HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

57th Legislative Day

Speaker McPike: "...come to order. The Chaplain for today is Pastor Joe Latson of the Bradbury Free Methodist Church in Toledo, Illinois. Pastor Latson is the guest of Representative Noland. The guests in the balcony may wish to rise and join us for the invocation.

Pastor Joe Latson: "Let us bow our heads together, please. Our heavenly Father, we come before You this morning with grateful hearts, hearts full of thanksgiving for all the blessings that You bestow upon us individually, and as a nation. We thank You, Lord, for the very fact that we have a breath full of life this morning, that we might be able to serve You with all that You give to us, and as we reflect upon the privileges that we have here this morning, we ask Your blessing upon this group that is gathered together to do the business of this state. Lord, we ask You to help us to remember that we are indebted to You for all of the answered prayer that You have given us, the way that you have watched over and cared for us. We're especially grateful this morning, Lord, for the way You have answered prayer in behalf of Operation Desert Storm, the way that You have watched over and cared for our men and women who serve our country, and as we reflect upon those who are serving here, serving their state and serving their country through this legislative Body, we thank You for a Body that sets aside a time for prayer and recognition of God. We thank You, Lord, for the fact that they take time out of a very busy and often hectic schedule to look to You for the wisdom and strength to perform the task that's before them. We recognize, Lord, that we have a great number of things to be thankful for individually, and as we reflect upon those things, we recognize that together as a nation, together as a team, we put our skills

together, the talents that You've given us, the knowledge that is there, and we try to make this state the proud state that it is. We thank You for allowing us to be a part of it. May we continue to support it in every aspect of our lives. In the name of the Son, Jesus Christ, we pray. Amen."

Speaker McPike: "We'll be led in the Pledge of Allegiance by Representative Myron Olson."

Olson, M. - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker McPike: "Roll Call for Attendance. Representative Matijevich."

Matijevich: "Speaker, let the record reflect the excused absence of Monroe Flinn, and he's coming along fine... should be here next week."

Speaker McPike: "Representative Kubik."

Kubik: "Thank you, Mr. Speaker. Representative Olson thanks you for keeping the Republicans on their toes this morning. Representative Barnes is excused, and Representative DeLoris Doederlein, as well, this morning."

Speaker McPike: "Take the record, Mr. Clerk. 115 Members answering the Roll Call, a quorum is present. Representative Capparelli."

Capparelli: "Mr. Speaker, I'd like to inform the House that a dear friend of ours, a former Member of the House, Larry DiPrima, passed away this morning, and I would like...Larry DiPrima, and also yesterday, I believe was Pete Miller that passed away."

Speaker McPike: "Representative Shaw. On a Motion, Sir. Mr. Shaw."

Shaw: "Thank you, Mr. Speaker, and Ladies and Gentlemen of the

House. I move that...on a Motion that Resolution #50...suspending the appropriate Motions, rule 43(a) that House Resolution 50 be heard...at this time."

Speaker McPike: "Representative Olson, any objections?"

Olson, M.: "...the rules, Mr. Speaker."

Speaker McPike: "Pardon?"

Olson: "No problem with suspending the rule."

Speaker McPike: "Mr. Sieben."

Sieben: "Yes, Mr. Speaker, I rise in support of Representative Shaw's Motion."

Speaker McPike: "Alright. You've heard the Gentleman's Motion. Hearing no objection, the Attendance Roll Call will be used and the Motion carries. Alright, now we're on the Resolution now, Mr. Shaw, so proceed. Proceed on the Resolution."

Shaw: "Yes. This is a Resolution...Resolution #50 is passed in Congress to...allow the...states...to regulate the...banking industry, and this has been agreed by both sides of the aisle, and it's memorialized in Congress to...allow the states to make the decision when it comes to bankin'."

Speaker McPike: "Hearing no objections to the Resolution, the question is, 'Shall it be adopted?' All in favor say 'aye', opposed, 'no'. The 'ayes' have it. House Joint Resolution 50 is adopted. State Government, Third Reading. House Bill 17, Mr. Lang. You want this called today? Representative Currie would like her Bill, in this Order, called. We can take this out of the record, if you wish. Alright, Mr. Novak, Representative Currie, House Bill 313. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 313, a Bill for an Act to amend the Minorities and Female Business Enterprise Act. Third Reading of the Bill."

Speaker McPike: "Representative Currie."

Currie: "Thank you, Mr. Speaker and Members of the House. This is a Bill that actually...almost identical to the one that we passed two years ago. It would ask state agencies either to publish in advance the RFPs for professional service contracts in the state newspaper, or to provide information to the Minority and Female Business Enterprise Council when professional service contracts are to be let. We're doing a pretty good job in state government in making sure that vendors of service are having a...relatively...easy time finding out what it is state agencies want to buy. When it comes to...professional service contracts, we do less well, so, that's all that's on the Bill."

Speaker McPike: "And on the 'do pass' Motion, Representative Black."

Black: "Yes. Thank you very much, Mr. Speaker. A question of the Sponsor."

Speaker McPike: "Yes."

Black: "We were under the impression this would be taken back to Second for a Floor Amendment."

Currie: "Can we check with the Clerk? I think that Amendment went on yesterday."

Black: "Could the Clerk enlighten us as to whether Floor Amendment 2 has been adopted to House Bill 313?"

Clerk O'Brien: "Amendment 1 and 2 are adopted."

Black: "Okay."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. On this Bill, there are 109 'ayes' and no 'nays'. House Bill 313, having received a Constitutional Majority is hereby declared passed. Education. Health Education. Third

Reading. House Bill 691. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 691, a Bill for an Act to amend the Critical Health Problems Act. Third Reading of the Bill."

Speaker McPike: "Representative White."

White: "Mr. Speaker, Ladies and Gentlemen of the House. House Bill 691 is a simple Bill. It would require that the schools would teach...the schools would teach the Heimlich and CPR for youngsters from the 6th through the 4th year of high school. It's a method by which we will be able to put a paramedic in every household. To my knowledge there's no opposition. There was a cost factor involved, but the cost is minimal. I move for it's adoption."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. I apologize. Representative Wojcik, I did not see your light. Proceed."

Wojcik: "Okay. Thank you, Mr. Speaker. I just had a question before I vote. The Illinois Association of School Boards was opposing this. Have you removed that opposition, or have they removed it?"

White: "That I cannot respond to, but what has happened is that it will only cost about...dealt with the mannequins, and the mannequins can be purchased for \$10...\$50 each, \$500 will buy ten per school, and they could of course transfer those mannequins to other institutions, so I think that their opposition was basically because of the cost factor, and I think that when you're talking..."

Wojcik: "It's an unfunded mandate then, is that correct?"

White: "Well, when you stop and think about it costing \$50 for a mannequin, I think that your life and the lives of the young people of this great state of ours is worth \$50."

Wojcik: "Okay. Thank you."

Speaker McPike: "Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 88 'ayes' and

Representative Marinaro and Representative Rotello and Representative Walsh...the record should reflect that they intended to vote 'aye' on House Bill 691, and so did Representative Zeke Giorgi intend to vote 'aye'. The Chair would like to have your attention for a minute. There are slips up front for anyone who wishes to put their Bill in interim study...suggest that you fill those slips out today. Now we are going to begin with Labor, and then Human Services, Agriculture, Consumer Protection, Economic Development, and we are not going back to any of these Orders. None of them. Gonna start with Labor, Human Services, Ag, Consumer Protection, Economic Development, Labor. House Bill 824, Representative Mautino. Representative Mautino. The Chair will not return to this Bill. House Bill 824. The Gentleman is not here. Out of the record. Who's the Co-Sponsor of that? Representative Black, you're the Co-Sponsor of that Bill. Do you wish to call it? No. Out of the record. House Bill 1195, Representative McGann. Read the Bill, Mr. Clerk. McGann. Okay. Out of the record. House Bill 345 under Agriculture, Representative Richmond. Out of the record. critical trends and alternative futures. Third Reading of the Bill."

Speaker McPike: "Representative Giglio."

Giglio: "Thank you, Mr. Speaker, and Ladies and Gentlemen of the House. This is a Bill that we had...we talked about last time. It's set up that the Department where we could have these people work and get things from the Federal Government and from private enterprise, and...both leaders on...both sides of the aisle in the House and the Senate have appointments to this department and also what...the good part about it is that it's allowed to get money from different foundations whereby it wouldn't cost the state that much money in order to keep it going. The initial money, yes, would come from the state, after that we could...use the foundations to study the trends and hopefully put Illinois ahead of all the other states that are doing it now."

Speaker McPike: "Representative Black."

Black: "Yes. Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. This Bill is on Postponed Consideration. The Bill is...perhaps...is well intentioned, but it's drafted...it's very vague. I'm not sure it has a great deal of merit. It's been amended to take out the word 'political'...in the critical trends section, that makes it a little bit more palatable, but I really think this Bill needs a...lot more work before we pass it out of here. It's another advisory board, another expenditure. Perhaps this Bill should be...retired with a 'no' vote, and the Sponsor can bring it back at a later time in the Session next year."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? Clerk will

Clerk O'Brien: "House Bill 1580, a Bill for an Act in relation to employment opportunities. Third Reading of the Bill."

Speaker McPike: "Miss Younger."

Younger: "Thank you, Mr. Speaker. House Bill 1580 would establish the Illinois Guaranteed Job Opportunity Act, which would establish all over in various counties...in the counties of Illinois, executive councils that would put...together projects for our young people...would work. The young people would be from 16 years of age up, and they would have to have an eligibility requirement of having been unemployed for the last 35 days. I think that the very great advantage of this approach to unemployment among

HOUSE OF REPRESENTATIVES

youth in our state, is the fact that in order to participate in this...a project anyplace in the state, the young person would have to go back to school and have to be working on their high school diploma. It would be an instrument through which we would get our young people employed, and at the same time have them moving towards their high school diploma. Time would be taken with the person in the program to see that they are filling out applications for private gainful employment. The project would be paid for through Partnership Training Act funds or through foundation funds or Community Improvement Services funds. I have checked in the St. Clair County area and there are funds in that area, at least, for paying the minimum federal wage to...a group of young people who would be involved in this...program. I am not suggesting that there be a state expenditure for this program, but I am saying that if we set up an...Illinois Guaranteed Job Opportunity Program, this can be an alternative to the large numbers of young people who are going to prison because they don't have anything to do and who have dropped out of school. We want to get those children back into school and back into some type of meaningful occupation, moving towards graduation, and for those reasons I ask you to vote...'yes' on this Bill."

Speaker McPike: "Mr. Black."

Black: "Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. We must rise in reluctant opposition to this Bill. I think all of us know there are a number of programs available for what the Lady is trying to do with this Bill, there's JTPA. DCCA runs numerous job training programs, there are perhaps too many programs out there. Maybe that's the case. We're not focusing correctly, but the startup costs alone for this program in East St. Louis

approaches \$1,000,000 in a budget year that we simply don't have an extra \$1,000,000. It's for that reason, plus there are already an alphabet soup of agencies doing what this Bill would simply create, another agency doing that. I don't think it's necessary. I think we can work with the machinery that we have. I would urge a 'no' vote."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Vote your own switches. Members are advised to vote your own switches. Have all voted? Representative Younger."

Younger, W.: "Mr. Speaker, what we have for young people in this state today is simply not working. We have too many of them who are just standing around, not in school, unemployed, not moving towards any successful adult life. This Bill would rearrange the program opportunity for them and get them into a pattern where they were doing some gainful work and they will...be learning how to work and they would be going back to school. This is a Bill which is promoted and has been originally drafted at a federal level by United States Congressman Paul Simon. I...urge your support for this matter. It is an important initiative to help our young people. We have left our young people out of our society. We do not share any of their resources. There is in this state large amounts of Joint Partnership Training Act funds that are just laying around, not being used because the program is not organized. I'm asking you to proceed with this initiative because it would organize our resources in Joint Partnership Training Act, and there are enough supportive..."

Speaker McPike: " Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there are 58 'ayes', 47 'nos'. Representative Younger asks for a Poll of

Speaker McPike: "Gentleman have leave? Leave is granted. Bill is on Second. Mr. Black, is that alright?"

Black: "Mr. Speaker..."

Speaker McPike: "Yes."

Black: "...based on what we know will be amended onto the Bill, I just want the Sponsor to know that we would object, under the applicable rule, to reconsideration on Third. I just want you to know that if you bring it back with the Amendment we think you're going to put on it, we'll object to an immediate consideration."

Granberg: "Yeah. That's fine. Right, Bill? Okay."

Speaker McPike: "Representative Granberg, the Bill is still on Third Reading. What do you wish to do?"

Clerk O'Brien: "Floor Amendment #2 offered by Representative Harris."

Speaker McPike: "Representative Harris."

Harris: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #2 is an Agreed Amendment which makes the Bill more palatable and agreeable to everyone, and I ask for adoption of the Amendment."

Speaker McPike: "Representative Granberg, Amendment #3."

Granberg: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amendment #3 makes technical changes to the Bill at the request of the Department of Commerce and Community Affairs, I would move for its adoption."

Clerk O'Brien: "Floor Amendment #5, offered by Representative Saltsman."

Speaker McPike: "Representative Saltsman. Mr. Saltsman. Representative Saltsman what is your desire, Sir?"

Saltsman: "Withdraw."

Speaker McPike: "Gentleman withdraws Amendment #5. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. The Gentleman asks leave to hear the Bill at this time. Representative Black. Mr. Granberg, would you oppose...Mr. Granberg, would you approach the podium, please? Mr. Granberg. Mr. Granberg. Could we see you please? Representative Black. Let's take this Bill out of the record for just a few minutes. We'll get right back to it. Representative Granberg, it appears like there's been an error in adoption of Amendment #4. The Gentleman would like to return the Bill back to Second Reading. House Bill 2362 is on Second Reading. Representative Ryder withdrew Amendment #4. The Gentleman would like leave of the House to reverse his Motion to withdraw and to offer the Amendment. Does the Gentleman have leave? Leave is granted. Amendment, I would have to oppose Amendment #4."

and the Amendment's defeated. Further Amendments? No
further Amendments. Amendment #5 has been withdrawn.
Representative Saltsman. Amendment #4 is defeated."

request...no further Amendments. The Bill is on Third

Speaker McPike: "Representative Granberg."

Granberg: "Thank you, Mr. Speaker and Ladies and Gentlemen of the
House. House Bill 2362 as amended simply provides that we
pay attention to the incentives we provide our businesses
located in the State of Illinois. If those businesses take
our incentives and decide to leave the State of Illinois,
they have to give us notice, and they have to, in fact,
rescind those incentives and return them to the state. I
believe this has bipartisan support, and I'd appreciate a
favorable vote."

Harris."

perfect Bill necessarily, but the Sponsor has been very agreeable in working with us, some Members on our side of the aisle may still oppose it because it contains a lengthening of plant notification closing requirement, but, nonetheless he has been very agreeable. It's not as bad as it once was. I will certainly vote 'yes' because of the cooperation of the Sponsor."

Speaker McPike: "Representative Black."

Black: "Well, I think it would be redundant or silly to ask for a verification, Mr. Speaker, but an inquiry of the Chair. I...thought I had indicated our desire to object to immediate consideration on Third, if you would look into that."

Davis: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 2003 merely requests that home owners or building owners have displayed on the front of their buildings in Arabic numbers or regular numbers...approximately three inches high, the addresses that that building that...that building, and the reason for this legislation is, there have been times when firemen have not been able to find an address because there's nothing on the building, or because a policeman is called to a building and there are no numbers on that building to

Speaker McPike: "Miss Currie."

