Speaker Mautino: "The hour of 12:00 having arrived, the House will be in order. Members and guests are asked to refrain from starting their laptops, turn off all cell phones and pagers and rise for the invocation and the Pledge of Allegiance. We shall be led in prayer today by Wayne Padget, the Assistant Doorkeeper. Mr. Padget."

Mr. Padget: "Let us pray. Dear Lord, we come before You today praying that on this day You grant us wisdom and guidance. We pray that every Representative can come together on one common ground and resolve the issues for the people of Illinois. Let us also pray for the men and women in our Armed Services both here and abroad, provide them with your protection and give them the strength to make it through these tough times. And let us also pray for the men, women and their families who have made the ultimate sacrifice to defend our country. These things we ask in Your Son's name, Amen."

Speaker Mautino: "We will be led in the Pledge today by the Lady from Cook, Representative Williams."

Williams - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Speaker Mautino: "Roll Call for Attendance. The Gentleman from Jackson, Representative Bost."

Speaker Mautino: "The Gentleman from DeKalb, Representative Pritchard is seeking recognition."

Pritchard: "Thank you, Mr. Speaker. Ladies and Gentlemen of the House, today is a very famous day. It was this day back in the early AD^s that St. David performed some wonderful miracles in the Country of Wales. And in honor of that, we celebrate in Illinois the National St. David's Day. And I have Welsh cakes for everyone back in the Skip Saviano's office area. If you would like to take advantage of a little taste of Wales and in honor of that, I am also wearing a daffodil, which is the national color."

Clerk Mahoney: "House Bill 173, a Bill for an Act concerning transportation. Third Reading."

Speaker Mautino: "The Gentleman from McHenry, Representative Tryon."

Tryon: "Thank you, Mr. Speaker. House Bill 173 actually came to me at the request of a constituent, who was an Air Force veteran, who pointed out that we have special plates for

most of our Armed Services. We have special plates for the Navy. We have special plates for the Marines and the Army. And... and we did not have a special license plate classifications for the veterans of the Air Force or members of the Air Force. And he brought that to me and it seemed odd to me, so we filed this legislation. And I realized that we have Coast Guard and a couple of other ones and there was discussion in committee about why not include all the Armed Forces. And I think that has merit and we should go back and discuss that. But certainly, we should have Air Force and I believe they have enough retired members who are currently in the system to actually meet the threshold of a \$100 thousand or 1500 plates. So, with that, I would ask... answer any questions."

Speaker Mautino: "The Gentleman moves passage of House Bill 173. And on that, the Lady from Kankakee, Representative Dugan. Out of the record. Excuse me, Mr. Clerk, place that Bill back on the board. Representative Stephens, on House Bill 173."

Stephens: "Well, thank you, Mr. Speaker. Can we have some order? Not so fast, Representative, not so fast. We yes, I'm talking to you, the Sponsor. The... this is an amazing piece of legislation. You know, some of us have been around a long time, and I am one of those old soldiers. We still wonder why the Army Air Corps doesn't exist. Representative, would the Gentleman yield for a question or two?"

Stephens: "Not your first Bill. Then you should be able to tell me what happened to the brown shoes."

Tryon: "I am sure you're going to tell me what happened to the brown shoes."

Stephens: "And can you describe for me, what shade of blue is that uniform that the... that the Air Force wears?"

Tryon: "I'm sure it's a... it's a royal blue."

Stephens: "Royal blue. Well, it's a... we have some other terms for it in the... in the Army. The only good thing about the Air Force is that they carry paratroopers. And we get out of those planes because there's no such thing as a perfectly good airplane. Don't you agree?"

Tryon: "No, I wouldn't agree. And I'm sure those who served in the Armed Forces under the flag of the United States Air Force would not agree either."

Stephens: "They should still be a member of the United States Army. The Army Air Corps had nothing wrong with it. Jimmy Dolittle flew for the United States Army Air Corps. If it was good enough for Jimmy Dolittle, it ought to be good enough for today's Air Force. Wouldn't you agree?"

Tryon: "I... I would submit to you that the Armed Forces are divided into the categories that we need by the United States Congress and therefore, I support their decision."

So, I rise in support of the Gentleman's Motion. The Army Air Corps was great. The United States Air Force is greater. They deserve their day."

