving a valuation on that very valuable land that lies within counties. Most of these areas are in counties that do not have a high tax base, since this... since the tax on the extraction goes back to the counties from which it is extracted from, what we're really doing is providing a more valid way of assessing the value of that land. It's a most equitable method, it's something that will benefit those areas in the taxpayers therein, and I hope that you will resist this Amendment."

Speaker Redmond: "Representative Rigney."

Rigney: "Well, Mr. Spekaer and Ladies and Gentlemen of the House. I arise to support the Ewing Amendment, I think it's absolutely necessary that we do remove these other minerals. Let's keep in mind that the biggest user of the road rock and so forth, are the very cities and villages and townships and so forth that ah... we all have to pay our real estate tax to support. In addition to those units of governments that are being users, probably about the next biggest user of these minerals are the Illinois Farmers for using ah... crushed limestone on their farms, I think the tax is going to work a hardship upon them also. I think the only way that I could ever support this Bill is that if we first adopt the Ewing Amendment."

Speaker Redmond: "Representative Choate."

Choate: "Well, Mr. Speaker, Ladies and Gentlemen of the House. I was totally happy to hear Representative Beaupre's explanation of not

only the Amendment but the Bill, because he hit the nail right on the head as far as the attempt to bring a more equal assessment as far as taxes and especially many of the downstate counties are concerned. But, if you want to adopt this Amendment your only going to make it equal in the counties where the coal is mined, if you want to eliminate the benefit under the provisions of this Bill to many of the downstate counties then you will certainly adopt the Amendment. But, if you want to bring about a more fair assessment, if you want to bring financial assistance and if you want to make it equitable as far as all, especially of the mining industry concerned then you will resist the Amendment. I know of some of the Counties in the southern part of the state, as example, that totally does not have any coal mines that we are now directing our attention to, to help bail them out as far as their financial conditions are concerned but they do have "unintelligible" mines as example and they have limestone quarries, this would be a large step in the right direction in attempting to resolve some of the financial problems that exist in many of the downstate counties. I don't want you to, at this time, take into consideration the very total merits of the Bill like you was passing it on Third Reading. But, I want you to take into consideration what the Amendment will do and it would limit only the portions of this Bill that would apply to the coal mining industry and say yes, we're going to help those counties but we are not going to help the others. So I would encourage a 'no' vote on Representative Ewing's Amendment."

Speaker Redmond: "Representative Duester."

Duester: "Ah... Mr. Spekaer, would the sponsor of the Amendment yield for a question?"

Speaker Redmond: "He indicates he will."

Duester: "I would ah... as the Bill as before your Amendment to... I assume would apply to all 102 counties and wou... ah... except Cook County, that's right it will only apply to 101 counties. But, with your Amendment which limits it to strickly to coal, that would limit it to any counties that would have coal deposits now, how many counties are there ah... that would be effected by the Bill with your Amendment."

Ewing: "Ah... I can't tell you how many counties they mine coal in but I know coal underlies a great portion of the entire State and there's always the potential that it might be mined in all 101 counties... 102 counties."

Duester: "I would ask you one further question, if you could distinguish this. Ah... in area of energy ah... we have oil and we have coal and I know that Arabs have taken a position since they are the producers that they would like to reap as much money as they can, out of the oil and they have gone together and they have sort of part an extra tax on and got some more money back, now I ask you this..."

Speaker Redmond: "Representative Stone, state your point..."

Duester: "Is this an effort on the part of the..."

Stone: "Point of order... point of order, Mr. Speaker..."

Speaker Redmond: "State your point."

Stone: "Now, I... I just can't see what the Arabs and what their doing and what trying to do... now, I'd like to hear certain people make speeches too but I... I hear the gentleman ah... that's asking questions, make enough speeches and I don't think he needs to make a speech in asking a question and I think he is out of order, if he wants to ask a question, let him ask it."

Speaker Redmond: "The point is well taken..."

Duester: "I'll ask the question..."

Speaker Redmond: "Leave the Arabs out."

Duester: "I'll leave the Arabs out, the question is this, is this an effort on the part of the coal prod... producing counties ah... to of ah... extract a tax which would be paid by the ah... consumers say of electricity or the non-coal producing counties. Is that what it is or do I misunderstand it."

Ewing: "Ah... the Amendment takes out just minerals, that's what my Amendment does. What the aim behind the Bill is, you would have to ask the sponsor."

Speaker Redmond: "Representative Skinner."

Skinner: "Mr. Speaker and Members of the House. I would urge resistance to this incredible Amendment. Number 1, it probably completely eliminates the chance of passage of this excellent Bill because now, the

members of the Metropolitan Counties that are heavily in gravel ah... will have no reason to support it. Number 2, it probably makes the Bill un-constitutional because it is a special interest Bill now, it does not merely... it does not tax all minerals of which gas and ah... oil are not included ah... but it would... it taxes all solid mineral that comes... that are extracted from the ground so... if this Amendment is adopted it will not be a mineral extraction tax anymore. We are getting absolutely nothing from our local gravel pit and any of you who have gravel pits in your area, just go home and check the assessment of it and you will find out that if it is assessed like vacant land, like farm land and the reason that it is assessed like vacant land is that they get into it ah... and tear out a whole area in one year and that means that there is no chance to change the assessment before they get to the area because it's still farm land then and by the time ah... the next assessment year comes around its nothing but a pit. And, so the local areas get nothing out of it. I would as you to vote against this special interest and that includes the gravel pit owners the ah... silica sand mine owners and instead vote for the interest of the taxpayers in the varies areas that have these industries, I hope this will receive a resounding 'no' vote."

Speaker Redmond: "Representative LaFleur, do you seek attention?"

LaFleur: "Yes, Mr. Chairman. Ah... Mr. Speaker, I would ah... make two remarks on this, if I may, and one is, that by the reduction of the minerals that are being taxed we are overlooking one great source here because oil and gas were never put into the Bill. And, really instead of reducing the amount of minerals being taxed I think we should have an increase and include oil and gas into the mineral extraction tax. And, number 2, I think everyone should be concerned with this new concept because I think one problem, or one question is being overlooked in this whole Bill and that is, that the return... the tax should be in return to the County where the mineral lies and I think that the question that needs to asked and answered is who do these minerals belong too... Do they belong to the people of the State of Illinois... do they belong to the Municipalities... do they belong to the Counties. Who do they belong to? If they are... if they

are to be taxed I think it would be a much fairer application if we would put a State tax on them and let all the people benefit from the... from the tax instead of the people that were just blessed by the coal underline their area."

Speaker Redmond: "Representative Collins."

Collins: "Ah... Mr. Speaker I move the previous question."

Speaker Redmond: "The gentleman has moveed the previous question. The question is, shall the main question be put. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it... the question is on the adoption of the Amendment... Representative Ewing to close."

Ewing: "Thank you, Mr. Speaker. I want to say in closing and I want to make these points just as clear as I can. We talk about fairness in taxing, fairness in whether we get enough out of the limestone quarries in tax... well let's make the tax fair when we put it on, let's don't put 100% more tax on minerals other than coal... Let's make it fair, we need to do that, we can do it in other legislation. This Bill is bad, the tax is a 100% greater on minerals other than coal the coal people want it, let them have it. I think, Mr. Speaker if we had a tax as high on coal as we have on the other minerals we would have the coal people not wanting it and I would ask for a 'yes' vote on this Amendment. Thank you."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 3, to House Bill 2715. Those in favor of the adoption say 'aye', opposed say 'no'. The 'nos' have it the Amendment fails. Do 5 people ask a roll call... the question is, shall Amendment Number 3 be adopted. All those in favor vote 'aye', opposed vote 'no'. Representative Ralph Dunn."

Dunn: "Than.... thank you very much, ah... Mr. Spekaer. I just wanted to say that I'll appreciate a 'no' vote on this, I could answer the questions that has been raised by the Bill and the previous speaker but I don't think that I need to and I would like to... thank everyone for a 'no' vote."

Speaker Redmond: "Have all voted who wished? Representative Borchers."

Borchers: "I just want to point out that before you act on this, you better think... that this increase on the price on the sand and gravel

is going to decidedly effect the building and construction in your area. You better think twice and I know some..... a little bit of something about it...."

Speaker Redmond: "Representative Dunn, for what purpose do you arise?"

Dunn: "Ah... could I answer the gentleman's or have I explained my vote..."

Speaker Redmond: "I think... I think that both of you are out of order."

Dunn: "Thank you."

Speaker Redmond: "Have all voted who wished? On this question there are 20 'ayes', 78 'no', the Amendment failes. Any further Amendments?"

O'Brien: "Amendment Number 4, Ewing. Amends House Bill 2715 as amended in Section 2.01 and so forth."

Speaker Redmond: "Representative Ewing."

Ewing: "Yes, Mr. Speaker, Ladies and Gentlemen of the House. In anticipating that possibly all minerals wouldn't be... come out, I think that in an attempt now to make this Bill ultimately fair... ultimately fair, let's put in gas and oil. That's what my Amendment Number 4, does. It adds oil shell, oil and gas to this Bill the first Amendment of the sponsor took these out. I did not raise the point at that time because the first Amendment also made other corrective measures to the Bill but I believe that there is not industry in this country making more money than oil, so let's let some of that money flow back to the taxpayers and the counties. And, I would ask for a positive vote on Amendment Number 4. Thank you."

Speaker Redmond: "Representative Friedrich."

Friedrich: "I don't believe the sponsor of this Amendment is aware of the fact that we already pay taxes on oil production. That's the way they value it, when you get a mineral tax bill in the county where you have oil production, if your not aware of that you haven't been around it."

Speaker Redmond: "Representative Lundy."

Lundy: "Mr. Speaker and Members of the House. I would object to this Amendment, raise a point of order to whether it is proper. It seems to me that if you adopt an Amendment ah... at one stage of Second Reading and then an Amendment is offered at another stage of Second Reading to reverse the effect of the first Amendment there's no

limit to that process we could simply keep ah... offering Amendments all day that would reverse what we've done in adopting earlier Amendments. So, I wonder whether this ah... this Amendment which is inconsistent with one of the first two Amendments we adopted is in order at this point."

Speaker Redmond: "I would believe that it was in order. Any further discussion... Representative Dunn."

Dunn: "Mr.... Mr. Chairman, this ah... the sponsor of this Amendment told me if Amendment Number 3 failed he was going to offer this Amendment in order to probably make my Bill so it would not be a very good Bill and I would like to resist this Amendment. Oil and gas is a different subject, oil and gas is not a solid mineral it isn't a particular deposit the ground and leave large gapping holes in the community, he erode the tax base and as Representative from Marion County said, oil is already taxed as a mineral in the State of Illinois. The assessment is sent down by... by the State Department of Revenue to the local assessers so it's already assessed and I would like to resist this Amendment too. Thank you."

Speaker Redmond: "Representative LaFleur."

LaFleur: "Ah... Mr. Speaker and Members. I would urge the adoption of this Amendment ah... I checked with Mr. Brummet and we can find no severance tax on oil and gas at all. Nothing at the well head and so this would only put this in the same poster as the rest of the minerals in the State and I think it would only be fair and equitable that oil and gas be taxed."

Speaker Redmond: "Representative Friedrich, for what purpose do you arise?"

Friedrich: "Ah... he's correct in what he says but... but the net result is not that. Because the fair cash market value of land where there is oil production is based on production and there is a mineral tax you get separate from you surface tax. I know because I get one."

Speaker Redmond: "The question is on the adoption of the Amendment. Representative Ewing."

Ewing: "Just wanted to close, Mr. Speaker."

Speaker Redmond: "Go ahead."

Ewing: "Yes... I... I believe that if we're going to have a mineral tax

and in the original Bill, the definition put in included oil and oil shell and gas. And, this was removed by the first Amendment as I have explained. The sponsor of the Bill mentions that comment about my motive for adding this to his Bill but the same motives were available for him in adding sand and gravel and all the minerals to his Bill so, I would ask for a positive vote on this. Thank you."

Speaker Redmond: "The question is, shall Amendment... the gentleman has move the adoption of Amendment Number 4, to House Bill 2715. The question is on the adoption of the Amendment. Those in favor say 'aye', opposed 'no'. The 'nos' have it, the Amendment is lost. Any further Amendments?"

O'Brien: "Amendment Number 5, Ralph Dunn..."

Speaker Redmond: "5... 5 Members asked a roll call. All those in favor vote 'aye', those opposed vote 'no'. Representative Grotberg."

Grotberg: "Yes, I can't let this go by without just explaining, we've picked up a few votes on this concept, I see and it's in tough shape but... you know, where are all those people who have been hewing and crying about the concept of the high profits of oil and gas... and there's one, are you green, that's the question... but I know they're over there and ah... that's really what we're talking about, fellows is that the popularity of the energy movement and where it's all at today. We are going to have sand and gravel left over at the end of this century and the next century but here's your chance to get in on the energy issue at escalating prices and no bodies there and I just have to say that."

Speaker Redmond: "Have all voted who wished? Turk... Clerk will take the record. On this question there is 24 'ayes', 69 'no' and the Amendment fails. 3016... oh, are there further Amendments?"

O'Brien: "Amendment Number 5, Ralph Dunn. Amends House Bill 2715 as amended in Section 3, by inserting immediately after 'gross production of', the phrase 'any or all'."

Speaker Redmond: "Representative Dunn."

Dunn: "Mr... Mr. Chairman, this... this Amendment just inserts the word 'any or all' between 'the gross production of' and the word 'minerals' this would allow a county to do just what the gentleman have been

trying to do in this, but allow a County Board, if they wanted to to levy the tax on any or all minerals in the County or they could leave them off... any or all minerals except oil or gas and oil shell. And, this would solve their point, another point I would like to raise just in explaining this Amendment is that this tax says it can't be more than 10¢ a ton and it can't be more than 2%, it can be 1¢, 2¢ all the way up to 10¢ a ton and ah... it would be up to the local County Board. I would move for the adoption of Amendment Number 5."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 5, to House Bill 2715. All in favor say 'aye'... 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "Amendment Number 6, Grotberg. Amends House Bill 2715 as amended in Section 2.02 by deleting 'other than oil' and inserting in lieu thereof, 'other than silica sand', so forth."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Thank you, Mr. Spekaer, Ladies and Gentlemen of the House. I think we're back home again, not in Indiana but in Illinois. On the basic minerals of the State of Illinois other than coal, this Amendment, Amendment Number 6, would simply delete silica sand quartzite and oil which means the sand, gravel and oil industries of the State of Illinois that are so basic to our everyday living in the State of Illinois. Previous speakers have spoken on previous Amendments regarding the tax implication of this, when its all drawn out its hardly worth the bookkeeping on the total Amendment ah... and in especially in the... in the other minerals other than coal and I would urge the support of this Amendment based on the fact that ah... as other speakers have said that the... the sand quartzite and ah... in particular are the basic ingredients of the payrolls of thousands upon thousands of people in the State of Illinois, small businesses and large businesses and the ah... there is no other way than for the price to go up in these escalating times and the net return to the taxpayer is infinitesimal when distributed over the waste and measurements that these things are being taxed upon, I just can't help

but urge you to vote 'green' on Amendment Number 6. It is a good Amendment."

Speaker Redmond: "Representative Dunn."

Dunn: "Thank you, Mr. Speaker, Ladies and Genetlman. I know that ah... the Amendment is offered in good faith but I would like to urge the resistance of this. This goes back to what we were trying to do in Amendment... what they were trying to do in Amendment Number 4, and ah... Amendment Number 3 and 4 and I would urge that this Amendment be defeated. Thank you."

Speaker Redmond: "The question is on the adoption of the Amendment. The gentleman has moved that Amendment Number 6, to House Bill 2715 be adopted. All in favor say 'aye', opposed 'no'. The 'nos' have it and the Amendment fails."

O'Brien: "Amendment Number 7, Grotberg. Amends House Bill 2715 on page 1, on line 24 and so forth."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Well, Mr. Spekaer, Ladies and Gentlemen of the House. I want a roll call on this one because now we are down to the nitty gritty. We are going to add water... we are going to add water to the nitty gritty of silica sand and quartzite, Mr. Dunn and how can you resist that after all the conversation we've had about your good faith on this Bill. I would hope very much that you would speak in favor of this now, now that we are going to exempt water from this whole great cause that you have. One of natures most plentiful minerals and substances ah... and you won't allow us to ah... get that off of this list, I would appreciate very much ah... the sponsor of this Amentment responding in a positive note and move for its adoption."

Speaker Redmond: "Representative Dunn."

Dunn: "Thank you, Mr. Speaker. I would move.... I would like to urge the 'no' vote on Amendment Number 7."

Speaker Redmond: "Representative LaFleur."

LaFleur: "Mr. Speaker, I would like a ruling of the Chair. Does Lake Michigan water come under home rule or non ah... home rule."

Speaker Redmond: "I think that, Wisconsin, Michigan, Illinois, Ohio and

the Dominion of Canada. Representative Grotberg."

Grotberg: "Yes, ah... I would like a roll call on this Amendment."

Speaker Redmond: Okay, the gentleman has move the adoption of Amendment Number 7, to House Bill 2715. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? All voted who wished, the Clerk will take the record. The question, there are 11 'yes', 74 'no' the Amendment fails. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. 3016."

O'Brien: "House Bill 3016. A Bill for an Act making an appropriation to the Department of Labor. Second Reading of the Bill."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker ah... I have a couple of Amendments that are being prepared, I wonder if Jerry, you might give me the assurance that you wanted to move this to Third Reading to bring it back to Second so we could consider those Amendments ah... I would certainly appreciate..."

Shea: "I'll look at the Amendments and if I can agree to them I would move it back."

Houlihan: "Ah... Mr. Speaker..."

Speaker redmond: "Representative Lond... Houlihan."

Houlihan: "Mr. Speaker..."

Speaker Redmond: "Yah."

Houlihan: "I would like to get an opportunity to offer those Amendments and not just on the condition of whether the sponsor likes the Amendments. Now, this Bill was one which we voted to by-pass Committee on, it was the Bill where we suggested that ah... this was so important that we take it up and... take it up on the House floor. I have over the week-end prepared some Amendment, I'm having them typed up now, I think they are very important to the... both the administration of this Bill and also the solution of the overall problem and I would appreciate the ah... Speaker not calling this Bill or ah... somehow giving me the courtesy of having those Amendments being considered."

Speaker Redmond: "Representative McClain."

McClain: "Thank you, Mr. Speaker ah... I too have an Amendment which adds a couple of million dollars ah... to the Bill and I would ask... and it is being typed now, ah... I would ask the sponsor to pull it out of the record also."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House. I talked about this Amendment or this Bill the other day, I asked anybody that wanted to work with me, if they would. Now, Mr. Washburn and I and Mr. Choate are the joint sponsors of this Bill. Mr. Polk, myself, Mr. Tuerk, Mr. Schraeder, several Members have gotten together and worked out Amendments on this Bill. Mr. McClain asked me the other day if I would accept an Amendment adding some additional employees in the Office of... I guess its ah... the Department of Labor Office of Security and I said 'no', I don't want to get this entangled up with any additional jobs. Mr. Houlihan has not talked to me at all about Amendments to this Bill, he said to me something about the Reed Act and I said that I would look at them but unless he can assure me that the funds that I'm requesting under this Bill are going to be available, I will continue to go with General Revenue."