Currie: "Thank you, Mr. Speaker and Members of the House. This language would codify the department's responsibility to see to it the children are not removed from their parents because there isn't the opportunity for housing and the language further specifies that the new requirements would not subject the department to lawsuits in state court, while the federal Norman Decree is pending. The language is agreeable to the department, and those I think...I hope it will merit your support."

Black: "Thank you very much, Mr. Speaker. Just to let our side of the aisle know, Amendment #2 was worked out with the Sponsor and the Department of Children and Family Services. With that Amendment the department has no objection to this Bill. It's also my understanding that the Governor's Office no longer has any objection to the Bill with the Amendment that the Lady is putting on the Bill."

Speaker McPike: "Question is, 'Shall the Amendment be adopted?' All in favor say 'aye', opposed, 'no'. The 'ayes' have it, and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Mr. Clerk, read the Bill."

Clerk O'Brien: "House Bill 318, a Bill for an Act in relation to children and families. Third Reading of the Bill."

Speaker McPike: "Representative Currie moves for the passage. All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. On this Bill, there are 107 'ayes' and no 'nays'. House Bill 318, having received a Constitutional Majority is hereby declared passed. House Bill 1220, Representative Phelps. Read the Bill, Mr. Clerk. The Bill has been read a second time. Are there any Amendments?"

Speaker McPike: "Gentleman withdraws Amendment 3."

Clerk O'Brien: "Floor Amendment #4, offered by Representative Phelps."

Speaker McPike: "Representative Phelps."

Phelps: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. Amendment 4 becomes the Bill. Most of you remember, last year ended the five-or-six year attempt to come up with a plan that all the allied professionals in the medical field could agree on on how we address the medically underserved areas of this state. Mostly ruled, but not entirely ruling and that was passed in Senate Bill 2277 which Governor Thompson signed. Now that provision was a comprehensive package which reflected the agreement of the Medical Society, the nurses, all the allied professionals involved in that negotiation, became public Act and became law last year. We have never been able to find a funding mechanism, but the distribution formula is set up in that Bill that Thompson signed. We know that the...the Bill or the price tag on that initiative according to Lieutenant Governor Ryan, now Secretary of State Ryan's Rule Affairs Council under their leadership said it would be anywhere around \$16,000,000 to \$18,000,000 to fund. We all know what type of year we are facing in the way of the budget constraints. It's not realistic to look at GRF or other areas to further put us in debt, but for the last several years, we have looked at the foreign insurance companies the 2% tax, as a potential finance revenue source. We do not want to pursue that just to divert the funds to the GRF; however, in this Amendment, we are asking that the present 2% foreign insurance tax imposed upon them to do business in Illinois be raised

1/2%. Of that 1/2% increase, we are asking that 50% of that be deposited in the fund in the Public Health Department to be distributed according to the formula set up in Senate Bill 2277, now law, and the other half of that fund is going to be addressed by the next Amendment, by Anthony Young. I appreciate your 'aye' vote."

Speaker McPike: "Mr. Black."

Black: "Yeah. Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. I stand in opposition to Amendment #4, and let the Chair...let the Chair know, that should the Amendment go on, we will object to the immediate consideration of the Bill on Third Reading. Ladies and Gentlemen..."

Speaker McPike: "Representative Black."

Black: "Yes, Sir."

Speaker McPike: "This Bill's been read a second time. When it goes to Third Reading it only needs 60 votes. This Bill has not been brought back from Third. Proceed."

Black: "Then let me just point out, Members on both sides of the aisle, and I appreciate and understand what the Gentleman is trying to do. We have some of the same problems in my district that he does, and rural health care is certainly an issue I'd like to work with the Sponsor of this Bill on; however this is a tax increase on foreign...on insurance premium fees, it's also a diversion that...of money that now goes to the General Revenue Fund, and we all know that the General Revenue Fund is in desperate condition. If all of the moneys that could be diverted under this Bill would be diverted, it would cost the General Revenue Fund \$160,000,000 and we can't afford it. I object to Amendment #4."

Speaker McPike: "Representative Phelps."

Speaker McPike: "No. You wish to close?"

Phelps: "Yeah. I did make an error. An Amendment to follow this, the Amendment that we discussed that Representative...Young had requested is included in this because the other 50% of the 1/2% increase will go and be deposited in a human services enhancement fund, and...that is of interest to the urban areas, just to show you that we're not trying to secure it all for rural health care initiative. We think we have our part. I disagree with the numbers that Representative Black has just indicated in this Bill. The 2% that now the foreign insurance tax imposed upon them for doing business in Illinois, amounts to about 160 some million dollars. We are raising that just a 1/2% which we estimate would be around 80--some dollars. So, of that half, we will realize around \$20,000,000 for the Rural Health Care Initiative, which many of you on that side of the aisle as well as this side of the aisle, supported last year, and the other half will be deposited in this enhancement fund that I referred to and Representative Young's needs. I appreciate your 'aye' vote."

Speaker McPike: "Question is, 'Shall the Amendment be adopted?' All in favor say 'aye', opposed, 'no'. The 'ayes' have it, and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Read the Bill, Mr. Clerk."

Clerk O'Brien: "House Bill 1220, a Bill for an Act concerning health care services in Illinois. Third Reading of the Bill."

Speaker McPike: "Representative Phelps."

just passed really is the Bill."

Speaker McPike: "If you go back to Second Reading, it's gonna requires 71 votes. Now if you stay on Third Reading, it's gonna require 60."

Phelps: "Let's stay on Third Reading. Sounds pretty good."

Speaker McPike: "And on the 'do pass' Motion, Representative Black. Excuse me, Mr. Black. What did you say?"

Black: "I said I object."

Speaker McPike: "Well, the Motion is a 'do pass' Motion. Does anyone wish to speak to this? Representative Black."

Black: "He didn't take the Bill back for an Amendment that wasn't printed nor distributed."

Speaker McPike: "He did not. He did not. The Bill's on Third Reading, and he's moved for passage."

Black: "Let me just speak...rise in opposition to the 'do pass' Motion. We've explained the...what the Amendment does. It is a substantial diversion of General Revenue Funds, as much as \$160,000,000, and even though the Gentleman is trying to address a very serious difficulty in his district in southern Illinois, you can't do \$160,000,000 diversion of General Revenue Funds at this time. We all know that. I would urge a 'no' vote."

Speaker McPike: "Representative McNamara."

McNamara: "If the Sponsor will yield for a question."

Speaker McPike: "Yes."

McNamara: "It is my understanding, Representative, that the...there is no diversion of funds. That what you are doing is, is adding a new tax that is not laid upon the people in the State of Illinois. It's laid upon people that are doing business in Illinois, and you are using those funds in order to fund downstate. Is that correct?"

Phelps: "That is correct."

McNamara: "So there, in reality, is no impact on the General

Revenue Funds as we now know it through the use of this Bill. It is simply a 1/2% additional fee that is on insurance companies outside of the State of Illinois, and it helps our people."

Phelps: "That's correct."

McNamara: "Thank you. I think that this is a fine measure. I think we should pass it out of here with as many votes as we can. It's a good concept; he's provided a revenue screen that does not affect the General Revenue Fund. I urge an 'aye' vote."

Speaker McPike: "Representative Curran."

Curran: "Thank you, Mr. Speaker. It'd be difficult to understand a single red or yellow vote. The Gentleman from the other side of the aisle who usually is wise and accurate and fair has temporarily lost his bearings when he says there's any GRF in this Bill. This is, as Representative McNamara just said, money which we impose upon insurance companies from other states to help our rural and urban health care situation. This is an excellent idea. Representative Phelps is to be commended for bringing it forth, and I think we should have 115 'aye' votes on this."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Representative Weller."

Weller: "An explanation of my vote, Mr. Speaker, Ladies and Gentlemen of the House. If you're concerned about your schools, and concerned about other priorities of yours that receive money from GRF this is a diversion of funds away from those kind of projects for this particular legislation. I would urge a 'no' vote."

Speaker McPike: "Representative Phelps."

Phelps: "Thank you, Mr. Speaker. To explain my vote. Those of you that are kind of hanging in doubt there, let me...let

me explain to you. Over in the Senate, a very similar provision with exception of an increase of 1%, passed out of the Senate and it's in our chamber now, so I was trying to be more realistic in a modest proposal, in a 1/2%, in trying to find a funding mechanism which we've been criticized for the last few years, in not trying to come up with a funding mechanism. We're robbing GRF, and technically with the Amendment 3 that did not go on, I do not want to mislead you, it does not clarify the real intent of the Bill. So, those that are referring to the diversion are technically correct, 'cause we did not get Amendment 3 on. I want to be honest about that, but it will be on, in the Senate, and the Senate Bill that's coming over here, we either will be reduced a 1/2% or we'll make sure we'll try to work with a 1%. Now which one do you want? This is a much fairer proposal, and we'll correct that technical error in the Senate, but Representative Black, you're correct in that instance, but you know our intent is not to divert. It will not be in the budget to begin with anyway before we correct it."

Speaker McPike: "Representative Weaver to explain his vote."

Weaver: "Thank you, Mr. Speaker, and...I think the Sponsor should be commended for his honesty and his forthrightness in explaining that it is correct assumption that this is a diversion of funds, and I think unless we want to face that...problem again, there's a Senate Bill coming over, as he mentioned, we can address it in that Bill, and we don't have to worry about this one here. So, let's vote this one down and deal with this situation with the Bill that comes over from the Senate."

Speaker McPike: "Have all voted? Have all voted who wish? Clerk will take the record. On this Bill, there's 61 'ayes', 43 'nos'. Representative Black has asked for a verification.

Speaker McPike: "Balanoff."

Balanoff: "Mr. Speaker, Ladies and Gentlemen of the House. The Amendment became the Bill and took out the funding source, and what this would do is require the Department of Public Aid to establish a occupational hazard evaluation center at a school of public health in the State of Illinois. That would probably be the State of Illinois School of Public Health. The center would study a particular work place or community to find out whether there's a health hazard to workers or residents caused by exposure to certain toxic chemicals or materials. We heard discussion on this Bill yesterday, and I would just ask for your favorable vote."

Speaker McPike: "And on the Bill, Representative Black."

Black: "Thank you very much, Mr. Speaker, Ladies and Gentlemen of the House. This Bill is on Postponed Consideration, and no matter how noble the Sponsor's intent, this simply creates another school mandate, and the Sponsor admitted, there's no funding to take care of it. You know...let's just stop this. This is another mandate, no funding...of all the years we shouldn't do it, it's this year. I urge you to vote 'no' on this. The Sponsor has admitted he doesn't have a funding source, he's simply creating another unfunded mandate for our schools, and I think our schools are getting a little sick and tired of that. This does create the Group Home Antidiscrimination Act, and would prohibit municipalities, counties and townships from adopting zoning ordinances that exclude group homes from residential areas. We had some discussion on this previously, and so I think extended discussion this morning is perhaps unnecessary. I would simply ask for a favorable Roll Call."

Black: "Thank you very much, Mr. Speaker, an inquiry of the Chair. Is this Bill on Postponed Consideration?"

Speaker McPike: "Yes. Yes."

Black: "And what order are we on at the present time?"

Speaker McPike: "Well, we're moving down...we just finished Municipal, County, Conservation Law, and now we move to the next one which is Public Utilities."

Black: "It would...we'd like an opportunity to call Bills that we haven't even had an opportunity to hear yet. We're picking up...this is the third or fourth Bill on Postponed Consideration."

Speaker McPike: "I realize that, but we're going right down the Calendar. We're going to keep the debate short. Representative Deering."

that collapsed. He has been taken to the hospital, St. John's Hospital, by ambulance, and we are, of course, all hoping that he was not seriously injured. He was injured. We don't know the extent of that. As soon as we find out, we'll let you know. So, we ask for your indulgence since, of course, he's a very important person to us on the floor, and...we hope that you will send him cards and so forth and good wishes, and you can start that by smiling at us, and we'll pass those on to him."

Speaker McPike: "Thank you. Representative Matijevich."

Matijevich: "Well...we...we all hope Bill comes out alright, but I want to tell you that probably is...I've been in that room and I...I know three times where somebody's fallen. There ought to be some railings put there. We ought to learn from that...lesson that they need some railings on the end or somebody else is going fall and break their, his/her, neck."

Speaker McPike: "The House will come to order. Representative Daniels."

Daniels: "Mr. Speaker, I rise on the order of personal privilege, and I rise because of an event that occurred yesterday that, frankly, has us on the Republican side, all concerned and the reason that we asked for a conference. Yesterday, in a very quick action, the Speaker of the House, who represents all of us, I remind everyone here, and was elected by acclamation with the view in mind that we would all be treated equally, made a Motion which, as we reflect back now, although everyone has a right to make a Motion, a Motion was put to him to suspend Rule 77 (b). Now, Rule 77 (b) is a rule of the House of Representatives which states that, 'Any Member may move that a committee be discharged from consideration of any Bill or Resolution assigned to it and not reported back unfavorably,' and Section (b) says:

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

57th Legislative Day

May 24, 1991

'The Motion must be in writing and shall be carried on the Daily Calendar for the next Legislative Day until the Order...under the Order of Motions. No action shall be taken on the Motion until it is on the Calendar.' This Section (b) may be suspended only by Motion adopted by 71 votes. So, yes, in order to get to that Order of Business, to bring Senate Bill 1, to a discharge 77 (b) had to be suspended by 71 votes. To read from the transcript: '...Mr. Speaker, Chair recognizes Speaker Madigan. ...Mr. Speaker, I move to suspend Rule 77 (b) relating to Calendar requirements to discharge the Committee on Revenue from further consideration of Senate Bill 1 and advance the Bill to the Order of Second Reading for immediate consideration. In order to do that, to require 71 votes, you'd have to put those votes. 'You've heard the Gentleman's Motion,' was the response. All in favor say 'aye', opposed, 'no'. The 'ayes' have it. The Motion carries.' No reference to the 71 votes being required to suspend. No reference to who voted in favor. No Roll Call taken, or no mention that it was unanimous in a sense, and, of course, at that time Representative Black and others were up trying to be recognized to discuss this issue. So, of course, then it was placed on Second Reading and then read a second time and moved to Third. Now, why do I rise to take the time on a very important day? Not in an effort to delay anything here right now, but to point out the concern we have as to the violation of a Member's rights to sponsor his or her own legislation. Senate Bill #1 is a product of the Senate Revenue Committee, Chairman Luft being the Chairman. It was amended in the Senate by Senator Philip which is now known as the Senate Republican Plan and voted upon by the Senate with three Senate Democrats voted in favor of the Bill: Senator Rock, Senator Severns and Senator Dunn,

87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

sending the Bill over for our consideration. Now, we all know this is a time of tremendous discussion as far as the budget and appropriation process, and we all know that there are many issues that have to be refined before then, but, what happened then, was taking a Member's Bill, without the Member's consent, because I was told by Senator Luft that I could sponsor the Bill and under no circumstances would he remove me as Sponsor, and under those conditions, I accepted it. But, without my consent as Sponsor of this Bill, you moved this Bill to Third Reading, disallowing any Member of this chamber the right to amend the Bill on Second Reading or to discuss in any detail. Now, Mr. Speaker, candidly, I stand before you with mixed emotions because, frankly, I had asked the Speaker to move this Bill along and talked at point of maybe I would put a discharge Motion. So you kind of took care of that for me, and you got to a point where I wanted to be, but in our conference today we discussed what's happening over and over again in this chambers. You opened up this morning, and you went immediately to a Bill, House Bill 313, took it out of order, popped that Bill out and then went back to a Special Order of Call. You don't have a right to do that without the Legislature's consent, and, of course, I remember riverboat gambling and the \$500 cap that was represented to this floor, to all of us, that it was in there. You don't have a right to set aside Member's ability to represent their constituents in the proper fashion. Now, I sit here, and I know that Senate Bill 1, which you want to call on Thursday at noon and, of course, as the Sponsor of the Bill it's my right to call the Bill when I want to call the Bill, not by somebody that sits up there and says, 'we're going to call Representative Daniels' Bill at the time we want to call it.' I'm the

STATE OF ILLINOIS

Sponsor of the Bill; I'll call the Bill when I want to call it. I'll call it for a vote, and you know what, I don't have a problem calling it for a vote. I'll tell you why. Senate Bill 1 makes such a tremendous distinction between what you're trying to do and what needs to be done in this state, that I think that I'd be happy with any Roll Call that comes out of here, so that we know that education funds under Senate Bill 1 will be fully protected, but you may come back with a plan that destroys education funding. You may come back with a plan that doesn't take care of property tax relief. That's why Phil Rock voted for this Bill. Look at it, talk to Phil Rock, ask him why he supported the Bill: Because it has education funds in there, because it has a human service debt relief fund, because it has property tax relief, and we know that when he reviewed this Bill he knew it was the best that... that...they could come up with and that's why it's before us now. So, yeah, I want to consider the Bill, and I want to look at it, too, but you know, Mr. Speaker, it's still early. We've got a lot of things that have to be done. On behalf of the Members on this side aisle, frankly, we're going to be looking very, very carefully at each and every one of your actions to make sure that all of our rights are protected because if you do it to me, the Republican Leader of the House, by moving a Bill without my consent, you can do it to one of the mushrooms using Kulas's comments, Representative Kulas's, and destroy your individual rights as Legislators in this chamber. So let's learn by example. We've seen too much of it. Let's make sure it doesn't happen again."

