Speaker Madigan: "The House shall come to order. The House shall come to order. The Members shall be in their chairs. We shall be led in prayer today by our doorkeeper, Lee Crawford. Reverend Crawford is the assistant pastor of the Victory Temple Church in Christ in Springfield. The guests in the Gallery may wish to rise and join us in the invocation."

Reverend Lee Crawford: "May we humbly bow our hearts. Almighty and eternal God, we thank You for Your many mercies and Your love, Your kindness. I ask that You will save, preserve and bless the Members of this Body. I ask that You grant peace to the peaceless, love to the unloved, wisdom to the unwise, understanding to those who don't understand. For every good and perfect gift comes from up above and cometh down from You, the Creator of life. So, gracious Lord, fill our hearts with joy and gladness and life, both now and forevermore. Amen."

Speaker Madigan: "We shall be led in the Pledge of Allegiance by Representative Churchill."

Churchill - et al: "I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Madigan: "Roll Call for Attendance. Mr. Hannig."

Hannig: "Yes, thank you, Mr. Speaker. Let the record reflect that Representative Shirley Jones is excused today."

Speaker Madigan: "Mr. Cross."

Cross: "Thank you, Mr. Speaker. If the record would reflect that Representative Daniels is excused today."

Speaker Madigan: "Let the record reflect those excused absences. Have all voted who wish? We have two excused absences. The Clerk shall take the record. There being 116 Members

Speaker Madigan: "Please give your attention to Mr. Cross. Please give your attention to Mr. Cross. Proceed, Mr. Cross."

Cross: "This Bill gives judges the authority to suspend a drivers license while a minor's under the control of the juvenile judge. The language in the Bill gave the appearance that or the impression or was read that it would take...could be suspended up to 18. This says it can be suspended for any period of time, not to exceed the period of age 18. I don't know of any opposition. It was suggested in committee. It was a good idea. I would appreciate a favorable vote."

Speaker Madigan: "Is there any discussion? There being no discussion, the question is, 'Shall the Amendment be adopted?' For what purpose does Representative Monique Davis seek recognition? Speaker Granberg: "Mr. Dart. The Gentleman from Cook, Representative Dart."

Dart: "Thank you, Mr. Speaker and Members of the House. House Bill 56 is a result of a statewide subcommittee hearings that we did three years ago involving the Department of Children and Family Services. It was a bipartisan committee that went throughout the state to examine some of the problems. One of the ones that came up quite frequently through foster parents who we had talked to was the fact that foster parents quite often were being given children by the Department and not being informed completely about some of the background of the children and it turned out in some cases children who had had criminal convictions, criminal problems were being put in the homes and no one was being informed about it. What this Bill does is it merely requires that the Department fully inform any and all foster parents of all of the problems that a potential, that child that they are going to put in their home has. The Department contends that...and most often that they do this already, this would make it statutory and this would also insure that it's done all the time, not some of the time. Now I would appreciate a favorable vote."

Speaker Granberg: "Any questions on the Bill? The Gentleman from Kendall, Representative Cross."

Cross: "Thank you, Mr. Speaker. Before I...the Sponsor would yield but before that, I'm joined by the requisite number of people on our side of the aisle to request that this be taken off Short Debate."

Speaker Granberg: "So acknowledged."

Cross: "Thank you. Representative Dart, I know several of us worked on this concept and...but I do have a few question

HOUSE OF REPRESENTATIVES

if we could help clear it up for people on our side of the aisle. Who will be the actual entity, or what agency will be collecting the information that's going to be forwarded on to the foster parents?"

Dart: "The agency that will be collecting it would be any of the agency that the Department, any information that the Department presently has at this time. They would be required to pass it on. In the event that they are subcontracting out, which they probably are, they would be required to inform that group who then would inform the foster parent."

Cross: "Tom, I'm not trying to give you a hard time. I couldn't hear a single thing you said."

Dart: "How it would work, Tom, is..."

Speaker Granberg: "Give the Gentlemen your attention. The Bill is before the House. This is a Third Reading Bill. Representative Cross."

Dart: "Thank you. Tom, how it would work is that the Department has most of this information and the requirement is upon the Department. So, any and all information that they have in regards to this child would be incumbent upon them to take the information, give it to the foster parent. How it would get to the foster parent, though, would depend on the relationship. If it's a DCFS home, they would be in charge of basically giving it straight to the foster parent. If it's an agency home where they are subcontracting out, they would have to give it to the subcontractor who would then give it to the foster parent."

Cross: "Is there any problem...does DCFS get this information from local police? Do they get the background from the state police? How do they end up with the information and do we have any problems with sharing information from the

STATE OF ILLINOIS  
90TH GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES

state police to DCFS?"

Dart: "This in no way would impact the collection of the information as it exists right now. They would only be incumbent upon them to provide the information that they are legally getting at this point in time. DCFS supports this legislation and they contend that they have the information now. Whether or not you and I need to sit down and talk about expanding possible information that they can get, I'm open to doing that. But this does not in any way require them to go beyond their mandate right now and beyond the information that they get."

Cross: "My only concern, and as I said I'm not trying to argue. When we talk about criminal background, does that include a full criminal history, or does DCFS have access to that, of a juvenile's court records?"

Dart: "In some instances they do and in those instances they would have to bring all that information forward. In the situations where they do not have the information, they would not have to do that. But it is my understanding from talking to the Department, they have that information now and that they, as I say, they contend that they provide most of it as it is now. This would just be to take it to the final step."

Cross: "All right. Just a couple other areas, as I said, I know it's a good Bill, it's a good concept. I just want to make sure everyone understands it. Do we have any concerns, or any need to protect the information that the foster parents receive, in terms of their inability to hand this information out? What if they receive information about a kid that's rather inflammatory and they decide not to take that child. Are they prohibited from sharing this information with other people?"

STATE OF ILLINOIS  
90TH GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

27th Legislative Day

March 6, 1997

Dart: "Well, foster parents, and you'll recall you were one of the individuals that devoted a lot of time for this, foster parents are painfully aware of the confidentiality laws and so they are already informed about what they can and can't pass on to other individuals. And in this situation, it would just be a full, like sunshine law, for the foster parents. So, they would get all the information that possibly exists about this child. They would be informed that they still have to comply with all the confidentiality laws that exist right now and so that would not be disseminated any further. Would this impact a foster parent's decision to take a child? Possibly it would and frankly I think that's good because if a family does not want to jeopardize their own family by taking a child in who maybe has been a sexual predator in the past, then I think that they should not have to go through that and learn the hard way."

