

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

April 15, 1983

Speaker Madigan: "The House will come to order. The House will come to order. The Members shall be in their chairs. We shall be led in prayer today by the Reverend Don Glenn. Could I have your attention, Representative Friedrich? Representative Friedrich, could I have your attention? Mr. Capparelli? Thank you. We shall be led in prayer today by the Reverend Don Glenn, the Pastor of the Wesleyan Church of Broadview. Reverend Glenn is a guest of Representative Judy Baar Topinka. Will the guests in the gallery please rise and join us in the invocation?"

Reverend Glenn: "The late Peter Marshall, who served the United States Senate as Chaplain, once said, 'If God exists at all, then He is the most important of all that does exist'. In the spirit of that truth, let us pray. O God, we pray that this day, all our motivation and activity shall be in harmony with Your own character. God of mercy, make us compassionate. God of righteousness, may we always be equitable. God of holiness, cause us to be aware of Your nearness. God of justice, give us the sense of our own accountability. God of love, grant us the courage of self-sacrifice. In our weakness, we ask Your help. Where we lack knowledge, we seek Your wisdom. In our human limitations, assist us from Your own limitlessness. And because, as the Psalmist testified in Your presence as fullness of joy, make this Assembly a joyful gathering, resulting from Your presence to sanctify it. We offer our prayer in the name of Your son, our Savior, Jesus Christ the Lord. Amen."

Speaker Madigan: "...Be led in the Pledge of Allegiance by Representative Ropp."

Ropp et al: "I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one

Speaker Madigan: "For what purpose does Mr. Tate seek recognition?"

to do with that Bill. After talking with former Majority Leader Clyde Choate and several other higher officials...in higher education, I would like to...I have agreed to table that Bill, because I am convinced that they have seen the need for reviewing spending and educational priorities in this state. So, I would ask leave at this time to table House Bill 672."

Speaker Madigan: "Mr. Tate, I didn't follow your Motion, but when I recognized you, we were in Perfunctory Session. So at this time, we will move from Perfunctory Session to Regular Session, and in the Regular Session, Mr. Tate moves to table..."

Tate: "House Bill 672."

Speaker Madigan: "...House Bill 672, and I presume you're the principal Sponsor of the Bill. Is there leave for the Gentleman's Motion to table? Leave is granted. The Bill is tabled. For what purpose does Mr. Wolf seek recognition?"

Wolf: "Mr. Speaker, while we're on that Order of Business, I'd request leave of the House to table House Bill 1499. I am the principal Sponsor."

Speaker Madigan: "The Gentleman requests leave to table House Bill 1499. He indicates that he is the principal Sponsor. Is there leave? Leave is granted. The Bill is tabled. For what purpose does Mr. DiPrima seek recognition?"

Representative Topinka happens to be a graduate of Hauser, and I don't think that any Member on the floor ought to let that be a negative reflection on Hauser Junior High School. Would you folks please rise so that we can recognize you?"

Speaker Madigan: "Mr. Leverenz."

Leverenz: "Thank you, Mr. Speaker. I would ask leave to table House Bill 832 of which I am principal Sponsor."

Speaker Madigan: "The Gentleman requests leave to table House Bill 832. He indicates that he is the principal Sponsor. Is there leave? Leave is granted. The Bill is tabled. Mr. Vinson."

Vinson: "Mr. Speaker, on a slightly more serious note. Several of our Members have expressed serious concern in regard to the proposed new schedule of the House Judiciary Committee. I understand that the Chairman announced that the Committee would begin meeting during time slots assigned to other Committees. And as you know when you sent out that form earlier in the spring, we carefully worked on Member assignments to Committees to try to avoid duplications. Now I understand the workload that that Committee has to deal with. It is probably the worst workload in the House. But it would seem to me that rather than meet at times when - for instance, Representative Topinka, a Member of the Judiciary Committee, has to serve as Spokesman of the Human Services Committee - that the Judiciary Committee might conduct its additional time in the evening, for instance, and be able to dispatch with this workload then, rather than to create conflicts for Members in that fashion."

Speaker Madigan: "Mr. Vinson, I was told that the Committee felt that it could move along very nicely with the consideration

Topinka: "Yes, Mr. Speaker, just to make a...a slight correction in that. It's the House Energy, Environment and Natural Resources Committee that meets at that time, normally, on Wednesday afternoons, and it will be in direct conflict to any future Judiciary load. So, it would be rather difficult hitting two Committees at the same time."

Speaker Madigan: "Thank you, Representative. On the Calendar on page four of the Calendar on the Order of House Bills Second Reading Short Debate Calendar, there appears House Bill 84. Representative Braun, do you wish to call your Bill? It's on the Order of Second Reading, House Bill 84. Mr. Clerk, read the Bill."

Alexander: "Representative Piel, this is not a new program. It has been funded priorly by this General Assembly. At the present time, however, there is a no line item with regards to this subject matter. The cost of this package - there are some variations regarding the cost. I do have the figures from the Chicago Police Department, who will be in conjunction with the Department of Law Enforcement that gives me figures from Chicago for 1982, that they spent \$26,000. And in 1983, the year we're talking about, they are projecting that \$24,000 might have to be allotted, that the cost per kit is \$5.25. As to the fiscal note filed by the Department of Law Enforcement, they have given me a rough estimate of \$61,000 for this program. However, in prior years when this Bill has been funded by private organizations and by this General Assembly, the cost factor was somewhere in the range of \$10 to \$12,000 yearly."

Piel: "Fine. Thank you very much."

The Amendment was put on in Committee at the request of the Department of Children and Family Services. It was done in a very hurried way. I wanted to be as accommodating as possible. However, the Amendment...I've left the Bill on Second Reading for a couple of weeks to give the Statewide Advisory Committee on Day Care an opportunity to review the Amendment. The Statewide Advisory Committee is a Committee that is...serves the Department. And these are...Committee consists of laymembers who volunteer their time to the Department, to review policies of the Department and make recommendations regarding day care services in the state. Anyway, they've reviewed the Amendment, and they have several objections to it, and they have recommended that the Amendment either...be tabled, and they will be working with the Department to come up with other language later on. Keane: "Thank you, Mr. Speaker. House Bill 499 is an Audit Commission recommendation. What the Bill does...at the present time, we re...we do the audits for the subsidized carriers of the RTA, which are the small subsidized suburban carriers. We have...the state has been paying for that audit. What we recommend is that the RTA be obliged to pay for that audit, and I would ask for...I'd be happy to answer any questions, and I would ask for a favorable Roll Call."

Speaker McPike: "The Gentleman has moved for the passage of House Bill 499. On that question, the Gentleman from Champaign, Representative Johnson."

Johnson: "I just...because of some of the noise in here,

Representative, I didn't hear a full explanation of what this Bill does."

Keane: "Alright, we, the State of Illinois through the Auditor General's Office, pay for two audits of the RTA. One is the RTA audit itself, the audit the Auditor General goes in and has of the RTA itself, and we also go and we audit all of the little carries in the suburb...in the suburban area, like the West Town bus, various other things. We pay for that now. What we're saying is that that is really an obligation of the RTA. It should come out of RTA funds, and we're talking about \$3,000,000...or \$300,000 a year that we're spending, and we want to quit spending that money and make them do it."

Johnson: "I appreciate the explanation, and I fully support the Bill."

Keane: "Thank you."

Speaker McPike: "The Lady from Cook, Representative Pullen, on the Bill."

Pullen: "I'd like to ask the Sponsor a question or two."

Speaker McPike: "The Gentleman indicates he will yield."

Pullen: "You said that you wanted to delete the state having to pay for these audits of the various carriers and make the RTA do it instead. Is there anything in this Bill or in any other law that does make the RTA do that?"

Keane: "Yes. They are responsible to provide an audit. In fact, my own personal feeling is that we should not have the Auditor General even audit the RTA, because that costs us approximately \$400,000 a year. They, under their charter, are responsible for doing an audit. So what they do is they don't do an audit. They use our audit as the one that's mandated that they should do."

Pullen: "But they are required to audit the individual carriers?"

Keane: "That's correct."

Pullen: "Are they required to file that audit anywhere?"

Keane: "No, it's in their records, and if we need them, we could get them. We have found - I think I can speak for the Auditor General - we have found that in these audits there has been very, very few exceptions and very few problems with the suburban transit lines."

Pullen: "But there's no requirement that the RTA publish the audit that they are supposedly required to make."

Keane: "No, but they are available to the Auditor General through the RTA."

Pullen: "Is there anything in the law that requires them to make that available?"

Keane: "Yes, there is."

Pullen: "Thank you."

Speaker McPike: "Remind the House that we are on the Order of Third Reading Short Debate. The Gentleman from Cook, Representative Doyle."

Doyle: "...The Sponsor a question."

Speaker McPike: "The Gentleman indicates he will yield."

Doyle: "It said...the Bill says that it will save money in audits of the RTA and CTA only when necessary. When is necessary?"

Keane: "When the Audit Commission determines."

Doyle: "The Audit Commission will do the determining."

Keane: "That's right."

Doyle: "Thank you."

House. The Amendment I proposed to apply to this Bill is Senate Bill 405, that we heard in the Appropriations Committee this morning. It would add 107,000 dollars. It is federal funds that would lapse and go back to the Federal Government, if we would not use them in the manner proposed. It's 5,000 for equipment, 91,000 dollars for EDP, 10,900 for telecommunications. A hundred and seven thousand dollars goes to the Criminal Justice Information Authority, what is left over of ILEC from last year. I would move for the adoption of the Amendment."

Speaker McPike: "Gentleman moves for the adoption of Amendment #1. Is there any discussion? Being no discussion, the question is, 'Shall Amendment #1 be adopted?'. All those in favor signify by saying 'aye', opposed 'no'. The 'ayes' have it, and the Amendment's adopted. Any further Amendments?"

has asked leave. Are there any objections? Hearing no objections, leave is granted. Representative Reilly on Senate Joint Resolution 22."

Reilly: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Senate Joint Resolution 22 is consistent with the action which I hope and believe we are about to take on Senate Bill 177, in that it puts us firmly on record, together with the Senate which has already passed this, as indicating that while, because of the Federal Internal Revenue Code and provisions of it, while we cannot take back the contribution already put into the General Assembly and Judicial Retirement Systems for this fiscal year, puts us firmly on record that we will do that the first time we can, which is in the appropriation Bill which we will be considering soon for next fiscal year. It seems to me that that's appropriate that we treat ourselves equally with everyone and; therefore, I would move adoption of Senate Joint Resolution 22."

Speaker McPike: "Does the Gentleman have leave to use the Attendance Roll Call for immediate consideration of Senate Joint Resolution 22? Hearing no objections, the Roll Call will be used. The Gentleman has moved for the adoption of Senate Joint Resolution 22. On that Motion, is there any discussion? Gentleman has moved for the adoption of Senate Joint Resolution 22. Clerk O'Brien: "House Bill 177, a Bill for an Act making an appropriation for the ordinary and contingent expense of the Department of Public Aid. Third Reading of the Bill."

Speaker McPike: "Gentleman from Morgan, Representative Reilly, on the Bill."

