97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

110th Legislative Day

3/6/2012

Speaker Mautino: "The hour of 12:35 having arrived, I'd like to call the House of Representatives to order. We shall be led in prayer today by Pastor Wesley Dickson, who is with the Crossroads Faith United Methodist Church in Bolingbrook, Illinois. Pastor Dickson is the guest of Representative McAsey. Members and guests are asked to refrain from starting their laptops, turn off all cell phones and pagers and rise for the invocation and the Pledge of Allegiance. Pastor Dickson."

Pastor Dickson: "Let us pray. Most gracious Lord, we thank You for the opportunity to gather here and to serve the great people of Illinois praying that Your presence would fill this room today in a powerful and profound way. And as we go about the business that is placed before us, we would ask for a renewed sense of joy in our service, purpose in our tasks, and clarity in our vision, so that are work may be accomplished well and our decisions made with Your guidance. We recognize that much of what we do is not nearly as easy as making the call between good or bad, not as easy as fair or foul, and so often our work is really the difference between something good and something better and it is frequently difficult to discern between the two. We sometimes find ourselves with knowledge that cannot be shared and we often are burdened with unjust criticism. You are well aware of the places where we struggle the most both personally and professionally and so we ask for Your peace. We pray that You would equip us to be free of unnecessary burdens, that we would be able to easily serve You well working as if everything depended on us and

praying as if everything depended on You. We also recognize our limitations knowing that we are never fully aware of the long reaching implications of our work, and so we boldly ask for Your wisdom. Keep within our mind's eye the many people that have elected us granting us peace in representing them, patience in working with them and perseverance in our adversity from them. Grant us the chance to clearly articulate broader visions to our constituents, so that we can feel as though we have truly been heard. Give us also the opportunity to honestly say at the end of this day, that regardless of those who would oppose us, we really have given our very best. You are the one who searches our heart, the one who knows what really resides within and the one who chooses to love us anyway. And so, we offer up these and so many other petitions to You handing them over and trusting in Your constant and faithful presence. In Your holy name we do pray, Amen."

Speaker Mautino: "We will be led in the Pledge by the Gentleman from Saline, Representative Phelps."

Phelps - et al: "I pledge allegiance to the flag of the United States of America and to the republic for which it stands, one nation under God, indivisible, with liberty and justice for all."

Clerk Hollman: "House Bill 4521, a Bill for an Act concerning residential mortgages. Second Reading of this House Bill. Amendment #1 was adopted in committee. Floor Amendment #2, offered by Representative Colvin, has been approved for consideration."

Speaker Mautino: "Representative Colvin on Floor Amendment #2."

Colvin: "Thank you, Mr. Speaker. House Amendment #2 is technical in nature as it seeks to further define a couple of titles in the Bill dealing with terms of exempt person and loan originator and clearly defining the difference between the two in this Bill. I would.. if you could adopt the Amendment, I'd be happy to explain the Bill in entirety on Third Reading."

Speaker Mautino: "The Gentleman has moved adoption of Floor Amendment #2. Are there any questions? Seeing none, all in favor will say 'yes'; opposed say 'no'. In the opinion of the Chair, the 'yesses' have it. Amendment #2 is adopted. Mr. Clerk further Amendments?"

Representative Brown. Excuse me. House Bill 4020,
Representative Lang. Mr. Clerk, read the Bill."

Clerk Hollman: "House Bill 4020, a Bill for an Act concerning
gaming. Third Reading of this House Bill."

Speaker Mautino: "The Gentleman from Cook, Representative
Lang."

Lang: "Thank you very much, Mr. Speaker, Ladies and Gentlemen.
House Bill 4020 does not expand gambling. I want to say
that one more time. House Bill 4020 does not expand
gambling. It changes the regulatory authority for
charitable gaming. We've all been to Las Vegas nights and
Bingo nights and charitable card nights. This removes the
regulation from... of this activity from the Department of
Revenue and moves it to the Gaming Board. Now, you all know
I'm not a big fan of the Gaming Board, although they're
doing their job much better, but the fact is that the
Department of Revenue would tell you that they don't have
the people available, the bodies available, the regulatory
authority available, to do the work that the statute
requires and the Gaming Board does. So, basically that's
what this Bill does. It does a couple of other small
things. It allows venues to have more licenses, but this
does not mean more games. It just means that a good
location can go from 4 Las Vegas nights a year to 12 Las
Vegas nights a year, but it does not increase the number of
total Las Vegas nights that we could have in the State of
Illinois and therefore, does not increase gaming. It's
simply a regulatory Bill. I would ask your support."

