Speaker Keane: "The House will come to order. Members be in your seats. The Chaplain for today is Dr. Patrick Pajak of the Tabernacle Baptist Church in Decatur. Dr. Pajak is the guest of Representative Dunn. Our guests in the galleries may wish to rise for the invocation."

Dr. Pajak: "Let us pray. Our Heavenly Father, we're thankful for the privilege of prayer and to be able to call upon You today. We ask for the men and women of this House that You would give them wisdom. Lord, give them fairness and equity and let that always be tempered with mercy. Lord, we pray for our men and women, our brave soldiers in the Gulf, we pray that You would give them a safe and speedy return. Let all the business that is taken care of today be done in such a fashion that it would praise and honor and glorify Thee. In Jesus' precious name we pray. Amen."

Speaker Keane: "We'll be led in the Pledge of Allegiance by Representative Hartke."

Hartke - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Keane: "Roll Call for Attendance. Representative Matijeovich, any excused absences?"

Matijeovich: "Yes, Mr. Speaker, let the record reflect the excused absence of Monroe Flinn due to his injuries."

Speaker Keane: "Representative Kubik."

Kubik: "Thank you, Mr. Speaker. Let the record reflect the excused absence of Representative Barnes due to illness."

Speaker Keane: "Mr. Clerk, take the record. There are 115...Mr. Clerk, take the record. There are 116 answering 'aye'. A quorum is present. Representative Weaver, for an introduction."

Weaver: "Ladies and Gentlemen of the House. It's my distinct pleasure to present to you the Grand Champion Cheerleaders from Oblong, Illinois. Now, Oblong is not one of the largest communities in the State of Illinois, but probably a community with a bunch of the largest hearts and most giving people in supportive of their school system than you'll ever find in the State of Illinois, and if the Clerk would please read the Resolution."

Clerk Leone: "House Resolution 393, offered by Representative Weaver.

HOUSE RESOLUTION

WHEREAS, The cheerleaders at Oblong Elementary School are to be congratulated for placing in the top 20 junior high squads last year and receiving a trophy for having the most creative routine; and

WHEREAS, In July of 1990, they became Grand Champions in the Junior High Division at Indiana University in Bloomington, Indiana; and

WHEREAS, The squad members have been encouraged by their sponsors, who attended ICF camp along with the students and went to the sessions with them; and

WHEREAS, Community support has been very important to the cheerleaders; and

WHEREAS, Karen Sweat, cheerleading sponsor, and her assistant, Donna Henry, have provided leadership and encouragement to the girls; and

WHEREAS, The cheerleaders are: Shannon Newcomb, a member of High Honor Roll; Kristi Davis, a member of Flag and Rifle Corps; Stacy Jennings, a talented softball pitcher; Krissy Neidigh, a

member of the Knowledge Master Team; Kendra Paddick, a high honors student; Kamee Hoke, an All-Star Team baseball player; Michelle Smith, a Beta Club member; Niki Murray, a member of the Knowledge Master Team; Michelle Hill, a high honors student; and Erin Glezen, a high honors student; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE EIGHTY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we congratulate the Oblong Elementary School cheerleaders on their fine spirit and success; that we commend the community for supporting these young women; and that we wish all of the students continuing success; and be it further

RESOLVED, That suitable copies of this preamble and resolution be presented to each of the cheerleaders and to their sponsors."

Weaver: "Thank you, Mr. Clerk. I would like to have the, the coach of the team introduce them individually to you, however, I think it's most apropos that the coach of the name (sic-team) is Mrs. Sweat, so Mrs. Sweat would like to introduce her girls to you."

Sweat: "Thank you. Thank you. I want to mention my helper, Donna Henry, right here. I don't know if you can see her for the girls. This is Donna Henry, my helper, and the girls, this is Shanna Newcomb, Kristi Davis. They're our two-eighth graders. We have Michelle Smith in the back. She's a seventh-grader, and Stacy Jennings. This is Kamee Hoke. She is Martha Waldrop's granddaughter. This is Kendra Paddick. She's a seventh-grader. This is Krissie Neidigh, and she's also a seventh-grader, and Niki Murray, and we also have Erin Glezen who's a sixth-grader and Michelle Hill who is Pauline Hill's granddaughter, and she's also a sixth-grader. So we're losing two of our girls, and we'll have most of them back for another year, and so we thank you. This is a real honor."

Weaver: "For those of you who've been here for a little, a little while, you may remember we've had some other teams from Oblong here, a community of 1,800 people. We've sent three teams to national math and science competition and a team to the national home economics competition. This is a small school. It disproves the theory that 'bigger is better'. These gals will also be honorary Pages today so tip them big, please. Thank you very much."

Speaker Keane: "Representative Black in the Chair."

Black: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. It's my distinct pleasure today to introduce to you the Schlarman High School from Danville, Illinois, State Champion Cheerleaders and State Champion Pom Pon Squad, and girls if you could come down in front, I'd, I'd like all the Members of the House to see what the Oblong cheerleaders will be like when they get a little older. This is the high school division. This high school competes against schools about ten times their size, and they have a very, very proud tradition. I think Coach Hohen can tell you that this is the second or possibly third time that they've won the State Championship Small School Division in the Pom Pon Dance Drill Team Competition, and the cheerleaders also brought home a state championship trophy this year, again competing against schools much larger than they. Mr. Clerk, if you'd be kind enough to read the Resolutions, I would be grateful."

Clerk Leone: "First Resolution is House Resolution 190, offered by Representative Black."

place in the Small School Pom Division of the Illinois Drill Association State Competition on Saturday, March 9, 1991; and

WHEREAS, The State Champion Toppettes competed against Pom teams from 14 schools across the State, and, with 199 students, they were the smallest school in the competition; and

WHEREAS, The squad members are: Captain Denise Davis, Captain Kelly Kochvar, Valarie Htwe, Cathy Schingel, Mary Adeli, Erica Hammer, Karen Hill, Kami Kuemmerle, Sara Dolbee, Rhonda Martinek, Kim Crane, Stephanie Johnson, Tiffany Jones, Megan Beyers, Jodi Burnett; and Kyla Monfredini; and

WHEREAS, The squad is directed by Brenda Hoehn, and it is supported by Schlarman High School Principal, Mike Ahrens, and Athletic Director, Mark Goodwin; and

WHEREAS, The members of the team are a credit to their school and to the State; therefore, be it

RESOLVED, BY THE HOUSE OF REPRESENTATIVES OF THE EIGHTY-SEVENTH GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, That we congratulate the Varsity Toppettes from Schlarman High School on taking first place in their Pom division; that we commend the team members for their discipline, hard work, and fine spirit; and that we wish them all the best in their future careers; and be it further

RESOLVED, That suitable copies of this preamble and resolution be presented to the members of the Varsity Toppettes, to Director Brenda Hoehn, to Principal Ahrens, and to Athletic Director, Mark Godwin.

Ms. Hoehn: "Thank you, Bill. It's a real pleasure and honor to be here with you today and we thank you for this opportunity. It's with great pride that I introduce to you the Varsity State Championship Toppettes: Kelly Coachbar, Denise Davis, Kathy Shingle, Valerie Tway, Karen Hill, Sarah Dalby, Ericka Hammer, Mary Odley, Kammy Kimmerly, Kim Crane, Rhonda Martinek, Tiffany Jones, Stephanie Johnson, Megan Byers, Jodie Bernette, and Kyla Monferdini."

Janosik: "The Schlarman High School Cheerleaders are Susan Smith, Leslie Brown, Michelle Hinote, Tricia Shepherd, Stephanie Dietzen, Carrie Hoehn, and Sarah Lovejoy. Did you girls want to do a quick cheer for the fellows here? Quickly, they have business to conclude. Thank you very much for having us here today. We really appreciate it. You got one? Okay. Thank you very much for giving us part of your day."

Black: "I just want to say that you people are more intimidating than the judges were, but thank you for your attention. It's always a pleasure to bring you a little sunshine from Danville. Thank you."

