Speaker McPike: "The House will come to order. The House will come to order, please. We will be led in the prayer today by Clerk of the House, Jack O'Brien. Guests in the balcony may wish to rise and join us for in the invocation."

Clerk O'Brien: "Let us Pray. Lord, bless this House and all those that serve and work here. Amen."

Speaker McPike: "We'll be led in the Pledge of Allegiance by Representative Hasara."

Hasara - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker McPike: "Roll Call for Attendance. Representative Matijeovich."

Matijeovich: "Speaker, we're all here, and my seat mate is a year older, Jesse White. He's got some flowers here...I don't see any cake, yet, but I'm sure he'll have some. Thank you."

Speaker McPike: "Representative Kubik."

Kubik: "Thank you, Mr. Speaker. Let the record reflect that Representatives Ewing and Klemm are excused today."

Speaker McPike: "Thank you. Representative Ropp."

Ropp: "Speaker, I would just like to announce I talked to Representative Klemm this morning, and he was going to see his local doctor today but is feeling much better. Thank you."

Speaker McPike: "Mr. Clerk, take the record. One hundred-sixteen Members answering Roll Call, a quorum is present. On page 14 of the Calendar, Senate Bills, Second Reading, appears Senate Bill 37. Out of the record. Senate Bill 45. Mr. Clerk, read the Bill."

Clerk O'Brien: "Senate Bill 45, a Bill for an Act to amend the

Illinois Purchasing Act. Second Reading of the Bill. No
Committee Amendments."

Speaker McPike: "Any Floor Amendments?"

Clerk O'Brien: "Amendment #1, offered by Speaker Madigan and
Representative Daniels.

Speaker McPike: "Representative Lang, would you like to handle
this Amendment, please? Representative Lang. Mr. Lang,
would you present the Amendment for the Speaker?"

Lang: "Mr. Speaker, we're looking for the Amendment now. Thank
you, Mr. Speaker. Amendment #1 creates the Governor's
First Emergency Budget Relief Act. I move adoption."

Speaker McPike: "Question is, 'Shall Amendment #1 be adopted?'
All in favor say 'aye', opposed, 'no'. The 'ayes' have it,
and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "Floor Amendment #2, offered by Representatives
Balanoff and Schakowsky."

Speaker McPike: "Representative Balanoff? Is the Gentleman here?
Gentleman's not here. Representative Kubik.
Representative Kubik moves to table Amendment #2. All
those in favor of the Motion say 'aye', opposed, 'no'. The
'ayes' have it, the Amendment's tabled. Further
Amendments?"

Clerk O'Brien: "Floor Amendment #3, offered by Representative
Schakowsky and Balanoff."

Speaker McPike: "Representative Schakowsky."

Schakowsky: "Thank you, Mr. Speaker, Ladies and Gentlemen of the
House. ...I offered Amendment #3 because there were a
couple of items that were in the agreed package that will
seriously hurt a number of our constituents, and I wanted
to see that those were eliminated from the agreed cut
package. The first would restore funds for the 19-to
21-year-olds who happen to be our children, that is,
they've been wards of the State of Illinois all their lives

and our state functions in the role of parents to these individuals. The question is, what caring parents would deny help and assistance to their children just because they turned 19 years of age. So, I ask that those funds be restored. The second part of Amendment #3 would restore funds for the Substance Abuse Advocacy Program for the recipients of General Assistance. Seem to me that those individuals that we'd like to see back in the job market and are prevented from doing so because of their substance abuse problems, ought to be aided by a small amount of money. We're only talking about 1.4 million dollars to help get those individuals back in the work force so they're no longer draining state dollars by being on General Assistance. I would urge your support of Amendment #3 to Senate Bill 45."

Speaker Satterthwaite: "Question is, 'Shall Amendment #3 be adopted?' All in favor say 'aye', opposed, 'no'. The 'nos' have it. The Amendment is defeated. Further Amendments?"

Clerk O'Brien: "Floor Amendment #4, offered by Representative Saltsman."

Speaker McPike: "Representative Saltsman. The Gentleman here? The Gentleman's not here. Representative Kubik moves to table Amendment #4. All those in favor say 'aye', opposed, 'no'. The 'ayes' have it. Amendment #4 is tabled. Further Amendments?"

Clerk O'Brien: "Floor Amendment #5, offered by Representative Ropp."

Speaker McPike: "Representative Ropp."

Ropp: "Thank you, Mr. Speaker, Members of the House. Amendment #5 would, in effect, save \$50,000,000 by stating that those people who are on the circuit breaker would pay up to a minimum of \$5 or up to 20% of the actual costs of those

particular prescriptions. It is a cost-saving measure and it does not do any major harm to anyone, and I move for its support."

Speaker McPike: "Gentleman moves for the adoption of Amendment #5. All those in favor say 'aye', opposed, 'no'. The 'nos' have it. The Amendment's defeated. Further Amendments?"

Clerk O'Brien: "Floor Amendment #6, offered by Representative Ropp."

Speaker McPike: "Representative Ropp."

Ropp: "Thank you, Mr. Speaker, Members of the House. Amendment #6 to Senate Bill 45 is a Bill that actually takes away the funding of nonsteroidal drugs, drugs that, actually, are not life-sustaining, and many of these particular drugs can be supplemented with aspirin. It would save at least \$25,000,000, and I would urge for your support of this."