Reilly: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. This is only the first of a series of tough questions that we're going to face in the General Assembly this year, for those of you who find this tough, as I certainly do. My only consolation is that much tougher things are coming if we're going to survive this year and not bankrupt the state and get through next year with some semblance of order. We have made cuts in every single area of state spending. All this does, again I reiterate, is cut back the amount we will contribute. We will still contribute. The pension fund will still take in almost 500 million dollars more this year than it will pay out. The fund is in good shape. In a good year, I would never think of recommending this, but given all the other cuts we've made, given the alternatives which none of us want to face, I would urge adoption of this Bill, which I might remind also deals with the Public Aid WIN Program which we need to get going on and deals with Representative McGann's Amendment to add money for community mental health and deals with the transfers and supplemental for the Department of Mental Health. I would urge passage of Senate Bill 177."

Speaker McPike: "The Gentleman has moved for passage of Senate Bill 177. On that question, the Gentleman from Bureau, Representative Mautino."

Mautino: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I spoke in opposition to the original Amendment ... it was presented, and I now stand in opposition to the

Bill, even though it has been amended so that some sweeteners are thrown in. I guess my concern comes in the area of the 3.8 million dollars that's a supplemental under the Department of Mental Health and Developmental Disabilities; and, for the information of the rest of the Members of the House, my concern is very basic. The Department, in asking for this supplemental, I believe, has carried off probably the largest miscarriage of justice as it pertains to laying people off, direct-care people, in the area of mental health and developmental disabilities. What they've done is they've laid off and fired all of the diet... dietary people and closed the kitchen, and now they're asking for money for contractual services to contract food into that facility. They have, as well, eliminated and fired the maintenance employees thinking that the Department of Corrections would pick up that appropriation. They did not do that. So, now they're asking for additional funds to contract out for maintenance at that facility. They have a total mismanagement provision under that conversion program that is supposedly ongoing at the Dixon Developmental Center - a total boondoggle. Those that are responsible, in my estimation, should not have the authority to come into this General Assembly and say, 'Give us 3.8 million dollars'. And that facility is in my district. It is so mismanaged within that Department that contractual service line items for employees have been increased, while as well the direct-care employees for those clients that need the help have been decreased. There are no beds in many of the other facilities for the transfer ability, no viable program, as we know it, that was started approximately 15 years ago for those that cannot help themselves. Although I disagree with the provisions to cut the state's

allocation to the pension program, it is secondary to the mental health issue, I believe. As a person who has tried to address the financial question as it pertains to pensions, I'd like to point out that any accountant will tell you that whenever the formula for provisions for two annuitants are 51% or less, you've got a very large problem, a problem that within 60 to 90 days will probably occur to less than 51% of actual funding, which means that the system will probably be broke. This is a short, band-aid proposal for gross mismanagement by the Department of Mental Health and Developmental Disabilities, Governor Thompson and the administration, which includes as well, Mr. Ryan, who I am hopeful is a part of the administration. But I believe, most importantly, there should be an in depth look at the rationale for a supplemental appropriation and the ridiculous posture of taking money from pension annuitants that we have promised them and reduced it by 19%. It's no better today than it was two days ago. I still vote 'no'."

Speaker McPike: "Gentleman from Cook, Representative Bowman."

Bowman: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I reluctantly rise in support of this legislation - I say, reluctantly. I hope we would be able to resolve our fiscal crisis by this time, and I think we have, unfortunately, postponed the fiscal crisis. There have been a number of steps that have been taken to postpone it. There is no question that we have one. It's only a question of when we deal with it, but let me tell you, Ladies and Gentlemen of the House, if this Bill is defeated, we will have a full-blown fiscal crisis on our hands of monumental proportions right at the moment of the General Assembly's schedule when we're least able to deal with it, at a time when Committee workloads and the

STATE OF ILLINOIS

workload on the floor will be at their peak. And so, I think that we need to expedite the work of the House. I think we need to consider, very thoughtfully and carefully, a long-term solution to our fiscal problem, and I think that a thoughtful, careful process will be ill-served if we were to defeat this Bill. So, I think it is necessary to pass the legislation. I would point out to those people who are concerned about the pensioners - and I am concerned as well - they do have a constitutional protection of their benefits. So, their benefits are not jeopardized. What we are doing here is... is simply, you know, rearranging the... the... the problem, shifting the time in which we have to make critical decisions, and part of the long-term fiscal solution, I think, must be adequate pension funding. And I'm prepared to support that in the long term, but again, this is a short-term solution. And we must get through the next couple of months, or we will not be able to survive or avoid bankruptcy. Lastly, I would point out to, especially to my colleagues on this side of the aisle who have been so supportive of Representative McGann, I'd just like to remind everybody that while there is an increased appropriation in the... the Bill for funding for state mental health facilities, Representative McGann offered an Amendment which was accepted by Representative Reilly, the Sponsor of the Bill, that would provide an equal increase for community funding. And I think all of us have a deep commitment to community mental health facilities and programs and that we have treated both of the institutions and the facilities evenhandedly through Representative McGann's Amendment. And so, I think that for those of you who are concerned about the Governor's impoundment of monies for community mental health programs, that you really ought to vote for this Bill, because this

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

provides an additional 4 million dollars for community mental health programs. That's money that they very dearly need, and I'm sure that everyone here can... can understand that. So, I simply rise and support Representative Reilly in trying to pass this piece of legislation. I hope that we will be... then be able to deal with the long-term problem in a very thoughtful, deliberate manner and reach a true solution which will restore the pension funds and make them whole. Thank you."

Speaker McPike: "The Gentleman from Sangamon, Representative Curran."

Curran: "Mr. Speaker, Ladies and Gentlemen, this is an important vote. Of the several thousand times we're going to have the opportunity to vote in the next couple years, in my opinion, this is one of fifty or so votes that many groups and publications are going to look upon when they analyze our performance here. I offer this caution especially to my fellow Members of the freshman class, on both sides of the aisle, as well as to those of us who are representing so-called marginal districts, and marginal districts can take in a lot of turf when you consider what Bob Blair went through in... it was in 1976 or '78. When you reach over and you push that red button or that green button, you will, if you are a freshman, be writing in indelible ink on the first page of your legislative resume - and whether you're a freshman or not, the ink will be indelible and the resume will have your name on it. Now, obviously, I think it's really clear here that what we're talking about is not Senate Bill 177, but the Amendment of yesterday which attempts to cover up the mistakes of the past several years with one more shell game of sloppy governmental bookkeeping. We've got to be honest with ourselves. What we're talking about is stealing 85 million dollars from

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

teachers and state employee pension funds, and we're talking about stealing this money from these pension funds at a time when teachers and state employees are being asked to make it from year to year with little or no salary increases. We're being told by the Governor that stealing 85 million dollars from the pension funds isn't really stealing, because either: a) The Governor has done this so often before that nobody's going to protest, or b) Because this stealing is just really a way of paying about one-half of what we owe. And we have a precedent for calling that kind of stealing 'underfunding'. It's a nice... nice euphemism. Or see, because these are troubled times and golly, gee-whiz, we'll just make it up to them next year when the economy turns around, and we all live happily ever after. This is a fairy tale. This is the same kind of fairy tale they got mixed up in in Washington when they let the Social Security System hang out, because they refused to face up to the real challenges before them. And they took the easy, politically, convenient way out. As a result, the Social Security System is a disgrace. Now, if you take a look at this from the overview, you'll see what we're being asked to do is to shortchange state employees and shortchange teachers and use the same kind of careless fiscal practices that put the Social Security System in the mess it's in now. We're asked to break our word to ten of thousands of state employees and teachers, constituents in our districts for the temporary, political advantage of somebody who came here last year and asked for the same kind of advantages, the same kind of request. But last year the claim was made that we'd be paying more this year. Senate Bill 177 proves that last year that wasn't true. It's not true now. And because of the broken promises, and because of the almost embarrassingly careless

fiscal posture of this Amendment, I urge the Members to vote your conscience, to vote 'no'. Thank you."

Speaker McPike: "Gentleman from Marion, Representative Friedrich."

Friedrich: "Would the Sponsor yield?"

Speaker McPike: "The Sponsor indicates he will yield."

Friedrich: "Representative Reilly, do you know of any annuitant that ever failed to get the pension check as proposed or as provided for by law?"

Speaker McPike: "Representative Reilly."

Reilly: "No, Representative Friedrich. The... As you know, the benefits are set by law and are paid on that basis. Furthermore, the Constitution that you took part in writing makes that a contractual obligation we can't get out of even if we wanted, which we don't."

Friedrich: "Isn't it a fact that this does not take money out of the fund? It just does not put as much money in as had been originally proposed."

Reilly: "That is correct."

Friedrich: "There is money being put in over and above this."

Reilly: "Two hundred and sixty million dollars."

Friedrich: "And what were the earnings on these pension funds last year in... that went into funds also?"

Reilly: "Each fund... Each fund was slightly different; but, for example, I believe it was the Teachers' Fund that gained 33 1/3, a full third in value just since December 1st because of the high rate of return they've been able to produce this year."

Friedrich: "So, the pension funds are really backed up by the full faith and credit of the State of Illinois."

Reilly: "That's correct."

Speaker McPike: "Gentleman from Cook, Representative Taylor."

Taylor: "Mr. Speaker, I move the previous question."

Speaker McPike: "Gentleman has moved the previous question. The question is, 'Shall the previous question be put?'. All those in favor signify by saying 'aye', opposed 'no'. The 'ayes' have it, and the Motion carries. Previous question is put. Representative Reilly to close."

Reilly: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Enough has been said here. We had one really silly speech about stealing, which I think we all know is really silly. Beyond that, the fact is that we are not only not stealing, we are also not taking, as Representative Friedrich has pointed out and as Representative Bowman has pointed out. We are simply reluctantly taking a step to curtail spending here, as we have in every other area of the budget. Nobody wants to do this, and nobody wants to vote for a tax increase. Nobody wants to vote for other spending cuts, least of all the groups that are conducting this fight. It's the only choice that we have to go through the rest of this year in some reasonable fashion without bankrupting the State of Illinois. Everybody in their heart of hearts knows that's true, no matter what speech they may give. I, therefore, urge the House to adopt and pass Senate Bill 177."

Speaker McPike: "The question is, 'Shall Senate Bill 177 pass?'. All those in favor signify by voting 'aye', opposed vote 'no'. The Gentleman from Coles to explain his vote, Representative Stuffle."

Stuffle: "Yes, Mr. Speaker and Members, I think Representative Mautino and Curran were right. For Representative Reilly to suggest that opposition is silly is to merely suggest that we should advocate everything we were elected to do, not be responsible on the other hand. I think this is a terrible, terrible Bill. It's worse than borrowing. It's worse than stealing. It's raping a pension system that's

already been raped three times after it's been promised twice before that it wouldn't happen again, and this won't be the last time that it happens. We only seem to be able to find one spot to get the money. And somehow we're suppose to vote for the Bill now, because we've done one laudatory thing, which is right for Representative McGann. That is true, but everything else in the Bill smells just as bad today as it did three days ago."

Speaker McPike: "Gentleman from McLean, Representative Ropp."

