

STATE OF ILLINOIS
86th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

49th Legislative Day

May 26, 1989

Speaker McPike: "The House will come to order. The Chaplain for today is Father John Corredato, from St. Joseph's Catholic Church in Springfield. Father Corredato is a guest of Representative Mike Curran. The guests in the balcony may wish to rise and join us for the invocation this morning."

Father Corredato: "Let us pray. Lord God, we take these few moments at the beginning of this important legislative day to reflect on Your goodness to us, the citizens of the State of Illinois. We praise and thank You for Your gift of life to us. May we do all that we can to preserve it and to enhance it. We ask Your continued blessings for those of us elected or appointed to public office. May we come to understand more clearly what it means to serve our brothers and sisters. May we always deserve the trust placed into our hands. We seek Your special guidance that we may be especially sensitive to the poor, the elderly, the afflicted and those who are most forgotten by the system. Give us the idealism and the enthusiasm of our first days of office. Give us the confidence to act decisively. Give us the wisdom to act rightfully. Give us the ability to be kind to all others, for this we can all afford to do always. This is our prayer, Lord, today and everyday, forever and ever. Amen."

Speaker McPike: "Be led in the Pledge of Allegiance by Representative Ropp."

Ropp - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker McPike: "Roll Call for Attendance. Representative Kubik."

Kubik: "Thank you, Mr. Speaker. Would the record reflect that

Cullerton: "Agreed Amendment."

Speaker McPike: "The Gentleman moves for the adoption of Amendment #1. All those in favor say 'aye', opposed 'no'. The 'ayes' have it and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "Floor Amendment #2, offered by Representative Ronan."

Speaker McPike: "Representative Cullerton."

Cullerton: "It allows for the Department of Transportation's discretion to require an in-depth investigation of accidents involving department employees."

Speaker McPike: "Gentleman moves for the adoption of Amendment #2. All... Representative Black on the Amendment."

Black: "Mr. Speaker, I believe that Amendment #2 is out of order and 3 might be the correct one."

Speaker McPike: "We don't have an Amendment #3, Mr. Black."

Black: "Hang on just a second, I think we do."

Speaker McPike: "Thank you."

Black: "Mr. Speaker. Mr. Speaker, an inquiry of the Chair."

Speaker McPike: "Yes."

Black: "This might be a Clerk's error. We have two Amendments. Can we get to the LRB number on 2, 3."

and the Speaker in the Chair is my seatmate and normally he spends a lot of time talking, telling me about how the Cardinals did. And he hasn't been saying much recently. And maybe it's because we've been working so hard down here..."

Black: "I know, he's been very busy."

Cullerton: "Do you know how the Cardinals have been doing? I...I haven't heard any..."

Speaker McPike: "Representative Cullerton, we're on Amendment #2."

Cullerton: "Oh, yes, that's right. We would be..."

Speaker McPike: "The sales tax exemption for mulching lawn mowers. That's the Amendment we're on."

Cullerton: "Yes. Yes. Now, Representative, does this have anything to do, as Representative Churchill said, with mowing the infields of baseball parks or... What do we need...how much does this cost? Isn't it kind of late in the day and early in the morning to be putting sales tax exemptions through?"

Black: "Well, I can't speak for Representative Hallock, maybe this is designed to help out Wrigley Field, because the other ballpark doesn't have any grass. In my district, a mulching lawn mower is a goat. I'm not real sure what this does."

Cullerton: "Well, do you know if this costs anything? It must."

Black: "I would assume that there would be some slight cost, but I don't see any fiscal information attached to this fine Amendment."

Speaker McPike: "Representative Breslin."

Breslin: "Thank you, Mr. Speaker. I got the message. Ladies and Gentlemen we are opposed to this Amendment. This is a Bill that failed in Committee before we were told that Bills that got on the Consent Calendar should...shouldn't have

controversial Amendments proposed to it. If it goes on, the Bill comes off the Consent Calendar. It's a high-priced item that has already been rejected by Committee and I urge 'no' votes. Thank you."

Speaker McPike: "Representative Churchill."

Churchill: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I think Representative Cullerton was actually hitting the nail on the head. We've done a lot in the last couple years to try and help some of our sports stadiums and to help the people who are involved in professional sports in the State of Illinois. And I think that this is one very small break, a very small cost to the State of Illinois, which when given as a sales tax exemption to those baseball clubs and other sporting organizations that would buy mulching lawn mowers to make sure that the grass on the infield and for high schools, perhaps the grass on the football fields, would remain in good shape so that none of the kids would get hurt. I think that you know...the opposition of the other party should be overlooked in this instance, because this is really a pro-sports vote."

Speaker McPike: "Representative Hicks."

Hicks: "Yes, Mr. Speaker, I'd stand in opposition to the Gentleman's Amendment..."

Speaker McPike: "The question is, 'Shall the Amendment be adopted?' All in favor say 'aye', opposed 'no'. 'Nos' have it and the Amendment's defeated. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Mr. Capparelli."

Capparelli: "Mr. Speaker, I'd like to take House Bill..."

And so I have accordingly written those in as a salary schedule that would be similar to the Speaker of the House and the vice-president...and members would be the same as our salary and the vice-president and finance officer would be \$42,246, instead of the proposed raise. Speaker McPike: "Question is,... Representative Stephens, on the Amendment."

Stephens: "I don't want to delay the process, but could you explain what that means?"

Younge, W.: "That means that if the Illinois Development Finance Authority decided to float bonds in order to restructure the debt of a municipality that is financially distressed, they would ask the Comptroller to withhold some of...say the local distributive fund money that...due that municipality to service the debt service on the bonds."

Stephens: "Does this increase bonding authority at all?"

Younge, W.: "No. The Illinois Development Finance Authority has the authority to float bonds. We are giving..."

Stephens: "I understand that. This in no way increases their ability to increase that?"

Younge, W.: "No. No."

Stephens: "You're sure?"

Speaker McPike: "Representative Stephens, we adopted Amendment #5 by a Roll Call vote at your request, Sir."

Stephens: "I did not mention Amendment #5, Sir, I mentioned #4. And with Amendment #4 the...we're talking about a sixteen million dollar cost. We're talking about a Bill that includes this bonding authority and these bonds cannot effectively be sold without a strong state mechanism for credit enhancement. The credit market could not accept the level of risk involved with such distressed municipalities, without a state guarantee of repayment in event of default. And these cities have to be helped, but for us to take the entire burden upon ourselves as a state, is an absolute abomination. We cannot allow legislation like this to get passed. I presume that this needs 71 votes and I would hope that responsible downstate Legislators and Republicans will join us in opposition to this Bill."

Speaker McPike: "Mr. Stephens, these are IDFA Bonds, they're not backed by the full faith and credit of state. They're not G.O. Bonds. The Bill requires 60 votes. flawed, therefore, I stand in opposition to this. And I
understand the Lady wants to move out a vehicle Bill so she
can address the issue, but it's plain from the Bill and the
Amendment what this...what the thrust of the position will
be. IHDA is not in the business of supporting people until
they determine whether they can afford housing. IHDA is in

House Bill 947 simply changes the definition of a Class I County for school purposes from less than one million to less than two million population and a Class II County for school purposes from more than one million to more than two million. The reason for this change is because the County of DuPage is rapidly reaching the point where it will soon be...have a population of one million residents, and the county schools within that county would like to avoid the requirement which now prevails only in Cook County, which is the only Class II County in the state, to use township treasurers for the school districts. The schools in DuPage County do not wish to do that. And therefore, this Bill, it is a very simple Bill. It is not controversial. I move for its adoption."

LeFlore: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 143 require sixty days notice prior to a hospital closing, and this is to put the community and the workers of the hospital, informing them to the closing of the facility. The reason for this Bill is because this year there was one hospital in my district that closed, St. Ann's, and there was no notification given to the employees and the community. So I ask for a favorable vote."

Speaker McPike: "In opposition to the Bill, Mr. McCracken."

McCracken: "Thank you, Mr. Speaker. Federal law, the Plant Closing Law, passed and signed into law, already includes hospitals; therefore, there is a federal law requiring the sixty day notice. Secondly, hospitals are required to get a certificate from the Certificate of Need Board in order to close. This Act is amending the Hospital Licensing Act. What is the purpose of that when you're talking about a situation of closing? Is it to jeopardize the license in the event you don't give the sixty days notice? In short, there's no need for this Bill. It amends the wrong Act or if it's the right Act, if there's something to this, let... amending the Licensing Act, I stand in opposition, because there's no reason to amend the Licensing Act, to threaten the revocation of a license when we're talking about a hospital closing. There's already a requirement for it. It amends the wrong Act. It is unnecessarily duplicative. It does have a state impact because of the requirements put upon the Department of Public Health. I stand in opposition."

Hultgren: "Yes, because of a possible conflict, I'll be voting 'present' on this measure."

Speaker McPike: "Mr. Preston votes 'aye'. Mr... Miss Davis. Representative Davis to explain her vote."

Davis: "Yes, I just want to say that I think it's real important for a community to know when a hospital is closing. In the State of Illinois and especially in Chicago, we've had a number of hospitals to close and the employees and those who depend on the service of that hospital would know possibly a week before. And this is just a bit of legislation that says that a public announcement has to be made within a reasonable period of time that this hospital will be closing. We don't...it doesn't cost any money. It's just something to let the public know that they are important. And we beg of you to consider if some major institution in your area were closing, don't you think that you should be important enough to be informed, especially when you're dependent on that service. If you're a senior citizen and you have a cab to deliver you to the hospital, only to find that it's closed. We beg you, please vote 'aye' on this legislation."

It's unfortunate that a couple of weeks in Chicago...a couple of weeks ago in Chicago, a young man had gotten shot and his friends had taken him to the hospital. But the hospital was closed. There was no notification sent out in the community to let the people of the community know that that hospital was no longer in business. So as a result of that, the...unfortunately, the young man died. Clerk Leone: "House Bill 2448 amends the School Code. This Bill requires the State Board of Education to initiate an annual Governor's Recognition Program for outstanding schools, communities and businesses which are free of drugs. House Bill 2448 also provides for a competitive grant program."

Speaker McPike: "Excuse me, Mr. Clerk. Representative Cullerton would like to hear this. So, if you could read it so we could hear it."

Clerk Leone: "Okay. The State Board of Education estimates the following impact of House Bill 2448: The size and extent of ISBE staffing needed would be a function of the overall annual dollar value of the Grant Program and the number of grants to be administered. We assume the program of grants of three million to ten million with every school district eligible for at least a small grant of this basis, and with the need for the recognition program, the program would likely require staffing of two professionals, one clerk and one secretary. Costing for such a staffing alignment,

including fringe benefits, would be approximately \$140,000. Traveling, duplicating, awards, postage and other costs would be in the range of 30,000 or more. Total estimated cost, \$170,000 a year. A grant program with more than ... more that ten million up to twenty million in outlays would probably cost the agency 250 to 300 thousand reflecting more extensive staffing, in-service training and monitoring."

But when Representative Cullerton asked for the fiscal note, there must be malice there somewhere. Now, how many fiscal notes of Democrat big-spending Bills are we going to get read when we request our friend, Tony Leone, to do so? Are you going to call Democratic fiscal notes and have the Clerk read them...ad nauseam?"

Speaker McPike: "No."

McCracken: "For when they...for when they...yeah, precisely, for when they cost a billion dollars to do this and a billion dollars to do that. So what I want to know is when Representative so and so calls a Bill costing a billion dollars and it's a Democratic Bill, is it going to be read as seriously and as at length as Representative Cowlshaw's was just read? But the billion here and the billion there that the Democrats propose, I predict will never, ever be read into the record. That's my guess. I'm just speculating."

Speaker McPike: "Mr. Leone, Representative McCracken has strongly objected to the way that you read that fiscal note. And don't do it again. Representative Cullerton now to explain his vote."

Representative McCracken has acknowledged that it's a big spending Bill. I thought it was only 4.6 million that was going to be funded by the cigarette tax that's in a Senate Committee after an unsuccessful vote to discharge. So, I just wanted to know how much, maybe the Lady could explain in her... by explaining her vote, whether this is 4.6 million, ten million or twenty million."

Speaker McPike: "Representative Cowlshaw to explain her vote."

Cowlshaw: "Mr. Speaker, for this program there is already an amount of \$4,625,000 in the State Board of Education budget. Speaker McPike: "Mr. Trotter."

Trotter: "This being...the purpose being is that a lot of people in being derelict in their responsibilities to paying child support would rather quit their job and hide behind the shield of public aid and general assistance because those checks are not garnished. We're saying that those people might have an incentive to keep their jobs if, in fact, they know that their dollars will be taken from them regardless if they want to or not."

McCracken: "Okay, sounds good."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 111 'ayes', no 'nays', none voting 'present'. House Bill 955, having received the Constitutional Majority, is hereby declared passed. House

Bill 981, Representative Davis. 981, Mr. Clerk, read the Bill."

Clerk Leone: "House Bill 981, a Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker McPike: "Miss Davis."

Davis: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. We all know that self-esteem develops because of role models. Minority pupils would improve in their academic achievement as well as in their discipline if House Bill 981 were passed. Because of the ability of many students to go into other fields today, where the pay is much superior than that of a teacher, the pool of teachers is decreasing. Sixteen percent of the students outside of Chicago are minority, but only four percent of the teaching staff is minority. Therefore, we are asking that you pass House Bill 981. The Bill simply requires that school boards develop and implement minority recruitment in hiring policies for teachers and for other employees by the year 1991. There is a state mandate fiscal note that states that since the Bill imposes a one-time requirement, it should impose no additional cost. We ask for a favorable vote."

Speaker McPike: "In opposition to the Bill, Representative Stephens."

Stephens: "Well, I just have a question. The Lady mentioned outside of Chicago. What is it inside Chicago?"

Davis: "Inside of Chicago, Representative, if you're speaking of the Chicago Public School System, minority students are approximately sixty-five percent."

Stephens: "No, I thought we're talking about instructors."

Davis: "Instructors in Chicago are still at a...I don't have the exact figures, but the percentage certainly would be lower than the majority."

Stephens: "But, it would be higher than the minority outside the city."

Davis: "Higher than the...minority...well..."

Stephens: "I'm wondering, if we would wind up with the reverse discrimination in the city...in the city. Would you wind up with having to hire more non-minorities in the city schools so that you could bring the level to the right numbers as your Bill would accord."

Davis: "Well, I am not sure that we are asking for levels to be sought. I mean it isn't...we're not asking for any numbers. We're merely saying put forth a little effort and bring into your school building people of minority races."

Stephens: "Okay, I don't have a problem with that. I don't...when my kids go to school, I don't care if they're taught by a black, white or indifferent. That's great for me, but I happen to live in an area that's like...the minority's total is like two and a half percent or a percent and a half, and if right now we have one or two or three percent minority instructors, would your Bill cause the school board to have to go on a recruitment plan to increase that?"

Davis: "No, Sir. Let me state again, the Bill is merely saying to school boards across the State of Illinois put forth some effort in the recruitment of minority teachers..."

Stephens: "So if they..."

Davis: "And I'll state the reason again. You said in your community, Sir, that there are two and a half to three percent minority students?"

Stephens: "I don't know about the students..."

Davis: "How many..."

Stephens: "The total population is about two and a half percent, I think."

Davis: "Students, you don't know?"

Stephens: "Well, I...no, I don't. I'm just...total population."

Davis: "But, don't you think...Don't you think, Representative, it would be very positive and have a positive effect upon those students who live in your community who are minorities to see a minority teaching at the school that they attend?"

Stephens: "Oh absolutely, and I think it would do good for the majority to see thattoo. I think it would have a positive effect. What I'm asking...and we have that. There are minorities teaching in the schools. What I'm asking you is if it's roughlythe same balance, if there isn't an extremely negative balance showing prejudice, would they have to create a plan if they've already met some standard?"

Davis: "No, they do not. If they already have some minorities that are in that building who are being positive role models for those students, they don't have a problem."

Stephens: "So if they've got..."

Davis: "But in those buildings where they..."

Stephens: "If there is a black or an American Indian teaching in that school system or in that building, then they can say, 'Well, that building's got a positive role model. Look at building 2 now and..."

Davis: "I would hope so."

Stephens: "Is that..."

Davis: "I would hope so. We're not saying you have to have five, we're not saying you have to have ten, we're not saying you have to have twenty. What we're saying, Sir, is these students need positive role models whom they can emulate..."

Stephens: "Well, I agree with you. I think we all need positive role models and whether they're in the schools or in the Legislature or on the sportsfield, wherever it is, I

couldn't agree with you more."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. Mr. Lang, 'aye'. On this Bill there 101 'ayes' and 11 'nos'. House Bill 981, having received the Constitutional Majority, is hereby declared passed. House Bill 1415, Representative Trotter. Mr. Trotter, do you want to have this Bill called? Representative Trotter, do you want the Bill called? Read the Bill, Mr. Clerk."

Clerk Leone: "House Bill 1415, a Bill for an Act in relationship to adequate ventilation in office buildings. Third Reading of the Bill."

Speaker McPike: "Mr. Trotter."

Trotter: "Thank you, Mr. Speaker. It seems like I'm on a roll this morning. House Bill 1415 is actually a very simple Bill, as I thought the others were also. It has been designed actually to enhance the quality of life for the worker in his place of employment. We're asking that... the genesis of this Bill was brought about because in the last several years researchers have come to realize that health risks from air contaminants in the air environment may be greater indoors than those outdoors. And we're asking that we rectify this problem, and this Bill can do that. I ask for your 'aye' vote."

Speaker McPike: "In opposition to the Bill, Representative McCracken."

McCracken: "Thank you, Mr. Speaker. I do rise in opposition. Contrary to popular belief, our employees in this state are not working in sweatshops and dying for lack of fair conditioning. This is an idea whose time has past. It would be appropriate back in the 1890's but we're beyond

that now. It's not a question of someone's safety or health involved here. Frankly, it's gotten to the point where it's an issue of comfort. If it's seventy-two degrees, you're more comfortable than if it's seventy-eight degrees. And that is not a good enough reason to be imposing these costs on our businesses and even on the state. The state is included in the definition of employer. Has the Gentleman considered the ramifications of having air conditioners in every building in which the state occupies? It's just not necessary. It's counterproductive. It's expensive and it has no good purpose."

Speaker McPike: "Question is, 'Shall House Bill 1415 pass?' All those in favor vote 'aye', opposed vote 'no'. Representative Black to explain his vote."

Black: "Well, thank you very much, Mr. Speaker. You know, with all of the construction going on in the City of Chicago, many of us in areas that aren't that fortunate, look at that building construction going on in Chicago and all the new buildings and we sometimes get very envious. I just wonder how much this would cost the municipalities like Chicago if this Bill would go into effect with all of the highrise, modern, state of the art sealed buildings. I think the cost would be astronomical. And the standards in this Bill defy imagination."