Speaker McPike: "The Gentleman moves for the adoption of Amendment #6. All those in favor say 'aye', opposed, 'no'. The 'nos' have it, and the Amendment's defeated. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. It is the intent of the Chair to go to the appropriations Bills at this time. These Bills have been read a second time. It will be the intent of the Chair to adopt the Amendment and then call the Bills on Third Reading. There's been a request from Members that the Sponsor of the Bill, or Sponsor of the Amendment give a brief explanation of the Amendment and the Bill, a brief explanation. Page 14 of the Calendar. Clerk O'Brien: "Senate Bill 133, a Bill for an Act making appropriations to the Department of Commerce and Community Affairs. Third Reading of the Bill."

Speaker McPike: "Question is...Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker, it's a vehicle Bill. We'd appreciate a 'yes' vote."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Representative Ryder."

Ryder: "Thank you, Mr. Speaker. Just to indicate that we oppose the Bill solely because it is a vehicle Bill. We don't know what it will contain when it comes back to see us. For that reason we would ask for red votes."

Speaker McPike: "Have all voted? Have all voted who wish? Clerk will take the record. On this Bill there's (sic there're) 71 'ayes' and 40 'nos', and Senate Bill 133, having received the Constitutional Majority, is hereby declared passed. Senate Bill 258. Mr. Clerk, read the Bill."

Clerk O'Brien: "Senate Bill 258, a Bill for an Act to provide for Distributive Expense for the State Comptroller. This Bill's been read a second time previously. Amendments #1 and #2 were adopted in committee."

Speaker McPike: "Representative Ryder."

Ryder: "Inquiry of the Chair?"

Speaker McPike: "Yes."

Ryder: "Did Amendment #4 go on the Bill?"

Speaker McPike: "No, we have Amendment #1 and #2 were adopted, Amendment #3 was withdrawn. Mr. Clerk, do you show Amendment #4?"

Clerk O'Brien: "No Amendment #4 has been filed."

Speaker McPike: "Mr. Ryder, we have no Amendment #4. Mr. Ryder. Representative Black."

Black: "Yes, thank you very much, Mr. Speaker. I just rise to a point of personal privilege, if I might. This is Representative Myron Olson's birthday. He's got a new sportcoat for his birthday, today, in honor of Lou Hensen and in deference to the fire marshall we can't have candles on his cake; it would set off the smoke detectors in the entire Capitol complex so, his lovely secretary, Michelle Savage will circulate among you and hand out a candy bar because you're going to need that energy this week and welcome if you would and sing a rousing happy birthday to

Myron Olson. Seventy-five years-old today and doesn't look a day over 74."

Speaker McPike: "Representative Dunn."

Dunn: "Thank you, Mr. Speaker. A generic question, I hope we can answer on all this legislation because it's a very difficult budget year. It'd be nice if the...Sponsor of the legislation...would explain what the...estimated actual expenses are for the year in which we are now operating and how much above or below that figure is the budget we're being asked to vote upon at this time, and that's my question with regard to this first Bill."

Speaker McPike: "Your question to the Sponsor, Sir? Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker. Last year, Fiscal Year '91, estimated expenditures were \$42,371,000 in GRF and \$16,180,000 in other for a total of \$58,551,000. This year, at this request, we have GRF of \$43,032,000, other of \$769,000,000 for a total of \$43,802,000. Those are the comparisons from year to year, fund by fund."

Dunn: "I didn't hear, is the GRF up a couple million, you say?"

Hannig: "GRF went from 42.3 to 43.0 So, it's up around six or seven hundred thousand. The other funds are down from 16 million to less than one million. The total budget is actually down by about 15 million dollars."

Dunn: "Do you know why we're not capturing these federal dollars? I thought that was part of the program this year to try to help ourselves out by capturing more federal dollars."

Hannig: "As I understand, Representative, some of this money was passed through and perhaps some of it was even, the non-GRF money, some of this was simply passed through in the past in prior years, that are simply not with this budget now."

Speaker McPike: "Further discussion. Mr. Ryder."

Ryder: "Thank you, Mr. Speaker. The Bill as amended deserves

some compliments but also deserves some criticism although the Comptroller has done an adequate job of attempting to reduce some of their expenses. There are cost of living and merit comp. raises within this. One of the...one of the executive offices or, excuse me, one of the few agencies that allow it. For that reason we're...critical of those amounts. I might add, those were placed on through Senate Amendments and House Amendments."

Speaker McPike: "Question is, 'Shall this House Bill pass?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. Tim Johnson, 'aye'. On this Bill there are 9..., take the record, Mr. Clerk. Lou Jones, 'aye'. Representative Younge, Wyvetter Younge, 'aye', Charles Morrow, 'aye'. Representative Trotter, 'aye'. Representative Bob Olson, 'no'. On this Bill there 91 'ayes' and 20 'nos'. Senate Bill 258 having received the Constitutional Majority, is hereby declared passed. Senate Bill 301. the Department of Agriculture to the position that it had coming out of the Senate. This is a restoration Amendment. I would ask for a Roll Call vote."

Speaker McPike: "Representative Hicks, on the Amendment."

Hicks: "Thank you very much, Mr. Speaker. I stand in opposition to Amendment #7...We've made reductions in the Department of Agriculture of some 5.8 million dollars. I believe it's better to make...those reductions in line items such as travel, and that type of items. It does not make any reductions in soil, water, conservation, those types of programs. They're important to most people here in this House, and I'd ask for Amendment #7 to fail."

Speaker McPike: "Question is, 'Shall Amendment #7 be adopted?' All in favor vote 'aye', opposed, vote 'no'. Have all voted? Have all voted who wish? Clerk will take the record. On this Amendment there are 45 'ayes' and 70 'nos'. The Amendment's defeated. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Read the Bill, Mr. Clerk."

Clerk O'Brien: "Senate Bill 334, a Bill for an Act making appropriations for the ordinary and contingent expense of the Department of Agriculture. Third Reading of the Bill."