Ropp: "Thank you, Mr. Speaker and Members of the House. I ... interested at some of the comments that some of the people mention here. I think we're actually also elected here to show some leadership, in terms of how we spend our money, in terms of how we actually go out and get it, and I don't see anyone, at this point, who's excited about generating new monies. If this Bill isn't passed, we're going to start next year with a heck of a lot less than we will be starting with. It's not stealing from anybody. We have already contributed something like 260 million dollars into the Retirement Pension Fund. I think, if all of our own pocketbooks showed as much growth as this current pension fund with the legislation that we passed last year, we'd all be happier. This is an important piece of legislation that needs passing so that we, in fact, can stay that the state is in the black. It's needed. It's time to show your leadership in a fiscal way, and a green vote is certainly urgently needed."

Speaker McPike: "One minute to explain your vote, the Gentleman from Cook, Representative Bullock."

Bullock: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Once again, I guess earlier in the Session we find that we're all served up a nice menu. We're all served up a placebo once again, and we're told that we're to take it

and like it. I certainly am sympathetic to the problems of poor people, but I'm equally sympathetic to the problems of the aged and pensioners. They do not want us to expose them to unnecessary risk. They don't want us to provide to them a hopeless pipe dream, and I think we're going an awful long way in that direction when we start spending the pensioners' money. I can't support it, and I certainly, at this time, will cast a 'no' vote."

Speaker McPike: "Gentleman from DuPage, Representative Hoffman, to explain your vote."

Hoffman: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise today to explain my 'aye' vote. This is not a choice between what is good and what is bad. It's a choice between alternatives neither of which are good. And in my judgement, in terms of the... the options and the alternatives that we have available to us this time, that given the givings, for all practical purposes, we have nowhere to go but to support this proposal. As a member of one of the systems which is directly effected by this, I fear not. No benefits have been reduced nor will they, and I would encourage an 'aye' vote."

Speaker McPike: "Gentleman from Cook, Representative Terzich, to explain your vote."

Terzich: "Yes, Mr. Speaker, Ladies and Gentlemen of the House, to say that this is not raping the pension system is just as funny as a statement that could be made anywhere today; that over the last three years we've come to the tune of close to 600 million dollars that has been shortchanging the pension system, and that's just the State Pension System. And to come up and say that it doesn't affect at their meeting pay outs, there's not pay outs being met. If the State Board of Investments lost 600 million dollars, Jesus Christ would come down here and strike them with a

bolt of lightening, let alone the General Assembly. So don't say it's short - the fact that you're shortchanging the pension systems by 600 million dollars doesn't mean anything. Our pensioners are concerned about their benefits. They're concerned about their fund, and they're concerned about the performance. The mere fact that the system went and had a good year on their investments doesn't mean it belongs to the state. It also belongs to the pensioners, and we should also... We should reduce their contribution in the same manner that the state is reducing their contribution into the pension system. And if the state wants to assume the responsibility, then let them pick up all the cost, but don't say... At least you could say thank you to the pensioners to help finance State Government. That's the least you can do, Representative Reilly. And I vote 'no'."

Speaker McPike: "Have all voted who wish? Have all voted who wish? Clerk will take the record. On this Bill there are 61 'ayes', 47 'nos', none voting 'present', and Senate Bill 177, having received the Constitutional Majority, is hereby declared passed. Gentleman from Cook, Representative Bowman, for what purpose do you rise?"

Bowman: "Thank you, Mr. Speaker. I have a couple of Fiscal Year 1983 transfer and supplemental Bills which are also of an emergency nature, and I have some Motions with respect to those Bills. I'd like to move them along today. Are you prepared to take them at this time?"

Speaker McPike: "Have you checked this with the Minority Leader?"

Bowman: "Yes. Well, I've checked them with the Minority Spokesman on the Committee, Representative Reilly."

Speaker McPike: "Fine. Proceed."

Bowman: "Thank you. At this time, I would like to move to discharge the relevant Committees to bring to the floor

Speaker McPike: "Gentleman from Champaign, Representative Johnson."

Johnson: "Representative Bowman, why do you want to have a special rule for your Bills? Why can't they go through the Committee process like every other Bill?"

Bowman: "Representative Johnson, these aren't my Bills. My Committee is the one that is being bypassed as a result of this Motion."

Johnson: "Oh. Okay."

Bowman: "We had discussions in the session today. Representative Reilly is the Sponsor of one of the Bills, Representative Younge of the other Bill."

Johnson: "Alright."

Speaker McPike: "Gentleman from Morgan, Representative Reilly."

Reilly: "I just want to clarify it, because I wasn't listening. You've made the Motion for both... bot the the Public Aid supplement... Public Aid transfer and for the other Bill."

Bowman: "Yes, for the East St. Louis Community College supplemental."

Reilly: "And then it's my understanding, to take the dialogue one more step, that we're going to amend the ... 1296 if this Motion is successful."

Bowman: "Yes, that's right. For the benefit of the Membership, House Bill 1296 is Representative... sponsored by Representative Reilly, and there is an additional Amendment that is needed. Speaker McPike: "The Gentleman asks leave to use the Attendance Roll Call to discharge House Bill 1296 from Appropriations II and Senate Bill 104 from the Committee on Assignments. Is there leave granted? Hearing no objections, leave is granted. The Attendance Roll Call will be used."

Bowman: "I have one more Motion."

Speaker McPike: "Representative Bowman on the Motion."

Bowman: "Okay. Now I move to suspend Rule 77(c) to advance these Bills to the Order of Second Reading, Second Legislative Day so we may take up Representative Reilly's Amendment at this time."

Speaker McPike: "The Gentleman asks leave to use the Attendance Roll Call to advance House Bill 1296 to the Order of Second Reading, Second Legislative Day and Senate Bill 104 to the Order of Second Reading, Second Legislative Day. Are there any objections? Hearing no objections, the Attendance Roll Call will be used. The Motion carries."

Bowman: "Now I believe Representative Reilly has an Amendment to offer."

Speaker McPike: "On the Order of House Bills Second Reading, House Bill 1296. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 1296, a Bill for an Act to amend Sections of an Act making an appropriation to the ordinary and contingent expense of the Department of Public Aid. Second Reading of the Bill. No Committee Amendments."

Speaker McPike: "Any Floor Amendments?"

Clerk O'Brien: "Floor Amendment #1, Reilly, amends House Bill 1296."

Speaker McPike: "Representative Reilly on Amendment #1."

Reilly: "Thank you, Mr. Speaker. Amendment #1 increases the general assistance by an additional 4 million, which simply reflects the caseload. It's no new... no new benefits or anything, but to reflect the caseload. It reduces some

medical lines in money that wouldn't be spent anyway because of the caseload in those particular areas. I would move adoption of Amendment #1 to House Bill 1296."

Speaker McPike: "Gentleman moves for the adoption of Amendment #1. Is there any discussion? There being no discussion, the question is, 'Shall Amendment #1 be adopted?'. All those in favor signify by saying 'aye', opposed 'no'. The 'ayes' have it. The Amendment's adopted. Any further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. On the Order of Senate Bills Second Reading, appears Senate Bill 104. Read the Bill, Mr. Clerk."

Clerk O'Brien: "Senate Bill 104, a Bill for an Act to amend Sections of an Act making appropriations to the Illinois Community College Board and the Board of Trustees of the State Community College of East St. Louis. Second Reading of the Bill. No Committee Amendments."

Speaker McPike: "Any Floor Amendments?"

Clerk O'Brien: "None."

Speaker McPike: "Third Reading. On the Calendar, on page seven, House Bills Third Reading. Representative Capparelli in the Chair."

Speaker Capparelli: "House Bill 56, Representative Bowman. Clerk, read the Bill."

Clerk O'Brien: "House Bill 56..."

Speaker Capparelli: "Out of the record. Alright. House Bill 82, Mulcahey. Out of the record. House Bill 85, Representative Steczo. Representative Steczo in the chamber? Out of the record. House Bill 187, Representative Currie. House Bill 203, Olson. Out of the record. House Bill 266, Nelson. Mr. Clerk, read the Bill, please."

Clerk O'Brien: "House Bill 266, a Bill for an Act to amend Sections of the Environmental Protection Act. Third Reading of the Bill."

Speaker Capparelli: "Representative Nelson."

Nelson: "Thank you, Mr. Speaker, Members of the House. House Bill 266 has to do with the protection of property values. What it does is amend the Environmental Protection Act to prohibit the emission of odors from any regional pollution control facility in quantities sufficient to be detected by persons of normal sensitivity for a continuous period equal to or exceeding two hours, which would interfere with a per... such person's enjoyment of life or property. The second point I'd like to make is that it only refers to facilities that are in areas zoned primarily for residential use; and, thirdly, that this is not a radical change in the law. Under present law, odor is defined as a contaminant; and, under present law, it is illegal to discharge a contaminant into the air. I'd be glad to answer any questions that you have about House Bill 266."

Speaker Capparelli: "Is there any discussion? Representative Leverenz."

Leverenz: "Thank you, Mr. Speaker, to the Bill. House Bill 266 is a Bill that sounds good. Somedays it doesn't even smell good. I have discussed the Bill with constituents of mine and people in the adjacent Legislative District, specifically, people that are interested in curing the problem of the Hillside landfill. The fact is, House Bill 266 could effectively shut down every landfill in the state. The people in Hillside - understand that they have no desire to have an impact on the entire state - simply ask that they get some relief for their problem in Hillside for them, for me. If you cannot vote 'no', vote 'present'."

Speaker Capparelli: "Representative Cullerton."

Cullerton: "Will the Sponsor yield? Yes, as I understand it, the Environmental... Illinois Environmental Protection Act right now defines odor as... is considered to be an air contaminant."

Nelson: "That is correct. I said that in my opening statement."

Cullerton: "And the Pollution Control Board has adopted regulations covering those standards. Now, how would..."

Nelson: "That's right."

Cullerton: "... those standards that the Pollution Control Board has adopted. How would they compare with your broad definition as indicated in Amendment #1? You... You define..."

Nelson: "Under present law, the Pollution Control Board has the power to adopt or modify or change standards. They would be able, under my Bill, to do the same thing. I do not think that it's so loosely defined. What it says that, 'emissions of offensive odorous air contaminants'."

Cullerton: "Well, what... what... Could you further define your legislative intent, at least what offensive odorous air contaminants are? I mean, if it smells, you want to shut it down."

Nelson: "It's not quite that simple, Representative Cullerton. In other states, there are restrictions on the emission of odor into the air; and, in those other states, there are regulations that are written so as to define different types of odor and different intensities of odor. Sometimes that judgement is made with an instrument. There is such a thing as a 'sentometer' that can make a determination of the intensity of an odor, and in some states there are persons who are trained observers, so to speak, who make that judgement."

Cullerton: "But your Bill says, 'detectable by persons of normal

sensitivity', and you don't indicate in your Bill what those standards might be. You just say 'offensive'. That's all the Bill says."

Nelson: "That's right."

Cullerton: "So, you want it to be very, very broad so that if it smells, it shuts down."