Speaker Mautino: "Representative Cross."

Cross: "Thank you, Mr. Speaker. This is a Bill dealing with concussions at the... specifically dealing with concussions at the high school level. And before I go into this Bill, and I won't take a lot of time, I want to thank a number of people that have been involved in this Bill in trying to package it in a way that makes sense and is practical and is not a mandate on school districts. I also want to thank, Representative Franks, Representative Lang, Representative Davis, who had their own Bills and have said we... we want to work with you, Representative Cross. Senator Raoul, in the Senate, and I have been talking. He has a Bill, Northwestern's been involved, the Chicago Bears, the NFL and the IHSA and you see also Representative Eddy there, he's helped us from a mandate perspective. But what this Bill simply does is says that we need to create a education process, an awareness process at the high school level, so for... so both kids and parents know about concussions, know the repercussions of concussions and what we need to do to protect kids and what we need to do with kids after they have received a concussion. The IHSA is very good about driving that information to the local school districts. It passed out, I believe, unanimously from the Education Committee. I appreciated the questions

there. I would also tell you that this Bill is not done. There are park districts, for instance, that probably need... not probably need to be in this discussion. Senator Raoul and I have talked about that. The folks from Northwestern have as well. And how far we go is... is up to debate, but bottom line is this gets the discussion going and we are hopeful that we can end up with a final product that protects kids in all ages in our state because I think when we were in committee we found out and, as we've been reading around in the newspapers around the... the state, these concussions have... have lasting impact and they are very problematic for kids, both boys and girls, men and women and a lot of sports, not just football, need this education process. So, with that, I'd be glad to answer any questions and that obviously would appreciate a 'yes' vote."

Speaker Mautino: "Gentleman's moved passage of House Bill 200. On that question, the Gentleman from Jackson, Representative Bost."

Bost: "Mr. Speaker, not a question to the Sponsor but just a statement to the Chair. It has been the policy of this House that when the Speaker and/or the Minority Leader speak that we go to a point where... where we can hear, that things are quiet and calmed down out of respect for their position. For some reason we've moved away from that and I would ask that when our Speaker is presenting a Bill that quiet is maintained in this chamber."

Speaker Mautino: "He indicates that he will."

Davis, W.: "Thank you very much. Leader Cross, thank you very much for bringing this type of legislation forward. If, Representative Beaubien would move just a little bit one way or the other I could see... there we go. Thank you very much. I guess in listening and reading what our synopsis of the Bill states, I guess one of my... my broader concerns is it indicates that...that a student would have to be evaluated by an appropriate health care professional before that student can return to the field of play or to that particular sport, at least according to our analysis. So, presumably that's above and beyond a regular... the doctor that would just normally do the physicals for them before they could play. So, I guess, my one concern is a little bit about the cost factor, particularly for lower income districts who... and whether or not they can afford these physicians?"

Cross: "We took that out. It... it was a question that was raised; it's a very good question. Now, that particular language has been taken out because of the... for the very reasons you mentioned. According to our analysis, it indicates that no person may be employed by the Department of Children and Family Services who has been declared a sexually dangerous person under the Sexually Dangerous Persons Act. It says declared. Does that mean that they've been convicted of something? Is this... but it goes on to say declared or convicted. As if to say, the declaration does not necessarily amount to some type of criminal offense or something like that. Could you please clarify that for me?"

Speaker Mautino: "The Gentleman from Rock Island, I believe, on his first Bill."

Morthland: "Yes, Sir, thank you. And Mr. Speaker, I appreciate being recognized. Ladies and Gentlemen of the House, I do wish to bring forward House Bill 1162 for passage. It regards the use of private property, ATVs, and other off-road motorcycles and firearms. Extends the same rights that we have normally when we are on foot on our own properties."

Speaker Mautino: "The Gentleman has moved passage of House Bill 1162. And on that question, the Gentleman from Cook, Representative Lang."

Lang: "Thank you. Will the Sponsor yield?"

Speaker Mautino: "He indicates that he will."

Morthland: "I am sorry, Sir. Could you please repeat yourself?"

Lang: "Sure. Sure. Why is the Nat... Department of Natural Resources opposed to your Bill?"