Speaker McPike: "Representative Ropp. Someone has to present this Bill on Third Reading. Representative Ryder will."

Ropp: "Okay."

Ryder: "Thank you, Mr. Speaker. This is the appropriation for the Department of Agriculture. The...Amendment offered by Representative Hicks restores dollars to everything except operations; operations, I think, is at a 95% level. Be

Speaker McPike: "Third Reading. Read the Bill, Mr. Clerk."

Clerk O'Brien: "Senate Bill 335, a Bill for an Act making appropriations for the ordinary and contingent expense for the Illinois Arts Council, Third Reading of the Bill."

Speaker McPike: "Representative Ryder. Representative Olson. Mr. Olson."

Olson: "Thank you, Mr. Speaker. House Bill...excuse me, Senate Bill 335 appropriates \$9,681,000 for the ordinary and contingent expenses for the Illinois Arts Council. That's the amount that it came out of the Senate; it was reduced in the Senate by \$1,696,000. There were no changes in the House committee. I'd answer any questions and move for adoption."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. This is final passage. Have all voted? Have all voted who wish? Have all voted who wish? Speaker McPike: "Any Floor Amendments?"

Clerk O'Brien: "Floor Amendment #3, offered by Representative Saltsman."

Speaker McPike: "Representative Saltsman."

Saltsman: "Yes, thank you, Mr. Speaker. This is a very important project for central Illinois and the whole State of Illinois. The three major hospitals in the Peoria area in central Illinois, in cooperation with the Peoria School of Medicine, University of Illinois, is preparing to go into clinical research, with the three hospitals all involved, and they are looking for a grant from the state for \$3,000,000 to match \$6,000,000 which Congressman Michael is working on now with the Federal Government and, practically, has the money awarded to this area for this clinical research. Many pharmaceutical companies have been encouraged to contribute to this fund. Each one of the hospitals are (sic is) coming up with a million dollars each. With the federal grant of six million, and some way or another, with the state's contribution of three million, this legislation should probably have been in the DCCA budget, but with all the cuts in DCCA, what we would be looking at is, if the Capital Development Board does go into any type of bonding, if they would be purchasing bonds for buildings, this would be a state-owned building at the University of Illinois Peoria School Branch of Medicine, two point four million dollars would be very much awarded toward the amount of money they're expecting the state to kick into this program. I would like to put this legislation on the Governor's desk to give him a chance to look at it and if there are any bonds purchased, this is affordable, and if there are none, then the Governor would

definitely have to veto this legislation during the crunch that we have this year. But, I'd like to have him, the companies involved have been working with the Governor's staff, and I would like to have this be put into the position where we could work on this between now and the Fall Session. I ask for the passage of this Amendment."

Speaker McPike: "Representative Leitch. Mr. Leitch."

Leitch: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I'd like to add my word of support for this very important Amendment. This Amendment reflects a very important collaboration between the federal government, the private sector, the University of Illinois, the hospital community and the business communities of central Illinois to introduce a new pharmaceutical testing...capability which presently does not exist in Illinois, to my knowledge, nor even in many parts of the Midwest. It's a very important Amendment, and this piece also fits with a technology challenge grant piece which has already been awarded, without which the private sector and the hospital pieces do not come together. This is a very massive leveraging of state resources for a very small remodeling project at the University of Illinois School of Medicine in Peoria. It's a very important, innovative project, and I would strongly urge a favorable vote."

Speaker McPike: "Representative Ryder."

Ryder: "Thank you, Mr. Speaker. We stand opposed to this Amendment and all other add-on Amendments, and I'd ask for a Roll Call vote for this Amendment, and each succeeding Amendment."

Davis: "Floor Amendment #4 makes an appropriation to the Capital Development Fund for the Chicago Public Library System. It is in assistance of their removing the storefront libraries that they have started, and this legislation will attempt to help them to continue to remove storefront libraries and be able to have libraries that they're planning already. We ask for a favorable vote."

Floor Amendment #7 to Senate Bill 339 appropriates 1.5 million dollars in General Revenue Funds for costs associated for the Prairie and Farmers Creek System Maintenance Plan by the Greater Water Reclamation District of Cook County. The problem has been created by a state thoroughfare, and this would remedy the situation. I urge an 'aye' vote."

Clerk O'Brien: "Floor Amendment #9, offered by Representative Hannig."

Speaker McPike: "Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. This would appropriate \$600,000 in the School Construction Fund to be matched with \$400,000 of local money to address a school problem in my district. The basic problem is that the school is suffering from...from mine subsidence. Under the current laws that we have on the books of Illinois, or at least that we had until last year, insurance companies would only insure up to \$100,000 per building. So, unfortunately, the district finds itself in a bind, and I would ask for you to help us out with this small appropriation. I'd ask for your 'yes' vote."

Speaker McPike: "Representative Black. Mr. Black? Gentleman's not here. Mr. Ryder. Oh, the Gentleman is here. Mr. Black."