Nelson: "I do not want to shut down every landfill in the state. What I would like to do is ensure that when a pollution control facility is within an area zoned 'residential', those people who live in that area have their property values protected."

Cullerton: "So, if it... If it smells, a good question is raised. If it smells nice like perfume, then there wouldn't be any problem. There would only be 'offensive'. Right?"

Nelson: "Right."

Cullerton: "By a person of normal sensitivity."

Nelson: "Say you lived next door to a bakery. That doesn't smell bad. It's not going to affect your property values."

Cullerton: "Chocolate factory."

Nelson: "Chocolate factory, whatever."

Cullerton: "Now, of course, would you have to take a vote to determine whether it was sensi... whether it was approved by a person of... whether it was offensive to one and not offensive to another? How would that work? In other words, how is this enforced?"

Nelson: "That's a judgement call, of course."

Cullerton: "Who... who..."

Nelson: "And it is enforced through the rules and regulations that are promulgated by the Pollution Control Board and the Agency, which of course is the Environmental Protection Agency."

Cullerton: "Fine. I have no further questions. Thank you, Mr. Speaker."

Speaker Capparelli: "Representative Ralph Dunn."

Dunn: "Thank you, Mr. Speaker. Sponsor yield for a question?"

Nelson: "Sure."

Dunn: "I've had some calls and some letters from people in my district that say that this would put them out of business as their landfills or their waste disposals out because of odors. Would this affect things like a refinery that refines oil? Is that a foul odor? Is that a good odor? I kind of like the smell of oil or money, but how would you define this?"

Nelson: "Representative Dunn, it does not refer to oil refineries or industries such as that. What it does refer to specifically are regional pollution control facilities."

Dunn: "Which is a landfill. Is that what it is?"

Nelson: "Yes. Under Senate Bill... Excuse me. Under House Bill... or Public Act 82-0682, regional pollution control facility is any waste storage site, sanitary landfill, waste disposal site, waste transfer station or waste incinerator."

Dunn: "The industries use those facilities to get rid of their waste from their plants, and then it becomes part of this Bill. Wouldn't it? If the industry were to take their waste material out to a landfill and it had any odor at all, then that would put them out of business. Is that not right? That's what worries me about the Bill."

Nelson: "I suppose that if an industry has a waste disposal site on their property, yes, then it would. And it would have to be in an area zoned 'residential'. What I do not understand is, you know, how it would be very likely that an industry would be that close to an area zoned primarily residential."

Dunn: "Residential wouldn't mean farmland where there are farm houses in the area. That wouldn't be classed as

residential, if a farmer smelled an odor from a landfill."

Nelson: "No. No. I worked with the Farm Bureau on exactly that point, and feed lots, for instance, are not included in this Bill."

Dunn: "Thank you. And if I may, Mr. Speaker, I'd like to address the Bill briefly. I would urge that we use caution in passing this Bill till it's further defined or till we get word from our manufacturing people that it's not going to bother them. I'm concerned about the fact that it may put... We have a bad business climate in Illinois now, and this may make it smell worse than it really is and it has been. So, I'd urge a 'no' vote."

Speaker Capparelli: "Representative Marzuki."

Marzuki: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I would urge you to support this Bill. It is very limited in its application, and I believe that there are enough safeguards so that it is not going to close down every landfill in the State of Illinois. Most certainly, some landfills would qualify for this closure. It at least gives homeowners an opportunity to live in some kind of peace and to have their property be worth something. Therefore, I would urge support of this Bill."

Speaker Capparelli: "Any further discussion? ... recognizes the Sponsor, Mrs. Nelson, to close."

Nelson: "Thank you very much, Mr. Speaker, Members of the House. I believe that House Bill 266 is a reasonable attempt on my part to deal with a problem that was in part of my old district that does have application statewide, but is one that property owners statewide care about. And I would urge an 'aye' vote. Thank you."

Speaker Capparelli: "The question is, 'Shall House Bill 266 pass?'. All in favor say 'aye', opposed 'nay'. Have all voted who wish? Have all voted who wish? Clerk, take the

Berrios in the chair? I don't see him. Take it out of the record. He's out of the record. House Bill 319, Representative Jaffe. Myron Kulas, what purpose do you rise?"

Kulas: "Thank you, Mr. Speaker. On a point of inquiry, some of the mushrooms here have been getting restless, and they'd like to know what the schedule is for the rest of the day."

Speaker Capparelli: "At the present time, I can't tell you... answer that question. I'll ask the Speaker and advise you at a later time. Thank you. Representative Jaffe."

Jaffe: "Mr. Speaker, with reference to House Bill 319. This Bill has been debated a number of times on the floor, and I think everybody understands it at the present time. There has been no industry that has been harder hit... hit harder in the State of Illinois than has the garment industry. At the present time, factories are closing and unemployment in that industry stands at about 35%, and the reasons for those industries being hit hard are basically two reasons: One, foreign imports, and the second..."

Speaker Capparelli: "Representative Jaffe, can I interrupt you and have the Clerk read the Bill first? Thank you."

Clerk O'Brien: "House Bill 319, a Bill for an Act to amend Sections of an Act to revise the law relating to industrial home work. Third Reading of the Bill."

Jaffe: "And the reasons that this industry has been so hit hard is, number one, because of foreign imports, and secondly, because of illegal sweatshops or illegal home work. And at the present time, legitimate businesses in this state cannot compete, because they do not pay taxes, or they do not pay the minimum wage, and they do not comply with health standards. Illegal operators prey on helpless people, and they put good businesses out of... out of... out of business. I would say to you that there has been a lot of misunderstanding with reference to who this Bill applies to and who it doesn't apply to. Let me say to you that, first of all, it does not apply to individuals who sell their goods to stores. Secondly, it doesn't apply to people who are employed doing types of work like tailors who are working at home for other individuals. It doesn't apply to handicapped workers. It doesn't apply to repair work and alterations, and it does not apply to producer cooperatives. I think there have been a lot of speeches, arguments raised to this Bill, and I think that if you look at who it does not apply to, you'll see most of the legitimate operators are taken care of. Amendment #4 contains the language that was asked for - it was 14 - contains the language that was asked for. It was asked for by the Illinois Retail Merchants. We put that language on. Representative Hastert asked for some language. We put that on. Representative Bowman asked for some language. We put that on. Representative Younger asked for some language. We put that down. And Representative Taylor asked for some language, and we put that on. I think the Bill, at the present time, is really in excellent shape. If you're against it on the basis of philosophy, that's one thing, but I think that if you look at the people that are exempted, you really have no reason to vote against this

particular Bill. And it is not a labor Bill. It is... I must tell you it is a business Bill. And let me tell you some of the businesses that are supporting this Bill. 'Al Kleinan Company Manufacturing Company', Wilson Garment Company, 'Clevermade Uniform Company', '... Manufacturing Company', 'Borris... on Johnny Manufacturing Company'. All these companies have sent out letters endorsing this concept. It's a good Bill, Mr. Speaker, and I would urge an affirmative vote."

Speaker Capparelli: "Is there any discussion? Representative Birkinbine."

Birkinbine: "Thank you, Mr. Speaker. Will the Sponsor yield for a question?"

Speaker Capparelli: "Sponsor yield?"

Jaffe: "Yeah."

Speaker Capparelli: "Says he will."

Birkinbine: "Mr. Jaffe, how do you define sweatshops? You keep saying this Bill deals with sweatshops. Do you have a definition?"

Jaffe: "Well, I think that you'll find that sweatshops are places where illegal operators - if you're talking about, is it defined in the Bill?"

Birkinbine: "I'm sorry."

Jaffe: "Are you talking about is it defined in the Bill? Is that what you're asking, or do you want to know what a sweatshop is?"

Birkinbine: "I'm asking you if you have a definition of what constitutes a sweatshop?"

Jaffe: "Oh. There is no sweatshop definition in the Bill; however, a sweatshop is really an illegal operator that, basically, dumps his products on an individual who then is hired as an employee, but this individual does not work under conditions which are safe or sanitary. They work for

under the minimum wage, and they don't comply with any of the laws of the State of Illinois."

Birkinbine: "So, you're just trying to stop the illegal operation."

Jaffe: "What we're trying to do is we're trying to stop illegal home work. That's correct, Sir."

Birkinbine: "Okay. I understand that. A year ago you put in a Resolution asking the Department of Labor to do a study on the sweatshop problem in Illinois. Do you remember that?"

Jaffe: "I certainly do remember it, and the Department of Labor hasn't done it. That's one of the reasons that we're..."

Birkinbine: "I beg to differ with you."

Jaffe: "I'm sorry. I'm sorry."

Birkinbine: "On April 1st, they put out their report."

Jaffe: "Yeah."

Birkinbine: "Have you had a chance to look at this report that you requested?"

Jaffe: "They have not sent it to me. I will tell you that they have not sent it to me."

Birkinbine: "Well, let me fill you in a bit on this report. They made 1140 total inspections looking into the sweatshop problem in... specifically in the garment industry. They found that there was a grand total of 1.15 of violations out of 1140 inspections made."

Jaffe: "Okay. Now, let me say to you that what you're quoting is sweatshops, and it's not home work."

Birkinbine: "That is, I'm sorry, that is under the category of Industrial Home Work Law. They break down the violations they cited. There were 20 violations in the Six-Day Week Law. There were 57 violations of the Illinois Minimum Wage Law, and 13 violations of the Industrial Home Work Law. Thirteen violations out of a 1140 inspections made. That works out to 1.1%."

Jaffe: "Well, as you know, the Department of Labor has a tiny staff, and one of the problems that we have had is that we feel that the Department of Labor has not really adequately enforced the laws that we have on the book."

Birkinbine: "But if ..."

Jaffe: "Let me just finish in answering your question. If you'll recall in the last Session of the Legislature, I also put in a Bill that also gave them more people to be employed doing the investigation. I don't know if they've ever hired those people. Do you know if they have?"

Birkinbine: "I would say if you're not going to pay any attention to the results of the report, I guess we could wonder why you requested it at all."

Jaffe: "Well, I'm asking you a question. I mean, you're taking part of it. I want you to take all of it."

Birkinbine: "I'm sorry. You asked me a question?"

Jaffe: "Well, evidently, you're not listening to the answer. So, it doesn't make any difference."

Birkinbine: "You say that what you're looking for is putting illegal workers out of work, but your Bill doesn't say that. It says that anyone doing garment work at home. Have you checked with your seatmate, perhaps? I know that Mr. Pierce has, in his district, a woman who manufactures small garments and sells in shops, and she employs 14 different women who work in their homes at their own time, in their own places. And this, again, is in Highland Park. I don't think you'll find too many sweatshops there."

Jaffe: "Are they licensed, Sir?"

Birkinbine: "Yes they are, and that is a legal operation. And you would prohibit that."

Jaffe: "I don't know anything about that particular operation."

Birkinbine: "Your Bill would prohibit that."

Jaffe: "I know nothing about that operation."

Birkinbine: "Mr. Jaffe, are you familiar with the court case of 'Figura versus Cummings'?"

Jaffe: "No, I am not, Sir."

