March 20, 2023

To the Honorable Members of the Illinois General Assembly:

In compliance with the requirements set forth in the Data Governance and Organization to Support Equity and Racial Justice Act (20 ILCS 65 *et. al*) (the "Act"), the Illinois Department of Corrections hereby submits a progress report detailing the programs and data that have been catalogued for which the demographic categories described in Section 20-15 of the Act have been standardized and, to the extent possible, the data sets and programs that are planned for the coming year.

The Act requires the Illinois Department of Corrections to "report statistical data on racial, ethnic, age, sex, disability status, sexual orientation, gender identity, and primary or preferred language demographics of program participants for each major program" administered by the Illinois Department of Corrections.

While "major program" is not defined in the statute, the agency has adopted the following definition provided by the Governor's Office of Management and Budget: *a major program is a program with an enacted appropriation of greater than \$1 million in fiscal year; direct services provided to individuals and/or a reasonable expectation that demographic information can be aggregated via proxy data without substantial cost or disruption to program delivery.*¹

The Illinois Department of Corrections has further defined "program participants" as individuals in the custody of the Illinois Department of Corrections.

Using these definitions, the Agency has identified the following programs and program participant populations for analysis:

- Mental health treatment
- Substance abuse treatment
- Parole reentry
- Education programming
- Southwestern/Sheridan drug/alcohol treatment programs

Mission: To serve justice in Illinois and increase public safety by promoting positive change for those in custody, operating successful reentry programs, and reducing victimization.

In February and March 2022, the Illinois Department of Corrections began to assess currently catalogued demographic data for each of the programs. Following its initial assessment, the Illinois Department of Corrections has determined that additional work needs to be done to define and standardize the demographic categories enumerated in the statute. The Illinois Department of Corrections has utilized the Office of Equity's guidance to create and standardize definitions for the demographic categories.

Very Sincerely and Respectfully,

¹ Programs with anonymous reporting of violations, those which utilize tele-help lines, and regulatory/licensure programs have been excluded from this definition.

	Major Program name from your previous submissions	Non-Technology Change (articulate what your department needs in terms of resources in order to get the tracking system of record to correctly reflect the true numbers. If you will need to add staff, state that.)	Identify the fiscal year in which the change is expected to take place	Please provide a 2-3 sentence description of the identified change. For technology changes, identify the system(s) that will be affected. For non-technology changes, identify what agreement(s) and/or documents that must be amended, number of staff to be added, training required, etc.	Provide a projected cost for the identified change. Do not include staffing costs.	Please identify projected Staffing Costs (where anticipated).	Identify any additional resources necessary to implement the change - i.e. implementation support staff, project manager etc.	
Illinois Department of Corrections	Mental health treatment	Mental health staff needs time for training and dedication of staff to input data into O360 and other databases in order to ensure the accuracy of the data in O360. Annual training for dedicated staff and ongoing due to staff attrition would be required.	N/A	The mental health unit will work towards training staff on entering the correct data into O360 to increase the numbers of the mental health caseload in O360 to reflect the actual mental health caseload. The sexual orientation field is not yet live, once live, the mental health unit will need to dedicate and train staff to get the field entered for the current mental health caseload population.	Projected cost for changes is minimal other than time to accurately plan training, conduct training, and update O360 for collecting the correct data needed.	0	Support from the training academy is needed to train staff on the entry of data into the new fields in the system. Annual training for current staff and ongoing training due to staff attrition would be required.	
	Substance abuse treatment (not SHE or SWICC)	We must add a additional office coordinator for the clinical division for this mandate. Each facility should have an identified staff member as the assignment coordinator. This would ensure all assignments are entered into the system of record correctly.	FY24	Staff will be assigned to make updates in O360 to capture the identified fields and update waitlist reports. Time is needed for training staff in O360, assignment office training and training for clinical department to run reports. Additional training of staff is needed to completely and accurately collect data at intake, including TCU assessment and entering of the data. We also require the hiring of a Office Coordinator in the clinical division.	Projected cost for changes is \$80,000 per year for a Office Coordinator and time to accurately plan training, conduct training, and update O360 for collecting the correct data needed.	\$80,000 per year for Office Coordinator	DOC Fiscal is working with GOMB to identify resources to fill the positions. Progress Report for Data Governance and Organization to Support Equity and Racial Justice

March 31, 2023

JB Pritzker
Governor

Rob Jeffreys
Director

In accordance with the Unified Code of Corrections, Director Rob Jeffreys respectfully submits the following information regarding the progress of the Data Governance and Organization to Support Equity and Racial Justice Report.

(20 ILCS 65/20-15) ([P.A. 102-0543](#))

Sec. 20-15. Data Governance and Organization to Support Equity and Racial Justice.

(f) By no later than March 31, 2022, the Board and the Department shall provide a progress report to the General Assembly to disclose: (i) the programs and datasets that have been cataloged for which race, ethnicity, age, sex, disability status, sexual orientation, gender identity, and primary or preferred language have been standardized; and (ii) to the extent possible, the datasets and programs that are outstanding for each agency and the datasets that are planned for the upcoming year. On or before March 31, 2023, and each year thereafter, the Board and Departments shall provide an updated report to the General Assembly.

The Act requires the Illinois Department of Corrections to “report statistical data on racial, ethnic, age, sex, disability status, sexual orientation, gender identity, and primary or preferred language demographics of program participants for each major program” administered by the Illinois Department of Corrections. “Major program” is not defined in the statute, the agency has adopted the following definition provided by the Governor’s Office of Management and Budget: a major program is a program with an enacted appropriation of greater than \$1 million in fiscal year; direct services provided to individuals and/or a reasonable expectation that demographic information can be aggregated via proxy data without substantial cost or disruption to program delivery. The Illinois Department of Corrections has further defined “program participants” as individuals in the custody of the Illinois Department of Corrections. Using these definitions, the Agency has identified the following programs and program participant populations for analysis:

- Mental health treatment
- Substance abuse treatment
- Parole reentry
- Education programming
- Southwestern & Sheridan drug/alcohol treatment programs

March 31st Progress Report reflects March 10, 2023 data.

¹ Race categories are determined by the categories used by the Illinois State Police (ISP). IDOC is required to upload race information to ISP as part of a long-standing public safety paradigm. When ISP adopts the required race categories determined by Public Act 101-654, IDOC will do so at the same time. IDOC cannot proceed with the race categories updates required by the new public act at this time because the data upload to ISP will be rejected and potentially create a public safety issue.

Total	19,848	100.0%

¹ Race categories are determined by the categories used by the Illinois State Police (ISP). IDOC is required to upload race information to ISP as part of a long-standing public safety paradigm. When ISP adopts the required race categories determined by Public Act 101-654, IDOC will do so at the same time. IDOC cannot proceed with the race categories updates required by the new public act at this time because the data upload to ISP will be rejected and potentially create a public safety issue.

^{2,3} Capturing Ethnicity and Primary Language data are recent additions to IDOC's tracking system of record (January 20, 2023) and are recorded upon admission of an individual to IDOC custody. The volume of Ethnicity and Primary Language data within the tracking system of record will increase over time as new intake information is recorded and efforts are made to acquire and input the data for those incarcerated prior to the programming update. Increasing the number of individuals Ethnicity and Primary Language identifiers within the tracking system of record will entail a multi-year effort.