Speaker Redmond: "Representative Walsh."

Walsh: "Well, Mr. Speaker and Ladies and Gentlemen of the House. I certainly don't think its unreasonable for any Member to request that this be brought back to Second, I think the sponsor should certainly ought to bring it back. The action taken on this Bill, if you will recall, was extraordinary. We moved it to Second Reading without reference to a Committee, I've had Members talk to me about the possibility of this being un-constitutional. It seems to me that there is an appropriation and the Bill contains other matters now, I don't want to play games with this situation, we are in a bad... bad situation with respect to the payment of unemployment compensation checks. I think the sponsor certainly ought to take it back under any circumstances, if any Member has an Amendment they want to offer to us and I think its ah... untoward of not to consent to Mr. Houlihan's request."

Speaker Redmond: "Mr. Shea."

Shea: "Well, Mr. Walsh... I am not going to bring back my Bill from Third Reading if I see an Amendment that attempts to gut the Bill and there is a lot talk about trying to do that."

Speaker Redmond: "Representative McClain."

McClain: "Thank you, Mr. Speaker ah... Jerry, I have no ah... my Amendment certainly not gut the Bill. I think it adds to the Bill ah... and that's why I would like to have a fair hearing on my Amendment, if you could just assure me that ah... that I would have a fair hearing on the Amendment which I think would inherence the Bill not ah... gut the Bill, please don't think that..."

Shea: "Mike... Mike, where is the Amendment?"

McClain: "Excuse me."

Shea: "Where is the Amendment?"

McClain: "Being typed".

Shea: "Well..."

Speaker Redmond: "I think...I think that the Chair advised the Membership a couple of days ago that unless the Amendments were ready to be introduced when the Bill was called, that I would consider that it wasn't fair to a sponsor of the Bill to be able to delay consideration of his Bill by saying an Amendment is going to be forth coming at some future time and that's the reason that I have called this Bill at this present time. I don't know what the posture is at the moment ah... are we considering ah... Amendment Number 2, is that where we are?"

O'Brien: "Amendment Number 2, Polk. Amends House Bill 3016 on page 1, line 8 and so forth."

Speaker Redmond: "Representative Polk."

Polk: "Well, I.. I just have to support with the sponsors doing with this Bill it is an extremely important time to us all, right now. I had 17 cases this week of my district who did not receive their employment checks and I would just like to see this Bill fly out of here."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Mr. Spekaer and Ladies and Gentlemen of the House. No matter what the politics are, I have the same problem in my district. My district is the third largest county and I hardly agree with prior

speaker."

Speaker Redmond: "Representative Beaupre."

Beaupre: "Well, Mr. Speaker ah... Representative McClain indicates that he has an Amendment that ah... has some substances and some value to this Bill. Now, this Bill was introduced, if you look at the number up there 3016 was introduced so late that it isn't even in the current digest that's on our desk. Ah... it seems to me that every Member ought to have an opportunity to have input on this Bill. I have the same kind of problems in my district that everybody else has but we have a hot line to that office in Chicago ah... because ah... we keep it hot, there is so many claims in our area that are not being taken care of but this is important legislation and if Mr. McClain has an Amendment for it I think that we ought to hold it."

Speaker Redmond: "Representative Shea."

Shea: "Well, Mr. Spekaer, Ladies and Gentlemen of the House. We've talked about this Bill, about moving the Bill it was in an order that I could have called it yesterday... I let it sit one additional day on the Calendar and didn't even try to call it yesterday so Members would talk to me about it. I think it is of an emergency nature... I think that its awfully important that we get this Bill over to the Senate ... passed and down to the Governor's desk. Mr. Speaker are we going to be in Session another hour or two tonight."

Speaker Redmond: "Yes we are."

Shea: "Well then, might I with leave of the House, if you could, pull this Bill out of the Record until the last order of business tonight then... we could look at the Amendments, I'm sure that there isn't a Member on the floor, if they have got an Amendment to this Bill can't get it typed... offered and printed and we could go to that order then, if it would be.... if I could have leave of the House to do that."

Speaker Redmond: "Any objection? We'll take it out of the Record at the present time and we'll call it..."

Shea: "Thank you."

Speaker Redmond: "Before we adjourn. We tried to accommodate all of the Members who have House Bills on Second Reading and to the best of my

knowledge we have called all of those where the Members are here now if I have missed any... if the Member would like to identify himself we'll accommodate him. We have one... for John Fary, have you got one on there, John?"

Fary: "Yes, Mr. Speaker I believe I have 2415..."

Speaker Redmond: "2415."

Fary: "Yes, sir."

Speaker Remond: "The Clerk will read the Bill."

O'Brien: "House Bill 2415. A Bill for an Act to protect retailers of beverages against unfair economic practices. Second Reading of the Bill. This Bill has been read a second time previously. Amendment Number 1, was adopted and the Bill was held on Second Reading. No, further Amendments."

Speaker Redmond: "No further Amendments..."

Fary: "No further Amendments."

Speaker Redmond: "Third Reading. Order of Business is House Bills, Third Reading. House Bill 840, we are calling them in the order in which they appear on the Calendar and that we... this is the first Bill under that order. Representative Duff."

Duff: "Mr. Spekaer, I think the first Bill on order of the Calendar is House Bill 85, isn't, Third Reading."

Speaker Redmond: "No, we called House Bills, Third Reading in the order of which they appear on the Calendar and we... last one we called was 837 according to the rules we are supposed to return to next Bill in sequence."

Duff: "Thank you."

Speaker Redmond: "Representative Brinkmeier."

Brinkmeier: "Mr. Speaker and Members of the House. Actually we did call it but you were interrupted and we didn't hear it so, I think 837 is the proper order of call."

Speaker Redmond: "Was 837 called? Do we have a vote on it? Okay, then it's 837, pardon me."

Brinkmeier: "Yes, Mr. Speaker..."

O'Brien: "House Bill 837, Brinkmeier. A Bill for an Act to amend the Game Code. Third Reading of the Bill."

Speaker Redmond: "Representative Brinkmeier."

Brinkmeier: "Mr. Speaker and Members of the House...."

Speaker Redmond: "Representative Walsh, for what purpose do you arise?"

Walsh: "Well, Mr. Speaker I wonder if we ah... ah... if we could agree to pass the appropriations Bills which do not die on May 23 and consider them after ah... after that time and go down on the Calendar taking substantive Bills."

Speaker Redmond: "What was that again?"

Walsh: "If we could take Bills that expired on the 23rd of May and not other Bills... appropriations ah... ah... Senate Bills and other Bills that did not expire on the Calendar on May 23rd."

Speaker Redmond: "I indicated that the order of business according to the rules its incumbent upon me to decide which way we're going to call them and I indicated that we're going to call them in the order in which they appear on the Calendar. ah... 837 is in that order and we have recognized Representative Brinkmeier."

Brinkmeier: "Mr. Speaker and Members of the House. Ah... House Bill 837 is in response to many complaints that I and I'm sure others ah... have received from residents of Deer Hunting Councils. Now, initially their complaint was, they didn't believe their application for getting proper hearings here in Springfield because it seem to them that disproportionate number of people were coming in from out of the area and hunting for deer. So, this Bill would initially would have given them a one week advantage now, subsequently ah... two things have happen. Number 1, of course the Conservation Department has gone to the Lottery system and I think it has eliminated much of the complaints so far as the unfairness of accepting applications. The other thing that has happen, the Conservation Department has given me a ah... Amendment which was adopted, which instead of given these local residents a one week advantage as far as the application concerned now, they would get a one week advantage in receiving the permits if they qualify. So, its very little that we're asking of you to do... just give them their permits a week ah... early, it doesn't mean that their going to get any earlier are going to get any special consideration but it would appease

them somewhat and I would urge your support."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? The Clerk will take the record... Representative Walsh."

Walsh: "Oh, I'm sorry I ah... understand that there is an Amendment on this Bill. If I understand the Bill correctly, ah... I have had some mail on it, it would give preference to people living within certain counties ah... an opportunity to make application for hunting licenses over people living ah... for example, where I live and I think that is ah... a discrimination which should not exist and I can't imagine that anyone would... anyone would vote for it and I would hope that the gentleman would reassure me that the Amendment that ah... took that provision out of this Bill. If it does, its a very very bad Bill and sits ah... sits people in Cook County apart from the rest of the people in the State and ah... ah... even the people in DuPage and Lake County apart from people in the rest of the State. I suggest to you that that should not be done and this is a poor Bill."

Speaker Redmond: "Representative Brinkmeier."

Brinkmeier: "Yes, Mr. Speaker, an explanation of my vote, the answer the gentleman's question. Ah... Bill that is precisely what I said, it has been changed substantially now it only means, that if they qualify they're going to get those permits a week early. They're not going to hunt any early, their not getting any preferential treatment and as I said a moment ago, it's very little to do for them I think to appease them in this matter."

Speaker Redmond: "Representative Yourell."

Yourell: "Would... would the gentleman respond to a question? Bob, are you saying that with the Amendment that ah... I think the Amendment didn't help the Bill any in that it gave any preferential treatment to those residents of a County where a deer hunting permits are issued because ah... they are to be selected first. Now, is it true that if a permit from DuPage County arrives in the Department of Conservation under the limit program, under the quota program... and an application from an individual who lives in the County where

the applicant wishes to hunt that the resident and you might consider the DuPage County person as a non-resident that the resident would receive preferential treatment."

Brinkmeier: "In answer to the gentleman's question again... it changes the word from applying to simply receiving and once more there is no preferential treatment in so far as accepting the applications concerned in... in the number of permits that each county gets, there is no preferential treatment there whatsoever. What it does simply say now and this Amendment was offered by the Conservation Department which simply, they are going to mail those permits to those people that qualify under the lottery system which we will be utilizing so that there actually there isn't any preferential treatment so far as getting the numbers permits or starting to hunt earlier, all it does really... it's rather innocuous to be very frank with you, but it does give them a little edge and that they will know one week in advance whether or not they are going to be able to make arrangements to hunt within their county or not. And that's all it does,"

Yourell: "Well... are you saying that the... that the applicant that sends his request in for a permit that those permits or applications rather, will be sent to the residents of the County that they applied first before the ah... applications are sent out to the other county residents?"

Brinkmeier: "No, not now Bus, initially that was what I had planned to do. I wanted to get that special consideration for them, but since we have gone to the Lottery System of selecting there isn't any way that that could be done. Their names are put in the... in the ah... in the box for the draw along with everyone else and they do not and I emphasize, do not get any preferential treatment on that now."

Yourell: "Well what's the reason for the Amendment in the Bill then?"

Brinkmeier: "This is simply for the Conservation Department argument that this should be done and it's a concession, I guess that they are making to the residents of that County. I would point out that those people in those counties are paying the taxes to maintain those county roads that the hunters from your fair city utilize when they

come out there, they also pay taxes for those fire for the police protection and so on, and I think it's very little to give them for exchange for those services."

Speaker Redmond: "Representative Matijevich."

Matijevich: "Mr. Speaker, I'm trying to change my mo... vote... I would like to change my vote and explain it. I would like my vote to 'no' I've read the Bill and the Amendment and as far as I'm concerned it still allows for preferential treatment, in fact I think it even makes it a little worse. It says that the ah... people who live in the area shall ah... receive not less than seven days... receive their deer hunting permit ah... before other persons are allow to apply for such permits providing such application and investigation meets the requirements and specification of the Department. And, as far as I'm concern that opens the door it... it sure... I would interpret it to give preferential treatment to those people living there. Now, time and time again I have heard people say, come down in our area hunt and fish and so forth and this is what these deer permits are for and there for I'm going to vote 'no'."

Speaker Redmond: "In as much as I have not yet announced the roll call here I think we should dump this one and let everybody have a chance to vote. The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished. Representative Brinkmeier."

Brinkmeier: "Mr. Speaker and Members of the House. And I read this Bill now too as an Amendment I'm afraid that maybe Matijevich... Representative Matijevich is correct and I would like to put this Bill on Postponed Consideration and in the Meantime, I want to be sure that the Amendment does exactly as I said it was going to do. I think ah..."

Speaker Redmond: "Any objections? Postponed Consideration. On the the Order of House Bills, Third Reading appears House Bill 840."

Selcke: "House Bill 840. A Bill for an Act to provide for the ordinary and contingent expenses of the Medical Center Commission. Third Reading of the Bill."

Speaker Redmond: "Representative Madigan."

Madigan: "Mr. Speaker, in the absents of Representative D'Arco I'm one of

the co-sponsors of this Bill and I will handle it for him. It is the annual appropriation for the ordinary and contingent expenses of the Medical Center Commission in Chicago. I request a favorable roll call."

Speaker Redmond: "The Ques... Representative Skinner."

Skinner: "Ah... would the Representative yield for... explaining the Bill?"

Speaker Redmond: "He indicates he will."

Skinner: "Ah... I was flipping through the digest or the ah... Calendar and saw something about a Medical Center District for Chicago, does this have anything to do with that?"

Madigan: "No, this is the Medical Center District that was established several years ago and which it administers the affairs of the Westside Medical Center on the westside of Chicago. This was established to facilitate the renovation and the rehabilitation of that neighborhood on the westside which houses the Westside Medical Center."

Skinner: "Thank you."

Speaker Redmond: "Representative Telc.... ah... Tuerk."

Tuerk: "Mr. Speaker, Members of the House. Ah... the other day I mention to people at appropriation Bill that they would please give us the amount of the appropriation, how it compares with the previous appropriation."

Madigan: "Fred, it appropriates \$220,000, this year and I don't know what it was last year but... I think there are..."

Speaker Redmond: "Representative Simms."

Madigan: "Appropriation Bills that appropriate far more than that."

Simms: "If the sponsor would yield for a question. Ah... with the.... why couldn't the same ah... function be ah... taken care of by the Cook County Hospital Commission?"

Madigan: "The Cook County Hospital Governing Commission was an Agency established by the State to manage the Cook County Hospital and the Oak Forest Hospital which is located in suburban Cook County. Ah... that Commission is only charged with the responsibility for administering Hospitals. This Commission possesses authority over land use on the Westside and it determines for what purposes parcels of land will be used on the Westside of Chicago. Generally almost always for

Medical purposes..."

Simms: "I..."

Madigan: "Two different functions."

Simms: "Okay. Thank you."

Speaker Redmond: "Representative Barnes."

Barnes: "Thank you very much, Mr. Spekaer. I'm sorry, I was in the back when ah... Representative.... pardon me... Representative from Peoria raised the question. This Commission ah... appropriations for this year is virtually the same as the appropriations for last year and I can say that this Bill had a thorough hearing in the appropriation Committee II ah... Division II and I would like to point out to the Members here that this is the only State Commission.... the only State Commission that returns money to the State. So if you are going to repor.... vote for any you should vote this one. The appropriation is the same as it was in previous years."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished. Have all voted who wished. The Clerk will take the Record. On this question there are 105 'ayes', no 'nays', the Bill having received the Constitutional Majority is hereby declared passed."

Speaker Redmond: "843... is Representative Keller, here? Take that one out of the Record. 844 will be out of the Record at the request of the sponsor. 848, Representative Collins on the floor? Oh, 847, pardon me."

Selcke: "House Bill 847, Tipword. An Act exempting farm chemicals from certain taxes. Third Reading of the Bill."

Speaker Redmond: "Representative Tipword."

Tipword: "Mr. Speaker and Ladies and Gentlemen. This is an Act that very simply would exemp farm chemicals from taxation in the State of Illinois. These chemicals are taxed solely and only because of an unuual quirk in a court discussion which determined that farm chemicals do not contribute to the production of the grain whereas fertilizers do and consequently fertilizers... farm fertilizers whether they be chemical or natural or whatever they may be, or mineral in the State of Illinois are not subject to taxation in Illinois. The

farm chemicals which are necessary to the production of farm crops are taxed in Illinois. Now, no single one of the States that touch the borders of the State of Illinois taxes farm chemicals... not a single one of them and each one of them compete with the farm production of the State of Illinois. In addition the farmers ah... who are so situated that they can afford to go into the neighboring States, can get their farm chemicals without the tax being paid on them. In addition if... farm chemicals are mixed with farm fertilizers and applied in the State of Illinois there're not taxable, so I would call upon you at this time to correct this inequity and remove the taxation upon farm chemicals being that only part of the production farm goods that are taxed at the present time."

Speaker Redmond: "Representative Skinner."

Skinner: "Yes, earlier today Representative Rigney suggested that lime would have an additional tax ah... that would be applied to farmers if the extraction tax were passed. May I inquire as to whether lime would be considered ah... under your Bill. Will the tax... other taxes would be taken off of it."

Tipword: "Lime is not considered, no... this applies only to farm chemicals."

Skinner: "Ah... well, if the lime were used for fertilizer or to nutriment or to change the chemical composition of the ground, might it not then be considered a fertilizer."

Tipword: "It is cons... ah... stone is considered a fertilizer and it is not taxed at the present time."

Skinner: "Thank you."

Speaker Redmond: "Representative Dunn.... The question is, shall this Bill pass. Those in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? Take the Record. On this question there are 101 'ayes', 3 nays', the Bill having received the Constitutional Majority is hereby declared passed. 848... 848, Representative Collins."

Selcke: "House Bill 848, Collins..."

Speaker Redmond: "Take it out of the Record, at the request of the sponsor. 852, Representative Mautino."

Selcke: "House Bill 852, Mautino. A Bill for an Act to amend the Illinois Horse Racing Act. Third Reading of the Bill."

Speaker Redmond: "Representative Mautino."

Mautino: "Mr. Speaker, Ladies and Gentlemen of the House. House Bill 852 is a companion Bill to 851 which passed out of here ah... early last week, it is ah... 851 was the appropriation of \$15,000 for the ah... Mid-Continental Livestock Exposition held in Amboy, Illinois. This is the Bill which ah... amends ah... Horse Racing Act to provide for the use of that agricultural premium fund and add \$15,000 to be used for that purpose. This is a companion Bill and I move for its adoption."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished. The Clerk will take the Record. On this question there are 100 'ayes', no 'nays' and the Bill having received the Constitutional Majority is hereby declared passed. 853... out of the Record. 858."

Selcke: "House Bill 858, DiPrima. A Bill for an Act to amend the Illinois Veteran's Scholarships Act. Third Reading of the Bill."

Speaker Redmond: "Representative DiPrima."

