RE: Reporting Pursuant to 815 ILCS 530/1 *et seq.*

Honorable Members of the Illinois General Assembly,

Pursuant to the requirements within the Illinois Personal Information Protection Act ("PIPA"), 815 ILCS 530/1 *et seq.*, on April 15, 2021, the Illinois Attorney General's Office provided the Illinois General Assembly with a data breach notification pertaining to an incident affecting the Attorney General's Office computerized network.

Under the requirements of Section 25 of above referenced Act, the Attorney General's Office is providing an annual report pertaining to the ongoing corrective measures that have been taken to aid in preventing future breaches from occurring.

In order to ensure the integrity, security, and confidentiality of our network, data, and infrastructure, the Attorney General's Office provided the Illinois General Assembly with a condensed subset of enhancements, which the office was able to share publicly. This prior list was shared on December 30, 2021.

Since that time, and through the current date, the Attorney General's Office has continued with what has, and will continue to be, an ongoing process of integrating and implementing additional software, hardware, and personnel, in order to keep pace with the necessary technological, physical, and legal safeguards available to ensure the integrity, security, and confidentiality of our network and data.

I am happy to answer questions or discuss further as needed.

Best Regards,

Matthew W. Van Hise