I don't wish to damage his Bill. I think the Gentleman's on the right track. I think school bus safety is an issue that we talk a lot about, but we don't seem to get much accomplished. Currently, the Department of Commerce and Community Affairs, by Administrative Rule, considered applications valid for one program year, i.e., June 1 to July 30. The Civic Center Authorities are required by Administrative Rule to file each program year if it is not fully funded. Speaker Giglio: "Any discussion on the Amendment? Hearing none, all in favor of the...Representative Matijevecich?"

Matijevecich: "Mr. Speaker, Ladies and Gentlemen, I rise to oppose the Amendment. Some of you may be aware if you were here last Session, this is very similar to a Bill where I've been trying to get property that the State of Illinois and the Department of Transportation has held for 25 years. It's been doing nothing, and I've been trying to get the property for the City of North Chicago for the purposes of economic development, to build a corporate corridor, a linear corporate park. As you know, when you transfer property from one public body to another, we don't have to get an appraisal, but I did that two years ago, and I will truly admit to you that my Second Amendment will convey the property to the City of North Chicago for \$800,000. That is less than the appraised value, I will admit that, but it's what the city can afford. It's about \$100,000 more than the State purchased the property 25 years ago, but the community is in dire straits, the property will never amount to anything for the State of Illinois, any now, it's going to sit there. And, it is immediately adjacent to other corporate interests, it would very much complement that area. So, I would urge the membership to defeat this Amendment and then, to adopt Amendment #2."

And, it would greatly enhance the economic development of a community that is 65% Minority. It's something that can be done to stimulate development of a corporate linear park corridor, and it would benefit the community, I can't tell you how much. The State of Illinois, as I said...25 years ago, they said they were going to use the property for a rerouting of a highway. It will never be done. This way something useful, to benefit the community and to benefit all taxpayers, can be done. I urge the adoption of Amendment #2."

Speaker Giglio: "You heard the Gentleman's Motion. Any discussion? Hearing none, all those in favor of the Amendment signify by saying 'aye', Representative Olson."

Olson: "Question of the Sponsor."

Speaker Giglio: "Proceed."

Olson: "Representative Matijevich, you mentioned the State would be getting more than they paid for the property? What did they pay?"

Matijevich: "I believe it was \$700,000, and we, the City of North Chicago would Government purchased it for \$800,000."

Olson: "The City is offering \$800,000 for a purchase of property that the state paid \$700,000 for. What is the appraised value of the property?"

Matijevich: "The appraised value, I believe, is about four and a half million dollars."

Olson: "Sounds like a..."

Matijevich: "Wait a minute. That was two years ago. Since then, it has been significantly reduced by the Wetlands Act and not much of the property that is wetlands can not be developed. And, I will admit that it is less than the appraised value, but let me tell you, the state will never get anything for it, because it's going to sit there another 25 or 50 years. But, the state can at least get a

little more than they paid for it, and this community, can economically develop it, provide for jobs, it's much less than we did for Bloomington, what we did for other areas of the state in the matter of economic incentives. This is an economic incentive that can be helpful to an area, by the way that is about 65% minority and wants to help itself grow."

Olson: "This...the state, this is the Department of Transportation, is the agency that possesses it, I believe."

Matijevich: "Correct. And, I might add, Representative Olson, two years ago all I wanted to see was property development. Two years ago when Department, DOT, didn't want to go along with the Bill, my Bill then would be to transfer it to the Department of Commerce and Community Affairs so that it develop the property for economic purposes. They thought it was a good idea but they didn't want to get into a grudge match with another state agency. And, I think that if you got DDA site, they would admit that this is prime property for economic development."

Olson: "The Department of Transportation. Have they blessed this transfer? Are they willing to give up the property? They will oppose it no matter what. I'll admit that. They never give up anything."

Matijevich: "Okay. Well, to the Amendment, there's a difference of opinion here as to whether the State Department of Transportation still has a use for it, or whether the community has a use for it. I think you have to weigh those things out, but the thing that bothers me here is that, here is a piece of property that may worth as much as \$4,000,000. Most transfers that I've seen in my time here, the appraised value more or less establishes a price for something. Here, a \$4,000,000 piece of property for

\$800,000...if I could do business like that, I wouldn't be here in the General Assembly today. Thank you."

All those in favor of the Amendment signify by voting 'aye, those opposed by voting 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. Are there further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker Giglio: "Third Reading. I will go back to House Bill 101, but Mr. Clerk, read the Bill."

Clerk O'Brien: "House Bill 101, a Bill for an Act to amend the Metropolitan Civic Center Act. This Bill's been read a second time previously. Amendment #3 was lost. Floor Amendment #4, offered by Representative Wojcik."

Speaker Giglio: "The Lady from Cook, Representative Wojcik, on Amendment #4."

Wojcik: "Yes, Mr. Speaker. We have spoken regarding Amendment #4. I presented it to you, and I have spoken to the other side of the aisle, and it's agreed to so I ask for its favorable passage."

Speaker Giglio: "Any discussion on the Amendment? Hearing none, all those in favor of Amendment #4 signify by saying 'aye', opposed 'nay', in the opinion of the Chair, the 'ayes' have it, the Amendment is adopted. Are there further Amendments?"

LeFlore? Read the Bill, Mr. Clerk."

Speaker Giglio: "Any Floor Amendments?"

Clerk O'Brien: "Floor Amendment #1, offered by Representative Balanoff."

Speaker Giglio: "Representative Balanoff on Amendment #1."

Balanoff: "Yes, on Amendment #1..."

Speaker Giglio: "To House Bill 143."

Balanoff: "Mr. Speaker, on Amendment #1 to House Bill 143, is basically a buy-Illinoisian, buy-American Amendment. What it would do is it would give preference to Illinois made goods, if the cost does not exceed 10%. And, it would also further give a 10% cost advantage to products made in the United States, purchased by the State of Illinois."

Speaker Giglio: "Any discussion on the Amendment? The Gentleman from Cook, Representative LeFlore."

LeFlore: "The reason why I wanted your attention, you can't hear what the person is saying on the speaker. I didn't hear all the full contents of the Amendment. I'm not opposed to it. I would just like for the presenter to present it again."

Speaker Giglio: "Representative Balanoff."

Balanoff: "You want me to present it, yes, a...what Amendment #1 is, is the, a, it would provide for goods purchased under the Act and shall be made in Illinois unless their cost of the Illinois made goods exceeds the cost of, by more 10%. The same would hold true for goods made in the United States, it would give them a 10% preference. This is a Bill designed to keep jobs in the State of Illinois."

In the opinion of the Chair, the 'ayes' have it. The Amendment's adopted. Are there further Amendments?"

Clerk O'Brien: "Floor Amendment #2, offered by Representative Harris."

Speaker Giglio: "Representative Harris, on Amendment #2."

Harris: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #2 broadens an exemption to the Bill. And, the Amendment is offered in good faith, it expands the exemption to include, in essence, all of North America and Central American countries, as well as the emerging democracies in Eastern Europe. In other words, those countries, such as Canada, Mexico, El Salvador, Panama, the Amendment lists a lot of them, Romania, Yugoslavia, Latvia, Lithuania, from the provisions of the Bill, and I would ask, and I do ask, adoption of the Amendment."

Speaker Giglio: "You heard the Gentleman's request. Any discussions? The Gentleman from Cook, Representative LeFlore."

LeFlore: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I stand in opposition to this Amendment because it takes away from the Bill. It will actually hurt the Bill. It won't help the Bill at all, so I would ask for a Roll Call and 'no' vote to kill this Amendment."

Speaker Giglio: "Further discussion? Representative Balanoff."

Balanoff: "No, I would just agree with the previous speaker, although well intentioned, these Amendments are not in keeping with the spirit and the purpose of this legislation and that be, being to keep jobs in the state and in the United States."

Speaker Giglio: "Further discussions? Representative Harris, to close."

Speaker Giglio: "Representative Harris, on Amendment #3."