Birkinbine: "Well, there was something added to this Home Work Law that would prohibit people from processing springs, metal springs, in their home. The court ruled that the valid purpose of the Industrial Home Work Act was to protect people from work in their home that was inherently dangerous. They found that the processing of springs was not, in itself, dangerous. Do you think the manufacturer of clothing?"

Jaffe: "Oh, absolutely, and I can give you study after study with regard to that."

Birkinbine: "Singer..."

Jaffe: "Well, wait a second if you want to talk about. There are fibers that people breath as a result of clothing workers; and, if you look at the clothing worker industry, you'll find that breathing fibers and doing all that stuff is, indeed, hazardous."

Birkinbine: "I'm sure Singer Sewing Company would be facinated to hear that statement. Mr. Speaker, if I could address the Bill."

Speaker Capparelli: "Continue."

Birkinbine: "Ladies and Gentlemen, we've been told that what we're out after here are those nasty sweatshops. We've been told this isn't a labor Bill. It's funny. I keep getting a lot of mail from the AFofL-CIO and the International Ladies Garment Workers' Union pushing this Bill. Indeed, it is really nothing but an organizing Bill. As a matter of fact, the Illinois Department of Labor, in looking over this Bill, has said that amending this law has no effect on sweatshops. Indeed, it said the reality of the Bill is that the people who work in their own homes are

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

not easily organized. The Department of Labor certainly saw through this Bill. Here we have a Sponsor of a Bill who professes concern about illegal sweatshop operations in the state. He asked the Department of Labor to do a study. The study came out two weeks ago. The study found concentrating on garment industry in the homes and looking at the Industrial Home Work Law, that there was a grand total of violations of 1.1%. That is hardly a problem, as far as putting a Bill like this in effect that would throw legal workers out of work, people who wish to work in their home, who set their own times, who are satisfied with the wages they get. You know what this Bill is for and why it was put in. Lastly, I would say, with regard to some of you folks from downstate areas where the Farm Bureau is very active, you might be interested in knowing that the American Farm Bureau Federation has taken a strong stand in opposition to Bills like this, in fact, in favor of industrial home work law encouraging cottage industries and the right of people to be able to work in their home. The Illinois Farm Bureau is going to take this up at their next session. They frequently follow the stance of the American Farm Bureau Federation. This is not a good Bill. It's designed for one special group of people; and, as the court case I referred to showed, it is not following the intent of this law which is designed to protect people from inherently dangerous situations in their home. I recommend a 'no' vote."

Speaker Capparelli: "Representative Zwick."

Zwick: "Thank you, Mr. Speaker, Members of the House. There's not a whole lot I can say after John just covered that subject just so thoroughly. However, as much as I agree with him on the points that he made, I also look at it from a little bit different view point. I admit that

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

Representative Jaffe has tried very hard to address the issue that is of such great concern to us, to those of us who have raised objections to this Bill, but the problem is that there is really no way to... to separate, with legal language, the difference between those that are farming work out to people in their homes and those that are willingly working in their homes to create a living for themselves, to stay home with their children, to sew their goods on an individual basis or on a contractual basis. I have had lengthy conversations and studied some of the Amendments that Representative Jaffe's put on with the President of the National Association of Cottage Industry Workers who is in violent opposition to this Bill. Their feeling is also that, even if this Bill is enacted, they are not going to stop working in their homes. They feel so strongly about this. This is a growing viable industry in this state creating jobs for those women who are unable to go out into a factory setting and earn a living. They want to stay home. They can't afford to pay for day care and go into a factory and work, and they desire to stay home. And they're not going to stop doing what they do. So what you are going to do by passage of this Bill is make those women criminals. You are going to force someone to take them to court, which is going to be a very unfortunate situation, and I don't think that these people who are working in their homes deserve that kind of treatment. Many other states are passing laws today that encourage work in the home, that encourage the growth of the cottage industry - states like California, Oregon, states which have a great amount of foresight, traditionally, as to where economic development is going, and this isn't in a 'grow part' of our redevelopment of this state as far as the economy is concerned. I would urge your to oppose this Bill. I am

going to oppose it. I wish there were some way, within the framework of this Bill, to solve Representative Jaffe's problem; but, at this point, I just don't see it, and I have to still oppose the Bill. And I would urge you to do the same. Thank you."

Speaker Capparelli: "Representative O'Connell."

O'Connell: "Mr. Speaker, I'd just move the previous question."

Speaker Capparelli: "Question is the previous question. All in favor say 'aye', opposed. 'Ayes' have it. Representative Jaffe to close."

Jaffe: "Yes, Mr. Speaker and Members of the House, I think the speakers beforehand just missed one point and that is that, under this Bill, those little old ladies that are working are not going to be liable. It's only the employers, and they understand that very well. But they want to muddy the waters. Only employers are liable under this Bill. That's in Amendment 14. And if they read that Amendment, they would find that out. With regard to what Representative Birkinbine said about that small percentage, he himself lists about a hundred, about a hundred - is that correct, Representative Birkinbine - violations of the Act at the present time. If you look at the... at the fiscal statement that we have filed, you'll find that all these millions of women are working in the State of Illinois, yet only 70 have applied for permits. Then all the rest of them are in violation of work in... under our statutes at the present time. I say to you again that it's putting people out of work in factories. I have a long list of factories that support this. If you think that it's only a labor Bill, you're totally mistaken, and I can give you that list. And many of you have that list, and I would urge an 'aye' vote on this Bill."

Speaker Capparelli: "Alright. The question is then, 'Shall House

It authorizes, but does not mandate that the Illinois Housing Development Authority invest surplus funds into what are known as the Federal Home Loan Mortgage Corporation, commonly referred to as 'Freddie Max'. opposition. That's basically what it does it authorize, but not mandate."

Clerk O'Brien: "House Bill 332, a Bill for an Act to amend Sections of an Act in relation to state monies. Third Reading of the Bill."

Speaker Capparelli: "Mr. Mautino on the Bill."

Mautino: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. 332 does exactly what 331 did for the State Treasurer under the State Monies Act. The legislative intent, once again, is that whenever possible, the State Treasurer invest in the surplus fund in 'Freddy Max'. It also came out 15 to nothing, and there was no opposition to it. And I respectfully seek your affirmative vote."

Speaker Capparelli: "Any discussion? There being no discussion, the question shall be, 'Shall House Bill 332 pass?'. All in favor vote 'aye', all opposed voting 'nay'. Have all voted who wish? some reason or other, got a lot of attention from the media and some attention from the Secretary of State. My only response to that, to the media, I wish they would stay with reporting the news instead of trying to making news and legislate. And as far as the Secretary of State's concerned, I think it's his job to carry out the laws that we pass and not be lobbying on this floor, as they've been doing in the past. Actually, I don't have a personal interest in this Bill, because the only ticket I ever had was for running 30 miles in a 25 mile zone. And that was one of these little towns around Springfield here. So, it hasn't affected me one way or another. But it was called to my attention that the situation we have now is not fair. I think most people in this state and this country want to obey the laws, but they expect them to be fair and relate to everybody alike. And it was called to my attention that if you're a truck driver, you can have five tickets. If you're a traveling salesman, or one of you, or some little girl try to get to work or anyone else, you get three tickets. Now, I know there are people who say, 'Well, what are you worried about? You can get supervision from the Judge. You'll never lose your license anyway.' Well, that may be true in some areas, but down our way, when you get that third ticket, you start walking. The other thing I want to point out, it has been suggested by the press and some other people, 'Well, what are you worried about? Because, you can get a restricted license. You can get a limited license, or a provisional license or a probationary license and so on.' I don't know if you've tried that or not, but a month ago the Secretary of State, after a guy had lost his license for a year, the license was approved. I was told yesterday, finally, they mailed it out. So, it isn't that simple. And I don't know if

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

you've gone through that or not. You've got to go to hearings and everything else. What I would like to point out, again, because this thing has been misrepresented by the media and some other people, I'll tell you what this Bill does not do. It does not change the law with regard to D.U.I. It does not change the law with regard to wreckless homicide. It does not change the law with regard to an accident where there's personal injury involved, but it could be failure to make... put a turn light on or any of those simple things that... that maybe you don't even think about. And somehow there seems to be a rash of it. You get one ticket, and then all at once, for no reason at all, particularly if you're in some areas where the town is dependent on their fines, that you immediately get a couple more. And I can tell you that losing your license is a pretty serious business, because the people of this state and of this country now are almost dependent on their transportation. The thing that bothers me a little bit again, with regard to fairness, in the last two years I have seen one semi pulled over. I have seen countless numbers of people who appeared to me to be innocent people who were just trying to get somewhere be pulled over and given an ticket. Well, I talked to a state policeman about that the other night when they had their troopers deal over here, and he said, 'I'll tell you why'. He said, 'Every truck now is equipped with a fuzz buster, and they can smell us two miles away'. And they also have their... their radio set up where they have this system where it's almost impossible. Now, I'm not... this is not a war against truck drivers, because that's the problem that somebody else has to solve. But I say to you that it's just as important for a person that's trying to get to work, who depends on that car, to have that five tickets as

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

the other one. So, I... this Bill, my only interest is at all - I think, if we're going to have laws on the books of this state, they ought to be fair to everybody and deal with everybody alike. That's my only interest in it. I'd just appreciate your support. If you think that they ought to have two sets of standards in this state, then you can vote 'no', and it won't make any difference to me one way or another. I have not attempted to take a Roll Call on this. I can tell you the Secretary of State's Office have. They've worked this House with two people. I have not even solicited your vote. I'm doing it now if you think that law should be fair."

Speaker Capparelli: "Is there any discussion? Representative Matijeovich."

Matijeovich: "Mr. Speaker and Ladies and Gentlemen of the House, I think passage of House Bill 337 would be a step backwards in traffic safety. Anybody who's dealt with a traffic law enforcement readily realizes that you can often see a pattern when people get numbers of moving violation tickets. And to allow five moving violations within that short time, I think, would do nothing, at this time, when there is great concern for the number of accidents that we are having. Many of them, yes, by drunken drivers, but many of the, yes, by those who are driving wrecklessly and getting too many moving violations. This is a tool for traffic enforcement. It is a tool for traffic safety. And to now to be that liberal, I think, would be definitely a horrible step backwards, and I would urge the Members to oppose House Bill 337."

Speaker Capparelli: "Representative Sam Wolf."

Wolf: "Thank you, Mr. Speaker and Members of the House. With all due respect - thank you, Van Duyne. With all due respect to the Sponsor, I rise in opposition to this Bill. I think

it flies in the face of all of the legislation that we have pursued in the Motor Vehicle Laws Commission. It certainly has the incentive to discourage safe driving on the highways. Of the some seven million drivers in 1981, only one-half of one percent had their licenses suspended and, in 1982, less percentage than that. All of us know in this House that any person who receives two violations takes a special care at that point not to get the third. It would seem to me that with a law of this kind, those same people are going to wait until they get that fourth violation and then start being careful. I would certainly urge a 'no' vote."

Speaker Capparelli: "Representative Giorgi."

Giorgi: "Mr. Speaker, I would like to ask Representative Friedrich a question. Representative Friedrich, I don't understand the synopsis on the loss. Where... Did you accept this from the fiscal impact statement?"