Zalewski: "Thank you, Mr. Speaker. We discussed the Bill last week. I pulled it out the record as a courtesy for... to the Gentleman from DuPage. I ask for an 'aye' vote."

Speaker Lang: "Gentleman moves for the passage of the Bill. On that question, the Chair recognizes Mr. Reboletti."

Reboletti: "Thank you, Speaker and I'd like to thank the Sponsor for taking this out of the record and giving me an opportunity to talk to him about it. And I've had occasion to talk to my state's attorney and to the State's Attorney of Will County who are vehemently opposed to this legislation. And let me talk to you about it from my perspective and experience as well as what it will happen with respect to criminal investigations across this state. The first thing is that when a search warrant is returned,

STATE OF ILLINOIS
97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

110th Legislative Day

3/6/2012

the search warrant has a list of what was retrieved, and it always isn't returned within eight days and there are numerous reasons for that. If the information contained in the search warrant were made public, there are issues with confidential informant's information being determined. When confidential informants come forward, there may be continuing investigations not only on the target of the investigation but other people that an investigation may then lead to. So, that is going to hamstring investigators. When an investigator knows only the information from the search warrant and only the suspect may know that, but now the media knows that. Now potential jurors will know that and that takes away that element of surprise from the investigators. I would also point you to Supreme Court Rules 306 and 308, which deal with what prosecutors can say to the media and what prosecutors must do to prevent law enforcement from speaking to the media as well. We also need to look at the Sixth Amendment rights of a defendant's right to a fair trial. You have the potential to take jury pools way before anything goes to trial and the media will have the same information as a defense attorney maybe even sooner because the person, the defendant, may be looking for a lawyer and the media will already have information his lawyer would not. Returning these search warrants in eight days would be an egregious burden on the state and also not only turning over what's in the search warrant but making available the items to be seized would be also detrimental to an investigation. What this will lead is that every search warrant will have to be sealed and if

STATE OF ILLINOIS
97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

110th Legislative Day

3/6/2012

every search warrant is sealed, there's only a matter of time before there are lawsuits to open up the sealing of those search warrants. So, I would ask this Body to vote against House Bill 4032. That it... it's one thing to turn over the affidavit to which the reason a search warrant is given, the basis of the probable cause but that not everything else is turned over. I think this is a public safety risk. It will put agents and confidential informants in jeopardy. And I would ask for your 'no' vote. Thank you, Mr. Speaker."

Speaker Lang: "Mr. Durkin."

Durkin: "Thank you. To the Bill. As well-intentioned as the Sponsor is... like myself and Mr. Reboletti, we both have some experience in our past lives dealing with search warrants and the execution thereof and also using the articles that have been recovered from a search warrant and understanding full-well that there is a legitimate concern about the identity of individuals or confidential informants who play a very large part of this process. As unseemly as they are, they do provide a value to law enforcement, but this cuts both ways as well. Now, when you have information or documents or... or any type of evidence which is recovered and if that is subject somehow that is going to be disclosed, that could harm a defendant's case. Everything which is recovered from a search warrant doesn't mean it's necessarily going to be admitted in a courtroom. Evidence which could be damning against an individual could poison a jury pool and also the presumption of innocence will be destroyed in some of these cases. I think that this

STATE OF ILLINOIS
97th GENERAL ASSEMBLY
HOUSE OF REPRESENTATIVES
TRANSCRIPTION DEBATE

110th Legislative Day

3/6/2012

goes too far. I think it does have a compromising effect upon due process and also about ensuring that there's a strict compliance with the Supreme Court rules but also ensuring that both the prosecution is able to conduct a thorough investigation without compromising their case but also it has the effect of possibly challenging a defendant's right to a fair trial if that information is disclosed but it is not admitted into evidence. I would urge a 'no' vote."

Speaker Lang: "Mr. Zalewski to close."

Zalewski: "Thank you, Mr. Speaker. I certainly appreciate and respect the previous two speakers concerns about the Bill they log... logged a lot of times in courtrooms and I know their commitment to the administration of justice is strong, but just a point of clarification on a couple of things. This is already the existing law. If you believe that an Attorney General opinion has any weight whatsoever in a courtroom, then you should vote for this Bill. If you believe in the Freedom of Information Act and think that certain matters should be available under the Freedom of Information Act, then you should vote for this Bill. There is simply no reason to keep these records sealed unless a judge deems it so. This is a good piece of legislation. It's been thoroughly thought through. I can understand the concerns expressed on the other side and I'll... I'm perfectly open to continue dialogue going forward to address those concerns, but at this time this Bill has, I believe, what's necessary to pass. I ask for an 'aye' vote."

