

AN ACT concerning regulation.

**Be it enacted by the People of the State of Illinois,
represented in the General Assembly:**

Section 5. The Mobile Home Park Act is amended by changing Section 9.15 as follows:

(210 ILCS 115/9.15)

Sec. 9.15. Fire safety. All private water supply systems and hydrants for fire safety purposes in existence on the effective date of this amendatory Act of the 94th General Assembly shall be maintained in operable condition and good repair as defined by the State Fire Marshal or mobile home park licensing agency. A mobile home park that does not have a private water supply system and hydrants shall have an agreement, approved by the State Fire Marshal or licensing agency in consultation with the municipal fire department or the local fire protection district, to provide an adequate and reliable water supply for fire mitigation needs. This agreement shall be signed and dated by the owner of the mobile home park or his or her designee and by the local fire chief or his or her designee. Certification that this agreement exists shall be signed by the owner of the mobile home park or his or her designee and by the local fire chief or his or her designee and submitted with each application for original licensure or

licensure renewal required under Section 6 of this Act. A copy of this agreement shall be on file at the local fire department or fire protection district and posted in public view at the mobile home park site by the mobile home park owner or his or her designee and available for inspection.

Nothing in this Section shall be construed to mandate a mobile home park, constructed prior to 1998, to install new water supply systems or hydrants for fire safety purposes.

Each mobile home park shall be inspected annually pursuant to the applicable mobile home park fire protection standards by the municipal fire department or fire protection district that has jurisdictional responsibility for responding to a fire call in that park. As used in this Section, "applicable mobile home park fire protection standards" means (i) in the case of a home rule unit, the fire protection standards ordinance of the municipality or fire protection district that has jurisdictional responsibility for responding to a fire call in that park or (ii) if there is no ordinance or in the case of a non-home rule unit, the rules adopted by the Office of the State Fire Marshal for fire safety in mobile home parks. If, upon inspection, the municipal fire department or fire protection district finds that a park does not meet the applicable fire protection standards, the municipal fire department or fire protection district shall give within 5 working days of the inspection a written notice of violation to the licensee and to the Department of Public Health of any

violation or required modification or repair. The licensee has 30 days after receipt of the written notice to correct the violation or make the required modification or repair. Not less than 30 days after the licensee's receipt of the notice, the municipal fire department or fire protection district shall reinspect the park and issue a written reinspection report to the licensee and to the Department of Public Health concerning the status of the licensee's compliance with the notice and whether any violation still exists. If the municipal fire department or fire protection district determines on reinspection that a licensee has made a good faith and substantial effort to comply with the notice but that compliance is not complete, the municipal fire department or fire protection district may grant the licensee an extension of time for compliance, as they deem fit, by a written notice of extension of time for compliance issued within 5 working days after the reinspection that identifies what remains to be corrected, modified, or repaired and a date by which compliance must be achieved. If an extension is granted, the municipal fire department or fire protection district shall make another inspection within 10 days after the date set for compliance and issue a final written report to the licensee and the Department of Public Health concerning the status of the licensee's compliance with the notice, written report, and written notice of extension of time for compliance and whether a violation still exists. If a licensee fails to cure the violation or

comply with the requirements stated in the notice of violation, or if a written notice of extension of time for compliance is issued and the final written report states that a violation still exists, the municipal fire department or fire protection district shall notify the Department of Public Health of the licensee's failure to comply with the notice of violation and the written report and shall deliver to the Department for purposes of enforcement under this Section copies of all written notices and reports concerning the violation.

Upon receipt of the written reports concerning the violation, the Department shall issue to the licensee a notice of intent to assess civil penalties in the amount of \$500 per day, per violation for non-compliance with the written notice of violation issued by the municipal fire department or fire protection district and provide the licensee with the opportunity for an administrative hearing pursuant to the provisions of Section 22 of this Act.

Notwithstanding the foregoing provisions of this Section, the enforcement of home rule ordinances and regulations shall be by the appropriate local authorities, including local public health departments, municipal attorneys, and State's Attorneys.

A home rule unit may not regulate the legal rights, remedies, and obligations of a licensee under this Section in a manner less restrictive than the regulation by the State of fire safety in a mobile home park under this Section. This

Public Act 095-0832

SB2434 Enrolled

LRB095 19290 DRJ 45581 b

Section is a limitation under subsection (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of powers and function exercised by the State.

This Section does not apply to any mobile home park located within a home rule county if the home rule county actively regulates mobile home parks.
