

AN ACT concerning regulation.

**Be it enacted by the People of the State of Illinois,
represented in the General Assembly:**

Section 5. The Ambulatory Surgical Treatment Center Act is amended by changing Section 6.5 as follows:

(210 ILCS 5/6.5)

Sec. 6.5. Clinical privileges; advanced practice nurses. All ambulatory surgical treatment centers (ASTC) licensed under this Act shall comply with the following requirements:

(1) No ASTC policy, rule, regulation, or practice shall be inconsistent with the provision of adequate collaboration and consultation in accordance with Section 54.5 of the Medical Practice Act of 1987.

(2) Operative surgical procedures shall be performed only by a physician licensed to practice medicine in all its branches under the Medical Practice Act of 1987, a dentist licensed under the Illinois Dental Practice Act, or a podiatrist licensed under the Podiatric Medical Practice Act of 1987, with medical staff membership and surgical clinical privileges granted by the consulting committee of the ASTC. A licensed physician, dentist, or podiatrist may be assisted by a physician licensed to practice medicine in all its branches, dentist, dental assistant, podiatrist, licensed advanced

practice nurse, licensed physician assistant, licensed registered nurse, licensed practical nurse, surgical assistant, surgical technician, or other individuals granted clinical privileges to assist in surgery by the consulting committee of the ASTC. Payment for services rendered by an assistant in surgery who is not an ambulatory surgical treatment center employee shall be paid at the appropriate non-physician modifier rate if the payor would have made payment had the same services been provided by a physician.

(2.5) A registered nurse licensed under the Nurse Practice Act and qualified by training and experience in operating room nursing shall be present in the operating room and function as the circulating nurse during all invasive or operative procedures. For purposes of this paragraph (2.5), "circulating nurse" means a registered nurse who is responsible for coordinating all nursing care, patient safety needs, and the needs of the surgical team in the operating room during an invasive or operative procedure.

(3) An advanced practice nurse is not required to possess prescriptive authority or a written collaborative agreement meeting the requirements of the Nurse Practice Act to provide advanced practice nursing services in an ambulatory surgical treatment center. An advanced practice nurse must possess clinical privileges granted by the consulting medical staff committee and ambulatory surgical treatment center in order to provide services. Individual advanced practice nurses may also

be granted clinical privileges to order, select, and administer medications, including controlled substances, to provide delineated care. The attending physician must determine the advance practice nurse's role in providing care for his or her patients, except as otherwise provided in the consulting staff policies. The consulting medical staff committee shall periodically review the services of advanced practice nurses granted privileges.

(4) The anesthesia service shall be under the direction of a physician licensed to practice medicine in all its branches who has had specialized preparation or experience in the area or who has completed a residency in anesthesiology. An anesthesiologist, Board certified or Board eligible, is recommended. Anesthesia services may only be administered pursuant to the order of a physician licensed to practice medicine in all its branches, licensed dentist, or licensed podiatrist.

(A) The individuals who, with clinical privileges granted by the medical staff and ASTC, may administer anesthesia services are limited to the following:

- (i) an anesthesiologist; or
- (ii) a physician licensed to practice medicine in all its branches; or
- (iii) a dentist with authority to administer anesthesia under Section 8.1 of the Illinois Dental Practice Act; or

(iv) a licensed certified registered nurse anesthetist; ~~or-~~

(v) a podiatrist licensed under the Podiatric Medical Practice Act of 1987.

(B) For anesthesia services, an anesthesiologist shall participate through discussion of and agreement with the anesthesia plan and shall remain physically present and be available on the premises during the delivery of anesthesia services for diagnosis, consultation, and treatment of emergency medical conditions. In the absence of 24-hour availability of anesthesiologists with clinical privileges, an alternate policy (requiring participation, presence, and availability of a physician licensed to practice medicine in all its branches) shall be developed by the medical staff consulting committee in consultation with the anesthesia service and included in the medical staff consulting committee policies.

(C) A certified registered nurse anesthetist is not required to possess prescriptive authority or a written collaborative agreement meeting the requirements of Section 65-35 of the Nurse Practice Act to provide anesthesia services ordered by a licensed physician, dentist, or podiatrist. Licensed certified registered nurse anesthetists are authorized to select, order, and administer drugs and apply the appropriate medical devices in the provision of anesthesia services under the

anesthesia plan agreed with by the anesthesiologist or, in the absence of an available anesthesiologist with clinical privileges, agreed with by the operating physician, operating dentist, or operating podiatrist in accordance with the medical staff consulting committee policies of a licensed ambulatory surgical treatment center.

