The Honorable Emanuel Chris Welch
House Speaker

The Honorable Dan McConchie
Senate Republican Leader

The Honorable Jim Durkin
House Republican Leader

RE: FY 2022-2026 Crossing Safety Improvement Program 5-Year Plan

Dear Governor Pritzker and Members of the Legislative Leadership:

Pursuant to Public Act 90-659, the Illinois Commerce Commission is pleased to announce the FY 2022-2026 Crossing Safety Improvement Program 5-Year Plan. The Plan outlines safety improvements at highway-rail grade crossings and bridges located on local roads and streets throughout the State of Illinois.

In addition to the Grade Crossing Protection Fund (GCPF), the Plan also includes a funding source new to the Commission. In 2019, the capital bill and Rebuild Illinois Capital Plan (RBI) included \$78,000,000 "*appropriated from the Multi-Modal Transportation Bond Fund to the Department of Transportation for the installation of grade crossing protection or grade separations at places where a public highway crosses a railroad at grade, as ordered by the Illinois Commerce Commission.*" Unlike the GCPF, these funds are not limited to local routes or other restrictions, and we are hopeful that this will help address longstanding safety concerns, allowing greater project contributions for the CSIP overall.

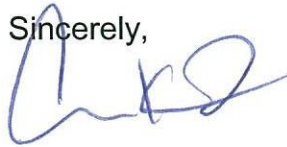

The Commission Plan seeks to authorize over \$341 million from GCPF and RBI funding for new grade crossing safety improvements and highway-rail grade separations over the course of this five-year horizon at nearly 500 crossing locations. With the availability of Local and Railroad funding matches, this includes:

- 31 new or reconstructed highway-rail grade separations;
- 5 new pedestrian-rail grade separations;
- 271 at-grade crossings with upgrades to warning devices, and
- 200 crossings with low-cost improvements

As always, the Commission's goal is to maximize the use of the Grade Crossing Protection Fund to achieve the greatest amount of public safety per dollar spent.

Should you have questions or need clarification about any of the information presented, please contact Sarah Ryan, Director of Governmental Affairs, at (217) 785-2449.

Sincerely,

Carrie K. Zalewski
Chairman

INTRODUCTION

The Illinois Commerce Commission (ICC) has the statutory responsibility to improve safety at public highway-rail crossings in the State of Illinois. As of February 1, 2021, there were 7,557 public highway-rail grade crossings in Illinois, of which 749 are on state roads, and 6,808 are on local roads. There are 2,699 public highway-rail grade-separated crossings (bridges) in the state. Nationally, Illinois is second only to Texas in the total number of highway-rail crossings. Table A summarizes the distribution of highway-rail and pedestrian pathway-rail crossings by type and position.

Table A
Summary of Rail Crossings in Illinois

Crossing Type	Crossing Position	Crossings
Public Roadway	At-Grade	7,557
	RR Over	1,731
	RR Under	968
Pedestrian Pathway	At-Grade	332
	RR Over	81
	RR Under	41
Private Roadway	At-Grade	3,765
	RR Over	121
	RR Under	19
Total		14,615

The ICC orders safety improvements at public highway-rail crossings on the local road system, with the cost of such improvements paid by the state, the railroads, and local governments. On state roads, the Illinois Department of Transportation (IDOT) pays the majority of the costs through the State Road Fund. For local roads, the Grade Crossing Protection Fund (GCPF) was created to pay the majority of the costs of improvements.

This document provides a summary of the Commission's 5-Year Improvement Plan along with a list of the projects proposed for FY 2022; the four "out-years" of FY 2023 through FY 2026 and projects ordered and active in the current 2021 Fiscal Year. A summary of broadband/railroad access cases in accordance with 625 ILCS 5/18c-7401(f) is included in Appendix 9.

RAILROAD CROSSING SAFETY – THE THREE E’S

Illinois is one of the key transportation hubs in the nation. With approximately 7,400 miles of railroad track, its rail system is the country’s second largest, including the nation’s largest rail freight hub in Chicago. Illinois has the nation’s third largest highway system, with 147,044 miles of highways, streets and roads and 26,825 bridges as of December 2019. Figure 1 provides a map highlighting the extensive railroad network of Illinois. The network is operated by 91 railroads or industries providing rail service to ports and industrial facilities.

