## Independent Auditor's Report

Honorable Frank J. Mautino  
Auditor General  
State of Illinois

and

Board of Trustees  
Western Illinois University

### Report on the Audit of the Financial Statements

#### **Opinions**

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the business-type activities, fiduciary activities, and the discretely presented component unit of Western Illinois University (the "University"), a component unit of the State of Illinois, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditor, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, fiduciary activities, and the discretely presented component unit of the University as of June 30, 2023, and the respective changes in its financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the discretely presented component unit, Western Illinois University Foundation, which represents 100 percent of the assets and revenues of the discretely presented component unit as of and for the year ended June 30, 2023, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended. Those statements were audited by another auditor, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Western Illinois University Foundation, is based solely on the report of the other auditor.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the University and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Emphasis of Matter**

As discussed in Note 16 to the financial statements, in Fiscal Year 2023, the University adopted new accounting guidance for reporting Subscription-Based Information Technology Arrangements (SBITAs), which did not result in a restatement of net position. Our opinions are not modified with respect to this matter.

#### **Responsibilities of Management for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

To the Honorable Frank J. Mautino  
Auditor General  
State of Illinois

and

Board of Trustees  
Western Illinois University

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the University's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

To the Honorable Frank J. Mautino  
Auditor General  
State of Illinois

and

Board of Trustees  
Western Illinois University

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 9-16, the Schedule of Share of the Net Pension Liability and the Schedule of Contributions on page 68, and the Schedule of Share of the Collective Total OPEB liability on page 73, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the University's basic financial statements. The Table of Operating Expenses on page 75 is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Table of Operating Expenses is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Information***

Management is responsible for the accompanying University officials and Board of Trustees, which is presented for purposes of additional analysis and is not a required part of the basic financial statements. Our opinion on the basic financial statements do not cover such information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

To the Honorable Frank J. Mautino  
Auditor General  
State of Illinois

and

Board of Trustees  
Western Illinois University

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated February 22, 2024 on our consideration of the University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control over financial reporting and compliance.

**WESTERN ILLINOIS UNIVERSITY  
A COMPONENT UNIT OF THE STATE OF ILLINOIS  
MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)  
For the Year Ended June 30, 2023**

This section of the Western Illinois University (University) annual financial report presents management's discussion and analysis (MD&A) of the financial performance of the University during the fiscal year ended June 30, 2023. This discussion should be read in conjunction with the accompanying financial statements and footnotes. The discussion and analysis are designed to focus on current activities, resulting change, current known facts, and future outlook. The financial statements, footnotes, and this discussion are the responsibility of University management.

This MD&A focuses on the University. The University's component unit, Western Illinois University Foundation (Foundation), issues separate financial statements that may be obtained at the Foundation's administrative office as summarized in Note 1.

**Using the Financial Report**

The University's annual report includes the following financial statements: the Statement of Net Position; the Statement of Revenues, Expenses and Changes in Net Position; the Statement of Cash Flows; the Statement of Fiduciary Net Position; and the Statement of Changes in Fiduciary Net Position. The financial statements are prepared in accordance with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) which require that financial statements be presented on a consolidated basis to focus on the University as a whole.

The financial statements are prepared under the accrual basis of accounting. Assets, deferred outflows of resources, liabilities, and deferred inflows of resources are categorized as current (due within one year) and noncurrent (due in greater than one year). Current year revenues and expenses are recognized when earned or incurred, regardless of when cash is exchanged. Revenues and expenses are reported as either operating or nonoperating. Significant recurring sources of the University's revenues, including State appropriations, gifts and investment income, are nonoperating as defined by GASB. Scholarship discounts and allowances applied to student accounts are shown as a reduction of tuition and fee revenue and auxiliary enterprise revenue. Stipends and other payments made directly to students are presented as student aid expenses. Depreciation is considered an operating expense and capital assets are reported at cost less accumulated depreciation.