Section 10. The Hospital Licensing Act is amended by changing Section 10.7 as follows:

(210 ILCS 85/10.7)

Sec. 10.7. Clinical privileges; advanced practice nurses. All hospitals licensed under this Act shall comply with the following requirements:

(1) No hospital policy, rule, regulation, or practice shall be inconsistent with the provision of adequate collaboration and consultation in accordance with Section 54.5 of the Medical Practice Act of 1987.

(2) Operative surgical procedures shall be performed only by a physician licensed to practice medicine in all its branches under the Medical Practice Act of 1987, a dentist licensed under the Illinois Dental Practice Act, or a podiatrist licensed under the Podiatric Medical Practice Act of 1987, with medical staff membership and surgical clinical privileges granted at the hospital. A licensed physician,

dentist, or podiatrist may be assisted by a physician licensed to practice medicine in all its branches, dentist, dental assistant, podiatrist, licensed advanced practice nurse, licensed physician assistant, licensed registered nurse, licensed practical nurse, surgical assistant, surgical technician, or other individuals granted clinical privileges to assist in surgery at the hospital. Payment for services rendered by an assistant in surgery who is not a hospital employee shall be paid at the appropriate non-physician modifier rate if the payor would have made payment had the same services been provided by a physician.

(2.5) A registered nurse licensed under the Nurse Practice Act and qualified by training and experience in operating room nursing shall be present in the operating room and function as the circulating nurse during all invasive or operative procedures. For purposes of this paragraph (2.5), "circulating nurse" means a registered nurse who is responsible for coordinating all nursing care, patient safety needs, and the needs of the surgical team in the operating room during an invasive or operative procedure.

(3) An advanced practice nurse is not required to possess prescriptive authority or a written collaborative agreement meeting the requirements of the Nurse Practice Act to provide advanced practice nursing services in a hospital. An advanced practice nurse must possess clinical privileges recommended by the medical staff and granted by the hospital in order to

provide services. Individual advanced practice nurses may also be granted clinical privileges to order, select, and administer medications, including controlled substances, to provide delineated care. The attending physician must determine the advance practice nurse's role in providing care for his or her patients, except as otherwise provided in medical staff bylaws. The medical staff shall periodically review the services of advanced practice nurses granted privileges. This review shall be conducted in accordance with item (2) of subsection (a) of Section 10.8 of this Act for advanced practice nurses employed by the hospital.

(4) The anesthesia service shall be under the direction of a physician licensed to practice medicine in all its branches who has had specialized preparation or experience in the area or who has completed a residency in anesthesiology. An anesthesiologist, Board certified or Board eligible, is recommended. Anesthesia services may only be administered pursuant to the order of a physician licensed to practice medicine in all its branches, licensed dentist, or licensed podiatrist.

(A) The individuals who, with clinical privileges granted at the hospital, may administer anesthesia services are limited to the following:

- (i) an anesthesiologist; or
- (ii) a physician licensed to practice medicine in all its branches; or

(iii) a dentist with authority to administer anesthesia under Section 8.1 of the Illinois Dental Practice Act; or

(iv) a licensed certified registered nurse anesthetist; ~~or~~

(v) a podiatrist licensed under the Podiatric Medical Practice Act of 1987.

(B) For anesthesia services, an anesthesiologist shall participate through discussion of and agreement with the anesthesia plan and shall remain physically present and be available on the premises during the delivery of anesthesia services for diagnosis, consultation, and treatment of emergency medical conditions. In the absence of 24-hour availability of anesthesiologists with medical staff privileges, an alternate policy (requiring participation, presence, and availability of a physician licensed to practice medicine in all its branches) shall be developed by the medical staff and licensed hospital in consultation with the anesthesia service.

(C) A certified registered nurse anesthetist is not required to possess prescriptive authority or a written collaborative agreement meeting the requirements of Section 65-35 of the Nurse Practice Act to provide anesthesia services ordered by a licensed physician, dentist, or podiatrist. Licensed certified registered nurse anesthetists are authorized to select, order, and

administer drugs and apply the appropriate medical devices in the provision of anesthesia services under the anesthesia plan agreed with by the anesthesiologist or, in the absence of an available anesthesiologist with clinical privileges, agreed with by the operating physician, operating dentist, or operating podiatrist in accordance with the hospital's alternative policy.