DiPrima: "Ah... Mr. Speaker, Ladies and Gentlemen of the House. House Bill 858 clarifies a number of discrepancies which have arisen over the years relative to the Illinois Veteran's Scholarship Program. Number 1, although funding has been given previously to the Illinois State Scholarship Commission no one would accept the responsibility of administering... administering the... administering the benefits. House Bill 858 designates that the Illinois Veteran's Commission become the administrative agency. This is the one and only agency in State Government charged by statute to help Veterans receive their V.A. benefits or what have you and the one agency which is able to give Veterans highest priority of assistance. The Illinois Veteran's Commission is able to relate knowledgeably to eligibility questions of a military nature more so than any other agency in State Government and placing control over this benefit with Veteran's Commission is by far the most practical solution. Number 2, Veter... Veteran's

Students in Illinois have been treated inequitably in using their military scholarship benefit... I'll take it."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished. The Clerk will take the Record. This question 110 'ayes', 2 'nos', the Bill have received the Constitutional Majority is hereby declared passed. 861."

Selcke: "House Bill..."

Speaker Redmond: "Representative Mautino, 'aye'."

Selcke: "House Bill 861, Mann. A Bill for an Act to amend Section 3-7 of the Public Community College Act. Third Reading of the Bill."

Speaker Redmond: "Representative Mann."

Mann: "Well, Mr. Speaker and Members of the House. House Bill 861 came out of the Higher Education Committee with only one descending vote. It reduces from 21 to 18, the age of eligibility for being member of the Board of a Public Community College District, I think that at the present time the Attorney General has ruled that 18 year olds may serve on Juries ah... they may be Deputy Circuit Court Clerk, this is not a highly contested office as a matter of fact we have difficulty finding candidates for this office. It seems to be a good place to ah... to start permitting ah... 18 years olds to run and after all they must be elected in order serve and I would ask for your support."

Speaker Redmond: "Any discussion? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? Representative Simms."

Simms: "Mr. Speaker, I arise in support of this Bill. Perhaps by passing this legislation ah... we may eventually ah... remove the one individual that's a non voting member from the student ah... Commission that's out at the present time. And, by lowering the age to 18 perhaps then we can have them put their name up for the electoral process and I think this may solve a lot of problems that the Junior College Boards ah... have at the present time. In fact, speaking to the Junior College Trustees in our area, they would much rather have the age at 18 so everybody is elected and they don't get into some of

these legal questions. So I urge an 'I' vote."

Speaker Redmond: "Have all voted who wished? The Clerk will take the Record. On this question there are 89 'ayes', 10 'nos', the Bill having received the Constitutional Majority is hereby declared passed. 863, Representative Miller."

Miller: "Mr. Speaker and Member of the House. I know that there are lights on that board that... when the people are not present and it could prove to be an embarrassment to the sponsor of any Bill. I don't take Representative Mann's Bill to task, at all but when we have a Bill up there with 89 votes and the people are not here, I think we are going a disservice to the Representative who isn't here by having his button pushed and ah... the only way that I can think of resolving the matter, Mr. Speaker is either to have those lights removed or ask for a verification of the roll call."

Speaker Redmond: "It has been suggested that ah... we do it again, so you dump the roll call. The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Representative Stone."

Stone: "Mr. Speaker, I desire to explain my vote."

Speaker Redmond: "Proceed."

Stone: "This is an elective position, we have given the 18 year olds... ah... children of ours the right to vote. I just don't see why they should not have the right to serve on... in any elective position such as this. When the age was... voting age was 21, everyone was allowed to serve on Boards such as this, now that we think there're good enough to vote at 18 I certainly don't see why they should not be allowed to serve on ah... a Junior College Board. I think we should keep in mind the fact that, before they can serve on the Board they must face the electorate and be elected and if the people are silly enough vote them in, then ah... I think the 18 years olds are entitled to serve. I certainly hope that we get ah... 89 votes on the board I'm sure there more than 89 people here."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Ah... Mr. Speaker and Ladies and Gentlemen of the House. I whole heartily concur with the prior speaker and with the sponsor of this Bill. In our district we have the Lake County Junior College

and we've met and I'm sure that my colleague back here will verify this, met with the President of the Junior College and he said for heaven sakes if you're going to do anything... make him at least 18 years of age and make him run for office. Right now we do have a member who doesn't have to run for office and who is a non voting member on certain things but he is causing more havoc because he wants to know what these professors are being paid, he wants to know everything and there is a question of whether he has the right to vote or not so I beg you to put 9... 89 votes on there to help save the sanity of your administration in your Junior Colleges."

Speaker Redmond: "Representative Totten."

Totten: "Thank you, Mr. Speaker, to... I hope explain my vote. Ah... I talked to my Community College Board and they are quite concerned that a ah... person on the board such as an 18 year old can make motion ah... but can not vote and should the board get in trouble over a motion that's made by a person that ah... can not vote, there was some questions as to liability and they suggested this legislation I'm not sure that it accurate maybe some lawyer can explain that on ah... his explanation of vote. But, I'm going to vote for this Bill ah... because I think we could get some problems on these Community College Boards."

Speaker Redmond: "Representative Duester."

Duester: "Well, yes I would like to concur with what Representative Geo-Karis had suggested. I think this is a question as to whether we are willing to trust the voters ah... that is one point and on the other hand I think it innocuous and strange to have a young people serving on these boards who don't have a mandate from the people ah... and to be treated as sort of a second class board members, it would be far better to say to the young people, you go out and you campaign and you go to the people and you go door to door and you ask for their support and if you get it wonderful... your on the Board and if you don't... that's to bad. And, all the Members of the Junior College Boards ought to be on a pair, they ought to have a mandate from the people and the young people ought to have an equal opportunity to go out and solicit there vote. I

would urge and 'I' vote ah... on this Bill."

Speaker Redmond: "Representative Younge."

Younge: "Ah... yes, Mr. Speaker. I concur that it would be a very healthy thing for ah... everyone to vote 'aye' on this ah... Bill because ah... there is a great lack of interest and participation in voting by young people. I think that it's a Bill, giving them a right to serve in public office would be a stimulant for young people to vote, I think that many people who work very very hard to give them the right to vote, to lower the age ah... at which people could vote would... would naturally want them to hold public office so they would have something to vote for. Ah... one of the disenchantments of ah... in government is the lack of participation and it follows as the night follows the day that if young people are given the opportunity to serve on the Boards they're the ones who populate the Demo.... the ah... Junior Colleges and they are given the opportunity to serve on the Col... Junior College Board it would be a stimulant for them to vote and become involved in governmental activity."

Speaker Redmond: "Representative Borchers."

Borchers: "Well, Mr. Speaker and fellow Members of the House. I will give Representative Stone a chance to say something again, but I wrote down just what he said a moment ago and if he did say this we have given the vote to these 18 year old children... and he's exactly right. So, you are getting ready to turn over to the 18 year old children the decisions of millions and millions of dollars. Well... that isn't even good sense, but do as you please as I have always say and vote whatever you think. Now, Representative Stone I give you another chance to ah... get at me."

Speaker Redmond: "Have all voted who wished? Representative Bluthardt."

Bluthardt: "Mr. Speaker and Members of the House. I think that one of the problems that we have ah... with some of our Junior College Boards, the fact that we do have 18 years olds sitting on the Board and allowed to make motion but not allowed to vote. I think the chaos that has been caused by these children ah... is most unfortunate and I think that it would be more unfortunate if we were

to allow him ah... are them to run for the office, be elected and have the ah... power of a vote. It's nothing unusual in the... laws and the Constitutions of this Country, both the Federal and State ah... Constitution to require more maturity to run for office. I believe that it is 35 years to run for President... 25 years old and up, I think to run for this House... that's not unusual just because the person is given the privilege of voting at an earlier age does not automatically mean, that he is qualified to run for office. I think that we should vote against this ah... proposal and not allow 18 year olds to be elected to any public office. Thank you."

Speaker Redmond: "Representative Mann."

Mann: "Well, Mr. Speaker ah... I just like to ah.. reiterate a point that I made before, this of course does not effect ah... those areas where we have ah... appointed Board but I do think that in many instances I've been told that there is difficulty getting candidates to even run for this particular office and I do think that it is a good place for young people to have an opportunity and I want to underline the word opportunity, to break into elected politics because they must be elected. It's an insult to our constituents to say that ah... irresponsible "children" are going to be elected. They are going to have to ah... present their credentials to the voters in their respected district ah... where they run and that would seem to me ah... that we would be expressing a lack of confidence in the voters of those particular districts. If we didn't say to them ah... if a younster runs that doesn't have the qualifications ah... we're sure that you will reject them but to ah... say outright that ah... we'll give the a non voting ah... place on boards where their presents have caused some difficulties because of the ambiguous statutes of their presents on the Bills... on the Boards rather, but then then to say to them ah... we won't let them seek ah... office.... seems to me ah... a paradox and to ah... reflect perhaps just a little bit of lack of confidence in the good judgement and wisdom of the people in the district that will be voting for them. So, I would urge and "aye" vote."

Speaker Redmond: "Have all voted who wished? Representative Barnes."

Barnes: "Than.... thank you very much, Mr. Speaker. I think just to be brief and I hope that the figure that's showing up on the board will remain there. I think that ah... for us to say to 18 year olds that ah... they can come out and vote in every election, I think that all of us that are here, I know that all of us that are here... run for election and we go out and solicit the 18 year olds to vote for us... yet in still we tell them that they can not ... thanks alot fellows.... yet, in still we tell them that they can not serve in an elected position. I think that ah... I would appreciate ah... the prerequisites of enough votes for this to pass. I think that we should be consistant with what we are doing we go to these young people to try to... try to convence them to become involved in the elective process and I think with that goes a certain responsibility and if they are responsible people that they can go out and encourage enough people to support them in an elected office they should be able to serve."

Speaker Redmond: "Representative Beaupre."

Beaupre: "Well, Mr. Speaker and Ladies and Gentlemen of the House. I saw 90 votes up there at one time and that means that this thing is pretty close to passing. I have never ~~been~~ one of those who ah... believe that there was some magic number of maturity in a persons life ah... I don't know whether 18 ah... ah... I'm using that as a blanket standard, make the person mature or 21 or 25, for that matter. But, I do think that a Junior College or a Community College is a very important ah... function in our Educational System and the running of it requires a certain degree of maturity and certain degree of background. As... as has been pointed out there are a number of... of ah... elected offices in our system of government ah... that have certain standards beyond the voting age and I would hope that ah... those who are voting here, do not confuse this issue with the issue of whether or not a student should serve on Community College Boards. Last year we put students on Community College Boards and the other State Boards, for a reason to give input ah... and to give... give those Boards the benefit

of feeling and attitudes of students. I think that was wise, I am not so sure that it's wise to set a standard of 18 years old to determine how a... a budget for a Community College District is to be spent and I therefore will change my present vote to 'no'."

Speaker Redmond: "have all voted who wished? Have all vote who wished.

The Clerk will take the Record. On this question there are 89 'ayes', 14 'nays', the Bill having received... Representative Hudson."

Hudson: "Mr. Speaker and Ladies and Gentlemen of this House. I have listen to the debates on this issue and it has been suggested that we owe a responsibility to our voters and true enough, we do. I think one of those responsibilities however is, that everyone be here who has recorded as being here and voting. I don't like to take the time of the House at this point. Representative Miller didn't either, but I think we have that responsibility to the people that we represent and I do therefore ask for a verification of this roll call."

Speaker Redmond: "Representative Mann."

Mann: "Well, Mr. Speaker ah... you know I find myself in somewhat of an unusual situation here as a sponsor trying to be responsible ah... to a Bill that I believe in. Ah... I've seen 4 or 5, Bills fly out of here and ah... no one's been on his feet questioning who's here and ah... who isn't here ah... all of a sudden the gentleman ah... is on his feet talking about responsibilities to to his constituency ah... are we going to be ah... you know, calling for ah... verifications all night, the gentleman has a right under the rules to call for a verification, no question about it and I'm not going to take up the time of this House for a verification. I think its quite obvious looking at that board with only 12 'no' votes that ah... when we have a fuller contingent this Bill is going to pass out of this House. As Jimmy the Greek would say, the odds are... its goint to pass out of the House but the gentleman persists although he says sat there and he has let a dozen Bills fly out of this House. When he could have called for a verification and he is sighting responsibility as the grounds for doing it."

Hudson: "Mr... Mr. Chairman, I think that the previous remarks of my respected colleague, Representative ..."

Speaker Redmond: "Representative Stone."

Stone: "Mr. Spekaer, what is the order of business that we're on?"

Speaker Redmond: "House Bills, Third Reading."

Stone: "Then I ah... think that we should get on House Bills, Third Reading and quite making speeches."

Speaker Redmond: "I agree. We recognized Representative Beaupre... This question there are 89 'ayes', 14 'nos'.... For what reason do you arise?"

Mann: "Mr. Speaker..."

Speaker Redmond: "Representative Mann."

Mann: "Mr. Speaker, I'll bow purist. Put it on postpone until my colleague Representative Hudson, no offense was intended by my remarks. Put it on postpone."

Speaker Redmond: Posponed Consideration. Representative Caldwell."

Caldwell: "I arise to a point of order. I guess I'll call it."

Speaker Redmond: "Place your..."

Caldwell: "Call it."

Speaker Redmond: "State your point."

Caldwell: "I would suggest that if we are going to continue on Third Reading then we better automatically ah... set ah... standard of verifying the roll call, if we're going to start this."

Speaker Redmond: "863."

Selcke: "House Bill 863... A Bill for an Act to amend the Unemployment Compensation Act. Third Reading of the Bill."

Speaker Redmond: "Representative Walsh."

Walsh: "Ah... Mr. Speaker, I would ask unanimous consent to take House Bill 863 to... back to the Order of Second Reading for purposes of an Amendment.... Not that I couldn't pass it now, Mr. Speaker, It's not that at all..."

Speaker Redmond: "Any objections? The Order of Second Reading."

Selcke: "Ah... Amendment Number 3, Walsh. Amend House Bill 863, as amended by striking everthing before the enacting clause and inserting in lieu thereof the following, and so forth."

Walsh: "Mr. Speaker and Ladies and Gentlemen of the House. We ah... made a very complicated Bill, a very simple one ah... by including

the the definition under the Unemployment Compensation Act, the definition of persons who are unemployed ah... the people who are not on vacations, teachers are not on vacation or on sabbatical leave and this applies to both Public as well as Private school teachers. The purpose of the Bill is to exclude teachers ah... from receiving Unemployment Compensation Benefits if they ah... are employed... have a contract and are on summer vacation and I move the adoption of the Amendment."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 3 to House Bill 863. Representative Matijevich."

Matijevich: "Mr. Spekaer, I wonder ah... if the Assistant Minority Leader would hold it for a minute, as I look over it quickly I question the ah... ah... that the Amendment is in order as to the subject matter but ah... if I look at it more closely I might agree ah... that it is in order."

Walsh: "Sure."

Speaker Redmond: "He indicated that...."

Walsh: "Would be glad to hold it."

Speaker Redmond: "... that is satisfactory. House Bill 1977, evidently we had a problem with an Amendment there... we recognize Representative Mulcahey."

Mulcahey: "Ah... yes, Mr. Speaker I would ask leave of the House to ah... House Bill 1977 back to the order of Second Reading for the purpose of an Amendment which I understand is ah... was ah... misplaced ah... earlier this afternoon."

Speaker Redmond: "Does he have leave... return to the Order of Second Reading."

Selcke: "Ah... Committee Amendment Number 2, amends House Bill 1977 on page 3, by inserting between line 6 and 7, and so forth."

Speaker Redmond: "Representative Mulcahey."

Mulcahey: "Ah... this Amendment Number 2, simply adds ah... \$600,000 for Scholarship... Scholarship programs to persons serving in the National Guard and I move for the adoption of the Amendment."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 2, to House Bill 1977. All in favor say 'aye', opposed 'no'."

The 'ayes' have it and the Amendment is adopted. Third Reading.
Any further Amendments on that? No further Amendments, Third Reading.
864."

Selcke: "House Bill 864. A Bill for an Act to amend an Act to revise
the law in realtion to snowmobiles. Third Reading of the Bill."

Speaker Redmond: "Representative Mautino."

Mautino: "Mr. Speaker, Ladies and Gentlemen of the House. House Bill
864 is one of three Bills ah... which were to compromise Bills by
the Department of Conservation the Administration and the Snowmo-
bile Association. I think Ron Griesheimer's Bill has already passed
out of here and 771 by LeRoy VanDuyne, was the other part of it. 864
ah... does one or two other things that are different fromt the two
previous Bills that I mention. First and foremost, it allows ver-
bal permission for snowmobilers to use private property, as the law
is written now it ah... has only ah... it only allows for written
permission and secondly, it changes some characteristics and the
ah... the feet to be used ah... the distance from the highway to be
used ah... by snowmobilers and thirdly, it allows local control and
option to setup snowmobile ah... routes within a city. It gives
local control, I was informed by theah... Mr. Hutchens of the ah...
State Police that they are going to work on the Amendment in the
Senate and put all three Bills into a package of one, over there. I
ask for its adoption."

Speaker Redmond: "The question is, shall House Bill 864.... Represent-
ative Waddell."

Waddell: "Would the sponsor yield to a question?"

Speaker Redmond: "He indicates he will."

Waddell: "Are you aware that, under the provisions of the Bill as it
exist today that the... having them sign a sheet of paper was a
guarantee that the people that owned the property ah... did not
have to run snowmobilers down or try to run them down on their
property but when they received permission that was put into the
original law in writting to protect the property owners. Why... this
change?"

Mautino: "No its... its adding the word 'verbal' as well as 'written',

163 1/2

the reason for it Representative Waddell is the fact that many property owners give verbal but they will not give written because they feel that that makes them liable, if anything happens on their property. But, its adding 'verbal' as well as 'written' to law."

Waddell: "Well, I think... I happen to know about this the thing that is actually true is just the opposite. If you give verbal, then you have no recourse under the law. If it is written then the group that objected this, out your way originally, is the same group that insists on this when all the snowmobile clubs in the State of Illinois with the exception of them would rather have the written. Now, for example ah... Mr. Spekaer, may I speak to the Bill?"

Speaker Redmond: "Proceed."

Waddell: "Number 1, you can take one sheet of paper and if you have 80 people that belong to your Snowmobile Club, list all 80 of them, all the farmer has to do is to sign that once and it includes the 80. If you give verbal permission there is no way that that farmer can come back later and say... No, I didn't give them permission. So, this is the reason that it was put in there in the first place... was for the protection of the land owners."

Speaker Redmond: Representative Mautino."