Speaker McPike: "Mr. Trotter to explain your vote."

Trotter: "This Bill actually...there's provisions in the Bill itself that exempt those that can't afford to do it. We're asking that those that can and those that there are complaints at, you know, at least comply to this regulation. The fiscal impact that they're talking about here, the Board of...the Department of Labor said there's a one-time cost of \$173,000 and that's not even in FY90,

cause this Bill doesn't take effect till FY91. You know, I believe we should get more votes than 34. We work in a very comfortable environment and there's no reason why we can't expect other people to have that same benefits. So I'm looking for more 'aye' votes."

Speaker McPike: "Representative Levin."

Levin: "Mr. Speaker, in explaining my 'aye' vote. In Committee we heard testimony concerning state employees in the Centennial Building, the very next building over, who suffered from fumes in the printing area because of lack of circulation. That's the kind of thing that this Bill is directed at dealing with. And I would encourage more 'aye' votes."

Speaker McPike: "Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 32 'ayes', 75 'nos'. House Bill 1415, having failed to receive a Constitutional Majority, is hereby declared lost. Representative Flowers, House Bill 1527. Read the Bill, Mr. Clerk."

Clerk Leone: "House Bill 1527, a Bill for an Act to create a Child Care Program. Third Reading of the Bill."

Speaker McPike: "Representative Flowers."

Flowers: "Mr. Speaker, Ladies and Gentlemen of the House, this is what I call my Grandma Hands Bill. We are asking the Department of Aging to put together a volunteer training program for senior citizens to take care of young babies. It will be extra income for the senior citizens as well as it would provide that nurturing that young people need growing up because their parents has to work. And I would be more than happy to answer any questions that you may have in regards to House Bill 1527."

Cowlishaw."

Cowlishaw: "Thank you, Mr. Speaker and Representative Black. I stand in opposition to this Bill as does the Department on Aging. The Department on Aging points out that it does not currently have sufficient funds to completely fulfill its obligations under the Elder Abuse Act. If we do not have sufficient money to be certain that we try to prevent elder abuse, then it seems to me we certainly ought not to be undertaking any new programs. In addition to which, as a very recent grandmother, I would like to say that any senior citizen who has had children of his or her own, already knows all there is to know about raising children. And anybody that age who has never had children is never going to learn. I think this Bill should be defeated."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Have all voted? Representative Davis to explain her vote."

Davis: "Thank you, thank you, Mr. Speaker. This is a Bill that I think will be... it will help the state to save money. When we talk about the needed child care, we have a...we have a resource of people whose talents are not being used and that is our senior citizens. And certainly, the State of Illinois would want to be involved and make certain that that senior citizen was capable of holding a twelve pound baby. We've got a cocaine baby abuse problem. We're going to need people to help care for those babies. And who better could have the heart and the compassion than a senior citizen. Senior citizens are not ready to be thrown away and called useless. Many things that they are capable of doing, but there's one in which they would welcome the opportunity and that's to assist us in the care of these children."

all voted who wish? Representative Black."

Black: "Well, Mr. Speaker, thank you very much. I was just going to explain my vote. The Lady, previous Speaker, said it would save us some money. The Department of Aging estimates it would cost \$35,000 this fiscal year and an undeterminable amount...an undeterminable amount the thirteen area agencies on the aging. You know, let's get serious. There are many priority programs and services that need the attention of the Department of Aging. We currently have programs in the Department of Aging that are unfunded, such as elder abuse. So why would we want to create a new program that the Department of Aging cannot do at this time. Let's do the program that we said we would do. Let's fund those, then let's come back and talk about new ones."

Speaker McPike: "Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 59 'ayes'...Representative Santiago, 'aye'. On this Bill there are 60 'ayes', 44 'nos'. This Bill, having received the Constitutional Majority, House Bill 1527, is hereby declared passed. House Bill 1561, Representative Wyvetter Youngue. What happened to Representative Youngue? theschool district, but that Amendment has not been fully negotiated and agreed on. But I do have an understanding with the State Board that if the Bill proceeds further, it will be that with an Amendment that we agree on. And I move for the passage of the Bill."

Speaker McPike: "Representative, who stands in opposition to the Bill? Mr. McCracken or Mr. Stephens. Representative McCracken."

McCracken: "No, I don't stand in opposition to the Bill. I would like to compliment the Lady. I'm sure she'll work with the School Board. Now, having said that, Madam, do you have any more Bills to call?"

Speaker McPike: "No, this is the last one."

McCracken: "Okay, good, I'm for this."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. Speaker McPike: "Representative Cowlshaw."

Cowlshaw: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I will begin by reading the fiscal note on House Bill 2605. The fiscal note says this Bill establishes grant programs for intensified focus on scientific literacy. There is an appropriation for 10 million dollars for this purpose in House Bill 591. This is the scientific literacy initiative, consists of State Board of Education Grant Programs to focus on increasing the teaching ability in scientific subjects for teachers throughout this state,

includes both public and private school teachers. And it will be, I am sure, overseen very carefully by the Governor's scientific advisor who has been advising us on this Bill all along, Doctor Leon Letterman, the former Director of Fermi Lab. I move for the adoption of House Bill 2605."

Speaker McPike: "And on that, Representative Cullerton."

Cullerton: "Yes, Representative Cowlshaw, this program was presented to us by the Governor, I believe, at the State of the State, and I think that thereis...this 10 million dollars is in the budget, but this money...doesn't this money come from the increase in the Cigarette Tax?"

Cowlshaw: "That is correct."

Cullerton: "As you know, that tax was started in the Senate and is still in Committee and a Motion to discharge, I think, failed. Is that...do you know if that cigarette tax is still alive somewhere or...what happens if the cigarette tax doesn't pass? What happens to this program?"

Cowlshaw: "It is my understanding that that proposal has been amended on to Senate Bill...just a moment, I'll get you the number, 1113."

Cullerton: "Now, just...I assume that you're supportive of that tax to help pay for this program."

Cowlshaw: "That is correct."

Cullerton: "Some money goes to the...to the Math and Science Academy, I know it's always of interest to certain Members here. How is...what part of this Billdeals with the Math and Science Academy?"

Cowlshaw: "This Bill makes it possible for these programs to increase the teaching abilities of those persons who teach science...science subjects. It involves the cooperation of both public and private colleges and universities, both public and private schools, and the Illinois Mathematics

and Science Academy."

Cullerton: "So, basically, the money will be spent to...the money will be going to teachers who will be trained..."

Cowlshaw: "The money will be spent for programs to increase the capabilities of teachers who teach science and mathematics."

Cullerton: "To teach the teachers how to be better teachers at math and science."

Cowlshaw: "Well, Representative, it seems apparent that the teaching staffs that we presently have, not only in Illinois but throughout this nation, are not succeeding as well as we would like them to succeed. When our students are compared internationally with students from other nations, particularly in the subjects of mathematics and science, that comparison certainly does not show that our young people are achievers. And I think that because of the importance of those subjects internationally, in the economy and for every other good reason, that it is really important for us to address our inadequacies in the teaching of mathematics and science in Illinois and throughout this nation."

Cullerton: "To what extent has the actual program been developed? Is there...could we point to a specific school district that's going to get X number of dollars or has it not yet been advanced that far?"

Cowlshaw: "No, Representative, that's a very...that's an excellent question."

Cullerton: "Thank you."

Cowlshaw: "But actually this program has not been put into the kind of final condition where every t is crossed and every i is dotted. We do have any number of people who, I'm sure you would agree, are highly competent, who are working on this program even as we stand here discussing it. And as I

Pullen: "Is it possible to ask a question?"

Speaker McPike: "Yes, sure. Proceed."

Pullen: "How does this apply in a situation of familial status?"

yet 18 years old with a parent, legal custodian or their designee. Discrimination on the basis of familial status is prohibited in all real estate transactions."

Pullen: "So this means that persons who are transferring property either by sale or lease would not be able to refuse to rent or sale to a family that has someone aged up to 18?"

Flowers: "Pardon me?"

Pullen: "Does that mean that under the provisions of this, someone who is transferring property, whether by sale or lease, would not be able to refuse to do so on the basis that the person who is receiving the property had in the family someone who is aged up to 18?"

Flowers: "You're right."

Pullen: "Thank you."

Speaker McPike: "Representative McCracken."

McCracken: "Madam, is it your position that this Bill would prohibit a person from...now, well, let me ask this. Would this apply to leasing as well as real estate sales?"

Flowers: "Yes, it would."

McCracken: "So, if a person wanted to rent who is living with a person of the opposite sex, not married, they would have to allow the leasing to be done. An unmarried couple, which is common these days."

Flowers: "We...we are talking about families here."

McCracken: "Well, this same Section has been..."

Flowers: "Familial status. The Bill specifically talk about familial status. That is very clear in the Bill."

McCracken: "Precisely, and the Department of Human Rights under current law is construing that to require an old woman living upstairs to rent her downstairs apartment to a couple she's not married, when she objects to that on moral grounds. Now what I want to know is, does this continue or strengthen that problem?"

Flowers: "This has nothing to do with that particular issue that you in reference to now."

McCracken: "Alright, to the Bill. What we say a Bill does or doesn't do is immaterial as we all should be aware by now. It's the language of the Bill that people look at. These agencies construe it, regardless of our legislative debate or intent. They couldn't care less and the Human Rights Commission now is persecuting a woman because she will not rent to an unmarried couple. She doesn't want them in their house. She doesn't want to rent to them. What is happening in society today is that we're standing on our head. Now, she has to prove that she is not discriminating. When, in fact, this couple could go somewhere else and live virtually anywhere. It's crazy. And this just exacerbates the problem. I know the realtors have signed off on this, but let me tell you something. I am very disappointed with the realtors this year. I don't know why they're doing it, but they are abandoning positions they've held for long periods of time for no apparent reason. Just because they say this is okay, doesn't mean it's okay. I rise in opposition."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Representative Kirkland to explain his vote."

Kirkland: "Thank you, Mr. Speaker. The Gentleman who just spoke addressed a different issue and what he addressed is simply not part of this Bill. This Bill is put together or this Section just talked about is put together to protect an ongoing work-sharing agreement between the Illinois Department of Human Rights and the Federal Department of Housing and Urban Development. And it protects their getting federal funding, and therefore it is necessary to pass. Excuse me, just a second."

It...it's...this Bill has nothing to do with the subject matter that Representative McCracken addressed."

Speaker McPike: "Representative Levin to explain his vote."

Levin: "Mr. Speaker, in explaining my 'aye' vote. Everything that is in this Bill is law at the present time. It was part of the Federal Fair Housing Amendments of 1988, so we are covered by it, whether we like it or not. In order, however, to get federal money, in order to administer that program, we need to have, as the last speaker indicated, a statute that is substantially the same and consistent with the Federal Law. The requirements are there. This really does not add anything, any new obligations that are not in the Federal Act. It is perfectly consistent with the new Federal Law in which the realtors and the various other groups, management and labor, were involved in the drafting of the new Federal Law."

Speaker McPike: "Representative McCracken."

McCracken: "I've looked at the familial status definition and I stand corrected. This does not address what I thought it did. I'm going to change my vote to 'yes'."

There's a no smoking rule. If you're going to smoke, please leave the floor. Representative Davis on House Bill 1927. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 1927, a Bill for an Act in relation to notices regarding the danger of alcohol. Third Reading of the Bill."

Speaker McPike: "Representative Davis."

Davis: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. The display of birth defect warning signs is what this Bill is all about. We find that there is a need for public information about the risk of birth defects when women consume alcoholic beverages during pregnancy. The United States Surgeon General has recommended abstinence...abstinence from alcohol during pregnancy. And since fetal alcohol syndrome and fetal alcohol effects are preventable, we recommend that we have signs at every retail establishment where alcoholic beverages are sold. This piece of legislation merely requires that those who sale alcohol display a sign that states: 'Warning. The Surgeon General reports that women who are pregnant should not drink alcoholic beverages because of the risk of birth defects.' We would answer any questions and we certainly appreciate your support of this legislation."

Speaker McPike: "Does anyone stand in opposition? The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 107 'ayes', 5 'nos', 2 voting 'present'. House Bill 1927, having received the Constitutional Majority, is hereby declared passed. Didrickson. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 2130..."

Speaker McPike: "Representative Didrickson."

Didrickson: "Thank you, Mr. Speaker, Members of the House. House Bill 2130 amends the Liquor Control Act. It increases the retailer license fee by \$50 and deposits it into a Youth Alcoholism and Substance Abuse Prevention Fund. It has been amended to include that on June 30th of each year the amount of money equal to the number of retail liquor licenses issued for that fiscal year multiplied by 50 dollars shall be deposited...or shall be transferred from the Dram Shop Fund and deposited in this new Youth Alcoholism and Substance Abuse Fund. I'd be glad to answer any questions."

Speaker McPike: "Representative Mautino, do you stand in opposition? Mr. Mautino."

Mautino: "Thank you very much. The Sponsor of this legislation has an idea that was addressed by Amendment #1, I believe. Let me explain to you the problem that occurs with the Bill in its current form. I have no problem with the Amendment, but the Governor has for the last I don't know how many years, and the Governors before him, have taken those surplus funds that have occurred in the...under the Dram Shop Fund and applied it into the General Revenue Fund. There are no state dollars whatsoever in the Illinois Liquor Control Commission. It is operated in total by the license provisions of the wholesalers, the manufacturers and the retailers in this State. First, let me say I think it's unfair that you provide for a license to a retailer that is in essence going to address the question of chemical drug problems as opposed to alcohol problems. We fund to a great degree with that additional million dollars that is always taken by the Governor and put in the General

Revenue Fund, to most of the programs under the prevention of alcoholism and mental health. I think what the Lady is doing with this Bill is trying to obtain funds from retailers for a purp...for a purpose, 90 percent of which they are no part. If in fact it were to license those individuals who were caught selling or using chemical drugs, I could understand the rationale. In this instance I would ask the Lady if she would respond to a couple of questions, if I may."

Speaker McPike: "Proceed."

Didrickson: "Yes, I will be glad to."

Mautino: "Number one, has the Governor agreed with your proposal, which would take the money away from his...the context he's been working on for the last fourteen years and put in this Fund?"

Didrickson: "Representative Mautino, I think you're confused. You're talking about lapsed funding. We are talking about an additional 50 dollars going on to the Retail Liquor License Fee. It has nothing to do with the lapsed funding at the end of the year that you are talking about."

Mautino: "Well, that's what your Amendment does. It takes those funds that are left over. Let me explain to you..."

Didrickson: "No, that's not correct. Could you listen?"

Mautino: "Okay."

Didrickson: "Because we've tried to work with you and address your concern about how you take those dollars from the Dram Shop Fund and move them into this Substance Abuse Fund and we are going to do that at the end of the year, not in the beginning of the year in order to provide for easy bookkeeping in that regard. What you are talking about are those dollars that are left over from the original 75 dollar fee that are lapsed. Than that the Governor gets to use. These are separate funds that we're talking about."

We are talking about an additional 50 dollars for a Youth Alcohol and Substance Abuse Prevention Fund. Separate and away from the Governor's lapsed funding from this fund at the end of the year."

Mautino: "And you are, I'm assuming, providing that to the licensees in the State of Illinois. How do you obtain money for the substance abuse from chemical dependent fundings? How do you...?"

Didrickson: "Would you repeat your question, please?"

Mautino: "Since you are addressing in both cases the conception of alcohol and chemical substance abuse, but you are applying your fee only to one of those areas."

Didrickson: "We are..."

Mautino: "How is it that you may possibly apply and obtain those funds for the other purpose?"

Didrickson: "Are you...how do we license drug dealers in the State of Illinois? I'mnot aware that we do."

Mautino: "That's my question. The biggest problem is in the area of substance abuse, chemical substance abuse. Yet there is no way to..."

Didrickson: "You're arguing...you're arguing the retailer liquor license argument, and I share your concerns. We are not hanging a mantle on the liquor industry. We are suggesting, though, that there should be a prevention fund, an appropriate source of revenue for a prevention fund of alcohol and substance abuse, which is frequently tied together, not always, but frequently tied together as a dependency. That the appropriate source of revenue for such a fund is indeed the retail liquor license."

Mautino: "Have you entertained the possible consideration of a fee on the manufacture and sale of drugs and pharmaceuticals through retailers and have them obtain a license and an increase in that license fee for those

purposes?"

Didrickson: "This Bill deals with the liquor...retail liquor license fee annually. It is...presently it's 75 dollars. I think it's been there for...at least 10 years. There has not been a change and what we are seeking to change here is an additional 50 dollars to be put into the Alcohol and Substance Abuse Fund."

Mautino: "Well, to the Bill, Mr. Speaker. The Amendment, I think, is laudable. I do not believe that the Governor will accept the allocation provisions that are established in the Bill and I certainly don't think it's fair to increase those licensure fees for this purpose and I stand in opposition."

Speaker McPike: "The question is, 'Shall House Bill 2130 pass?' All those in favor vote 'aye', opposed vote 'no'. Representative Satterthwaite to explain her vote."

Satterthwaite: "Mr. Speaker and Members of the House, I think that this is a very worthy attempt to put some money into a program for prevention of alcohol and drug abuse. Frequently prevention programs are left behind addressing the crisis after the fact."

Speaker McPike: "Have all voted? Have all voted who wish? The Clerk will take the record. On this Bill there are 83 'ayes', 32 'nos', one voting 'present' and House Bill 2130 having received a Constitutional Majority is hereby declared passed. We are now going to Special Order, Labor. Speaker Cullerton: "The Gentleman moves for the adoption of Amendment #1 to House Bill 39 and on that question, Representative McCracken."

McCracken: "Yes. This is more of a technical nature. Our analysis indicates there's a problem with the Amendment. I don't know that we have...well, I don't know if we have a problem with the Bill, to be quite honest, but...but it leaves an incomplete sentence."

Speaker Cullerton: "Representative DeLeo."

Speaker Cullerton: "Representative DeLeo asks that we take this Bill out of the record. We can come back to it, Representative DeLeo, after we straighten out the problems on the Amendments. House Bill 83, Representative LeFlore. Mr. Clerk, please read the Bill."

It requires that every contract entered into by the State of Illinois, unit of local government or school district for the construction, improvement, maintenance or repairs of public works contain a provision that steel products used in the performance of the contract be manufactured or produced in the United States. I would like to have a favorable vote on this good old Buy American Bill. Thank you."

Speaker Cullerton: "The Gentleman's moved for the passage of House Bill 83 and on that question is there any discussion? Representative Tate, do you stand in opposition?"