Harris: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #3 is similar to one that was offered last year, and I will tell you that it was rejected last year. However, the intention of the Amendment is indeed a good one. It says that a nation which has been granted 'most favored nation's status, and that is a federally designated status, a nation which has that designation does not fall under the requirements of this Act. In other words, items which are, produced items which are made in those nations that have a 'most favored nation's status with the United States, those items could be indeed be used in products used here in the State of Illinois. It was a good Amendment, I think, last year when we tried to put it on, it's still a good Amendment this year. It ties in with what's being done at the federal level and I ask for adoption of Amendment #3."

Speaker Giglio: "Any discussions? Gentleman from Cook, Representative LeFlore."

LeFlore: "Mr. Speaker, I stand in opposition of this Amendment #3. It will really have a great effect on the Bill."

Giorgi: "What about China?"

Harris: "China, right now, is being negotiated."

Giorgi: "How about Taiwan?"

Harris: "I don't know for a fact, but my guess is Taiwan probably would, knowing our trading relationship with them."

Giorgi: "The nations with the 'most favored' status are the one's that are killing us. They're crippling us, and they're lengthening our recession and our depression in the United States. Do you guys know what you're talking about?"

Harris: "Well, we know what we're talking about. I mean, they are also some of our biggest trading partners. I mean, Taiwan, we do, we do a huge amount of business with Taiwan, and..."

Giorgi: "But, there's the reason for that Bill, is you want to cut those nations off from selling us products. That's the reason our recession can't end. It's a depression, not a recession. You ought to withdraw this Amendment. This Amendment is almost indictable for anyone that might pass it. Terrible Amendment. Vote 'not' on this Amendment."

Speaker Giglio: "Representative Harris, to close."

Harris: "I didn't answer the Gentleman's comments. It wasn't really a question. Many of the nations that are included with 'most favored nation's status indeed are our largest trading partners. A...the nations are not killing us, if we're using that term in terms of trade. It does place, the Bill itself, does place a significant, significant burden, and would have a major impact on nations with which we do business right now on the federal level. Doederlein: "If they have to have screeners or some other facility to update their sewage system treatment, this would be added to the cost."

Homer: "Added to whose cost, whose cost?"

Doederlein: "The fee that they would be allowed to charge."

Homer: "But the Bill still mandates that the city accept that waste product?"

Doederlein: "Yes, this is for environmental health. We have so many homes on the outskirts of the cities that are with septic systems."

Homer: "Well, and I guess we'll discuss that on Third Reading. But all your Amendment does, would be allow the city to add, in its fee that it charges, those capitalized expenses. So, I guess your Amendment makes the Bill a little more palatable. I have no objection to your Amendment."

Doederlein: "Thank you."

Clerk Leone: "House Bill 838, a Bill for an Act to amend the Counties Code. Third Reading of the Bill."

Speaker Giglio: "Gentleman from Rockford, Representative Rotello on House Bill 838. This is Third Reading."

Rotello: "Mr. Speaker, and Ladies and Gentlemen of the House. This Bill will just bring an elected official of the county level in line with other elected officials in terms of having internal control of their own office. It will be like for hiring secretaries or hiring staff, this would be an opportunity for that, for anyone elected to that position, to have an opportunity to do so. board appoints internal staff, and I think that's inappropriate if we're going to elect some to an office to do a job."

Speaker Giglio: "Any discussion on the Motion. The Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Giglio: "He indicates he will."

Black: "Thank you. Representative, you have a very interesting Bill here. Let me ask you just a couple of questions. Would House Bill 838, as you have it drafted, would that perhaps run afoul of the Rutan decision of the Supreme Court?"

Rotello: "No, I don't believe so, there, Representative."

Black: "Well, who...I don't see that the Bill mentions anything about a personnel code, or a, a hiring procedure, I mean, are you asking us to give the county executive just carte blanche authority to hire whoever he wants for his staff, or her staff?"

Rotello: "That's correct, Sir."

Black: "Oh, in other words, without going through a personnel code or anything."

Rotello: "Well, I, that's correct. We have to, it's up to the prerogative of the elected official to do what they wish, just like we do here, Sir."

Black: "Alright, okay, thank you very much, Representative. Mr. Speaker, Ladies and Gentlemen of the House. To the Bill, I must rise in opposition to this. From the Gentleman's questions, and I appreciate his veracity, I think he was to the point, but you heard what he said, you're going to allow a county executive to hire, without the advise and consent of the elected county board, without perhaps reference to a personnel code or any fair hiring

procedures. I...given all of the attention that has been paid to this issue, in the last six or seven months, I'm not sure whether a county executive: (1). should have this power, (2). I'm not sure that a county executive given the state of ethics today would want this power. So, perhaps a 'no' or 'present' vote would be the proper vote and I stand in opposition to the Gentleman's Bill."

Speaker McPike: "Further discussion? The Gentleman from Fulton, Representative Homer."

Homer: "Will the Gentleman yield?"

Speaker McPike: "He indicates he will."

Homer: "Representative Rotello, behind you, this Bill applies only to counties having an executive officer, an elected executive officer. How many counties have one?"

Rotello: "The only Bill this would affect, or any county this Bill would affect right now, would be Will County."

Homer: "Can I just ask, I was curious as to you carrying that Bill, why do you have the Bill?"

Rotello: "I originally, as a former county official, had come up with the idea, originally, of promoting the county executive concept without home rule and through the good graces of our Dean of the House, Representative Giorgi he carried that Bill under this esteemed House and got it passed. However..."

Speaker Giglio: "Excuse me a minute, Representative Matijevich?"

Matijevich: "Mr. Speaker, Representative McAfee's been roaming up in the gallery for the last five minutes. Would you have him come here on the floor of the House where he belongs?"

Speaker Giglio: "Representative McAfee?"

Homer: "Just be happy you were presenting a Bill and weren't sent up into the gallery. But, might be, a, all that your Bill does is accept the hiring of receptionists and secretaries and other necessary staff. You would still have the

deputies and other employees subject to the advise and consent?"

Rotello: "The way, the intention of it is to have the internal staff hired by the executive and then the law spells out the department heads would be approved by the advise and consent of the board. I don't disagree with that?"

Homer: "Final question. Is this your first Bill?"

Rotello: "Yes, it is."

Homer: "Oh, well, I don't know, it may be fatally flawed, at least for a while. Alright, thank you."

Rotello: "Thank you, Sir."

Speaker Giglio: "Representative Wennlund."

Wennlund: "Will Sponsor yield?"

Rotello: "Yes."

Wennlund: "The only county out of the 102 counties in the State of Illinois that this Bill affects is the County of Will? Is that correct?"

Rotello: "That is correct, Sir?"

Wennlund: "Well, what's the genesis of the Bill? Why are you concerned about Will County?"

Rotello: "I think that we have to be concerned about the entire State of Illinois, and good government for all the people of the State of Illinois and I think that this Bill addresses that."

Wennlund: "Well, I don't think it addresses it at all...Winnebago County is about two hours drive from Will County, do you have relatives in Will County?"

Rotello: "No sir. We expect to present this position in Winnebago County soon, though, hopefully."

Wennlund: "I'm sorry, I couldn't hear that."

Rotello: "We'd like to have this kind of position in Winnebago County as soon as possible."

decide to adopt the county executive form of government before you decide that you're going to change the law that now only affects the County of Will?"

Rotello: "Well, Representative McGuire is a Co-Sponsor here and he's from Will County, Sir, and maybe he'd like to address it."

Wennlund: "Did Representative McGuire ask you to Sponsor this legislation?"

Rotello: "No, no he didn't, but he certainly agrees with it."

Wennlund: "Who requested that this legislation be sponsored?"

Rotello: "Governor Edgar."

Wennlund: "Well, you've got some, got some friends in some real high places, but I seriously doubt that Governor Edgar decided that this was an appropriate legislative initiative by residents of your legislative district when it doesn't, in fact, apply to them and does not apply to any other county in the State of Illinois."