Mautino: "Bruce, you are exactly correct and I was... this is the point of contention by the Department and also the ah... State Police. Now, they informed me that they were going to put all three Bills into a package and this part was suppose to come out. The Snowmobile Safety Regulations were suppose to be in and the feet.... the distance from the road was supposed to be moved back from 10 feet to 15 feet and the only problem that I had and I question it yesterday er... the other day, was it was supposed to be Ron's Bill and LeRoy VanDuyne's and this on put together as one Bill. Now, Mr. Hutchenson has informed me that they have this ready for the Senate so all I'm saying is that if all three of them get out they are going to put one Bill together."

Speaker Redmond: "The question is, shall this Bill pass. All those in favor say 'aye', opposed vote 'no'. Have all voted who wished. The Clerk will take the Record. On this question... Representative

Macdonald I.... on this question 107 'ayes', no 'nay' and the Bill having received the Constitutional Majority is hereby declared passed. Mann, 'aye'. 863."

Selcke: "House Bill 863, was taken back to the Order of Second Reading. We were on Amendment Number 3."

Speaker Redmond: "Representative Walsh."

Walsh: "Well, Mr. Speaker I explained the ah... Amendment ah... Representative Matijevich ah... thought he might have a question on it, we discussed it and he removed his question so I ah... move the adoption of Amendment Number 3, to House Bill 863."

Speaker Redmond: "The question is on the adoption of Amendment Number 3, to House Bill 863... Representative Brinkmeier."

Brinkmeier: "Yes, Mr. Speaker would the sponsor yield?"

Walsh: "Yes."

Brinkmeier: "Ah... I want to be sure that I understand now what this Bill is with this Amendment. If I understand you correctly it says now, that teachers who have a contract for the following year are not eligible to draw unemployment compensation, is that precisely what the Bill will do with this Amendment."

Walsh: "Yes..."

Brinkmeier: "Well, Mr. Speaker very briefly may I address myself to the Amendment. Well, Mr. Speaker, Members of the House. I would just like to bring this for your consideration, now as most of you know I spent 25 years teacher myself and I know that today there are many young teacher, young men in particular who have a young family who have to work during those summer months to supplement their income. Now, obviously there won't be enough teaching jobs to go around and I don't know what could be done to assure that the honesty of their intent or their purpose in trying to attain employment but with the labor market as it is today and many of these teachers I know worked on the highway, they worked on farms they worked at service stations they weren't to choose about what kind of work they got. But, under this Bill if they are unsuccessful in getting any kind of employment during the summer months ah... that means then that the... that the income of their family is going to be drastically reduced because most

young teachers ah... presume that they are going to get work during the summer and up until recently they were able to do that but under today's conditions the labor market as it is, we all know that many of them will honestly try to get employment and will not succeed in doing so and we are discriminating against these people by saying, simply because you are a teacher therefore you are not eligible to draw any unemployment compensation. I think that it is a bad Bill and I would urge that you vote 'no'."

Speaker Redmond: "Any further discussion? Representative Walsh."

Walsh: "Well to respond to the gentleman, this discussion would be better held I think on Third Reading, the Bill is on Second Reading, should be amended so that it was in the proper condition. But, we discussed the matter of whether teachers should be under ah... unemployment compensation about a week ago with Representative Williams Bill and ah... he would have provided that they be on ah... perpetuity. This Bill that I have is limited in scope to the special employment assistant Act of 1974, the Federal Act which provides for Unemployment Compensation for teachers in public and private schools and there apparently was a loophole in that Act, in any case they say that ah.... it was.... it was thought that teachers could while they were on their summer vacation receive unemployment compensation now, this is a big change in the State of Illinois because teachers now can not receive unemployment compensation under any circumstances and this House reaffirmed that position about a week ago when they acted on Representative Williams Bill. So, I would suggest that you give me an opportunity anyway to put this Bill in the condition that I would like it ah... so that we can debate it on Third Rea.... on Third Reading and determine then whether we think the teachers ought to receive unemployment compensation benefits when they are on sabbatical leave, on vacation or other wise absent but under contract. My view is that unemployment compensation is to take care of people who do not have employment and are in desperate need of help ah... I don't think teachers under these circumstances are and I move the adoption of the Amendment."

Speaker Redmond: "Representative Brummet."

Brummet: "Thank you, Mr. Speaker and Ladies and Gentlemen. I would like to ask the sponsor a question."

Speaker Redmond: "Proceed."

Brummet: "Mr. Walsh, I was in business for about 35 years for myself and I happen to know that in order to draw unemployment compensation you have to be on somebodies payroll that is paying it. Now, where are they going to get the money and probably your not the guy to ask the question of, but who are they drawing this unemployment against."

Walsh: "Well, if I can respond to that John. They are drawing it against the Federal Fund.... the Federal Appropriation that was made available for this purpose ah... in the Federal Act they made several other categories of people eligible, as well as teachers and there is a fund established so that ah... those people are now covered under unemployment comepsnation benefits but the ah... the draw is not the premium type that we ah... ah... are used to it's a Federal appropriation. That's where the money comes from."

Brummet: "All right, does the school boards have to start paying it in the future?"

Walsh: "No."

Speaker Redmond: "Any further discus... Representative Stubblefield."

Stubblefield: "Representative Walsh, I was on the Committee that heard that Bill ah... in Committee ah... am I understanding you correctly that this is a technical Amendment that does not change the effect of the original Bill."

Walsh: "Well.... you are correct in that it does not change the effect of the Bill. We ah... had to do considerable research in getting the language together and it ah... substantially more than a technical Amendment but does not change the effect, Mr. Stubblefield."

Speaker Redmond: "Any further discussion? The question is, shall the ah... gentleman has moved the adoption of Amendment Number 3, to House Bill 863. All in favor signify by saying 'aye', opposed 'no'. The 'ayes' have it, the Amendment is adopted. Any further Amendments? Any further Amendments?"

Selcke: "No further Amendments."

Speaker Redmond: "No futher Amendments. Third Reading. 868."

Selcke: "House Bill 868. A Bill for an Act to amend Section 15, Nursing homes, sheltered care homes, and the homes for the aged Act. Third Reading of the Bill."

Speaker Redmond: "Representative Borchers."

Borchers: "Mr. Speaker and fellow Members of the House. The ah... law the statute setup that a Municipality has the right ah... to regulate Nursing Homes. So, all this does is add the right of the County under the same rule, same law, same regulations and all it does is add the County. It is supported by the County Organizations I must confess I don't quite remember their exact title at the moment but the Counties do have a County Organization and they do support this Bill and I solstice your support."

Speaker Redmond: "Representative Lundy.... Representaitve Lundy. Representative Lundy is recognized."

Lundy: "Thank you, Mr. Speaker and Members of the House. Would the sponsor yield for a question?"

Speaker Redmond: "He indicates he will."

Lundy: "Representative, in the ah... current Act authorizing Municipals regulation of these facilities, it requires that the State Department of Public Health approve the local ordinance and the inspection and inforcement program of the Municipalities before the Municipality may designated as a licensing agency ah... would those requirements apply to Counties under this Bill."

Borchers: "Everything is just the same, it only adds one word 'counties' all the Public Health and Safety are still.... their rules are still applicable their still in charge. The only thing that it does is as I have already said, it just to add 'counties' the reason is very simple, many more nursing homes are being put into counties and outside the municipal ah... limits than heretofore."

Lundy: "Thank you."

Speaker Redmond: "Representative Mahar."

Mahar: "Thank you Mr. Speaker, Ladies and Gentlemen of the House. Would the sponsor yield for a question."

Speaker Redmond: "He indicates he will."

Mahar: "Webber, does this mean that if there is a municipal ordinance passed and the County ordinance, that the municipal ordinance will take precedence."

Borchers: "Neither one, the county a county and the municipality has their own powers right now. It just means that the county will have in the county area the same powers as the Municipality has in the municipality."

Mahar: "Thank you."

Speaker Redmond: "Representative Rigney."

Rigney: "Well, Mr. Speaker ah... I would like to ask the sponsor a question."

Speaker Redmond: "Proceed."

Rigney: "Is it true that under this Bill you do not have to have a County Health Department in order to carry on this service?"

Borchers: "Only the coun... if the County wishes to designate a County Health Department why they would be able to have ah... ah... they have the same power as the Municipalities."

Rigney: "Well, what your saying is, there is no requirement then to have a Health Department in order to enter into this."

Borchers: "No all it is is to give the County, if they wish it it not mandatory it is permissive, all it does is give the power to a County if they wish to do some... take some action to have the same power as the Municipalities. I think that is perfectly just and fair because the municipality all ready has it, why now the County with many Nursing Homes now being ah... established in County area's."

Rigney: "Well, I think the answer to my question was yes and I think that's maybe one of the problems with the Legislation ah... I think that if your going to carry on this type of activity someone is going to have to be responsible for it. I think that that somebody is going to have to be a County Board of ah... Board of Health or a County Health Department is what is what I should be saying and under this legislation I don't think thats required and I'm... I'm just not sure who's going to be confident to carry on that kind of service in the County unless you have a County Health Department."

Speaker Redmond: "Representative Beyers."

Byers: "Mr. Speaker, will the sponsor yield."

Speaker Redmond: "He indicates he will."

Byers: "Ah... Mr. Borchers ah... who is going to pay the cost ah... for this ah... to regulate these Nursing Homes."

Borchers: "If a County wishes to set up a Department for the purpose, which they have a right to do under this Bill, if they want to they don't have to do anything if they don't want to, why they will obviously have to establish the money in their budget to take care of it. It's strickly up to the County, it merely gives them the same right as the Municipality has today."

Byers: "This could cause ah... a rise in the local County taxes, could-n't it."

Borchers: "That would be simp.... strictly up to the County itself, it's up to them to make the discussion. Nobody elses, its permissive if they want to pay taxes for that purpose their people know about it. If my County wants to do it or your County wants to do it that's our business, but it does give them the same power as the Municipalities no more.... no less."

Byers: "Ah... what's the reason for this Bill, Mr. Borchers."

Borchers: "Very simple.... in Lake County they've had some terrible things happening lately, they have a right to have a Municipal or a County Organization if they so wish to.... for emergency purposes to take action in our County, I don't want to take up the time of the House to tell you the things that I know... of the broken leg of a women... a 96 year old women, just last January who had both legs broken because of ah... factors involved which is too long of a story but if the County would have the possibility of making a ah... examination or an inspection but needed in an emergency it can do it. Right now, if you want an emergency.... emergency inspection by the Department of Public Health why.... sometimes it takes two or three days, even longer before you can even get it. If the ah... situation is serious enough in the County they can do it now, if they want ot organize and have the right to do so and this, all it does... is ah... this ah... Bill all it does is give a County that right if they so want. And I think it's

something that's most important for the health for the old and the aged in our.... in those Counties that are now having Nursing Homes build in the Counties. Anyone wants to vote against it can do so but on the same bases I want to point out to you, if we have another incident like in, two counties that I'm speaking of right now in relation to broken legs, you take the blame on your own conscious... your own conscious because ah... you are the ones that will be responsible."

Speaker Redmond: "Representative Friedrich.... Representative Byers, pardon me."

Byers: "Mr. Borchers, I think that you should outlined all those things the other day when Mrs. Willer had her Amendment up so we could have had that Amendment on to provide for better regulation of the ah... Nursing Homes. Thank you."

Speaker Redmond: "Representative Friedrich."

Friedrich: "I just want... I just want to speak real briefly in opposition to this Bill. Ah... Nursing Homes are pretty highly regulated now, I have had a little experience ah... with a couple of them and the State Department that takes care of this, its unbelievable some of the requirements that they make, some of the I'm sure... most of them I'm sure are necessary. But, they have a staff of people ah.... that consider all the aspects, the sanitation, the food, the staff and all of this. I don't if any County would be equipped to do it and I think that this is just a regulation that's going to be imposed on a business that struggling now and their cost is pretty near margin."

Speaker Redmond: "Representative Grotberg."

Grotberg: "Yes, will the sponsor yield, Mr. Speaker."

Speaker Redmond: "He indicates he will."

Grotberg: "Representative Borchers, what does this Bill do to the current State Regulating ah... aspects, does it remove.... will you have dual regulation or still.... single regulation?"

Borchers: "All it does is give.... all it does is"

Grotberg: "Will you start at the beginning, Mr... Representative Borchers your microphone wasn't on."

Borchers: "I'm sorry, I didn't know that. Ah... it changes the regulations not one bit.... all it does is give the County the same power as the

Municipality has now under.... the State Regulations. The State Regulations right now are supreme over the Municipality, all it does is allow the County to have equal power, put the County in the same position as the Municipality is now. The Municipalities..... some Municipalities have that power now... why shouldn't the County have the same power as the Municipality, if they so wish it. There is no reason that I can think of."

Grotberg: "I think you have partially answered my question, I had some grave concerns as it.... the State Regulations will still prevail over both Municipal and County...."

Borchers: "That's right, they prevail."

Grotberg: "It is dual regulation. Thank you."

Speaker Redmond: "Representative Stone."

Stone: "Mr. Speaker, I move the previous question."

Speaker Redmond: "The gentleman has moved the previous question. The question is, shall the main question be put. All in favor indicate by saying 'aye', opposed 'no'. The 'ayes' have it. The question is...."

Borchers: "Whoop.... may I close?"

Speaker Redmond: "Proceed."

Borchers: "All I want to point out to you, that there is thousand of old people in our Nursing Homes and we have an obligation to protect them. This does not supercede the State in any degree whatsoever. It only does one thing as I have repeated numerous times, it gives the County same rights to act as a Municipality have now. I solicit your support."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Deuster, 'aye'. Representative Skinner, for what purpose do you arise."

Skinner: "To explain my vote and to hopefully convince my colleagues that even though they may know good old Webber Borchers as a right wing nut, his heart is absolutely in right place..."

Speaker Redmond: "The gentleman is out of order. Personal reference to an Amendment. Representative Skinner."

Skinner: "His heart is absolutely in the right place on this subject. I don't know how many of you have talked to him about the private

inspection service that he has been using in his district but he has someone in his employe who goes around and visits State and Private Institutions. With just a little authorization letter saying, please admit Mrs. so and so she is my personal ah... investigater and would you let her take a look around. He has found out something for instance that I didn't know, that the most common complaint in the Nursing Home from Senior Citizens is that they can't get a drink of water, the Nurse doesn't put the pitcher close enough to the bed. Ah... I don't know how many of you have followed what's going on in Lake County but one of the reasons is.... one of the reason of the deplorable situation is that nobody is responsible. How many of you have County Nursing Homes in your County and can compare the quality of the County Nursing Home where they have a County Nursing Home Committee that goes around and if something is wrong the County Nursing Home Administrator knows that he or she is going to lose his job if he or she does fix it, by the next time around. This whole Nursing Home Industry thing ah... has got to be looked at and one way, I think that ah.... we can get closer to it is to get people closer to the Nursing Homes and closer to the people who live in the Homes, regulating the Nursing Homes. I think County Government has shown that it can... can run good County Nursing Homes and would be an appropriate Agency to be additional regulator and inspector of Nursing Homes."

Speaker Redmond: "Have all voted who wished? Representative Borchers."

Borchers: "I want to point that I'm not jumping on the Department of Public Health and Safety.... far from it ah... they are.... they do a pretty good job. Ah... I have run into somethings that I consider ah... carelessness now and then but the thing is, that in an emergency it is impossible for them to get out there, it is impossible the sort of two, three days on the average. I'm telling you, I went out to one Nursing Home and found.... at a request of some people visiting another family and found an old man in a wheelchair with his head hanging between his legs... dead.... and they were walking up and down and trying to get the nurses to do something about it and they said oh, he is just asleep... he's just asleep. Well, he wasn't he was

dead and I feel that its most important for the care and proper safety of our old people to be able to have closer and speedier emergency inspection and this would certainly contribute to that fact."

Speaker Redmond: "Representative Willer."

Willer: "Mr. Speaker, Ladies and Gentlemen. Just a few days ago, when we voted on a Bill to charge Nursing Homes \$8.00 a bed per year, a statement was made on this floor that there are a few bad Nursing Homes were just a few apples in a barrel, most of them were well run and regulated. I did not agree with that then, I do not agree with it now... I do agree that Nursing Homes need to be inspected far more often than are are. I don't believe that a County without a Department of Public Health is the one to do it they could appoint anyone under this Bill and I therefore think its a bad Bill."

Speaker Redmond: "Have all voted who wished? Representative Borchers."

Borchers: "The fact that I... do to the fact that I noted ah... there is quite a shortage of people on the floor and there is 66 votes up there, I'm going to ask for Postponed Consideration. I believe that this is so important..."

Speaker Redmond: "Postponed Consideration. Representative Giorgi, 869 can you handle that one? Representative Skinner."

O'Brien: "House Bill 869...."

Skinner: "Mr. Speaker I...."

Speaker Redmond: "Representative Skinner."

Skinner: "I arise to a point of apologies, I'm afraid that the Members of this House may not have known the affectionate way that I addressed the colleague who sits behind me. I have a great deal of respect for him especially in the subject area and I think those of you who would discuss Nursing Home regulations with him would have an increased sense of respect for him."

Speaker Redmond: "Thank you. 869."

O'Brien: "House Bill 869. A Bill for an Act...."

Speaker Redmond: "Representative Giorgi."

O'Brien: "To revise the law in relation to slot machines...."

Giorgi: "Mr. Speaker, this is Representative Cunningham's Bill and he is the principal sponsor and ah.... I think we ought to hold it for him."

Speaker Redmond: "Take that one out of the Record. 871."

O'Brien: "House Bill 871, Pouncey. A Bill for an Act to amend the Illinois Clinical Laboratory Act. Third Reading of the Bill."

Speaker Redmond: "Representative Pouncey."

Pouncey: "Mr. Speaker.... Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Bill 871, is to amend the Illinois Clinical Laboratory Act. which requires the Physician, Dentist and Podiatrist to demonstrate the proficiency and performance of laboratory tests. This Bill was heard in regulations and registration and was passed out 13 to 1, there were no opponents of this Bill and Mr. Ed. Morgan an Executive Secretary of the Laboratory Technicians Unions, did speak for the Bill. I wish a favorable vote on this piece of legislation."

Speaker Redmond: "Any discussion? The question is, shall this Bill pass, all in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there are 103 'ayes', 1 'nay', the Bill having received the Constitutional Majority is hereby declared passed. Representative Shea, for what purpose do you rise?"

Shea: "Mr. Speaker, I have found some kind of device on my desk, it looks, like it's a Fage Toy or something. I don't know who it belongs to but ah... if somebody would ah.... pick it up I would be happy to return it to them."

Speaker Redmond: "8.... 875."

O'Brien: "House Bill 875, Friedland. A Bill for an Act to amend the Probate Act...."

Speaker Redmond: "Take that out of the Record. 883."

O'Brien: "House Bill 883, Capparelli. A Bill for an Act to amend the Revenue Act. Third Reading of the Bill."

Speaker Redmond: "Representative Houlihan, will you... take your seat. Representative Capparelli."