Tate: "Yeah, I do."

Speaker Cullerton: "Proceed."

HOUSE OF REPRESENTATIVES

if anybody really takes the time to read this Bill, one of the inherent problems in the Bill is how you define content in a product. Is a product that's 99 percent made in America domestic? Is it a product that's...that we...we have foreign paint. Is that a foreign made product? Is a product where the rubber comes from Taiwan, is that an American product? The fact of the matter is, is this Bill is unenforceable, it's complicated, it will in fact cause some Illinois companies that currently do business here, that currently employ thousands of people in this State, it will prohibit them from selling their products to Illinois governments because some of their parts might not be made completely in Illinois or the U. S. of A. So as a fact, we offered some Amendments to this Bill that would've improved this. I guess if you all want to send out your press release saying that we're going to make Illinois government buy only Illinois products, well I'm not sure if you can totally say that without tongue in cheek. This is a bad written Bill. It may be well intended, but this Bill doesn't do the job that we want to accomplish, and in fact, this Bill will be anti-Illinois and hurt a lot of Illinois employers that currently sell to Illinois government. So I stand in opposition to the Bill."

Speaker Cullerton: "The Gentleman stands in opposition to House Bill 83. On this question...the question is, 'Shall House Bill 83 pass?' All those in favor vote 'aye', all those opposed vote 'no'. The voting is open, this is final passage. Representative Ropp to explain his vote."

Ropp: "Thank you, Mr. Speaker. This Bill certainly is one that will tend to increase the cost of doing a lot of business in Illinois. It certainly is a foreign policy issue. It's an issue that in no way should be dealt with by the state and it's certainly setting up barriers that will affect

other products that we need to produce and export. Exporting is a kind of a business that is required by fair give and take and this takes that particularly out of the process."

Speaker Cullerton: "Representative Hannig to explain his vote."

Hannig: "Yes. Thank you, Mr. Speaker. I'm very proud to rise in support of this proposal. If you read the Chicago paper today, we find that our free trade President and his Council have declared that Japan is an unfair trader, that they've taken advantage of our country and our people and that even he finds that there's no alternative but to put them on the list of unfair traders. We in Illinois have an obligation to our people, to protect Americans and I vote 'aye'."

Speaker Cullerton: "The Gentleman from Cook, Representative Balanoff to explain his vote. One minute."

Balanoff: "Yes, Mr. Speaker. I come from an area that has been devastated by plant closings. As a child, within a ten mile radius of my house there were 130,000 people that were members of the Steel Workers Union. Today there are less than 30,000. Had we had this legislation ten years ago, maybe some of these people would be still working today. I urge an 'aye' vote for all the working men and women in Illinois and those who are unemployed in the hope that this will help to create jobs and I'd really urge more green votes."

Speaker Cullerton: "Representative Harris. One minute to explain your vote."

Harris: "Thank you, Mr Speaker, Ladies and Gentlemen of the House. The previous speaker indicated that we had had this Bill 10 years ago there would be more steel workers in his district. Ladies and Gentlemen, that is not correct. What we do in this Chamber simply by passing a law is not going

to put more steel workers in his district. We passed a Buy America Bill when everyone was waving flags and that was going to be the salvation of the steel workers in the Southeast side of Chicago. It didn't happen. It's not going to happen with this Bill. It doesn't make sense, quite frankly. What we do in this Chamber doesn't change the marketplace one iota. The correct vote on this Bill is a 'no' vote. I certainly would like to see some of those greens change to red. Thank you."

Speaker Cullerton: "Representative Davis, one minute to explain your vote."

Davis: "Thank you, Mr. Speaker. Ladies and Gentlemen, I rise in support of this legislation because I grew up in the house with a steel worker, Mr. James McKay, my father, and we were always proud to purchase things that used to say, 'Made in the U.S.A'."

Lady from Cook, Representative Didrickson."

Didrickson: "Representative Ronan, how wide spread is this problem?"

Didrickson: "Well, specifically, number of cases."

Ronan: "There's been hundreds of cases brought before the State of Illinois, the Attorney General's office and other law enforcement agencies of subcontractors who don't pay their employees after they've received their payment from the prime contractor."

Didrickson: "Of those hundreds of cases, what is the dollar figure?"

Ronan: "I didn't hear the question."

Didrickson: "Of those hundreds of cases, what is the dollar figure?"

Ronan: "Millions of dollars."

Didrickson: "Millions of dollars?"

Ronan: "Yes."

Didrickson: "Okay. If I want to avoid this legislation that you're proposing here, might I not then just go out and instead of using subcontractors, hire my own mason, my own electrician, my own carpenter, et cetera. Why would I run the risk then, if this becomes law?"

Ronan: "Yeah...you're free to do that, Representative. Why don't you go do that? If you want to set up a construction business, my advice is don't use subcontractors. Just set it up as a multi-faceted enterprise similar to your other legislative programs."

legislation."

Didrickson: "To the Bill, Mr. Speaker."

Speaker Cullerton: "Proceed."

I can tell you that the Illinois Construction Industry Council is opposed to this, the Home Builders Association of Illinois is opposed, the Central Illinois Industrial Association is opposed, the Illinois Sheet Metal Air Conditioning Contractors National Association is opposed and the list goes on and on. hereby declared lost. House Bill 1078, Representative Bowman. Mr. Clerk, please read the Bill."

Clerk O'Brien: "House Bill 1078, a Bill for an Act to amend the Illinois Wage Payment and Collection Act. Third Reading of the Bill."

Speaker Cullerton: "Representative Bowman on House Bill 1078."

Bowman: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. This is the first time this issue has come to the House floor. This deals with benefit packages for part time employees. This is a growing issue of growing concern, because more and more American industry is turning to part time workers. Part time workers are very often provided not only lower wages, but very often they have no benefits at all. No health insurance. No pensions. Nothing that makes life secure for all of us, who have full time jobs. The worst of it is that, sometimes employers turn to part time workers, not necessarily because they need flexibility in their work force, but because they're trying to circumvent collective bargaining agreements, or they're trying to circumvent legislation that we have worked so hard for over the years to make sure that working men and women have decent work environments and have job security. This legislation has been carefully crafted so that it applies only to people who are essentially full time workers. They have to work under this law...Bill, they would have to work at least two thirds of a normal working year. At least two thirds of a normal working year. So these are not seasonal employees, Ladies and Gentlemen, they are basically full time employees. Also, they have to work at least sixty percent of a normal work week. 60 percent of a normal work week, Ladies and Gentlemen. These are not kids who have a job after school at your local McDonald's. These are people who are

basically full time employees, because they have to work at least 60 percent of a work week. And then, this only applies to employees of large employers, 500 employees or more, Ladies and Gentlemen, 500 employees and more. So, if you're concerned about the mom and pop operations, don't worry, this Bill will not make life harder for them, will not cause their accountants to stay up late at night worrying over their...the benefit packages for part time employees. This Bill applies only to employers of 500 and more. It's an important issue. I'm proud to say that we are addressing it here for the first time. I ask you to take a good look at this legislation and let's take a step towards improving job security for all working men and women of this state, all working men and women. Thank you very much."

Speaker Cullerton: "The Gentleman has moved for the passage of House Bill 1078. Does anyone stand in opposition? The Lady from Cook, Representative Didrickson."

Bowman: "Yes."

Didrickson: "Representative Bowman does this cover state employees?"

Bowman: "Yes."

Didrickson: "Does it cover local units of government?"

Bowman: "Yes."

Bowman: "Well, what's good for the goose is good for the gander."

Didrickson: "Okay. Question #2, you talk about...part time employees and giving them benefit packages, and I assume that your Bill addresses part time employees with regards to part time benefits? Or how do you work out those proportionate share of benefits?"

Bowman: "Well, it's a pro-rata formula based on the number of hours a person works versus the median number of hours for the...it's, I'm sorry...for the mean number of hours worked by the remainder of the work force."

Didrickson: "So, there's a formula?"

Bowman: "Yes, Ma'am."

Didrickson: "So there has to be some computing here?"

Bowman: "Yes, Ma'am. But most firms with 500 employees or more, I'm sure all have computers. In fact, most of us have computers in our own district offices."

Didrickson: "Well, I think that's what we hear so often from employers and even here when we pass simple Bills with regards to child collection payments, we know what happens when we have to pass and change the fee schedule. But...how would we compute...how would you compute, I'm a part time employee, I work 27 1/2 hours one week, then I work 25 hours under your Bill another week and then I work 30 hours another week, and you provide day care for me. How many hours of that week am I going to be able to bring my child into the day care provision? That benefit?"

Bowman: "Well, actually day care is one of the easier ones to figure out, because the child would only be there during the hours of your work and so that one would be pretty much self policing. As for the other benefits, the..."

Didrickson: "Then they're getting a hundred percent of the benefit?"

Bowman: "No, only proportional to the number of hours you work."

Not a hundred percent of what somebody else works, but proportional to what you work, relative to the rest of the work force."

Didrickson: "Okay, well, okay, let's go on to...I...even though my concern there is obviously the red tape, the computing, the strangulation that you're putting on, not only private employers, but public employers, but..."

Bowman: "Let me compute...complete the answer to your question. As for these benefits, they are computed on a quarterly basis, so it's not something that you'd have to do every day, every week, every month, but on a quarterly basis, four times a year."

Didrickson: "Have you checked on how this affects 'FUDA'?"

Bowman: "Would you please repeat the question?"

Didrickson: "Have you checked on how this...what affect this has on 'FUDA'?"

Bowman: "Oh...well...I don't see how it would affect that. If you have an example you'd like to try out, I'll be happy to respond to it."

Didrickson: "Another question, Representative. You're trying to correct part time workers in the State of Illinois so that they aren't abused and overused, et cetera, and give them the same largesse and the same benefit package as do full time workers. Why not..."

Bowman: "Not...not the same, proportional. Not the same."

Didrickson: "Proportionate. Okay."

Bowman: "Yes."

Didrickson: "If I'm an employer and I have deemed that the use of part time employees is beneficial to my retail establishment, let's say I'm Sears Roebuck, alright? Let's say I'm Carson Pirie. Let's say I'm one of those large...firms that you're addressing here."

Bowman: "Like Sears Roebuck?"

Didrickson: "Why wouldn't I just avoid this and hire two part time workers, now for the one part time worker? In other words, instead of allowing them to work 20 hours a week or 25 hours a week, I'm now going to hire two for the price of one and I'm going to get out from under the benefits that you are trying to address."

Bowman: "Well, Representative Didrickson, I want people to understand and I'm glad you're helping me make my point...I want people to understand that what this Bill does, it basically addresses people who are, for all practical purposes, full time workers but who are not working exactly 40 hours a week. Nevertheless, they are working basically, a full week. Basically a full year and so these people deserve the same kinds of benefit protections. So I...at least on a proportional basis. So I thank you very much, Representative, for helping me make my point."

Speaker Cullerton: "Representative Didrickson, further questions?"

Didrickson: "Yes, I do...the Illinois Department of Employment Security has part time employees, limited to a maximum of 1500 hours a year. Their benefits are pro-rated. Their funding is Title 3, and where will the extra funding come from?"

Bowman: "Where will the extra funding come from?"

Didrickson: "Right, for these employees, since they get Title 3 funding and you are including state employees."

Bowman: "Well, Representative Didrickson, I'm sure that all of us on the floor will be able to deal with that when this issue comes before us in the Appropriations process. We deal with issues like this every year. In fact, the...contract was just renegotiated and you will be seeing as the... appropriation Bills float through this Assembly, you'll be seeing the results of that...those negotiations. This is

something we deal with all the time."

Speaker Cullerton: "Excuse me, Representative Did..."

Didrickson: "Well, that's true, we already passed that Appropriation Bill..."

Speaker Cullerton: "Excuse me, Representative Preston...excuse me, Representative Didrickson...the timer has just gone off. I put it on when you started your second question. If you could bring your remarks to a close, I'd appreciate it."

Didrickson: "I'd like to close then. To the Bill. The fiscal impact here is not only what we're going to do to the large businesses as Representative Bowman says in the State of Illinois, strangling them with more red tape. It also affects local units of government, everybody, it affects State Government. This is a major new piece of legislation. The Representative, I'm certain, is trying to address an issue that's riddled with loopholes, that...if an employer really wants to get around it, he or she certainly is going to the fiscal impact. I don't think we've even begun to address what that might mean. It's an idea who's time certainly has not come."

Speaker Cullerton: "The Gentleman from Cook, Representative Krska."

Krska: "Mr. Sponsor, what would prevent the employer from...it's presently, it's be a 25 hours minimum, correct?"

Bowman: "Only...a person has to work at least 25 hours a week."

Krska: "What would prevent the employer from dropping it down to 20 hours per week?"

Bowman: "Well, Representative Krska...I'm sure that if the employer wanted to continue to evade laws that he could lower to person's work to 20 hours a week, but they could do it right now...the problem we have, Representative, is that there are some employers who are trying to evade other

laws in collective bargaining agreements and this is an effort to try and plug that loophole."

Krska: "No, I mean right now, there are no benefits for part time employees. Correct?"

Bowman: "That's right. None, zero."

Krska: "So, he would not reduce...he has no benefit to the employer himself to reduce it by four hours or five hours. It sounds like a good Bill, but I don't believe its practical or neither do I believe it could work."

Bowman: "Well, the Bill would simply make it harder for employers to do...to chisel on existing laws and collective bargaining agreements. But, you're probably correct that there will always be somebody who can chisel a little further. But basically we're trying to make it harder for employers who just want to skirt the law to cut off people from benefits."

Krska: "Well, I think the one's that we're trying to entrap would be the Jewel's, the Dominick's, your chain stores, who are now hiring nothing but part time employees. And I'm sure what they would do is just hire more employees and work them less hours. It sounds good, but I don't believe that it would practically work and that's why I'm sorry, I'd have to vote against the Bill. Thank you."

Speaker Cullerton: "The question is, 'Shall House Bill 1078 pass?' All those in favor vote 'aye', all those opposed vote 'no'. The voting's open. This is final passage. Representative Preston to explain his vote."

Preston: "Thank you, Mr. Speaker. I rise in support of this Bill. We've been talking for years about getting people off the tax eating rolls and allowing them to become taxpayers. This allows women and others who, because of the necessity of caring for a family, want to nonetheless, seek part time work to permit them to support their

families or help in the support of their families. This Bill will do it and let people who want to work go to work, rather than staying home and remaining on welfare. I'd like to see green votes here. This Bill is long overdue. It's a good concept and I hope people will support it."

Speaker Cullerton: "The Gentleman from Cook, Representative Parke to explain his vote."

Parke: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Contrary with the previous speaker, I would say the reason why I'm voting 'no' on this legislation, it's going to have an adverse effect. The practicality is, if a business man or a woman has a corporation that big, they have the flexibility who to hire full time and who to hire part time. They just will not hire part time employees. That'll just mean that that very person he just alluded to will not have a job, because they will not be able to afford to keep them on. This in fact is an anti-jobs Bill, not a pro-jobs Bill."

Speaker Cullerton: "Representative Bowman, one minute to explain his vote."

Bowman: "Yes, just wanted to point out to the Members of the Assembly that more and more people are having to turn to part time employment for the support of their families. Almost every household these days has at least two wage earners, and very often the second wage earner is a part time employee. And the reason that they have to have two wage earners is to maintain a standard of living. And it's very important that those people who depend upon part time employment to maintain their standard of living, must have access to health care and must have access to pension benefits and so forth. That is the reason for this legislation and Ladies and Gentlemen if it doesn't pass now, I can guarantee you, you'll see it again and again

because this is a growing problem."

Speaker Cullerton: "Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. On this question there are 50 voting 'yes', 57 voting 'no', 6 voting 'present'. Representative Preston, do you wish Postponed Consideration? Representative Preston, do you wish Postponed...Representative Bowman. This Bill having failed to receive the required Constitutional Majority, is hereby declared lost. The Chair would like to acknowledge the presence of a former Senate staffer and now John Dunn's Congressman. Congressman Richard Durbin. Congressman Durbin is over here. Congressman, welcome. Congressman, you should know we passed a rule that says you can't smoke on the House floor, too. I know you're concerned about smoking. House Bill 1343, Representative Kulas. Mr. Clerk, please read the Bill."

Clerk O'Brien: "House Bill 1343, a Bill for an Act in relation to unpaid leave. Third Reading of the Bill."

Speaker Cullerton: "Representative Kulas on House Bill 1343."

Kulas: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 1343 is the Family Leave Act of 1989. This Bill would require an employer with 50 or more employees...I stress 50 or more employees...to grant up to eight weeks...eight weeks of unpaid leave...and I stress the word 'unpaid leave'..."

Speaker Cullerton: "Excuse me, Representative Kulas, there is a Floor Amendment that's been filed by yourself that has not been adopted. Do you wish to adopt that Amendment? The Bill's on Third Reading."

Kulas: "I believe the Amendment was adopted already. Amendment #8 or 7?"

Clerk O'Brien: "The Calendar says Amendment 8 is adopted. We have Amendment 7 here in the file."

Kulas: "As long as Amendment #8 was adopted, I would table the other Amendment."

Speaker Cullerton: "Well it's...the Bill's on Third Reading, so there's no need to table it. Proceed, I'm sorry, go ahead."

Kulas: "Okay. What the Bill...would do for...would give unpaid leave to any of its employees for the following reasons: for the birth of a child, for the adoption of a child or the foster care placement of a child, or for the illness of a child, spouse or parent. During the period of these...this unpaid leave, the employee has the right to continue at his or her own expense any insurance provided by the employer. Employees on unpaid leave could not be deprived of their seniority or other benefits. The modern family today that has emerged since World War II is different from that which had existed earlier. We no longer have the father as the bread winner and the mother as the homemaker. Now it takes two incomes for a family to keep its head above water. Today, 57 percent of mothers with children under the age of three hold jobs outside the home, compared with only 12 percent in 1950. By the year 2000, more than half of the work force will consist of women and more than 80 percent of these women will be mothers. Accompanying this phenomenon has been a steady increase in the number of single parent homes...or single parents who in the event of a family crisis have only themselves to rely upon. In addition, with people living longer, adults are confronted with the problem of aging parents who must be cared for. One in every eight people living in Illinois is over 65 years of age. Over 90 percent of these people live independently or with family

members, where the bulk of the health care is provided by family members. House Bill 1343 has certain benefits for business. First of all, House Bill 1343 exempts employers with fewer than 50 employees. This excludes 94 percent of the employers in the State of Illinois. But, it still covers 64 percent of the employees in the State of Illinois. To be eligible, the employee has to work at least 20 hours a week for 12 consecutive months. Ladies and Gentlemen, what we have seen in the United States has been a slow disintegration of the family unit. It is a sad fact that the United States is only one of four industrialized nations in the world without a nationally mandated parental leave program. Do you...you want to know who the other countries are? The Sudan, Upper Volta and South Africa. Everyone else has addressed this problem. So far, six other states have passed laws requiring unpaid job protected family leave programs. Wisconsin, Minnesota, Oregon, Maine, Rhode Island, Connecticut have had the foresight to take this lead in facing a major crisis in the United States. If we want to keep the integrity of the family and at the same time stabilize our work force, I would ask you to vote 'aye' on this Bill. Because all the money in the world will not educate our children, will not reduce crime, will not curtail the use of drugs until we bring back the family as the nucleus of our society. House Bill 1343 will do a lot to solidify the family unit and I ask for your 'aye' vote."