Phelps: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, if I can have your indulgence just for a few moments, I'll be as brief as I can but I need to explain to you what's going on. The Amendment #6 of Senate Bill 629 is now the real Coal Bill legislation that we intend to pass, in Senate Bill form. Most of you remember, just a few days ago, out of this House, we passed 2342 with 110 votes, and I speak on behalf of the coal miners in my area and, I think, throughout the state, that that vote was truly appreciated by the Members of this House. Since then, Representative Woolard, Deering, myself, Hannig, several, with the Coal Association, the United Mine Workers, the utility companies involved in this, with CUB, negotiated as the Bill went to the Senate. There were several items that I'm going to briefly outline that were incorporated in the legislation since it left the House, which did make it better in the eyes of everybody that (sic-who) was negotiating, including CUB; but at this particular point it is not agreed by CUB but it is by all the other parties that (sic-who) were involved in

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

71st Legislative Day

June 24, 1991

negotiations. When it went to the Senate, the Illinois Manufacturers' Association and the Industrial Energy Consumers had some serious questions about the review sections of the Bill, what was used and useful, as well as what CUB had questioned. I believe, as this process has moved on, I've been thoroughly convinced that there have been reasonable compromises that neither jeopardize the Bill, in the intent to save coal mining jobs and to use scrubbers which the Energy Department have (sic has) given us statistics showing it to be even 40% of a less cost than switching to low-sulfur coal and with the industrial user's concerns being addressed also with the construction work in progress, items that have been negotiated and extended in the amount of time for that item, sensitive item, to all of us, has brought this Bill to this particular juncture in point of debate, and I believe that after I outline the items for you on how the Bill did change after it left here, that we should not only get 110 votes, but 118. Number 1, it now prohibits the increase of pre-approved expenditures unless required by change in law and regulations. It extends the period to six months to review proposed increase and pre-approved expenditures. It prohibits the inclusion of non-governmental grants and a rate base. It permits the ICC and other parties to propose changes in compliance plans. It prohibits double charging of transportation costs included in the fuel adjustment clause. Essentially, that's the new items that were incorporated within the legislation as it left here and went to the Senate. The other two items, since it's come back over here in the House, to address the IMA and industrial consumer's concerns, were to, if the rates are increased, require allocation of scrubber costs among customers classes, the three classes: residential,

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

71st Legislative Day

June 24, 1991

commercial and industrial, in an equitable manner according to a fair apportionment of the cost. That was very much of the IMA's concern. That has been addressed and agreed-to in this Bill and lastly, it insures that utilities are entitled to a rate base no more than the lesser of the ICC approved scrubber costs, or in the event that actual costs are lower than the approved cost, then, actual cost. There was some debate on whether the cap would have a chance to be raised, once the ICC approved that maximum cap. What this now says is that it cannot be raised above the cap, with exception of a mandate from the federal or the state level of governments. So, that is extra concerns and protections for the consumers, and with that, I will be glad to answer any questions I possibly can."

Speaker McPike: "Representative Hultgren."

Hultgren: "Thank you, Mr. Speaker. I rise in opposition to Floor Amendment #6. In doing so, I need to state that a week ago or so, when this Amendment was before us on the House Bill, I supported the measure because, at that time, I understood it to be a win-win proposition; but, on reflection, I'm not sure it is a win-win proposition. The Amendment is offered on behalf of the coal miners in southern Illinois, and we're certainly concerned about keeping them employed and on the job, but this, in fact, may have the effect of throwing other workers in the State of Illinois out of work. I come from a district that's heavily dependent upon rail transportation, and a couple of the major Western railroads cross in my district. They're concerned because employees on the railroad may well be thrown out of work, while we put the Illinois coal miners to work, and I think another thing that we need to point out, as we vote on this Amendment today, is Amendment #6, for those people in Illinois Power territory, will mandate a rate increase, and

HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

71st Legislative Day

I don't need to tell those of you who represent those areas of the state, that that's been a cause of concern for us as Legislators, and with this vote today you will effectively be mandating another rate increase for those who subscribe to utilities in your district. For those two reasons, I rise in reluctant opposition to Floor Amendment #6."

Speaker McPike: "Representative Cowlshaw."

Cowlshaw: "Thank you, Mr. Speaker, Ladies and Gentlemen of the House. I...rise to express much the same view as the prior speaker. I realize a good deal of work has gone into this, and I certainly commend everyone who has...who has tried so hard to make this something that...that would be a...that everybody would be...would be really happy with; however, I am told that the Citizens Utility Board is now opposed to this proposal and that the principal reason for that is because the...affected utilities would probably have to have rate increases, as a result of this kind of a program. My constituents are served by Commonwealth Edison, and I think most of them believe their bills are already quite high enough; and, consequently, because I don't want to see the bills for Commonwealth Edison increased, I rise in reluctant opposition to Amendment #6."

Speaker McPike: "Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. I rise in support of this important piece of legislation. We've heard some talk already about rate increases and the sad fact of...is that, regardless of what happens on this Bill, the Clean Air Act that the Congress had passed and that the...President has signed, will probably mean that there'll be rate increases for most utility companies in the State of Illinois. That's a given, unfortunately. But the real question is is, 'Can we save some jobs for the State of Illinois today by passing legislation that will

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

71st Legislative Day

help the coal industry?' When we met with people from Illinois Power and the utility companies, they said that when they looked at the economic costs strictly in dollars and cents, the question of whether to switch to Western coal or whether to install scrubbers was pretty much of an equal question, and I think that if we put this on the table and pass it and give them that incentive, they've committed to us that they will keep this State of Illinois coal industry alive and that they can make the switch economically and they can do it, basically, in the same competitive...way and not at any additional cost than we would have if we switch. So, in my opinion, the real question boils down to not whether we'll have rate increases or not, because unfortunately we're already looking at those, but whether we want to save coal mining jobs or whether we want to see those jobs shipped out to Western states, so vote 'yes'."

Speaker McPike: "Representative McNamara."

McNamara: "Will the Speaker yield for a question?"

Speaker McPike: "Yes. Mr. Phelps."

McNamara: "Representative Phelps, is the...\$35 million still in there from the State of Illinois will go into the \$600 million total, in order to reduce the cost of the scrubbers? Is that correct?"