Capparelli: "Thank you, Mr. Speaker, Ladies and Gentlemen. House Bill 883 would allow Homeowners of Cook County to make a major improvement to their resident up to \$15,000 and assess valuation without increasing the assessment for 4 years. This Bill would have a tax

saving for individual homeowners as much as \$1,600.00 over a 4 year period.... I'll go for the roll call."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there is 103 'ayes, 3 'nay', the Bill having received the Constitutional Majority is hereby declared passed. 886."

O'Brien: "House Bill 886, LaFleur. A Bill for an Act to amend the Downstate County Working Cash Fund Act. Third Reading of the Bill."

Speaker Redmond: "Representative LaFleur."

LaFleur: "Mr. Speaker, Members of the House. In 1967 we passed.... there was a Bill passed allowing the Downstate Counties to have a Working Cash Fund. Working Cash Funds, to say the least, are quite controversial and we find that they are quite troublesome. At that time we felt we had found, and I believe that we had found a formula that would preserve the integrity of a Working Cash Fund. The formula that we used was that we could levy for only two years, since that time we have found that this is a working system. Do to inflation new Counties growth and periods of additional needs for Capital, I'm asking to reunite this Fund for the years 1975 and 1976, in other words it would be a levy but it would extinguish itself after two years. The levy is for .025 which is 2½¢ per 100, it would allow the accumulation of a 5¢ Cash Fund in Downstate Counties and I would ask for a favorable vote."

Speaker Redmond: "Any questions? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Representative Grotberg."

Grotberg: "Yes, I would ah.... as a key co-sponsor of this Bill, with Mr. LaFleur I would urge an 'aye' vote on it. It's merely to get the Checking Account up to where the Counties can handle their daily business and it's a fact of life, it has nothing to do with anything except you just can't work with an empty cash register on a day to day basis to meet the cash flow and it's self extinguishing as he say, at the end of two years it's gone and its a 'may' Bill that Counties may do it if they need it, there is several Counties in this State

ah... that need it worse than others but I think everyone of the 102 Counties ah... can need this kind of a vehicle to carry them through the doubling of cost of everything and the doubling of money.... the shrinkage of the value of the dollar and I would urge at least 89 and hopefully more votes."

Speaker Redmond: "Have all voted who wished? The Clerk will take the Record. On this question there are 93 'ayes', 8 'nay' and the Bill having received a Constitutional Majority is hereby declared passed. 887."

O'Brien: "House Bill 887, Skinner. A Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker Redmond: "Representative Skinner."

Skinner: "Yes, Mr. Speaker and Members of the General Assembly. The new resourceequalizer formula has a problem which was unforeseen by the drafters. That problem is, that tax protest suits based on substantive equities take more than three years to settle. The formula... the law says that if a settlement is made within three years and the resource equalizer kicks in and if it isn't, the resource equalizer doesn't kick in. Well, unfortunately at the time that the resource equalizer was passed there was a rather large assessment ah... protest... tax protest in Boone County, the Chrysler Plant to ah... explicit ah... and they may lose and it has been dragging on for four years now and if the do use.... lose the principal of the ah... the principal of the resource equalizer which say, that if you have assessments at the local level you don't get money from the State and vice versa. Ah... that is that you don't get penalized by the resource equalizer formula if you are... if you happen to have a strong **local tax** base ah... what will happen is the district will lose everything instead of only losing part, of what it loses. Ah... that's what the Bill.... what the Bill does, it says that if there is a... a tax objection that is lodged after the enactment date of this Act... ah... then they would be able to qualify, rather than a three year limit."

Speaker Redmond: "Any questions? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Representative Duff."

Duff: "Well, Mr. Speaker I apologize for not having made inquiry during presentation by the ah... sponsor and I am only explaining my vote to say this much. Ah... I think that this is a tough subject that many of us recognize that the sponsor knows a great deal about and I didn't get a full clear feeling of what it does. So, I hope he will explain his vote as distinctly as he can."

Speaker Redmond: "Representative Skinner."

Skinner: "Well, this... this is one of those subjects that it would be very helpful if my joint chief sponsor were here to help me explain. You will note in the digest Gene Hoffman is the joint chief sponsor and I would respectfully suggest that he would not be willing to be the joint chief sponsor if it substantially ah... change the intent of the resource equalizer. The resource equalizer is suppose to makeup the difference or part of the difference between what a local School District can raise from its own assess valuation and what the State Aid shall be. Now, it's in an area where you have something like a ten... twenty million dollar industry which is appealing its assessment through the court process, if the industry wins what we are going to have is the School District sort of standing of the hangman's platform with a trap door opening and the School District is going to fall. Now, what this Bill would say would be that the it would lengthen the rope a little bit, they would still fall but they would end up on the ground before they choked to death... now I'm not sure whether putting it in that type of terms will explain it better for you, it is an extremely technical subject and there are about... you know there are at least 4 or 5 people on the floor that probably understand this thing in it's entirety, I'm not one of them ah... if we don't get 89 votes I will be happy to ask for Postponed Consideration until Representative Hoffman may be here and more adequately explain the Bill."

Speaker Redmond: "It would appear that that's a good idea. Postponed Consideration. 88..."

Skinner: "Could you take the Record first, sir."

Speaker Redmond: "If you take the Record.... The Clerk will take the Record."

Skinner: "Now I would ask that you put it on Postponed Consideration, sir."

Speaker Redmond: "Postponed Consideration. 888."

O'Brien: "House Bill 888, Skinner. A Bill for an Act. to amend the
Northeastern Illinois Planning Act. Third Reading of the Bill."

Speaker Redmond: "Representative Skinner."

Skinner: "At the present time there are about 25 Commissioners of the
Northeastern Illinois Planning Commission. The outlining counties
have five who serve as a representative of their respective counties
boards and are selected by those counties boards. This Bill mandates
the election of each of those five N.I.P.C. for two year terms and
removes the restriction that a Collar County Commissioner or Board
Member must be the... must be the N.I.P.C. Commissioner. This Bill
does not speak the merits or short comings of N.I.P.C. it merely asks
that those charged with respo... with representing the interest of
the five outlining Collar Counties be truly representative of those
Counties. As an indication of this proposal acceptability to Re-
presentatives of both Parties... well, it's on Third Reading what is
the Amendment pray tell?... Could you take this out of the Record,
Mr. Speaker."

Speaker Redmond: "Take it out of the Record. 892, is Representative
Williams here? Out of the Record. Representative Yourell, is 892
your Bill?... I think everybody but him... Williams, Kelly, Polk,
Jacobs and McAuliffe. Representative Yourell."

Yourell: "This has to do with prostitution and I don't know anything about
the subject."

Speaker Redmond: "Take it out of the Record. 898, out of the Record.
900."

O'Brien: "House Bill 900, Duff. A Bill for an Act to amend the Unified
Code of Corrections. Third Reading of the Bill."

Speaker Redmond: "Representative Duff."

Duff: "Mr. Speaker, to save the time of the House, I'd move at this time
since 899 the appropriation Bill was put on a special order for to-
morrow noon that this be placed there to join it."

Speaker Redmond: "You want to have the two of them considered together,
is that correct."

Duff: "Ah... have them placed together on that special hearing, yes."

Speaker Redmond: "Okay. Any objections... it will be so placed. 902."

O'Brien: "House Bill 902, Brinkmeier. A Bill for an Act to amend an Act concerning fees and salaries. Third Reading of the Bill."

Speaker Redmond: "Representative Brinkmeier."

Brinkmeier: "Yes... Mr. Speaker and Members of the House. House Bill 902 is the proposed salary increase for the E.S.R. people in the State of Illinois, now those of you who were here last year will recall that we did pass this Bill out at time with 125 'aye' votes and only 25 negative, subsequently it was vetoed by the Governor and no attempt was made on the override. Now, this year they have taken approximately \$1,000.00 reduction in what they had requested a year ago for each category and this Bill sailed out of the County and Townships Committee without a desending vote. Now, if we don't do something for these people at this time and I know that there are some of you that feel maybe their duty should be expanded and I am one of those but if we don't do something for this time, when they take office on August 1, it will mean that they will have worked for eight years for the same salary level. I don't have to go into detail what the cost of living has... has happen in those past eight years. I would certainly urge an 'I' vote."

Speaker Redmond: "Any questions? The question is, shall this Bill pass... Representative Tuerk."

Tuerk: "Mr. Speaker, would the sponsor yield."

Speaker Redmond: "He indicates he will."

Tuerk: "What is the amount of the pay raise?"

Brinkmeier: "Well, it depends of course on the ah... size of the region which they represent."

Tuerk: "True."

Brinkmeier: "Ah... as you know, we have reduced the number of the... of the County Superintendents from 102, I believe, down to 78 and I might point out that by 79 it will be further reduced to 54. Bu, ah... the existing areas, if they have under 48,000 ah... they will have an increase of 22.5 to 26,000, that would be the increase. Ah... if the area has 48 to 99 thousand, the increase would be from

25.5 to 20... to ah... 29,000 ah... for 100,000 to 999,000 the increase would be from 27.5 to 31 and over a million there would be an increase from 29.5 to 33."

Tuerk: "One other question. When did they ah... receive the... their... the last timethey received a pay raise."

Brinkmeier: "I presume it would have bee in 69 or 70, because I know the existing salary... they have had it for 4 years and as I pointed out a moment ago, if we don't increase it now they are stuck with it another 4 years, meaning they will have gone a complete total of 8 years without an increase... if we don't do anything at this time."

Speaker Redmond: "Representative Simms."

Simms: "Mr. Speaker ah... I rise in opposition to this Bill. I have a gread deal of respect of the sponsor of the legislation but I think in all fairness, in the larger Counties the salary now is going beyond ah... ah... any realm of responsibility. In the larger Counties we only pay the States Attorney or ah... in the area of \$32,000 and now you are going to raise up the regional supertendent up to \$31,000 and there is no comparison to the type of responsibilities between these regional supertendent and that of the office of States Attorney. Now, we all know that we are in hard economic times, the present time in the State and I don't think this is the time to raising the ah... increase of salaries for this type of position. Therefore I would urge a 'no' vote."

Speaker Redmond: "Any further discussion? The question is, shall this Bill pass. Those in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? Representative Brinkmeier."

Brinkmeier: "Well, Mr. Speaker I don't wished to belabor the point, I'm sure there are many people on the floor tonight that would like to be voting for this Bill. I have had assurances that they were going to but I would point out ah... to my good friend Representative Simms, that ah... when he talks about salaries I would remind you that he... E.S.R. person is one of three that has specific requirements in order to serve as a Supertendant of Educational Service Region. For example, ah... I think the States Attorney is one, I dont' recall

the other but there are many instances, we in fact have had Superintendants of Public Instruction in the State of Illinois that couldn't qualify to serve as an E.S.R. person because of those rather rigid requirements. Our School Administrators in the past 5 years have received increases in salary of an average of 50%, our teachers are getting an average of 10% per year... we ourselves voted ourselves an increase in salary... salary just recently... the Judges have gotten them, almost everywhere area of Public Service has received an increase in salary in the last couple of years and I think it grossly unfair that we suggest these people that they should have to go a full total of eight years without getting an increase in salary."

Speaker Redmond: "Representative Palmer."

Palmer: "Well, Mr. Speaker and Ladies and Gentlemen of the House. It seems to me that... very bad taste for this 79th General Assembly to start raising salaries when we rush through Bills that provide for fifteen-million dollars for those Unemployment Compensation Checks, for those people who can not or do not get their Unemployment Compensation Check... those people who are in need of funds with an high unemployment rate that we... unemployment rate that we have. I think that the people are going to look at this pretty doggone closely back in the districts, if we are going to talk about saving money let's try to save some. The best way we can start in this 79th General Assembly, at least until we find out where we are going with this National Economy."

Speaker Redmond: "Representative Reed."

Reed: "Mr. Speaker, Ladies and Gentlemen of the House. Incredible... It's incredible to me that this Body that spends so much time on the Health and Welfare of their school children would deny to the person who oversees the educational region that their children live within... work within... study within would deny that man or women an increase in salary commensurate with the responsibility that they have to the schools within their regions. Thank you."

Speaker Redmond: "Have all voted who wished? Representative Mautino."

Mautino: "Mr. Speaker and Ladies and Gentlemen of the House. Ah... one

or two questions in explaining my vote, sir. Ah... the reason for my green light up there is the fact that I.... red light, I'm sorry is the fact that, as I read the statute is it not true that the Assistant receives 75% of what the Superintendent receives, therefore it's not a.... a ah... one step raise as I read it, it not... I believe that's true therefore the fiscal impact of this Bill could be much more than ah.... what has been recorded. Ah... I think that we're talking it's an average of around \$3,500.00 and ah... when you start putting it against ah... the ah... situation we have in the employment in the State of Illinois and the fact that we are trying to tighten things up, it would seem to me that the ah... Assistants are also coming in for about 2,500 and ah... that's why I'm voting 'no'."

Speaker Redmond: "Have all voted who wished? The Clerk.... Representative Borchers."

Borchers: "I believe we have again another situation where there are green lights that ah... the Members are not present. I suggest that we dump the roll call and have a real vote."

Speaker Redmond: "Representative Stone."

Stone: "Mr. Speaker, I would like to explain my vote if I may, sir."

Speaker Redmond: "Proceed."

Stone: "I handled the Bill 4 years ago that gave these Superintendents their last pay raise. At the time they received that pay raise they were considerably behind the Superintendents of Schools, the Unit Superintendent and all of the District of the State of Illinois, however we felt that in order to get started on getting them up, we had better take ah...: half a loaf and be pleased with it. Now, that half a loaf that we took 4 years ago just can't last for... the 4 years that it has lasted and 4 more years, now this.... these salaries are paid by the State of Illinois and the State of Illinois certainly should pay there employees a reasonable salary and the salary that is being received by these people now is just not reasonable and I certainly hope that we can get more than 90 votes. I think that it is quite obvious that if.... this Bill were being heard when all the Membership was here that it would pass quite easily and

I hate to see people ask for a verification knowing that a Bill would pass if full Membership was here."

Speaker Redmond: "Representative Simms."

Simms: "Well, at the proper time Mr. Spekaer, I would like to be recognized for a verification."

Speaker Redmond: "Have all voted who wished? The Clerk will take the Record. On this question there is 92 'ayes and 12 'nays'. Representative Simms has requested a verification... Representative Brinkmeier."

Brinkmeier: "Well, Mr. Speaker and Members of the House. I.... I'm probably out of order but I'm going to start speaking anyway, you will have to cut me off. But I think that it is grossly unfair to ask for a verification when there are only 12 decending votes up there and those people no very well this Bill will get all votes it needs at the proper time. Now, if we are going to use these dilatory tactics and stall off, I'm willing to do that with some Bills that will come up later and ask for verification for reasons that.... for the very same reason and I think it is very unfair, I will... I am going to ask though at this time a poll of the absentees."

Speaker Redmond: "The gentleman request a poll of the absentees... Representative McCourt... Representative McCourt."

McCourt: "How am I recorded, Mr. Spekaer."

Speaker Redmond: "How's... your recorded as..."

O'Brien: "The gentleman is recorded as voting 'aye'."

McCourt: "I realize that I made an error, this is a good Bill and I would like to be recorded as 'aye'.... No I was recorded as 'no'"

Speaker Redmond: "I may say that.... that the Chair has looked over the green lights on my desk and ah... there are some Members that lights have been turned green that really aren't there. Representative ah... Brinkmeier do you want to poll the absentees."

Brinkmeier: "Well, Mr. Speaker obviously I don't have any alternative in this matter except to put it on Postponed Consideration again I'm going to echo what I said a moment ago, I think that this is grossly unfair and I think those people requesting the verification know darn well what's going to happen when we get Membership here and it's

just going to take the time of the House to go over this Bill again so, I would respectfully request that we put it on Postponed Consideration."

Speaker Redmond: "Representative Mautino, for what purpose do you arise. Terzich, pardon me your not as good looking... He put it on Postponed Consideration. 919."

O'Brien: "House Bill 919. A Bill for an Act to amend the Illinois Pension Code. Third Reading of the Bill."

Speaker Redmond: "Representative McPartlin.... out of the Record. 922."

O'Brien: "House Bill 922. A Bill for an Act to amend the Public Community College Act. Third Reading of the Bill."

Speaker Redmond: "Representative Dan Houlihan."

Houlihan: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 922 amends the Public Community College Act to require the Board when a teacher so request to withhold from the teachers salary his dues for professional teachers organization. The effect of the Bill is to apply the same provision to this system as exist in the School Code for Public School employees and the same provisions which have been in existence in law for the State University System and I ask for a favorable roll call."

Speaker Redmond: "Are you ready for the question?" Representative Walsh."

Walsh: "Mr. Speaker and Ladies and Gentlemen of the House. Because it is being done by other Public Bodies it doesn't make it correct. I think the... that Public people working for the people of the State, the taxpayers of this State and of the local ah... government have no business withholding money, spending money to pay the bargaining agent the private union that their employees may belong to and I think that this is a bad idea and even though it's done by other governments it shouldn't be done by anymore and we're going in the wrong direction. We ought to abolish it rather than ah... increase it."

Speaker Redmond: "Tommy Hanahan."

Hanahan: "I'm surprised Mr. Speaker with the ah... gentleman that last spoke that would suggest that a person doesn't have a right, are you suggesting that we should prohibit a person from deciding by himself to have a right to have pay withdrawn by request in writing in five

duplicate forms, from having that pay sent to whoever he wants whether it be the Red Cross or to ah... anyother organization that he would like his money sent to ah... the... the Bill effects ah... nobody adversely I.... I just don't understand the gentleman's reasoning to object to this Bill, I think it is a good Bill I think if... if he wanted to send the money to the Catholic Charities or if... if he or she wants to send the money to any organizaion the Knights of Columbus or anyone else I... I don't see where this is objectable to any ah... ah... people in our society and I think it is a good Bill and I urge an 'aye' vote."

Speaker Redmond: "Any further question? VonBoeckman... Representative VonBoeckman."

VonBoeckman: "Mr. Speaker and Ladies and Gentlemen of the House. We passed similar Bills out of this ah... House last year and without too much opposition and I think this is a good legislation. I would like to have a 'yes' vote on the Bill."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? The Clerk will take the Record. On this question there's 96 'ayes', 13 'nay' and the Bill having received the Constitutional Majority is hereby declared passed. 931."

O'Brien: "House Bill 931..."

Speaker Redmond: "Take that one out of the Record, at the request of the sponsor. 935."

O'Brien: "House Bill 935. A Bill for an Act to amend the Insect Pest and Plant Disease Act. Third Reading of the Bill."

Speaker Redmond: "Representative O'Daniel."