Cross: "Representative, I think it's a good idea. I think it's something we should have done a long time ago. I'm sorry that we're not ever getting enough focus on this because I think there's a real need for it. I appreciate your help working with DCFS, as well, to have their agreement and I hope that everyone on our side of the aisle supports the Bill. Thank you."

Dart: "And, Tom, thanks for your help on this, too, I appreciate it."

Speaker Granberg: "Anything further? Further questions on the Bill? Representative Dart to close."

Dart: "Thank you, Mr. Speaker, Members of the House. I would just encourage a favorable vote. As Representative Cross mentioned, this came about as a result of a lot of work that both he, myself, Representative Biggert,

Representative Flowers, Lang, and Jay Hoffman, who's no longer here with us, put a lot of time into it. It's something, as Tom mentioned, it's long overdue. I believe that foster parents who are getting children should be very aware of the child they get so that they don't jeopardize anybody else in the household. And I would appreciate a favorable vote."

Speaker Granberg: "The Gentleman moves for the passage of House Bill 56. All in favor shall vote 'aye'; all opposed shall vote 'no'. Roll Call is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Mr. Clerk, take the record. On this measure there are 116 voting 'aye'; 0 voting 'no'; 0 voting 'present'. This Bill is...having received a sufficient number of votes, is hereby declared passed. The Gentleman from Vermilion, Representative Black, for what purpose do you rise, Sir?"

Black: "Yes, thank you very much, Mr. Speaker. An Inquiry the Chair. Pursuant to our new rules, and my compliments to the Chief Clerk on getting the copy out to us in relatively, in a relatively timely fashion. I won't go overboard. I think we did it quicker. But the House Rules would require a weekly or daily Order of Business and I'm looking at the Calendar and it appears that we are on the Order of 'Dart'. Will we have, did you...I don't have a daily Order of business. I just wonder if that's what we're doing today."

Speaker Granberg: "Representative Black, we'd like to go to the Order of Black, but I don't see your Bills on the Calendar."

Black: "I'd like to talk to you about that at some time before we leave today."

Speaker Granberg: "House Bill 66, on the Order of 'Dart', according to Representative Black. Representative Dart, do you wish to call the Bill?"

Dart: "Yes."

Speaker Granberg: "Mr. Clerk, House Bill 66."

Clerk Bolin: "House Bill 66, a Bill for an Act in relation to missing children. Third Reading of this House Bill."

Speaker Granberg: "Representative Dart."

Dart: "Thank you, Mr. Speaker, Members of the House. This Bill also came about as a result of a Committee, the subcommittee hearing that we conducted in 1993. What had come to our attention was that there are numerous children that get lost, and not only in the system in the general sense, but specifically get lost and there is not a complete net for trying to find these children. What this is an attempt to do is to add yet another check, another method by how we can attempt to find wards of our state who are missing. This would require the information that be supplied from the Department of Children and Family Services to the state police and I SEARCH in an effort to make sure that if these children are missing that all these people are informed that they are missing and that they are looking for them. And I'd appreciate a favorable vote."

Speaker Granberg: "Are there any questions on the Bill? The Gentleman from Cook, Representative Durkin."

Durkin: "Mr. Speaker, thank you. I ask at this time that we remove this from Short Debate. I believe I do have the requisite amount of hands on this side of the aisle."

Durkin: "Representative, could you explain to me what the I SEARCH unit is?"

Dart: "It's a network that's operated through the state police which is an attempt to basically find missing children, or missing people. The problem has been, frankly, with I SEARCH, lately, that's it's been horribly underfunded so there are some people that will contend that it is not effective as it is. This does not begin to address that problem. This begins to address the problem that we have wards of the state that are missing."

Durkin: "Representative, I think that what I'm trying to figure out is, is I SEARCH, is that a branch of the Illinois State Police or is that a coordination between local law enforcement agencies and the Illinois State Police or is this strictly an Illinois State Police unit?"

Dart: "It's more of a coordination and it's an attempt to have these units coordinated."

Durkin: "Okay. I have a question. If you look at the Bill under Subsection 7, it reads that, 'their job is to Coordinate the tracking and recovery of children under the custody or guardianship of the Department of Children and Family Services whose disappearance has been reported.' How does that differ from Subsection C, under the I SEARCH Act, which is 325 ILCS40/3?"

Dart: "You'll have to repeat that, I couldn't hear you."

Durkin: "What I'm saying is that you've amended the Illinois Code 32540/3 to indicate, well, you use language to coordinate the tracking and recovery of children under the custody or guardianship of DCFS whose disappearance has been reported."

Dart: "Yeah, Jim I've got it now. The reference is..."

Durkin: "I'm just trying to figure out why this is...it seems

STATE OF ILLINOIS  
90TH GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

like Subsection C is...we've already taken care of that, why..."

Dart: "'C' is close. 'C' makes specific references to runaway children in there. These are not runaway children, necessarily. What's ended up happening with some of these children, some of these children are being taken by their biological parents so they are, in effect, underneath that definition. This is an attempt to close that loophole because, I mean frankly, are there some of the DCFS wards who are runaways? Yes, they are. Are they all? No, quite often they are being taken by their biological parents out of a foster home."

Durkin: "Okay, well then what children are we trying to cover under this legislation?"

Dart: "The reason it was drafted the way it is, is that it's an attempt to make it broad enough so we don't have to go through and put down every single child that we can possibly can imagine here. What it is, there's a specific problem, Jim, with wards of the state. It's a tremendous problem. The numbers did vary depending on whether you're talking about the Department or you're talking about the juvenile court records, whether there's 200 kids missing or whether there's 2000 kids missing. Nobody has a real hard count on it. But we are very aware that there is a problem and particularly with children, not who are just runaways who take off from foster homes, but individuals who are being taken out of homes by biological parents."

Durkin: "Representative, what is the time frame which we are talking about in which someone will be...if someone's been reported missing, is there a time frame in which the I Search unit needs before they will qualify somebody is missing?"