Phelps: "Yes."

McNamara: "So, that part of it did not change. The \$150 million for scrubbers...there's still a cap on that; that is an estimated cost, and they can bill up to the \$150 million cost per scrubber."

Phelps: "But that wasn't your concern earlier. You were concerned about a...beyond a cap. So, assuming that it would cost 150 and that's the agreed-to amount cap, it cannot be beyond that. So, we did answer your concern from

the last time and the question, if I remember right."

McNamara: "It was also my concern on the \$150 million that they can bill, even though that scrubber would cost \$100 million, they would be able to..."

Phelps: "That's a ballpark figure and so is low-sulfur coal might be \$200 million on your rate base."

McNamara: "But they can still bill up to the \$150 million per scrubber."

Phelps: "The commission sets a cap."

McNamara: "Pardon."

Phelps: "The Illinois (sic Commerce) Commission sets a cap."

McNamara: "...Excuse me. The rate base doesn't go in. This sets a rate base. I just don't want to misinform anybody. This sets a rate base which starts before the commission even has to; in other words, the commission does not have to go in to set that rate base. Or is that out of it?"

Phelps: "That's wrong. No."

McNamara: "You said in your presentation that the scrubber was 40% less cost to use the Illinois coal under this...in this area. Is that true?"

Phelps: "According to the Energy and Natural Resource Department, that have been very good about giving statistics right down to the wire."

McNamara: "Then, if there's a 40% less cost, why don't they use a common principle in business which takes that 40% that they're saving and throw that into the cost of the scrubbers?"

Phelps: "Well, perhaps that could be communicated with the Energy Department. Any way we can save money, we'd be more than happy to talk about it at the hearing."

McNamara: "To this...to this Amendment: There's one thing that is really bothering me about this: we do know that the current technology on scrubbers, first of all, has

87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

byproducts. Those byproducts are sold in the open market. There is a 40% less cost, by the proponents of the Bill, that this...that will be achieved; those are savings. Yet, the full price of the scrubber goes into the rate base. I think it's a very important concept that we must take a look at how to save dollars. I understand the coal miner's plight in the State of Illinois. I think that the people that have worked on this measure have done a tremendous job in trying to get something low, but they are being taken by the utility companies who have gotten the best of both worlds, and what they are doing is, is not only are they charging us for the scrubbers full-price, they're recuperating additional profits not only in the sale of byproducts, but, also, in lower costs. I think this is a bad concept, and I would urge a 'no' vote."

Speaker McPike: "Representative Matijeich."

Matijeich: "Mr. Speaker and Ladies and Gentlemen of the House. Mr. Speaker and Members of the House, before we came into this Session this year, there was virtual legislative hysteria; I mean hysteria over a 15¢ per month increase for our...on telephone bills that would assist those who...who may be poor and need some assistance. There were at least a half a dozen Bills, a half a dozen Bills, to react to that problem. I don't see the same concern by Legislators over what could amount to millions of dollars of overcharge for ratepayers in Illinois. I think everyone of us here, everyone of us here and surely I, want to help the coal miners. All of us here want to help Illinois business. In my record and...in this Session and prior Sessions, there's been 100% for labor interest; however, above that is an interest of consumers, an interest of ratepayers. Even without any legislation at all, we are all aware that ratepayers are going to pay for the cost of scrubbers so

87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

that we can burn Illinois coal, but the issue is should ratepayers pay more than reasonable cost? That is the issue that all of us must address. We should not hurry this Amendment that just came over our desks, and...I filed an Amendment moments ago that cannot be printed in time, and I know that, but neither should we vote on this Amendment hurriedly when it really doesn't do much more for consumers than the Bill that sailed out of here a couple of weeks ago. The fact is that, the Bill that came out of here would have allowed unlimited increases of cost for scrubbers. Now, the Sponsor of this Amendment said that's been changed because there's been put on a cap; there's only allowed one increase, but what he doesn't say is that increase can be of such a limit that it's virtually unlimited anyway. It can be one increase but can it be a very large increase? And so there really can be a...an unlimited, as far as the costs are concerned. Under the Amendment, utilities could recover from ratepayers, that's you and me, unreasonable costs. Under the existing law, which we were very careful to write when we wrote the Public Utilities Act, the ICC reviews expenditures on pollution control devices after, after construction is completed. Now, doesn't that make sense? That's after all the facts are in. This is the most reliable way to determine whether all the costs are reasonable or not, but, under this Amendment, the ICC would approve a guesstimate, a guesstimate of the reasonable costs of the scrubbers before construction begins. Utilities would then recover all costs, up to that guesstimate, or more...or more if they were...persuaded the ICC to increase the cap by that virtually unlimited amount. Even if the expenses were reasonable...were unreasonable, that to me doesn't help the ratepayers and the consumers. I...you know, I've heard

STATE OF ILLINOIS
87th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

71st Legislative Day

some who say...you know, they come from downstate, some have said to me, 'Well, we don't want to pay the costs that...that Commonwealth Edison is going to...have to put on other ratepayers, with regards to this Chicago franchise.' What's the difference if...other ratepayers are going to have pay the costs of this \$35 million grant, and it's a grant, outright grant, and that isn't by the ratepayers, that's by the taxpayers. That is everybody, everybody in the State of Illinois. Now, Mr. Speaker and Ladies and Gentlemen of the House, I know that before we adjourn that we are going to come to some resolution of this Bill. My personal feeling is that, under the existing law, that we ratepayers are going to pay for the cost of scrubbers; under the existing law, we should pay, but only the reasonable costs. Now, what the...what is happening, the public utilities are acting very much like some of these...baseball teams all across the country are doing. They are telling us, 'We're going to go out and get Western coal if you don't subsidize us.' That's what they're telling us, but the fact of the matter is they have not told you that they have already ordered the scrubbers, already ordered them, so they're putting a hoax, a hoax on you so they can get some money out of you. That's what they're doing. Now, before we act on this, I think we ought to hold it up. It's going to be in a Conference Committee; hold this up, but let's show them that we don't approve of them acting the way they do, until they can consider the concerns of consumers and the ratepayers. You can vote 'no' on this Amendment; if you do, you are helping ordinary ratepayers."