O'Daniel: "Mr. Speaker and Members of the House. Ah... this ah... Bills amends the Insect Pest and Plant Disease Act. The Department of Agriculture is asking that all Nurseries be inspected annually prior to October 31 and a certificate indicating that the Nursery has been inspected be issued by the Department of Agriculture prior to December 31 of each year. This ah... Bill also gives the Department of Agriculture the authority to quarantine soybean fields infested with cesnematode and it also makes necessary for all

Landscapers and Brokers of display certificates showing that they have been inspected annually. Ah... this Bill got out of Committee with no discending vote and I would appreciate a favorable roll call."

Speaker Redmond: "Any questions? The question is, shall this Bill pass... Representative Deuster."

Deuster: "Well, all I know is what it says in the synopsis, I know that there is authority here to establish a fee after a public hearing, I wonder if there is any limit on that."

O'Daniel: "Ah... I didn't hear the question, once more Mr. Deuster."

Deuster: "I'm..."

O'Daniel: "Repeat your question, please."

Deuster: "The question is, I understand that there is authority in the Department of Agriculture to establish fees after a hearing and I was wondering whether there was any limitation on the amount of the fee."

O'Daniel: "Well, ah... this has been discussed with the Nurserys and the like and there is no objection from the Nurserys and there will be a small fee probably similar to what's charged around in joining States... and they also say there will be no additional personnel they can ah... implement this ah... program without any additional ah.... people."

Speaker Redmond: "Any questions? Representative Kane."

Kane: "Would the gentleman yield for a question."

Speaker Redmond: "He indicates he will."

Kane: "Ah... could you tell us what the need for this Bill is."

O'Daniel: "Well, the big need to this is ah... ah... so their... the Nursery stock and the like, if they sell to the public ah... it can be inspected and see that they don't send out any disease nursery stock and landscaping stock and the like."

Kane: "Is there any problem now?"

O'Daniel: "Yes there is, especially with this ah...cesnematode and soybean they ah... have the authority to quarantine that, it's not to much of a problem in this area but in Southern Illinois and in adjoining States this is quite a disease problem in soybeans."

Kane: "Well, soybeans aren't sold through nurserys, are they?"

O'Daniel: "Pardon."

Kane: "This is for nurserys, soybeans don't go through nurserys."

O'Daniel: "Well, there's also, if you will look... there's a part of it there says, it gives the Department of Agriculture the authority to quarantine soybean fields infested with this cesnematode."

Kane: "That's another Bill I think, isn't it. This inspects Nurserys, Nurserys Stock Dealers and Greenhouses."

O'Daniel: "No, it also has this in it, if you will look at the Bill... but there has been some ah... problems with the Nursery stock being sold and brought into the State and moved out that was infested with ah... different diseases, that what they were asking to do, this one."

Speaker Redmond: "Representative Choate... Representative Duff."

Luff: "Will the sponsor yield to question."

Speaker Redmond: "He indicates he will."

Duff: "Well I would just like to ask very directly, perhaps we can get a simple answer to a question. How many jobs does this create and where is the money going to come from."

O'Daniel: "This isn't suppose to create anymore jobs they're suppose to handle this ah... with the personel they have and there will be some Revenue payment. I talked to tne Department Agriculture and they said there wasn't... it would not require any additional jobs. They can handle this with the personel they already have."

Duff: "Well, if they can... you say they can handle this without any additional personel?"

O'Daniel: "Yes, this isn't really too big a deal, I'm sure."

Duff: "And... they can handle this without any additional appropriation."

O'Daniel: "That's what the Department of Agriculture told me."

Duff: "Thank you."

Speaker Redmond: "Any further questions? The question is, shall this Bill pass... oh, pardon me. Representative Rigney."

Rigney: "Ah... Mr. Speaker, a question for the sponsor."

Speaker Redmond: "Proceed."

Rigney: "What is going to happen to this field of soybeans once it is

condemned, is it only for seed purposes that they be condemned."

O'Daniel: "Well, actually what they do ah... they quarantine these fields and ah... anytime.... this disease is carried with ah... equipment and carried out and ah... the quarantine ah... anytime these are harvested or anything, the machines and the equipment used around them have to be disinfected before they can move to another area."

Rigney: "Well, can the farmer market the beans when it..."

O'Daniel: "Yes. What this disease does, it ah... the beans won't mature then say in about ah... they get about ah... turn a little yellowish cast and that's the way they remain all... all during the fall and this ah... the big problem is that..."

Rigney: "Why, if they don't mature why do they even need to be condemned, they can't be harvested."

O'Daniel: "Well, the thing about it, this is a root disease and it's carried out on the machines and the like and it can carry from one area to another, that's the way it spreads."

Rigney: "But... you mean you get no beans whatsoever off of this ah..."

O'Daniel: "Right. The beans get about half mature, in what they call a butterbean stage and that's where they remain on up until frost."

Rigney: "Well then, why would there even be a machine in there harvesting?"

O'Daniel: "Well this is just small spots in the fields, I don't know if your familiar with this or not but, when this shows up..."

Rigney: "No I'm not."

O'Daniel: "There will be two or three acre spots out in a forty acre field, when it first starts... it will have this... it will be diseased and this keeps spreading."

Rigney: "Does that give them the authority to... to condemn the whole field or just... just that spot."

O'Daniel: "Well, I think they would probably quarantine the whole field."

Rigney: "Well then, the next logical question is, if there are quarantine.... you mean those beans can not be marketed in anyway from that field."

O'Daniel: "If the beans can be marketed before the equipment can leave

that field, when they have been quarantined it has to be disinfected and... before it can move to another area to combine or something."

Rigney: "But it does not in anyway then, affect the marketing, that's what your saying."

O'Daniel: "No."

Rigney: "Okay, thank you."

Speaker Redmond: "Representative Tipsword."

Tipsword: "Mr. Speaker and Ladies and Gentlemen. Ah... I have been advised that this also will... will guarantee that the stock, the nursery stock that is available here within the State of Illinois is going to be such that you won't carrying home from ah... into the other stock that you have landscaped your... your house with or your grounds with ah... diseases which are now spreading in from other parts of the country and into the... our into our nurserys in this State and we want to be darn sure that we don't spread it that we dont' foster it and I think that it is a very good guarantee to the people of the State of Illinois that the things that they take home and plant are not going to ah... cause them to lose all the expensive landscape and nursery stock that they have already acquired."

Speaker Redmond: "Representative Friedrich."

Friedrich: "Where in... Where in the Bill does this talk about soybeans, I haven't been able to find it.... it does refer to it in the digest and I can't find the Bill."

O'Daniel: "Here on the first page down about ah... line 20 and the like it talks about ah... this is... the reason that I said soybean field This is a soybean disease... cesnematode and I've had some experience with that before, that's about the only crop that that effects... is the soybean."

Friedrich: "It doesn't refer to soybeans directly."

Speaker Redmond: "Any further questions? Representative Ralph Dunn."

Dunn: "Thank you, Mr. Speaker I wonder if the sponsor would yield for another question."

Speaker Redmond: "He indicates he will."

Dunn: "Ah... Representative O'Daniel, can you us... we now have a in-

111.

sect, pest and plant disease Act, do we now?"

O'Daniel: "Yes, I think this just amends it and put a little..."

Dunn: "And they already inspect plants, I was trying to see too what it did differently and what it did that... that we don't already now do.

Could you tell what that is."

O'Daniel: "Well, it ah... at present it doesn't require that nurseries are inspected annually."

Dunn: "Thank you, thank you Mr. Speaker."

Speaker Redmond: "Representative Ewing."

Ewing: "Ah... would the sponsor yield to a question?"

Speaker Redmond: "He indicates he will."

Ewing: "Ah... when your inspecting the nursery stock and things like this wouldn't almost ah... much of this have to into a laboratory to detect a lot of these diseases."

O'Daniel: "Well I'm not to familiar with that, but I think it probably would but anyway the inspection date is in ah... October and they ah... have to ah... display their certificate by December 31."

Ewing: "I'm sorry I didn't understand that answer."

O'Daniel: "I said they have to be inspected prior to October 31 and the certificate would be issued by December 31. I think they would have time to do anything like that if they needed too."

Ewing: "Mr. Speaker, may I speak to the Amend.... ah... to the Bill."

Speaker Redmond: "Proceed."

Ewing: "Ah... it would seem to me that ah... this is just another layer of inspection and with the number of nurseries and outlets, I can't really see how this could benefit the consumer unless we were to put on numerous new inspectors and give them laboratory facilities to really check out these diseases. Thank you."

Speaker Redmond: "Representative Byers."

Byers: "Mr. Speaker, I move the previous question."

Speaker Redmond: "The gentleman has moved the previous question and the question is, shall the main question be put. All in favor indicate by saying 'aye', opposed 'no'. The 'ayes' have it. The question is, shall House Bill 935 pass. Those in favor vote 'aye', those opposed vote 'no'. Representative Duester."

Duester: "Ah... Mr. Speaker, Ladies and Gentlemen of the House. There's...

I would like to direct the attention of every Member to some language on page 5 of this Bill, which simply say that the Director of the Department of Agriculture may establish by regulation fees for the inspection and certification of nurseries, nurseries stock dealers, greenhouses and so forth and just before adopting those fees ah... he must hold a public hearing. There is no limit on here, he could establish just about any kind of a fee and I would remind the Members that a couple of years ago we let this same Department fly through here with a Bill on dog fees and everybody wokeup the next ah... morning and found out that we had passed a Bill to put on a \$4.00 dog tax all over the State of Illinois and it caused a great deal of disturbance, I don't think that we will want to ah... give an Agency of the Executive Branch this ah... unlimited tax or licensing authority and I urge a 'no' vote."

Speaker Redmond: "Representative Bradley."

Bradley: "Mr. Speaker and Ladies and Gentlemen of the House. To explain my 'yes' vote, there was some question during the debate on this Bill about the soybean in where it entered into the Bill. And if you look on the first page, line 17 on plant diseases, cesnematodes is the disease that effects soybeans and that's why.... that's the place in the Bill where it is now. This Bill, in my opinion is an excellant piece of legislation that we need in Center and Southern Illinois and also in the Northern part of Illinois, those areas that are growing soybeans because when you go by, if you have ever been by a soybean field it's ah... infected ah... it needs to be ah... ah... weeded out, you will see a terrible calamity and when your talking about the economy of this State your talking about soybeans that are selling at 6 and 7, 8 and 9 dollars a bussel. If you were sitting there with ah... growing soybeans with a fellow next dore that had the disease crop, you would be very happy that we passed this legislation. I certainly hope that we get a few more green lights and think that it is a good piece of legislation, it's something that we disparately need and ah.... not only with the soybean fields but also with the nurseries because we have a lot of

diseased plants sold in our nurserys that are taken out of the nurserys and taken to the.... into town even to the dime stores are selling them. You take them home an plant them and soon you find out all your flowers are diseased. Ah... this is one way to control that ah... we certainly need it and if you remember the Elm disease that we had going through rampant, through Illinois not to many years ago and killing all the Elm trees. A piece of legislation like that... like this we are addressing ourselves, that would have addressed itself to that elm disease problem would have saved some of those trees. We need... we need a green light in the farming industry ah... in the Agriculture industry we need this Bill."

Speaker Redmond: "Representative Totten."

Totten: "Thank you, Mr. Speaker to explain my vote. The thing that alarms me about this Bill is the language that says, regulation and or.... inspection certification of nursery, nursery stock dealers, greenhouses and other inspections and also to allow for public hearing. Now, how the Department is going to do this without adding new people ah... on to their payroll, is beyond me... unless, they have to many people in the Department already. It is just physically impossible to do the inspections and certifications and public hearings without putting more money into the Department of Agriculture Budget unless they have too much money in there already and I suggest that we seriously take a look that Agriculture Department appropriation before we pass anything like this and this Bill should be on a postponed consideration."

Speaker Redmond: "Representative Tipsword."

Tipsword: "Mr. Speaker and Ladies and Gentlemen. In explaining my vote I would like to answer one of the items that has been raised. Ah... I am voting for this Bill, I'm a co-sponsor of the Bill. The Department of Agriculture now in various areas already have the right to inspect other areas, not covered by this Bill. I think that we will find if we examine the authorizing legislation that this legislation merely repeats the authority here to forgiven the Department of Agriculture and the other areas which they now inspect

to set those fees so that the fees cover the costs of providing this service of protection to the consuming public in the State of Illinois and to the protection of Agriculture throughout the entire State of Illinois. I certainly would recommend that this Bill be passed."

Speaker Redmond: "Have all voted who wished? All voted who wished? The Clerk will take the Record. Representative O'Daniel's."

O'Daniel: "Mr. Speaker, I would like to put this on Postponement Consideration please."

Speaker Redmond: "Any objection, Postponed Consideration. 944... 940."

O'Brien: "House Bill 940. A Bill for an Act to repeal the Wage Deduction for Benefit of Creditors Act. Third Reading of the Bill."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House. House Bill 940 was put in by Representative Lemke and myself, it does two things, it increases what the employer gets for filing the material under the Wage Deduction Order from \$2.00 to \$4.00 or 2% whichever is greater and that's paid for out of... by the ah... Creditor and it also removes ah... it says all wages, salaries and amounts of other compensation paid by the State or any unit of local government or School District of any of its employees are exempt. And, this puts the law back where we thought it was for substantial number of years until a court discussion said that ah... State Employees were subject to the Act. I would ask for a favorable vote."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Will... will the sponsor yield for a question?"

Shea: "Yes."

Geo-Karis: "Ah... Jerry, in the Labor Commerce Committee there were two Amendments adopted. Did you remove those Amendments by your Amendments on the floor."

Shea: "No, these are the Amendment that were adopted there."

Geo-Karis: "Thank you."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? Have all voted who wished? The Clerk will take the

Record. On this question ther's 92 'aye', 8 'nay', the Bill having received the Constitutional Majority, is hereby declared passed. 942."

O'Brien: "House Bill 942, Birchler. A Bill for an Act to provide for the ordinary and contingent expenses of the Department of Aging. Third Reading of the Bill."

Speaker Redmond: "Representative Birchler."

Birchler: "Thank you, Mr. Speaker and Members of this Legislative Body. House Bill 942, in its original form called for Eleven million, a hundred forty-three thousand, three-hundred dollars for the ordinary and contingent expenses of the Department of Aging. In Committee it was amended, it has one Amendment on it and this Amendment was to add in ah... the unclaimed older American Act from the 75, fiscal year, it also has a grant in aid for the 76 fiscal year title 7 money of one-million, two-hundred eighty-thousand and six-hundred and thirty-three dollars and three-hundred thirty... ah... three-hundred and thirty-thousand dollars was added as payable from the Comprehensive Employment Training Act for grand in aid to develop manpower programs which will benefit the elderly people. This is ah... a needed Bill to handle the work for the Department of Aging ah... it came out of Committee with a 24, nothing vote and I urge a do pass... give us a green light on this one please."

Speaker Redmond: "The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there are 109 'ayes', no 'nays', the Bill having received the Constitutional Majority is hereby declared passed. 952."

O'Brien: "House Bill 952, Leon. A Bill for an Act to create the Illinois Banking Study Commission. Third Reading of the Bill."

Speaker Redmond: "Representative Leon."

Leon: "Ah... Mr. Speaker and Ladies and Gentlemen of the House. During this last few months in the Banking Committee we found that there were many aspects of the banking laws that needed looking into. Therefore the Committee voted unanimously to create this Commission to study the banking laws of financial institutions. I would

appreciate a favorable vote."

Speaker Redmond: "Any questions? The question is.... Representative Miller."

Miller: "Ah... Representative Leon, is there an accompanying appropriation Bill or how do you handle that."

Leon: "Ah... there is no accompanying appropriation Bill, if this Bill does pass and in all probability it will be funded."

Miller: "By whom."

Leon: "By omnibus Bill."

Miller: "Well, in the omnibus Bill, what kind of money would ah... be in that Bill."

Leon: "Probably 2,500, 4,000 dollars, it don't need to much money."

Miller: "Are there any other Commissions ah.... funded at that low level?"

Leon: "Ah.... I was on a Commission in 1959 that ah.... had a \$5,000 appropriation, we refunded ah.... 2,200 dollars, we did a hell of a job."

Miller: "What are they going to do for ah.... \$2,500."

Leon: "Conduct hearings and meetings with the bankers and ah.... get some input from Washington as to what their regulations are.... to see if we can co-ordinate their laws with the laws of the State of Illinois so that there will be no discrimination bewteen units of bank.... that is the Federal and State."

Speaker Redmond: "Representative Totten."

Totten: "Thank you, Mr. Chairman. Would the sponsor yield for a question."

Speaker Redmond: "He indicates he will."

Totten: "Ah.... Representative Leon, could not this be done with a standing ah.... sub-c.... standing sub-committee of the ah... House and the ah.... Senate ah.... of that financial institution of Banks and Savings and Loans."

Leon: "No... no, because we are having public members on the Committee and they will be persons who are well up on ah... financial institutions. The expertise which we do not have in the General Assembly."

Totten: "Well, Standing Committees wouldn't exclude public members."

Leon: "Ah... it could and this way we will insure it."

Totten: "I... I also am not aware ah... I have seen the Omnibus Commission Bill and I am not aware of any monies being appropriated in that Bill for this Commission."

Leon: "Well, if there is no money appropriated for the Commission then we will have to operate in some other way, if this Bill is adopted by the Senate and of course the House."

Speaker Redmond: "Representative Lundy."

Lundy: "Thank you, Mr. Speaker ah... Representative Totten's questions were essential the questions that I intended to ask."

Speaker Redmond: "Representative Shea."

Shea: "Ah... Mr. Speaker, Ladies and Gentlemen of the House. I am the sponsor of the Omnibus Bill and Representative Leon talked to me about it and I told him, if this passed that I would put in that appropriation in the Bill at his request."

Speaker Redmond: "Ready for the question? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Schoeberlein, 'aye'. Grotberg, 'aye'. Is Representative Kane, on the floor? Have all voted who whised? The Clerk will take the Record. On this question 93 'ayes', 13 'no', the Bill having received the Constitutional Majority is hereby declared passed. 957."

O'Brien: "House Bill 957. A Bill for an Act making an appropriation to the Department of Local Governmnet Affairs. Third Reading of the Bill."

Speaker Redmond: "Representative Winchester."

Winchester: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 957 as amended appropriates a hundred and forty-thousand dollars to the Department, of Local Government to be administered to to the County Treasures Office and the County of Polk. A County located in a highly depressed area in the deep southern part of the state. H.B. 957 was reported out of the Counties and Township Committee on a 12-0-3, recommended do pass vote. The Bill was approved by the Appropriations I, Committee on a 20, 0, 0, vote recommended do pass and there is no objections from the Bureau of the Budget for the Department of Local Government Affairs. I would appreciate a

favorable vote."

Speaker Redmond: "Ready for the question? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? Have all voted who wished? The Clerk will take the Record. On this question 105 'ayes', no 'nays', the Bill having received the Constitutional Majority is hereby declared passed. 960."

O'Brien: "House Bill 960, John Dunn. A Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker Redmond: "Representative Dunn."