Please read the Bill, Mr. Clerk."

Clerk Hollman: "House Bill 4078, a Bill for an Act concerning transportation. Third Reading of this House Bill."

Speaker Lang: "Mr. Winters."

Winters: "Thank you, Mr. Speaker. House Bill 4078 is virtually identical to the Bill that we passed last year. The Governor did have one addition to the Bill, which would have final signoff from him. This would allow the Toll Highway Authority the power to build railroads on their current right-of-way. It does not allow any highway money or IDOT money to be used in that. They would then be able to turn around and lease that to a rail firm. There has been some interest expressed by the French National Railway in a major investment in the Midwest with a potential for a major maintenance facility in Rockford using our heavy metal working and aeronautical engineering skills. This would allow on I-90 high-speed rail between Rockford and Chicago where the hub for the Midwest network would be. I would urge its adoption."

It makes a minor technical change to the Code of Corrections pertaining to what DOC places in the master file they maintain on each prisoner. The master file is defined by statute, so any changes DOC wants to make to the contents of that file need to be done through legislative action. Clerk Hollman: "House Bill 4660, a Bill for an Act concerning transportation. Third Reading of this House Bill."

Speaker Lang: "Mr. Tryon."

Tryon: "Thank you, Mr. Speaker. House Bill 4660 takes the requirement that all passengers have to wear seatbelts even in the rear seats as they do in the front seats and it exempts limousines from that requirement. That was inadvertently left out of the Bill last year. We exempted taxicabs. It was intended to apply to limousines. Did not apply to limousines and the thought proc on that... thought processes on that and in most states they have rear seatbelt laws, is that limousines and taxicab drivers are separated from the passengers and therefore can't be responsible for the actions of the passengers in the car. So, I would be glad to answer any questions. Otherwise, I would urge an 'aye' vote so that all of our livery laws are the same."

Clerk Hollman: "House Bill 5233, a Bill for an Act concerning public health. Third Reading of this House Bill."

Speaker Lang: "Mr. Costello."

Costello: "Thank you, Mr. Speaker and Members of the House. First of all I'd like to say this is a Bill that's an initiative I worked on with the Attorney General's Office. I'd like to thank Mike Hood, Kareen Kenyatta, and Kara Smith for all their work. House Bill 5233 defines synthetic drugs. It also outlaws the misbranding of these drugs. We, in Illinois, are losing the battle with synthetic drugs. Manufacturers of these drugs find ways to sell them in tobacco shops, convenience stores, and gas stations in our communities. Synthetic drugs are marked as incense or potpourri. There are thousands of brand names and they are labeled not for human consumption. This puts them outside the reach of the FDA and state health departments. Retailers are selling these drugs for huge profits. Use of these drugs results in suicide, hallucinations, heart attacks, and deaths and to date, we, in the General

Assembly, have handled this by adding these chemicals to the controlled substance list. This approach has been helpful, but simply, the manufacturers change the formulas to stay one step ahead of law enforcement. We need to arm law enforcement better. House Bill 5233 amends our state Food and Drug Cosmetic's Act, an Act that mirrors the federal Food and Drug Cosmetic Act. The law requires labeling of drugs like you would see on Advil or a bag of oranges in grocery stores. Manufacturers and distributors of products are required by law to disclose simply who they are, what the products contain, the applicable warnings to products and the recommended dosage. These are commonsense and commonplace for most companies who are doing business legally. These products, being synthetic drugs, contain a disclaimer that says 'not for human consumption'. Regardless of these words, these are drugs. House Bill 5233 targets retailers of these products. The Bill creates a definition, again, of synthetic drugs and enhances penalties for selling misbranded drugs. The penalties for this must be significant because retailers are making huge profits. As much as 10 to 20 thousand dollars a week selling these products, again, to our teens and young adults. Many times they're also sold for cash which makes them tax free. I thank you all and I ask for an 'aye' vote in support of this Bill."

Speaker Lang: "Gentleman moves for the passage of the Bill. There being no debate, those in favor vote 'yes'; opposed 'no'. The voting is open. Have all voted who wish? Have all voted who wish? Have all voted who wish? Please take the

It simply allows some information sharing between the RTA and the Department of Public Health to ensure that those that have deceased aren't... aren't getting reduced fare cards. It's a Bill that'll promote efficiency within our transportation sector. I'd ask for an 'aye' vote."