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

27th Legislative Day

Dart: "We aren't changing any of the laws in regards to that right now. What it is, is it's the Department once they become aware of the fact this child is missing, they're supposed to make the information available right at that point. And frankly there's going to be a big, not big, if there is going to be a window of time between a foster parent notifying the Department and the Department getting to I SEARCH. So, it's as soon as they are become aware of it."

Durkin: "So, there's really no limitation. I guess that's left in the hands of DCFS and the I SEARCH unit. Correct?"

Dart: "Correct. We weren't trying to mandate to them and put a 24 hour notice. We're not changing that at all now. We're attempting to have the information as soon as it is obtained to be given to the next unit."

Durkin: "Do you have any idea, approximately, how many children are going to be affected by this legislation? Do you have any idea approximately how many children will be affected by this legislation?"

Dart: "As I say, the numbers vary. The Department contends it's in the 100's, 200, 100 children who are missing. Records which I have received, at different times from the juvenile court listed in the 1,000's. How many exactly, frankly, I don't know, but I know you will agree with me on this, even one child is too many. So, this is an attempt to get whatever the number is, into the data bank and attempt to locate these children."

Durkin: "I've got just one last question. When you say you want to coordinate the DCFS and I SEARCH, what do you mean by coordinate? What type of activities are you asking these groups to partake in?"

Dart: "When I talk about coordinating the tracking and recovery

of the children, is that I SEARCH is going to be...they're going to have to work hand in hand with DCFS. And when I talk about coordination, it was in a broad enough sense so that they'd be able to set up the guidelines as far as how they get the information and then what their plan is, as far as, once they get it, how they're going to go about trying to find the child."

Durkin: "Okay. I'm done. I have no further questions."

Speaker Granberg: "Anything further? The Gentleman from Logan, Representative Turner."

Turner, J.: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Granberg: "He indicates he will. Proceed."

Turner, J.: "Representative, my initial inquiry is why are we passing the statute on this? And why could this not be done by rule?"

Dart: "Why are we passing a statute as opposed...I couldn't hear the end of it."

Durkin: "...as compared to DCFS doing it by their own rules?"

Dart: "Well, to be honest with you, John, there's a new era dawning here where I'm working very closely with the Department on legislation now which is a definite departure from the past. And I'm enjoying that and we've had a lot of fruitful discussions and they are in support of this Bill as they are in other ones. The problem in the past has been, frankly, is that when left to do things by rules, they aren't getting done. They just aren't getting done. And just when...as when we had to change the best interest of the child legislation and some of the other things that people were telling me were common sense all along, it was something where we had to do it because it just wasn't getting done. And as I mentioned earlier, when I was talking to...responding to Jim's questions there, there is

a vast sea difference here as far as just how many kids we believe are out there who are missing. And just that in of itself sort of can lead you to the conclusion that this is something that requires some type of statutory effort. I have had a Resolution in the past, whether or not I proceed with it again, as I say, I'm working with the Department to try to tabulate the exact numbers of these children. We've been in discussions but I don't have a Resolution and now that might be something that might be worthwhile, too, but it just isn't getting done right now."

Turner, J.: "Does DCFS support this measure?"

Dart: "Yeah, they were in committee on this Bill and spoke in favor of it. They feel that they are doing a good job but they don't see any problem with having I SEARCH linked into this. There was a Bill last year which Representative Zickus was a Sponsor of which sort of did it from the other side where I SEARCH was mandated to inform DCFS of children they found. I want to get the other side of it, too, where DCFS when they have children that they're missing that they give it to I SEARCH, too."

Turner, J.: "When you spoke with DCFS about this measure, did you talk to them about the fact that they can simply do it by rule and that you didn't really need to do a statute, if they're supportive of it, and did they indicate why they just don't do so?"

Dart: "No, no, this is something where, frankly, I've had this Bill out there for three years now and I couldn't, it's sort of funny, I wasn't able to get hearings the last two years on it. They came in committee, we never talked in terms of...they never mentioned to me, 'Tom, we can just do this by Rules.' They just said, 'You know we are supportive of your Bill and we think we're doing a pretty

good job now but there's no harm in doing some more.' So, I was fine with that."

Turner, J.: "I don't know if you are having as hard a time of hearing me as I am you, but Representative Durkin had previously asked about the fact that the Bill does not have a time frame as to when the report would be required. I didn't hear your response to that. I'm wondering if you could answer that inquiry and my secondary question after you've done so is, would it not be better to set some sort of time frame up within the statute?"

Speaker Granberg: "Excuse me, Representative. Ladies and Gentlemen, we're dealing with Bills on Third Reading. Please give the Gentlemen your attention."

Dart: "The reason that there was no time frame put in is because we did not to deviate from the present existing formula that I SEARCH has right now in regards to runaways and the whole rest of the gamut there. And you're talking about certain things can and probably should be done by Rules. This was some area where, frankly, I understand very well, very, very well, the problems that DCFS is under. They try very hard in a very difficult situation here. The last thing I want to do is to give them a two hour notice requirement because, frankly, they're not going to be able to get the information terribly quickly at times from foster homes that a kid's missing, from a residential home that the kids run away and stuff. And so that was something I really thought it was really best left to them to put that time frame together."

Turner, J.: "Is there a Fiscal Note for this? And if so, what is the fiscal impact?"

Speaker Granberg: "Mr. Clerk, can you indicate whether a note has been requested and filed?"

Turner, J.: "I'm sorry, Mr. Speaker, did you indicate that a Fiscal Note was not requested on this Bill?"

Dart: "No, it was requested. I've got it in my hand and it's been filed with the Clerk. And it was prepared by the Department on February 6, 1997 and it says that there's no fiscal impact."

Turner, J.: "All right, thank you. That's all the questions I have, Mr. Speaker."

Speaker Granberg: "Thank you, Representative. The Gentleman from Kendall, Representative Cross."

Cross: "Thank you, Mr. Speaker. Will the Sponsor yield?"

Speaker Granberg: "He indicates he will, proceed."

Cross: "Representative, we want to make sure that we get all the questions answered on this Bill. And maybe let's cut to the chase. You mentioned that a former Representative that's no longer with us. Is he part of the I SEARCH Program? And if not, should he be?"

Dart: "Well, actually, we're using I SEARCH to attempt to locate him right now. If you could have any information on that, they would appreciate anything you could provide them with."