**Financial Highlights**

**Statement of Net Position**

The Statement of Net Position presents the financial position of the University at the end of the fiscal year and includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources. The difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources, net position, is one indicator of the financial condition of the University, while the change in net position that occurs over time indicates improvement or deterioration in the University's financial condition. Non-financial factors such as enrollment levels and the condition of facilities are relevant when assessing the overall health of the University. Net position is divided into three major categories, as follows: net investment in capital

assets reflect the University’s equity in capital assets; restricted net position is available for expenditure by the University, but must be spent for purposes as determined by law, donors and/or external entities that have placed time or purpose restrictions on the use of the assets; and unrestricted net position is available to the University for any lawful purpose of the University.

A summary of the condensed Statement of Net Position for the years ended June 30, 2023 and 2022 is as follows:

Condensed Statement of Net Position

<b>Total net position</b>	<u>\$ 153,767,544</u>	<u>\$ 144,456,022</u>

A review of the University’s Statement of Net Position at June 30, 2023 shows that the University’s financial foundation remains strong with assets and deferred outflows of resources of \$250.9 million and liabilities and deferred inflows of resources of \$97.1 million. Net position, the difference between total assets and deferred outflows of resources and total liabilities and deferred inflows of resources, increased by approximately \$9.3 million or 6.4% over the previous year.

Total assets and deferred outflows of resources increased \$5.5 million or 2.3% during Fiscal Year 2023. Cash and cash equivalents decreased \$13.6 million primarily due a decrease in cash inflows for tuition and fees and auxiliary enterprises charges coupled with an increase in institutional aid awarded to students. Capital assets increased \$14.6 million mainly due to construction of the Center for Performing Arts of \$25.8 million offset by depreciation of \$14.3 million and an increase in right-to-use assets of \$1.3 million due to the implementation of GASB Statement No. 96, *Subscription-Based IT Arrangements (SBITA)* (see Note 16).

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**For the Year Ended June 30, 2023**

Total liabilities and deferred inflows of resources decreased \$3.8 million or 3.7% during Fiscal Year 2023. The decrease in liabilities and deferred inflows of resources is mostly due to scheduled debt payments offset by an increase in deferred inflows from other post-employment benefits, an increase in accounts payable and accrued liabilities, and the implementation of GASB Statement No. 96.

**Statement of Revenues, Expenses and Changes in Net Position**

The Statement of Revenues, Expenses and Changes in Net Position presents the University's changes in financial position. Revenues and expenses are classified as operating or nonoperating. A public University's dependency on State appropriations and gifts usually results in operating deficits because the GASB reporting standards classify these revenue sources as nonoperating.

A comparative summary of the condensed Statement of Revenues, Expenses and Changes in Net Position for the years ended June 30, 2023 and 2022 is as follows:

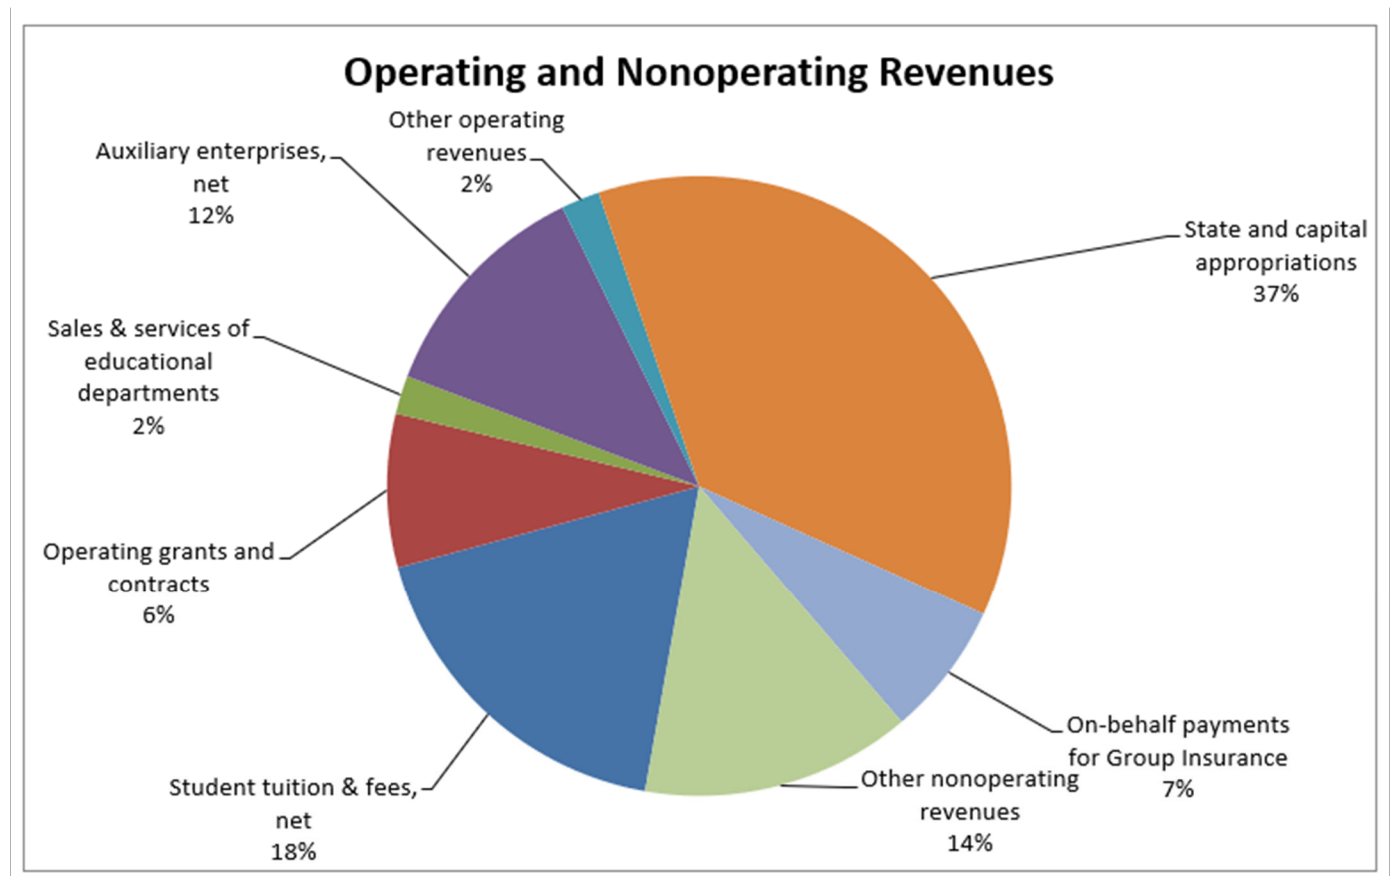

Condensed Statement of Revenues, Expenses and Changes in Net Position

	2023	2022

**For the Year Ended June 30, 2023**

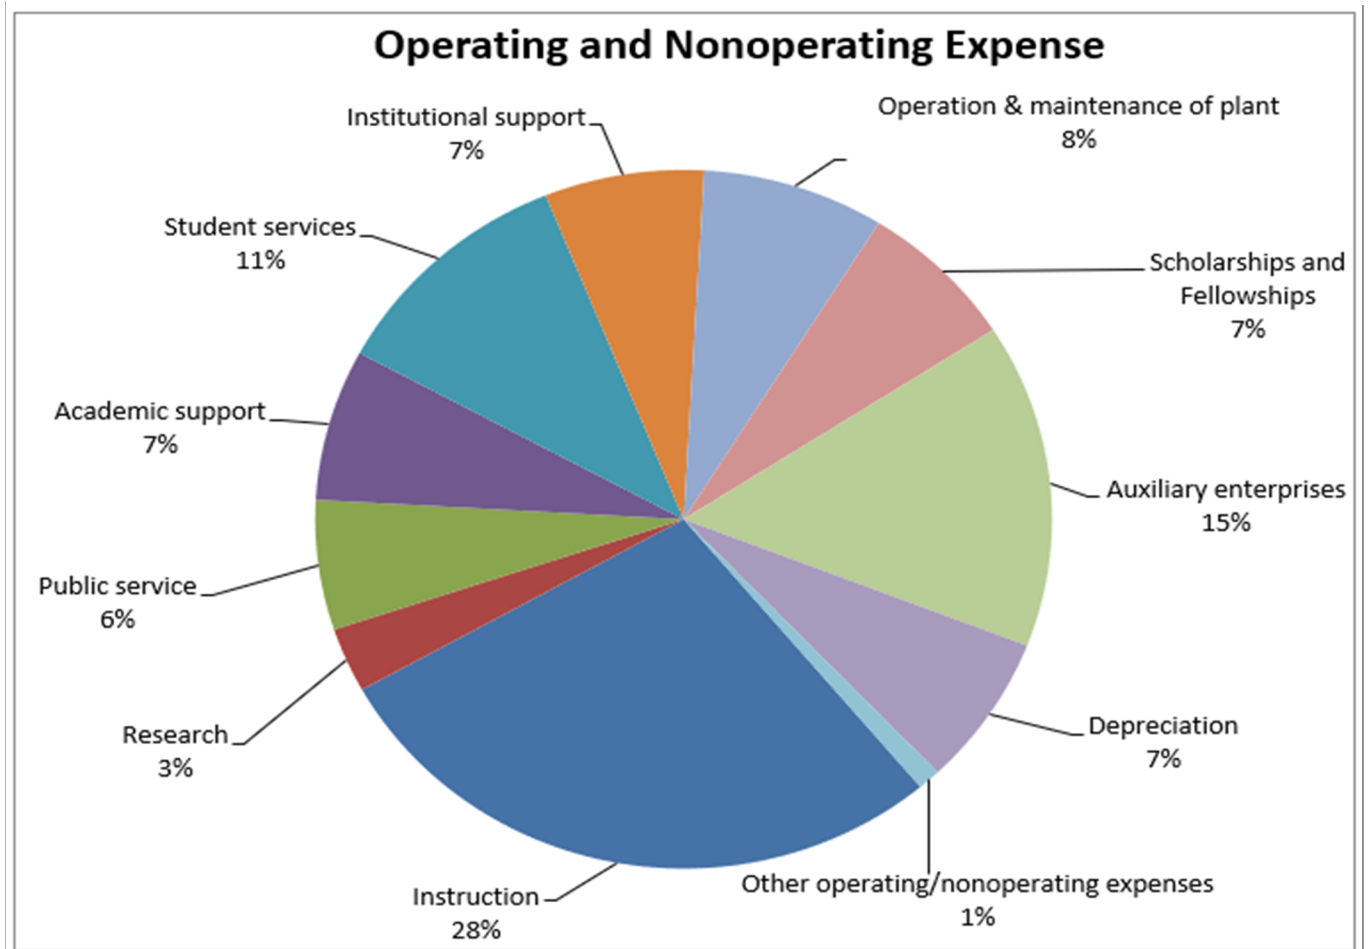

Total operating revenues decreased by \$3.7 million or 4.1% in 2023 primarily due to a decrease in tuition and fees of \$4.3 million offset by an increase in other operating revenues of \$.4 million and sales and services of educational departments of \$.5 million. The decrease in tuition and fees is due to increase in scholarship allowances on tuition and fees. Total nonoperating revenues decreased \$61.9 million or 39.3% due to the following: a decrease in special funding situation for pension and OPEB of \$41.8 million and in nonoperating grants of \$21.3 million. These decreases were offset by an increase in investment income of \$1.3 million. Total operating expenses decreased by \$53.4 million or 21.3% in 2023 primarily due to a decrease in scholarships and fellowships of \$15.1 million, special funding situation for pension and OPEB of \$41.8 million offset by an increase in salaries and benefits of \$2.9 million.