Speaker Cullerton: "The Gentleman has moved for the passage of House Bill 1343. Does anyone stand in opposition? On that question, the Gentleman from Vermilion, Representative Black."

Black: "Well, thank...thank you very much, Mr. Speaker and to the Gentleman's Bill. You know, we've seen this before and I

certainly commend him. He's made some changes in this Bill that certainly make it somewhat less objectionable, but I rise in opposition even though he has done an outstanding job of trying to address some of the concerns that people have. You know...there's nothing more important to me and probably any of us on this House floor, than my wife and my two children. And the Gentleman is right, we are a two income or two worker family. But you know, we were able to work out some arrangements with our employers when our children were infants and we got through. And I guess what gives some of us some difficulty in getting up is the very title of the Bill. Family Leave. Maybe we should really call it what it is and that's government intrusion into the collective bargaining process or the Government Mandates Act of 1989. Because that's what we're really going to do here. We're going to interfere and position the State of Illinois into the collective bargaining process if you're covered by an agreement, or worse yet, you're going to remove the flexibility that people have with their employer. Ladies and Gentlemen of the Assembly, what we're really attempting to do here is to simply legislate or mandate various benefits and if we're going to continue to do that, then maybe we just ought to abrogate all collective bargaining agreements and we'll handle that from Springfield in our very eminent wisdom. I really think that the issue at hand simply says, that we don't think the human involved...the family unit involved and the employer and/or his bargaining agent can deal with this situation. Well, I think they can. There is a labor shortage out there and it's going to, if you believe the demographic projections, it's going to get worse as the '90's come upon us. If we continue to remove the flexibility that employers and employees and/or their bargaining agents have

STATE OF ILLINOIS
86th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

at the table, then I think you're going to do a great deal not to enhance the family unit, but to destroy the marketplace in this state, take jobs elsewhere, and if you really want to do damage to the family unit, let's just continue the process of exporting our jobs to other states who don't get in to these kinds of state mandated benefits. The Gentleman has a Bill that has certainly been improved from what we saw last year. But I would submit to you it still puts the state in an area that I don't think we are really qualified, nor should we attempt to be in, and that is trying to tell people you don't know how, you can't, you're not capable of working out flexible arrangements to take care of your family needs. We're going to do that for you on a rigid basis. I really think that the Gentleman's Bill will have the opposite effect and I rise in opposition and urge you to vote 'no' on this measure."

Speaker Cullerton: "The Gentleman's moved for the passage of House Bill 1343 and that question...all those in favor vote 'aye', all those opposed vote 'no'. The voting's open. This is final passage. Representative Hultgren, one minute to explain your vote."

Hultgren: "Thank you, Mr. Speaker. It happens every year. Both business and labor come to Springfield and try to have us impose in their collective bargaining agreements that which they couldn't win at the table. Last year it was business. They came down here and asked for a law which would nullify successor clauses, which had been negotiated in good faith in collective bargaining agreements. At that time I voted 'no', because I didn't believe that we should enter into the collective bargaining process and abrogate agreements. Well, I believe the same rule applies today with regard to family leave. It should not be this General Assembly that determines what's in the contracts, but it

should be labor and management sitting down at the table and negotiating together. Accordingly, I vote 'no'."

Speaker Cullerton: "Representative Breslin, one minute to explain your vote."

Breslin: "Thank you, Mr. Speaker. This legislation has...is well drafted. It has a great Sponsor. It is without a doubt the best pro-family vote we could cast this year. This Bill sets social policy for this state. It's something that holds families together. It's not something that should be left to individual employers throughout this state. This is our job. This is a good pro-family vote and I urge 'aye' votes."

Speaker Cullerton: "Representative Didrickson, one minute to explain your vote."

Didrickson: "Thank you, Mr. Speaker. I'm a pretty good female Legislator with regards to women's issues, but this is one that we are doing on the business community, just as we've done on the education community over the last ten years. We're seeing it out in the business community, all the mandates that we have put on our schools. We are now having visited us on our businesses and I just...a word of caution on that, a word of caution."

Speaker Cullerton: "Representative Black, for what purpose do you seek recognition?"

Black: "Well, reluctantly, Mr. Speaker, should the Bill get the requisite number of votes, I would ask for a verification."

Speaker Cullerton: "Have all voted who wish? Mr. Clerk, please take the record. There are 67 votes. Representative Black, do you wish a verification? The Gentleman withdraws his request for a verification. On this question, there are 67 voting 'yes', 50 voting 'no', none voting 'present'. This Bill having received the required Constitutional Majority, is hereby declared passed. On the

Order of Elections, Second Reading, House Bill 2380. Out of the record. House Bill 2706, Representative Mautino. Mr. Clerk, please read the Bill."

Clerk O'Brien: "House Bill 2706, a Bill for an Act to amend The Election Code. This Bill's been read a second time previously. No Committee Amendments."

Speaker Cullerton: "Are there any Floor Amendments?"

Clerk O'Brien: "Floor Amendment #1, offered by Representative Breslin."

Speaker Cullerton: "Representative Breslin on Amendment #1."

Breslin: "Thank you Mr. Speaker. Ladies and Gentlemen, Amendment #1 would provide that any appointed state official whose appointment is subject to confirmation by the Senate or any political committee of that official would be prohibited from soliciting or from accepting contributions from any entity that does business with his agency, his or her agency, or that that agency happens to regulate. In addition to that, the provision would prohibit any political committee from making a transfer in to that particular agency head or his or her political committee from funds that are tainted that would ordinarily be prohibited otherwise. Very similar to the federal prohibition on such transfers in. The reason for the Bill, Ladies and Gentlemen is that it's my opinion that we create a very distressing impression of impropriety by allowing agency heads that work for this executive to accept contributions either directly or through political campaigns from people that they do business with. There is an editorial today in the Tribune. It pretty much said that Chicago and the Kremlin are ready for governmental ethics reform. Is Springfield? This is one of those questions. I hope you don't say 'no'. I am happy to answer any questions."

Kubik: "Thank you Mr. Speaker, Ladies and Gentlemen of the House. Would the Lady yield?"

Speaker Cullerton: "Proceed."

Kubik: "Representative, the Amendment, as I understand it, would cover any appointed state official whose appointment was subject to confirmation. Is that correct?"

Breslin: "That's correct."

Kubik: "Okay, so I would assume that that would include department heads of the Governor's office?"

Breslin: "That's correct."

Kubik: "What about the Comptroller's office?"

Breslin: "The Comptroller is the head of his office. There aren't separate department heads that are...that require confirmation by the Senate."

Kubik: "The Comptroller's office has department heads that are required... that have confirmation by the Senate?"

Breslin: "No. I don't believe such people exist."

Kubik: "What about the Treasurer's office?"

Breslin: "I don't believe such people exist."

Kubik: "What about the Secretary of State's office?"

Breslin: "I don't believe such people exist. If they do, they would be covered by this Act, and the purpose for it, Representative, is that these people already have...these people control, I guess you would say they participate and have the final decision on who gets state contracts. And the public should not be put in a position of having to deal with these people on a day to day basis with perhaps...not the expectation on the part of the department head, but on the expectation of the person who is doing the business that they ought to be making political

contributions."

Kubik: "Well Representative, I can appreciate where you're coming from, but I would argue also that perhaps maybe the Chief of Operations in the Treasurer's office, who is appointed, but perhaps not approved by the Senate, also has a great deal of power. Or the Chief of the Banking Division of the Treasurer's office might also have a great deal of discretion as to where funds go and...or perhaps the Personnel Director of the Comptroller's office, or the Deputy Comptroller, but yet in this particular legislation, these people...they're not covered under this particular Act. And I just was curious as to why the legislation seems...excuse me by using the term, but...sometime punitive against the Governor's office."

Breslin: "It's certainly not intended to be punitive, Representative Kubik. It's my view that the buck doesn't stop with anybody in those other offices than you mentioned except with the elected official. In the other circumstances, the state agencies make determinations on who gets contracts. Who they regulate and you can put people out of business or not put people out of business, made by their decisions. Those decisions don't then go up to the Governor's office for approval. On the contrary, in the other offices that you mentioned, I think the buck stops with the elected official and if he does something, or she does something that is inappropriate, the public has an opportunity to respond at the next election. This doesn't happen with an appointed official."

Kubik: "Well Representative, they still have a great deal of power and discretion under these particular...under this particular legislation. And so what you're saying is that if a department head from the executive branch wished to run for alderman of the City of Springfield and it just so

happened that somebody...his neighbor...had some business with the state, even though it may not be directly related, that person could not contribute to that campaign."

Breslin: "Oh no, no, no. They have to do direct business directly with that person's agency. Not with anybody in the state, but it must be somebody that does business with that agency."

Kubik: "But if that person is running for a local office..."

Breslin: "It specifically says in line...on page 1, line 32, 'The person or entity that does business with or is regulated by the state agency that the official serves'. So it's very narrow in scope."

Kubik: "Well. Mr. Speaker, to the Bill."

Speaker Cullerton: "Proceed."

Kubik: "It's always kind of interesting, with all due respect to the Sponsor, and I have the utmost respect for her, for the Lady from LaSalle, but you know, it seems to me that this particular provision is punitive in nature. While she would argue that they may not have the...the buck doesn't stop there, I would argue that many of those other agencies do...do offer a lot of discretionary power over where money is spent, how contracts are offered. I'd also argue, you know, in this year, this day of ethics, it often seems that we take the attitude...not only in this House, or in this body...but in Congress. Do what I say, but don't do what I do. And you know, we've got...we're saying that we shouldn't allow department heads to solicit contributions or we shouldn't...they shouldn't go in to business after they've left the government, and yet in this House...I would argue that most of the people who leave this House, if they aren't leaving by feet first, end up as lobbyists and consultants who come back and lobby our own Members. And yet we have no prohibition against those people. We

HOUSE OF REPRESENTATIVES

have no prohibition against other people in government who have jobs and then turn around and go into private industry. We have no prohibition against those people. So I think that this is extremely obvious that this particular Amendment is a punitive Amendment against the Governor's office and I think what we ought to do is treat this as a politically punitive Amendment and we ought to vote it 'no'...down, and give it a resounding 'no'. Mr. Speaker, I would ask for a Roll Call on this particular Amendment."

Speaker Cullerton: "The Gentleman from DuPage, Representative Stange. Oh, I'm sorry. Representative...it's Representative Olson's light is right in front of yours, I inadvertently called on you, Sir. I apologize. The Gentleman from Lee, Representative Olson."

Olson, M.: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Cullerton: "She indicates she will."

Olson, M.: "Representative Breslin, I'd take this...I'd like to take this to another level. As I understand it, the election law in Illinois is all encompassing. No county exclusions. Should be applicable to all areas and agencies. Are you suggesting that the possibility exists that in the City of Dixon, my town, or the City of Chicago, or wherever we should live that any appointees of the chief administrator would be encompassed in this suggestion? Why would we limit this only to the State of Illinois employees or appointments?"

Breslin: "Well, quite frankly Representative, the reason that I limited it to State...of Illinois employees was because that is where I know this...that the citizens are currently addressed by this problem. If it is also going on on the local level, I would certainly be happy to work

with you to craft an Amendment that you think would be appropriate. I think it should be understood that we are not...I am not suggesting here that we should in any way dampen a citizen's enthusiasm or interest in running for public office. Instead, I think we should promote that, but by the same token, I don't think they should be allowed to use their office inappropriately in order to gain undue advantage for that."

Olson, M.: "I just have two more questions, Representative Breslin. Has there been a large hue and outcry about this practice? I have received no mail in my district, have you?"

Breslin: "I have certainly heard about it and from those I have heard about it, they have been appalled by it."

Olson, M.: "Dismayed...dis..."

Breslin: "As a matter of fact, it first came up in city government, as I recall, a number of years ago and at that time, the mayor of the City of Chicago issued an executive edict indicating that his department heads could not establish political committees or accept contributions on their own behalf for their own political ambitions and that policy has carried over with every subsequent administration. The Governor of this State has not seen his way to assume that kind of ethical standard. I might also add that it is a...also the basis for President Bush's ethical standard for his agency heads. I think it's something that he's done and done well and I think the people of the State of Illinois would appreciate our doing the same thing."

Olson, M.: "I must add one more question. When I said one more, I'm going to have two more. Is it fairly reasonable to assume that the newly elected mayor of Chicago is looking for significant flexibility in both discharging and

employing new people in his administration?"

Breslin: "I have no idea."

Olson, M.: "Well, if you've been able to follow the account of the Chicago Board of Election Commissioners, Mickey 'Zoehler' feels there's been discrimination on Blacks and Hispanics who previously worked in that agency. Would this be a good place to look at it?"

Breslin: "I'm sorry, I don't have any idea what that has to relate to this Amendment."

Olson: "Well, we're just talking about the flexibility of appointees who run agencies, i.e., a Governor or mayor to have some discretion in who they appoint and whether they can solicit monies."

Breslin: "I suppose that they do. The question is, 'What is the right social policy? What should be the governmental ethics for the citizens who serve the people of the State of Illinois?' That's what we're here to address."

Olson: "Okay. Then I think this probably, Representative, should be addressed in Committee, rather than an Amendment comes on a Bill that's been laying around for three months and has never had a Committee. Just one more question. Will you be as much in favor of this device in January of 1991, should someone else become the Governor of the State of Illinois?"

Breslin: "Absolutely. Absolutely. Unqualified. Absolutely."

Olson, M.: "Well, I'm hearing a lot of people say, 'Kill! Kill!' on your side. I rest my case. I suggest this is not a good measure."

Speaker Cullerton: "The Lady's moved for the adoption of Amendment #1, House Bill 2706. On that question, all those in favor vote 'aye', all those opposed vote 'no'. The voting is open. Representative Hasara has one minute to explain her vote."

Hasara: "Mr. Speaker, I had a question."

Speaker Cullerton: "Well, perhaps she can explain her vote so you can pose the question."

Hasara: "The question is, Representative, does this encompass board and commission members that the Governor appoints who are confirmed by the Senate?"

Breslin: "Yes, it does. If they are confirmed by the Senate, because they participate in regulating particular agencies and they should not accept contributions from the people that they regulate."

Hasara: "To explain my vote, Mr. Speaker. There are hundreds of good citizens in this State who serve without pay on these boards and commissions. We often have trouble filling these slots as it is. This would be very prohibitive on these good citizens in this State."

Speaker Cullerton: "Representative Homer, one minute to explain your vote."

Homer: "Thank you, Mr. Speaker. I have a hard time seeing why any who support good government and ethics in government would be opposed to this Amendment. There's a big difference between elected officials soliciting contributions. Ultimately, we're the ones who must run for office and ultimately the people will judge our performance and our ethical activities. This Bill would prohibit appointed officials from soliciting and accepting campaign contributions from those companies or individuals with whom they have a fiduciary relationship and to whom they have business dealings. I can see no compelling reason to allow appointed officials to raise campaign funds from those entities. This Bill is a good government Bill. It's one that tries to inject ethics into the process. It's one that your constituents would be for and I think it's a shame that we would have those who would support...or would

reject this kind of an effort."

Speaker Cullerton: "Representative Black."

Black: "Well, thank you very much, Mr. Speaker. To explain my vote. You know the Sponsor of this Amendment is noted, I think, for her fairness. But let me point out something...it's my understanding that this Amendment was never even discussed in Committee. Never discussed in Committee. Now if this is a good government issue, then let's bring it back and put it through the Committee process. The same Sponsor raised an issue earlier this morning when Mr. Hallock had a Bill that had failed in Committee and he tried to attach it to another Bill that we voted on this morning. The Lady objected to this and said that's not the way we should do business. Well, I think fair is fair. If this was never even discussed in Committee, I would simply submit that it needs to go through the Committee process, get a full and fair hearing and let the Sponsor bring it back as a Bill. Thank you very much."

Speaker Cullerton: "Representative Ropp, one minute to explain your vote."

Ropp: "Thank you Mr. Speaker, Members of the House. I think that we are all in support of ethics, but I guess I'm having a little bit of trouble determining what the difference between this proposal is and...oh, let's take Members of this body who...well let's say are attorneys, for example, who may get contracts for the state. Is there any difference there. Representative?"

Speaker Cullerton: "Have all voted who wish? Have all voted who wish? Mr. Clerk, please take the record. On this question there are 44 voting 'yes', 55 voting 'no' and 7 voting 'present'. This Amendment fails. Any further Amendments?"

They had some suggested language which the State Board of Education thought could be improved. The Amendment we have just adopted is the improved language. It has been agreed to by the State Board of Education. It will accommodate the desires of the statewide organization of consumer education teachers, and in their behalf I move for the adoption of House Bill 317 as amended."

Speaker Cullerton: "Any discussion? Gentleman from McLean, Representative Ropp."

Speaker Cullerton: "She indicates she will."

Davis: "Will the Sponsor yield?"

Speaker Cullerton: "She indicates she will."

Cowlshaw: "No. Representative, a couple of years ago we adopted something of which I was the Sponsor, that provided for students to have the opportunity if they chose to take advantage of that opportunity, to take a proficiency examination to determine whether they were already knowledgeable about the materials that are taught in the classroom in consumer education. That Bill was passed and those tests have been given now, for two or three years. However, the consumer education teachers wanted to be assured that in fact what the goal of that test was, was in fact real proficiency, that students should have to demonstrate that they really were proficient in that work that is normally offered in the classroom. Therefore, this Bill is offered to define the term 'proficiency', so there is no question but what students have to meet very high standards in order to pass this test. That is all this Bill does."

Davis: "Thank you, Representative."

Speaker Cullerton: "Yes, Representative Giorgi."

Cowlshaw: "This Bill does not change anything in the existing School Code. It simply defines the word 'proficiency' at the request of the statewide organization of consumer education teachers."

Giorgi: "Would it be considered a mandate?"