Dunn: Thank you, Mr. Spekaer, Ladies and Gentlemen of the House. House Bill 960 is contained in the Amendment. The Amendment restricts the scope of this Bill so that it applies, to the best of my knowledge, to only one school in the State. This is cleanup language in the School Code, provides that a special education facility owned and operated by a County Governmental Unit on the effective date of this Act, may receive funds from a Public School District. The key is that the ah... ah... Special Education facility must number 1, be owned and operated by a County Government and number 2, be in existence already so we will not be opening any doors for new categories of facilities to receive support. Request a favorable vote on this Bill."

Speaker Redmond: "Any questions? The question is, shall this Bill pass. All those in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question, 106 'ayes', no 'nays' and the Bill having received the Constitutional Majority is hereby passed. 961. Representative Hudson, 'aye'."

O'Brien: "House Bill 961...."

Speaker Redmond: "Take that one out of the Record. 962."

O'Brien: "House Bill 962, Brummett. A Bill for an Act to amend the Soil and Water Conservation Districts Law. Third Reading of the Bill."

Speaker Redmond: "Representative Brummett."

Brummett: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. What this Bill does is to amend the Soil and Water Conservation Law and it provides for the development of a state erosion sediment control program by the Department of Agriculture. It calls for the establishment of guide lines for such programs by the various Soil

and Water Conservation Districts. It might interest you to know that at the present time there are two-million tons of top soil, mostly, going down the Mississippi River to the Gulf of Mexico each 24 hours. In the State of Illinois we are completely covered at the present time by 98 Soil and Water Conservation Districts. Each County in the State has the advantage of having the advice of a Soil and Water Conservation District. They are doing a excellent job, the first one was organized in the State of Illinois in 1937 and they are the logical solution for these Districts, the Soil and Water Conservation Districts, have the expertise to take care of these problems which do arise. There have been several Amendments put on to the... this Bill, one of them takes the Municipalities out of it, there was a few objections about having the Municipalities included in it but I might tell you that in several parts of the State we have the municipalities who are asking to be put into this District... into this law, so we made an easy way for them to get in by merely passing a Resolution that a ah... City Council or by ah... a City Board. We also have a cost sharing Amendment that's put on ah... to share 50% of the cost. Another thing about this Bill is, it does not take any appropriations until 1976, there will be hearings held throughout the State and the Bill will be brought back to the legislature in its final form to be approved by the legislature before it's put in force. It will probably take until 1980 for it to become an entirely effective within the State. I think this is a good Bill and I would ah... like to see it passed by the legislature. This is endorsed, I might add by the I.A.A., the Soil and Water Conservation Districts, the Land Improvement Contractors Association, The Illinois Livestock Marketing Association and the Illinois Farm Bureau... Farm... Farmers Union."

Speaker Redmond: "Representative McMasters."

McMasters: "Mr. Speaker, Ladies and Gentlemen of the House. I would like to speak on this Bill, just very shortly."

Speaker Redmond: "Proceed."

McMasters: "Mr. Speaker and Ladies and Gentlemen of the House. The Illinois Farmer has always had probably, a certain amount of freedom... considered themselves a free individual master of his own destiny."

I do not doubt the need for this legislation, at some time but what it will specifically do, is take the last vestage of freedom away from the Illinois Farmer and what shocked me more than anything... are the various farm organization and the Department of Agriculture that is supporting this Bill. It will make of each Soil and Water Conservation Board in each County, it will make them a little E.P.A. who will be setting rules and regulations after being... holding hearings with the farmers. Now, I don't doubt but what we should pass this Bill out, it will not be with my vote, I wanted it to go to ah... Study Committee of the Illinois House Committee on Agriculture. Unfortunately the sponsor of the Bill would not agree to a Study Committee, I wanted it to go out to active hearings throughtout the State so that the farmers in this State would have the opportunity to know what was happening to them and to have some voice in what when on. So, if it does pass out of here I'm certainly going to work over in the Senate to try to get the Senate to show a little more wisdom than our House Ag. Committee did and put it in a Study Committee and go out and active hold hearings throughtout the State before we pass something. It is a lot of similarity as to what happen when we passed the E.P.A. several years ago. At least we do have an Amendment on this Bill that brings it back to the General Assembly before the rules and regulations of the Department of Agriculture are established. Never the less, it hurts me to see a Bill like this ah... taking the freedom away from me, I will have to go down to a local Soil and Water Conservation District Board, file a permit as to how I intend to farm they will tell me whether I can or can not fall plow on certain slopes and whether ah... its just complete regulation of the Illinois farmer."

Speaker Redmond: "Representative Calvo."

Calvo: "Well, Mr. Speaker and Ladies and Gentlement, just breifly ah...

I think the last speaker's serious can be laid somewhat by the fact that the General Assembly is going to have to approve whatever plan they come up with, at a later time. But, I would like to ask the sponsor of the Bill a question... we have two ah... planning agencies in the State of Illinois the Southwestern Illinois Metropolitan

Planning Commission and the Northeastern Illinois Metropolitan Planning Commission that are working in this area with the Federal Government and ah... I have to say that, due to the pressure of business I haven't been able to prepare an Amendment at this time but we intended to try to amend this Bill so that, as for as the Southwestern Illinois Planning Agency that they would be free to continue their work with the Federal Government in this area and have an exclusion... or... or have some ah... provision in this Bill where they could continue and would be excluded from this Act as to those Counties and I wonder if the sponsor, I don't want to ah... you know, impeat his Bill at this time, I think it's my fault that ah... I didn't have the Amendment ready to give him and ah... ask him if I could put it on... but I wonder if he would object to an Amendment for those Metropolitan Counties being put on in the Senate."

Brummet: "Mr. Calvo, I have been informed that... that ah... the Soil and Water Conservation Districts will work with these various organizations within the State and it is my understanding there are no Federal funds available as yet, for this work that is to be done and I can assure you that they will co-operate 100% with the swim pack down in our territory and also up in the Chicago area, I believe the ones you have reference too."

Calvo: "All right. Well, what I'm saying then is I guess Don, would ah... the Districts object to us being able to exclude the Counties with in the SWIMPAC area and being able to develop out own plan with SWIMPAC."

Brummet: "Well, I see nothing wrong with them developing the plan in conjunction with the Soil and Water Conservation Districts."

Calvo: "Well, that's what we intend."

Brummet: "Because it's going to take in a bigger area than you swim pack will."

Calvo: "All right. Well ah..."

Brummet: "There will be... there will be no ah... trouble along this line at all."

Calvo: "All right, Mr. Speaker and Ladies and Gentlemen of the House.

With the understanding that we can ah... at least offer an Amendment in the Senate to take care of this problem whether or not it is adopted is up to the ah... how it works out but ah... with the understanding that we can offer that Amendment and apparently without any objection or any strong objection from the Soil and Water Conservation Districts. I think this is a good Bill and deserves the support of the House and I think that my good friend ah... Tom McMasters worries ah...are somewhat allayed Tom, by the fact that ah... we will have an opportunity to vote on whatever plan they come up with and as you and I know, we don't have that opportunity always... or ever really ah... with E.P.A. They have hearings and come up with a plan and adopted it and if they get it adopted then we're just kind of stuck with it. At least here you've got an opportunity to come up with ah... the plan and it will come before the General Assembly and we'll have that opportunity to vote it up or down and I think this Bill deserves the support of the House with the understanding that we'll have an opportunity to offer some Amendments in the Senate."

Speaker Redmond: "Representative Ewing."

Ewing: "Yes, Mr. Speaker and Members.... Ladies and Gentlemen of the House. I served on the Agriculture Committee that heard this Bill and Mr. Representative McMaster's and myself and several others caused the delay of this Bill at least one week in Committee. And, with that in mind I have gone back to, what I consider to be one of the finest farming areas in this State which is the 38th District. And, I find that the people of the 38th District, the farmers and the landlords.... owners do not want this legislation. I represent them not the I.A.A. down hereand I believe you all consider what you're voting for when you vote for this legislation, we have no idea how many inspectors it's going to take or fieldmen in every County to enforce this regulations. This is a most far reaching Bill and I would suggest a 'no' vote. Thank you."

Speaker Redmond: "Representative Palmer."

Palmer: "If the sponsor will yield for a question."

Speaker Redmond: "He indicates he will."

Palmer: "What about the possible conflict with the Environmental Protection

Agency their rules and regulations, maybe its been answered ah..."

Brummet: "Well..."

Palmer: "Either now or in the future."

Brummet: "I am informed that this would take precedence over the Environmental Protection Agency."

Palmer: "So, in effect it would be.... if passed and approved, either by the Governor or the House... or if the Governor or the House disapproves it...."

Brummet: "Right."

Palmer: "Then the.... then the Environmental Protection Agency would be ah... deleted ah... from having this authority."

Brummet: "Right."

Speaker Redmond: "Representative Rigney."

Rigney: "Well, Mr. Spekaer and Ladies and Gentlemen of the House. I think you can probably put down House Bill 962 perhaps a most sufficient Bill to effect Illinois Agriculture to be introduced in this Session in the General Assembly. For the first time we are addressing this Business of Soil Conservation from a mandatory stand point up until this thime the Soil Conservation practices that we have engaged in have been of a voluntary nature but no longer would they be voluntary, they would be mandated and even though there is a certain element of local control involved in the process ah... let's not kid ourselves, we'r talking about mandatory soil conservation activities. Now for some of you who are in the municipal ah... live in municipalities, perhaps you think that you are exempt ah... from the debate. I suggest that you become aware of the fact that the fringe areas of most cities in this state are also within Soil Conservation Districts and would be a part of this whole plan. So, if you're talking about digging basements or land disturbing type of activities on the fringe areas of you cities ah... you will be a part of this. You will have to have approval for this type of activity. It will mandate having a plan... a plan approved at the local level by the... the Board to be set up at that level, you will have to submit your plan of land disturbing activities to that Board for its approval. Assuming that you do get approval for your plan there are a number of

things that can happen to you at a later date. For instance, you may have a ah... approval for 113 rotation, a year in corn, a year in small grain, 3 years in a legume. Okay, the second year we'll say that that legume freezes out, there is nothing you can do then but to start your rotation over again. It's... your going to have to appeal to some Board, just as you one with the Environmental Protection Agency... somebody is going to have to give you variance for this land disturbing activity that you are now going to have to be engaged in. Now, perhaps you are under the Impression that I'm speaking against the Bill... frankly I have very ah... have many mixed emotions about the Bill, I recognize that we're going to have to get serious about this business of Soil Conservation and so I'm not really speaking as either a proponent or a opponent of this Bill but I hope that you do recognize that this is a Bill of very deep consequences, it effects most everyone in the State of Illinois, those who are living on farms and those who are living in our Cities as well. So, I think you better put this down as one to look at very carefully ah... I hope that we'll have a considerable more debate and discussion about this matter because as I say, I think it is one of the... the truly big Bills in this Session of the General Assembly."

Brummet: "Mr. Speaker... Mr. Speaker."

Speaker Redmond: "Representative Brummet."

Brummet: "I can see that we're going to run into some controversy on this Bill and there aren't enough people here tonight. I would like to put this on Postponed Consideration."

Speaker Redmond: "Postponed Consideration...."

Brummet: "Take it out of the Records... take it out of the Record."

Speaker Redmond: "Take it out of the Record. 964, Representative Beatty.... read the Bill."

O'Brien: "House Bill 964. A Bill for an Act to amend An Act making appropriations to the Supreme Court for the pay of certain officers in the Judicial System. Third Reading of the Bill."

Speaker Redmond: "Representative Beatty."

Beatty: "Mr. Speaker and Members of the House. This is a ah... small change in the appropriation to the Court System. It provides that

\$40,000. which is presently going from the State of Illinois to the Court ~~system~~ actually be paid to Cook County, since the foreign interpre~~ters~~ that the law calls for are being supplied by Cook County ~~and sh...~~ the \$40,000. should probably go the County who is supply~~ing~~ these people now. So, it's a transfer of \$40,000. I ask for your ~~favorable~~ vote."

Speaker Red~~mond~~: "Ready for the question? The question is, shall this Bill ~~pass~~. All in favor vote 'aye', opposed vote 'no'. Have all voted ~~who~~ wished. The Clerk will take the Record. On this question the ~~Bill's~~ 98 'ayes', 2 'nays', the Bill having received the Constitutional Majority is hereby declared passed. 967... out of the ~~Record~~. 968."

O'Brien: "~~Pass~~ Bill 968, Mahar. A Bill for an Act to amend the Military ~~and~~ Naval Codes for the State of Illinois. Third Reading of the ~~Bill~~."

Speaker Red~~mond~~: "Representative Mahar."

Mahar: "~~Thank~~ you, Mr. Speaker, Ladies and Gentlemen of the House. ~~With~~ leave of the House I would like to have 968 and 969 heard ~~together~~."

Speaker Red~~mond~~: "Any objection? Will you read 969."

O'Brien: "~~Pass~~ Bill 969. A Bill for an Act to amend the Military and Naval ~~Codes~~ of the State of Illinois. Third Reading of the Bill."

Speaker Red~~mond~~: "Representative Mahar."

Mahar: "~~The~~ ~~Bill's~~...the Bills provide that Commission Officers of the Illinois ~~National~~ National Guard or the Illinois Naval Militia may at their request ~~be~~ be placed on the retired list after 20 years of service which ~~includes~~ includes Federal service or State service. He then can be retired ~~at~~ at the next higher rank.... rank that was held at that time. ~~It's~~ It's an honorary position, it passed out of Committee without a dis~~sending~~ending vote is not objected to by the Adjutant General Office, it ~~involves~~ involves no expenditure of State Funds and does not involve in any way ~~the~~ the retirement funds of the military. I urge your support."

Speaker Red~~mond~~: "Are you ready for the question? The question is, shall ~~these~~ these Bills pass. Those in favor vote 'aye', opposed vote 'no'. ~~Have~~ Have all voted who wished? Have all voted who wished? The

Clerk will take the Record. On the question there is 112 'ayes', 6 'nos'..... 113 'ayes' , 6 'nos' and the Bill having received the Constitutional Majority is hereby declared passed. 970."

O'Brien: "House Bill 970. A Bill for an Act to amend the Illinois Vehicle Code. Third Reading of the Bill."

Speaker Redmond: "Representative Rigney."

Rigney: "Well, Mr. Speaker. House Bill 970 is a very simple Bill, in fact we did have it on the Consent Calendar until we found one technical flaw in the Bill, we pull it off... we've corrected this. It merely says this, when you have brought a used pickup truck that has someone elses name on it you're going to have to remove that name within 15 days of purchase. My County Sheriff tells me that there are many people now, since they no longer have to put their own name on the truck aren't bothering to take the other one off."

Speaker Redmond: "Ready for the question? The question is, shall this Bill pass. The question is, shall this Bill pass. All those in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there is 118 'ayes', 1 'nay' the Bill having received the Constitutional Majority is hereby declared passed. On the Order of House Bills, Third Reading appears House Bill 688. We recognize Representative Skinner."

Skinner: "How about 888... Mr. Speaker, how about 888."

Speaker Redmond: "888, pardon me."

Skinner: "Ah... the mystery Amendment that I didn't know about on this Bill ah... was one that was brought up by the Reference Bureau to correct another one of their mistakes. I move its adoption."

Speaker Redmond: "Any discussion? Representative McClain..."

Skinner: "Oh, I guess I have to ask you to take... for permission to take it back to Second Readen... Reading."

Speaker Redmond: "Any objection to take it back to Second Reading? Back to Second Reading."

O'Brien: "Amendment Number 1, Skinner. Amends House Bill 888 on page 1, line 1 and 5 and so forth."

Speaker Redmond: "Representative Skinner."

Skinner: "This ah... Bill amends two Sections in the Act and the Title

only says one Section and after you add the second Section the verb has to be plural rather than singular."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 888. All those in favor say 'aye', opposed 'no', the 'ayes' have it. We'll move it back to Third Reading. We are now on the Order of House Bills, Second Reading which appears House 5026, recognize... will you read 2056, its on Second Reading."

O'Brien: "House Bill 2056, McAuliffe. A Bill for an Act making appropriation to the Commission of Saving and Loan Association. Second Reading of the Bill. One, Committee Amendment, amends House Bill 2056 on page 1, line 22 and so forth."

Speaker Redmond: "Representative McAuliffe."

McAuliffe: "Ah... Committee Amendment Number 2, just ah... reduces the appropriation and..."

Speaker Redmond: "One."

O'Brien: "Number 1."

McAuliffe: "Number 1, reduces the appropriation in half from six-million to three-million and I respectfully request the adoption."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 1, to House Bill 2056. All in favor say 'aye', opposed 'no', the 'ayes' have it, the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. We will now return to House Bills, Third Reading. Is Representative Collins here? LaFleur... Representative LaFleur. 980."

O'Brien: "House Bill 980. A Bill for an Act to amend the Revenue Act. Third Reading of the Bill."

Speaker Redmond: "Representative LaFleur."

LaFleur: "Mr. Speaker and Members of the House. 980 is a technical Bill in regards to the assessment of property. The intension of 980 as drafted and still is, that when a person who has unimproved property, improves that property notifies the assessor by certified mail that the property is improved and asks for an assessment, if this is not done then he can only go back and capture one year of back taxes. The second element is part of House Bill 961, which

deals with assessments only... the assessment of improved property when there are additions to it now and assessments are made, the assessments are made in one year and the collection is in the next year. This allows leining process and under this here ah... House Bill 980 that would make it payable in the same year that it is assessed and I would move for the adoption of this Bill."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "Ah... may I direct my question to the sponsor."

Speaker Redmond: "Proceed."

Geo-Karis: "Ah... Mr. Sponsor, if I understand correctly, under your Bill if the owner of unimproved Real Estate notifies the assessor and the assessor does not make an re-assessment within 12 months then he will only have to pay the unimproved tax amount. Is that right?"

LaFleur: "No, it only when unimproved property is improved... and then he asks for a an apprais... an assessment of the improvement. Then if the assessor does not act he can only go back and capture one ah... one year of back taxes."

Geo-Karis: "Well, its ordinarily one year anyway isn't it."

LaFleur: "Oh, no. No there is no limit on back taxes."

Geo-Karis: "Okay, thank you."

Speaker Redmond: "Any further questions? Representative Houlihan, Dan Houlihan."

Houlihan: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise to support, of what I think is a very reasonable and a very balanced Bill which addresses itself to two important points. One to increase the authority of the assessor to assess for ah... a partial assessment in the year of completion of the improvement and the second is to remove the problem that we have with Title Companies ah... because of potential back tax problem without this limitation which he has in the Bill. It's a very fine bill and I urge your support."

Speaker Redmond: "Representative Palmer."

Palmer: "Thank you, Mr. Speaker. Would the sponsor yield for a question?"

Speaker Redmond: "He indicates he will."