Both the rail and highway systems are among the most heavily used in the nation in terms of volume of traffic, with much of the traffic concentrated in the Chicago metropolitan region. There, the urban mass transit system provided over 549.7 million passenger trips in 2019 over an extensive network of bus and rail routes.

Keeping the grade crossing portion of this transportation network operating safely and efficiently involves local, state and federal governments as well as the private sector. These safety efforts can be summarized as the Three E’s - Education, Enforcement and Engineering.

Education: The ICC is actively involved in developing programs to educate the public about the danger at highway-rail grade crossings. One example of this public education program is the ICC’s participation in Operation Lifesaver. The Operation Lifesaver program is a public-private partnership designed to increase public awareness of grade crossing hazards. It also strives to improve driver and pedestrian behavior at railroad crossings by encouraging compliance with traffic laws relating to crossing signs and signals. More information about the ICC’s education program can be found at: <https://www.icc.illinois.gov/rail-safety/illinois-operation-lifesaver>

Enforcement: Enforcement of existing traffic and trespass laws is key. For instance, persons crossing railroad tracks after the warning signals have activated may be fined up to \$500 for the first offense and \$1,000 for a second offense, or ordered to complete community service. The most recent edition of the **Illinois Highway-Rail Grade Crossing Safety and Enforcement Manual** can be found at: <https://www.icc.illinois.gov/rail-safety>

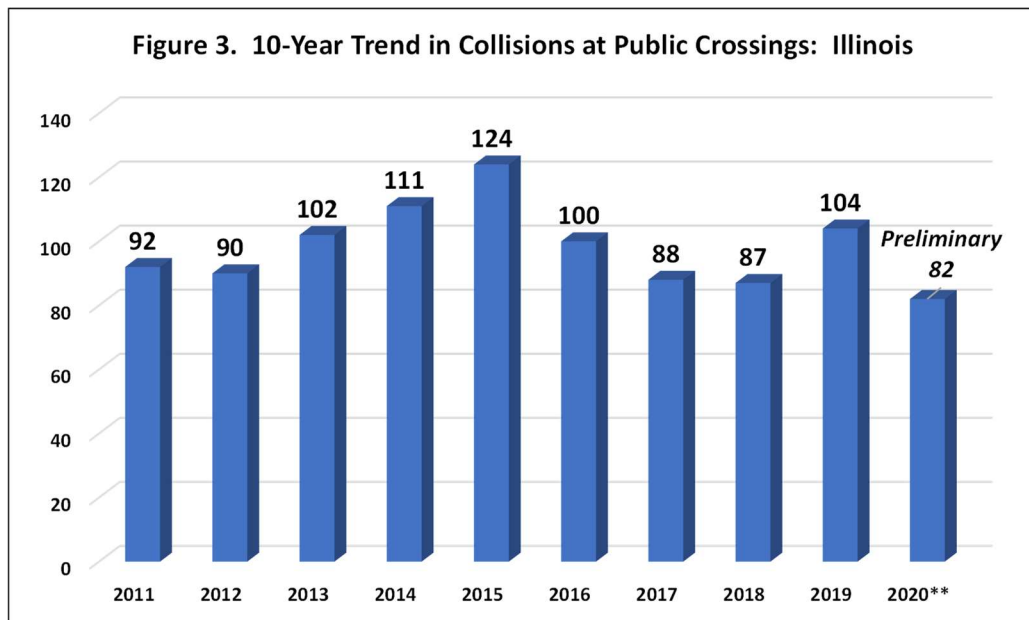

Engineering: Grade crossing safety improvements are also critical to reducing collisions. The ICC orders physical and system improvements, including the installation and upgrading of grade crossing warning signs and signals and, where warranted, grade separations. While education and enforcement are absolutely essential, the focus of this report is the engineering of capital improvements to further railroad crossing safety on local roads. Please refer to the **Illinois Grade Crossing Protection Fund Resource Guide** for more specific information on engineering options. ([link here](#))

Figure 1. Illinois Railroad Map.