Cowlshaw: "No, Sir, there is nothing involved in this Bill that has anything whatever to do with a mandate."

Giorgi: "But when it be...when it goes into the state statutes, doesn't that become a mandate?"

Cowlshaw: "Representative, I thought we were trying to move as fast as we could today. This Bill was requested by the statewide organization of consumer education teachers. They asked that a clear definition of the word 'proficiency' be provided in the School Code. Since the president of that statewide organization is my neighbor and lives on the same block, I thought as a nice neighbor it would be a good idea for me to do what they had requested. That is all this Bill does."

Speaker Cullerton: "Representative Steczo, on House Bill 712."

Steczko: "Thank you, Mr. Speaker, Members of the House. House Bill 712 is an attempt to try to deal with the...a thorny problem that effects commerce throughout the State of Illinois. And it's a question of vehicle access. Under the current law vehicles operating on interstate highways have five miles to be...from the ingress/regress points of those highways to utilize local roads for food, fuel, repairs and rest, as well as delivery. What's happening is that local authorities are not posting those roads so therefor it's almost impossible for these trucks to have access. What we have done...what we will do eventually in House Bill 712, is to say that it would be fine for those...for those trucks not to be able to use local roads for such things as fuel, food, repairs and rest, because close to interstates that kind of...that kind of thing is accessible and there's no need to do that. However, we would like to say that those local authorities shall designate points of...for points of loading and unloading. So the local businessperson can make certain that those deliveries are there. We've talked to the Department of Transportation, we've talked to the Municipal League, we've talked to local road commissioners and others, and we've also provided that if there are roads in their jurisdictions that simply cannot take the weights or what have you, they would have every right to make certain that those roads are exempt. But it's come to our attention

that there are local people who cannot get access to trucks for approach of loading and unloading of deliveries. This is an attempt to try to do that without all the rigamarole that has to go on, now. And it will be further refined in the Senate based on our tabling of Amendment #2, but I think it's a very necessary Bill, one that's very needed and I would appreciate your 'aye' votes, or would ask to answer any questions."

Speaker Cullerton: "Gentleman moves for the passage of House Bill 712. Does anyone stand in opposition? The Gentleman from Logan, Representative Robert Olson."

Olson, B.: "Thank you. This is the annual Bill that does not set well with downstate small communities, counties and townships. These trucks, eighty thousand pounds and very long, are built for interstate highways, interstate highways with about ten to twelve inches of concrete and several feet of base under those highways. The reason that some of these muni...small municipalities and local government units have not designated routes, is we just plain and simple do not have these roads and it does become a problem. The smaller communities, township roads, we move produce, chemicals, grain, fertilizer and the larger trucks will use our roads to do...to haul these products. These blacktop roads are three or four inches thick. They will crumble under the weight. If you're in a small community or even in you're larger communities and your parked at an intersection and one of these trucks want to turn, you know that they have to crowd off, you have to either move out of the way or back up while they make the turn. The trucks are designed for one purpose, they're wanting to take their extra length and their extra weight on streets and roads that they're not designed for. I urge that there're a 'no' vote on this."

Countryman: "Thank you, Mr. Speaker. Will the Gentleman yield?"

Speaker Cullerton: "Representative Steczko, yields for a question."

Countryman: "Does this apply now to all counties in the state?"

Steczko: "Representative Countryman, under the...under the Amendment that was adopted, it does not apply to Cook County, only because the Trucker's Association has agreed that for all intents and purposes the roads in Cook County being able to handle the additional weights are really not the problem, but there is a need for some access on local roads in other parts of the state. I would, however, like to assure everybody this is not the Bill that is introduced every year, because the Bills that we have heard prior gave complete and unrestricted access to trucks off the interstate. While Amendment #1 was tabled, it's my intention to put the language back in that says, 'Only...only designated routes to points of loading and unloading.' And in terms of Representative Olson's concern about local roads not having the base to be able to handle the weight subject to the provisions of Section 5...15-316 of the Code, which allow those local authorities to say no. They say no and restrict access to any roads they wish."

Steczko: "And now there's currently a five mile limit on this. Is that right? Are you going to take that five mile limit out?"

Countryman: "That's not changing. And in fact, the problem is, is that the local officials simply will not designate roads. As I mentioned earlier, the law says, 'Five miles for points of rest and sleep and gas and what have you.' We're saying that you don't have to designate it for those purposes. All you have to do is designate a route for

loading and unloading so that local merchants and local business can be able to get access to the...those deliveries."

Steczo: "Right, and how many pounds are we going to go to now? How many thousands of pounds?"

Countryman: "It would stay whatever the law currently allows. We do not change that."

Steczo: "Well, there was some talk, at least in my area earlier in the year, of raising that up to a higher limit, four or five thousands pounds higher. We haven't done that."

Countryman: "That has not changed at all."

Steczo: "Alright. So, you have no intention of raising the number of pounds. Is that right?"

Countryman: "Absolutely not. That's not the intention of this Bill."

Steczo: "Alright. And would this apply to grain trucks that are hauling grain that's been loaded or unloaded from elevators."

Countryman: "I presume it would apply, but again, those local officials would be able to stipulate that if the roads don't have the base to be able to handle the weights, those roads will not be used."

Steczo: "Alright. And then the other thing which always seems to be important here for those of us representing rural areas, that somehow that's noted posted so that the truck driver isn't going down the road that he can't go down and get..."

Speaker Cullerton: "Please bring your remarks to a close, Representative Countryman."

Countryman: "Well, I just want you to take into consideration that the posting should be important, so these truckers know where they're going, when they're going and if they're on the right road, because if you get them on the wrong road, you're talking about a substantial fine and penalty

for violation."

Speaker Cullerton: "The question is, 'Shall House Bill 712 pass?' All those in favor vote 'aye', all those opposed vote 'no'. The voting's open. One minute to explain your vote, Representative Parcells."

Parcells: "Thank you, Mr. Speaker. I really wanted to ask a question. I think we were given the impression that a town could say no to certain roads and that's probably true, but they also had to designate certain roads, it wasn't just a matter of no. Here yesterday we voted down a gasoline tax saying that we don't have enough money for roads, and yet today, we're going to say we're going to crumble those roads with these great heavy weights, and furthermore you have to designate some of those roads to be available. This is opposed by the Municipal League, the township officials, Association of County Superintendents of Highways and most of all by 'IDOT', cause it's going to ruin their roads. I would suggest a 'no' vote."

Speaker Cullerton: "Representative Steczo, to explain his vote."

Steczko: "Mr. Speaker, just to explain. The language that will go back in, in the Senate was agreed to by the Illinois Municipal League, who said they've got no problem designating the access routes, because they agree that there should be some route by which these points of loading and unloading can be reached. We also met with the township road commissioners and assured them that there will be nothing in this Bill that would allow them to...that would not allow them to designate the roads, or to say no to those trucks using roads that don't have the base. The Department of Transportation says we'll do whatever the local people want. So the Municipal League, in fact, has said that they would support this language, because it does give them the right to say no and they also

understand that they have to tell the trucks where they have to go and the trucks cannot use any other route but those."

Clerk Leone: "House Bill 1262, a Bill for an Act to amend the Public Utilities Act. Third Reading of the Bill."

Speaker Cullerton: "Representative Saltsman, on House Bill 1262."

Saltsman: "Yes, Mr. Speaker, this gives the same privilege to a industrial building being built in an enterprise zone that will be an estimated cost of over sixty million dollars, the same as one that creates 200 jobs. I ask for its passage."

Speaker Cullerton: "Gentleman has moved for the passage of House Bill 1262. The question is, 'Shall 1262 pass?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Clerk Leone: "House Bill 946, a Bill for an Act to amend the School Code. Third Reading of the Bill."

Speaker Cullerton: "Representative Kirkland, on House Bill 946."

Kirkland: "Thank you, Mr. Speaker. This Bill amends the School Code to provide for title to school buildings and school sites to be vested in the school district when there are no trustees of schools for the township within which a school building or school site is located. This applies to a couple of school districts up in...on the border of Cook County that have...that are in both Cook County and a collar county, in which case they are under the auspices of the Regional Superintendent of the collar county and have not...and therefore under the School have a...their own school treasurer...their own district treasurer. This would allow the vesting of property in that...in the school district rather than in a township treasurer, which is now the case except in vocational facility situations. So this would...in this particular...in this particular instance, this would allow Barrington Township to purchase...excuse me, Barrington school district to purchase a piece of property in Cook County, even though they don't have a township treasurer...a township treasurer for their school district."

Speaker Cullerton: "The Gentleman has moved for the adoption of House Bill 946. Does anyone stand in opposition? Representative Tate."

Speaker Cullerton: "What's your point, Sir?"

Tate: "My point is, if we have to go up to the Speaker's well and kiss your ring to get a Bill called, which has been in the process for the last ten weeks, this is ridiculous. You've got a Democratic list and you've got a Republican list. We've never run this process like this. You just go willy-nilly off the record, until somebody comes down and begs you to call their Bills. Why don't you put some order... There are Members on both sides of the aisle, Democrats and Republicans, that would like to get their Bills called, that would like to get their Bills heard in an orderly fashion. Why can't you give the Membership a list and stay with it and have some equity in this process?"

Speaker Cullerton: "Question is, 'Shall House Bill 946 pass?' All those in favor vote 'aye', all those opposed vote 'no'. The voting's open. This is final passage. Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this question there are 112 voting 'yes', none voting 'no' and none voting 'present'. This Bill was passed last year. It went on to the Senate and on to the Governor and was signed. This is making some changes in the current legislation. I ask for an Affirmative Roll Call."

Speaker Cullerton: "The Gentleman moves for the passage of House Bill 2106. Is there anyone standing in opposition? The Gentleman from Cook, Representative Williams."

Williams: "Thank you, very much. The Body...I wanted you to know that this Bill is about to go out of here, a lot of deals made, both sides. However, it goes and I'm...know it's gonna go. But I want you to know when you do this and I want to know on our side of this deal, want to know on our side of this deal that the little Amendment that we think can be taken that allows for the commission to select the brokers and the appraisers, it's the brokers and the appraisers of my skin color that won't get selected. It's the brokers and appraisers who just try to make a hard living and who want to expand and be a part of the total market who won't do it. This is a bad deal. It's a deal dealing with affordable housing, we made that deal twice. We made that deal in January, and to make that deal again today, is no good. I feel I got a credit coming on this one, Mr. Speaker. I'm letting you know and even though the deal is suppose to be ours, the blood stays where it is. There is no Pontius Pilate of washing your hands and saying I ain't got nothing to do with it, because you do. Where

everybody from my colleagues, my sister Majority Leaders, for everybody, this is a bad Bill, this is a bad deal. I'm telling you, you don't have to go through with this. There is no sense in sitting up there arguing all day about the Amendment, but like you say this is a card game, I'm gonna loose this game today, far more than likely, and I guess around here the ante is votes. One day I hope to get another ante, I hope to be dealt another hand whether it's on this issue or some other issue, but when the whole game is played out, when the whole game is played out, before we say sine die, I want another shoot at this game that we play here. Big time game, taxes, all types of things on the table, I'm saying this is a deal that did not have to be made. Affordable housing was voted on in January, when I said M.J.M for Speaker. So I tell you today go on do what you have to do. The Bill as amended, is not in its proper form. I do not feel that this Bill should be passed, its spreading of what is realistically a virus. We talk about AIDS, prejudice is a virus, prejudice is a virus and it spreads and what we are talking about is spreading this virus. Everything we talked about that's gonna happen and go wrong is starting to happen. And just the fact that we are here today, proves that this virus don't die. Its just like AIDS. It's a killer. One day as folks come to realize that what you do and what you say and how you affect our lives, this isn't right, this is not right. All I can say to my colleagues here in the House is please, as you try to accommodate a very small segment of the people of this state, as you try to appease a small segment of voters, what you end up doing is slapping our entire population in the face. We did it last year and now you're gonna say that these markets are gonna be forever closed to minority brokers, to minority appraisers. These markets

will never get over there. We'll close it off forever, so go ahead and do your thing there is no need to talk forever. I urge a 'no' vote. I will seek a verification if we get close. So I just want you to know now that this Bill is as bad as what we passed last year. Even as amended its just as bad. To my colleagues in the caucus, don't pay twice for the same deal. I urge a 'no' vote."

Speaker Cullerton: "The Gentleman from Cook, Representative Parke."

Parke: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I want to make it clear that the integrity of the real estate community of Illinois is at risk on this vote. There is no doubt that they are going to be restricted and this can open Pandora's Box. I think it's a dangerous precedent to cut out and limit where a free market can work and who can do it. I think its a...opening the door to a terrible precedent that should scare everybody here. And I would say that a positive note that to vote 'no' on this would be the right vote for your real estate community."

Speaker Cullerton: "The Lady from Cook, Representative Jones."

Jones: "Thank you, Mr. Speaker and Members of the House. This was a bad Bill last year and its a bad Bill this year. It was a racist piece of legislation last year and it still continues to be a racist piece of legislation. It's hard for me to understand three days ago when we were trying to pass legislation that would help everybody, people on public aid, people who are homeless, people that don't have enough to eat, nowhere to sleep, the same Sponsor would not vote on that legislation, but here he will vote on this and not only vote on it, but Sponsor it. I said last year it's the Ku Klux Klan without the hood and it's still the Ku Klux Klan without the hood. It's a racist piece of legislation and it makes me sick and I urge a 'no' vote."

Speaker Cullerton: "The Lady from Cook, Representative Davis."

Davis: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I would just like to say that all of us in here who hold the American flag in reverence, we feel that its anti-American to trample on that flag. Well, this is what the substance of that flag represents, equality and equal access for all Americans. I think it's more significant that we not trample on what the flag actually means rather than be concerned about the piece of cloth. As leaders in this Body, it's truly tragic when you become one of those who trample on equal access for all Americans and yet you become in an uproar when you feel someone has trampled on the symbol of the American flag. I support 'buy American'. I support the substance of what that flag represents and this piece of legislation is totally anti-American. Today it's against me, tomorrow it may be against you. I urge a 'no' vote."

Speaker Cullerton: "The Gentleman from Cook, Representative Ronan."

Ronan: "Thank you, Mr. Speaker, Members of the House. I sometimes become amazed at the rhetoric that flies around this Chamber. Let's talk about what this issue is all about. Last year in the wisdom of the General Assembly we established the Home Equity Plan. It wasn't really conceived in this room, it was conceived by a group of residents who live on the northwest side and the southwest side of the City of Chicago, who said that they have problems in their neighborhood and they want to have an opportunity to work together with their elected officials, so that they can keep their neighborhood as a vibrant effective place for all residents in the City of Chicago. They brought the plan to us. It made a lot of sense. It's starting to work. After a year a determination was made

HOUSE OF REPRESENTATIVES

that there has to be a few minor technical changes to make the plan easier for people to get into and to make the plan more sufficient. This is not a racist concept. I'm offended when someone accuses this of being a racist concept. This was prepared and drafted by people who live in my community. They are not concerned about what goes on in a lot of other areas in the world, they are concerned about their neighborhood and they are concerned about making sure that they have a safe decent place to live and where they can work and raise their family the way they want to. They have established a process, we are trying to work that process through. We need some minor technical changes and if anyone says this is a racist piece of language, a racist piece of legislation, they are offending me and everybody that lives in my district and I think that's wrong. I urge for the adoption and the passage of this legislation."

Speaker Cullerton: "The question is 'Shall House Bill 2106 pass?' All those in favor vote 'aye', all those opposed vote 'no.' The voting is open. This is final passage. Have all voted who wish? Representative McAuliffe, one minute to explain his vote."

McAuliffe: "Mr. Speaker, Ladies and Gentlemen of the House. Last night there was 28 Republican votes on this Bill and I was very happy and very proud. I'd urge my colleagues that voted for this last night to vote for it again. We are only responding to the people in our communities. This is not a racist Bill, it affects less than one percent of the precincts in the City of Chicago. The people that live in those areas came to us with a problem; they ask us to come down here and solve it. We thought we had it solved last year. We came back to you this year for some minor technical changes as Representative Ronan said. And I need

the help of the Republicans from Downstate and the suburban Republicans. It does not affect anywhere else in the State of Illinois except Chicago. It affects my neighborhood, Representative Ronan's neighborhood, Speaker Madigan's neighborhood, Bob Terzich's neighborhood. That's the only place its effective. This is the people in our area that came to us to solve their problems, as your people come to you in downstate and suburban areas and ask you to help solve their problems. When somebody comes to me and asks me for a downstate vote or a suburban vote, I'm always happy to give it. Now I'm asking for your help now, this is very important to our people. Thank you."

Speaker Cullerton: "Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. Yes. Representative Parke, did you ask for the verification? Representative Williams, I'm sorry. The Gentleman asks for a verification. Please poll those not voting."

Clerk Leone: "Floor Amendment #2, offered by Representative Hallock."

Speaker Breslin: "Representative Hallock."

Hallock: "Thank you, Madam Speaker, Members of the House. Amendment #2 would give a state sales tax exemption for mulching lawn mowers. As we all know, about twenty percent of garbage waste on a weekly basis is mulch of leaves and grass. What the mulching lawn mower would do, is grind all of that up and put it right back in the soil. The purpose of the Bill is to try to give a small incentive to people to try and buy these kind of lawn mowers. I think it would do two things. First of all, it would get people thinking more about our garbage problem, and secondly, to try and eliminate this waste...this mulch from the waste stream. It's a good Amendment and I would ask that it be adopted."

Speaker Breslin: "The Gentleman has moved for the adoption of Amendment 2. On the question, the Lady from Cook, Representative Currie."

Currie: "Thank you, Madam Speaker, Members of the House. This is a Bill that was killed in the Revenue Committee for two reasons. First of all, the apparent reason for the exemption no longer exists, because these materials will not have to go into landfill. Secondly, there is a substantial potential cost to the Bill, but I also have a

Clerk Leone: "Floor Amendment #3, offered by Representative Hallock."

Speaker Breslin: "Representative Hallock."

Hallock: "Just to make the same remarks."

Speaker Breslin: "Okay. Representative Currie, now, on Amendment 3."

Currie: "And in opposition, the same remarks. Cost and no necessity for this Amendment."

Speaker Breslin: "The question is, 'Shall the Amendment be adopted?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Have all voted who wish? Representative Hallock, one minute to explain your vote."

Hallock: "If I could just explain my vote. The Department of Revenue estimated the cost of this Bill to be seventy-five...seventy five thousand dollars per year. So the cost, obviously, is almost nil. And secondly, I think if we can in fact encourage people to mulch their lawns, we don't have to deal with the mulch issue at all. We've banned it from landfills in the future, but it's going to go some place. If we're going to encourage people to mulch their lawns, it won't be a problem at all. And I ask that you support this Amendment."