Speaker McPike: "Representative Sam Wolf. Mr. Wolf."

Wolf: "Mr. Speaker, I move the previous question."

Speaker McPike: "The Gentleman moves the previous question. The

question is, 'Shall the previous question be put?' All in favor say 'aye', opposed, 'no', and the 'ayes' have it, and the previous question is put. Representative Phelps, to close."

Phelps: "Thank you, Mr. Speaker. While I respect all the comments of my colleagues concerning what we're all concerned about: increased rates in utilities. But the lost fact here that many of us have really seemed to overlook or not accept, I don't which it is, is that when the Federal Clean Air Act became law, it imposed upon the states to comply with the Clean Air Act and the sulfur emissions by 1995. These utility companies are forced to decide now whether to put additional scrubbers, to use our own home-based Illinois coal, or to switch to low-sulfur coal; and, if you would like to finance the schools in Wyoming and Montana, out West, you go right ahead because the federal law did not take into account whether or not rates would be increased. That is a fact. The issue is, right here in your vote, is the least cost of rates to our consumers, and that's you and me, also. I would not be standing here before you to vote for this Bill if I felt like it was not the very best scenario for, not only rates, but also to keep jobs in Illinois, because you have not seen unemployment rates spiral so until you see us fail to hold the jobs that are so sacred to the economy, not only of my area, of the whole State of Illinois. We work very hard to put provisions in this Bill that would establish a process where utilities could not, through persuasion, go to the ICC and say, 'We want to raise beyond the cap.' Representative Matijevec, with all due respect, that cannot happen without a state or federal mandate. It is capped. We already know what the technology of the scrubber can do, about what they cost. They are already a

demonstrated technology. Let 'em work for us. Let's let them help us save jobs for this state. I appreciate your 'aye' vote."

Speaker McPike: "The question is, 'Shall Amendment #6 be adopted?' All in favor say 'aye', opposed, 'no', the 'ayes' have it, and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "Floor Amendment #7, offered by Representative Matijevich."

Speaker McPike: "Representative Matijevich. Has Amendment #7 been distributed? Mr. Clerk? Has Amendment #7 been printed? Alright, the Amendment's not printed. The Sponsor of 629 moves to table Amendment #7. All in favor say 'aye', opposed, 'no', the 'ayes' have it, and the Amendment is tabled. That was Representative Phelp's Motion, to table the Amendment, and the Motion carries. Are there further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Mr. Clerk, read the Bill."

Clerk O'Brien: "Senate Bill 629, a Bill for an Act to amend certain Acts in relation to the use of Illinois coal. Third Reading of the Bill."

Speaker McPike: "The question is, 'Shall this Bill pass?' All those in favor vote 'aye', opposed vote 'no'. Representative Levin, to explain his vote."

Levin: "Mr. Speaker, in explaining my 'no' vote: there is a study that was released today by the Department of Energy and Natural Resources that says it is cheaper for the utilities to go to scrubbers, whether or not we give them this bail-out or not. I urge more 'no' votes."

Speaker McPike: "Have all voted? Have all voted who wish? Have all voted who wish? Representative Kulas."

Kulas: "Just to explain my vote, Mr. Speaker, I have always been

an avid supporter of using Illinois coal, but, in this instance, I think that the coal miners and the unions negotiated away any consumer protections that consumers have had under Illinois law. I think that there...there's still time to work this problem out, and, at the present time, I would ask for more 'no' votes on this Bill."

Speaker McPike: "Representative Hoffman."

Hoffman: "Mr. Speaker, Ladies and Gentlemen of the House. We're voting here today because what the federal government did. We don't want to vote on this. We wish we didn't have to, but they forced it in our laps. The federal government has said we have to make a decision (sic in) Illinois. We have to make a decision whether we in Illinois want to keep Illinois jobs or we want to have utility companies burn Western coal. That's a decision we're making today. Western coal would be more expensive, true; Illinois coal, with scrubbers, would be less expensive. We're saying here today that Illinois companies will use Illinois coal; Illinois companies will make sure Illinois workers stay working; Illinois companies will make sure shopping centers stay open; Illinois companies burning Illinois coal. That's why we're voting here today. It's a good consumer vote. Rates are going to go up because what the federal government did to us. They did it to us. We're reacting to save Illinois jobs. I urge a 'yes' vote."

Speaker McPike: "Representative Hasara."

Hasara: "Thank you, Mr. Speaker. The time to have thought about what we were going to do about this was about a year ago, when Congress was debating the Clean Air Act. Many of us who live in areas in which there are coal mines tried to raise the consciousness of Members of the General Assembly at that time, to the seriousness of that issue. It is too late now. Anyone who thought that the Clean Air Act was

not going to create problems for Illinois was dreaming at the time. You may have thought it was a good idea, many people did, but it is very, very costly to Illinois. Many of you probably don't realize that one of the largest coal mines in the world is sitting about 15 miles south of the Capital, and from there on south, in one mine that leads to the north, thousands and thousands of jobs will be lost without these scrubbers. My motto is, 'There's no place like home,' and let's keep our miners right here at our home in Illinois."