Morthland: "Sir, I appreciate your question, and I really I think this an excellent Bill. It allows us to keep our... our property rights. You'll notice that it came through Ag Committee with an absolute unanimous vote. We're very pleased with that at the time. Most Bills have not been referred to firearms."

Lang: "I don't think there's been a 'no' vote on the Ag Committee since I served on it, Sir. So... so, I'm going to ask the question again."

Morthland: "Yes."

Lang: "Just so I can get an answer."

Morthland: "Sure."

Lang: "Can you tell me why DNR is opposed to your Bill?"

Morthland: "They have some concerns about possible poaching. However, since poaching almost always exclusively occurs on public people... who are abusing public right of ways already. This really wouldn't increase that risk."

Lang: "And why would the... the Department of Conservation Police be opposed to your Bill?"

Morthland: "I'm sorry that was the Conservation Police."

Lang: "And what... so what about DNR?"

Morthland: "I think DNR is willing to accept a good Bill when it comes through. And I believe that the D... that the Conservation Police are a subset of DNR."

Morthland: "I believe..."

Lang: "It's one opponent."

Morthland: "That's my understanding, Sir."

Lang: "All right. So, can you tell me the... a problem in our society that this Bill is trying to fix?"

Morthland: "Well, absolutely, Sir. As a private property owner and as an ATV owner who actually uses... uses my AVTs in the practice of my profession which is farming. I engage in a lot of activities on our farm, on our private property with our ATVs. This simply would allow us to be able to share other personal property rights that we have on our off-road vehicles."

Lang: "And so, as I understand it, today, under the law, a person who wants to ride an ATV with a firearm in their possession has to be in compliance with something called the Wildlife Code. Is that correct?"

Morthland: "That's right. What we're doing is changing this over from the Wildlife Code to being under the Criminal Code."

Lang: "And what is the practical difference of making that change in terms of where a person might be able to have a firearm on their possession or with them?"

Morthland: "Well, certainly, Sir. I have devices that I can use to carry a lot of implements, at this time, on my all-terrain vehicles. However, since they are not cases, I can't use them with firearms. And this would allow me ab... able to use this same devices that I use to carry other items safely and also, be able to carry firearms, under the proper circumstances as well."

Morthland: "No Sir, only.. it only had to do with the Conservation Police."

Lang: "All right. And do any other states have a similar provision than the one that you're trying to put into our law, Sir?"

Morthland: "Well, it's kind of difficult to understand exactly, Sir, because many states have more loose.. nearly every state has looser resp.. looser legislation in regard to being able to carry weapons than Illinois does. So, consequently, we could end up in an apples and oranges discussion very quickly."

Lang: "And.. so, I noticed in the Bill that the restrictions do not apply if a person is on their own property. Is that correct?"

Morthland: "That is correct, on their own property or the property of another with expressed permission."

Lang: "Now, is that a change you are proposing or is that in the law today?"

Morthland: "It's currently in the law in the sense that those provisions of being able to carry firearms alr.. already in the current law under the criminal statutes."

Lang: "All right. And this is an initiative of the NRA. Is that correct?"

Eddy: "First of all, Ladies and Gentlemen of the House, if I could have your attention, please. I'd like to point out that Representative Morthland, although it's a pretty lame attempt to follow the rule, has attempted to follow the red jacket rule. And Representative, if you would just turn around and show everyone the cute little red jacket that you have on your lapel. Ladies and Gentlemen of the House, if we could, for just a second, is that... does that pass the red jacket test, in your opinion? Those in favor say 'aye', those opposed say 'no'. Well, that's your job. I'm sorry, Mr. Speaker. I didn't mean to... I didn't mean to."

Morthland: "May I... may I respond to the Gentleman's point, Sir?"

Eddy: "No. I do have a question for you though, on the Bill. What... what exactly is... is a off... off-highway motorcycle?"

Morthland: "These are devices that are not licensed for driving on public roads. They do have to... they do have to have a title under Illinois State Law. However, there has always been a... a very fine line between generally an off-road motorcycle and an all-terrain vehicle, which is now generally considered a quad. What we see is that there's a development of these... of these vehicles throughout time. Some actually originally had two wheels. Some for a time

had three wheels. Now, they all have four wheels and yet, they are still common... call them common parlance a bike. Therefore, they are in the family of off-road type motorcycles."