Speaker Breslin: "The Clerk will take the record. On this question there are 42 voting 'aye', 72 voting 'no' and none voting 'present'. The Amendment fails. Are there any further Amendments?"

further Amendments? I see. We just did 3. Amendment 4, then. Mr. Hallock."

Hallock: "Withdraw 4, please."

Speaker Breslin: "Withdraw #4. Any further Amendments?"

Clerk Leone: "Floor Amendment #5, Representative Hallock."

Speaker Breslin: "Representative Hallock."

Hallock: "Thank you, Madam Speaker. What #5 does, is also try to deal with our landfill crisis. The fed..."

Speaker Breslin: "Proceed, Sir."

Hallock: "The Federal Government is contemplating some post-closure requirements which begin on January 1, 1991. Here in Illinois, our requirements take effect on July 1, 1990. What my Bill would do, is...my Amendment does, is say that ours also would comply with the Federal Governments. In other words, we are extending our landfills by about six months if we pass this Amendment. It's a good Amendment. As far as I know, there is not a lot of opposition. I would ask that it be adopted."

Speaker Breslin: "On Amendment #5, the Lady from Cook, Representative Currie."

Currie: "Thank you, Madam Speaker and Members of the House. There is substantial opposition from the environmental community. There's no guarantee the delay the Gentleman proposes would only be a six month delay. It's not at all clear when the new U.S. E.P.A. regulations would go into effect. Legislation we passed last year requiring a fifteen year post-closure program, will encourage money marginal landfills from going out of business now, thus preventing ourselves from facing more serious problems in the future. The only sensible environmental response to this proposal, is to say 'no'."

Speaker Breslin: "You've heard the proposition and a person speaking in opposition. The question is, 'Shall Amendment

#5 be adopted?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Have all voted who wish? Have all voted who wish? Representative Mautino, your Bill is going to be next. Please be prepared. Have all voted who wish? 2600. Have all voted who wish? The Clerk will take the record. On this question there are 44...45 voting 'aye', 69 voting 'no'. The Amendment fails. Any further Amendments?"

Clerk Leone: "Floor Amendment #6, offered by Representative Levin."

Speaker Breslin: "Representative Levin."

Levin: "Thank you, Madam Speaker, Ladies and Gentlemen of the House. Amendment #6 would establish the Food Toxic Disclosure Act, so that individuals going to a supermarket could know whether the fruits and vegetables that they are buying contain materials known to cause cancer and other birth defects."

Speaker Breslin: "You have heard the Gentleman's Amendment. It is the Food Toxic Disclosure Act. On the question, the Gentleman from Cook, Representative Kulas."

Kulas: "Thank you, Madam Speaker. Question of the Chair. Is the Amendment germane?"

Speaker Breslin: "Give me the Amendment, please. In the opinion of the Chair...Representative Levin, it's the Chair's opinion that your Amendment is not germane. Are there any further Amendments?"

Clerk Leone: "There are no more further Amendments."

Speaker Breslin: "Read the Bill on... Read the Bill, Mr. Clerk."

Clerk Leone: "House Bill 1557, a Bill for an Act to amend the Environmental Protection Act. Third Reading of the Bill."

Speaker Breslin: "Representative Wait."

solid waste. I'd ask for a Motion to approve this."

Speaker Breslin: "The Gentleman has moved the passage of House Bill 1557. Does anyone rise in opposition? There being none, the question is, 'Shall House Bill 1557 pass?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Representative Stange, your Bill will be after Representative Mautino's. Please be ready. Have all voted who wish? This is final passage. The Clerk will take the record. On this question there are 111 voting 'aye', 1 voting 'no' and none voting 'present'. This Bill having received the Constitutional Majority, is hereby declared passed. House Bill 2600. Clerk, read the Bill on Third."

Clerk Leone: "On page 23 of the Calendar, House Bill 2600, a Bill for an Act to amend the Use Tax Act. Third Reading of the Bill."

Speaker Breslin: "Representative Mautino."

Mautino: "Thank you, very much, Ladies and Gentlemen of the House. House Bill 2600, which was amended last evening with basically Amendment #5 and then a continuation Amendment on #6, Amendment 5 for all intents and purposes, became the Bill. This legislation addresses the question of civic centers and the Department of Conservation. That embodies as well, the investment tax credit provisions that are so important to the business community; the civic center proposal, important to thirteen individual areas of this state and the Department of Conservation, a hundred million dollar program that touches virtually every district in this state."

Speaker Breslin: "The Gentleman has explained the Bill. Does anyone rise in opposition? Representative McCracken."

McCracken: "Not in opposition, parliamentary inquiry."

Speaker Breslin: "State your inquiry."

McCracken: "This increases bond authorization of various funds or districts and I ask the Chair to rule that it requires 71 votes to pass."

Speaker Breslin: "Representative McCracken, 60 votes are all that is required for the passage of this Bill. On the question, the question is, 'Shall House Bill 2600 pass?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Representative Mautino, one minute to explain your vote."

Mautino: "Thank you, very much, Madam Speaker. Ladies and Gentlemen, we are sent down here as Legislators to represent our individual districts. This proposal provides for those programs that are of importance to all of downstate Illinois and one provision for McCormick Place. Individuals have requested that their projects and programs be placed in this legislation. This is the only package for downstate Illinois. I recommend most highly that you try to explain why in fact you cannot support legislation that has your specific projects and programs for the betterment of the State of Illinois involved. This is not a bi-partisan issue. Excuse me. This is not a partisan issue. This is a bi-partisan issue with bi-partisan sponsorship. Individuals having anywhere from one to twenty million dollars in this package. I cannot understand how anyone can say that the imposition of this tax would not provide those projects and programs that you have asked for. The alternative is to have another program come over that will provide for nothing in terms of projects, but specifically for maybe 'IRAP', or something else. At least you can see what you're going to get for your dollars with the software tax included in this legislation. I can't for the life of me understand why anyone would vote against this Bill, based upon the

information individual Members have provided me."

Speaker Breslin: "Representative Brunsvold, one minute to explain your vote."

Brunsvold: "Thank you, Madam Speaker, Ladies and Gentlemen of the House. Just thinking back on this program and talking to the Majority Leader; if this Bill would have started on the Republican side of the aisle through the Lady from Schaumburg and the Minority Leader and then progressed through the process to myself, through the Quad-Cities and Representative DeJaegher and we would have went to Representative McPike and said, 'Jim, we'd like you to go to the Speaker and present this program from the Republican side of the aisle, and McPike would have went into to Mike and said, 'I'd like to present this program,' and the Speaker would have looked at him, looked at the program and said, 'McCormick Place, twenty-eight million dollars? You've got to be kidding. This is not something I can support.' He said, 'Jim McPike, how dare you bring me a proposal like this with all this money going downstate and...'"

Speaker Breslin: "Bring your remarks to a close, Sir."

Brunsvold: "'...and none going to Chicago.' So this is a downstate program as Dick Mautino has said, and downstater's ought to be supporting this, because it helps downstate."

Speaker Breslin: "Representative DeJaegher, one minute to explain your vote. Please note that votes are not changing on this Bill. Proceed, Sir."

DeJaegher: "I just want to make a point."

Speaker Breslin: "Quickly."

DeJaegher: "A few short months ago, the Governor of the State of Illinois came into the City of Moline, he felt that this was a high priority. In fact, he gave his word that if we

would find an alternate measure that basically would provide funding, he could be supportive of this Bill. Mautino has crafted a Bill that basically not only helps that area as far as the construction of a civic center goes, but also we've included business. Everybody talks about tourism. We've included tourism. We've tried to help each and every Member of this House. Please, give us some consideration. We are the largest metropolitan area in the State of Illinois without this and we fund others."

Speaker Breslin: "Bring your remarks to a close, Sir."

DeJaegher: "That's it."

Speaker Breslin: "Okay. The Gentleman from Madison, Representative McPike, one minute to explain your vote."

McPike: "Thank you, Madam Speaker. I don't know how to put together a package that is fairer to downstate Illinois than this. It is somewhat embarrassing, to be honest with you, to go into the Speaker and say, 'Here's a two hundred million dollar package. There's twenty-eight million dollars for Chicago and there's a hundred and seventy-two million dollars for downstate. There are three or four Members downstate that are interested in it. Mr. Mautino, Brunsvold, DeJaegher and a few others, and on the Republican side of the aisle, I presume that the Gentleman from Quincy who gets the convention center, would be interested, and the Lady from Schaumburg who gets twenty million dollars for her convention center, they would be interested.' And the Speaker said, 'I really have nothing special to request and twenty-eight million dollars for McCormick Place will be sufficient. Just call the Bill for a vote.' I was hoping that we'd get about thirty votes from the Democratic side of the aisle and about thirty from the Republican side of the aisle, because I think it's a fair package. We have a hundred million dollars for

HOUSE OF REPRESENTATIVES

downstate parks. They're in Republican districts, they're in Democratic districts. None of them are in my district. It's a package that everyone downstate should be supporting. For the life of me, since I have been here, I have never seen the Republican Party take a position against a package that was good for downstate, that was more than fair for downstate. If I had asked you to put together the package, you wouldn't have come back with a package like this. You would have tried to give Chicago a little more. You would have tried to give them a little more, because they've got twenty-five percent of the people and they only get twelve percent of the money. And McCormick Place isn't a Democratic issue. The money that goes to McCormick Place, supports Democrats and Republicans. It's a bi-partisan board. Certainly the Republican businessmen use McCormick Place. So, I don't really even consider that a Democratic part of the package. This really is a package for all of Illinois. I feel bad that Chicago doesn't have state parks, but the truth is, there are no state parks in the City of Chicago, and so that when we craft the package to try to help state parks, we would hope that the people of Chicago would use them. Last week there was a ribbon cutting ceremony at Starved Rock State Park. I think it's about an hour drive from Chicago. A brand new renovated park. The Governor is up there to cut the ribbon and I hope that everybody in the City of Chicago has a chance to use that state park, because I understand that it's very very beautiful. It's quite a project, quite a park to see. It helps our state and the same way with this package, it helps all of downstate. I told Dick Mautino that if this got 60 Democratic votes, I'd stand up and ask everybody to vote 'present'. I don't believe that it should have 60

Democratic votes. I think it's a bi-partisan Bill, it deserves bi-partisan support."

Speaker Breslin: "Representative Novak, one minute to explain your vote."

Novak: "Thank you, Madam Speaker, Ladies and Gentlemen of the House. I too, rise up. I'm incredulous that this cannot get more support. You know, I live in an area that we've been economically depressed since the early 1980's. We lost five thousand jobs. We have a state park, Kankakee State Park, that's visited by one and a half million people from the City of Chicago, that come down and visit our places. Beautiful fishing. Our newspaper, the Kankakee Journal, has wanted and many other groups, business groups, labor groups, recreation groups; they want a new development in our state park, a new resort. We're going to bring more money, more development, more people down to our area. It's going to be a tremendous shot in our arm for economic development. Every Republican downstate Legislator should look at this. Those of you with parks in your district, you'd be crazy not to vote for this. And look at the incentives for big business. The investment tax credits. Caterpillar, the largest corporation in the State of Illinois, needs this badly. The Illinois Manufacturer's Association. Those guys that help the Republicans all the time, they want this. They want this legislation renewed, cause it's so terribly important for business."

Speaker Breslin: "Bring your remarks to a close, Sir."

Novak: "Let's get some more 'green' votes up there."

Speaker Breslin: "Representative Saltsman, one minute to explain your vote."

Saltsman: "Yes, thank you, Madam Speaker. In my district there is not a state park that'll be benefited by this program.

However, the largest employer in the State of Illinois, outside of the state itself, will be the biggest recipient of paying the amount of money into this software tax than probably any other corporation in the State of Illinois. They have closed down four factories in other parts of the country. They have brought four thousand jobs back to the State of Illinois and have not closed one of their factories in the State of Illinois. We owe this tax incentive program to them, because they are also compromising on the computer software. Therefore, we need this park in Peoria County, which is not my district, it's in a Republican district. We need the million dollars worth of jobs that's going to be involved with it. And at that, I hope that we can get downstate people to push for this legislation, so we can get started with it and not have it come back changed around where we're going to lose a lot of our programs."

Speaker Breslin: "Bring your remarks to a close, Sir."

Saltsman: "This Bill is not going to come back the same way. You better look at it now, because I'll not vote for it the same way if it don't get out of here today. It'll have to be changed and something will have to be coming in my district."

Speaker Breslin: "The question is... Mr. Clerk, take the record, please. On this question there are 44 voting 'aye', 49 voting 'no' and 18 voting 'present'. This Bill having failed to receive the necessary votes, is declared lost. Representative Stange, on 1578. Out of the record. Representative McNamara, on House Bill 211. 211. Clerk, read the Bill."

McNamara: "Okay. Then I think I want to..."

Speaker Breslin: "Representative Edley, your Bill, House Bill 1434, will be next. So be prepared. Number 1 and #2 are adopted, Mr. McNamara."

this Bill. Have all votes...have all voted who wish? Have all voted who wish? The Clerk will take the record. On this question there are 98 voting 'aye', 13 voting 'no'. This Bill having received the Constitutional Majority, by three-fifths majority, is hereby declared passed. Representative Edley, on House Bill 1434. Read the Bill, Mr. Clerk."

Clerk Leone: "House Bill 1434, a Bill for an Act creating the position of taxpayer's rights advocate."

Speaker Breslin: "Representative Edley."

Clerk Leone: "Third Reading of the Bill."

Edley: "Thank you, Madam Speaker, Ladies and Gentlemen of the General Assembly. This Bill creates the Office of Taxpayer's Advocate in the Department of Revenue. The taxpayer's advocate is responsible for looking into taxpayer's complaints, evaluating department responses and in extreme cases, halting the tax liens...and releasing tax liens."

Speaker Breslin: "The Gentleman has moved the passage of House Bill 1434. On the question, the Gentleman from DeKalb, Representative Countryman."

Countryman: "Thank you, Madam Speaker. Will the Gentleman yield?"

Speaker Breslin: "He will yield for a question."

Countryman: "Representative, I think you remember the other day we passed out the taxpayer's bill of rights, which I Sponsored, which has a taxpayer's ombudsman in it. How does this taxpayer advocate differ from that ombudsman?"

Edley: "It's not quite as broad as your Bill. This Bill, I've negotiated with the Department of Revenue. They have no problem with this legislation. I think as far as a fiscal note, if you compare the difference this legislation is projected to cost less than...less than one hundred

thousand dollars, whereas yours is somewhere around two to three million. So, I think those are probably the major differences."

Countryman: "Well, I don't think there was ever a fiscal note requested on my Bill and the cost was disputed, I think, if you recall, but the...this taxpayer advocate is subject to the whim and the will of the Director of the Department of Revenue. That is, he can be fired by that Director, can't he?"

Edley: "He can be fired by the Director, but he's also charged to report to the General Assembly and the Governor each year."

Countryman: "Yeah, but I mean if the Director says don't do something, that's his boss, he's got to listen to him doesn't he?"

Edley: "Yes, he would."

Countryman: "Well, to the Bill, Madam Speaker."

Speaker Breslin: "Proceed."

Countryman: "It's unfortunate that this is the first Bill that the Representative is proposing, because it isn't a good Bill and in fact it is not a good position to have a taxpayer advocate who's subject to the whim and the will of the Director of the Department of Revenue. The federal taxpayer's bill of rights has an independent ombudsman. The Bill we passed out of here the other day has an independent ombudsman. I'll tell you that that's an important part of this and I'd recommend a 'no' vote on this Bill."

Speaker Breslin: "The question is, 'Shall House Bill 1434 pass?' All those in favor vote 'aye', all those opposed vote 'no'. Voting is open. Representative Barnes. Matijevich: "Mr. Speaker, Ladies and Gentlemen of the House.

This not only is his first Bill, I think it can be improved on, but that doesn't mean we ought to defeat it now. It is in similar concept to Representative Countryman's Bill. If I were Representative Countryman, I would have gotten up and said, 'You and I are pretty close to being on the right track; and you ought to support him.' I don't see why you should kill a Bill just because it's a little different than yours. It can be amended in the Senate to be tougher, but it can't be amended if you stop it here. It is a Bill to help the taxpayers and everybody ought to support it."

Speaker Breslin: "Have all voted who wish? Sixty votes are required for passage. Have all voted who wish? The Clerk will take the record. In December of '87, we passed a very strict smoke detector law, but the Fire Marshal's Office feels since ninety-one percent of the people that were burned in fires didn't have smoke detectors in the premises, that it's time for us to start educating the people about the laws that we put into effect. This Bill requires that seat belts be put in all school buses which are manufactured after the date of the Bill. No retrofitting of school buses will be required. This also requires rooftop hatches for the safety of the children, in the case the bus rolls over. Those of you that were relying on a federal report to say that you weren't going to vote for this Bill. I'd like to read a short section of this report to you. It say as follows: 'One of the concerns with seat belts, is that many children won't wear them. To be effective, seat belts must be worn and used correctly.' Though the committee agreed that a federal mandate for seat belts is not warranted, Members expressed

the opinion that a uniform safety restraint policy for all motor vehicles is sufficiently important that state and local school districts should be encouraged to equip new school buses with seat belts. This is a critical important area for our communities to save our children and I urge your 'aye' vote."

Speaker Breslin: "We have heard this Bill before. One person will be recognized in opposition. Representative Didrickson or Representative Parke. Which do you prefer. One person in opposition. Representative Didrickson, had her light on first. Proceed, Representative Didrickson."

Didrickson: "Thank you, Madam Speaker, Members of the House. It is absolutely correct as the Speaker has mentioned. We have debated this extensively. I can tell you that there are a number of boards of education that are opposed to this in the State of Illinois. The only significant research that we are aware of, comes from the National Research Council, that says, with this measure we would not providing...be providing any safety or safer bus rides for our kids in the State of Illinois. As I've mentioned before, I have been early on a proponent of car safety belts, of infant seats...safety seats in cars. I also was even a supporter of helmets for eighteen years and under on motorcycles. So, I think I have a pretty good track record with regards to safety. This is not an issue that is...really deserves our vote at this time. The issue is just not conclusive. In fact, I can tell you that there is much research that says we're going to really damage internal organs of our young kids, sitting on these buses with the safety belts on them. The compartmentalization is a much better way to go, which many of our school buses already have, to buffer the shock if they are in an accident. I would urge you to vote 'no' on this issue at

is the status of the Bill?"

Speaker Madigan: "Read the Bill."

Clerk Leone: "House Bill 1626, a Bill for an Act to amend the Civil Administrative Code. Third Reading of the Bill."