Palmer: "If the assessor does not assess the property ah... what, can he be sued then for malfeasance... "

LaFleur: "We're not looking for penalties to an assessor or anything else, we're looking for the equitable thing and that is, when improvements are made to a property to notify the assessor which is the common way now. The only thing that it changes on this is, if the assessor does not act then they can only go back and ah... collect one year back taxes or assess for one year back taxes."

Palmer: "Well, presently they can go back all the way, right?"

LaFleur: "To what...there is..."

Palmer: "One year of the ah... after putting on the improvements."

LaFleur: "There's no limit on it now."

Speaker Redmond: "Ready for the question. The question is, shall this Bill pass. Those in favor vote 'aye', opposed vote 'no'. Have all voted who whised? The Clerk will take the Record. This question there's 114 'ayes', 4 'nay', the Bill having received the Constitutional Majority is hereby declared passed. Representative Houlihan... Dan Houlihan."

Houlihan: "Thank you, Mr. Speaker with leave of the House I now ask leave to table House Bill 961, it has been superseded by the Bill that we have just passed."

Speaker Redmond: "Any objections? Leave granted, 961 is tabled. Is Collins here? 992."

O'Brien: "House Bill 992, Bradley. A Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker Redmond: "Representative Bradley."

Bradley: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. 992 does just as exactly what the synopsis says it does. It simply changes the number of signatures needed on a petition to require a School Board to take a census. Right now it is ah... you can go in with as few as 50 on a petition, if there is some question about how many School Board Members of particular township is entitled to and with 50 signatures you can require them to take a census and this just happened in one of my School Districts that cost the School Board \$22,000 it seems to me that we ought to ah... get the School

Code in conformity in these numbers and it seems that 15,000 seems to be a more suitable figure to ah... 1,500 ah... signatures and I ask for the adoption of House Bill 992."

Speaker Redmond: "Any questions? The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? All voted who wished? The Clerk will take the Record. On this question there are 118 'ayes', no 'nays', the Bill having received the Constitutional Majority is hereby declared passed. 996."

O'Brien: "House Bill 996, Beatty. A Bill for an Act to amend the Chicago Sanitary District Act. Third Reading of the Bill."

Speaker Redmond: "Representative Beatty."

Beatty: "Mr. Speaker, Members of the House. This Bill grants the Chicago Sanitary District the right to issue short term, Bond Anticipation Notes. When this came up before the Committee where it passed 22 to nothing the Treasurer Sanitary District appeared and advised that this would save the Sanitary District much in funds and it gave them a broader way to ah... raise funds after a bond issue had been authorized, between the time that it was authorized and the interim period it would allow them to borrow on notes that ah... whatever it was authorized for the Bonds themselves. I move for ah... favorable vote."

Speaker Redmond: "The question is, shall this Bill pass. Those in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there are 114 'ayes', no 'nays', the Bill having received the Constitutional Majority is hereby declared passed. 3016, we return to the Order of Second Reading now... on House Bill, Second Reading appears 3016."

O'Brien: "House Bill 3016. A Bill for an Act making an appropriation to the Department of Labor. Second Reading of the Bill. No, Committee Amendments."

Speaker Redmond: "Any Amendments from the floor?"

O'Brien: "Amendment Number 2, Polk. Amends House Bill 3016 on page 1, line 8 and so forth."

Speaker Redmond: "Representative Polk."

Polk: "Mr. Chairman, we discussed Amendment at great length I believe

earlier, and I would move for the adoption of Amendment Number 2."

Speaker Redmond: "The gentleman has moved for the adoption of Amendment Number 2, to House Bill 3016. All those in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment is adopted. Any further Amendments?"

O'Brien: "Amendment Number 3, J. Houlihan. Amends House Bill 3016 as amended by deleting Section 3, and so forth."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker and ah... Members of the House. Amend... Ah... Amendment 3, which amends Section 3 of the Act is an attempt to establish a repayment procedure so that these funds might be used ah... by the ah... Department if this happens again so that these funds are repaid. It... what it does is incorporate the language that is already in the Act on somebody who has, either in error or inadvertently recollected additional funds from the Department from... when he was on unemployment and maybe had ah... employment starting at the same time that he collected funds... there's a repayment procedure that they have to follow and if they don't follow that then they can not receive unemployment compensation, if they are employed and then are off of employment and I move for the adoption of Amendment Number 3."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House. I arise to oppose this Amendment, Section 6 of Mr. Polk's Amendment allows the Department to set up a procedure for repayment and this Amendment if while a person is still on unemployment compensation, if the Department hadn't setup a procedure for doing it this would make a person ineligible for receiving any unemployment compensation. We're talking within twenty-six weeks, right now we've extended the time a person as I understand the law, can receive unemployment up to a year and we're trying to get an additional thirteen weeks to be comparable to Detroit, so I would oppose the Amendment."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker ah... Representative Shea, I think that's inaccurate, your discription of the Amendment because ah... it talks

about being repaid six months period after returning to active employment, its not a six months period after receiving the loan."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Would the sponsor yield? Does your Amendment taking out Section 3, ah... Representative Polk's Amendment, is that what your saying."

Houlihan: "Ah... that's correct."

Tuerk: "Thank you."

Speaker Redmond: "Representative Washington."

Washington: "Ah... we don't have Amendment 3 or 4, I have 2, 5 and 6."

Speaker Redmond: "Have Amendments 3 or 4 been distributed? Emery... Representative Tipsword."

Tipsword: "Mr. Speaker, ah... I know back in this area the only Amendments that have been distributed to everybody is 2, and a few of us have 6 and that's the only ones that are back here."

Speaker Redmond: "Representative Polk."

Polk: "In my area it's the same way ah... Mr. Speaker. I've got the ah... I've got 2 and 5 and 6, but we have not received 3 and 4."

Speaker Redmond: "Representative Shea."

Shea: "Well, Mr. Speaker I'm a little confussed here. Two hours ago we called this, the people were supposed to get Amendments on the desks. Mr. McClain's Amendments have been distributed and I don't know where 3 and 4 are, or why they are not distributed but I would sure like to find out why."

Speaker Redmond: "I have been advised that they are on the 4th floor and they are in transit. We will be at ease for a matter of a minute."

Speaker Redmond: "Representative Shea."

Shea: "I think all the Amendments are now on the Members desks."

Speaker Redmond: "Representative Houlihan. Have we read Amendment 3, Repre....ah... Mr. Clerk?"

O'Brien: "Amendment Number 3, J. Houlihan. Amends House Bill 3016 as amended by deleting Section 3 and so forth."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker, I move for... I think we have explained the Amendment and I move for the adoption of Amendment Number 3."

Speaker Redmond: "Ready to proceed with the vote. The gentleman has moved for the adoption of Amendment Number 3, to House Bill 3016. Those in favor of the adoption say 'aye', opposed 'no'... The 'nos' have it and the Amendment is lost: Amendment Number 4."

O'Brien: "Amendment Number 4, J. Houlihan. Amends House Bill 3016 as amended by deleting Section 6, and so forth."

Speaker Redmond: "Representative Houlihan."

Houlihan: "Ah... Mr. Speaker and Members of the General Assembly. Amendment Number 4, tries to implement some of the findings that we found of the joint House and Senate legislative Commission to look into the problems with the Bureau of Unemployment Securities and the Bureau of Unemployment Compensation. One of the things that we found was that there was a great delay with the unemployment checks and generally it was because ah... two reasons really, one because of the computer ah... the computer has really been bandaged together and needs a complete re-working which I think Amendment Number 6, addresses itself to. But the second aspect of the problem was ah... staffing problem, there weren't enough people to do the job when there was this crunch of unemployment, while at the same time there were many people in the ah... office of employment securities which is the arm of the Department which is to find jobs for people who are unemployed, who in fact were not able to find jobs because there weren't any jobs around. Ah... this Amendment would direct the Department of Labor to seek the Administrative cooperation of the Bur... Bureau of Employment Securities to do any technical administering of this loan program so we would not put added paper work on the Bureau of Unemployment Compensation and possibly further delay checks and further complicate the problem of getting the checks out to ah... the people who are unemployed. And, I would move for the adoption of Amendment Number 4."

Speaker Redmond: "Representative Shea."

Shea: "Mr. Speaker, Ladies and Gentlemen of the House. I'd oppose this Amendment, as I understand it the Bureau of Unemployment Security is part of the Department of Labor... the money goes to the Department and I'm sure that the director of the Department can have anybody within

GENERAL ASSEMBLY

STATE OF ILLINOIS
HOUSE OF REPRESENTATIVES

1149 1/2

that Department he wants to help administer these funds and I don't think that we should tie it down to one particular agency by this legislation, therefore I oppose the Amendment."

Speaker Redmond: "Representative Washington."

Washington: "Will the sponsor yield to the Amendment... I mean to a question?"

Speaker Redmond: "He indicates he will."

Washington: "Ah... am I correct now, the Unemployment Compensation Division Mr. Houlihan, is a sub-division of the Bureau of Employment Security, is that correct?"

Houlihan: "Ah... no, Harold as I understand it, the Bureau of Employment Security and the Bureau of Unemployment Compensation are two separate sub-division within the Department of Labor."

Washington: "I see. Thank you."

Speaker Redmond: "Representative Geo-Karis."

Geo-Karis: "I simply want to say Mr. Speaker, I fully agree with the Majority Leader, I oppose this Amendment."

Speaker Redmond: "Representative Hanahan."

Hanahan: "In many cases, Mr. Speaker and Members of the House. Un... the Employment Security offices aren't even within miles of Unemployment Compensation offices, its a bad move for people who are unemployed to get this loan and I oppose the Amendment."

Speaker Redmond: "Any further questions? Representative Houlihan, to close."

Houlihan: "Well, Mr. Speaker and Members of the House. In reference to the previous speakers ah... comment that the office are not back in the same building, I'm aware of that but what this would allow, it will allow some the people... some of personel from the Bureau of Employment Securities to be put into the Unemployment Compensation offices to administer this program and therefore we would not be over burdening those offices of Unemployment Compensation, which are if you will go to your offices.... extremely over worked. One of the great problems, one of the delays in getting the checks has been the fact that because of the crunch of unemployment these offices have not been able to handle the load efficiently and I would suggest that we

adopt Amendment Number 4."

Speaker Redmond: "Representative Calvo."

Calvo: "Well, Mr. Speaker, Ladies and Gentlemen of the House. I've been very concerned with this problem for a long time and I have talked to the gentleman in Chicago at the Bureau of Unemployment Security and they have assured me, well we're going take care of this, don't worry about it we're going to take care of it. We're going to get the money to your people, now the fact is they haven't taken care of it and I can't see where they have done a damn thing about it and I urge you to defeat this Amendment and show them that we mean business and get the hell on the ball to pay these people."

Speaker Redmond: "The question... the question is on the adoption of the Amendment. The gentleman has moved the adoption of Amendment Number 4, to House Bill 3016. Those in favor say 'aye', opposed 'no'. The 'nos'.... the 'nays' have it, the Amendment is lost."

O'Brien: "Amendment Number 5, McClain. Amends House Bill 3016 as amended and so forth."

Speaker Redmond: "Representative McClain."

McClain: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Ah... because Representative Polk's Amendment was adopted, I would like to table Amendment Number 5... with leave of the House."

Speaker Redmond: "Representative McClain has offered and moved to table Amendment Number 5. All in favor say 'aye', opposed 'no'. The 'ayes' have it, the Amendment is tabled."

O'Brien: "Amendment Number 6, McClain. Amend House Bill 3016 as amended by inserting between Sections 6 and 7 the following, and so forth."

Speaker Redmond: "Representative McClain."

McClain: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Amendment Number 6, to House Bill 3016 ah... appropriates the sum of two-million dollars from the... from the Federal Unemployment Compensation Special Administration Fund ah... to the Department of Labor to administer ah... ah... this Act. And, I move for its adoption."

Speaker Redmond: "Representative Hanahan."

Hanahan: "Mr. Speaker and Members of the House. I support this Amendment

based on a few facts that I think ah... some of us have over looked and that is, that this money first of all will not be coming from General Revenue or from any tax dollars, this money will be coming from a special fund that I find that in reviewing it, that the Director and the Department has failed to utilize... and I say failed to utilize it, its special advantage administrated purposes. This two-million dollars could be used to relieve this great need and I off...I second ah... Representative McClain's effort to help relieve the problems of the unemployed with this Amendment."

Speaker Redmond: "Representative Tuerk."

Tuerk: "Well, Mr. Speaker I... I frankly don't think its wise to adopt this Amendment at this time. It does appropriate a couple of million dollars from a special fund, from which the legislature now appropriates ah... a quarter of a million dollars. Ah... the money not appropriated from this fund reverts back to the Unemployment Trust Fund which is used to pay unemployment comp. in Illinois. This fund is under severe stress at the present time and I don't think that its ah... wise at this point to appropriate two-million dollars additional fund when the ah... special Committee is hard at work attempting to find solutions to all these problems. And, I think what this fund is ah... suppose to do is add some computer equipment and at this time, I think it's premature. I would suggest to the Membership to ah... vote this Amendment down with the hope that ah... within the succeeding weeks that there are some answers to these questions and at the proper time then the proper appropriation can be made for the equipment to take care of some of these needs and I don't think that ah... this Amendment ought to be adopted at this moment."

Speaker Redmond: "Representative Geo-K... pardon me, Geo-Karis."

Geo-Karis: "Mr. Speaker and Ladies and Gentlemen of the House. I don't believe we can vote for this Amendment at all, if you will look at this Amendment on line 2, is says, Amendment Number 5, amends House Bill 3011... well this is..."

Speaker Redmond: "This is Amendment 6, Representative Geo-Karis."

Geo-Karis: "I stand corrected, Mr. Speaker. I am opposing the Amendment

137.

for the same reasons of the prior speaker gave because I'm on that Joint Committee in looking into the Unemployment Office and I think you should give a chance to the Joint Committee to do something about it before you allocate so much money."

Speaker Redmond: "Are you ready for the question? Representative McClain."

McClain: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House.

Ah... this Amendment agreed to by the sponsor Bill and I urge its adoption."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 6, to House Bill 3016. All in favor say 'aye', opposed 'no'. We are unable to determine. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? On this... the Clerk will take the Record. On this question there is 88 'ayes', 21 'nay', the Amendment is adopted. Any further Amendments?"

O'Brien: "No further Amendments."

Speaker Redmond: "Third Reading. Somebody snapped their fingers at me... Representative Duff, do you seek recognition?"

Duff: "Mr. Speaker, I didn't push my button."

Speaker Redmond: "I read your mind."

Duff: "Oh... ah... Mr. Speaker, on Postponed Consideration ah... I have House Bill ah... 74 which Representative Moyer sh... ark that we amend the other day and for purpose of an Amendment, I would like to move it back to Second Reading."

Speaker Redmond: "Gentleman have leave?"

Duff: "Ah... the point was made during debate on the Bill that it should be more clear that the Civil cases witnesses should be paid by the Party ah... instead of ah... by the State and so, Amendment Number 3, ah... changes the Bill to say, in Civil Cases, witnesses shall be paid by the Party who request them to appear unless the Court provides otherwise. I move the adoption of Amendment Number 3."

Speaker Redmond: "Representative Madigan... Have you read the Amendment, we're on House Bill 74."

O'Brien: "Amendment Number 3, on House Bill... amends House Bill 74 as amended in Section 47 and sub-section 'a' and so forth."

Speaker Redmond: "Representative Duff."

Duff: "Well, again this is a response to a request that was made in debate to clarify the fact that in Civil Cases the witnesses shall be paid by the Party who request them to appear unless the Court provides otherwise. I move the adoption of the Amendment."

Speaker Redmond: "The gentleman has moved the adoption of Amendment Number 3, to House Bill 74. All in favor say 'aye', opposed 'no'. The Amendment is adopted. To Postponed Consideration. On House Bills, Third Reading appears House Bill 2998, Representative Houlihan is recognized."

Houlihan: "Ah... Mr. Speaker, House Bill 2998 makes the deficiency appropriation to the Department of Registration and Education and also makes transfers. Ah... this is necessary... the Department will not be able to hold hearings... will not... and not necessary for personal services and it is an urgent thing that must get over to the Senate and I move its adoption."

Speaker Redmond: "Have you discussed this with the Minority Leader."

Houlihan: "I've...."

Speaker Redmond: "Yes he has and so have I."

Houlihan: "I would ask for a favorable roll call."

Speaker Redmond: "Would you read the Bill."

O'Brien: "House Bill 2998. A Bill for an Act to amend an Act to provide for the ordinary and contingent expenses of the Department of Registration and Education. Third Reading of the Bill."

Speaker Redmond: "Now you have heard the explanation. The question is, shall this Bill pass. All in favor vote 'aye', opposed vote 'no'. Have all voted who wished? The Clerk will take the Record. On this question there's... Representative Capuzi, 'aye'. This question there is 101 'ayes', 1 'nay'... Representative Walsh."

Walsh: "Just like to make a point, Mr. Speaker that you went out of order in going back to Third Reading. You did not consult anyone ah... ah... this is what we've been complaining about ah... all most every day."

Speaker Redmond: "I was advised that there was an agreement at the beginning of the Session today that it would be all right to go out of order and that's why I did it."

Walsh: "An agreement with whom? The Minority Leader was at the ah..."

Speaker Redmond: "I was advised that it had been cleared of course at that time I think the only member of the leadership to the Minority side was Representative Duff and it may amend with him. I think that Representative Walsh, wasn't on the floor."

Walsh: "He got here shortly there after... let's be fair, Mr. Speaker."

Speaker Redmond: "Representative Duff."

Duff: "Mr. Speaker and Assistant Minority Leader, ah... when we got here tonight there were and I don't want to get into numbers, but there weren't very many people here and for an half an hour there was a lot of business that could be moved and we agreed to move it and we all worked hard on both sides to pay attention it and we did agree with the Speaker that there would be no objections to getting some work done. Now whether that applies to the later end of the evening or not, I can't say because the Minority Leader is here."

Speaker Redmond: "The Chair is magnanimous and except Representative Walsh's apology. Is there any.... This Bill having received the Constitutional Majority is hereby declared passed. Ah... 10:15 in the morning. Any announcements? Representative Lechowicz."

Lechowicz: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. For the purpose of an announcement, Appropriation I will be meeting at 8 o'clock tomorrow morning in room 114. And Appropriation II will also be meeting at 8 o'clock in the morning in 118. Thank you."

Speaker Redmond: "Any further announcements? Representative Madigan."

Madigan: "I move that we adjourn until 10:15 tomorrow morning."

Speaker Redmond: "The gentleman has moved that we adjourn until 10:15 tomorrow. Representative Ryan."

Ryan: "Mr. Speaker ah... Representative Barnes... we do have an Appropriation II meeting tomorrow morning, don't we... 8:30... 8 A.M.... 8 A.M."

Speaker Redmond: "Motion carried."