Friedrich: "I certainly do not. If I... I think it's like letting the cat in with the canary. When you let the people who are over here lobbying against this draw the fiscal analysis, and anybody can look at that. Any eighth-grade kid could tell that that's not a fair analysis on the fiscal impact."

Giorgi: "Mr. Speaker, I'm going to support Representative Friedrich on this Bill for many and varied reasons. It seems that this has nothing to do with the drunken under... or driving under the influence or drunken driving or... that the nation's concerned about, but this does... The reason for a Bill like this, I think, is because the driver's license has now become a valuable passport, and the indifference indicated by the Secretary of State's Office in granting hardship permits, in point system, for example. If you ran around a barricade, that's your third

offense. You lose your license. If you turned left in a right-turn lane. It's your third offense. You lose a license. Now you've got... Everyone admits that there are quotas all over the state. State troopers are stopping everyone. City police are stopping everyone on any slight provocation. The insurance companies are reaping a tremendous profit because of the reporting system of the Secretary of State. These.... Doesn't realize how difficult it is for people to get around the state that don't have a driver's license. I think this is a good Bill to send a message to the Secretary of State, in that we don't approve of this office administering the restricted driving permit as he does it. And we've done something else to ourself. We've allowed the Secretary of State to become the judge, the jury, the rehabilitation officer on driver's licenses. He's even denying restricted driving permits when the... when the citizen proved beyond a reasonable doubt that he'd be a safe driver on the road, taking defense and driving courses, paying twice the amount for his insurance. I think this is a good Bill to pass to warn and tell the Secretary of State we won't tolerate his... his arbitrary issuances of restricted driving permits, especially in these hard economic times where, if you go present yourself for a job to any trucking firm or to any firm that uses a vehicle in their business, you're not granted a job if you only have one driving infraction. I think this is a very good Bill. I commend Friedrich for introducing it."

Speaker Capparelli: "Representative John Dunn."

Dunn: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I, too, rise in support of Mr. Friedrich's legislation. At the present time, we make, as previous speakers have indicated, only patchwork discrimination

between serious and nonserious offenses. If someone is convicted of D.U.I. at the present time, that results in an automatic revocation of driving privileges for a minimum of one year. We have other offenses for which driving privileges can be revoked; but, when you get down into the category of less serious offenses, we make no distinction between someone who goes 35 miles an hour in a 30-mile-an-hour speed zone and someone who goes 55 in a 30-mile-an-hour speed zone. And I think what Mr. Friedrich is saying is that those of us who drive - and that includes all of us - and those of us who drive to work - and that includes all of us, and those of us who have to have a car are all exposed and susceptible to getting in the car someday when there's a tail light out, when we forget to signal a left turn, when we fail to... when we fail to yield at an intersection, when we don't stop quite long enough for a stop sign, when we get in the intersection when we think it's green, but it turns yellow right away and a police officer disagrees with us and gives us a ticket. In other words, there are lots and lots of violations contained in Chapter 95 1/2 of the Motor Vehicle Code for which there is a good purpose and for the violation of which, when no one is injured, there is not a really serious matter involved. What we should do, at the present time, is adopt Mr. Friedrich's Bill and put the average motorist in a position where, if he or she gets four tickets in one year instead of two with the minimum ticket price being 50 dollars, that's 200 dollars if you get four tickets, paid to the county in which the offense if committed. It's revenue to that county. That's a serious felony to anyone in my family, to consider the thought of paying an absolute minimum of 200 dollars. And you and I both know that the second or third offense that

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

the Judge became aware of, the price of the ticket would be higher. The dollar amount of the fine would be very, very significant, and yet no one will be put to the... the excessive burden of having their license suspended so they can't get to work for going 35 miles an hour in a 30-mile-an-hour speed zone three times. We should be more liberal; and, as other speakers have pointed out, in extending the current violation Section from three to five has nothing to do with drunk driving, reckless driving. Those serious offense can be taken care of under the present... present laws that are on the books. When times are tough, we talk a lot about business climate in Illinois. Well, I don't know anyone who... who either is an employer or an employee who walks to work. There are a few, but not very darn many. All of us have to drive to get to work; and, if we don't have a car, we can't work, and we can't do our job. When unemployment is high - and where I come from we're, again, in the top 10 in the nation in unemployment - the few people who are working certainly don't need to have, in addition to the other burdens they have placed upon themselves and their family, to worry about losing their driver's license because they went four miles, or five miles, or six miles over the speed limit three times in one year. Let's adopt Representative Friedrich's Bill. It's a good Bill. It's one that may, possibly, be misinterpreted, but you're sent here to exercise leadership and judgement. He has a good Bill. Let's vote for it and support it."

Speaker Capparelli: "Representative Brummer."

Brummer: "Will the Sponsor yield?"

Friedrich: "I will. Yes."

Brummer: "Representative, it's been my observation that the...

of State's Office, they have been issuing very few restricted driver's license during the last six months or twelve months. I'm not sure of the period of time. Do you have any statistics about the number of restricted driver's license issued in relationship to the number applied?"

Friedrich: "I do not, but I can tell you it is not automatic like some people would have you believe. You go through a lot of red tape and then it... and the delay in the paperwork - as I told you - it took a month to get this last one, even after it was approved."

Brummer: "Well, I thought I had seen some statistic that indicated something like 30 or 40 had been approved out of 3000..."

Speaker Capparelli: "Representative Tate, please. Oh, excuse me. Brummer was cut off. Representative Brummer."

Brummer: "I seem to vaguely recall some statistics that I had read in a newspaper some time ago about 30, or 40, or 50 - some very small number that was issued out of, I think, three or four thousand applicants. I know of a number of constituents who had had good driving record, had had their license suspended or revoked for various reasons. They were older individuals. They had had a prior good driving record for years and years and needed their license to go to work, had been recommended by the local Judge, in the ticket process, that a restricted driving permit be given and have, nevertheless, been denied. And I think, because of the hardship that we are creating on people in not giving restricted driving license, I think it is absolutely imperative that we raise the number of convictions of moving violations necessary in order to protect peoples' ability to go to work and maintain employment, without creating undue inconvenience. So, I would suggest an 'aye' vote on this."

Speaker Capparelli: "Representative Tate."

Tate: "Yeah, Mr. Speaker, Ladies and Gentlemen of the House, I rise in favor of Representative Friedrich's efforts here today. Representative Ronan and myself have... will be offering a Bill later in this Session which will deal with the same type of subject matter in a different way with habitual traffic offenders. And for those of you that are concerned about the welfare and safety of drivers on the streets, this Bill will address the dangerous drivers, the drunk drivers, the wreckless drivers. Representative Johnson will be offering an Amendment to raise the speeding limit for that offense. But to this Bill and why this is so important, as several of the other speakers have mentioned, that there's many people like if you're a teamster, or you're a salesman, a traveling salesman, your livelihood depends on this issue. And just because I don't say... think that you're an irresponsible driver if you're ticketed for going 61 miles an hour, or you stop and go, or occasion like this. And when you're talking about someone's livelihood, this is an area that I think we can allow for latitude and flexibility. We will, in this Session, address the issue of serious, irresponsible drivers on the roads, and I encourage an 'aye' vote for this Bill. Thank you."

Speaker Capparelli: "Representative Ropp."

Ropp: "Thank you, Mr. Speaker and Members of the House. I'd just like to ask you one question. What is the value of your life, your spouse's life, or any of your children's life, or anyone else's life in this state? The State of Illinois has one of the finest records, in terms of reducing traffic fatalities in the country. We are reducing fatalities in excess of 200 per year over the last three years. This is a fantastic figure and a tremendous accomplishment that the

enforcement authorities have been able to give the State of Illinois, as well as the Legislator and legislation that they have passed. And I think, when we've got such an excellent program going on, it is imperative that we not try to ease up, and to permit further additional violations before major consideration is given about withdrawing one's drive's license. There is talk in the hopper, that we are about to get rid of the mandate..."

McPike: "Could we interrupt proceedings, for just a second? Senator... Senator Vinson. I'm sorry, Mr. Vinson."

Vinson: "Yes, I think that just after you do what you're about to do, we ought to proceed with Representative DiPrima's Resolution, on peace through strength."

McPike: "On what? Ladies and Gentlemen of the House, we have a... an honored guest on the House floor, today, that we'd like to introduce, the distinguished Senator from California, Senator Allen Cranson."

Cranson: "Thank you for granting me the privilege of simply saying, 'Hello', to you. I'm delighted to be in Illinois, delighted to be in Springfield, delighted to see you doing your work, and I will not intrude upon your deliberations, but thank you for this opportunity to say, 'Hello'. Thank you."

Speaker Capparelli: "Representative Ropp, continue."

Ropp: "Thank you very much. It's a, I'd say a pleasure, I suppose, to be interrupted by a U.S. Senator, and from one of the great State of California, and welcome back anytime. I might even need your support in opposing this Bill, if you'd like to stick around. I would just... further..."

Speaker Capparelli: "Just one moment, Representative Ropp. Anyone who'd wish to say, 'Hello', to Senator Cranson, we'll be in McPike's Office. Continue."

Ropp: "Very briefly, there is legislation, in the hopper, to take away the state mandate for driver's education, which is the... not necessarily here nor there on this particular issue. What we're... we may be offering is a greater opportunity for inexperienced people to get involved with using that machine, that we call an automobile, which is in fact kind of a deadly weapon, and I would urge that you take real consideration before you support this Bill, when in fact we've made such great strides in the last 3 years to reduce traffic fatalities. It could be your life. It could be a friend of yours, or a neighbor. The value is really extremely high, and the consideration to opening up, or releasing, or expanding these tickets is something, I think, we ought not to do. I urge you to vote red."

Speaker Capparelli: "Are there any further questions? If not, the Representative Friedrich, to close."

Friedrich: "Well, in closing, Repre... Mr. Speaker, Members of the House, there have, again, been some suggestions here which I don't think are quite accurate. If you're involved in an accident, where there's personal injury, you lose your license, that... that goes right with it, an... and it has nothing to do with this one way or another. You could have one ticket or two ticket, or your first ticket or whatever. I will tell you this, there's another deterrent, and that is this. The judge has the right to impose heavier fines. It's automatically 50 bucks, but there's nothing to keep him from fining you \$100.00 if you're going 60 miles in 30 mile zone, so that I can tell you the fine, alone, is a deterrent. I would also like to point out to you, that there are some towns, which are very dependent on

their traffic tickets, and I will tell you quite frankly, that's one of their best sources of revenue. I happen to have one in my district, and they are delighted to catch you going 2 miles over the limit, so they can get a... get a little more revenue for the town, so that... people are trapped into innocent situations. I'm talking about good, honest, hardworking people, who need that car. Now this Bill is, again, I just point out, is introduced in the interest of fairness, and even with 5 tickets, compared to the truck drivers' 5, it is still not fair, because they have their netwo... work of information, their fuzzbusters, and their radios, and they never get caught. So I think that, again, I would point out to you that the laws of this state ought to be fair to everybody. I'm just saying that 5 is all right for truck drivers, it certainly ought to be right for a travelling salesman. And the number of accidents in this state have been reduced. They've been reduced partly because the speed limit is lower. They've been reduced partly because there's fewer cars on the road. I think any... anybody that knows that, they want to throw in one statistic but not all of them, so I think partial, half the truth sometime is worth... worse than no truth at all. If you're going to quote statistics, you better quote them all. So if you want to be fair, this is a fair Bill, and will be fair to every driver in this state alike, and I urge your 'aye' vote."