Speaker Madigan: "Mr. Tate."

Tate: "Thank you, Mr. Speaker. House Bill 1626 requires the Department of Professional Regulation to issue a monthly disciplinary report and it expands the investigative powers of the Department of Professional Regulation. Each and every board, the Realtors Board, Optometry Board, all the different boards that are regulated by the Department of Professional Regulation are in favor of this Bill. I move for its passage. I know of no opposition."

Speaker Madigan: "Read the Bill."

Clerk Leone: "House Bill 650, a Bill for an Act to amend the Illinois Library Systems Act. Third Reading of the Bill."

Speaker Madigan: "Representative Satterthwaite."

Satterthwaite: "Mr. Speaker and Members of the House, House Bill 650 provides for school library grants in the amount of seventy-five cents per pupil for the schools that meet

certain standards. It provides access to the resources of all of our libraries across the state to be used in conjunction with our school libraries. I move for passage of House Bill 650."

Speaker Madigan: "Mr. Hoffman."

Hoffman: "Thank you. Will the Sponsor yield to a question?"

Speaker Madigan: "The Sponsor yields."

Hoffman: "What is the cost to the state for this program?"

Satterthwaite: "If all of the schools qualified and they do have to meet certain qualifications in order to participate in the program, we estimate that the cost would be 1.15 million dollars. However, if less money than that were to be appropriated, it would be prorated."

Hoffman: "So, this is...additional system...systems to libraries and schools?"

Satterthwaite: "This would be for school libraries if they met certain standards and those standards are delineated in the Bill. It would require that they have a specific location, et cetera."

Hoffman: "Thank you very much for your explanation."

Speaker Madigan: "Those in favor of the passage of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Edley: "I pushed my button and I didn't get a... a green light, Mr. Speaker."

Speaker Madigan: "Let the record reflect that Mr. Edley attempted to vote 'aye'..."

Edley: "...'Aye', yeah."

Speaker Madigan: "Is Mr. Santiago in the chamber? Mr. Santiago? House Bill 476, Mr. Hicks. Mr. Clerk, what is the status of this Bill?"

Hicks: "Thank you, Mr. Speaker. House Bill 476 amends the School Code for the 89-90 school year only. It takes care of one small school, Farrington Township school in my district; cost 49,850 dollars. I'd appreciate a green vote."

Speaker Madigan: "The Gentleman offers his Bill. Mr. Hoffman."

Hoffman: "Thank you, Mr. Speaker. Will the Sponsor explain to us why this happened?"

Speaker Madigan: "Sponsor yields."

Hicks: "Yes, during the 1987-88 school year, in which calculations for this particular school were brought forth, it was not believed that the oil interest in that township which was very high, suddenly skyrocketed because of one or

So, in which they did the calculation for that school formula year, they were not included because of that they were penalized, and this simply takes care of what they would have received if they had of calculated it properly."

Hoffman: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I'm in support of this legislation, but it illustrates the problem when you use two different years to determine what the state aid should be."

Speaker Madigan: "Mr. Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Madigan: "Sponsor yields."

Black: "Thank you. Representative, you've come over and talked to us about this Bill and I appreciate that, but let me for the record indicate...you said this Bill was going to disappear after this was all taken care of, is that correct?"

Hicks: "Yes, Sir, that's correct. It only takes care of the one school district. It's something we've done in years past at times whenever you've had a superintendent..."

Black: "...Okay..."

Hicks: "... Who has failed to anticipate some new assessed valuation within that particular school district."

Clerk Leone: "Amendment #1 was adopted in Committee."

Speaker Madigan: "Is there a Motion?"

Clerk Leone: "No Motions filed."

Speaker Madigan: "Are there any further Amendments?"

Clerk Leone: "Floor Amendment #2 is being offered by Representative Tate."

Speaker Madigan: "Mr. Tate. Mr. Tate on the Amendment. Mr. Tate. Mr. Tate on the Amendment."

Tate: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #2 increases the penalty for reckless driving involving a DUI from a Class 3 felony to a Class 1 felony. It requires the court to instruct the jury to determine to the defendant that was driving under the influence, and this was currently required in nonjury cases. That's the standard. Move for its adoption."

Speaker Madigan: "Those in favor of the Amendment say 'aye'. Mr. Novak. Mr. Novak. Mr. Novak."

Novak: "Mr. Speaker, Ladies and Gentlemen of the House, I'd just like to make a comment about this Amendment. This Amendment originally was in the Bill when I came before the Judiciary II Committee, and after we heard the Bill a first time, I met with the Chairman of the Committee and I had the Bill redrafted to phase it back a little to get the Bill passed. Now, I'm not speaking against the Amendment,

but I thought the chairman of the Judiciary II Committee might want to add a few comments."

Speaker Madigan: "Mr. Homer, do you wish to comment? Mr. Homer."

Homer: "Thank you, Mr. Speaker. Will the Sponsor of the Amendment yield?"

Speaker Madigan: "Yes, the Sponsor yields."

Homer: "I'm caught off guard by your Amendment. What is...what is your Amendment do?"

Speaker Madigan: "Mr. Tate, could you explain the Amendment again."

Tate: "I increased the penalty for a DUI from Class 3 felony to a Class 1. Pretty straightforward."

Speaker Madigan: "Mr. Homer."

Homer: "Alright. Well, Mr...Mr. Speaker, to the Bill. We have...we have a situation where this Bill was introduced by Representative Novak, came to the Judiciary Committee and the committee members after a full hearing of the Bill, recommended that the Sponsor amend the Bill if he wished to pass it out of committee. There were two objections to his original Bill. One was that he was taking the offense of reckless homicide from a Class 3 felony to a Class 1, a jump of two notches. While the members of the committee felt that where a reckless homicide involved a driving under the intoxication, that it may warrant an enhancement of penalty. The members objected to enhancing it from a 3 to a 1, and suggested that the Sponsor perhaps should...should be satisfied with an enhancement from a 3 to a 2. Further, there was an objection to the Bill in the sense that as it was introduced, the court would be required to...to instruct the jury with respect to this issue and the members of the committee felt that that should be permissive. So, they made those two recommendations. The Sponsor said, okay, I'll come back

STATE OF ILLINOIS
86th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

with an Amendment. He did so. Amended the Bill. The Bill then passed out as amended. Now that it's on the floor on Second Reading, Representative Tate wants to amend it back to the way that the committee found was objectionable. And so I would urge that the Members of this House object to the Amendment. It's not necessary. It puts the Bill in a form that the committee objected to and it does violence to the Member's Bill. So, I will hope you would join with me, I would ask that this Amendment be defeated."

Speaker Madigan: "Mr. Tate."

Tate: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Again, this Amendment simply puts the Bill back into the original form that the Sponsor of the Bill introduced, and I would suggest for all of those that are rushing to increase the...the content amount of alcohol in our blood from 0.8 or 1 to whatever the number they're...they're suggesting, that if we really want to provide for a deterrent for drunk drivers. And drunk drivers especially that are convicted for reckless driving, involving a DUI, that the best way is through a good, proper, law...law and order approach to it and make it a tougher penalty. That sends the kind of message that you want to, because it punishes the people that are violating the law. This is a better measure than all the other proposals that I've seen in this chamber that we voted on today. And I move for its adoption."

Speaker Madigan: "The Gentleman moves for the adoption of the Amendment. Those in favor say 'aye', those opposed say 'no'. The... 'nos' have it. The Amendment fails. The Gentleman request a Roll Call. He's supported by Mr. Hallock. The hard charger from Rockford. Those in favor of the Amendment vote 'aye', those opposed vote 'no'.

Clerk Leone: "House Bill 988, a Bill for an Act to provide for the election of members of the Illinois Commerce Commission. Third Reading of the Bill."

Speaker Madigan: "The Clerk...the Chair would suggest that Mr. Matijevich speak for the Bill and Mr. Hoffman would speak, I presume, against the Bill and then we can proceed to Roll Call. Mr. Hoffman."

Hoffman: "Thank you...thank you, Mr. Speaker, Ladies and Gentlemen of the House. I indeed do rise in opposition to this legislation. You look around the...you look around the country, you'll find no connection between elected commerce commission or appointed commerce commissions. Neither way of organizing a commerce commission is going to determine what...what the rates are or what the regulations are. Those regulations and those rates are established either in law or by regulations that have been adopted. There's a lot that could be said about this, but due to the time constraints, I merely arise to fortify your position of the logic of maintaining the present system."

Speaker Madigan: "The question is, 'Shall this Bill pass?' Those in favor signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Mr. Morrow to explain his vote. Have all voted who wish?"

HOUSE OF REPRESENTATIVES

the...what the Amendment would do would be to expand that board by one member, which I know, Representative Currie, that's an idea that Representative Currie supports. But in addition to that, what this Bill would do is create a district...the members would have to run in districts. The districts would be drawn by the state board of elections. I would like to point out to some of my friends on the other side of the aisle, that these districts would have... would be drawn with the minority participation, the minority language, is contained in the legislation, so that there would be strong minority participation. I think it's a concept whose time has come. I think if you walked down the street and asked anybody, other than the Members of this Body, who served on the Cook County Board Tax Appeals, they couldn't tell you. But I think if we go to a districting concept, we'll have better accountability. We'll have people who are able to identify who these people are because this is a very, very important office. So I would certainly appreciate your support on this particular legislation and would request a Roll Call vote on this."

Speaker Madigan: "Representative Currie."

Currie: "Thank you, Mr. Speaker, Members of the House. I do support increasing the number of members of the Board of Property Tax Appeals, but I strenuously oppose this Amendment. This Amendment would accomplish that purpose by dividing up Cook County into separate districts. I think there's no reason to do that. No excuse for it and I worry about the affect of this Amendment on minority participation, on the delusion of a minority vote. So, I'd recommend everybody to vote 'no' on this Amendment. And I wonder whether the Sponsor, in fact, is trying to kill the underlying Bill, which is an opportunity for the public to know more about tax issues at the local level."

We already have two highly qualified minorities serving on the Tax Board of Appeals. So, let's give them a chance to work and operate and let's go out, next time around and vote for these two highly minorities. If the Republicans are interested, go in next year and vote for them. I'm glad to hear that someone from the Republican side is interested in helping the minority. Well, you have two highly qualified individuals. Let's go out and let's support them. Thank you."

Bill from being called on Third Reading. I would ask for a 'no' vote on this because it guts the underlying Bill. I would like to have the Bill in the form that this Body, the other day thought was appropriate, which was a compromise with Representative Homer's Amendment #1. If, you know, I would ask for courtesy that the Bill be put in a form where we have the opportunity to vote on the underlying issue, not gut the Bill by putting an extraneous Amendment on it."

Amendment...Mr. Levin, with the adoption of that Amendment, Mr. Mautino has delivered several Valentines to you, so, here at the Speaker's podium we have a request for a correctional budget and impact note filed by Mr. Mautino, to the Bill, as amended by House Amendment #6. A request for a state debt impact note, a request for a fiscal note from the Office of the Secretary of State, a request for a fiscal note from the Department of Alcoholism and Substance Abuse, a request for a fiscal note from the State Police, a request for a fiscal note from the Department of Corrections, a request for a state mandate fiscal note. And I think he'd also like to ask that a doctor take your blood pressure at this point. Mr. Levin."

Levin: "Mr. Speaker, this is the third set of these kinds of fiscal notes. I've attempted to play by the rules and get these different agencies to file fiscal notes, judicial notes, even dead impact notes, and they've all said the same thing; they can't...they can't make any determination, there's no cost. Speaker Madigan: "Mr. Levin, what is your motion again?"

Levin: "I would move that the...these particular note acts are not applicable at this point. We already had, you know, as I say, eleven separate fiscal notes, judicial notes, debt impact notes filled...filed on this legislation..."

Speaker Madigan: "...Okay, fine...So the...the Gentleman has moved that the several requests for the filing of notes would be inappropriate. And on that question, the Chair recognizes Mr. Mautino."

Mautino: "Thank you very much, Mr. Speaker. Maybe I can alleviate some of the time involved here. With the adoption of Amendment #6, which you announced and we addressed the question at the time of Bill, I believe the legislation moves back to the Second Reading, First Legislative Day. On my demand, please."

Speaker Madigan: "Ladies and Gentlemen and Mr. Levin, the Parliamentarian informs me that Mr. Mautino's request is in order and is proper and therefore, the Bill shall be placed on the order of Second Reading, First Legislative Day. Mr. Levin. Mr. Levin."

Levin: "Mr. Speaker, I, you know, this Bill, obviously has very...had very, very substantial lobbying against it. And what we forget is we're talking about people's lives. I know there's a few dollars involved here, but we're talking about people's lives and this is an issue that is not going to go away. You know, obviously, we've been outmaneuvered today. But, there has been a substantial amount of misrepresentation in terms of what the Bill does, in terms of what the alcohol levels are and we will be back. Thank you."

Speaker Madigan: "The next Bill shall be House Bill 2447, Representative Pullen. Mr. Clerk, what is the status of

Speaker Madigan: "Representative Pullen."

Pullen: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. This Bill requires school boards throughout Illinois, to ban smoking on school property. It does permit school boards to designate exemptions, including an outdoor...including outdoor spectator areas of school property during scheduled school interscholastic or extracurricular athletic activities. And a designated area within the school building for use by school personnel. If a teacher's smoking lounge is designated, it requires the board to also provide a teacher's lounge for those who do not smoke."

Novak: "I didn't hear it."

Speaker Madigan: "You apparently asked that the Bill be placed on the order of Second Reading for for purpose of an Amendment."

Novak: "Correct."

Speaker Madigan: "Mr. McCracken objects. Your next approach would be to move for that question. Mr. McCracken has issued an advisory opinion that if your Amendment is adopted then he will employ the same section of the rules that Mr. Mautino employed against Mr. Levin."

Novak: "Alright."

Speaker Madigan: "And...and then he added a postscript that, I think he said something about IPAC being dead..."

Novak: "In that case, Mr. Speaker, I ask or urge the adoption of this Bill 2140 on Third Reading and I'd ask for your 'aye' vote please."

Speaker Madigan: "Mr. Dunn."

Dunn: "House Bill 603 is a cleanup Bill to the Hearing Aid Consumer Protection Act. And the guts of the Bill is that it provides for the use of the word 'license' instead of 'certification', because that has better appeal to consumers. I know of no opposition and ask for your 'aye' vote."

Speaker Madigan: "Mr. Cullerton has spoken for the Bill. Mr.
Giglio will speak, I presume, against the Bill and then we

Giglio: "Thank you, Mr. Speaker, Ladies and Gentlemen of the
House. We have debated this, I think at length and if you
remember my remarks two days ago, I asked that we not vote
on this because of the Department of Conservation wanted to
do a study. We passed the Resolution yesterday, 106-3 for
the Department of Conservation to do the study. And I
think we could find out after two years, when the
Department of Conservation gets through, whether or not the
people who have the commercial fishing licenses, which are
four, are actually doing what they're doing out there.
This is a battle between the charter boat people and those
four licenses and I would ask that you either vote 'no' or
'present' and let the Department of Conservation do what
they have to do."

And I'd urge a 'green' vote. Also the principal of that school is Jim Keane's...Representative Jim Keane's wife. Thank you."

Speaker Madigan: "Mr. Kulas to introduce a group of school children."

Kulas: "I'd like to introduce the school of fish. Thank you, Mr. Speaker. I would just reiterate, shortly some of the remarks I made last... couple days ago on this Bill. We've had extensive hearings on this Bill. All the interested parties involved, the charter boat fishermen, the legislative sportsmen, the commercial fishermen, we all sat together with the Department and everyone had agreed to do a two year study to see what effects actually are being perpetrated by the gill nets and we all agreed to that except one person, one individual who took it upon himself to introduce House Bill 500. This is not...the Sportsmen Legislative Coalition is against this Bill and I would ask you to vote 'no'."

Speaker Madigan: "Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question there are 55 'ayes', 39 'nos' and the Bill fails. Next Bill is House Bill 1131, Mr. Levin. Mr. Clerk, what is the status of this Bill?"

Speaker Madigan: "Are there any Floor Amendments?"

Speaker Madigan: "Representative Cowlshaw, Amendment #1. Representative Cowlshaw."

Cowlshaw: "One minute, Mr. Speaker, please. Thank you, Mr. Speaker. I apologize for the delay. Amendment #1 to House Bill 1131 is the priority one plan for the funding of education in Illinois. All this Bill, this Amendment does is to dedicate sixty-three percent of the proceeds from the income tax, after refunds have been paid for education. That dedicated source of revenue is then added to three existing dedicated sources of revenue. One of which is twenty-five percent of the sales tax, all of the lottery profits and as you know, a small portion of the cigarette tax. This would mean that not only for this year, but for every fiscal year hereafter, our schools would be funded at a higher level even than is proposed in the current budget of the Governor. But most of all, the immense advantage of this plan is that it makes the level of that funding for elementary, secondary and higher education something that is predictable, dependable and reliable. That is the complaint that our school people have brought to us. There isn't one of us in this chamber who has not heard from school people within our own district. We can't tell for sure from year to year what you people are going to do with our funding. It is like we are on a roller coaster. And if you look at the funding for education in Illinois for the last several years, you will see that the in graph form that does look like a roller coaster. It's feast or famine for the schools in Illinois. This plan avoids our ever having that problem again. It makes education funding predictable, dependable and reliable. And it does not

leave education ever at the edge of a cliff from which it may fall off. I am very proud to offer this Amendment and I move for its adoption."

Speaker Madigan: "The Lady moves for the adoption of the Republican's spending plan for education. Mr. Bowman will respond and then we'll go to Roll Call."

Bowman: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. The only problem with the Lady's proposal is it will not do what she pro...suggests that its...intended purposes is the intended purpose is to make funding for education reliable and predictable. Unfortunately, she has chosen the wrong tax to do that. The income tax fluctuates over the business cycle. The tax is not as predictable as she would like us to believe. The reason that the general funds are...have a relatively stable growth from year to year is that they are driven by sales tax revenue and that they are driven by utility revenues. And other things that do not fluctuate over time, therefore, this proposal, while it has a superficial seductive appeal, would do nothing more than to harness the schools of this state to an inherently unstable source of income for the indefinite future. And you know, Ladies and Gentlemen of the House, you know as well as I do, that the first time that the income tax took a nose dive in an economic recession, the schools would be right down here asking us to have a supplemental appropriation from other revenue sources to bail them out and we cannot shackle them to an unpredictable income source. I urge the defeat of this proposal."