Cross: "You know, if I recall from last year there was an alias he used, either Bucky the Clown or something. I might recommend that..."

Dart: "I've got to imagine they've run that through the computer by now, too, and attempted to locate him. And once again, if you would happen to know of any of the normal environments where that person could be found, I think that would be helpful in at least narrowing the search down a little bit."

Cross: "Well, I think we should all work together on that issue because we don't want them to be gone forever. A couple quick questions, though, on the substantive parts of the Bill. And maybe Representative Durkin or Turner asked and I just missed it because of the noise."

Dart: "I'm sure they did. I'm sure they did."

Cross: "The annual report issue. Don't we at this point have some agency or entity that collects or reports to or at least has the information available with respect to the number of children missing?"

Dart: "As I said, Tom, I guess that's one of those things where we could sit here and go back and forth on that because the Department has a system of tracking their children. However, their numbers and the numbers that come from the juvenile court, are very, very different and so this would be an effort of having a relatively neutral third party accumulating that data right now. They would say there is some...there's a lot of people that believe that the numbers are not accurate."

Cross: "What numbers are we really talking about on missing kids?"

Dart: "Therein is where it lies, Tom. It goes anywhere from on the bottom a couple hundred to the top being over 1000."

Cross: "Are we in a position computer wise, or technology wise to be sharing all the information we need to between local law enforcement, state police and DCFS or do we need to change that?"

Dart: "My understanding from the discussions with the Department, this was not going to pose a problem in that way at all. And as I mentioned earlier, in a Bill from last year that Representative Zickus had. She basically had a similar proposition but it was the other way around where she has I

Cross: "Well, I'm prepared to support this Bill. I'm sorry that it hasn't worked yet to help find Rep...the former Representative Hoffman, but nevertheless, I hope this Bill passes. Thank you."

Speaker Granberg: "Thank you, Representative Cross. Anything further? There being no further questions, the Gentleman from Cook, Representative Dart, to close."

Dart: "Thank you. There's been quite a bit of debate on this Bill already so I won't go any further. But I would just appreciate a favorable vote. It's something that would assist in attempting to locate...first establish the number and then locate the number of children who are presently wards of the state. These are children that we're supposed to be taking care of who are missing and so I would appreciate a favorable vote."

Speaker Granberg: "The Gentleman moves for the passage of House Bill 66. All those in favor shall vote 'aye'; all those opposed shall vote 'nay'. The Roll is open. Have all voted who wish? Black: "Well, one moment, let me confer with her. She is prepared to proceed and I stand right here and say, 'let's do it.'"

Speaker Granberg: "That's why we respect you, Representative Black. Representative Klingler. Proceed."

Klingler: "Thank you very much, Mr. Speaker. House Bill 236 is substantially identical to a Bill which passed the House Chamber, unanimously, in the last General Assembly. This Bill relates to a best interest to the child hearing in the case where there is a dispute over the custody of the child. This Bill gives factors that the court may consider in whether or not to grant standing to a nonparent to be able to have information presented to the court and deciding where standing should be granted. These factors include the age of the child, so for instance, the older the child, the more emphasis that would give to the standing requirement. The circumstances of the transfer to the nonparents, 'including any conditions placed thereon by the transferring parents.' And I'd like to point out to the Members that that last phrase 'including any conditions placed therein by the transferring parents' was added specifically when this Bill...after the Bill passed the House last Session to address concerns that perhaps the language was not specific enough. The point 3 is whether the transfer was attributable to economic hardship or

HOUSE OF REPRESENTATIVES

illness. Fourth, was the integration of the child into the nonparents family setting. Five, the length of time the child has spent in the family setting of a nonparent. Six, whether either parent voluntarily relinquished custody, and Seven, whether the child's father, if not married to the child's mother, has acknowledged that he is the child's father. I'd like to point out that granting a best interest of the child hearing has been the long-standing rule in the Illinois Supreme Court prior to the Kirchner decision. And in the hearing that we had before the committee, I referred to a 1985 Illinois Supreme Court Decision that was called 'Inray-Whittington'. In this particular case, a mother had been found not guilty by reason of insanity of murdering her husband and was sent to a mental institution. Her young child was placed with an aunt during this time. Following the release of this person who had murdered her husband from the mental institution, she immediately resought custody of her child even though he was happy in a home for a number of years. The trial court had ordered this child to be immediately returned. There was an appeal and the Illinois Supreme Court said, 'No,' and reversed the trial court. It said, 'In a case such as this, where a child has been in the custody of a nonparent for a substantial time, the best interest of the child must be considered, that the child is not chattel and should not be simply summarily returned.' So, I believe that these factors are in line with what Illinois Supreme Court case law has held. Thank you very much."

Speaker Granberg: "Any questions on the Bill? The Gentleman from Macoupin, Representative Hannig. For what reason do you arise?"

STATE OF ILLINOIS  
90TH GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

27th Legislative Day

March 6, 1997

Hannig: "Mr. Speaker, I rise in support of the Bill.

Speaker Granberg: "Thank you, Representative. The Gentleman from Cook, Representative Dart."

Dart: "Thank you. Will the Sponsor yield?"

Speaker Granberg: "She indicates she will."

Dart: "Representative, in the provisions dealing with requiring the court to lay out specific findings, if they fail to do that, would that be reversible based on that?"

Klingler: "I believe it would do so. Again, Representative Dart, this was added after...the phrase about 'specific findings' was added after we had passed the Bill and when it was on consideration before the Senate. And as you know, the Senate ran out of time at the end. The concern had been raised that there could, perhaps, be a frivolous reason why a custody might be continued with a nonparent. And simply to address that concern, we added the find of specific...the requirement of specific findings by the judge and also tightening up the language about any conditions placed thereon by the transferring parent. So, the argument that had been made that a baby-sitter (sic-a child who is in the custody of a babysitter) is in a custody of a child could be one considered for standing, obviously, would fail these steps because conditions of a temporary custody would be different than someone, for example, having custody of someone while the mother is in a mental institution."

Dart: "Are they going to be required, when you talk about providing the court is supposed to give particular weight to the different things, to the different elements, are they supposed to put in writing how these different things were weighed?"

Klingler: "Representative, I don't believe the court is required

STATE OF ILLINOIS

HOUSE OF REPRESENTATIVES

to go item by item and list every one, but the court is required to consider all of these items in its decision; in the specific findings of fact the court may emphasize one or two factors over the others."