Ryder: "We're informed by the Department of Public Health, that the cost is about \$187,000. Does that coincide with your understanding of the cost, Representative?"

Phelps: "I probably wouldn't argue over the whole lot of difference."

Ryder: "I'm sorry, I can't hear you."

Phelps: "I probably wouldn't argue over the...a whole lot of difference. I don't have exact numbers but that would be a ballpark figure."

Ryder: "Maybe a valid purpose, Mr. Speaker, to the Bill. We've got druggists that haven't been paid for six months. We've got hospitals that are struggling to stay open. We've got nursing homes that can't pay for their food bills. \$157,000. may be intended for a good cause. I won't debate that. It's a fine speaker, or excuse me, a fine Sponsor who is speaking to the Bill, but, we can't afford it. Now, if you show me a plan where you're gonna get the \$157,000; you show me a place where you're gonna cut the \$157,000; we can talk, Representative, but the fact of the matter is, we're looking at cutting, not adding to the budget. We all know that, that goes without saying, but if this goes in to join the other scholarships, to help provide help to medically underserved areas, that's a win. If we offer to finance a plan of revenue source similar to the foreign insurance tax, would we have your support on that side of the aisle? I doubt it. We appreciate your help."

Speaker McPike: "Have all voted? Vote your own switch, there's going to be verifications. Representative Weller."

I have great respect for the...House Sponsor of this legislation, however, I would like to point out, not only is there \$187,000 fiscal impact to the taxpayers of Illinois, but the Department of Public Health already has the authority to grant scholarships for allied health personnel which includes physician assistance. This legislation, while it may have some merit, is duplicative, cost the taxpayers, we know why we're having a tough time funding programs we already have, and here we are trying to create another program and spend more money. I urge a red vote. Should this...receive the necessary votes, I would ask for a verification."

Ropp: "Well, first of all, there were a number of Amendments

Amendments got on. Did they, please?"

Shaw: "Only Amendment #12."

Ropp: "Number 12?"

Shaw: "Right."

Ropp: "And, what does Number 12 do, now?"

Shaw: "Number 12 removes any funds being taken from the Illinois Scholarship Commission. This legislation would not use any money from the Illinois Scholarship Commission."

Ropp: "Would you kindly, so there's 5 schools and 5 downstate high schools?"

Shaw: "That's right."

Ropp: "Would you kindly give the names of those 5 in Chicago?"

Speaker McPike: "Mr. Ropp, Mr. Ropp. To the Bill, to the Bill, please."

Ropp: "Well, okay. I think the thing that we have to remember is, this is a high school Bill to allow people to get...tuition to go to college. I think everyone of these 5 high schools are in Democrat districts, both in Chicago and in downstate. In fairness and equity, where is this? The attempts of the Amendments were to provide some for Republican districts, too. Is it only Democrat districts that need the help? Or, why is this? It seemed like the whole Bill really lacks some sincerity and integrity in attempting to provide a pilot program. This is no pilot program if you just let one group of districts participate. I'm saying that you should've allowed the Amendments to go on which would've provided equity. This is a Bill that should not pass, it is not a pilot program. We have all kinds of programs now that allow students to secure funds in order to go to college. This Bill should not pass. How much is this actually gonna cost?"

Speaker McPike: "Question is 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Representative

Cowlshaw, to explain her vote."

Cowlshaw: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. One of the elements in Amendment #12, this Bill, takes out the financial need element. In other words, a student, in order to qualify for a scholarship under this program, as amended by Amendment #12, can be a very wealthy person and still qualify for this...award, and, it is for that reason that I vote 'no'. We don't have enough money for the needy students, already, we ought not to be spreading it around to people who can afford to pay for that education themselves."

Speaker McPike: "Representative Homer."

Homer: "Thank you, Mr. Speaker. I...have a high regard for the Gentleman and know that he's...trying to do something good for the schools in his district, and it's hard to argue with that, but the way the Bill stands now, there are 10 schools: 5 in Chicago, 5 downstate...where, if a student graduates with a B+ or a 2.5 average in a 4. system, and...meets the unit requirement here, they automatically get a 4 year scholarship to a state university. With the Amendment the Gentleman put on, he took out even the need...the criteria to show need. Now, that makes absolutely no sense, when there are needy students throughout the state who won't qualify and perhaps wealthy students that just happen, by an accident of geography, to attend these 10 schools, would get free...tuition. It just makes no sense. I have to vote against the Bill."

Speaker McPike: "Have all voted? Representative Hicks."

Hicks: "You know, I don't know any other way in the world to do a pilot program but to take very specific number of students who would be eligible for something like this and see how that program works. The whole idea behind this thing is to see how it works and how it would be instrumental in the

State of Illinois, so we could do it everywhere in Illinois. That's the only way you do a pilot program is to pick a very low number, a very specific number of schools and go out and attempt to do it. It doesn't cost any money. For 4 years people'll look at it. Four years before anybody qualifies for a scholarship. They have to maintain a B average, they have to make a minimum on their ACT, their SAT; they have to stay out of trouble for 4 years. We give them a goal, something to shoot for both for the students and the parents. Please vote 'aye'."

Speaker McPike: "Representative Davis."

Davis: "Thank you, Mr. Speaker. You know, this is a piece of legislation, as Representative Hicks just stated, that really does not cost one additional dime. It is making requirements that students, in order to get scholarships, do not have any criminal record, that they go through 4 years of high school without ever being arrested. They have to maintain certain grade levels, and what we're talking about here is, college programs. You know, I'm really surprised at one Representative who has a red vote up here, who always has drugs and criminal law legislation. I'm truly shocked that he would vote against this piece of legislation which is something to help prevent people from becoming involved in illegal activities. It's an incentive Bill, but as we sit in this House of Representatives and we espouse to educating the young and the poor and the illiterate, in actuality, even if it costs almost zero, there appears to be very little concern or real desire for certain people to receive the benefits of all of the others. Now, I don't know what your real major concerns are, but this piece of legislation asks that children or young people who go to inner-city high schools, that are prone to have very low graduation rates, will be given the

opportunity to get a 4 year college scholarship to a state college, if they have not been arrested, if they have not become a teenage pregnant person or having children, and it's simply something to give incentives to young people in the inner-city, who now have very few incentives. I urge an 'aye' vote. I think that you should reconsider your vote, especially considering all the crime Bills that you sponsor in this House."

Speaker McPike: "Have all voted? Have all voted who wished? The Clerk will take the record. On this Bill there are 50 'ayes' and 55 'nos'. House Bill 523 permits student members of the Board of Governors to have a vote...on that that board...the student members together will pool their votes, I believe there are 3 of them, and they, the majority opinion of those members will count as one vote cast on matters coming before the board. This...this idea has been before the House and Senate in the past. We started by having student members on the board, then we had them making advisory votes, now we've come to where the students, who are the ones most knowledgeable about the current content of legislation by the board that affects them, the student body, now will have some say in what that is. It's a good Bill, and it's the way we oughta be going. I ask your 'aye' vote."

I'd be happy to ask...answer any questions, and ask for a favorable vote."

By this Bill we would exempt 46% of those students. Are we suggesting that those students, those 46%, are somehow not worthy, that they are somehow better, that they are okay to be subjected to the kinds of problems that lack of immunization will create? Time, after time, after time, we have defeated this very Bill, consistently. I'd ask one more time that we accomplish the same goal and vote 'no'."

House Bill 1049, as amended, provides the children of employees of state-supported colleges and universities shall be offered 50% off tuition waivers, and it also provides eligibility requirements. It's my understanding that with a similar Bill in the Senate, that the Board of Higher Education's indicated that their original cost on this was wrong, that the children would be able to be fitted in to existing classes and therefore there would be no additional cost. I move its adoption...approval."

Speaker McPike: "Mr...Representative Wennlund."

Wennlund: "Mr. Speaker, Ladies and Gentlemen of the House. I rise in opposition to the Bill. The Board of Higher Education estimates that per 100 waivers granted, we're talking about close to a million dollars in costs. Again, we're at a point where the State of Illinois is 1.4 billion dollars in debt, 660 million dollars to health care providers. We're talking about spending another 1 billion dollars for tuition waivers. It's an impossibility. The State of Illinois cannot afford it. We'd like to provide...waivers to everybody, but we can't do it. We'd like to feed everybody, we'd like to care for everybody but we just simply can't do it. Not in this budget year and not until we see our way clear, out of debt. It's wrong to do it at this time, we should be fiscally responsible. As the Comptroller's told us many times, we cannot continue to spend more than we get in."

is being proposed at an opportune time. What it does is...it...amends the Revenue Act of 1939 to add low income housing which is owned or controlled by the state, not-for-profit organizations, to list a property exempt from real estate taxes. This exemption will apply to all non-profit rental housing affordable to occupants making at least 80% of the area median income, with 60% of the property affordable to those making less than 50% of that income. The Insurance Code currently provides for a remedy against insurance companies that unreasonably delay the settlement of legitimate claims on the part of their insured. There are limits on the amount of that and those limits over time have become a little bit outdated. This would simply increase the limits for the pre-existing cause of action from 25% to 50% and from \$25,000 to \$50,000. I believe this Bill has support on both sides of the aisle and would ask for a favorable roll call."

Speaker McPike: "Question is, 'Shall this Bill...Representative Parke.'"

Parke: "Yes. Will the Sponsor yield to a question?"

Speaker McPike: "Briefly."

Parke: "Thank you. Now, what is the purpose of raising it from \$25,000 to \$50,000 in terms of the cost on this?"

Hultgren: "The...purpose of the...current provision is to provide incentive for insurance companies to...settle those legitimate claims filed by the insured and the reason for

raising the limits is to make sure that that incentive keeps pace with inflation."

Parke: "Thank you. I guess you heard that. I'm not sure I agree. To the Bill, I may just point out that this is just, I think, a nuisance to raise it from 25 to 50. Everybody here will know that it's going to be passed on to the consumer...and, by the way, it wasn't that long ago which this Body raised it from 5 to 25. Everybody agreed to that was the way it'd be, we'd hold it that way. Now, all of a sudden we have one of our colleagues thinks it should be raised to 50, maybe next year it might be 500,000. I'm just saying, we don't need this. It's just gonna increase the cost of doing business. 25 is working fine. I don't know if any of you've heard a cry of people saying it has to be raised. Let's not pass this on to the consumers. Let's vote 'no' on this Bill."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye, opposed vote 'no'. Have all voted? Representative Shirley Jones votes..."

Jones: "Mr. Speaker, can you tell me whose Bill this is? It's not up on the board."

Speaker McPike: "This is Representative Hultgren's Bill."

Jones: "Hultgren?"

Speaker McPike: "Hultgren. Yes. Have all voted? Have all voted who wish? Have all voted who wish? The Clerk will take the record. On this Bill there are 34 'ayes' and 69 'nos'. Speaker McPike: "Representative Mautino."

Mautino: "This Amendment provides that if an employer furnished untruthful information about an employee to a third party, he may be held...civilly liable to that party. It clarifies that when an employee files a civil suit against his employer, based on the employer's disclosure of information about the employee's record to a third party, the employee shall automatically be liable for attorney fees and court costs only where the information provided by the employer is truthful. I move for its adoption."

Speaker McPike: "You want to explain that again very briefly?"

Mautino: "What it says is that if you give truthful information to a third party at the request of a possible employer of that individual, that you cannot be held liable if that information is truthful and documented."

Speaker McPike: "Question is, 'Shall the Amendment be adopted?' All in favor say 'aye, opposed, 'no'. The 'ayes' have it, and the Amendment is adopted. Further Amendments?"

Speaker McPike: "House Bill 782 is on Third Reading. The Bill will be taken out of the record for a minute. House Bill 1517 is the next Bill. Representative Curran. Out of the record. House Bill 2052, Representative Mautino. Read the Bill, Mr. Clerk."

Speaker McPike: "Representative Mautino."

Mautino: "Thank you, Mr. Speaker. Very simply, this is the legislation you may or may not have been reading about and hearing about the last few days. This...provides that there's no discrimination. A person cannot be discriminated against if on a written application for employment or advancement, he has signed a section that says, 'I drink alcohol'. Very similar to the legislation that we passed out of this House, as it pertains to an individual who signs a written...on an application form that that person smokes. These are issues away from the work place. What you do in private is your own business and not a matter of...employment provisions. I'd be happy to answer any questions."

Speaker McPike: "Any opposition to this Bill? Representative Wennlund."

establish...intent, and, if I could ask the Sponsor a couple of questions to establish legislative intent, we'll do that."

Speaker McPike: "Alright."

Mautino: "Yes, I'll be happy to answer."

Wennlund: "Representative Mautino, is it your intent that the employers be prohibited from hiring decisions based, at least in part, on whether the applicant does or does not drink alcoholic beverages? In other words, under your Bill could an employer refuse to hire someone who drinks?"

Mautino: "My Bill would only...prohibit asking that question on a written job application. Written job application. It would not prohibit an employer from asking such questions during a verbal interview."

Wennlund: "So, an employer could refuse to hire someone who drinks? Now, generally, I don't think that's a good idea but I recognize that there are certain cases where it might be appropriate. Like in the case of an alcoholism treatment center which might want to hire a recovering alcoholic, but only if that person is dry and has remained so for a period of time. There may be other examples as well."

Mautino: "I agree with your analysis, and, yes, that is the intent."

Speaker McPike: "Does anyone rise in opposition to this? Mr. Klemm."

Klemm: "I wish to ask a brief question of the Sponsor."

Speaker McPike: "Brief."

Speaker McPike: "Representative Pullen."

Pullen: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I think that we should all recognize what is being asked here. This Bill would not only trivialize the Human Rights Act, but it would make it illegal for an employer to discriminate against a prospective employee on the basis of that prospective employee's consumption of alcohol. Now whether that employer inquires in writing or in...or in spoken form shouldn't really make any difference. We shouldn't really be getting into that kind of employment decision or nit-picking, how they can ask the question. If an employer believes that it is important for the health of his or her business to have assurance that they are not going to be faced with people who are continually consuming alcohol, they ought to have the right to ask that question, and they ought to have the right to make decisions based on the answer to that question. This Bill is really taking us down a far path in this society, and the vote on it, I'm sure, will demonstrate how far down that path we are."

