Pedestrian Stops: Agency Tables

The following section comprises tables summarizing Illinois 2021 pedestrian stops data.

A summary of Illinois statewide pedestrian stops appears first followed by 1) summaries for each agency in alphabetical order, 2) a table listing agencies that reported zero stops, and 3) a table listing non-compliant agencies. This year, no agencies reported incomplete data for 2021 pedestrian stops.

Each law enforcement agency that supplied complete 2021 stops records was provided an advance copy of their tables to review and provide feedback prior to the study team's completion of this final report. The agencies were invited to comment on the tables and the following 2 agencies did provide comments:

       Downers Grove Police   Rushville Police

An agency's comments appear in this document following their statistical tables. The study team appreciated receiving the feedback (on both pedestrian and traffic stops studies) and studied the comments in detail.

Readers are urged to read **Part I** of this report, the **Executive Summary**, a separate document. **Part I** is a guide to the use of the tables and explains how all the numbers were derived. **Part I** also includes a technical appendix, which may be of interest to those who seek a deeper understanding of the methodology.