Dart: "Are they limited to these factors here?"

Klingler: "I don't believe so, because if you look at the language it says, 'The court shall consider all relevant factors including,' and then it gives the seven factors."

Dart: "There's no need to put in the language, 'including but not limited to?'"

Klingler: "That's correct. Well, including, I think means including but not limited to."

Dart: "Yeah, I just don't know if you're aware of any court cases or the like where that type of language is magic language that's needed so that they can go beyond these other factors or that the other factors that you're talking about are ones that will be given less weight because they are not enumerated?"

Klingler: "I understand what your question, but I don't believe that that would be a reason for overturning that finding. I really don't."

Dart: "Okay. And the other question I was going to ask you about, you have a provision here about whether the transfer was attributable to economic hardship or illness. Now, would that provision run into any problems, whatsoever, with any case law dealing with how you factor in economic hardship or whether, in fact, you should be able to? I mean in abuse and neglect cases, there are specific provisions prohibiting the taking children based on that. Would this in any way violate the Norman decision or any of those?"

Klingler: "I do not believe so. The reason why this was put in

STATE OF ILLINOIS  
90TH GENERAL ASSEMBLY  
HOUSE OF REPRESENTATIVES  
TRANSCRIPTION DEBATE

27th Legislative Day

was the concern that we not give preference to, for instance, a nonparent that may have more financial resources than a parent who did not have as many financial resources. Obviously, that is not a reason that should be considered as to where the child should go. The relative wealth of the parent or the nonparents."

Dart: "So then the economic factors should...the economic income will not factor in at all?"

Klingler: "That's correct."

Dart: "Okay. Then nothing further."

Speaker Granberg: "The Gentleman from Macoupin, Representative Hannig."

Hannig: "Yes, thank you, Mr. Speaker and Members of the House. I rise in support of the Lady's proposal. I'm not an attorney but I can tell you that when I read cases in the newspaper about baby Richard, when I see cases in my district with a baby Jane, then I know that there's something wrong with the laws that we have today. And that we as Legislators have to make changes in the way we have our judges award custody battles. Representative Klingler has worked with me very hard in the last two years to try to address this problem. We've had this Bill in committee which passed out with no dissenting votes. And I'm here to ask that all Members on both sides of the aisle join us in a bipartisan effort to address the problem of child custodies to see that once and for all that we ensure that the best interest of the child is considered and that to me is the most important reason that we need to have this legislation. I'd like to commend Representative Klingler for her hard work on the issue and ask that each and every Member vote 'yes'."

Speaker Granberg: "Thank you. The Lady from Sangamon,

Representative Klingler, do you want to close?"

Klingler: "Yes, thank you, Mr. Speaker. I urge all of you to support this Bill. I think this is a very good Bill for children. I think it protects them from being abruptly removed from a situation where they have been for a long time and are comfortable, where they're well cared for. It gives those people who best know the child the opportunity simply to present relevant information while a court hearing is in place. This does not guarantee a result but it simply allows those nonparents to have standing. Thank you very much."

Speaker Granberg: "Thank you. The Lady from Sangamon moves for the passage of House Bill 236. All in favor shall vote 'aye'; all opposed shall vote 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Lang, hi. Representative Poe. Have all voted who wish? On this measure there are 107 voting 'aye', 1 voting 'no', 8 voting 'present' and 2 not voting. Speaker Granberg: "The Gentleman from Fulton, Representative Smith."

Smith: "Thank you, Mr. Speaker, and Ladies and Gentlemen of the House. House Bill 380 is a Bill to reallocate funds to the state's Cycle Rider Safety Training Program. This is a motorcycle safety education program paid for by motorcycle owners. It's been an excellent program administered by the Department of Transportation through grants to institutions of higher education. More than 136 thousand people in the state have trained, or have been trained under this program

since its inception which is more than any other state who has a similar program. This program is totally funded by motorcycle owners through their annual registration fee of \$30. Currently \$8 of that \$30 goes to the program. House Bill 380 would raise that allocation to \$10 per registration. Last year the program served approximately 73 hundred individuals but had to turn away approximately 22 hundred others due to a lack of funds and this trend will continue without additional funding. House Bill 380 will prevent further classes from being cut. It will allow for replacement of aging equipment and for the potential addition of new classes. And I would urge a favorable vote."

Speaker Granberg: "Any questions on the Bill? The Lady from Cook, Representative Feigenholtz."

Feigenholtz: "Thank you, Mr. Granberg, Mr. Speaker Granberg. Will the Sponsor yield?"

Speaker Granberg: "He indicates he will."

Feigenholtz: "Mr. Smith, I have a few questions. First of all, about motorcycle safety, how many people are applying to get into these classes every year? Did you say that?"

Smith: "Yes, I did, Representative, about 95 hundred currently have applied. That includes..."

Feigenholtz: "And how many of them are turned away every year?"

Smith: "Approximately 22 hundred, Representative."

Feigenholtz: "So, if I bought a motorcycle and I went to take the safety class which of course I would because I think it's a good idea, and I know these classes are very worthwhile, what would I pay to take this class?"

Smith: "Representative, it's my understanding you don't pay anything to take the class. You pay an annual registration fee for your motorcycle."

Feigenholtz: "How much, but don't you have to make a deposit? Don't you put a deposit down to take this class? Isn't there a fee for the class?"

Smith: "Not to my knowledge, Representative."

Feigenholtz: "Well, from what I understand there is a \$20 fee that is refundable and the interesting thing about it is, is that in most states, in the State of Massachusetts, for instance, people who are taking these motorcycle safety courses are paying \$150 for the classes and their not getting any money back for it. That's my first point. And the second point is, I have some questions. Was there a little opposition on this Bill from a couple of state agencies?"

Smith: "I believe there's opposition from the Department of Transportation. That's the only agency."

Feigenholtz: "And why was that?"

Smith: "Well, I believe, Representative, there was concern that this additional or reallocation of funds would take money away from other programs that the Department administers."

Feigenholtz: "Like what other programs, Mr. Smith?"

Smith: "I believe that the rest of the registration fees go into and there's a formula, into the Road Fund and into the State Construction Fund."

Feigenholtz: "Thank you. To the Bill."