Speaker Capparelli: "The question is, 'Shall House Bill 337 pass?' All in favor vote 'aye', all opposed vote 'nay'. Have all voted who wish? Have all voted who wish? Clerk, take the record. On this question, there are 35 'yes', 69 'no', and 2 voting 'present'. This Bill, not receiving the Constitutional Majority, is here declared not passed. Failed. I'm sorry. House Bill 349. Representative O'Connell. Clerk, read the Bill."

Clerk O'Brien: "House Bill 349, a Bill for an Act to permit officers and full-time employees of corporations to represent such corporations in small claims court. Third Reading of the Bill."

Speaker Capparelli: "Representative O'Connell."

O'Connell: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 349 is an attempt to address a problem, that currently exists with all corporations, who are faced with small claims. And when I say small claims, I'm referring to money damages that account for less than \$2,500. Presently, the cost of attorneys is often exceeded or equal to the amount of the small claim; therefore, the result is that many corporations are waiving legitimate claims that they have to collect debts. The present state of the law is such that, individuals do not have to be represented by attorneys, however, corporations do. We are presenting this Bill, very mindful of the Separation of Powers Doctrine, and... and would not try to impede upon the constitutional domain of the judiciary; however, there are several statutory provisions, which amount to prohibitions in this... on this issue. We are... are, therefore, proposing this legislation to eliminate those statutory prohibitions, and as an expression of intent, to the judiciary that there is a major problem that exists in this area, and that they should consider in their Supreme Court rules. I'll be happy to answer any questions."

Speaker Capparelli: "Is there any discussion? Representative McCracken."

McCracken: "Thank you, Mr. Speaker. I rise in support of Representative O'Connell's Bill. I think it's a Bill, which is long overdue, and is the first step toward restoring the intent of the legislature in initially

passing the Small Claims Act. We want to encourage and facilitate, quick, prompt settlement, by a judge, between litigants in a small claims action. The way to do that is to allow them to appear per se, to make sure each of them appears per se, so neither one has an advantage over the other. The judge will see that justice is done on the amount, and will make sure that the parties are treated fairly. As the law currently stands, the spirit of the Small Claims Act is thwarted, because corporations, which make up a large proportion of litigants, in these types of matters, are unable to come into court on their own, and defend. They are forced to hav... retain attorneys for that purpose, and the result is that it is the plaintiff, commonly, the litigant, the little guy, who is at an unfair footing. We want to return justice to the little guy. We want to return justice to the small claimant. We want to facilitate the prompt resolution of these claims. I am in favor of Representative O'Connell's Bill. I urge your support."

Speaker Capparelli: "Any further discussion? Representative Cullerton."

Cullerton: "Will the Sponsor yield?"

Speaker Capparelli: "He says he will."

Cullerton: "Representative O'... O'Connell, what type of people would this Bill authorize to represent the corporation, in the small claims court?"

O'Connell: "Well, the... the st... the legislation does not address itself to any type of person, other than a full-time employee of the corporation. Now, what follows is perhaps an argument that anyone, including the janitor, could then represent the corporation. Well, in response to... I'm anticipating a question, I'm sorry."

Cullerton: "Well, you agree then, that a janitor could represent

the corporation in small claims court."

O'Connell: "That's true."

Cullerton: "Okay. Is that the... what you intend to do with the Bill?"

O'Connell: "What... what I intend to do with the Bill is to allow the corporation to make that decision as to who it will have represent itself. In many instances, the janitor happens to be the owner of a small store, or a small company, who indeed, would be the one to represent itself, in a small claims court."

Cullerton: "So the... the purpose of this Bill is just to help the little guy out, so that instead of having to go up against a big corporation lawyer, he can go up against a janitor. So that's the purpose of this Bill, to help the little guy out, so that he doesn't have to fight any big corporate lawyer. Is that right?"

O'Connell: "Well, the... the little guy, and the big guy, anyone who is a qualified as a corporation in this state would be considered under this Bill."

Cullerton: "Well, what's... what's happening now? Are the corporations going into court, or are they just letting a judgment be entered against them?"

O'Connell: "Well, often if the jud... if the mon... if the claim for money damages is such that it would cost more to have an attorney go in, they are waiving the opportunity to go in and prosecute the claim."

Cullerton: "Well, can't... can't a court issue an order, requiring the plaintiff to pay the cost of the defense if the... if they're not bringing a valid cause of action?"

O'Connell: "I don't believe that, there in a small claims court, that there is any provisions for attorneys' fees."

there's any punitive, or willful failure on the part of the plaintiff, to proceed properly that there's any provision for a... a judge to award attorneys' fees, and I think you're referring to the defendant, Mr. Cullerton."

Cullerton: "Well, doesn't this authorize non-lawyers to practice law?"

O'Connell: "No. No. We are very... I'm trying to be very explicit. We are not... not engaging in any interference with the judicial branch of the government. There are several statutory prohibitions, and we are simply expressing a... an elimination of those statutory prohibitions. The right to practice law is founded in the jud... judiciary, and we are not attempting to tell them what to do. Speaker Capparelli: "Representative Vinson."

Vinson: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise in support of the Gentleman's Bill. I think its commendable that he brought it here. It's a good Bill. for \$100.00 against some corporation, that has injured him in some manner, and caused him damages. This Bill says that that corp... one of the pieces of leverage that that little guy, who is suing in small claims a large corporation, one of the pieces of leverage that he has to deal with this large corporation, is that the corporation would have to be represented in court through council, and therefore, to avoid that, and avo... avoid the expense and the notoriety, that large corporation may want to settle the case to avoid any additional cost and problems. If this Bill becomes law, that corporation, that large General Motors Corporation, or that large whatever corporation, we have operating through facilities in Illinois, no long has any cost incentive to settle some small claim, insignificant matter, with some litte Ma or Pa out there, who has a small claim against the corporation. They can send their janitor in. They don't have to get a... an attorney. They don't have to try to settle the matter with the little guy. They can go get some little... send their janitor in, maybe even give him a new job category, instead of being the janitor, he could be the arbitrator of disputes with the corporation. This is a bad Bill. This operates and vitiates against the best interest of the little people of small claims, against large corporations, and I urge your 'no' vote."

Speaker Capparelli: "Representative Davis."

Davis: "Well, thank you, Mr. Speaker. Representative Preston, Representative Cullerton speak quite well for the trial lawyers, who are trying to protect their economic turf, I suspect, and... and maybe that's too harsh a judgement, that I'm making, but the truth of the matter is that the last Speaker gave a rather good argument for the Bill. I've had personal knowledge of this situation, on at least

four or five different occasions, while I was in the business world, and believe me, it... it is a nightmare that you get into, when you go into small claims court. I was successful in two or three of those instances, with favorable judges who allowed me to proceed as the secretary and treasurer of supposedly a soloist corporation, to protect myself and not have to hire attorneys' fees for nuisance claims of \$200.00, \$300.00, that were ultimately settled when... when attorneys were ordered to be present, and were settled. But I think Representative Preston's argument is somewhat hollow. That if... equity is to be achieved in small claims court, it's to be achieved by the judicial process, and that does not necessary require the presence of an attorney. I think the Ma and Pa, who sued for \$100.00 General Motors, would be delighted to see the janitor walked in to represent General Motors, because then the judge and the janitor and Ma and Pa could all work it out to who owes who. It's a very good Bill. It is a good Bill for small business. It's a good Bill for small corporations, and believe me, if you've ever run afoul of this in a corporate activity, you would support this measure. It's a very, very good measure. Representative O'Connell, you're to be congratulated."

Speaker Capparelli: "Representative Ronan."

Ronan: "Thank you, Mr. Speaker, Members of the House. I rise in support of this legislation. I'm amazed. Again we have the diatribe of the attorneys. If... if the lawyers had their way in this General Assembly, we'd have a situation. If you want to go to a doctor, you have to see a lawyer. If you want to get your car fixed, make sure you have an attorney represent you before you bring it in. If you want to get gas for your car, you better have an attorney bring you in, so that they make sure that you don't have any kind

of litigation afterwards. As far as Representative Cullerton's argument... 'Should a janitor represent a corporation?' What I've seen the Illinois Trial Lawyers do to some of the corporations in this state, they'd be better off with janitors in the courtroom. Let's... let's stop kidding around. Let's go on. Let's support Representative O'Connell. Let's do what's right for the people. Let's get attorneys out of doing what they do to us all day long, and all year long, which is take money out of our pockets. Let's have one attempt to do something for the people. This will be... probably be the only thing we accomplish today. I commend Representative O'Connell."

Speaker Capparelli: "Representative Karpiel."

Karpiel: "I move the previous question."

Speaker Capparelli: "The question is the previous question. All in favor say 'aye', opposed... 'ayes' have it. Representative O'Connell, to close."

O'Connell: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I would simply ask for a favorable Roll Call. You've heard the arguments. I think it's clear that there is an injustice in this area, and I think this Bill will go some ways toward remedying that problem. Thank you."

Speaker Capparelli: "The question is, 'Shall House Bill 349 pass?' All in favor vote 'aye', all opposed vote 'no'. Explanation of votes. Explanation of vote, Representative Braun."

Braun: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I have a conflict of interest, so I'll vote my conscience."

Speaker Capparelli: "Bepre... Representative Olson."

Olson: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. As a former circuit clerk, who administered to small claims court, this is an exceptionally fine Bill."

Speaker Capparelli: "Representative John Dunn."

Dunn: "Just to point out, that those who say that the lawyers never vote against their interest, ought to get a copy of this Roll Call. I think every lawyer in this place is voting green."

Speaker Capparelli: "Have all voted who wish? Have all voted who wish? Have all voted who wish? Clerk, take the record. On this question, there are 98 'yes', 8 voting 'no', and 3 voting 'present'. This Bill, receiving a Constitutional Majority, is here regarded passed. House Bill 357. Representative McMaster. Please, read the Bill."

Clerk Leone: "House Bill 357, a Bill for an Act to create the Conservation Tillage Risk Share Program. Third Reading of the Bill."

McMaster: "Thank you, Mr..."

Speaker Capparelli: "Representative McMaster."