Rotello: "Well, we think that the county executive form of government is good for county governments, and it's a good government Bill and that's why I hope you'd support it."

Wennlund: "Well, Ladies and Gentlemen of the House, first of all, to the Bill. The Governor's position has been seriously misrepresented in the House chambers because in fact, I know that the Governor has not placed this as a legislative initiative that should be Sponsored by Representative Rotello. The Bill only affects the County of Will, which is my home county. It does not affect, whatsoever, Winnebago County, which is where the Sponsor's from. I rise in opposition to the Bill, and ask for 'no' votes. There's no necessity for this Bill at the present time."

Speaker Giglio: "The Gentleman from Winnebago, Representative Giorgi."

Giorgi: "Representative Wennlund, in Mike Rotello's innocence,

he's doing the work of the Republican Party in Winnebago County. Winnebago County is now controlled by Republicans. And, if decided, by ordinance, they decided by ordinance to go, to elect their chief executive at large without home rule powers. In fact, I have an Amendment to a Bill that's going to extend the term of the county board chairman from two to four years. So, this won't only affect Will, it affects Winnebago. But, for many years here, those of us that were from counties that were of the opposite party, always wanted to be able to hire our own attorney, our own clerk, our own help, so that, at least, you know, we have our lines of defense demarcated very well. He's doing the work of the Republican Party of Winnebago County. They're going to go to Chief Executive and they've owned the County of Winnebago for 100 years and it's not going to change. Let's help the boy along. In his innocence, let's help him."

Speaker Giglio: "Representative Regan."

Regan: "Thank you, Mr. Chairman, Members of the Board. The Bill indicates it takes power away from the county board members that've been elected in Will County. Period. It removes advise and consent. What are we trying to do here? One county affected, one administrator and executive that wants to become a dictator. I think it's bad legislation all the way down the line. Now, Mr. Gorbachev may get away with it in Russia, but let's not do it in Will County. I've, 'no' vote, please."

Speaker Giglio: "Gentleman from Will, Representative McGuire."

McGuire: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, I rise in support of this Bill, I, too, am from Will County and although I'm a freshman Legislator here, I think I've lived in Will County more than the other speakers, because I'm older than they are. But, I think the Bill is

a good government Bill and I don't think it makes any difference that the Sponsor is from Winnebago or 'Upper Cupcake'. I think the Bill should stand on its own merits, and it doesn't make any difference to me who the county executive is and what county, I think the county executive should be allowed to hire his own staff people such as the Bill addresses. So I would urge your support for this Bill. Thank you."

Speaker Giglio: "Further discussion. The Lady from Kane, Representative Doederlein."

Doederlein: "Yes. I'm not sure that this only affects Will County, because Kane County is going to the executive county. So, if this Bill passes, then that would mean it would also affect my county. Therefore, I think that we should take a serious look at this, though the other counties may be following suit, I think that we should look very seriously, not only will this affect Will County but our own counties. So, I advise we take...look seriously at this and vote 'no'."

Speaker Giglio: "Representative Hartke."

Hartke: "Thank you very much, Mr. Speaker. I stand in support of this legislation. I think it's only common sense that if you're the executive director elected in your county, that you're most intimate personnel and staff around you, that you should have the right to hire those individuals. If you're saddled with the opposition's secretary, and so forth, you're actually hampered in what you can do and cannot do to administrate your new office. And I think it's a very good piece of legislation, and I urge all Members to vote for it."

Speaker Giglio: "Representative Rotello, to close."

Rotello: "Thank you, Mr. Speaker. I would point out that we're talking about an elected executive here, and it's already

the will of the people of any county we're talking about. That, if they voted the person in office, they certainly have given him the confidence to be the executive. I would assume, that like when they vote for county auditors, county clerks, county recorders, county treasurers, that they allow those people to hire their own staff that certainly they want to elect an executive to be able to hire their own staff, as well. So, I urge passage of this Bill."

Speaker Giglio: "The question is, 'Shall House 838 pass?' All those in favor signify by voting 'aye, opposed 'nay' the vote is open, this is final action. The fellow from Coles, Representative Weaver."

Weaver: "Thank you, Mr. Speaker. I don't question the Sponsor's motivation in this, but, if it's such a great idea maybe he ought to start by doing it in his own district before he does it in someone else's district."

Speaker Giglio: "Have all voted who wish? Have all voted who wish? The Gentleman men from Fulton, Representative Homer. Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. Clerk Leone: "House Bill 542, a Bill for an Act to amend an act
concerning Mammograms. Third Reading of the Bill."

Speaker Giglio: "The Lady from Cook, Representative Currie."

Currie: "Thank you, Mr. Speaker and Members of the House. Within
the last several years, we have provided, by legislation,
the private insurance, health insurance plans, and that the
state, through its own welfare department, will provide
preventive mammography, to women at and over the age of 35,
at regularly scheduled intervals, as per the guidelines set
by the American Cancer Society. There is one group that we
could affect that we haven't, and those individuals are
covered by the provisions of House Bill 542. These
individuals are those who are either the dependents or the
employees of self-insured local governments in the state.
And, if we were to pass House Bill 542, we would close that
particular loophole in our existing coverage of preventive
mammography for women under health insurance plans in the
State of Illinois. The statistics from the medical
community are pretty overwhelming, with respect to the
value of these baseline mammography programs that you can
find out about a breast cancer three years, with the
mammography, three years before there would be any other
kind of evidence that might be available to a physician on
an office or other physical examination. The survival
rates, with mammography, are substantially better than they
are without, and as I say this is not a new issue, we have
provided this kind of protection in legislation before this

Body over the last three years, and I hope I will enjoy your support for passage of House Bill 542."

Speaker Giorgi: "Any discussion? Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Giorgi: "She indicates she will."

Black: "Thank you. Representative, I think you have a good Bill here, and I hope to be able to vote with you on this Bill, I mean that in all sincerity, but I think we do need to pay attention to the fiscal note that was filed on March 21. You, perhaps, have had ample opportunity to review that. It carries, a, according to this note, a very expensive impact, and I thought perhaps you could maybe refute those figures or tell us what you have, to refute that fiscal impact of about \$8,000,000."

Currie: "I would refute the fiscal note, in fact, I think that when they were doing the analysis they misunderstood the provisions of the Bill. We already provide this coverage for women and for dependents covered by local government health insurance that operates on the private market. I think that this fiscal note assumes rather, that all local governments are self-insured governments for purposes of health care. In fact, the numbers that I've been able to obtain from the Municipal League suggests that probably only about 100 local governments in the State of Illinois are self-insured and thus would be subject to the provisions of House Bill 542. Of those local governments, some, I am sure, already provide this kind of preventive care in their current employee and dependent health insurance programs. So, I believe there was a misunderstanding when the Fiscal note was drafted. I would point out, further, Representative, that the savings that

can be expected to local communities, by virtue of providing adequate preventive care, will be very substantial. The costs of care and treatment of an advanced breast cancer are very substantial, not only in terms of the likely loss of life of the woman who is its victim, but also in terms of the dollars that those health insurers are going to pay for extensive hospital stays, extensive chemotherapy, and radiation therapies. So, I would argue that instead of costing any money, passage of this Bill will save these local communities dollars that they will not have to spend at the end stages of individual lives."

Speaker Giglio: "Next discussion."

Black: "Mr. Speaker, may I continue, please? As I recall, the a, as I recall the Sponsor's discussion in committee, I think she a, and she reminded me, I think that, and I appreciate that, that IMRF automatically included everybody, and I think that's what skews their figures, correct? Okay?"

Currie: "That's my understanding."

Black: "I'm glad that you pointed that out. The only other question I have is the intent of Committee Amendment #1. I'm still a little unclear as to what that does."

Currie: "Thank you, Representative. The point of Amendment #1 is to say that a local government which wishes to comply with this provision, may do so either by permitting insurance reimbursement to cover the cost of these preventative mammographies, or, it may directly, itself, provide the mammography at a site and location of its own choosing. In effect, there are some local governments, Cook County is a good example, that has its own hospitals. If Cook County wanted to provide this coverage at Cook County Hospital, the Amendment would permit that as an alternate way of meeting the requirements of House Bill 542."