Speaker McPike: "Representative Black."

Black: "Yeah, thank you very much, Mr. Speaker and Ladies and Gentlemen of the House. To explain my vote: Some other speakers have already mentioned that the impact comes from the Federal Clean Air Act, and we'll have to comply now as best we can, and we knew, as Representative Hasara said, it was going to cost us a lot of money; but stop and think for a minute, Ladies and Gentlemen. If you take Illinois coal out of...if you take Illinois coal out of the Loop, do you really think for one minute that the rates on Western coal and the rates that the shippers charge to get the Western coal to Illinois will stay the same? Do you think that they'll go down without competition? The social cost, if we don't pass this, the social cost, the unemployment insurance cost alone, are estimated to be \$36 million and a permanent loss of 10,000 jobs. Now, I don't think any part of the state, any region of the state, can afford to lose 2,000 jobs, let alone 10,000 jobs at a cost of \$36 million, not to mention related social cost. This is a good vote, a 'yes' vote. We must protect Illinois jobs, for without Illinois jobs we don't have to worry about any kind of rate increase."

Speaker McPike: "Representative Hicks."

Hicks: "Thank you very much, Mr. Speaker. Mr. Black, you are absolutely correct, and I don't think I could say it any better than you just did. You know, if you're from the City of Chicago, if you're from Cook County, and if you believe for one minute that this is going to save you money, you are absolutely wrong. Let me tell you, five years down the road, if you pass...don't pass this legislation, whenever the costs come home to haunt you and that's what will happen, the cost of all of your utilities will come back to haunt you, if you think that you can use the Western coal and...be able to save money, you are absolutely wrong. Please, vote for this good Bill."

Speaker McPike: "Representative Deering. To explain your vote, Mr. Deering."

Deering: "Mr. Speaker and Ladies and Gentlemen of the House. Explaining my vote: The emphasis here is on consumers and coal miners. That's not the only point we're voting on here; we're voting for economics, not only for southern Illinois, but Illinois as a whole. There's many retail and wholesale businesses that will gain...lose...should we lose these coal mining jobs, and I would appreciate any 'aye' votes that can be added."

Speaker McPike: "Representative Robert Olson."

Olson: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, this state, this General Assembly, has spent a lot and lot and lot of money over recent years, programs under DCCA, Diamond Star, TIF zones, enterprise zones...anything we could do to create employment. We all know that employment is the backbone of the economy. No jobs, there's nothing. Here, this is more than coal mining jobs. Somebody alluded to transportation a while ago and the railroads that come through his neighborhood; those railroads come out of the West. If this coal is mined in

Illinois and it's needed in another part of the state, the trucking industry benefits, the railroad industry benefits. This is a good job Bill. The return will be much, much greater than any cost. A job is the most precious thing a person can have. Utility bills have to rate second to good employment. Let's have some more green votes up there."

Speaker McPike: "Representative Schakowsky, to explain her vote."

Schakowsky: "Thank you, Mr. Speaker, Members of the House. A 'no' vote is a vote both for consumers and for coal miners. The Department of Energy and Natural Resources report says that, 'Eight hundred million dollars can be saved over 20 years by installing scrubber devices and switching to...rather than switching to low-sulfur coal from Western states.' Assuming this report is true, installing scrubbers would ensure the continued use of Illinois coal, save 2,500 coal mining jobs, plus 7,500 other jobs that rely on coal and save consumers \$800 million. You don't have to choose between coal miners and consumers. A 'no' vote can help both."

Speaker McPike: "Have all voted? Have all voted? Have all voted who wish? The Clerk will take the record. On this Bill, there are 65 'ayes' and 37 'nos'. Senate Bill 629, having received the Constitutional Majority, is hereby declared passed. Returning to Approp. Bills. Mr. Clerk, I believe we left off on Senate Bill 357. Is that correct? It would ensure that housekeeping and home chore service workers are paid at the minimum wage. It's a three point seven million dollar Amendment, but it is the same as #3, which was adopted in committee."

Speaker Keane: "The question is, 'Shall the House adopt Amendment #5?' Representative Ryder."

Ryder: "Thank you, Mr. Speaker. Will the Sponsor yield for a question?"

Speaker Keane: "He indicates he will."

Ryder: "Representative...your Amendment would give a 4 1/2% wage increase. Is that correct?"

Balanoff: "Well, currently..."

Ryder: "Yes or no, Representative. Four and a half percent wage increase?"

Balanoff: "It would bring housekeeping and home chore service workers up to the minimum wage."

Ryder: "Yes or no. Four and a half percent?"

Balanoff: "It would make them be able to be paid at the minimum wage, not less than the minimum wage."

Ryder: "Alright, just for the attention of everybody, and we'll ask for a Roll Call vote on this, as well, this Amendment does call for a 4 1/2% wage increase, so when you all go home and everybody says, 'Why their wages, their programs got cut,' you can say, 'Well, it's too bad, but I did vote for 4 1/2% wage increase on Representative Balanoff's Amendment.' We ask for a Roll Call vote."

In essence, this facilitates the senior home-based meals. I'm very pleased to say that I've been working with Representative Hoffman and other suburban Legislators from the other side of the aisle to preserve the funding levels at the Fiscal 1991 levels, and, if you care about senior services, and if you care about home-delivered meals and community-based services, I would urge an 'aye' vote."

This budget is currently...this budget is currently approximately \$250 million over the level that it came from the Senate. It is in excess of a quarter of a billion dollars out of whack. These Amendments were added on in the committee. We don't have the funds for these Amendments. I can't, in good faith, therefore, support the Bill that, because of the Amendments that were made in committee, have now obligated us to spend a quarter of a billion dollars that we just don't have."