Speaker McPike: "The question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? The Clerk will take the record. Clerk Leone: "House Bill 782, a Bill for an Act in relationship to information concerning employment records. Third Reading of the Bill."

Speaker McPike: "Representative Mautino."

Mautino: "Thank you very much, Mr. Speaker. Basically, the legislation without the Amendment...Amendment #1 was adopted and Amendment #2 was pulled off, creates the Employment Record Disclosure Act. It provides that no person shall be liable to an employee or former employee because that person gives truthful information to a third party in response to an inquiry about the employment record of the employee or former employee. It also provides that an employer or former employer should not bring civil action against a person who gives such information...and provides that attorneys' fees, costs and expenses shall be assessed against the employee or former employee who brings such action providing that this act does not exempt the employer from the Personal Record Review Act, effective of 1992. This new statute, I know, is very difficult for people to evaluate; but, most importantly, an employer has the right, as well as the moral obligation, to provide truthful information to an employer...to a possible employer of an employee or a former employee. If, in fact, that information is truthful there should be no recourse, if it is not truthful, if it is an untruth, yes, there should be recourse. It's very simple. If you tell the truth you shouldn't have any problems on the actions of the employer or the former employer. If the employer does not give specific...truth and is...and is not truthful in their evaluation, then they should be held liable. That's what the Bill does, and I'll be happy to answer any questions."

Illinois Antitrust Act. It's been read a second time previously. No Committee Amendments. Floor Amendment #1 is being offered by Representative Lang."

Speaker McPike: "Representative Lang."

Lang: "Thank you, Mr. Speaker. This, at one time, was a Bill that...eliminated the antitrust exemption for insurance companies. This Bill that will no longer do this if we pass this Amendment, if we adopt this Amendment; I repeat, this does not deal with the insurance antitrust exemption. What the Bill does do is prohibit certain conduct by insurance companies relative to price-fixing and division of territories and conditional sales. The Bill...the Amendment which becomes the Bill indicates that no insurance companies acting in combination or in conspiracy could fix prices, allocate or divide customers based on territory or tie the sale...or purchase of insurance of one kind to the other kind. I cautioned Ed that this does not prohibit certain conduct such as collecting or disseminating historical lost data, participating in joint underwriting arrangements, offering special insurance rates or offering lower insurance rates for multiple coverages. So, although it prohibits making the sale of one policy conditional on another policy, it does not prohibit giving a discount for multiple coverages. This is important for all of your consumers, and I ask your support."

Speaker McPike: "In opposition, Representative McCracken."

McCracken: "Thank you, Mr. Speaker, I rise in opposition to the Amendment. It's an attempt to...make a little less bad what is a very bad Bill indeed. As we all know, price-fixing is already illegal for insurance companies, just as it is for all other businesses. We regulate that to that extent that...unfair trade is...is...is in check. necessary to determine their rates; I repeat, their rates are set independently. It is the data which they must collect, and the data is not limited to historical data. It is an ongoing process, it is done for the purpose of...of determining trends in the future, it's done for the purpose of pricing. As long as the law against pricing is in place, as it is now, this serves no legitimate function. I recommend a 'no' vote."

This Amendment was made on Second Reading after the committee process. Now, I don't fault the Gentleman's intentions, but the fact remains this did not go through a committee. Let me tell you what this does, this specifies three qualifying conditions under which, among other things, food and water can be withheld from a patient, and, believe it or not, it can be withheld from a patient who is not terminal, as we understand that word. It can apply to a patient who has an irreversible condition such as a coma;

and the death produced would not be the disease causing the coma, the death produced would be starvation. Starvation. It can be applied to non-terminal people. Now, I gotta tell you, all of these things are well-intentioned, but to hide behind the mask of medical ethics or other experts is to abdicate your moral responsibility. Do not defer to the experts on this one. This is uniquely and quintessentially the moral issue of our time and it shed...should be addressed by us individually. That is what this Bill is about. The New York archdiocese is in...is in opposition to the withdrawal of food and water as dictated under this Act, and although the Catholic Conference of Illinois appears to be in favor of it, I can tell you there is not unanimity. This is something on which you should defer to no other person. Consult your conscience. I submit that if you do, you will vote 'no'."

Speaker McPike: "The question is, 'Shall this Bill pass?' All in favor, vote 'aye', opposed vote 'no'. Representative Pullen, to explain her vote."

Pullen: "Thank you, Mr. Speaker, Ladies and Gentlemen. This Bill does not relate to the wishes of the patient. This Bill allows someone who calls himself a close friend to make this death-dealing decision for people who are helpless and unable to make decisions for themselves. I think this is an important Bill. It has been carefully, carefully crafted and is approved by those experts who, I assure you, are people of compassion and concern and integrity. Thank you. I urge an 'aye' vote."

Speaker McPike: "Representative Parcells."

Parcells: "Thank you, Mr. Speaker. I actually wanted to ask a question of the Speaker. I don't know what a surrogate could be. Could it be the person that brought me in and is my friend, automobile accident, I'm not breathing can't get ahold of the family, so they now...as a surrogate, I say well, go ahead, don't feed them and pull the tubes. I don't know if surrogate has been properly defined and, for that reason, I'm going to vote 'present'." Speaker McPike: "Representative Harris."

Harris: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I don't know if this Bill's gonna get the necessary 60 votes, but, if it does, I would request a verification, if one has not already been requested. But to the Bill, even though many groups may have endorsed this Bill, this greatly broadens the defination...the definition of...a terminal condition. As a matter of fact, the plug can be pulled on someone who is, indeed, not terminal. That's a dangerous, dangerous step which I don't think we should be taking, and I would urge a 'no' vote."

STATE OF ILLINOIS
87th GENERAL ASSEMBLY

just to explain my vote. To clarify this situation, some people are...have...have been frightened. What this Bill does, it doesn't change anything in the current law, it provides that...where a patient has the capacity to make his or her own decisions, they will continue to make those decisions. ...Where they are in one of the qualifying conditions which places them in great jeopardy...and near death...and they have not made an indication...if they have a living will or a durable power of attorney for health care, that will control. There are a lot of people out there that don't have durable powers of attorney for health care or living wills, this Bill says that for that large group of people and, this is a lot of your constituents that are crying out for help here, where they have taken no action formally, a surrogate will make the decision, but the surrogate will make the decision in accordance with the wishes of the patient. For example, some people in this chamber are standing up saying that they don't want any...hydration, any nutrition removed. This legislation will require the surrogate to honor that wish. Debate on this Bill in this House, maybe even your vote, is enough for the surrogate to be required to do what you want. This Bill doesn't require anything to be pulled, doesn't require anything to be unpulled. What it does is require the surrogate and the people of the State of Illinois to honor the wishes of the patient if...if the patient could make the decision himself or herself. It provides...a lot of hoops to jump through. This is a good Bill. We got it over 61. Let's go on with the next Bill...you'll like it, trust me."

up to respirators or what have you, who at the moment felt I want this to be over, but given two weeks, given a month, they get a lot better, they survive and they live. I am so grateful that they had a respirator for my father who didn't want it when he was at the age of 79. I am so grateful this Bill was not in effect because, you see, there is a God that's above all of us little gods in this House, and I don't think any of us in here are so talented until we can eminently place ourselves at the bedside of people who may live or may want to live or may not want to live. I think it's important for the person who has someone who cares about them to have the opportunity to say, 'Please, let's give it a little more time. There's a possibility that with more time this person could gain strength and live.' I don't think anyone in here is capable, I don't think they're even capable of deciding that the plug should be pulled on someone, they should not be fed. Many times people that are seriously ill are delirious, there are high temperatures, they are semi-conscious, medicine has them...medicine has them not thinking properly, and I think it's an awful piece of legislation. I urge you to think of yourselves and think of your children."

Clerk O'Brien: "House Bill 40, a Bill for an Act to amend the Illinois Vehicle Code. Third Reading of the Bill."

Speaker McPike: "What'd he say? Mr. Lang. The Bill's been read a third time."

Lang: "Thank you, Mr. Speaker. It's a Bill we've debated before. This Bill would require seat belts on all schoolbuses manufactured after the effective date of the Bill. It does not require retrofitting buses, I repeat, it does not require taking all current schoolbuses of the State of Illinois and putting seat belts on them. It only requires that all new schoolbuses have seat belts. To those that would point to an old Canadian study or an old federal study on this issue, there are new studies out of the State of New Jersey that show that, although seat belts are not effective, would have no effect at all on a frontal impact on a schoolbus, they have substantial impact...substantial effect on a rear impact or a side impact because of rollovers. If we're going to take care of our schoolchildren, if we're going to require that they wear seat belts in our automobiles, then it's inappropriate not

to require them to follow through on that and wear seat belts in all vehicles in which they drive. I would ask your support on House Bill 40."

Speaker McPike: "In opposition, Representative Parke."

Parke: "Thank you, Mr. Speaker, will the Sponsor yield to a question? Representative Lang, it is my understanding that this Bill...Bill will require all new schoolbuses to have purchased, as part of the price, seat belts. Isn't that correct?"

Lang: "That's what the Bill does."

Parke: "And also doesn't it also require roof hatches to be paid for in each one of these buses?"

Lang: "It also requires roof hatches."

Parke: "To the Bill, Mr. Speaker, as you can hear, we are talking about all new buses to have seat belts. Now, that in itself sounds like a good idea, but I...I would ask you to question the basic concept of whether or not seat belts on a schoolbus ultimately are what we want. There are any number of surveys that have gone out that said that the schoolbuses of today are extremely safe and that the highback seats are much more effective and preventative of having that on a bus than a seatbelt, and I would ask, also, if this is a mandate. This is a pass-on to the school districts that are strapped for money. The estimated cost per year on all these new buses that will be coming out is over \$4,000,000, almost \$5,000,000. Now, the Sponsor and other well-intended people will say, 'Well, gee, the children are worth that, that's nothing when it comes to safety', and I, in fact, say to you that, in fact, seat belts are more dangerous than what we have now. So, in fact, we should not have seat belts on these schoolbuses, that the basic premise of this Bill is bad, whether it costs additional or not, and I would ask that

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

this Body not pass this legislation 'cause it's not necessary, and highback seats on the schoolbuses today are more effective in saving the lives of our children, and it is easier to get children out of a schoolbus when they're not having 48 little kids strapped into these schoolbus...into...into these seat belts. Though the Sponsor's well-intended, we have seen this Bill consistently, this Body has continually voted against it because of the reasons I have stated, and I would ask you to vote against it again."

Speaker McPike: "The question is, 'Shall this Bill pass?' All in favor, vote 'aye', opposed vote 'no'. Representative Lang. Mr. Lang. Mr. Lang. Mr. Lang."

Lang: "Thank you, I...I...I want to remind the Body that...that the raising of the seatbacks really is helpful in a frontal collision, and that's what I was talking about that seat belts would not help in a frontal collision but in a side collision children don't go flying into that seat in front of them, they go flying into the aisles, and they become human missiles. It's appropriate that we protect these children, and the fact that we don't have hundreds of kids killed every year on schoolbuses is not relevant; what is relevant is that we need to protect them, and if we're going to tell them to wear their seat belts in our cars at home how do we tell them that they don't need to wear them in other vehicles? Please vote 'aye'."

Speaker McPike: "Mr. Hensel."

Hensel: "To explain my vote: Anybody that's ever driven a schoolbus with 60 schoolchildren in that bus knows that a driver cannot monitor what they're doing. If you put seat belts on them, you're going to have to have at least one more person in that bus to make sure that they're already buckled up and are in their seats. I think this is a bad

Bill. I don't think the seat belts will be a safety factor in it, and I ask for a 'no' vote."

Speaker McPike: "Mr. Wennlund."

Wennlund: "Mr. Speaker, Ladies and Gentlemen of the House, to explain my vote: Amendment #1 carries a price tag of 19.2 million dollars that the school districts in Illinois are going to have to face because it requires bladders to be installed on all schoolbuses, existing schoolbuses, and you ought to keep this in mind when...when you vote. It should be a 'no' vote."

Speaker McPike: "Mr. Ronan."

Ronan: "Thank you, Mr. Speaker, I rise in support of this...fine piece of legislation. One of the most important things that we've done in the General Assembly was mandating the seat...child restraint seats in cars. Representative Lang is absolutely correct. The more you get kids to understand that they have to have seat belts on, anytime they're in a motor vehicle, the safer we're going to make our highways. We're going to stop crippling deaths...deaths and crippling injuries. We really should be moving forward this legislation. It's a solid idea. It costs a couple of bucks, but really the message it delivers to the young people of Illinois are (sic-is) very important. We should be safety oriented when it comes to this kind of an issue."

Speaker McPike: "Have all voted? Have all voted who wish? The Clerk will take the record. On this Bill, there are 54 'ayes' and 57 'nos' House Bill 40, having failed to receive the Constitutional Majority, is hereby declared lost. House Bill 488, Representative Currie. Read the Bill, Mr. Clerk."

Currie: "Thank you, Mr. Speaker and Members of the House. This is a proposal from the Health and Medicine Policy Research Group, also supported by Mayor Daley's Advisory Committee on Infant Mortality, the Healthy Mothers and Babies Coalition, the American College of Nurse Midwives, at Chicago NOW, the Campaign for Better Health Care and the Illinois Primary Health Care Association. The proposal is to establish a regulatory program whereby women in Illinois might choose freestanding birthing centers as an option either to birthing at home or birthing in a hospital setting. 25 other states offer women this opportunity. Studies in journals as diverse as Landset, Obstetrics and Gynecology, and, most recently, in The New England Journal of Medicine, agree that birthing centers are safe alternatives for women who are at low-risk of complications in childbirth. There probably isn't any guarantee in childbirth that any setting is altogether risk-free, but these have been proven, more than 140 across these United States, and as I say in 25 states, including our neighbors Iowa and Michigan, this option is available. The value of the birthing center approach is the home-like setting, the support that is available through paraprofessionals, through nurse midwives...so I'd appreciate your support for the Bill. The Medical Society opposes the Bill, I should let you know, but let me point out to you that there is no change in the Medical Practice Act that...a physician would still be in charge of birthing in birthing centers as they would be in charge of a birth in a hospital setting. The Illinois Hospital Association also objects to the Bill, but I would point out that the Bill includes a requirement that birthing centers go before the Health Facilities Planning Board so that the Hospital Association should not be anxious about too much competition. In rural Illinois, we

don't even have hospitals in some locations, freestanding birthing centers are a viable alternative that will save consumers money and build healthier babies in the State of Illinois. I'd appreciate your support for House Bill 488."

Speaker McPike: "Representative Ryder, in opposition."

Ryder: "Thank you, Mr. Speaker, I do rise in opposition to this. There's no question that there's a great need, but this does not meet that need. If we don't have doctors that are delivering babies in the underserved areas, why are...who's going to staff the birth centers? If we don't have hospitals that are providing OB-GYN care who's going to build and staff the birth centers? If the professionals are not there now, explain to me what it is within this Bill that will bring them there? The need is great, we understand that, but this doesn't solve the problem. I'm not going to speak to the issue procedurally of a Bill that would have required malpractice insurance for these kinds of new creations to be in existence. I'm not going to address that issue or why it was tabled, but I would suggest to you that there are significant problems with this new creation, problems that weren't dealt with adequately in committee or on second Amendment, and as it now stands this Bill does not, does not meet the great need that is there. The hospitals are against it, the medical society's against it, for good reasons. ...and dangerous and, therefore, we should be against it, and I bring my remarks to a close."