Black: "Mr. Speaker, I appreciate the Sponsor. This is a very complicated Bill, and she has reminded us of some of the discussion that was held in committee. We appreciate her patience, I am very pleased to rise in support of the Lady's Bill."

Speaker Giglio: "Representative McCracken."

McCracken: "Thank you. Will the Sponsor yield?"

Speaker Giglio: "She indicates she will."

McCracken: "Is there anything under current law that prohibits a local unit of government from providing this service, or from providing this coverage if it's self-insured now?"

Currie: "No."

Black: "This would pre-empt home rule and require them to do that? Is that correct?"

Currie: "That's right."

Black: "Parliamentary Inquiry, will this require 71 votes as pre-empting home rule? I'm sure the answer is 'yes'. I rise on a point of order then."

Speaker Giglio: "The Parliamentarian informs the Chair that this will take 60 votes, Representative McCracken."

McCracken: "Okay. You know that part of the Constitution in our House Rule is so confusing, I honestly never know whether it is 71 or 60. Can someone explain the Rule to me?"

Speaker Giglio: "Well, it's nice that you are raising those questions again, McCracken. The Chair loves to hear your voice. Believe me."

McCracken: "Okay. Well, I'll tell you, I rise in opposition to this Bill, and I know that I don't speak for anyone anymore but, nevertheless I feel I have to stand up and make a stand. Apparently, there is no requirement that these local units of government not do this. Meaning, that if the local unit of government chooses to do it, it may do so. There's no prohibition. Why do we have to mandate it?"

STATE OF ILLINOIS
87th GENERAL ASSEMBLY

Why do we have to pre-empt home rule? If the units of government should be doing it, isn't they who should be dealing with the employees via collective bargaining? Isn't it the local taxpayers who should decide this? As always, we have lots of good ideas down here, lots of worthy goals, lots of important things to get done. Invariably, we do not pay for it. This will require the cities or villages or counties to pay for this. And really, I suppose that you would have to call this a mandate, and it's something we should fund. But, we don't fund these things. We stand up, and we say nice things, we go home, we tell people we've done the right thing, and we put it on the backs of taxpayers who largely fund those local units of government via the property tax, the very property tax which is the problem in so many parts of this state. I say vote 'no', or, at the very least, have the courage to appropriate what's necessary to pay this, and I don't know that we will have that courage. So, I'm very confident in recommending a 'no' vote."

Speaker Giglio: "The Gentleman from Lake, Representative Churchill."

Churchill: "Thank you, Mr. Speaker. I guess I didn't hear the answer to Representative McCracken's question on whether or not it takes an extraordinary majority of votes. Could you please explain the Rule that says it's 60 votes instead of 71?"

Speaker Giglio: "Representative Churchill."

Churchill: "Yes, Mr. Speaker."

Speaker Giglio: "Article A to the Constitution. 'The Illinois General Assembly may provide specifically by law for the excessive exercise by the state of any power function of home rule unit other than a tax power or a power of a function specific specified in paragraph (i), paragraph (g)

and paragraph (j)'."

Churchill: "And what is that? Does it say that it requires an extraordinary majority of votes, right?"

Speaker Giglio: "It does not require an extraordinary majority of vote of 70."

Churchill: "Okay, the exceptions would be where there was some Bill we're doing over tax powers."

Speaker Giglio: "Correct."

Churchill: "It's a need-to-know basis? Made-as-instructed? Is that what it is?"

Speaker Giglio: "That's correct."

Churchill: "Well, that explains that. Thanks."

Speaker Giglio: "You're welcome. The Gentleman from Will, Representative Regan."

Regan: "Thank you, Mr. Chairman and Members of the House. Will the Sponsor yield for questions, please?"

Speaker Giglio: "She indicates she will."

Regan: "Before I ask the question again, the rules are for Republicans only. That's how it goes? Right. 'Germaneness' is for Republican's only? Representative Currie, does this...I don't have a copy of the Bill in front of me. Does this say that it goes 100% coverage, for example, if they had a deductible for \$150.00 it would..."

Speaker Giglio: "Representative Regan, was that a Parliamentary inquiry?"

Regan: "Yes. No, No. It's just a thoughtful statement."

Speaker Giglio: "Okay, proceed."

Currie: "This...the language of the Amendment, in effect says that whatever kind of health insurance you're offering, whether it is HMO or whether there is a deductible or what have you, that same coverage would apply to this kind of health care."

Speaker Giglio: "Further discussion? The Lady from Cook, Representative Currie, to close."

Currie: "Thank you, Mr. Speaker and Members of the House. This is not a new concept, and it's critical for saving the lives of Illinois women. In the past, we have required coverage, base line mammography coverage, for our own state employees, for employees who work in the private sector across the State of Illinois and for clients of our Department of Public Aid. House Bill 542 closes a loophole in, under which, some public employees in this state are not eligible for this kind of coverage. Let me remind you that in Illinois we anticipate ,7000 new cases of breast cancer on an annual basis. We expect that more than 2,000 women a year in Illinois will die of the disease of breast cancer. We know, competent health authorities tell us that we can stem that death rate. We can stop it in its tracks. If women, at and over the age of 35, have the opportunity of preventive mammography. This measure will save lives, and it will save money. Those local governments that fail to understand the value of preventive mammography screening are paying through the nose, in the costs of treatment, the costs of hospitalization, the costs of surgery, the costs of death. I urge your support for a sound public health measure, house Bill 542."

Matijevich: "Yes, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 802 as amended is different than it was as introduced. As introduced, it would have provided a state enforced through the Department of Labor Occupational Health and Safety Act. The Bill has been amended so that it shall only affect the public sector, and it is now actually the Administration Bill, because of the Department of Labor not only prepared the Amendment, but now supports the Bill fully because it gives statutory authority for the Department of Labor to do what it has been doing under intergovernmental agreement with the Industrial Commission. As I said, it only affects the public sector, and I would appreciate your support for House Bill 802."

House Bill 1006 is the continuation of the local government health plan that we have allowed to be established under CMS for local government entities. We had some areas where there were no HMOs and here in Springfield, we have an HMO that's certified by CMS and this legislation allows for the local government to be involved in the HMO as well as the state program. That's what it does. I move for its adoption and passage."

I ask for passage of House Bill 811, 1811."

Speaker Giglio: "Any discussion? The Gentleman from Vermilion, Representative Black."

Representative, the Bill, as drafted, has no penalty provision that would prevent an employee, you know, from filing a frivolous claim. Is it something you could work on, perhaps, before it comes back from the Senate? I don't think it is your intent to have employees just file a frivolous claim or claims that a, clog up the system, create paper work and expense and what have you. That's really our major concern with the Bill."

Saltsman: "Yes. This will not do that because a polling will have to be involved in some kind of an administration hearing, so therefore, if he wasn't involved in any part of the Act or any part of the harassment, he wouldn't be

filing a claim anyhow or the Director of Labor would refuse to hear it. So, therefore, it's not anybody in the...sector, the working sector, filed this claim. He had to be involved within the proceedings of filing a wage complaint on the Prevailing Wage Law. It's just not. So therefore, it wouldn't clog up anything, in fact, it would probably not happen too often, but there has been harassment under this law for discharge and so on have been made and this is their need to protect their work force."

experienced (sic extended) time on a temporary basis. A respite care worker shall be trained to supervise and assist the frail, abused or functionally disabled, impaired older adult and to support the special needs of the primary care giver. Respite care, without a doubt, can be an alternate to nursing home care. The Department of Aging is not opposed to this Bill, and, may I say it again the Department of Aging is not opposed to this Bill. The Alzheimers Association chapters throughout the State of Illinois are supportive of this;legislation. And when we talk about the Bill, when we talk about the finances of the Bill, the Bill is budget-neutral, the Bill is budget-neutral. Respite services can be provided only to community care eligible clients, and amount of service will not exceed the current allowable maximum. The average cost for a person to go to a nursing home is \$30,000 plus they can be on Medicaid, so it goes without saying with the implementation of this particular Bill, vast sums of money could be saved. People would be more receptive to caring for their own, and I believe that this basically is a re-election bid for each and every member of this staff. I think the senior citizens and those that are in need are basically supportive of this concept, and I would submit a 'yes' vote. Thank you."