Speaker Granberg: "Proceed."

Feigenholtz: "From what I understand, the Department of Transportation had a Note on this Bill that \$185 thousand was going to be diverted from the Road Fund in 1998 and \$365 thousand for five years after that, which comes, I believe, to the total of \$1.7 million. Now, as I recall, yesterday the Governor was talking about something very, very significant about how, what dire straits the Road Fund

is in, Representative Smith. We have some very, very tough decisions to make. Now I'm sure that the proponents of this Bill, who are so, so committed to motorcycle safety are really trying to do their best to not only maintain the amount of money in the Road Fund so that they could ride their motorcycles on nice roads and we don't get in accidents. But I am concerned about what we are doing here. Thank you very much, Mr. Smith, it's food for thought."

Speaker Granberg: "Thank you. Anything further? The Gentleman from Logan, Representative Turner."

Turner, J.: "Thank you, Mr. Speaker. Will the Gentleman yield?"

Speaker Granberg: "He indicates he will. Proceed."

Turner, J.: "Representative Smith, several of my colleagues on this side of the aisle are concerned about the question of whether or not this is a fee increase. Can you answer that inquiry?"

Smith: "Thank you, Representative, this is not a fee increase. This is a reallocation of the annual registration fee that is already paid by motorcycle owners."

Turner, J.: "What is the annual registration fee?"

Smith: "That is \$30."

Turner, J.: "I'm sorry, I couldn't hear you."

Smith: "Thirty dollars is the annual fee."

Turner, J.: "And how is that allocated?"

Smith: "Currently \$8 of the \$30 goes into the Cycle Riders Safety Training Fund, about \$11 to the State Construction Fund, and approximately the same amount to the Road Fund."

Turner, J.: "Representative, I'm inclined to support your Bill but you've answered my first area of concern. It is not a fee increase. I know that's important, at least, to us on this side of the aisle. One of your colleagues from that

side of the aisle, however, just raised the question a few moments ago and that was whether this depletes an already deficient Road Fund? And I could not, because of the noise in the Chamber, hear your response to her question on that matter."

Smith: "Well, it reallocates out of that \$30 an additional \$2 so I suppose you could argue that that is less money going to the Road Fund but this is money that's being paid by motorcycle owners for a program that is used by them. So, I think it's an appropriate means to increase revenues to this program."

Turner, J.: "Thank you, Mr. Speaker. Thank you, Representative Smith. That's all the questions I have."

Speaker Granberg: "Thank you. The Gentleman from Coles, Representative Weaver."

Weaver: "Thank you, Mr. Speaker. Ladies and Gentlemen, this is a very, very simple Bill. These are motorcycle riders who pay registration fees that want that registration fee money to go into training programs so there are safer motorcycle riders on the highways. It's as simple as that. They're taxing themselves. They're paying their own fees to support this program. I think we ought to do it if you have any interest at all in motorcycle drivers being safe on the highways, it's a very simple vote, vote 'yes'."

Speaker Granberg: "Anything further? There being nothing further, the Gentleman from Fulton moves for the passage of House Bill 380. All in favor shall vote 'aye'; all opposed shall vote 'no'. Roll Call is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? On this measure, having received 111 'yes' votes, 1 'no' vote, 1 voting 'present'. This Bill, having received a Constitutional Majority, is hereby declared

passed. House Bill 72, Representative Fritchey. Mr. Clerk, read the Bill."

Clerk Bolin: "House Bill 72, a Bill for an Act to amend the Private Detective, Private Alarm, Private Security and Locksmith Act..."

Speaker Granberg: "Mr. Clerk, Mr. Clerk, excuse me. House Bill 70. House Bill 70."

Clerk Bolin: "House Bill 70, a Bill for an Act to amend the Illinois Controlled Substances Act. Third Reading of this House Bill."

Speaker Granberg: "The Gentleman from Cook, Representative Fritchey."

Fritchey: "Thank you, Mr. Speaker. House Bill 70 is an Amendment to the Controlled Substance Act. To add ketamine on to that Act as a Schedule II controlled substance. Ketamine is primarily used as a feline tranquilizer but has now become used as a recreational drug among people throughout the United States. In the past three years, ketamine abuse has gone up 700%. In addition to the drug problem caused by this increase in abuse, it has also resulted in the break-ins in numerous veterinarian offices throughout the state. In addition to break-ins in Chicago, there have also been incidents of veterinarian office break-ins in Geneseo, Schaumburg, Streamwood, Elgin, Algonquin, Crystal Lake, and Lake Zurich. The DEA has encouraged the Federal Government to put ketamine on to the Controlled Substance Act. It has not done so, so far. Four states in this country have recognized the problem and the need to address this problem. This is our attempt to address this problem ourselves by criminalizing both the possession as well as the delivery of this drug."

Speaker Granberg: "Any questions? I think the Gentleman from

Vermilion, Representative Black, has questions for Representative Fritchey on his first Bill. The Gentleman from Vermilion, Representative Black."

Black: "Thank you very much, Mr. Speaker. Will the Sponsor yield?"

Speaker Granberg: "He indicates he will."

Black: "Representative, are you a veterinarian?"

Fritchey: "No, Sir."

Black: "In other words, you eat meat on occasion, right? What did I ask you, if you were a veterinarian or a vegetarian. I can't remember."

Fritchey: "I think the former."

Black: "Oh, veterinarian, yes. If you're not a veterinarian, Sir, how are you familiar with this drug?"

Speaker Granberg: "Excuse me, Representative Black, let's give the Gentlemen your attention please, Ladies and Gentlemen, a very important Bill."

Fritchey: "What was the question, please?"

Black: "Yes, I'm curious, since you have indicated you are not a veterinarian nor are you a vegetarian, how are you familiar with this drug?"

Fritchey: "I think it's incumbent upon our duties here to read the newspapers and if you have been following the papers, you'd know..."

Black: "Well, that may be your first mistake, Sir, but continue."

Fritchey: "There have been numerous reports of abuse problems by teenagers with this drug, increased crime resulting from this drug, numerous veterinarian office break-ins. This has been reported both in the Chicago papers and the suburban papers. It has been in the network news. It has been in the national news. This is my attempt to deal with those reports."