2020 IN REVIEW – Collisions and Casualties

In 2020, preliminary statistics indicate there were 82 collisions at public highway-rail crossings in Illinois, compared to 104 in 2019, a 21.2 percent decrease. National preliminary figures for 2020 indicate 1,559 collisions occurred at public highway-rail crossings compared to 1,925 in 2019, a decrease of 19.0 percent.

Data Source: Federal Railroad Administration. 2020** is an ICC estimate for full-year of 2020 as FRA data was only available through November when this report was prepared.

The general public commonly thinks of grade crossing collisions as involving trains colliding with cars, and in most incidents that is the case; however, each year a substantial number of collisions involve motor vehicles driving into the sides of trains. In 2020, 31.7% of all collisions involved cars driving into the sides of trains, a percentage which has remained constant over the years. The 26 vehicle-into-train collisions in 2020 resulted in 9 injuries and two fatalities.

Total fatalities resulting from collisions at highway-rail crossings in Illinois decreased from 19 in 2019 to 17 in 2020; a decrease of 10.5%. Fatality statistics, however, are not a particularly good measure of safety. Fatalities are a function of random events, such as how many occupants were riding in a car involved in a collision, or multiple fatalities involved in the same incident (as in the death of eleven passengers involved in the Amtrak/steel truck collision that occurred near Bourbonnais, in 1999). Table B illustrates the distribution of fatalities by collision type in 2020.

Table B – Illinois Highway-Rail Grade Crossing Collisions in 2020.

Type of Collision	Total Collisions	Fatal Collisions	Total Fatalities
Train Struck Vehicle	45	6	6
Vehicle Struck Train	26	2	2
Pedestrian	11	9	9
Total	82	17	17

RAILROAD CROSSING SAFETY FUNDING

The Grade Crossing Protection Fund (GCPF), appropriated to the Illinois Department of Transportation but administered by the ICC, was created by state law to assist local jurisdictions (counties, townships and municipalities) in paying for safety improvements at highway-rail crossings on local roads and streets only. Assistance from the GCPF cannot be used for safety improvements at highway-rail crossings located on the state road or highway system. Those improvements are paid for by the Illinois Department of Transportation. Beginning with Fiscal Year 2010, each month \$3.25 million in state motor fuel tax receipts is transferred from the Motor Fuel Tax (MFT) fund to the Grade Crossing Protection Fund. This amount provides the GCPF with \$39 million annually to be used for safety improvements at highway-rail crossings on local roads and streets. The GCPF is typically used to help pay for the following types of projects:

- Warning Device Upgrades: Installation of automatic flashing light signals and gates at public grade crossings currently not equipped with automatic warning devices; installation of automatic flashing light signals and gates at public grade crossings currently equipped only with automatic flashing light signals; signal circuitry improvements at public grade crossings currently equipped only with automatic warning devices;

- Grade Separations - New and Reconstructed: Construction, reconstruction, or repair of bridges carrying a local road or street over railroad tracks (overpass); construction, reconstruction, or repair of bridges carrying railroad tracks over a local road or street (subway);
- Grade Separations - Vertical Clearance Improvements: Lowering the existing highway pavement surface under a railroad bridge to improve vertical clearance for motor vehicles;
- Pedestrian Grade Separations: Construction of a bridge to carry pedestrian/bicycle traffic over or under railroad tracks;
- Interconnects: Upgrading the circuitry, warning devices and traffic signals at grade crossings where warning signals are connected to the adjacent traffic signals so that the two systems operate in a synchronized manner;
- Highway Approaches: Improvements to the portion of the public roadway directly adjacent to the crossing surface;
- Connecting Roads: Construction of a roadway between a closed crossing and an adjacent open, improved crossing;
- Remote Monitoring Devices: Sensor devices in the circuitry of grade crossing warning devices which immediately alert the railroad to any failures in warning device operations;
- Crossing Closures: Provide an incentive payment to local agencies for the voluntarily closure of public highway-rail grade crossings; and
- Crossing Surface Renewals: Up to \$2 million in assistance annually can be allocated for crossing surface improvements.
- Vehicle Detection System Maintenance – four-quadrant gate installations.