I would move to suspend the appropriate rule so that House Bill 1635 and House Bill 154, to extend the Third Reading deadline on these two Bills to May 15, 1990. The reason for this, House Bill 1635 repeals the local siting laws dealing with landfills. House Bill 154 addresses the problem of the plastic containers that are...that are a problem in our environmental system. We have all the interested parties sitting at the table discussing these two issues. As far as the siting laws, the local... the mu...the local units of government, the environmentalists, the IMA, the Chamber have all sat down a number of times. They're going to be working throughout the summer and fall to come up with some changes in the siting laws in the State of Illinois. The same thing is going to happen on the plastic's law. The industry is willing to sit down with all the interested parties. We're working out a deal. And I would move for the adoption of this Motion."

Now, if...if this is such a good idea for this Bill, why aren't we doing it all the time, Mr. Speaker? Why don't we suspend the rules so that the Republican Bills will never wither on the vine. We'll extend the Third Reading deadline for all Republican Bills, how's that? Is that fair?"

Speaker Madigan: "Give it a run."

McCracken: "Well, what's good for the goose is good for the gander. So, if this one passes, I'm going to make a Motion that all Republican Bills be extended to May 15th, 1990."

Woolard: "Yes, Mr. Speaker. What this Amendment would do, this would replace the existing Bill, and this Amendment creates a Hazardous Material Emergency Response Reimbursement Act. And many small volunteer fire departments throughout the state, especially in the southern part of the state, are faced with the obligation of meeting hazardous situations and responding to these in such a way that it depletes all of their financial resources. This would allow them the opportunity to have a fund available to replace those needed funds while they were in negotiations with trying to recover those funds from the people who are responsible."

It says that the service charge would have to reflect the cost of service. As most of you know, Commonwealth Edison and Illinois Power have the two highest service charges in the country. This Bill is not going to increase fees, will not decrease fees, will not decrease revenues to the utility companies. All it will do is say charge for service, what it actually costs to deliver service to the homes and then the rest is usage and charge for that usage. I move for its adoption."

We have given them the obligation to look at the evidence to make a intelligent and effective and fair and equitable judgement on what these fees ought to be. Now certainly they're much better informed when they make those decisions and have the staff work that they have then we do sitting here today voting on this kind of legislation. The reason past Legislatures have established the Commerce Commission, given it the statutory power it has now, the right to adopt rules and regulations, is because those Legislatures realized that they were not in a position to make those kinds of judgements as things became much more esoteric, much more complicated then they have been in the past. I rise in opposition to this legislation and to make...and as an adam (sic - addendum) to this, Mr. Speaker, just to make things simpler when we get to the vote, I would request that we not put people on that are not here today, because I'm going to be forced to verify the Roll Call, and I would prefer not to do that."

Clerk O'Brien: "No, we adopted...we withdrew #1, adopted #2 by Hicks."

Speaker Madigan: "And then on #3 that was adopted by Mr. Levin, so..."

Clerk O'Brien: "No, that was on the wrong Bill."

Speaker Madigan: "Okay, you're right. 3 and 4 were withdrawn by Mr. Levin?"

Clerk O'Brien: "Levin's Amendments were to a different Bill. They gave me the wrong Amendments."

Speaker Madigan: "Alright. Mr. McCracken, the Clerk was...the Clerk was looking at Amendments to another Bill."

McCracken: "Okay, where are we?"

Speaker Madigan: "Okay, so for purposes of the record, let the record reflect the error in terms of labeling Amendments 3 and 4 as being sponsored by Mr. Levin. And, so that we were in error on Amendments 3 and 4, we got to an Amendment #5, which was adopted on a voice vote. What about 5? What is...is there an Amendment 5?"

Clerk O'Brien: "Yes."

Speaker Madigan: "Alright, fine. So, relative to the record which indicates that Amendment #5 was adopted, let the record show that Mr. Rice now moves to reconsider the vote by which that Amendment was adopted. Those in favor say 'aye', those opposed say 'no'. The 'ayes' have it. That Motion is adopted and that vote is reconsidered. Now the record is clear. We'll go back to Amendment #3. Any portion of the prize pool exceeding \$1,000,000 shall be deposited in the Common School Fund. Adds immediate effective date."

Speaker Madigan: "The Gentleman moves for the adoption of the Amendment. Mr. Hicks."

Hicks: "Inquiry of the Chair. Is Amendment #5 germane to the Bill? Mr. Speaker, I simply stand in opposition to Amendment #5 as this Bill doesn't relate to the lottery, and I ask for the defeat of Amendment #5."

Speaker Madigan: "Okay, Mr. Rice has moved for the adoption of Amendment #5. Mr. Hicks has spoken in opposition to the Amendment. Mr. Churchill."

Cowlshaw: "Mr. Speaker, Ladies and Gentlemen of the House. As I said in Committee, House Bill 145 should have a sub-title. It should be called 'A Rose By Any Other Name'. Many principals in this state complain about what we call teacher tenure, which is one of the most perfect job security provisions that anybody could possibly imagine. It's marvelous. You don't have to be particularly competent as long as you have tenure, you've got job security. Principals have sometimes complained about that, particularly principals whose school may not be doing as well as it ought to be. And now the principals themselves come before us with this proposal, which they call job classification, but, in fact, is tenure. And a rose by any other name smells just as bad as this Bill. It should be defeated."

There was a certain category of prisoners with stiff sentence of twenty years or more, who were not allowed to have the option to choose between Class X or to keep their remaining sentences. Since that time, they have filed suit in Federal Court. It's pending now against the Department of Corrections, the Prisoner Review Board and the State of Illinois. Mays: "Thank you very much. Would the Gentleman yield just...?"

Speaker Madigan: "The Spons..."

Mays: "The Prisoner Review Board indicated that this would bring people back into the courtrooms that have already been basically set aside in the penitentiaries. The Gacys and these...the Specks and these types of people that we don't want to deal with anymore. Why do we want to bring this back and give them another hearing in front of the court?"

Young, A.: "I wouldn't call it a hearing, Representative. I would call it equal treatment and allow them to have a last sentence so we'll have everybody in the institution right now under the same sentencing law. This certainly isn't meant, isn't intended, and won't have the effect of reducing time for people who have natural life or the death penalty or very, very long indeterminate sentences."

Mays: "Well, what...why are we bringing them back in? If they've already been sentenced to all that period of time, why do we want them to come back?"

Young, A.: "Because they...we are currently under suit and there's a good constitutional argument that we violated their right to equal protection when we did not give them the option all the other prisoners got in terms of being able to choose to be sentenced under the new law or the old law."

Mays: "Well, I would just raise...rise in opposition to this Bill, and I would ask for a Roll Call on this Amendment because I think it's a bad idea. And I'm not even a

Speaker Madigan: "You're probably better off for it, too. Those in favor of the Amendment vote 'aye', those opposed vote 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Representative Davis to explain her vote."

Davis: "I'd like to explain my vote to say that if these C numbered inmates were ever given exact sentencing, the Prison Review Board would not have a job. They'd be out of work. Let's find another job and send them there and let's see if they don't change their position on this. This is what keeps the Prison Review Board operating."

Speaker Madigan: "The Clerk shall take the record. On this question there are 25 'ayes' and 80 'nos'. The Amendment fails. Are there any further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker Madigan: "Third Reading. Mr. Young, do you wish to move the Bill? Take the Bill out of the record. Next Bill will be House Bill 1200. Mr. Clerk, what is the status of this Bill?"

Speaker Madigan: "Well, we're very disappointed, Mr. Churchill. You have been so inspirational in the past. At the Sponsor's request, the Bill shall be taken out of the record. Representative Davis."

Davis: "I would just like to take this opportunity to say good-bye to my issues person, Bill Ivy, who is being accepted at a law school in Indiana, because of the fabulous training that the Democratic side of the aisle gave him. And we want to say good-bye to Bill Ivy and wish him the best of luck."

want to give others an opportunity in economic development and to be a part of the system in which you earn your living. And that's all we're trying to do, is give people an opportunity to become a part of the business world and earn those dollars and also hire others. And if they're never given an opportunity to do this, then we will constantly have the unemployed and the underclass. I think if you're really sincere about economic development in the State of Illinois, you don't want to leave any of your citizens out. It isn't...you know, it isn't that you're giving anybody anything except an opportunity to be a part of the American way, participate in the economic process and be given an opportunity to earn those dollars and hire others who can earn those dollars. We would thank you very much for your consideration...to help promote economic development in the State of Illinois, to help people not to become part of the welfare rolls, to help people not to collect unemployment compensation. I can say this, I think that you'll all be extremely proud that you supported this legislation."

Speaker Madigan: "Representative Younger to explain her vote."

Younger: "We talk about people dependent on the state. This is to help private business women and minority business contractors receive financing so that they can be business people. You know, we have a double standard. On one hand we say we don't want people to be dependent on the state and then we have a Bill here which will help people to be free of the state and help them to be private businessmen and businesswomen, and then we won't give them that right. In most inner cities there is not any banking system. There isn't any place to borrow money, and if these contracts could be assigned, then the contract could be used as collateral for operating capital and then the

Cowlshaw: "Mr. Speaker...I'm sorry, the microphone wasn't working. Mr. Speaker, I would like to table Amendment #1, but on a point of personal privilege, I would like to explain why. There were two shell Bills that came out of

the Education Committee together on one Roll Call. Representative Capparelli's Bill 2796 and my Bill 1681. When Amendment #1 to this Bill was drafted, I got the numbers mixed up and asked that this Amendment be drafted to 1680. That was an error, because 1680 was supposed to be used for a particular subject matter only. I apologize for the mix up and since the understanding of the Committee was that only 1681 could be used for any subject material, I therefore table Amendment #1 to House Bill 1680."

Clerk Leone: "Floor Amendment #2, offered by Representative Hoffman."

The first thing comes from the O'Hare...suburban O'Hare Commission establishing a permanent noise monitoring system to be built out at O'Hare, paid for by the state to monitor the noise at O'Hare and the second thing it does is to change the makeup of the DuPage County Airport Authority so

that there'd be more local control, and most importantly, it reduces and shrinks the size of the taxing authority in DuPage County back down to two townships around the airport, so it's a tax reduction for DuPage County and it would also make constitutional the makeup of the DuPage Airport Authority, which right now is under some question. It's in the courts as to whether or not it's even constitutional."

Speaker Madigan: "Mr. Hoffman. Mr. Hoffman."

Hoffman: "Thank you Mr. Speaker, Ladies and Gentlemen of the House. I certainly have no problem with the underlying Bill. I do how...I do however have a problem with the Amendment filed in reference to the DuPage County Airport Authority. I would point out that we passed Bills in 1985 and 1987 which restructured the DuPage County Airport. The courts up to this point have upheld all of that that'd been thrown out of court. One case still pending. So the question is, why do we need to do this again in 1989? We're in the process of realigning the airport to put it in a condition that it will help service, particularly business travel. We don't anticipate any commercial travel there and for this reason and this reason alone, I must stand in opposition to this legislation."

Speaker Madigan: "Those in favor of the passage of the Bill will signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? This is an anti-DuPage County Bill. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Cullerton to explain his vote."

Cullerton: "Mr. Speaker, about two weeks ago, the DuPage County residents received their property tax bills. They were outrageous and on that property tax bill was a new taxing authority, the DuPage County Airport Authority. Now what

Clerk Leone: "On page 15 of the Calendar, House Bill 871 is on the Order of Third Reading."

McPike: "Well, I rise in opposition to the Bill. It's kind of hard to follow when it goes this fast, but this deletes provision under current law which limits the allowable number of farm truck and trailer registration systems to two. So we always do things for the little farmer here. I guess this is something for the big farmer. If you've got fifty trucks or a hundred trucks or two hundred trucks, is it my understanding then that you only need one registration for that? Is...maybe you could explain your vote in answer."

Hicks: "Thank you, Mr. McPike. I'm glad to do that. You know, in Illinois a couple of years ago, I put a... allowed semi-trailers in the State of Illinois to have farm plates. Right now I believe there's less than ten in the State doing that, so when you talk about big farmers in the state, we're talking about the wagons that go down the road, the farm..."

McPike: "Well, could you explain what the Bill does?"

STATE OF ILLINOIS
86th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

Hicks: "The Bill simply allows that there's no limitation on the number of farm plates that they're allowed on their trailers that they drive down the road, on their trucks that they have they haul their grain to the ..."

McPike: "So how many do they have to buy? If I have a hundred trucks, what's it cost me?"

Hicks: "They have to buy a hundred farm plates."

McPike: "And what's it cost?"

Hicks: "It's a reduced amount because of the mileage that they drive on the highways in comparison to any other person as a commercial type vehicle. They cannot use them for commercial use or anything like that. It's a farm license plate system that we have in Illinois. It doesn't change that system."

McPike: "How much does it cost?"

Hicks: "How much does...?"

McPike: "Does the plate cost?"

Hicks: "It varies upon the size of the truck, depends on the weight of the trailer. There's four classifications in trailers, for example, dealing with farm plates. There's also a number of classifications dealing with farm trucks and they all cost different amounts, based upon the size and the weight of the truck."

McPike: "Well..."

Hicks: "Well, I mean, as far as giving you an answer as to specific amounts of the cost of each license plate, it's a different amount based upon every one. And it's a...this doesn't change the cost that's involved in those plates. The cost would remain the same now. It simply takes the limitation, currently there's two, they're limited to two license plates. Now, you know how many farm vehicles a farmer has on their farms. Many, in most cases, and it simply removes that limitation and allows them to put farm

plates on any that are used for farm use."

McPike: "Well, I don't object...I haven't objected in a number of years now to trying to help some of the small farmers and some of the moderate size farmers and if they're having a tough time making it, we try to help them out, but, this is really for the large corporate farmer who owns a hundred trucks or a fleet of trucks or two hundred trucks and there's no reason to help these people. They're making hundreds of thousands of dollars a year and this is just silly to...and they pay no property taxes. They've had a ten year freeze on farm property in Illinois. And we'll get into that next year, I'm sure."

Speaker Madigan: "Have all voted who wish? The Clerk shall take the record. On this question there are 80 'ayes', 14 'nos'. This Bill having received a Constitutional Majority is hereby declared passed. House Bill 983, Mr. Brunsvold. Mr. Clerk, what is the status of the Bill?"

Speaker Madigan: "Mr. Black to explain his vote."

Black: "Thank you very much, Mr. Speaker. I think the previous speaker is guilty of overacting in this case and perhaps the Oscars will come up again. I don't think this does any such thing. If you'll look at the Amendment, it simply says that those counties that bought or built a jail in the last fifteen years, that meant all the juvenile detention requirements can...if they meet the separation of sight and sound for juveniles, they can be classified as a juvenile

detention facility. And in the jail... the county that brought this to my attention, the juveniles were on the first floor, all other cells were on the fifth floor. It's a very reasonable Amendment and will save your counties millions of dollars."

Speaker Madigan: "Mr. Ewing to explain his vote."

Ewing: "Mr. Speaker, Ladies and Gentlemen of the House, there's two good parts to this Bill. The first part, the underlying part of the Bill allows the state's attorney to collect restitution from a juvenile for the person that's injured, who would now have to go out and go through the legal process. This was requested by the state's attorney in Livingston County. The second part of the Bill, I think, is explained by Representative Black and that is also very beneficial to our counties that have jails where they can separate these two. That's a major savings to your county government."

He can't drive to work. He can't do anything. This Bill does not help. It creates for people who just don't have the ability, or for whatever reason they drop out, other than they just want to be out. They may need to drive. This is a bad Bill. Let us defeat it. especially for my good friend, John Novak, the treasurer of DuPage County."

Speaker Madigan: "Have all voted who wish? The Clerk shall take the record. On this question there are 50 'ayes', 42 'nos'...Mr. McCracken."

McCracken: "I'm curious. Is he pulling our leg? Did you do this for my good friend John Novak, your cousin? Did you really?"

Novak: "For the...for the County Treasurer's Association, Tom."

McCracken: "Well, I'm for it."

Speaker Madigan: "That's one. Have all voted who wish? Open the scoreboard. Have all voted who wish? Those in favor say 'aye', those...those in favor vote 'aye', those opposed vote 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question there are 64 'ayes', 25 'nos', this Bill having received a Constitutional Majority is hereby declared passed. House Bill 2339. Mr. Clerk, what is the status of the Bill? 2339."

Clerk O'Brien: "House Bill 2339, the Bill is on Third Reading. The Bill has been read a third time previously."

Speaker Madigan: "Mr. Tate? Mr. Tate. Run it? Those in favor of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question there are 41 'ayes', 51 'nos', the Bill fails. House Bill 694. Mr. Clerk, what is the status of the Bill?"

Clerk O'Brien: "House Bill 694, the Bill has been read a second time previously."

Speaker Madigan: "...For what purpose does, Mr. Martinez seek

recognition? Let...let the record show that Mr. Martinez wishes to be recorded 'aye' on House Bill 2339. We're now on House Bill 694, Mr. Leverenz. Mr. Leverenz."

Leverenz: "Thank you, Mr. Speaker. House Bill 694 would set rates of flow at county lines. Ask for your 'aye' vote enabling the Bill to pass."

Speaker Madigan: "Those in favor of the passage of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Leverenz to explain his vote."

Leverenz: "That's my first Bill today. I'd like to poll the twenty-one blues."

Speaker Madigan: "Have all voted who wish? The Clerk shall take the record. On this question there are 58 'ayes', 40 'nos'. The Clerk shall poll the absentees."

Clerk O'Brien: "A poll of those not voting. Countryman. DeJaegher. Harris. Kulas. B. Pedersen. Preston. Shaw. And Sieben. No further."

Speaker Madigan: "Mr. McCracken. This Bill having failed to received a Constitutional Majority is hereby declared lost. The Chair recognizes Mr. Leverenz for a Motion."

Leverenz: "Well, it's not Postponed Consideration. I now move to... yes, now it is, on House Bill 591, extend the deadline until June 9th for the supplemental appropriation, on House Bill 834, 850, 869, 1211, 1212, 1213, 1214, 1215..."

Speaker Madigan: "...Churchill..."

Leverenz: "...1216..."

Churchill: "...Thank you, Mr. Speaker. I..."

Leverenz: "Well, we don't have eighteen minutes of silence there. Wednesday...we're extending the deadline on those Bills to Wednesday, May 31st. I now move that and ask you to

We have a message for the Body."

Churchill: "Thank you, Mr. Speaker. I'd like to rise...same issue. Last year at this time, we went through the same charade that we're going to go through again here this year. We got a Bill out of the Revenue Committee that dealt with the state income tax. We brought it to the floor. There were all sorts of continuances. Put everything together and we're going to stand up and say, we'll go back to our people back in our districts and find out whether or not they want a tax increase or they don't want a tax increase. Face it, this is a charade. The whole thing is a sham. If an income tax is actually going