Black: "Is this... since you were reading about it in the Chicago papers and the suburban papers, and I learn something every day, I didn't even know the suburbs had papers. I thought they just read the two Chicago papers, but whatever. I don't understand where our young people are getting this drug. What? Do they go to the pet store or what? Where do they get this stuff?"

Fritchey: "That's a very insightful question. As I said, what has happened, in addition to the drug use, you've had numerous related crimes including break-ins into veterinarian offices and you'll note, as I had said before and I'm sure you were paying careful attention, that the majority of these office break-ins have been in outlying areas and not in the city."

Black: "Well, if they break into a veterinary office, obviously they're guilty of breaking and entering, aren't they? That's a very serious crime in Illinois."

Fritchey: "This is very true. However, they are not guilty right now of a possession of a controlled substance."

Black: "Now, I don't even know how to pronounce this. What is this drug called?"

Fritchey "Ketamine."

Black: "'Cat-a-mine'?"

Fritchey: "Ketamine, with an 'e', Sir."

Black: "So, it's for cats?"

Fritchey: "Yes, Sir."

Black: "Is there a drug called 'dog-a-mine'?"

Fritchey: "That's my next Bill."

Black: "And then I suppose we'll get to 'eque-mine' for horses and what have you. I see a real trend developing here, Representative, and I just want to stop this before we get out of hand. I see you're making this violation a Class X

Felony. Holy mackerel, Representative, what is a Class X Felony, what is the punishment if you're found guilty for a Class X Felony?"

Fritchey: "It will be 15 to 60 years and a fine of not more than \$500 thousand."

Black: "Ooooh, I must have been asleep at the switch. An Inquiry of the Chair. Didn't I file a Corrections Impact Note on this Bill?"

Fritchey: "And the Corrections Impact Note was filed as amended, Sir."

Black: "Oh, was it? What did they say?"

Fritchey: "Corrections found this to be, to have a minimal fiscal impact and minimal corrections population impact."

Black: "Oh, that must be why we're going to build a new prison. Evidently, you and the Governor have been communicating on this Bill. Well, I...now let me understand this. The person that's going to be charged with a Class X Felony is the person who breaks into the veterinary office, steals this cat medicine, and then sells it to somebody. Is that what we're talking about?"

Fritchey: "Delivery or intent...possession with intent to deliver of over 30 grams would be a Class X Felony. Simple possession would be two to five years, Sir."

Black: "Well, I have a good friend of mine who is a veterinarian and let me make this clear. I want your intent. If my veterinarian uses this drug on my neighbor's cat, and the cat later dies, are you going to charge the veterinarian with a Class X Felony for injecting the cat with ketamine or is it just going to be a malpractice issue?"

Fritchey: "Oh, I'm sure you're well aware of the fact that veterinarians are exempted from the provision of the Controlled Substance Act."

Black: "Well, as you can hear, the cat-lovers of the world are beginning to rally. Representative, if I go to New York and see the stage production of Cats, and they hand out ketamine into the audience, are they... Currently under New York law, is that a Class X offense?"

Fritchey: "As a matter of fact, Sir, I believe New York is one of the four states that currently has this under the Controlled Substance Act, in addition to California and Oklahoma and Ohio, I believe."

Black: "Well, I have a dog, I don't have a cat, so bear with me. What does ketamine do to cats?"

Fritchey: "It's a tranquilizer, it's an anesthetic."

Black: "Hum, what's the Farm Bureau's position on this Bill, do you know?"

Fritchey: "The Farm Bureau is neutral on this Bill. They have no position."

Black: "The Farm Bureau has no position on a Bill that deals with animal tranquilizers? This can only be used for cats? How about large hog operations? Could we use it in hogs?"

Fritchey: "There is no indication for cattle use or hog use. It is used primarily for cats and additionally for dogs on occasion."

Black: "Well, what happens then...I don't understand, if this is a cat drug, a cat tranquilizer, somehow that just seems like a contradiction in terms, right there, this is a cat tranquilizer and a human being takes it, are you suddenly overcome by a desire to find a litter box or what happens?"

Fritchey: "It's a mild hallucinogen, my friend."

Black: "Well, I noticed that...and of course, all of this stuff happens on the west coast. What in the world is a 'rave' party? I see our staff says that this particular cat drug is being used in 'rave' parties on the west coast. I..."

Fritchey: "Apparently, your staff has too much free time on its hands."

Black: "Well, I think they watch Entertainment Tonight. I have no idea what a 'rave' party is. What does the drug cause people to do? Hallucinate? I mean, do they become violent? Do they purr? Do they want to wrap themselves around your leg? What are they doing here?"

Fritchey: "As Representative Burke has pointed out, I think one of the leading problems is, it puts people into a 'catatonic' state."

Black: "And this comes from the same guy who protects guard dogs for heaven's sake, one of his favorite Bills. I'll tell you, Representative, one last question if you could. With all of the serious problems that face contemporary society today, can you tell me why the Illinois State Bar Association is a proponent of outlawing a cat drug?"

Fritchey: "As a matter of fact, Sir, I don't think I'm in a position to speak for them on this. I'm happy to have them as proponents along with DASA and the state police, though."

Black: "Well, you say the state police has a position?"

Fritchey: "The state police came in as proponents of this legislation."

Black: "Is...Representative, I'm just really curious if you could just share with me, because I've been here a while and I've just...I'm just really kind of bowled over by this Bill. Where did you get this idea? Is this part of the Attorney General's crime package, or what? It sounds like it ought to be a 4-H project or something. Where did you get this idea?"

Fritchey: "Representative, this is just my humble attempt to make this state a little safer for its citizens."