The cost of railroad crossing safety improvements varies substantially depending on the nature of the work undertaken. A standard installation of gates with automatic flashing light signals on a two-lane road typically costs approximately \$300,000. Additional costs for road improvements could typically range from \$2,000 to well over \$100,000, depending on the road type and location. Grade separation structures are very costly.

The GCPF has made contributions to pavement lowering (vertical clearance improvements) projects costing between \$35,000 - \$4 million, and to new underpass structures costing more than \$50 million. Bridges over railroads can cost from \$600,000 for a rural structure to over \$40 million for a multi-lane multi-railroad urban structure. Typically, the ICC has authorized contributions from GCPF that pay up to 60% of the cost for grade separation projects and 85% to 95% for grade crossing improvements. Figure 4 provides a summary of the amount of Grade Crossing Protection Fund utilized for the most common types of improvement.

Figure 4. Summary of GCPF Projects FY 2011 through FY 2020.

Summary of the GCPF By Work Type: 2011-2020	GCPF Total	% of GCPF	Crossing Count	% of Crossings	GCPF Per Crossing
Gates with Automatic Flashing Lights-Install	\$121,112,304	37.2%	511	15.5%	\$237,010
Grade Separation-Construct	\$90,299,935	27.7%	18	0.5%	\$5,016,663
Grade Separation-Reconstruction	\$51,744,179	15.9%	26	0.8%	\$1,990,161
4 Quad Gates-Install	\$17,206,351	5.3%	32	1.0%	\$537,698
Surfaces-Replace	\$15,074,635	4.6%	270	8.2%	\$55,832
Gates w/ Cant Automatic Flashing Lights-Install	\$8,297,178	2.5%	34	1.0%	\$244,035
Pedestrian Grade Separation-Construct	\$4,361,944	1.3%	4	0.1%	\$1,090,486
Roadway Improvements	\$3,902,826	1.2%	59	1.8%	\$66,150
Close Xing w/ GCPF Incentive	\$3,661,352	1.1%	67	2.0%	\$54,647
Remote Monitors	\$2,933,521	0.9%	1,248	37.9%	\$2,351
Modify Track Circuitry	\$2,696,182	0.8%	14	0.4%	\$192,584
LED Light Replacement	\$1,732,108	0.5%	580	17.6%	\$2,986
Modify Track Circuitry-Loss of Shunt	\$639,729	0.2%	8	0.2%	\$79,966
Pedestian Crossing-New	\$637,822	0.2%	1	0.0%	\$637,822
Relocate Existing Warning Devices	\$469,460	0.1%	4	0.1%	\$117,365
Grade Separation-Abolish	\$362,536	0.1%	3	0.1%	\$120,845
Pedestrian Gates-Install	\$148,145	0.0%	7	0.2%	\$21,164
Xbuck/Yield Signs	\$120,635	0.0%	354	10.8%	\$341
Misc-Unknown	\$97,141	0.0%	4	0.1%	\$24,285
Surfaces-Repair	\$93,427	0.0%	3	0.1%	\$31,142
4 Quad Veh Detection	\$80,217	0.0%	22	0.7%	\$3,646
Roadway Delineators	\$17,122	0.0%	23	0.7%	\$744
Close Xing No Incentive	\$0	0.0%	1	0.0%	\$0
Grand Total	\$325,688,749	100.0%	3,293	100.0%	\$98,903

GCPF Over Time

Since the establishment of the GCPF in 1955, virtually every public highway-rail crossing in Illinois has received support from the Fund. Over two thousand passive signed crossings have received Yield signs and enhanced retro-reflective striping; over 3,000 crossings with train activated flashing light signals have received remote monitoring ability along with LED lights to replace incandescent lights; over 2,000 crossings have been upgraded from passive warning signs to train activated warning devices. Figure 5 provides a graphical summary of the amount of GCPF ordered by the Commission between Fiscal Year 2011 and Fiscal Year 2020.