Speaker McPike: "The question is, 'Shall this Bill pass?' All in favor, vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? Representative Trotter."

Trotter: "Thank you very much, Mr. Speaker. I just want to add a few words to what was said a little bit earlier, that the

freestanding childbearing birth centers are home-like ambulatory care facilities equipped to provide comprehensive maternity care for women in our districts. It's a good Bill. It's addressing a problem that we have all over this state, and I would like to see more green votes."

Speaker McPike: "Have all voted? Have all voted who wish? Have all voted who wish? Representative Parcells."

Parcells: "In explaining my vote, Ladies and Gentlemen, I think this is an idea, I think its time has come. If you don't, I'm sorry that there are 58 people that don't think so, but this will happen in the near future. It will be a less expensive way to have a baby. Let's remember, it's a very normal process to have a baby. These birthing centers don't need all the...elaborate things that we have in a hospital, and this will be a much more natural setting. You may not vote for it this year, but this will come back. It is a good idea, and I wish you'd vote 'yes'."

Speaker McPike: "Representative Schakowsky."

Schakowsky: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise in...to explain my vote in support of this. I think it's important to point out that birth center costs range from 1/2 to 2/3 of the average hospital costs, so we have a more cost-effective and a better health care delivery system."

Speaker McPike: "Have all voted? Have all voted who wish? The Clerk will take the record. On this Bill, there are 38 'ayes' and 60 'nos'. Speaker McPike: "Mr. DeLeo, could you give the Gentleman some order?"

Trotter: "Thank you, Members of the House, I...I think everyone would like to know that this Bill is being called at this point in time. This is the gun Bill, so, for all of my friends and opponents, I would like just to bring your attention to what is happening. ...Amendment #1...becomes the Bill. This Bill really doesn't need too much debating because it's been virtually discussed in every statehouse in this country. It's been debated in Congress, ...it's been talked about in bars, ...in the schoolrooms, possibly even in some bedrooms. Discussions have gone between man and woman, woman to child, and so on and so on, and it's even had its day in court. This Bill, the powerful language in this Bill actually is only two word changes in the current statute and those two words is (sic are) from 72 hours to 7 days. What I'm proposing in this statute here is that we change the existing statute to 7 days waiting period, and we've heard the arguments. We've heard the arguments on this floor, we've heard 'em (sic them) everywhere that if we outlaw guns only outlaws will have guns. My friends, this isn't about outlawing guns. This

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

57th Legislative Day

is about imposing a 7 day waiting period, which is a reasonable, responsible amount of time in which you have to wait to purchase a handgun. It doesn't impact on the hunter, it doesn't impact on the sportsman, it doesn't impact on the gun collector. This is just a reasonable time in which we, as all of us have from time to time, are given 7 days to cool-off from the dramas of the day, from the pressures of the...of the moment. We have heard the arguments that if you wait 7 days if you're a quail hunter, which is only a 3 day season, that you won't have time enough to get another gun if you lost it just before the season began. Now, seemingly, if that person was in my hunting party, and they lost their gun and couldn't figure out where it was, maybe they need a 7 day waiting period. We've heard the arguments, 'Well, what's the guarantee that the person's gonna cool off in 7 days? What's the guarantee that they won't pick up a stick and you get busted in the head? What's the guarantee you won't get a brick thrown at you? What's the guarantee that they won't stab you?' Well, there is no guarantee in this legislation, but there's not a doctor that won't tell you that your chances of recovery are much more positive if you were stabbed or if you were kicked and stomped than if you were shot by a bullet. This Bill does essentially one thing, and one thing only, it saves lives. It doesn't help you save no souls, it doesn't save anything else for you, but it saves lives. Now, we're going to hear more arguments from other people here today, but, as we consider those arguments, also consider the argument of the man in Texas, who just a few weeks ago, known as a good family man, known as a hard-working man, known as a good friend and a good neighbor, who on a Saturday afternoon just three weeks ago, came home told his kids to put on their best

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

clothes. They were lined up, he said, 'Come on out I'm gonna take your picture. He lined them up in front of the...front room, (they were ages 4 to 18), pulled out his Polaroid camera and took their picture, and then, as they were talking, he wrote a letter, a letter to his wife that he just found out that morning was leaving him for another man. He wrote in the letter, 'This is the way your kids used to look like,' reached back in the same bag pulled out a 45, shot all four in the head, including himself. That good neighbor, that good friend, when the police came in that afternoon, they reached in that same bag that he pulled out that camera, reached in that same bag where he pulled out that gun and found receipts that an hour before the killing he had purchased, not only the camera, but the gun. Now, 7 days waiting period would not have guaranteed that those people would have been alive, but I'd like to have confidence in mankind, I'd like to have faith in our own, that maybe if he had 7 days to think about it he would have thought about his wife leaving him that day wasn't all that big that he had to kill his four children. I like to think that we are humane enough in this society that we can give this man, who has been a good neighbor and a good friend, 7 more days to think about what he did to those four individuals who had no power in what was happening. So, as we listen to the arguments today, let's think about that story, as well as the others, and I ask for a favorable Roll Call."

Speaker McPike: "The question is, 'Shall the Amendment be adopted?' All in favor, say 'aye', opposed, 'no'. The 'ayes' have it, and the Amendment's...the Amendment's adopted. Further Amendments?"

Speaker McPike: "Representative Lang."

Lang: "Thank you, Mr. Speaker. Thank you, Mr. Speaker. Amendment #2 deals with the idea of handgun liability insurance. It stems from this: If you're driving your car down the street and you run me over, and I'm injured, and I lose time from work, the State of Illinois has a policy that says you have auto insurance so that I can be compensated for my injuries and for my losses, and so it should be the same with a handgun. So it should be the same with a gun which is obviously a much more dangerous instrumentality than an automobile. This is not a Bill that attempts to punish handgun owners. It's not a Bill that says don't own handguns. It's not a Bill for a waiting period. It's not a Bill to prohibit guns. It's a Bill or an Amendment to protect innocent victims. Innocent victims. If a gun discharges and injures me, I want to make sure that I can be compensated for my injuries, compensated for my losses. There are exemptions in here to cover collectors. There are exemptions to cover a situation where your own personal homeowner's insurance policy or renter's insurance policy covered the use of your gun or the ownership of your gun, and it only requires the purchase of the policy when, in fact, you have no other coverage. This is an important important measure for people out in your districts. It's not a restriction on the gun owners in your districts, it's a protection for the individuals and the rights of the individuals living in your districts to be free from injury and to have the opportunity to get compensation for their losses and for their injuries. I urge your 'aye' votes."

Pedersen: "Will...will the Sponsor yield?"

Speaker McPike: "Yes."

Pedersen: "Representative, ...we know that...most people that use guns have homeowners or liability insurance and so they're covered, but the people that really use guns, the...the criminal element...they don't really bother about any gun laws anyway. Do you expect those...the criminal element, the people who are really up to no good, they're going to go out and buy a liability policy?"

Lang: "First of all, I disagree with your premise, your premise that most gun owners have other insurance is not a correct premise. Secondly, the Bill requires that when you buy the gun, you provide proof of the insurance to the place where you buy the gun or to the individual to whom you buy the gun from. Accordingly, there won't be people purchasing guns and not buying the insurance. They must have the insurance before they buy the gun."

Pedersen: "Well, Representative, I...I think that most responsible people do have liability insurance and I...I think what we're really talking about here are the...are the people who...who...aren't honest and who aren't law abiding, and it isn't going to have that much of an effect."

Speaker McPike: "Alright, Representative Trotter, are you asking for a Roll Call on this? Representative Trotter, do you wish a...are you asking for a Roll Call?"

which...would make it a pilot program in the City of

form, which would be a voucher served statewide. The
Educational Choice Act contains provisions that are
essential parts of the adequate answer to the problems
facing education in...in Illinois. This Bill addresses
persons...all persons, both those who have children in
public schools and those who have in non-public schools,
and the easiest way to remember this is that it empowers
parents, and that is one of the things that we have been
lacking in the past."

some parents, but it doesn't empower all parents. Voucher
systems only works for those parents who have enough money
to make up the difference between what the voucher offers
and what the private education costs. If you want private
education, then you have to pay for it yourself. In the
City of Chicago, the school system is \$350 million in the
hole, as I speak. What vouchers will do will take system
away from public education, which we do not properly fund

right now. Also, what vouchers will do will (sic is) take those students who come from a family that can afford to make up the difference in a voucher out of the system so the system will not only read...lose many dollars, they will also lose students that they need to keep the system balanced and stop it from becoming a total system for only low-income students. This is not a good Bill. It will not be a good Bill until we find enough money to properly fund our public schools, and I urge a 'no' vote."

This Bill provides a statutory framework for a statewide comprehensive system of early intervention services to infants and toddlers who have conditions that delay their normal development. Amendment #3, which was just adopted, provides that the Bill will not be implemented unless funds are appropriated for that purpose, which means that this General Assembly will have to appropriate necessary dollars, if it deems necessary, in order to implement the Bill. This will continue to allow us to receive \$3. million a year in federal funds under Public Law 99457. I join with Representative Steczo in asking for your favorable support."

Preston: "The Bill allows us to continue our discussions, but without this Bill we couldn't continue our discussions?"

Daniels: "Well, what this Bill allows us to do is to continue to qualify for \$3.4 million in federal funds under Public Law 99457, and, if we're able to find funds in order to implement the part of the development to delayed provisions, we can add that into the five-year phase-in. We will continue our discussion..."

The

issue in my mind is that if riverboat gambling can be an economic development and a tourism tool across Illinois and the Mississippi River on the Illinois River, on the Des Plaines River, then it can also be a tourism tool on Lake Michigan. This Amendment would pertain to Lake County only. When those who were very supportive of riverboat gambling to support it in their areas, I was supportive and gave them a vote for riverboat gambling. I think at this time that...I ought to receive a vote. It only extends the license by one...to allow two boats in...Lake Michigan in Lake County only. Three communities in Lake...Michigan shore have indicated a desire that they be included...I received a letter from the Mayor of Winthrop Harbor, who has a strong desire that they have a riverboat...on Lake Michigan in their area. I know my mayor in North Chicago, Mayor Bobby Thomas, has indicated a strong desire and officials in Waukegan have indicated a desire. So I know it's going to come some day. It only follows, I think, a reasonably that if it is going to be good for tourism in those areas of the state it would also be good in my area. So, I would ask for the...move for the adoption of Amendment #1."

Brunsvold: "I stand in support."

Speaker McPike: "Well, Representative Daniels stands in opposition. Mr. Daniels."

Daniels: "We, of course, were led to believe yesterday that the Sponsor of this Amendment would not move it and wouldn't go with it 'cause he went with us yesterday, but having said that we are, of course, strongly, strongly opposed to it."

Speaker McPike: "Question is, 'Shall Amendment #1 be adopted?' All in favor vote 'aye' opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? Have all voted who wish? The Clerk will take the record. On the Amendment, there are 46 'ayes'. Representative Giorgi. On this Amendment, there are 46 'ayes' and 57 'nos', and the Amendment fails. Further Amendments?"

Clerk O'Brien: "Floor Amendment #2, offered by Representative Myron Olson."

Speaker McPike: "Representative Giorgi, do you wish this Bill be taken from the record?"

Giorgi: "No, Sir. I'd like to...move to table all the Amendments that are in the offing because there are about 20 of them, and don't want to I take the time in the House. This is a shell Bill. If you leave it alone like it is now and it can go over as a shell Bill. There are about 25 Amendments. It'll take about two to three hours, and I'd just as soon table all the Amendments."

Speaker McPike: "Representative Giorgi, why don't you take the Bill out of the record?"

Giorgi: "Take it out of the record?"

Speaker McPike: "Yes."

Giorgi: "Make some other plans. I'll take it. I'll take it out of record."

Speaker McPike: "Thank you. The Bill's out of the record. Yes, yes, we have a Motion to extend the deadlines. Representative Lang has the Motion. Mr. Lang."

Lang: "Thank you, Mr. Speaker. Pursuant to House Rule 37(j), I move to suspend the Third Reading deadline on the following Bills. There are various categories and dates on each group. The following Bills to May 31, 1991: House Bills 278, 888, 1871 and 2104, and finally House Bill 2485 we move to suspend the deadline to November 30, 1991."

Speaker McPike: "Representative Daniels."

Daniels: "There are several other Bills on that list that we object to...and there are several that we agree with. We would ask for a division on those that we would object to, and I could give you those numbers, if you would like."

Speaker McPike: "That's fine give us those numbers you object to, and we'll vote on those other ones."

Daniels: "Fine. Then the ones I do not give you numbers on, we don't have a problem with. The ones we object to are 623, 1390, 1595, 1830, 278, 1871, 2104 and 2485."

Hultgren: "A question of the Chair."

Speaker McPike: "Yes."

Hultgren: "I tried to copy down when Representative Lang was reading those. I understood his the May 31st date he said 871 and Representative Daniels objected to 1871."

Speaker McPike: "And if you could just tell the Body, very briefly what the Bill is, an approp Bill or whatever it is."

Lang: "This Bill deals with wage deductions. You may recall, we passed a Wage Deduction Bill out of the House, but in case it stalls in the Senate, we wanna keep something alive."

Speaker McPike: "Alright, on that, Representative Daniels."

Daniels: "Simply put, it increases the fee payable to an employer for processing of wage deduction from \$8 to \$12 and allow the cost to be passed on to judgement detor. We have several problems with the Bill..."

Lang: "Mr. Speaker, we've already passed that. That Bill is already is out of the House. That's on 624 which we passed just about unanimously out of the House. It's already in the Senate."

Daniels: "You're talking about 623?"

Lang: "This is the Bill that deals with the statewide census...Mr. Speaker."

Speaker McPike: "Representative Lang."

Lang: "This is the Bill that deals with the statewide census in the year 2000."

Speaker McPike: "Representative Daniels."

Daniels: "Well, just so nobody misunderstands to extend the deadline in this ludicrous Bill that authorizes the Auditor General, the Auditor General of Illinois, to conduct a census every 10 years beginning January 1, the year 2000, just seems to be absolutely ridiculous when many of us have already suggested there have been problems with our own Census Bureau on it, and now we are going to have the Auditor General. Speaker McPike: "The Bill deals with earned income tax credit and on that, Representative Wennlund."

Wennlund: "Thank you, Mr. Speaker. I rise in opposition to this, and I think that all Members of the House really ought to understand what this Bill is really all about. This is a vehicle for an increase in the Illinois State Income Tax, purely and simply put, a tax increase, think about that when move to extend the deadline on this because someday this vote will come back to haunt you because you made it clear that you want to consider an increase in the Illinois Income Tax, and that's why you voted to extend the deadline."

Lang: "Thank you, move to extend the Third Reading deadline to May 31, 1991. This is a vehicle for...prevailing wage."

Speaker McPike: "Representative Daniels."

Daniels: "Let's make sure we understand exactly what this one is. Prevailing wage under the TIF Acts, if you want to dig a hole for all of our people on this one, you will continue to pass Bills like this. A vote for this means you want to set in our TIF law, and, by the way this Bill is already been defeated by this House. Its on Postponed Consideration. Don't put your record in jeopardy. Don't make any mistakes on this. If you've voted against it the first time make sure you understand that you want to be consistent on this. This ludicrous Act extends a prevailing wage act to TIF zones, enterprise zones by reducing the financial incentives to locate within a particular boundary area, and I think that you ought to be loud and clear on this one and stop this insanity."