Olson, M: "5 weeks and about 6 years. Do your elderly friends want to join you in this?"

Hoffman: "Well, let me tell you that a I think someone like yourself who is proably in that age bracket, will be protected by this Bill."

Olson, M: "Well, already you see, Members of the General Assembly, he's been here a matter of weeks, and then he's classifying some of us as elderly, which I am happy to be one. But when you authorize civil penalties, Class 3 felonies and ask this General Assembly to support that in your first Bill, you better go back to look at your notes. I don't think I can vote for this terrible measure."

Lang: "Well, what have they said to you when they've called specifically?"

Hoffman: "They're said that they have paid \$3.96 for an insurance policy and never were able to collect."

Lang: "Would you consider this in the area of Insurance Reform Legislation?"

Hoffman: "...I would think so, yes."

Lang: "Well, are you sure you're on the right side of the aisle?"

Hoffman: "...Sometimes I wonder."

Lang: "We greatly appreciate that, and we will be over to talk to you about that shortly, and I just want to clarify for those on this side of the aisle, this is your first Bill. Is that correct?"

Hoffman: "Yes."

Lang: "Well, we will have to think very carefully about it, thank you."

Speaker Giglio: "Gentleman from St. Clair, Representative J. Hoffman."

Hoffman, J: "Representative Hoffman I just have a couple of quick questions. I think this is a good Bill. I want to vote for it, and you would like us to vote for it because it is your first Bill, is that right?"

Ryder: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Giglio: "He indicates he will."

Ryder: "Thank you. Representative, I've had an opportunity to actually read the analysis on this Bill, and all frivolity aside, there are a couple of things I'd like to ask you about, if I may. It indicates that it does amend the Insurance Code, and you'll require that standards be in place by November 5th of 1991. Is that correct?"

Hoffman, M.: "Yes."

Ryder: "Those standards, would they be promulgated by the Department of Insurance?"

Hoffman, M.: "Yes, they would."

Ryder: "And would those be required to go through the Joint Committee on Administrative Rules?"

Hoffman, M.: "I believe so."

Ryder: "Do you actually believe that you can go through that time period, excuse me, go through that process in that short a time period. given that we now on the 1st day of May and it's likely not going to be until sometime this summer into actually making a law?"

Hoffman, M.: "There's no substantial increase in cost on this."

Ryder: "When you were Mayor of a Municipality of northeastern Illinois, did you ever have any words about state mandates? Did you say anything about the wisdom of the Legislature?"

Hoffman, M.: "We had many discussions on mandates."

Ryder: "Would you care to share with us of those thoughts about the wisdom of the Legislature making mandates and now you're feeling the brunt of this federal mandate? I'm sorry, Representative Hoffman, I didn't hear your response."

Hoffman, M.: "This should not cost the Department anything."

Ryder: "No, I didn't ask you that. Your thoughts concerning state mandates when you were representing a municipality."

Hoffman, M.: "When I was representing a municipality, we were very concerned about mandates and we are concerned here, as all of us are concerned, about mandates."

Ryder: "And of course, as a municipality you never, ever asked the state for help to do anything, did you?"

Hoffman, M.: "Never asked the state for any help."

Schakowsky: "Representative Hoffman, this is a serious question.

I'm looking at the synopsis and, while I applaud almost everything in your Bill, I do have one question, in the synopsis it says that the Bill 'removes a provision prohibiting renewal or Amendment of policies that duplicate benefits provided by Medicare'. It sounded to me like something that might remove a consumer protection, and I just wanted to hear your explanation."

Hoffman: "I'm not sure what you're talking about 'removing anything'."

Schakowsky: "It says, 'removes a provision prohibiting renewal or Amendment to policies that duplicate benefits provided by Medicare'. I just wanted to be sure that it doesn't remove some protection afforded to the elderly in these policies."

Hoffman: "I'm not aware that it removes anything. In regard to any medical benefits from the elderly. There is no substantive changes in any of the Medicare benefits."

Schakowsky: "It's not the benefits. It has to do with the renewal or Amendment of policies. I'm reading right from the synopsis."

Hoffman: "It's not a substantive change."

Schakowsky: "Thank you."

Speaker Giglio: "Gentleman from Fulton Representative Homer."

Homer: "Question for the Sponsor...Representative Hoffman, I think the Lady raised a good question. I don't know that you've answered it. Ah, does the Bill remove the prohibition against providing duplicated benefits? In other words, under current law there's a prohibition against selling the supplemental policies that duplicate benefits that are provided by Medicare. The synopsis and on page 3 of the Bill would seem to indicate that

prohibition is being removed."

Hoffman: "Tom, on page 3, that has been reworded in sentence, in line, starting at 14. All it has has been reworded. It has not been removed."

Homer: "Oh, I see, in other words, you reworded it to say that ah, no contract that provides duplicate benefits shall be issued."

Hoffman: "Right, nothing has been taken out of the original."

Homer: "I see, I think that's a reasonable explanation of that. Let me ask the John Cullerton question since he's not here. Ah, you make it a Class 3 felony to a offer one of these policies for sale without being approved by the Director of Insurance. Is there a requirement that you knowingly commit that act?"

Hoffman, M.: "I...I'm sorry. What was the question? All these hecklers are here."

Homer: "I was asking the John Cullerton question, that he always asks and I'm sure he will if it gets to the Senate. Is, you're creating a Class 3 felony, that's a maximum of 5 years in prison, I believe, and 10,000 fine or both, and the question is whether to commit that offense is a person required to have knowledge or must the offense be committed knowingly, before they can be guilty of that offense?"

Hoffman, M.: "Yes, it's on page 3...page 14, I'm sorry. Page 14, at the bottom of page 14."

Homer: "Now it goes on, though on page 14, to provide a civil penalty of up to \$5,000, and the language does not indicate whether knowledge is a requirement for that cause of action. It just says any person who violates the provisions may be subjected to a civil penalty, not to exceed \$5,000. Is it for purpose of legislative intent is it your intention that the knowing requirement be an element also, or a condition precedent to a successful

recovery under the civil action that you provide? In other words, do you...\$5,000 civil penalty they can't go to jail but you're going to sue them for violating this Act. To be successful do you have to prove that they knew that they violated the Act?"

Hoffman, M.: "Right."

Homer: "Well, I think it's important that you clarify. The Bill doesn't..."

Hoffman, M.: "I think the knowing provision would apply to both of them."

Homer: "Well, you know what usually in these matters where 'knowing' is in one sentence and left out of the following sentence, the courts may interpret it as...having been omitted for a reason that being that the Legislature did not intend it to be an element of the cause of action, and I just want to know for purpose of legislative intent, is it your intention that knowledge be a condition of, precedent to the successful recovery under that civil penalty provision."

Hoffman, M.: "Yeah, that's fine."

Homer: "I'm sure some justice somewhere will take that quote as the basis for a learned opinion."

Hoffman, M.: "Yes, I have my attorney standing by here. Knowledge is a condition."

Homer: "For both the criminal penalty and the civil penalty?"

Hoffman, M.: "Yes."

Homer: "You might suggest to the Senate Sponsor that they might want to put an Amendment in if that Bill gets over to the Senate. Finally, is this...is this was this Lolita Dedricson's Bill?"

Hoffman, M.: "No, no, it wasn't."

Wennlund: "Does the Department of Public Aid have a position regarding this Bill, Representative Curran?"

Curran: "To be honest with you, Larry, I don't know."