Figure 5. Total Grade Crossing Protection Fund: FY 2011 through FY 2020.

Multi-Modal Transportation Bond Fund - Rebuild Illinois (RBI)

In 2019, the capital bill and Rebuild Illinois Capital Plain also included \$78,000,000 “appropriated from the Multi-Modal Transportation Bond Fund to the Department of Transportation for the installation of grade crossing protection or grade separations at places where a public highway crosses a railroad at grade, as ordered by the Illinois Commerce Commission.” These funds are not limited to local routes or other restrictions and will address longstanding safety concerns, allowing greater project contributions for the CSIP overall.

CROSSING SAFETY IMPROVEMENT PROJECTS

This report presents the railroad crossing safety capital improvements that ICC staff proposes to implement during FY 2022 and looks ahead to the projects contemplated for FY 2023-FY 2026. In all cases it is assumed that any required local funding match will be available. In some cases, local funding may not be available during the same fiscal year in which a crossing improvement has been programmed. In those circumstances the Rail Safety Section staff will recommend to the ICC that assistance from the GCPF for the project be reallocated to another fiscal year to accommodate the local agency.

The ICC receives numerous requests from local communities and railroads for assistance from the Grade Crossing Protection Fund for safety improvements at public

highway-rail crossings. During development of each multi-year crossing safety improvement program plan, the large number of potential projects requires the ICC to prioritize projects based upon several criteria, including the relative safety of the existing crossing and the volume and types of existing train and highway traffic. After each potential project is prioritized based on engineering requirements, geographic location is also considered so safety improvements throughout the state can be addressed as equitably as possible. Projects not selected for the Plan are considered again as part of future 5-Year Plans.

The project list for Fiscal Year 2022 (July 1, 2021 through June 30, 2022) includes capital improvement projects that local governments or railroads have previously submitted to the ICC for evaluation and approval, as well as projects based on established priorities. The project list for FY 2023-2026 (out-year list) includes projects based on a continued effort to meet those established priorities:

- **High Collision History** - Each year the ICC places a high priority on upgrading public highway-rail grade crossings which have a pronounced history of train/vehicle collisions, or which have a high predictive value for future collisions. The FY 2022-2026 Plan will address safety improvements at as many of these crossing locations as possible.
- **Rail Corridors** - The ICC has identified as a priority the need to improve public highway-rail grade crossings in rail corridors where conventional speed passenger trains operate.
- **Highway Grade Separations (Bridges)** - The ICC is continually seeking locations where grade crossing blockages cause substantial motorist or emergency vehicle delay, or where heavy vehicular traffic represents a heightened threat of train/vehicle collisions. This Plan includes funding assistance for numerous highway/rail bridge projects on local roads and streets throughout the state.
- **Pedestrian Grade Separations (Bridges)** – The ICC also has authority to utilize the GCPF to assist local communities with the cost of constructing pedestrian grade separations in areas where it is necessary to improve safety. This Plan includes funding assistance for several pedway/rail bridge projects throughout the state.
- **Interconnected Crossings** - The ICC and IDOT are continuing a program to identify and improve highway-rail grade crossings that require the interconnection of crossing warning signals with traffic control signals at adjacent highway intersections.

FY 2022 PLAN

Projects programmed for submittal to the ICC in FY 2022 are listed in Appendix 1 for GCPF assistance. In FY 2022 it is anticipated the ICC will consider projects requiring commitments from the GCPF totaling nearly \$49.7 million and from RBI totaling nearly \$34.5 million.

In FY 2022, the ICC will also set aside \$7 million from the GCPF in contingency funds to address emergency projects which may require rapid resolution; experimental crossing safety projects; low-cost safety improvements at multiple crossings; and incentive payments to local agencies for the voluntary closure of public highway-rail grade crossings. It is anticipated that in the next four years the contingency funds will be used to help pay for low-cost improvements [replacement of incandescent flashing light signals with light emitting diode (LED) flashing light signals, for example] involving approximately 100 crossings not currently equipped with LED flashing light signals. These projects are summarized in Table C.