Clerk Leone: "House Bill 2191 is on the Order of Second Reading, has been read a second time previously. Amendment #1 was adopted previously. There are no Motions filed. Floor Amendment #2 is being offered by Representative Lang."

Speaker Madigan: "Mr. Lang."

Lang: "Thank you, Mr. Speaker. Amendment #2 has now been shared with the other side of the aisle and again, briefly, what it does is remove the immunity provision in the statute for the CTA failing to provide security or proper police protection. I move its adoption."

It outlaws all sales to minors, prevents tobacco sales near schools and youth facilities, bans free giveaways in public places and

limits cigarette vending machines to taverns only. Mr. Speaker and Members of the House, permit me to share with you the history of this legislation to date. As many of you already know, this Bill is law in the City of Chicago. It did not become law overnight. The tobacco industry, in fact, was in agreement and, indeed, was for a time in agreement with this Bill. This Bill is now confronted with the obstacle of the tobacco industry withdrawing its neutral stance to becoming pro-active as an objector to it. Quite frankly, Ladies and Gentlemen, their objection has its basis in the fact that I would not consider making this legislation preemptive to home rule. I could not in good conscience say to your mayors and elected municipal officials across the state that this legislation is the rule that all municipalities must abide by. This Bill simply provides increased protection against the sale of tobacco to minors, does not prohibit the sale of this legal drug to adults who choose to indulge, and I would ask for your favorable Roll Call."

Speaker Madigan: "I had suggested that, Ladies and Gentlemen, please. I had suggested that we would like to have one for proponent and one opponent to the Bill. Now, those seeking recognition will be Mr. Black, Mr. Parke, Mr. Balanoff and Mr. Hicks, and I presume you're all in opposition. I would suggest Mr. Black, who, of course, speaks with the authority of the Minority Leader. Mr. Black, on the Bill."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield for one question?"

Speaker Madigan: "Sponsor yields."

Speaker Madigan: "Mr. Burke."

Burke: "Did I tell another Member that I would accept an Amendment?"

Speaker Madigan: "Yes."

Burke: "We had discussed the opportunity for the Bill to be amended, and the discussion fell apart when there were some serious concerns in the Senate as to the pre-emptive nature of that Amendment."

Black: "It is your contention then that you had never agreed to accept the Amendment, you were just simply discussing an Amendment."

Burke: "That is correct."

Black: "Alright. Thank you very much, Representative. Mr. Speaker and Ladies and Gentlemen of the House, had the...Sponsor accepted an Amendment, I believe prepared and in our file as offered by Representative Hicks, this Bill certainly could have been more palatable to downstate. What the Gentleman has done is to take a Chicago ordinance and wants to enact a Chicago ordinance into state law. My district doesn't need Chicago to write ordinances or state laws that affect my district. If you'll look at the Gentleman's Bill, if it's not a clear restraint of trade and Commerce, I don't know what is, and I think there's an underlying hypocrisy about this entire matter. I am a non-smoker. I suffered a loss in my family. My mother contracted lung cancer, died from that hideous disease and she was heavy smoker, there was no question about that, but we tax cigarettes in this state. We spend the revenue from the cigarettes in this state. We put cigarette tax money in the common school fund in this state, and yet the Gentleman's Bill would say you can't have cigarette vending machines except in certain places, as allowed by law. Now, Ladies and Gentleman, that is somewhat hypocritical.

Maybe, if we are going to piece away at an industry that currently is legal in the United States, although we might argue whether it should be, it is currently legal, then let's stop the hypocrisy. Let's stop spending the millions of dollars in cigarette tax revenue and just simply introduce a Bill to ban cigarettes in the State of Illinois, if that be your desire, but until that is your desire, I would urge a 'no' vote on this Chicago ordinance that I don't want in my district. We'll take care of ourselves. I urge a 'no' vote."

Speaker Madigan: "We've had one person speak in favor of the Bill, one person oppose the Bill. Mr. Johnson is seeking recognition."

Johnson: "Speak in favor of the Bill? Is that what you said? I am in favor of the Bill."

Speaker Madigan: "Okay, so, Mr. Johnson, I suggest that given today's deadline that we would like to have one person speak for the Bill and we have had one speak for the Bill, one opposed to the Bill and then go to Roll Call with your permission. Those in favor of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Please, record yourselves. Have all voted who wish? Clerk Leone: "House Bill 582, on the Order of Third Reading, a Bill for an Act concerning placement of children. Third Reading of the Bill."

Speaker Madigan: "Mr. Preston. Mr. Preston."

Preston: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 582 is a subject that has been worked on at great length and is still being worked on as we speak. It is an attempt to get the Department of Children and Family Services into compliance with federal law. There are law suits, two law suits, that are now pending against the department concerning the permanency planning for children who are in foster care that right now go on and on and on without any plan being given for these children. Five-eighty-two is not in its final form...it is being discussed. There are negotiations between the department and the plaintiffs...in one of the suits...the plaintiff is the...I believe the Public Guardian of Cook County. The Bill has been worked on and studied, and that study and work is continuing. I'd ask that we pass this Bill out of here, so we can keep this issue alive. A main portion of this Bill, and the portion that DCFS was most concerned about, this enormous cost that they talked about, which, in fact, was not nearly as enormous as their Fiscal Note indicated has already passed this House in the form of House Bill 589. That talks about...more court appearances and more caseworkers. That's already in the Senate. This Bill would talk about reducing the time required for permanency planning in accordance with federal law, and,

again, I am asking, and it's very important we keep this alive, so these discussions, negotiations and ultimate resolution can go on."

Ryder: "Thank you, Mr. Speaker. I rise in opposition to this Bill for the reason, if I could, please, for the reason that...we don't know what this Bill is going to entail. To date, this Bill has created a significant fiscal impact on the Department of Children and Family Services. We have a lawsuit going on. This lawsuit continues, and yet the Sponsor indicates the Bill is in response to that. Creates a new level of bureaucracy in the Department of Children and Family Services, which is the last thing that we need. We stand in opposition to it. We ask for 'no' votes."

Speaker Madigan: "Representative Currie."

Currie: "Thank you, Mr. Speaker and Members of the House. This Bill we amended the other day to take out tape recordings which were objected to by many units of local government, but the Bill, as amended, still strengthens the Open Meetings Act in a variety of ways. At this point, there still is opposition, but, I am happy to tell you, that the Illinois Press Association, the Illinois Broadcasters' Association, Common Cause, ACLU, the Association of School Boards and the Community College Trustee Association are all comfortable with the provisions of the Bill. I'd

appreciate your support for passage of House Bill 2032."

Speaker Madigan: "There are three people seeking recognition: Mr. Black, Mr. Klemm, Representative Cowlshaw. Mr. Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Madigan: "The Sponsor yields."

Black: "Representative, it is very hard to hear in here, and, again, as I've talked with you, you've worked very hard on this Bill, and I think I heard you say that even though a critical component of the Bill has been removed...that of tape recording executive sessions...the Press Association notified many Members of this chamber that they would oppose the Bill had that not been removed, but I think I heard you say that they are now on board. This is a compromise. I would assume they think this is better than what they have and as good as they can get, and they want to pass it. Is that correct?"

Cowlshaw: "That is correct, Representative."

Black: "Thank you very much."

Speaker Madigan: "I...I still have Mr. Klemm and Representative Cowlshaw. Did either of you wish to speak in opposition? Can we choose between the two? You'll yield to Representative Cowlshaw? Okay, Mr. Klemm, has a question. Mr. Klemm for a question."

Klemm: "Will the Sponsor yield for a..."

Speaker Madigan: "The Sponsor yields."

Klemm: "Representative, you and I have chatted about...a situation that we're going to talk about. I don't know if that's been corrected in this Bill or in the Senate it would be addressed."

Cowlshaw: "The issue you are concerned about is not in this Bill, but I'd be happy to work with you if this Bill goes

Speaker Madigan: "Sponsor yields."

Cowlshaw: "Representative Currie, I believe that this Bill now says that in order to be liable for that \$500 fine, a person must have knowingly attended an open meeting that dealt with something that wasn't legally..."

Currie: "Correct. Correct."

Cowlshaw: "Is that true?"

Currie: "Yes, correct."

Cowlshaw: "It now has to be done knowingly."

Currie: "Yes, indeed."

Cowlshaw: "Thank you very much. That's important for us to know, and I appreciate the time, Mr. Speaker."

Steczo: "Thank you, Mr. Speaker, Members of the House. House Bill 2045 seeks to codify the QIP program, the...I...Illinois Department of Public Aid quality incentive program for nursing homes. It is a program...which implemented specialized care over and above those that are required by Public Health and provides additional payments to those homes that comply with those six standards. It was...created five years ago, it's a nationally recognized program. It's a model and a standard for the nation. This is...something that...we need to provide decency in the nursing care homes in the State of Illinois, and...I would ask for your 'aye' votes."

Speaker Madigan: "Mr. Daniels. Mr. Daniels."

Daniels: "Well, Mr. Speaker, Ladies and Gentlemen of the House. It's unfortunate that at 4:19 in the afternoon, the Sponsor now presents a Bill like this that is so critical to our future budget efforts in the state. Let me just be as succinct as possible and point out that the program QIP, which has worked in the past is one that is now arbitrary or voluntary by the state as to whether or not it wants to initiate it. What this Bill would do is take that program that is discretionary with the state and make it mandatory, so the state would have to do it. Now you all know, and it's no secret that the Governor suggested in his March 6 budget, that QIP be eliminated which would save \$22,200,000 in our budget. For instance, \$22,200,000 is the same amount that the donated funds initiative was part of and the same amount, half the amount that disproportionate of share, and so I am suggesting to you here, where it may be a difficult vote, let's not try to pull the wool over on anyone or anyone on this floor not understand what it is that you...way of doing if you vote in favor of this. You'll be mandating the state must put in operation a QIP

program. You'll be attempting to eliminate the discretion that the state already has and the program that the Governor has said in his very carefully crafted budget already has to be cut out. So, in a sense, you'll be doing a \$40,000,000 shift and requiring that we have to do it without discretion. So, I say take the tough vote now, understand what you are doing, make sure that the people of Illinois understand willing to balance this budget, not to fool around with it, not to play games. For that reason, I reluctantly stand in opposition, but recognizing it's not time to mandate something that's discretionary with the state, and I would ask that you oppose this Bill."

Speaker Madigan: "Those in favor of the passage of this Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? co-mingle their funds with state funds...to aggressively pursue federal matching funds...it will bring into the coffers of our state \$50,000,000 to \$70,000,000, and I ask for passage of this Bill."

Speaker Madigan: "Mr. Black."

Black: "Thank you very much, Mr. Speaker. I rise in reluctant opposition to the Gentleman's Bill. It's very similar to the Bill we just voted on, in all honesty. A good idea, something we'd like to do, if we weren't in the fiscal crisis that we're in. You know, it...I don't know that we are doing an adequate job of funding the Public Aid that programs are available. I would suggest that the Bill, at best, is misguided. It's built...largely on the hope of capturing federal dollars. The cost of this could be, I know the Gentleman doesn't agree, but the cost could be as much as \$80,000,000 depending on what the Federal Government might do. Might do. In an era when we're not funding the programs that are already mandated by action of this Body, I don't think, in all due respect of the Sponsor we can take on a program and build false hope and give false promise to people who need that hope, but, quite frankly, we don't have the resources to give it, and I reluctantly rise in opposition to the Gentleman's Bill."

Speaker Madigan: "Those in favor of the passage of the Bill signify by voting 'aye' those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Negotiations with the Fire Marshall's Office and the fire equipment distributors...I passed this Bill two years ago and today we still aren't completed with the process of the licensure...we are still...we still have 78 operators out there without licenses. We've come to an agreement on 2A, 2B, 2C distributors...two active...members in the fire community and one public member, that will level the board out. We have reduced the fees to \$100, \$200 and \$3 per category, and that's what the Amendment will do, and I ask for the adoption."

Speaker Madigan: "Mr. Preston. Mr. Preston."

Preston: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 583 requires the Department of Children and Family Services inplacement of children in foster care to provide for the placement of siblings together or in those cases where that simply cannot be done, it provides for the communication and for the visitation of siblings with one another. The whole purpose of this is to keep families together, to keep family contact together; it is very traumatic for children to be put in foster care in the first instance and then to have them in situations where they cannot even communicate or visit their brothers or sisters is adding trauma to trauma and that is simply not what the department or what we as Legislators or the court system should be about. We have to keep families united whenever that is possible."

Speaker Madigan: "Mr. Ryder. Mr. Ryder."

Ryder: "Thank you, Mr. Speaker. We rise in opposition to this, not because we think that families should be separated. Obviously we don't, but the problem here is not in the courts where the Gentleman has addressed his Bill. The

problem is the fact of finding foster care homes that are adequate to handle the families as that occurs. In addition, the definition of sibling...is somewhat problematic in that it extends far beyond the nuclear families as we understand it. There is certainly a cost associated with this, a cost of some one quarter of one million dollars. For those reasons, we would rise in opposition to the Gentleman's Bill."

Speaker Madigan: "There are two people seeking recognition, Mr. Black and Mr. Parke. Mr. Parke."

Parke: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Obviously, the Sponsor is well-intended on this legislation, however, it is a natural for the insurance companies to use an arbitrarily set zip code by the post office which has no relationship to anything other than zip codes, and for us to say that because a particular hospital or group of hospitals is charging a certain rate that's reflected in the higher premiums, is a figure that you should use, just is not logical. This Bill does not accomplish anything, it is not going to accomplish what the Sponsor wants, and it makes it more difficult for the insurance companies to try and understand what the reflection... especially in such a big area as Cook County, or the City of Chicago, and so for them not to be able to use this arbitrary figure is not fair to them in setting their rates because they need to know what hospitals and clinics are charging to reflect that in the premiums charged which is natural for it to be, so I would ask that...you...do not pass this legislation 'cause, quite frankly, it's anti-business and something that should not be done."

Harris: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. I understand what the Gentleman is trying to do with this Amendment and, indeed, we probably ought to be moving in this direction, however he has included a definition of citizenship in this Bill which is at odds with what the...with what the federal law states. It would put our definition of citizenship as defined in 2243 at odds with what the Immigration Reform and Control Act is at the federal level. That causes serious concern. It would cause employers hardships, and I think...for that reason a 'no' vote would be an appropriate one on this Amendment."

Speaker Madigan: "Representative Currie."

Currie: "Thank you, Mr. Speaker. I think that the answer to your question, Representative Harris, was wrong. The definition has been changed, in this Amendment from Representative Martinez's original Bill. The language in this Amendment comes from the Illinois Human Rights Commission."

Speaker Madigan: "Mr. Ryder."

Ryder: "Thank you, Mr. Speaker. This is special interest legislation. The Sponsor of the Bill has a person in his district that he wishes to benefit by this piece of legislation, in addition to which, we are creating a new category of a licensed physician. A licensed physician that doesn't meet our standards now...who is a quote 'conditional', physician, or conditionally licensed. It is not a good practice at this stage, at this time of day, to be saying that some doctors have to meet all the criteria, but other doctors can be 'almost'. Downstate we call that 'pert near but not plumb'. This Bill is not one that ought to pass."

Clerk Leone: "House Bill 741, a Bill for an Act to amend the Minimum Wage Law. Third Reading of the Bill."

Speaker Madigan: "Mr. Curran."