Eddy: "So... so, this Bill would allow an individual to carry a loaded uncased firearm on a... an off-highway motorcycle?"

Morthland: "That's correct, Sir."

Eddy: "So, wo... would you agree that a mini-bike would be a classification of an off-highway motorcycle? A... you know, we used to have these mini-bikes. We rode around on... on trails. Wo... would that be considered an off-highway motorcycle?"

Morthland: "It could be, perhaps, Sir. They're definitely off-highway vehicles."

Eddy: "Okay. So, really what this does is allow people on mini-bikes to carry unloaded weapons that are, I guess, the way the Bill reads, not immediately accessible or in a nonfunctioning state."

Morthland: "This would allow people with all-terrain vehicles and similar devices, four wheelers, whatever you want to describe them, to be able to carry arms on their property."

Eddy: "So, it's not your intention to allow mini-bike operators to carry around weapons..."

Morthland: "Sir, it was not."

Eddy: "...willy-nilly on property. Let me ask you another question, very briefly. Do... do you have to... you say you have to have permission to be on someone else's property with the ATV and the unloaded, uncased gun?"

But I'm not... I'm not really so sure about that. We'll just have to see how the vote turns out, Representative."

Morthland: "Thank you, Sir."

Speaker Mautino: "Further discussion? The Lady from Lake, Representative May."

May: "Thank you. Will the Sponsor yield?"

Speaker Mautino: "He indicates he will."

May: "Yes. And I do apologize because of the noise level. I hope this question hasn't been asked. But I'm trying to ascertain how you meet th... the current laws with an ATV. There is no trunk. The shooters that I know that break down their guns and take them to competitions, break them down and put them in a case in the trunk. So, how do you... what part of an ATV has a trunk or a locked portion that you just can't grab and use it. Would you just explain that and I apologize if it's been asked?"

Morthland: "No, no, the question has not been specifically asked. However, they break those down for a general transport, according to the law today, but also specifically ATVs, by their very nature, are not allowed on public highways. Therefore, everything for transporting on a... on an off-road vehicle has to be applied to, at this time, when one goes into... onto a public roadway which would include having to get the vehicle into the trunk... I mean, the gun into the trunk before."

May: "But doesn't matter, if you're... from... from... I'm concerned with public safety. So, it doesn't matter if you're on a highway or driving across your yard or driving in your

driveway, the concern for me on public safety is how quickly you can access that gun and that ammunition."

Morthland: "Well, again, when we're on public... when we are on public property, then we should be restricted at least according to the current law in regard to our access to these weapons. However, just as when if I am walking across... through my pastures, I... if I have a weapon with me, I can have immediate access to it. However, if I am driving through my pasture on my ATV, I can't."

May: "But you also are lifting any safety precautions. So, I grew up downstate and I'm very familiar with pastures, but now I live in a suburban area. The closest thing we have is a park district. It may have soccer fields. It may have baseball fields, and all. So, if someone we're to take an ATV across the soccer fields, across the park district, they would not have their gun locked up or inaccessible. Is that correct?"

Morthland: "No. This... this law would not make that change. In fact, if you'd look at the statute as it stands un... and in part we are not amending, what you find are that there are significant restrictions for going near basically anything with public access, such as a park, such as even a swimming hole or an ice... a frozen over lake that someone would be going to be ice-skating on. If there's a place that a... that a... that a pond has cleared for ice-skating an operator of an ATV can't get close to that anyway. So, we are all already very restricted and that doesn't change."

May: "Okay. But if you're out in a pasture and I am the owner of that farm and have allowed the local 4-H club to come

out and pick mushrooms or to pick daisies or something, if they came across this ATV with the firearm in it, wouldn't... wouldn't their public safety be compromised? Maybe they would be throwing their wrappers or they would be a dropping their lunch pail or something that might antagonize them. I'm concerned with the public safety. So, even if it were a park or something or that, but you could have an open field that had people who were entitled to be there."