**Table C – FY 2022 Projects by Project Type:
Estimated GCPF & RBI Assistance.**

Project Type	GCPF Crossings	GCPF \$ Millions	Rebuild Illinois Crossings	Rebuild Illinois \$ Millions
Highway-Rail Bridge Projects	5	\$34.4	6	\$15.5
Pedestrian-Rail Bridge Projects	0	\$0.0	3	\$9.0
Grade Crossing Improvement Projects	39	\$15.3	2	\$10.0
Low-Cost Emergency; Experimental; GCPF Closures; Surfaces	100	\$7.0	0	\$0.0
Total	144	\$56.7	11	\$34.5

NOTE: At the time the FY 2022 portion of the Plan was prepared, it was anticipated that assistance from the GCPF would be available for each project noted in Appendix 1. GCPF assistance may cease for certain projects should the General Assembly fail to appropriate, or otherwise not make available, sufficient funds.

FY 2023 – 2026 PLAN

Projects with programmed for submittal to the ICC in FY 2023-2026 for GCPF assistance are listed in Appendix 2. For those four years, it is anticipated the ICC will consider projects requiring commitments from the GCPF totaling over \$208.4 million, and from RBI totaling approximately \$42,000,000. These projects are summarized in Table D.

**Table D – FY 2023-2026 Projects by Project Type:
Estimated GCPF & RBI Assistance.**

Project Type	GCPF Crossings	GCPF \$ Millions	Rebuild Illinois Crossings	Rebuild Illinois \$ Millions
Highway-Rail Bridge Projects	16	\$92.3	4	\$42.0
Pedestrian-Rail Bridge Projects	2	\$4.0	0	\$0.0
Grade Crossing Improvement Projects	230	\$84.1	0	\$0.0
Low-Cost Emergency; Experimental; GCPF Closures; Surfaces	100	\$28.0	0	\$0.0
Total	348	\$208.4	4	\$42.0

NOTE: At the time the FY 2023-2026 portion of the Plan was prepared, it was anticipated that assistance from the GCPF would be available for each project noted in Appendix 2. GCPF assistance may cease for certain projects should the General Assembly fail to appropriate, or otherwise not make available, sufficient funds.

FY 2021 PROJECTS

Projects programmed for FY 2021 are listed in Appendix 3. It is currently estimated that the ICC will issue Orders authorizing nearly \$63.6 million in GCPF assistance for safety improvement projects at over 900 crossings in 81 counties throughout the state by June 30, 2021. These projects are summarized in Table E below. Appendix 3 lists each individual project with specific location and cost information.

Table E – FY 2021 Projects by Project Type: GCPF Assistance Approved by the ICC.

Project Type	GCPF Crossings	GCPF \$ Millions
Highway-Rail Bridge Projects	3	\$11.5
Pedestrian-Rail Bridge Projects	1	\$1.5
Grade Crossing Improvement Projects	900	\$45.6
Low-Cost Emergency; Experimental; GCPF Closures; Surfaces	10	\$5.0
Total	914	\$63.6

Appendix 9. Broadband Cases.

This section of the CSIP is being provided in accordance with the provisions of 625 ILCS 5/18c-7401 (f). The law directs the Illinois Commerce Commission (ICC) to “*include in its annual Crossing Safety Improvement Program report a brief description of cases decided by the Illinois Commerce Commission and the number of cases that remain pending before the Illinois Commerce Commission.*”

List of Broadband Cases.

T19-0041. Norfolk Southern Railroad v. NewWave: Work complete – 10/20/20 Joint Motion to Dismiss filed.

T19-0057. BNSF Railway v. Metro Fibernet: Work complete – 7/15/20 Commission Order granting dismissal of case.

T19-0064. Union Pacific Railroad v. Clearwave: 2/23/21 Motion to Dismiss filed pursuant to settlement by parties under Administrative Law Judge's oversight.

T19-0067. Union Pacific Railroad v. Stratus: 2/23/21 Motion to Dismiss filed pursuant to settlement by parties under Administrative Law Judge's oversight.

Case documents can be found [here](#) by entering the case docket number (T19-00xx).