Curran: "Mr. Speaker, Ladies and Gentlemen of the House. House Bill 741 provides equity and fairness for farm workers. It allows farm workers, not after 40 hours, which every other employee gets, but after 48 hours to get time and a half for their efforts. We attempted yesterday to make that time-and-a-half just for overtime, but I think inadvertently people voted against it, not understanding it. At any rate, the only workers in this state who are not covered under the 40-hour provision would be farm workers, and they would now be covered under 48 hours. Ladies and Gentlemen, these people have given up on the 40 hour question and bargained for 48 hours. They...have also attempted to give up on time-and-a-half...regular time-and-a-half and just take time and a half of minimum wage. I don't know how much more we need to take from these people, how much more we need to gyp them and cheat them before we'll give them an even break. I ask for a kind, favorable, just vote for farmworkers."

Speaker Madigan: "We have three people seeking recognition: Mr. Black, Mr. Myron Olson, Mr. Hartke. Mr. Black."

Black: "Yeah. Thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. Let me just remind all of you that the present exemption of agricultural labor employers from the overtime provisions of the minimum wage law, has been a part of that law since its very inception. Legislators, at

that time, in their wisdom, saw the need for this exemption to protect a very unique industry that cannot use a time clock and doesn't always work on a 40-hour week and a five-day week. Agricultural production is unique when you compare it with any other business or industry. Weather and uncontrollable factors dictate how much labor is needed, and when it is needed and when the time to plant is here...nigh, you must do so. When the time to harvest is nigh, you must do so. Ladies and Gentlemen, in all due respect to the Sponsor, agricultural producers cannot pass labor costs on to consumers. We rationalize that in here a great deal. Oh, it won't hurt. They'll just increase their prices, and of course the consumer gets stuck with that, but, be that as it may, farmers can't pass those labor costs on to consumers. Their products are market-oriented and based upon supply and demand. I think all of us in the State of Illinois recognize the uniqueness of agriculture. This Bill would simply destroy an industry that is the leading export producer in the state. I would urge, in all due respect to the Sponsor and his beliefs, a 'no' vote on this Bill."

Bill 885 revises the Illinois system of evaluating the performance of local schools and provides for an accountability plan that's been established by a statewide group of individuals including business groups, parents, the State Board of Education, school administrative groups, teachers, et cetera. This Bill provides that standards will be set by the State Board of Education, and then students, based on those enumerators, will be judged and schools will be judged, school by school, year after year, looking for a method and means of improvement. I would...Mr. Speaker and Members of the House, consider this one of the most significant Bills that we may pass that will finally provide assessments based on performance, and I would ask for 'aye' votes."

Speaker Madigan: "Mr. Young."

Young, A.: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I rise in opposition to this Bill. Besides setting standards it allows the State Board of Education to go into any school system and withhold funds or remove school board members or put in a receiver someone temporary to run the school. We just passed a very comprehensive reform Act in Chicago. It has not had time to work yet, and to allow the State Board to have authority over the Chicago Board of Education is another layer of bureaucracy, and at this particular time, there are provisions in this Bill that the Chicago Board of Education oppose, and I think that it's too early in the new reform system to add this other level of bureaucracy."

Speaker Madigan: "Please be brief, Mr. Preston."

Preston: "House Bill 1, simply stated, prohibits corporal punishment in schools the way virtually every country on the face of the earth and most of the states in the United States have already done. The only countries that permit corporal punishment of students is Iran, South Africa and 20 of the United States. Illinois, unfortunately, is one of those 20. Ladies and Gentlemen, children are not for hitting. This is not education, this is child abuse. There is no course that you take in college when you're studying to be a teacher on how to hit an eight-year-old child versus where do you hit a twelve-year-old child versus how hard do you hit someone who's in sixth grade or a junior in high school. This is simply not education. It doesn't belong in our schools. It's child abuse. It's violence. Please, vote 'aye'."

Speaker Madigan: "Mr. Black."

Black: "Well, thank you very much, Mr. Speaker. The Gentleman makes a very impassioned plea as he did last year on the very same Bill. You know, you're all going to have to look at your own districts and your own conscience on this. I don't know if corporal punishment in schools should be packaged as child abuse...brutality. Most of you are aware that local school boards can outlaw corporal punishment if they want to. When I served as a dean of students at a junior high school many years ago, the student rights and responsibilities handbook gave any parent in that district the right to come to school and say you cannot...you cannot spank or otherwise use any form of corporal punishment on my child, and that right is inviolate in almost any...in fact all, school districts of this state. Let us leave some things up to those people who might know best, and that is a locally elected school board and the parents of

that school board and a professional staff. Let me quote to you from a letter from a school superintendent in my district. 'Proper restrictions now exist under the school code which allows any parent or guardian to deny a school the use of corporal punishment with their child. Those are sufficient protections. My concern is that if the State of Illinois, in its wisdom, bans corporal punishment, then it will only be a matter of time before you ban suspension, expulsion or any other form of discipline that the school board and its staff and teachers and parents feel is necessary.' A 'no' vote...a 'no' vote on House Bill 1."

is to repeal what we did last year after extensive debate on the issue. The issue is this: Do you think that grandparents should have an automatic right to visitation or to seek visitation for an existing unitary family? No one questions, and the law currently permits, grandparents to seek visitation in cases of divorce, in cases of death, in similar circumstances, but an existing happy family there is no circumstance, whatever, where it's appropriate for a grandparent to file a petition for visitation with that existing family, and that's what this Bill does. We've debated this Bill at considerable length over the course of the last two years, and the judgment of the Legislature and the Governor last year was that we shouldn't allow that interference from an existing unitary family. So, that Bill didn't pass overwhelmingly over three sessions. As a matter of fact, it was defeated last year, and so I urge you to vote 'no' on this attempt, not only to interfere in the family, but to undo what the Legislature did, and the Governor did after extensive debate last year."

Martinez: "No, it does not deal with that."

Hicks: "Then...it's not your intent at all to restrict a lending institution or a person who may be selling a piece of property to...not be able to ask that question...and I guess I will preface that by saying that...I would have a problem if in fact, a person were not able to ask that question...because I believe if a person were deported or something else that a person selling a piece of property certainly would want...have an interest in that, and that's why I'm asking the question."

Martinez: "That's not part of the language."

Hicks: "Okay. Thank you very much."

Speaker Madigan: "Those in favor of the passage of the Bill signify by voting 'aye', those opposed by voting 'no'."

Clerk Leone: "House Bill 2243, a Bill for an Act to amend the Illinois Human Rights Act. Third Reading of the Bill."

Speaker Madigan: "Mr. Black."

Black: "Yeah. Thank you very much, Mr. Speaker. Just for edification on my side of the aisle: Many people didn't hear Representative Wennlund explain that the Amendment removed the opposition to the Bill, and it will be...continue to be worked on in the Senate, and the various groups that expressed opposition to it have removed their opposition to it."

This Bill, having received a Constitutional Majority is hereby declared passed. I'm told that the differences relative to House Bill 1038 have been resolved. Mr. Clerk, House Bill 1038, has that Bill been read a third time?"

Younge, W.: "Thank you, Mr. Speaker. House Bill 1038 would establish an Illinois Low-Income Home Buyers Program. I have been in contact with the Illinois Housing Development Authority, and their representative, Rod Groesinger, has indicated that IDA is neutral on the Bill, does not oppose it, and...they helped to draft the...Amendment which becomes the Bill, and based on that...statement on my part, I believe that...Mr. Black has an...announcement to make in reference to his position on the Bill."

Speaker Madigan: "Mr. Black."

Black: "Yeah. Thank you very much...Mr. Speaker. We just had a summit conference over here, and based on the word of the Sponsor, all opposition has been removed on this Bill. Should opposition surface at any time in the process while this Bill is in the Senate, or should there be a serious question as to the financing of this program, the Sponsor has agreed that she will table the Bill, but as of this moment we have an agreement. We trust the Sponsor, we're ready to let the Bill go."

Speaker Madigan: "Those in favor of passage of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? Speaker Madigan: "The Bill shall be placed on the Order of Second Reading. Mr. Clerk, are there any Amendments?"

Clerk Leone: "Floor Amendment #6, offered by Representative Parcels."

Speaker Madigan: "Representative Parcels."

Parcels: "Thank you, Mr. Speaker. This is technical in nature. It was meant to be in the Bill in the first place, and due to inadvertent mistake it was not put into the omnibus Bill that we made in there. It's for CMS. It will put into practice what they're already doing, and I move for its adoption."

Speaker Madigan: "Those in favor of the Amendment say 'aye', those opposed say 'no'. The 'ayes' have it. The Amendment is adopted. Are there any further Amendments?"

Clerk Leone: "No further Amendments."

Speaker Madigan: "Third Reading. Mr. Curran on the Bill."

Curran: "Mr. Speaker, with the adoption of Representative Parcels' Amendment, this is the Committee Bill from...the Agreed Bill from the State Government Committee. It has eight Democratic Bills, seven Republican Bills. I don't know of any opposition. I'd be glad to answer any questions."

Capparelli: "Thank you, Mr. Speaker. The Bill is designed to correct an error that we made last year when the House concurred on a Senate Amendment to a Bill which dealt with the last hours of Session. It was supposed to have addressed itself to scalpers, but it also affected the legitimate operation of ticket brokers. The Bill, by definition, and I'll read the Amendment, is, 'The ticket brokers must engage the sale of tickets at a regular ongoing basis. The ticket broker must operate from one or more fixed locations. The ticket broker and his employees must not engage in the practice of selling or attempting to sell tickets for any event while sitting standing near the facility at which the event is to be held. The ticket broker must comply with all requirements of retail occupational tax and all other applicable federals, state and local laws.' I ask for a favorable Roll Call."

Speaker Madigan: "Mr. Black."

Black: "Yeah. Thank you very much, Mr. Speaker. We'd like to ask the Sponsor a question."

Speaker Madigan: "The Sponsor yields."

Black: "Representative, you alluded to the fact that this was a technical Amendment, and yet staff tells us that what this Bill...what this Amendment or Bill does as amended really goes beyond that. It says that ticket brokers can scalp, but you and I can't. Is that right?"

Capparelli: "What was that last part? The ticket brokers can't sell..."

Black: "Ticket brokers can...well, let me clean up my language. Ticket brokers can sell a ticket at a...price that the market might deem appropriate, but you and I couldn't do that if we were not a ticket broker."

Capparelli: "Only the ticket brokers can...who are in business, legitimately, can broker their tickets. They must also

live up to all the rules and regulations of the city they sell it in."

Black: "Okay, but if I wanted to come up and say I just didn't want to attend a concert or a game that evening and so I thought 'Well, perhaps I can sell this ticket and make enough money to go out to dinner at a nice restaurant,' could I do that?"

Capparelli: "What the Bill says...that you can't go in front of the stadium. You couldn't even do that. You could get pinched if you sold that ticket if you went at the facility, but you could sell the ticket to someone else if you don't go to the facility and scalp the ticket."

Black: "But could I sell the ticket to a concert, say, at Rosemont in downtown Chicago, at a...price that the market might bear on that particular day? In other words, above face value."

Capparelli: "If you want to sell your ticket, as long as you don't sell it in front of the facility, I'm sure you can sell it to anyone you want to, yes."

Black: "At any price?"

Capparelli: "I presume so."

Black: "Okay. That's all we wanted to make sure of. Thank you."

Speaker Madigan: "There are two people seeking recognition, Mr. Wennlund and Mr. Parke. Mr. Wennlund."

Wennlund: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. Amending the Human Rights Act to provide for punitive damages is totally unlike punitive damages that might be awarded in a civil court of law. Once we open up the Human Rights Act to punitive damages, then we open up all actions against employers, and what you're going to see is the proliferation of complaints filed under the Human Rights Act against employers in the hope that there will be punitive damages. We're making it difficult enough for employers in Illinois to do business here...to make a profit without putting them at risk of being a defendant before the Human Rights Commission and being awarded punitive damages of who knows how much. It's a dangerous precedent to set in Illinois, to provide for the...for punitive damages in Human Rights Commission awards. It's tough enough to defend themselves before the Human Rights Commission for employers of all sizes, particularly now when we've added so many categories under the protection of the Human Rights Act, that almost everybody in the world is covered. From sexual orientation, gender, we've got everything covered under there. Employees could virtually bring an employer to a halt and put 'em out of business by an award of \$1,000,000 of punitive damages or some other figure. It's time we take a serious look, and I want to tell you that not only is the Associated Employers of Illinois, the Illinois State Chamber of Commerce, Caterpillar Inc., Motorola, Deere and Co., National Federation of Independent Businesses, Ford Motor Company,

and every business group in the State of Illinois opposed to this Bill, which could bring them to a virtual halt. Can you imagine? An employee the size of Caterpillar...an employer the size of Caterpillar receiving 300 or 400 Human Rights complaints, all with the threat of receiving an award against them of punitive damages. Bill does, it will...and it redefines the level of proof on behalf of an employer, required in a disparate impact case. Now that's a numbers case, and the only out for an employer will be to develop quotas, job quotas. Claimants would only need to show a statistical disparity in the numbers from one racial makeup to another, and allege that the employer's practices in combination resulted in that disparity, and therefore violation of the Human Rights Act. 2244 is really an attempt in Illinois to overturn two U.S. Supreme Court decisions, and in writing for the Supreme Court majority, the...Court said that the only practical option for employers will be to adopt racial quotas to ensure that no portion of the work force deviates in racial composition from one portion or the other, and this is the result of the Congress expressly rejected in drafting title VII. What it does is it forces an employer to defend himself in a Human Rights Acts case, for statistical impact, in other words, numbers. It would require him to adopt quotas, to adopt...to hire so many blacks, so many Hispanics, so many Asians, so many whites. This is the wrong message to employers in Illinois, and it's driving employers out of Illinois. It puts them at risk under the Human Rights Act. It's a bad Bill, and it's not one that Illinois should take. It'll continue to drive businesses to the Sunbelt. Currie: "Thank you, Mr. Speaker and Members of the House. It's estimated that about \$15,600,000 in child support obligations are not paid in the State of Illinois. United States Representative Henry Hyde is working to make sure that people who leave the state to avoid their child support obligations are, in fact, caught and held to them. This Bill, House Bill 2486, is an effort to make sure that we are capturing the dollars our children need from the people who stay within the State of Illinois. This is an initiative of the Citizen's Council on Women. It has the support of the Illinois Task Force on Child Support, Judge Steven Evans, who is the Chairman of the Child Support Advisory Committee to the Conference of Chief Circuit Judges in the State of Illinois...the Department of Public Aid as well. It would apply the same kind of hearing procedures and affidavit procedures to people who are applying for licenses in the State of Illinois as we currently apply on the question whether they are owing scholarship loans or whether they are owing Uncle Sam. The point of this Bill is to make sure that when people are owing our children, our children who are slipping further and further into poverty, we have one more mechanism in order to see to it that the child support obligations are...are paid as they ought to be. So, I'd appreciate your support for the Motion to adopt House Bill 2486."

Speaker Madigan: "Mr. Johnson."

Johnson: "Mr. Speaker and Members of the House. This is really a terrible Bill. What this says is that you don't have the right to practice your occupation, and that the department can seek a remedy against you, jerk your license or whatever it might be...if you either don't properly certify that you're up to date on child support, or that you, in fact, aren't. Often times, these decrees and their application are vague anyway, so I don't know how you could certify to something that, even though it seems simple, is not nearly as simple as it would seem. And secondly, if what you really want to do is to provide appropriate support, if...worst thing in the world you can do is to take somebody's license away and their right to practice their occupation away. If a dentist practicing law that has a dispute about how much child support to do, and they don't file the right affidavit, they're not practicing the next day. This is...may be well-intended, and, I assume with the Sponsor who's my friend it is well-intended, but it's certainly not an appropriate way to address this issue. It's a bad...it's bad for everyone involved, including the children, and I urge everyone to vote 'no' on this bad, bad, bad Bill."