Morthland: "Again, according to the statute, as it will remain unamended, there are severe restrictions for the... the ATV owner is responsible for all liability. So, it's still responsible under the law for everything that happens. An ATV is actually quite a dangerous device, whether or not it has a firearm on it. There are severe injuries and other things that can occur. And there are tremendous safety responsibilities already written in the law that are incumbent upon the owner and operator of the vehicle. And these still continue to be in place whether or not we allow this on private property. They're already dangerous. I wouldn't want a 4-H club being able to jump on an ATV and ride it anyway."

May: "I'm not talking about that. I said if someone, an adult who were riding an ATV, but you do bring up a very good point about the dangerous nature of an ATV. Could you just answer for me or clarify for me the age that is required to ride an ATV and whether my kids, when they were younger, had a Spree that they... that they rode. What is the age restriction for riding an ATV?"

STATE OF ILLINOIS
97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

21st Legislative Day

Morthland: "The age restrictions for ATVs are... per... pertain to the size of the vehicle. There are little ones made for little people, big ones made for big people and all of the responsibilities that would normally fall to any other owner or operator of a firearm would also apply and would not be preempted by changing to allow transport on the all-terrain vehicle."

May: "So, a little child riding a little ATV could be driving around with a... a firearm in a non-locked..."

Morthland: "Little children... little chil... little children are not generally allowed to possess firearms, unsupervised."

May: "But... so, if they have a little child with a little ATV, how do we know that the supervising adult is following along?"

Morthland: "Well, again, I appreciate the question, but as in... in all of the cases, when you have multiple over-lapping laws that are already in place and all we're doing here is allowing for one re... one loosening, which is for those people who are already legally operating ATVs and/or legally able to be in possession of firearms on private property. The... all we're doing is allowing a heretofore intersection of those that would still be relevant to all the other... other elements of the Code in other respects."

May: "But do the elements of the Code about accessibility of firearms apply to the accessibility on an ATV?"

Morthland: "Those people who can legally carry firearms on their own property at this point in time without the mechanical vehicle, such as an ATV, would still be allowed

97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

21st Legislative Day

to do so. Those who cer... can't under this form... under the law at this time would not be able to."

May: "So, the restrictions that we have in place about accessibility and breaking down a gun and not having it loaded would be overridden, it seems, by the way you're describing this, would be overridden by the part... just merely by the fact that they are riding on an ATV."

Morthland: "No. The... the same... what this is, if... if you were... if you are someone who owns a firearm, you can carry it on your person on your property. This extends those same rights that already exist to that one type of vehicle. This isn't overriding the preemptions against people using firearms in different situations."

May: "So... but I... I still think that we are skirting the law that the protections that have been put in place of someone driving a vehicle and having it not be accessible, not be broken down, not be in a trunk. It's really, I guess, we miss Representative Bill Black and him talking about the slippery slope. But this really thinks, it seems to me, that we are starting a slippery slope here. That we are allowing someone to ride on a vehicle with a firearm that is accessible. I am concerned about the public safety and while you've explained some of the parts about lakes and schools and parks and all, accidents can happen and people can be provoked even on private property, even on their own property, even if they're staying away from lakes. So, I... I do have concerns that we are endangering safety of the citizens of the State of Illinois. But thank you for your indulgence and trying to answer my questions."

Speaker Mautino: "The Gentleman from McHenry, Representative Franks."

Franks: "Thank you, Mr. Speaker. This Bill was brought to me by a constituent. I had the support, unanimously, in the committee in which it was presented. What this Bill would do is it would require school districts to share criminal background information for a year. And the reason for this, is oftentimes we have people who come in to work in the schools who work in the trades. And if you're working in one school and they've already done the criminal background check, we'd like to be able to have that transferred if they were asked to work in another school, as well. So, it's a way to help expedite people so they can work and save money at the same time for all of those involved. There's been no opposition. Be happy to answer any questions."

Speaker Mautino: "The Gentleman from Crawford, Representative Eddy."

Franks: "No. There's no requirement too. And what we're trying to do is to... if someone, if you're a small business owner and you're asked to work at a school, you have to have a criminal background check before you can get in there to do some... you know, to fix the plumbing, whatever

STATE OF ILLINOIS
97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES

it might be. So, in my town, for instance, in Marengo, there are three separate school districts. Before that same guy can, same plumber, can go over and work at the high school after working at the grade school, you have to go get another criminal background check, which would slow it down, be expensive. And this way, we're saying share these, they're only good for a year. So, they'd have to keep doing them every year in case there was... anything should pop up. But this is a way that the governments would have to cooperate with each other, the different taxing bodies and to share this information."