Wennlund: "My understanding is that the Department is opposed to the Bill because it's a duplication of what the Department already does. My understanding is that the Department currently sends notices to AFDC recipients...that, in fact, they are eligible for a federal Earned Income Tax Credit."

Curran: "Larry, I don't doubt that. This would, this would include however people who are not on AFDC, people who are employed and not on AFDC but employers would tell them that they may be eligible for these federal dollars. Seems to me to be a good thing for us to do, to let Illinois residents, who are employed, become aware that they may be eligible for some federal dollars."

Wennlund: "How does the employer know whether or not the employee would be eligible for those federal dollars?"

Curran: "...the...the notice could come from the Internal Revenue Service or from the Illinois Department of Public Aid."

the employee if the employer has been notified that, in fact, the employee is eligible?"

Curran: "I don't think so, I think what the Bill requires is that employers will notify all employees that they may be eligible for the Earned Income Tax Credit."

Wennlund: "Is there any penalty for failure to notify?"

Curran: "Larry, there is nothing I see here that indicates any new penalty because of this Act."

Wennlund: "Thank you, no further questions."

Speaker Giglio: "Further discussion? The Gentleman from McHenry, Representative Klemm."

Klemm: "Thank you, Mr. Speaker. Will the Sponsor yield for a question?"

Speaker Giglio: "Proceed."

Klemm: "How often does the employer, Representative Curran, have to notify the employee that there may possibly be a tax credit?"

Curran: "It would just be on that occasion, when they receive the W2 that they would be notified that they may be eligible for Earned Income Tax Credit, in other words, once a year."

Klemm: "Well, now the W2 is the earnings report. Is that what you're talking about, that every time the employer gives an earnings report to the employee they would have to again notify them that there may be tax credits available?"

Curran: "I'm sorry, would you ask your question again?"

Klemm: "Every time the employer gives the employee a W2, an income statement if you will, they would have to notify that employee?"

Curran: "Are you asking me to explain it another way..."

Klemm: "Is that when they would do it?"

Curran: "Yes, yes, what happens is that ah, the notice furnished to employers or created by employers, to notify their employees shall state as follows: 'If you earned less than'

(and whatever the number of dollars would be for that year) 'last year and have at least one child you may be eligible to receive a Tax Credit from the Federal Government. A Tax Credit maybe a refund from the Federal Government for as much as' (and then those dollars would change from year to year), 'you must file a Tax Return to claim the Earned Income Tax Credit.' That language is in the law."

Klemm: "So the employer would have to fill in this form annually and give it to each employee, is that right?"

Curran: "I don't think this law is changing that, this law doesn't change what... the language that I simply read to you is already in the law and is not changed. What the employer would do then is notify the employee when they are providing their W2 Tax Withholding Form."

Klemm: "Alright, so as I understand it you have a relatively simple form, in your opinion?"

Curran: "Simple in that I've just read it to you, and it's one paragraph."

Klemm: "And the employer would be required to have these printed up, they're not provided by any state department or Department of Revenue or anything else. It could be in any form they want as long as they say substantially what you're saying. Do they have to give it to the employee every time the year-end earning report is sent to the employer? The State of Illinois will they send it to you and I when we get our W2s from the state. Would that be a part of it? Are we considered employees?"

Curran: "I don't know if we're considered employees. But if we are, according to this law, then we have to be notified as well."

Klemm: "Alright, so everybody's covered then right?"

Curran: "Yes."

permissive Act rather than a mandated Act or..."

White: "No, this a mandated Act and I talked with Public Health Department earlier today, and they wanted to know if I could make it permissive, and I said that if the Department of Public Health had done what was asked of them then we would not be to this Order of Business and that is trying to pass a Bill that would set them up as the agency that would have the responsibility of making sure that the people are aware of the fact that there is food out there for them, and I think that if, by chance, this Bill is passed then we're talking about healthy babies, healthy senior citizens, a healthy society and when that happens, all of us benefit, but now the grants are permissive."

Black: "Would you look at Floor Amendment #1? Lets see if we're looking at the same language here. As I look at your Amendment #1, it appears to me that you've deleted provisions which specifically require the Director of Public Health to administer this program, that...furthermore, you say that you 'allow' the director to make grants rather than say that the director 'shall' make grants and then put these grants under the program established by this Act, so if I'm reading this correctly, it would appear that you are, you have, in fact, taken some of the mandated aspects of the program out by Floor Amendment #1."

White: "Okay, the grants would be permissive, but we would like for there to be someone who would coordinate these programs, and the Bill asks that the Illinois Public Health Department be that agency."

Black: "If I could, Representative, I'm not sure what...what the fiscal note might have shown, do you have any idea what the cost might be?"

White: "It's very, very small based on what this Bill seeks to

do."

Black: "Is...would \$150,000 cost, you think, be reasonable?"

White: "What is that figure again?"

Black: "150,000."

White: "Well, that is the Department's estimate, and I happen to believe that it's would be considerably less and then it goes back to that old saying, ;Do I pay more now or pay a lot more later?' What I'm really trying to say to you, Representative Black, is this: that there are a lot of products out there, a lot of food that the people need, want and desire and are eligible for them, and most of these dollars or this food that we're talking about, is through the federal government. And all we want to do is to make sure that the people know that they're out there, and we want to make sure that we have someone who is going to direct this coordinated effort so the people can be properly served."

Black: "Okay, so I think what some of the confusion might have been, Representative, is that there was some...indications that you may have reached an agreement with the department on this Bill but if I heard you correctly you have not reached an agreement with the Department of Public Health on this Bill."

White: "Well, the only real opposition, we agreed with regard to the concept, the Illinois Education Department had a problem with it, we resolved theirs, and I think that...the Public Health Department realized the importance of this Bill, and I think their only opposition is because of the small amount that it's going to cost for the program to be implemented."

Black: "But, it appears then that you have a good idea here, but it's dependent on dollars that may or may not be appropriated, would that be a fair statement?"

White: "Well, we hope to save money in the long run because when you have a healthy society, then all of us benefit. If, by chance, you have to go to the hospital, and we don't bring into this world healthy babies and...if a kid cannot go to school because of lack of food and the elderly are not receiving their food stuff, then it goes right back to sending someone to the hospital, goes back to long-term care and talk about long-term care in terms of those that come into this world at a very, very young age."

Speaker Giglio: "Representative Matijevich."

Matijevich: "Yes...Mr. Speaker, Ladies and Gentlemen of the House. This Amendment was drafted because the Bill as introduced was a, was more encompassing and too broad; there were some who felt that it may affected small business; it may have affected the malpractice, and this Bill now would be, strike everything after the enacting clause and would create a new Act which would be sighted as the Product Liability Court records Sealing Act. This now would only go after to keep open records with regards to the, to the large product liability cases, as a protection for the public. And I would move for its adoption."

Speaker Giglio: "Any discussion on the Amendment? Hearing none. All those in favor. The Gentleman from Will, Representative Wennlund."

Wennlund: "Thank you Mr. Speaker. Will the Sponsor yield?"

Speaker Giglio: "Indicated he will."

Wennlund: "Does the Floor Amendment #2 limit the application of the Act only to settlement of product liability cases?"

Matijevich: "That's correct. It applies to actions for personal injury or death arising out of product liability actions."

Wennlund: "Have the Illinois Manufacturers Association and the Associated Employers of Illinois...signed off on the Bill?"

Matijevich: "Oh, I don't think so, but there are others who have, naturally, but I would think that those two that you mentioned would still be opposed to the Bill."

Wennlund: "And with respect to a settlement agreement under what circumstances can a court order...the file closed to the public?"

Matijevich: "Well, the court could order a file be closed where it relates to...trade secrets, for example...documents filed with court in camera solely for the purpose of obtaining a ruling under discover building of the documents, documents in court files to which access is otherwise restricted by law...as I said the trade secrets and I believe there was one other trade secrets or other proprietary rights."

Wennlund: "So, that, in the event that a settlement agreement involves a trade secret...by a manufacturer in that instance that record would not be open to the public upon his Motion?"