Black: "Well, God bless you, Representative. Thank you for your answers. Mr. Speaker and Ladies and Gentlemen of the House, I don't know if the voters in his district will ask for a recall, if this is his first attempt to make Illinois safer for our citizenry. I...for the life of me, with all of the serious problems, I mean Representative Dart just a while ago fixed I SEARCH and is out looking for missing Legislators. Those are the issues of the day. Now, we come back, a young fellow who wants us to outlaw ketamine. When I first saw this I thought it was part of my One-A-Day vitamin regimen. But I...there are serious issues facing us and here we are early in the Session dealing with a drug that is manufactured for cats, and somehow if somebody breaks into a veterinary hospital and uses a cat tranquilizer to have what my staff says on the west coast is a 'rave' party, they're now going to be a Class X Felon. I...Ladies and Gentlemen of the House, how much further can this go? As Representative Tim Johnson often says on the Floor of this House, 'Why don't we just make every conceivable activity in the State of Illinois a Class X Felony and lock everybody up once and for all?' I'm telling you it's out of hand. Why, Mr. Representative Fritchey, if you had looked at the Governor's budget, yesterday, Sir, you would have seen the Department of Correction's budget is creeping up on \$1 billion a year. We've got to put a stop to this. If somebody is silly enough to take a cat drug, lock them up in a veterinary boarding clinic. I know what you're up to, Representative. You're going to send these cat maniacs to my district and overcrowd my prison. Well, we're on to you, Sir, we're on to you. AFSME will join with me. Not one 'Cat-a-maniac' will be sent to the Danville Correctional Center and shame

on you for bringing this Bill to this Body at this early date. Vote 'no'."

Speaker Granberg: "Representative Black, I understand you want a verification on this if it receives a requisite number of votes. Thank you. The Gentleman from Cook, Representative Lang."

Lang: "Well, thank you, Mr. Speaker. The prior Speaker is just overwrought and frankly, I don't know why anybody would get that emotional over anything on this House Floor. You'll never hear anyone on this side of the aisle doing that. And by the way, I hope those lozenges are holding up that I gave you, Mr. Black. Representative Fritchey, I guess this is your Bill, so could we clear the field here so I could see Representative Fritchey? Mr. Brosnahan, Sir, that's you. Sir, on page 11 of your Bill, Section 10.5, there's something about analogs here. I thought analogs were clocks. Are you outlawing clocks?"

Fritchey: "Not as far as I'm aware."

Lang: "Well, why don't you check out your Bill? What is this analog business?"

Fritchey: "An analog is a derivable chemical variation of the principle chemical."

Lang: "You knew that without reading your paper?"

Fritchey: "Yes, Sir."

Lang: "You know I have to tell you, I don't know if you know this, but all those Republican freshmen we had the last two years, they had to read everything. You knew what that was without reading it?"

Fritchey: "That's why I'm a Democrat."

Lang: "Boy, it's almost like we set that up. That's pretty good. Representative, let me ask you this. This drug is legal for cats, is that correct?"

Fritchey: "That's correct."

Lang: "I have a woman in my district named Delores Cats. I'm wondering, if Delores takes this drug, is she going to be in trouble?"

Fritchey: "That would be a catastrophe which I didn't anticipate."

Lang: "So, we're going to keep doing these cat puns until we're done, right? Okay. So, Delores would have a problem under your Bill? So, it's not all cats, apparently?"

Fritchey: "That's correct."

Lang: "Now, who did you replace in the General Assembly, Sir?"

Fritchey: "I can't pronounce his name."

Lang: "Nor can they in Congress. So, why, if this is such a big, important issue in your district, why didn't Representative What's His Name do that before you got here?"

Fritchey: "I would be reluctant to speak for the honorable Congressman, now."

Lang: "Do you talk to him often?"

Fritchey: "Not really."

Lang: "Good. Has he ever told you the Nixon...oh never mind. Anyway, what Committee did this Bill go to, Sir?"

Fritchey: "This was in the Judiciary II Committee."

Lang: "Do you think that was the appropriate place for it?"

Fritchey: "Yes, Sir."

Lang: "Well, some of the people behind me think this Bill should have gone to the Ag Committee and as an honorary Member of the Downstate Caucus, I think I would agree. Why did you insist that it go to the Judiciary II Committee?"

Fritchey: "I just got here. I'm too young to insist on anything. I just kind of followed my leader's directions."

Lang: "Well, Representative, I'm not going to get as overwrought as Mr. Black, but I have grave concerns about this. Let me

ask you a question just about your Amendment. So, in your Amendment, you changed the term ketamine hydrochloride to just ketamine. What do you have against hydrochloride?"

Fritchey: "Well, going back to the discussion of analogs and derivatives, ketamine hydrochloride is just one derivative of ketamine. The problem has been with the base chemical of ketamine. And so the Amendment was made to correct that discrepancy."

Lang: "Do you have a degree in chemistry, Sir?"

Fritchey: "No, I don't."

Lang: "Well, how do you know all this?"

Fritchey: "I just like to read."

Lang: "Well, good. I have to share Mr. Black's comments on this Bill. I don't think we should have freshmen on the Floor wasting our time. Not only is he wasting our time, Ladies and Gentlemen, but this is a 12 page Bill. It's longer than any of Representative Dart's Shell Bills, and here we are wasting all of this time and all of this money doing this. I think we ought to rethink our position. Maybe 'no' or 'present' votes would be appropriate."

Speaker Granberg: "The Gentleman from Cook, Representative Fritchey, to close."

Fritchey: "You know, I just don't know if there is anything I can say at this point. In all seriousness or in maybe some seriousness, this is a problem which has resulted, as I said, not just in drug addiction, drug problems among many teens throughout the state, but in veterinarian offices break-ins. Far from being opposed to it, the veterinarians have told me that they are encouraged by the Bill, and I would respectfully request the support from everybody on the Floor. Thank you."

Speaker Granberg: "The Gentleman from Cook moves for the passage

Black: "Yes, let me verify Representative Black and give me 30 seconds."

Speaker Granberg: "On this Motion, there being 112 'yes' votes, 1 'no' vote, 0 voting 'present'. This Bill, having received the Constitutional Majority, is hereby declared passed. Representative Lang, one last matter, did you have a Bill on Second Reading you wish to move to Third, House Bill 174?"

Lang: "Okay."

Clerk Bolin: "House Bill 174, a Bill for an Act to amend the State Comptroller Act. Second Reading of this House Bill. No Committee Amendments. No Floor Amendments have been recommended for adoption. No Motions filed."

Speaker Granberg: "Third Reading. Allowing for Perfunctory time for the Clerk, Representative Currie now moves the House Stand adjourned until the hour of 12:30 on Tuesday. For what purpose does the Gentleman, Representative Woolard arise?"

Woolard: "For the purpose of an announcement, Sir, if I may. I had announced that we were going to meet at 8:00 on Wednesday morning in the Subcommittee on Education, specific to Special Education Funding. We're going to be meeting at that same time in (Sic - Room)114 rather than