Speaker Keane: "Representative Hannig, for what purpose do you rise?"

Hannig: "Well, thank you, Mr. Speaker and Members of the House. And I would rise in favor of this proposal at this time. We have, in addition to the Public Aid recipients, we have money in this budget for nursing homes, we have money in this budget for the pharmacists, we have moneys in this budget for hospitals, and, quite frankly, we know that this budget is going to conference if we just pass it out of here today; and, ultimately, when we resolve what level of funding we need to drive this budget for the General Assistance programs, we'll...we'll complete that work and put that amount of money in the budget at that appropriate level. So, it seems to me, that we ought to passing this budget today, send it on over into conference where we will resolve the issues with...with all the funding levels, then we'll put the numbers in at the right amounts, and we'll send it back for concurrence and approval and send it to

show. I'm just curious...the records I indicate that you guys have about 100 employees. Is that correct?"

Tenhouse: "...To the Motion: Ladies and Gentlemen, Mr. Speaker, Ladies and Gentlemen of the House. I think we need to realize here that when we're talking about this transfer we're going to...the maker of the Motion himself mentioned we're talking about adding 15 beds. We talk about good government; we're talking about the cost per resident is much higher at LaSalle than at Quincy. The difference occurring in analysis indicates \$4,000 per resident. According to what we're looking at here, this \$400,000 or, it depends on which analysis you're looking at (one says \$257ours shows \$424) there'd be transferred from Quincy would result in eliminating 47 beds. We have 659 residents right now at the Quincy Veterans' Home. They've got 60 out of the 100 capacity, and they're wanting to go up by 15 beds. We're talking about eliminating 47 beds. It just doesn't make sense. It's not good government. You talk about a park project, here we're talking about a situation where we've got a much more efficient location, and we're being talked about taking a \$400,000 hit and eliminating 47 beds so we can pick up 15 somewhere else in the Member's district. I would urge all the Members of the General Assembly to vote 'no' on this Amendment. I'd ask for a negative Roll Call."

Speaker McPike: "Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. This adds \$1,448,510 of which \$605,910 is GRF. These are general claims that have been...decided against the State of Illinois..."

Speaker McPike: "The question is, 'Shall Amendment #9 be adopted?' All in favor say 'aye', opposed, 'no'. The 'ayes' have it, and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "Floor Amendment #10, offered by Representative Hannig."

Speaker McPike: "Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker, Members of the House. This would add \$28,059 of GRF to the Labor Coalition on Public Utilities for work done by the Attorney General. Again, this was...an award made by the Court of Claims, and we need to make these payments, so I'd...I'd urge adoption of this Amendment."

Speaker McPike: "Representative...any discussion? The question is, 'Shall Amendment #10 be adopted?' All in favor say 'aye', opposed, 'no'. The 'ayes' have it, and the Amendment's adopted. Further Amendments?"

Clerk O'Brien: "No further Amendments."

Speaker McPike: "Third Reading. Mr. Clerk, read the Bill."

Clerk O'Brien: "Senate Bill 1341, a Bill for an Act making appropriations to the Department of Veterans Affairs. Third Reading of the Bill."

Speaker McPike: "Representative Giorgi moves for the adoption of the Bill and on that, Mr. Ryder."

Ryder: "Mr. Speaker, apparently we're in the business of giving an entire fleet of Democratic vehicles. This one appropriates the grand sum of \$25.00. As a result, for all the other reasons, plus those that I don't care to articulate, we stand opposed."

Speaker McPike: "Question is, 'Shall this Bill pass?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? The Clerk will take the record. On this Bill, there are 72 'ayes' and 32 'nos'. Senate Bill 1341, having received the Constitutional Majority, is hereby declared passed. Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker. I would move that on Senate Bill 953 and Senate Bill 954, that the deadline be extended until the end of the 1991 Spring Session."

Black: "Thank you very much, Mr. Speaker. I certainly understand the Gentleman's Motion, but I have no idea what the Bill does. If he would enlighten us as to the...underlying Bill, perhaps we could join with him, perhaps not."

Speaker McPike: "Question is, 'Shall the Gentleman's Motion prevail?' All in favor vote 'aye', opposed vote 'no'. Have all voted? Have all voted who wish? Have all voted who wish? The Clerk will take the record. On this Motion, there are 72 'ayes', 38 'nos' and the Motion prevails, and the deadline has been extended until the end of the Spring Session on Senate Bill 953 and Senate Bill 954. Representative Ryder."

Ryder: "I'm wondering if the Chair could be a little bit more specific as to the date of that extension?"

Speaker McPike: "August 30th."

Ryder: "I was afraid of that."

Speaker McPike: "If the Chair could have your attention. The Chair was in error when it declared Senate Bill 629 passed. The Bill requires 71 votes. The Chair would recognize Representative Mulcahey."

Mulcahey: "Thank you, Mr. Speaker, Members of the House. Having voted on the prevailing side, I move to reconsider the vote by which Senate...House Bill...Senate Bill 629 failed."

Speaker McPike: "You heard the Gentleman's Motion. All in favor of his Motion vote 'aye', opposed vote 'no'. Have all voted? Representative Ryder."

Ryder: "Inquiry of the Chair, would you explain the significance of the 'yes' and the 'no' votes on this Motion? I'm sorry, I didn't hear it."

Speaker McPike: "The 'yes' is to support Representative Mulcahey's Motion. Representative Mulcahey, you made the Motion to reconsider the vote, and in order to support Representative Mulcahey's Motion you, vote 'aye'. If you