Speaker Madigan: "Those in favor of the passage of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? Have all voted who wish? if I could have your attention, the Supplemental Calendar has been distributed. It contains Senate Bills on the Order of First Reading, and certain of these Bills have not been picked up for sponsorship by House Members. We would like to have all of these Bills sponsored by House Members before we finish this evening so that these Bills can be assigned and posted for hearing in the House committees. So, if you would all examine this list, with a view towards possible sponsorship of the Senate Bills. On the Order of Criminal Law, Second Reading, there appears House Bill 56 by Mr. Santiago. Mr. Clerk, what is the status of this Bill?"

This regulates Utilization Review. utilization review is a review by insurance and other third party payors of medical bills through insurance companies. Right now, this process is not regulated very well. And because it's not regulated, when your hospital bill and my hospital bill is paid by insurance, some of the charges may not be paid. We have no recourse. We cannot go to the reviewers. There's no due process requirements, and what this Bill would do, would create a system whereby there could be some appeal process and some review of this situation. We urge your support."

place, says, 'We're only paying \$400 for this procedure', and then that poor constituent of yours or mine gets his or her wages garnisheed I've complained to the Department of Insurance about this. These people are not regulated at all under Illinois law, and, by God, let's get it to the Senate and negotiate. This is a matter of fairness, no matter what side of the aisle you're on. I don't care what the business groups say about this. This is wrong. There is no regulation, and people are being hurt because of the lack of regulation of the so-called utilization review, and I hope you put enough votes up there to get it in the Senate and let us negotiate some reasonable regulation on people who are telling these folks, 'Sorry, we're not paying your bill. We're only going to pay a portion, and you can pay the rest, or you can get your wages garnisheed.'

Speaker Madigan: "Mr. Parke."

Parke: "Thank you, Mr. Speaker. I will tell you that there has been a lot of negotiation going on on this Bill, and, in fact, the Sponsor has some good points on it, but, quite frankly, there has been negotiation going on. They've asked the Speaker not to call this...I mean the Sponsor not to call this. We do not need this legislation to do that. We are hoping that the Med Society, the business community insurance community can work on a compromise, but we do not need this Bill to do that. I would respectfully ask all of the Members of this House not to send this over, but to work with the Sponsor throughout the...rest of the Session, and into the summer to work out a compromise which they say they would like to do. So, I'd ask for a 'no' vote on this Bill."

crime, to give the judge some discretion. It tries to alleviate the prison overcrowding. I've talked to...people on both sides of the aisle. I won't say...it's been discussed. I believe we have some understanding that's agreed to by the Department of Corrections. It's purpose is to give the judges discretion in those situations...where there's a need. In fact, it's even a higher sentence than what the judge should give under boot camp. It's just to sort of relieve the problem that we've had for individual's first offense. If the offender has no prior criminal record, that's fine, first timer. Number two, if no authorized person was in the residence at the time of the burglary. Well, let me tell you this, that I think the last thought in a residential burglar's mind at the time he enters a premises, is, 'Gee, I wonder if somebody's sleepin' upstairs,' but, the good side of this is, it's going to save the people of Illinois, the taxpayers of Illinois, and Department of Corrections, megabucks because we are sentencing these first-time offenders to four years, when we've got a prison system with over...almost 29,000 adults, which is 10,000 more than we're ready for. Clerk Leone: "Floor Amendment #3, offered by Leader Daniels."

Speaker Madigan: "Mr. Daniels."

Daniels: "House Bill 2012 as filed was a mandate of inclusion for supported employment as part of special education. Amendment #3 requires schools to consider supported employment; thereby removes the mandate."

Speaker Madigan: "Those in favor of the Amendment say 'aye', those opposed say 'no'. The 'ayes' have it. The Amendment is adopted. Are there any further Amendments?"

Clerk Leone: "No Further Amendments."

Speaker Madigan: "Thank you, Mr. McGann. Take that Bill out of the record. House Bill 522, Mr. Preston. Mr. Clerk, read the Bill."

Clerk Leone: "House Bill 552, correction, that's House Bill 522, a Bill for an Act concerning the safety of children. Third Reading of the Bill."

Speaker Madigan: "Mr. Preston. Mr. Preston. 522. Mr. Preston. The Bill is on Third Reading."

Preston: "Thank you, Mr. Speaker and Ladies and Gentlemen of the House. House Bill 522 pertains only to the City of Chicago. It provides that when there is a new school that is to be built or a major rehabilitation of a building for use as a school, that there will be an opportunity for public hearings by the residents. Notice will be sent so the residents of the area where the school is to be built have an opportunity to be heard on what they feel about this new development. I've been notified of no opposition. I ask for your 'aye' vote."

Steczo: "Thank you, Mr. Speaker, Members of the House. House Bill 562 changes the current statute by providing that the random assessments that we do on...the random testing that we do in school will be spread over three years rather than annually. The whole idea is to be able to take time...provide extra time to students and yet provide the same kind of quality...determinations that the tests can provide, so I would ask for the passage of House Bill 562."

Speaker Madigan: "Mr. Steczo. I'm told by the Clerk that this Bill is on the Order of Interim Study."

Steczo: "I think somebody else filed the form, Mr. Speaker, but I'll hear it if the House will allow me to do that."

Speaker Madigan: "Is there leave? Leave is granted. The Bill is placed on the Order of Third Reading. The Gentleman has explained the Bill. Those in favor of the passage of the Bill signify by voting 'aye', those opposed by voting 'no'. Have all voted who wish? Have all voted who wish? The Clerk shall take the record. Speaker Madigan: "Mr. Hoffman."

Hoffman J.: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. House Bill 669 was introduced on behalf of the regional superintendents of schools. Speaker Madigan: "The Sponsor yields."

Black: "Representative, let's put this on the record. I think most of us thought all along that this was a vehicle Bill. Is it your intent that nothing be done with this Bill under your sponsorship other than what you just told us?"

Speaker Madigan: "Mr. McNamara."

McNamara: "This Bill adds two classroom teachers to the Teacher Certification Board. Under this legislation, composition of the board would be five faculty members of the college or university, three school district administrators, one regional superintendent of schools, ten classroom teachers and a state superintendent of schools as a non-voting member. This Bill is supported by both the State Board and Illinois, Education Association, and I know of no opposition."

Speaker Madigan: "Representative Cowlshaw."

Cowlshaw: "I believe that several of the school management groups are in opposition to this Bill which would, in fact, increase the number of teachers who will serve on the certification board, so that, in fact, teachers would have the majority, and no one else would have anything...any real power over changes that may be made in the certification. I don't think that's a balanced way to go about that, and I stand in opposition to this Bill."

Speaker Madigan: "Sponsor yields."

Black: "Is Amendment #2 added to this Bill?"

Preston: "As far as I know it has. I believe it has been added, but that is not at all what this Bill is intended to end up as. It...as I said, there is work going on it."

Black: "Alright, but when you portray the Bill as doing absolutely zippo, and you have expanded the definition of family, in Amendment 2 which basically now is the Bill, there are people...who would not consider that 'zippo', and I know a man of your integrity would generally let us know that factor. I'm sure that you just overlooked it. If it be your intention to use it as a vehicle, that's fine, you can tell us that, but when you're expanding the definition of family, in all due respect to you, Sir, I don't think that means that the Bill does zippo."

Black: "Thank you very much, Mr. Speaker, and thank you, Mr.

What this Bill does is it says that if you receive a raffle prize and you have an active FOID card, which means you had to submit it for 30 to 60 days to get that FOID card, you can only receive a weapon if you have that FOID card. I'm asking that we waive those requirements for those people who have an active FOID card and receive those prizes or those raffle prizes and not have to go back downstate, wait a few days and drive back up to receive the weapon. It will teach people in high school who are about to become parents the importance of staying away from drugs, alcohol and tobacco during pregnancy. It will get at the problem of drug abuse and child abuse by teaching someone what to expect from the normal behavior of a newborn child. The reason for my opposition is that all wisdom does not reside here in Springfield. We have local elected boards of education to decide which things they want to offer. It might be a good idea if we let them, for example, concentrate on teaching children to read, write and compute, rather than expecting them to offer to do everything for everybody, and it is for that reason that I stand in opposition to this Bill."

Speaker Madigan: "Those in favor of the passage of the Bill vote 'aye', those in favor of the passage of the Bill vote 'aye', those opposed vote 'no'. Mr. Preston to explain his vote. Mr. Preston will explain his vote."

Preston: "Thank you, Mr. Speaker. I know of no Bill that we have considered in this Session that's more important than this Bill. It seems to get less votes now than it did in the two previous times where it passed the House and the Senate, went to the Governor's desk. If you're really concerned about cocaine babies being born, if you're really concerned about children being abused, then somebody has to in high school when people are about to become parents, tell them what to expect, that they have nutritional concerns during pregnancy, that they have to worry about staying off drugs, that the appropriate response to a newborn baby that's crying is not to slap that baby. This Bill does it, and if you don't see it that way, I'm sorry for you."

Speaker Madigan: "Have all voted who wish? Have all voted who wish? Representative Munizzi."

Munizzi: "Thank you, Mr. Speaker and Ladies and Gentlemen. To quickly explain my vote, to paraphrase from the movie

'Parenthood': you need a license to hunt, you need a license to drive, you need a license to do just about anything you want to do. While this Bill doesn't require you to have a license, it requires you to learn about what you are about to do. I urge that you change these votes and get some green votes up there to vote for. Thank you."

Speaker Madigan: "Have all voted who wish? Have all voted who wish? Representative Ropp."

Speaker Madigan: "Mr. Ropp."

Ropp: "Thank you, Mr. Speaker, very briefly, if there is ever a time in this country where we need to think about families, and what families mean to this country, and the scene in the last several years, the breaking away of that fabric, there is no program that we have in any of our educational systems that helps to bring that together. This Bill in some small way would begin to address that, creating family community in this country, and Ladies and Gentlemen, if we ever need it, we need it now. Thank you."

Speaker Madigan: "Have all voted who wish? Have all voted who wish? Have all voted who wish? The Clerk shall take the record. On this question, there are 57 'ayes', 34 'noes', the Clerk shall poll the absentees."

Clerk O'Brien: "Offered by Representative Trotter."

Speaker Madigan: "Mr. Trotter."

Trotter: "Thank you, very much, Mr. Speaker. Amendment #6 becomes the Bill. I'm going to be very brief on this. This is multi-faceted, multi-disciplinary effort to provide comprehensive policy guidelines regarding the serious problem of substance abuse by pregnant women. We made a concerted, conscientious effort to work hard with all the departments that this Bill impacts upon. I worked with the Members on the other side of the aisle. I don't believe there's any opposition at this point, and I ask for its passage."

Speaker Madigan: "Those in favor of the Amendment say 'aye', those opposed say 'no'. The 'ayes' have it. The Amendment is adopted. Are there any further Amendments?"

adopted. Mr. Clerk, is there anything further? So, are we prepared to consider the Death Resolution? Mr. Clerk, please read the resolution."

Clerk Leone: "House Resolution 593, offered by Representative Daniels and McAuliffe. Whereas, the Members of this Assembly were saddened to learn of the death May 21, 1991, of one of its distinguished colleagues, Peter J. Miller, who proudly served in this chamber and in the Illinois Senate for 22 years. Whereas, Peter J. Miller was born June 16, 1909, in the City of Chicago and learned from his parents and valued of service and helping others, And, whereas, Mr. Miller grew up in the City of Chicago and attended Marshall High School where he excelled and participated in all major sports. Whereas, he developed a love for winter sports and became an accomplished speed skater, a skill that enabled him to serve as a coach of the U.S. Olympic Speed Skating Team in 1948. And, whereas, his concern for disadvantaged youths in Chicago led him to accept positions as a physical education instructor for St. Thomas the Apostle Church, and Executive Director for the Chicago Park District. And, whereas, Peter Miller organized Chicago's Golden Gloves Program because of his desire to help disadvantaged youths to reach beyond their potential. And, whereas, he had the rare distinction to be a Member of both the Illinois House of Representatives and Senate, during the period that began in 1947 and survived two interruptions to represent the residents of Chicago's Westside, until his retirement in 1973. And, Whereas, the Members of both chambers of the Illinois General Assemblies sought his counsel, and were persuaded by his compassion and zeal, to approve laws he championed, including reforms in the insurance industry, the Chicago Tuberculosis Sanitarium, the state mental health hospitals and state

prisons and the establishment of Daylight Saving Time in Illinois. And, whereas, he continued his years of public service to the State of Illinois, serving as Secretary of the Illinois Athletic Commission. And, whereas, his involvement in public life extended into the political arena, serving as the 36th Ward Republican Committeeman in Chicago for 30 years and continued that activity when he moved to Addison, Illinois, about 15 years ago and served as Addison Township Republican Precinct 42 Committeeman in DuPage County, until his passing. And, whereas, Peter Miller was a devout community leader in the Village of Addison, and lately, in Woodale, and an active member of St. Philip the Apostle Roman Catholic Church in Addison and the Holy Ghost Roman Catholic Church in Woodale, until his passing. And, whereas, the Members of this chamber and citizens of the State of Illinois will greatly miss Peter J. Miller. Therefore, be it Resolved by the House of Representatives of the 87th General Assembly of the State of Illinois, that we hereby express our deep gratitude for Peter J. Miller's countless contributions to the citizens of Illinois and further express our heartfelt sympathy to his wife, daughters, seven grandchildren, five great-grandchildren, his brother and sister. And, Be further resolved, that suitable copies of this Preamble and Resolution be presented to the family of Peter J. Miller. And, as a further expression of our sorrow, the House will stand Adjourned.

Speaker Madigan: "Mr. Daniels."

Daniels: "Mr. Speaker, Ladies and Gentlemen of the House. I would like to ask that all Members of this House be added as a Co-Sponsor to this Resolution, because I think that's appropriate. I think it's particularly appropriate because we all, in this chamber, of course, know Peter J. Miller,

for not only his activity the last few years, as a person representing labor and so articulately displaying some of their needs and concerns, but many of us remember him when he served in the Illinois General Assembly. But, few of you may remember that in 1973 he retired voluntarily because he did one of the most magnanimous acts that anyone in public service could do: He gave up his seat in the Illinois General Assembly so that a man by the name of Henry Hyde could continue in public office. Yes, Henry Hyde lost the election at that time, but Peter Miller felt so strongly about him and his abilities, that he resigned the General Assembly and Henry Hyde was then able to continue on in the Illinois House and, as you now know, is one of the leaders in the country in the United States Congress. But, that only epitomizes some of the actions that Peter Miller has done throughout his long career: speed skating champion, a father, devoted husband, a man that really brought a lot of us into this business of politics, and we got to learn an awful lot from him. For instance, he, yes, was a precinct committeeman in Addison Township, the township I come from, and boy, he was one of the best committeeman that anyone could ask for, Mr. Speaker. And, you should, too, also, have a pride for that because he learned an awful lot of his efforts in the City of Chicago, which he loved so much and never forgot his roots, and he brought a lot of his organizational ability out to us which meant to me, personally, he was one of the best committeeman we had in DuPage County, which, I'm grateful for. But, more than that, I'm grateful for what Peter J. Miller represented. He represented good government. He represented an articulate feeling on beliefs that he felt so strongly about, but he also grew in the ranks and eyes of so many by raising a family that also

is participating in this business. His daughter, Carolyn Miller Cooley is a county board member in DuPage County, and also a resident of Addison Township. So, Mr. Speaker, when we talk about a person who has marked all of our lives, we're talking about an individual here who was one of us, who we can be proud of that we knew and that we can be proud of that he wore the stamp and will always be remembered as a Member of the Illinois General Assembly. To him, Godspeed, to him, to his family, I ask that all remember him in his...your prayers. Thank you."