Matijevich: "That's correct."

Wennlund: "To the Amendment, Mr. Speaker. The I understand the purpose behind the Amendment, but what I don't understand is is the action that, any action that's pending. I think that instead of clogging the court system, we ought to be promoting settlement and that legislation like this will only distract from the settlement of existing litigation in product liability cases. And I think what we ought to do is encourage settlement and instead of litigating something all the way to the end. that might involve a trade secret or might involve some process that may be patented by a manufacturers that the public has no reasonable right to know. Now if it's something hazardous or a hazardous condition, that's one thing, but when it comes to a process that may be a patented process...it gets close to a trade secret, you run into problems with this Amendment, and I'd ask for a Roll Call Vote on the Amendment."

Speaker Giglio: "Further discussion? Representative Santiago."

Santiago: "Thank you Mr. Speaker. Would the Gentleman yield for a question?"

Speaker Giglio: "Indicates he will."

Santiago: "John, has the Illinois Medical Society signed off on this Amendment?"

Matijevich: "Well, I would think they would have had to sign off because now it does not pertain to malpractice at all. So I haven't talked to them."

Santiago: "You haven't talked to them?"

Matijevich: "No, but those who have asked me to prepare the Amendment, said that was one of the reasons to prepare the Amendment so that, that would remove their opposition."

Santiago: "Well...before, before I vote on it...I got to talk to them. Will you hold on Third Reading?"

Matijevich: "On Third Reading I will let you know for sure. I will talk to them first."

Santiago: "Okay, thanks."

Speaker Giglio: "The Gentleman from...Representative Kirkland from Kane."

Kirkland: "Thank you. Would the Sponsor yield?"

Speaker Giglio: "He indicates he will."

Kirkland: "Thank you. The current law in these kinds of cases am I correct, is that if the parties petition the court they can have the court file sealed. Is that basically correct?"

Matijevich: "I didn't hear...I didn't hear you, Jim."

Kirkland: "Okay, is the current, is it correct, that the current law if the parties settle the action and...petition the court for the...file to be sealed, that it would happen?"

Matijevich: "That's correct."

Kirkland: "...and this would put...and they can do that without cause and effect, they don't have to meet any burden to have the file sealed?"

Matijevich: "That's right."

Kirkland: "Alright, and this would change the law so that they for the parties to have the file sealed they would have to

you know show that there were trade secrets involved or something else that would be harmful you know harmful to the public, or whatever."

Matijevich: "Right."

Kirkland: "Alright, and...just a second. That's it, thank you."

Speaker Giglio: "The Gentleman from Cook, Representative Lang."

Lang: "Thank you Mr. Speaker, Ladies and Gentlemen. I rise in support of this Amendment. You know, this a dramatically scaled down version of the original Bill. There was a lot of controversy surrounding the original Bill, and because of the scaled down version I would venture to say that there's a dramatic decrease in the amount of opposition among some of the people that have contacted some of the Members on this Bill. They may still be against, but it certainly is a dramatic decrease, and it certainly is a much different...Amendment, much different Bill than used to be. And I think it's important to note that...we as Members of the General Assembly are always dealing with freedom of information and public access to public records. We have a stake in the appropriateness of keeping court files open, so the general public knows what's going on in courts. We don't want to close our court system to the public because the public has a right to know what's going on there. I support this good Amendment."

Speaker Giglio: "Further discussion? The Gentleman from Champaign, Representative Johnson."

Johnson: "Well, I think the last speaker addressed what we're really debating here. We're not debating the underlying Bill or the merits of that, we're debating Floor Amendment #2, and what Representative Matijevich has done and seeks to do with this Amendment is to address at least many of the concerns that were raised in Judiciary I Committee, for fear that this Bill went too far. So that this Bill

87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

eliminates a vast, vast majority I would gather to say probably 99% of the cases, that the original Bill would have been applicable to, and limited to one narrow set of cases, for policy reasons that Representative Matijevich may address in more detail on Third Reading. The only issue now is, 'Are you in favor of an Amendment that limits the application of the Bill to those narrow set of circumstances that he's described?' and even those who might oppose the underlying concept, I would think, would be favor of something that...that...limited the scope. So I think it's a good Amendment and I hope we vote 'yes'."

Speaker Giglio: "Representative Matijevich to close."

Matijevich: "...Yes, Mr. Speaker, Ladies and Gentlemen of the House. The last two speakers hit the nail on the head. This is a scaled down version of the Bill as introduced, and the scaled-down version eliminates the opposition of those who are concerned about the medical malpractice cases, and some of the small business concerns that were addressed in the Judiciary Committee. It now affects the large product liability cases that we are really concerned with, so I would urge the Members to on my Motion to adopt the Amendment...to vote in favor of it."

Speaker Giglio: "All in favor of the Amendment signify by saying 'aye', opposed 'nay'. The Gentleman asks for a Roll Call. All those in favor vote 'aye', against 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this question there are 85 voting 'yes', 27 voting 'no' and 1 voting 'present', and the Amendment is adopted. Further Amendments?"

Turner: "Yes, Mr. Speaker, I need to have this Bill brought back to Second Reading for purposes of an Amendment."

Speaker Giglio: "You heard the Gentleman's Motion. The Gentleman has leave by the Attendance Roll Call? Hearing none, the leave is granted. Goes to Second Reading. Representative Turner."

Turner: "Yes, Sir. Oh, yeah, there is one, Amendment #1. Amendment #1 provides an immediate effective date for this particular Bill which is the home Bill that was passed out of here last year. We need this effective date, the Treasurer's Office requested this Amendment so that they could procede with the legislation. We do have a copy of the Amendment here."

Speaker Giglio: "Amendment is #1 on the Bill."

Turner: "It's on the Bill. Then let's move it to Third. We'd like to vote on the legislation."

Clerk Leone: "The Amendment has already been adopted."

Speaker Giglio: "House Bill 459. Third Reading of the Bill. Representative Black."

Black: "Thank you very much, Mr. Speaker. Just a question of procedure. I...our records indicate that this Amendment was adopted by voice vote last week. What is the Gentleman doing now? Another Amendment?"

Turner: "Representative, my record, which is not as complete as yours said that the Amendment was in the file, but was not adopted. I do concur in checking with our staff, the Amendment has been adopted. I'd like to go ahead and move the Bill so that we can proceed with the Act."

Black: "I...we have no problem with that. We're prepared to vote with you we think it's a good piece of legislation. We

just didn't want you to adopt the same Amendment twice."

Turner: "Well, home ownership is the kind of thing especially made easy we need to do it 3 or 4 times, but we will go with this one version. Let's move it. The Amendment is the Bill. The Bill what it merely does is create an effective date for the Homeownership Made Easy Act that was passed out...Sponsored by Speaker Madigan that was passed out of here last year."

Speaker Giglio: "The question is, 'Shall House Bill 459 pass?' All in favor vote 'aye', opposed 'no' The voting is open. This is final action. Representative Doederlein."

Doederlein: "Yes, I just wanted to mention that this was a shell Bill, and then it was changed...just for a date, and I would like to know if he would answer who it was changed for."

Speaker Giglio: "Representative Turner, do you want to respond?"

Turner: "I've tried to help her. It was changed for the people of the State of Illinois. Actually, this is the Bill that we all supported last year and...it, the Treasurer's Office is the one that requested because they cannot move forward with it."

Doederlein: "Was a Constitutional officer that requested the change?"

Turner: "Yes, it was a Constitutional Officer that said he was having problems with it, so we're trying to help the Constitutional Officers."

Doederlein: "Thank you."

Speaker Giglio: "Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this question there are 115 voting 'yes', none voting 'no', none voting 'present' and House Bill 459, having received the required Constitutional Majority is hereby declared passed. any state agency, but let me tell you we always find that there is some cost, \$500,000, \$1,200,00, million 2, whatever it is. The point of the fiscal note in our process is so that we know what it's costing when we vote our consciences and vote our preferences. There's no question this Bill will cost us something.