Eddy: "Okay. So, the school districts receive clearance from... usually through a Regional Office of Ed who... who does the criminal background check, initially. And that's good at any school in a region, but this extends that so that you can share it with the community colleges, as well?"

Franks: "Yeah. I think so."

Eddy: "Because I think the situation you described where someone can work in a grade school and a high school and it... that they can work under the same background check, but this would allow that information to be shared with the community college that would also require background checks so they don't have to have a separate one."

Franks: "I think the burden would probably be on the trades person to say, you know what, I've just done a criminal background check with, you know, School District 165. Please call them and get a copy. I mean, that'd be the easiest way to do it. I mean, I know of certain municipalities in my area that have... have set these codes in place and they're enforcing these already. So, why do we need to do it in State Law?"

DeLuca: "Well, from what I understand and I have heard some of those stories, that there are some non-Home Rule communities that have an ordinance such as this, but this would give the ability for non-Home Rules to enact an ordinance which by statute now, they do not."

Bost: "Okay. Here... here is and... and maybe this is a question that we need to maybe ask the... the people that are... are more into this or are for the local municipal law. Unless we have a State Law that prohibits, I thought that... that

even a non-Home Rule municipality can pass certain ordinances and I thought this is one that they would be able to pass without you know... and I... I'm going to support the Bill, I... I want to be clear on that... but... but I really thought that there are many things that we can do in our own communities by passing existing local law..."

Speaker Mautino: "Excuse me, Representative."

Speaker Mautino: "I'd like to ask the Members to bring the noise level in the chamber down, please. Staff, if you're having other conversations, please bring them to the back. Give the Gentlemen your respect and attention. Continue."

We've got to codify this and you think there's other things out there?"

DeLuca: "Do I think that there's other things out there?"

Bost: "Well, for instance, like I said, I... I know a lot of communities that set these rules in place. If you're inside the city limits or on the main streets of certain communities throughout my district, the local municipalities passed laws and those local police officers enforce those laws, if the stereos are blasting too loud or... or whatever, noise... noise pollution levels."

Speaker Mautino: "Further discussion? The Gentleman from Cook, Representative Durkin."

Durkin: "Will the Sponsor yield?"

Speaker Mautino: "Yes."

Durkin: "Representative, are we giving these municipalities complete authority to determine what the decibel level that they are going to choose that would be the threshold for violation?"

And I necessarily will have to play things louder in my car whether in... and I'd hope that... and sometimes it's very loud. I think that... I'm going to support your Bill, but I think one thing that would be good to do, if you pass this, is look to see if whether or not there's any type of national standards or some type of level in which municipalities or governments are using which establish a decibel level. I think by giving them just blanket authority to determine what a decibel level is, which would be a violation, we're going to have inconsistencies like we have in different municipalities when you're driving from one to another. And people have criticized some of the gun laws we have because we have different types of regulations

noise and all sources. Your Bill is more specific and provides for specific device regulation which would not necessarily be assumed to be able to be done under the non-Home Rule municipality. Is that correct?"

DeLuca: "Yes, that's correct."

Fortner: "So, for the Members, I think that's a important thing because many of us are used to saying, well, gee, the municipality has some sort of noise ordinance in general. And that may be the case, but this provides uniformity for Home Rule and non-Home Rule municipalities when it comes to regulating specific devices that may be producing the unwarranted noise levels. So, I thank the Representative for bringing this Bill forward and will be supporting you."

Speaker Mautino: "Further discussion? The Gentleman from Lake, Representative Sullivan."

And I think the intent here is blasting music, going down the street or in a home. Is that correct?"

DeLuca: "Yes, that is correct."

going with this is, it seems like this might be a little broad for some of these folks out there in... in the state where... could this be abused? Can we start regulating the type of devices that you have? Or... or other types of things because, as this is written, you're giving them carte blanche to regulate devices as opposed to the output, which is your... your intent."

DeLuca: "Well, it's certainly not the intent."