McMaster: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, as the Clerk read, this creates the Conservation Tillage Risk Share Act. It authorizes the Department of Agriculture to contract with and provide grants to soil and water conservation districts, pursuant to Conservation Tillage Demonstration Program. It amends the Soil and Water Conservation District Act, provides that such districts may reimburse participating land owners for losses in yield, resulting from the use of conservation tillage, pursuant to the program. It, also, amends the Horse Racing Act, provides that funds from the Ag Premium Fund, may be used for grants under this Act. The purpose of this Bill is to encourage those involved in agriculture to use minimum tillage practices to conserve the top soil. I don't suppose there are many of us, anymore, in this place involved in farming, but there is a relatively thin layer of top soil in the State of Illinois that provides

this state, with the ability to produce very, very excellent crops, and to be one of the highest agricultural producing states in the nation. Nevertheless, we are experiencing a great deal of erosion, and are in the process of losing that soil. Something in the neighborhood of someone 188 million tons per year. Some of you from the metropolitan area will say, 'What difference does that make to us?' Well, certainly, the food that you eat, and our ability to produce food, over the years, to the time of your children, your grandchildrens' ability to eat, I think this is very important to all of you, as it is to me and all of us here, today. This would provide setting aside 1 million dollars, that would be used to pay for the loses of yield for those, who enter into this program, and try it. It does not mean that everyone will get it, in fact, I think it is quite likely that there will be very little pay out of it, because minimum tillage has been used quite extensively in this state, for the last several years, and there seems to be a pretty general maintance of yield from that type of ground. I think it's... it is an excellent program. I think that we, as an agricultural state, should make our position known and should establish this program in the State of Illinois. I will answer any questions."

Speaker Capparelli: "Is there any discussion? Representative Klemm."

Klemm: "Will the Speaker yield for a question?"

Speaker Capparelli: "He nods yes."

Klemm: "Representative. It's been asked in my area, is there really a great deal of cost because it seems that so many demonstration pilot programs have shown that the yields have been almost as good as, and sometimes even better than, because some people are concerned about the loss of revenue. Would this really cost as much as some people are

saying?"

McMaster: "In my opinion, as I said, Mr. Klemm, it will not, because I think that the practices, that have been taking place over the last several years, indicate that there is very little if any lose in yield; therefore, there would probably be very minimal payout, if any."

Klemm: "May... may I address the Bill, please?"

Speaker Capparelli: "I beg your pardon."

Klemm: "May I address the Bill, then? May I speak..."

Speaker Capparelli: "Yes, right."

Klemm: "I... I think that the Bill has been excellently drafted, and I think certainly, when we're talking about conservation methods, the no-till, or low-till conservation practices, that have been demonstrated, it's certainly excellent, and I certainly commend the Speaker, for... or the Sponsor to try to bring this about. And as long as the cost would be minimal, if anything, I think certainly this would be helping our agricultural industry, and our... all of us, who are using agriculture products. I, certainly, do join with the Sponsor of asking for some green votes on this fine Bill. Thank you."

Speaker Capparelli: "Representative McPike"

McPike: "Thank you, Mr. Speaker. I was... I was very glad to hear that this has got a minimal cost. It's funny, how we talk about money at State Government, sometimes. No one ever laughs about it, but this Bill supposedly has a... a companion appropriation for 1 million dollars. Now I know, 1 millions dollars isn't very much. It's a minimal amount. It's just... it's just a million dollars. That's for the first year of the program. What surprises me is that... is that this new welfare program is a... this is a new welfare program, and I have no idea how it's going to grow, and of course, no one else does. But we'll start with just a tiny

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

amount of money. We'll put 1 million dollars into a new welfare program for farmers, and of course, once we give money to the farmers, it's really not welfare, it's... there's another name it. I don't know what it was called... subsidy, yeah, it's a subsidy, so instead of having a... additional people hired to come out and inspect the farm, right, right, these new people, they shouldn't be called caseworkers, what ever they would be. They would have to somehow inspect, to make sure that the... that the farmer wasn't cheating, you know, because these welfare recipients, you know that quite a few of them cheat on... on the welfare payments, so we would certainly have to have caseworkers to inspect all these welfare recipients to make sure they weren't cheating the system. Who knows, that they might sneak in there in the middle of the night and try to harvest some of the corn, and pretend like... like it didn't exist, and then get more money than what they were entitled to under the welfare program, and... and again cheat the State of Illinois. So I would presume that... that the million dollars that would be used... I would be... presume that the millions dollars are used as direct payments to the recipients, is only the beginning, because certainly, the caseworkers couldn't handle over 20 or 25 farmers in their caseload. So throughout this State of Illinois, I suppose, we'd need at least 100 caseworkers to handle this welfare program. At the federal level, I... I have tried to commend the federal government in the last two years for trying to do away with some welfare performers. We have farmers receiving welfare because they grow tobacco, farmers receiving welfare because they produce milk, or cheese, farmers pro... receiving welfare because they produce sugar, and now we have a new one. We have a new welfare program in the State of Illinois, that's

going to give farmers welfare simply be... so that they will plow their fields in a different manner, perhaps in a manner, that they plowed the fields in the... in the 1800's. If they would only try a different method, we will provide them with welfare. We don't go into someone that's manufacturing toasters, and suggest that they manufacture toasters differently, change their production line, and manufacture toasters in a way that's more efficient, or more effective. But we guarantee them that if you'll use this new government idea, and produce less toasters under our idea, don't worry about it, because we guarantee you that you will have the same profit. Of course, that would mean additional caseworkers, and we don't want to get into that. But somehow when we have a welfare for farmers, it just doesn't appear that it's the same type of welfare, when we have it for individuals. I think this is wrong. I think it's a bad idea. It's a bad program, and to say that 1 million dollars is just a minor amount of money, and we shouldn't worry about it, is ridiculous. We should kill this Bill."

Speaker Capparelli: "Representative Ropp."

Ropp: "Thank you, Mr. Speaker. I'd like to ask a question of the Sponsor, if I might? First..."

Speaker Capparelli: "He says he'll yield."

Ropp: "You've mentioned this million dollars comes out of the Ag Premium Fund. If the Ag Premium Fund isn't used, where does that go?"

McMaster: "Certainly Gordy, you realize that the Ag Premium com... Fund comes from the parimutuel betting. The money that is not used from the Ag Premium Fund goes into the General Fund. Yes, you realize that."

Ropp: "Okay, good, thank you. To the previous Speaker, who I'm sure may have visited a farm, at least once, I'd like to

invite him out to a farm to acquaint him, what corn really looks like, and when to harvest it, and how you go about it. I... I'm in support of his opposition to this Bill, but certainly not for the same reasons. Because I think I have some degree of understanding of the situation, maybe a little bit better. I really would like to make some comparative comments, though. First of all, one of the problems that's going to rise with this is that, since we don't really know how much money we're going to have for next Fiscal Year, we're starting at a zero base, let's say, and so if we put 1 million dollars here, which eventually would go into the General Revenue Fund, if it isn't used from this Ag Premium Fund, you're going to end up having to take 1 million dollars from, maybe, the Teachers' Retirement Pension, or the Public Aid, or you might have to take it from Higher Ed, or Daycare Centers, or any number of other things. So that's, I guess, maybe, immaterial, but you're going to have to take that million dollars from some other program to put it into this one, not that you're going to spend a dime, cause I don't think you'd probably spend a dime, but at least on the overall budget, it's going to be a transfer of 1 million dollars from one project to another. I just happen to have a little news article, here, stating that... which announces the winners of the no-till yield contest of 1982, from Ottawa Dateline. First year, no-till corn winners are Larry Godbread of Vermillion Township, 190 bushel, and second, was a young man from another township, 189, and the third, 188. That was the first year. For those who have grown corn for 2 or more years on no-till practices, 181 bushels, 172 for second, and 171 for third. Soybeans were comparable, 60 bushels per yield, 53 bushels, and 49, for first, second, and third. The question is, I think, is not one as to

STATE OF ILLINOIS  
83RD GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

31st Legislative Day

whether or not no-till is a good program because it is. It's been proven. You can... you can do super well. The question is whether or not we ought to have a million dollars go here and just sit there for a full year, or should it be diverted to somewhere else, and I think it ought to stay somewhere else. This is not a welfare program in any way, shape, or form. It's a program that shows by example what can be done in conserving the soil. Farmers aren't in the business of being on welfare. They're in the business of working. We're not like other kinds of businesses, who may be in the toaster business, and feel that they are not getting a fair price, and may want to just strike, for seven months or so, waiting for the price to go up. Or we may say to our exporters, that want to bring commodities in here, 'We don't want your product.', and as a result we'd lose our markets. It's important that we have our priorities in this area. The good concept of this Bill is overshadowed by the inability to use a millions dollars wisely. It is not a Bill that you would want to support."

Speaker Capparelli: "Representative Oblinger."

Oblinger: "Mr.... Mr. Speaker, and Members of the General Assembly. I don't know if I can match the oratory but I sure an going to try. This is a conservation program, not a welfare program. Farmers don't have the ability to negotiate to get a minimum wage, and a cost of living increase. They're bound by what they can get on the open market. If we went ahead and looked at what we paid for a ton of ammonia, about four years ago, it was \$50.00 a ton. Because the workers, who provide that ammonia, were able to get higher wages, we now pay \$450.00. If we raise the price of our product 5 times like that, you're going to pay \$13.00 or \$14.00 for a bushel of corn, and you're going to

pay about \$30.00 for a bushel of soybeans, and if you want to pay \$6.00 for a loaf of bread, just keep putting it to the farmers."

Speaker Capparelli: "Representative Tate."

Tate: "Mr. Speaker, and Ladies and Gentlemen of the House. I rise in support of this legislation. It... it is... I've been kind of confused over this debate because I... I thought that House Bill 357 addressed the issue of conservation tillage, and somehow we digressed into a debate over cost of living increases for Public Aid recipients. The issue, here, is an issue that... concerns all of our futures. We have millions and millions of dollars every year that go down the Mississippi River. And unless today, we take the issue on and confront this issue, we'll continue to lose hold of our own direction for the future. The issue, here, is one of increasing and improving productivity. This state is one of the leading states, is the leading state in the country for exports, and unless we continue to encourage conservation methods, we're going to lose grip of that hold. Let me tell you one other thing. There... every Member... all the Members on the other side of the aisle, this isn't an issue that allows the mayor to spend \$500,000 for a... a party up in Chicago, last year, that... which came out of the A.P.F. Fund. The issue, here folks, is one of priorities, and how we spend that Agricultural Premium Fund, and this should be a... a priority, and I encourage a 'yes' vote. Thank you."

Speaker Capparelli: "Representative Christensen."

Christensen: "Mr. Speaker, I move the previous question."

McMaster: "Thank you, Mr. Speaker. You know, I guess there's one advantage to being a Sponsor of a Bill. You have the last opportunity to speak. I do not wish to mention any names from the other side of the aisle, but one of the Gentleman, who is a Member of Leadership, called this a welfare program. He attacked the idea of a million dollars being a minimal amount. I don't think he was listening very well. I did not say 1 million dollars was a minimal amount. I said that I thought there would be a minimal expenditure from it, and I still think this is true. Certainly, we are faced with saying this is only for farmers, and I disagree with you on that, because all of us benefit from agriculture, and the ability of agriculture to produce. Good heavens, all of us, every day, three times a day, use agricultural products. You do. I do. Our families do, our children, our grandchildren, and I think that it's very imperative that we preserve the ability of this state and of this country to produce food. And I think that anyone, who is voting against this Bill, would be very shortsighted in the long run, as to what they feel this country should be all about and that is the ability to feed not only ourselves, but many, many other people in this world. I think that's a very good concept. I would urge your support with a 'yes' vote. Thank you."