Sullivan: "I... I understand that, but you know, that's why we're here debating the Bill. And in... in my opinion it seems like it might be a little broad."

DeLuca: "Well, that is why the sound devices is specifically described so that there would not be any ambiguity: radio, tape recorder, cassette player, any other device for receiving broadcast sound or reproducing broadcast sound..."

Sullivan: "The... the point..."

DeLuca: "...is what sound devices as described as."

Sullivan: "...and... and I agree with you. You've narrowed it down to that. But the point is, could they regulate something other than the output? Could they regulate the type of or the product? Maybe you have a mayor that has a... an interest in a certain type of device and he could say we're only going to allow those in my town. It's a far-reaching..."

DeLuca: "Yeah."

the unintended consequences are, but I don't believe there's any in this because it's specifically states what the purpose is. And this is about..."

Sullivan: "Well, it doesn't..."

DeLuca: "...the reproducing sound."

Sullivan: "...nowhere in here does it say we're going to regulate the output of the device. It just says the device. And your intent is the output of the device. And not in one... one part of this enacting piece of legislation does it say the output of the device."

DeLuca: "I didn't hear your last question. I'm sorry."

Sullivan: "Well, I'm reading the legislation. It's one, two, three, four, five lines and nowhere in the legislation does it say we're going to regulate the output of the device, what you're trying to get at here. I understand the intent but nowhere is your intent written in language."

DeLuca: "Well, the device for receiving broadcast sound or reproducing broadcast sound that is the output. That is the description of the output. Doesn't use the word output, but reproducing broadcast sound is the output."

Sullivan: "That... that and that's what you're... what you're asking is to make that jump that that's what you want. And I... and I, listen, I'm not trying to completely attack your Bill here. 3/1/2011

Sullivan: "Thank you, Mr. Speaker. A point of personal privilege."

Speaker Mautino: "State your point."

Sullivan: "As we all know, next week begins Irish Week and the annual celebration of all that is Irish will take place on Tuesday, March 8. The Sullivan Caucus will be having an annual event and fundraiser to benefit certain charities. We will... take place 5 to 9 at Floyd's Thirst Parlor. Please come and enjoy all that is Irish. Thank you."

Speaker Mautino: "The Gentleman from Cook, Representative Will Davis."

Davis, W.: "Thank you, Mr. Speaker. Representative Sullivan... Representative Sullivan, I thought the... I thought the week after was Irish Week?"

Speaker Mautino: "Representative Sullivan."

Sullivan: "According to my colleagues that are in the Italian Caucus, they believe that is Italian Week, the week after. I realize that we have a certain date on March 7... 17, but we've decided to go up a week early, is the understanding."

Davis, W.: "So... so, the Italians forced the Irish to move their week."

Sullivan: "It is amazing how that happens."

Davis, W.: "I was... I was just curious. Thank you."

Speaker Mautino: "Mr. Clerk."

Clerk Mahoney: "One committee time change for tomorrow. The Elementary & Secondary Education Committee that was to meet tomorrow at 8 a.m. is now meeting at 9 a.m. in Room 114. Elementary & Secondary Education meets at 9 a.m."

Speaker Mautino: "Agreed Resolutions."

Clerk Mahoney: "On the Order of Agreed Resolutions is House Resolution 115, offered by Representative Cross. House Resolution 121, offered by Representative Monique Davis. House Resolution 122, offered by Representative Durkin. House Resolution 123, offered by Representative Reboletti. House Resolution 125, offered by Representative Jakobsson. House Resolution 126, offered by Representative Bill Mitchell. House Resolution 127, offered by Representative Currie. House Resolution 128, offered by Representative Currie. House Resolution 129, offered by Representative Currie. House Resolution 130, offered by Representative Madigan. And House Resolution 133, offered by Representative Madigan."

Speaker Mautino: "Representative Currie moves the House adopt the Agreed Resolutions. All in favor say 'yes'; opposed 'no'. Opinion of the Chair, the 'yesses' have it. The Agreed Resolutions are adopted. And now, allowing perfunctory time for the Clerk, Representative Currie moves the House stand adjourn 'til Wednesday, March 2 at the hour of 12 noon. All in favor say 'yes'; opposed 'no'. The 'yesses' have it. And the House stands adjourned."