For the fiscal year ended June 30, 2023 all sources of revenues totaled \$208 million. The following is a graphical illustration of revenues by source:

For the fiscal year ended June 30, 2023, expenses totaled \$198.7 million. The following is a graphical illustration of expenses:

**Statement of Cash Flows**

The Statement of Cash Flows presents information related to the University’s cash receipts and disbursements during the fiscal year. This provides an assessment of the University’s ability to generate future cash flows and meet obligations as they come due.

A comparative summary of the condensed Statement of Cash Flows for the years ended June 30, 2023, and 2022 is as follows:

Condensed Statement of Cash Flows

	<u>2023</u>	<u>2022</u>
Cash provided by (used in):		
Operating activities	\$ (84,165,285)	\$ (88,851,520)
Noncapital financing activities	78,415,413	105,012,249
Capital and related financing activities	(9,400,255)	(12,323,033)
Investing activities	1,516,815	183,947
Net increase (decrease) in cash and cash equivalents	<u>(13,633,312)</u>	<u>4,021,643</u>
Cash and cash equivalents, beginning of year	43,116,266	39,094,623
Cash and cash equivalents, end of year	<u>\$ 29,482,954</u>	<u>\$ 43,116,266</u>

Major sources of funds included in operating activity are student tuition and fees, grants and contracts, and auxiliary enterprises. Payment for employee salaries and benefits, goods and services, and scholarships and fellowships continue to comprise the major use of operating funds.

Cash used in operating activities decreased \$4.7 million primarily due to a decrease in payments for scholarships and fellowships and an increase in cash inflows for grants and contracts offset partly by an increase in payments for employee salaries and benefits and a decrease in tuition and fees and auxiliary enterprises charges.

Cash inflows from noncapital financing activities consist primarily of State appropriations, Monetary Award Program awards, Pell grant revenues, and funds received from the Higher Education Emergency Relief Fund (HEERF). Cash provided by noncapital financing activities decreased \$26.6 million primarily due to a decrease in cash inflows from nonoperating grants specifically HEERF grants.

A decrease in capital assets acquired compared to the prior year contributed to the decrease of \$2.9 million in cash used in capital and related financing activities.

Cash provided by investing activity increased by \$1.3 million from the prior year due to an increase in earnings on investments.

**Capital Assets and Debt Administration**

The University had \$547.1 million invested in capital assets which includes \$2.6 million of right-to-use lease assets and \$1.3 million of subscription-based IT arrangements at the end of Fiscal Year 2023. Total capital assets net of accumulated depreciation totaled \$197.3 million. Depreciation expense for the current year was \$14.3 million.

**WESTERN ILLINOIS UNIVERSITY

For the Year Ended June 30, 2023**

Major construction projects during Fiscal Year 2023 included roof replacements, water piping upgrades, and the engineering and planning costs associated with the construction of a new performing arts center. For the year ended June 30, 2023 construction in progress included engineering and planning costs associated with a new performing arts center with a balance of \$27.6 million, roof replacements with a balance of \$4.4 million, and electrical and water piping upgrades with a balance of \$.5 million.

**Fiduciary Funds**

Fiduciary funds are used to account for resources held for the benefit of parties outside the University. Fiduciary funds are not available to support the University's own programs. Accordingly, separate fiduciary fund statements can be found immediately following the statement of cash flows, and include information on funds held for student organizations, faculty and staff organizations, professional organizations, and others.

**Economic Outlook**

The ability of the University to fulfill its mission and execute its strategic plan is directly influenced by enrollment, State support and the cost of health care, utilities, employee compensation and benefits and State and federal mandates.

A crucial element to the University's future will continue to be our relationship with the State of Illinois, as we work to manage tuition to make it competitive while providing an outstanding college education for our students. There is a direct relationship between the growth or decline of State support, the impact of State regulations and the University's ability to control tuition growth. The trend of State support in appropriations, capital investment, and student financial assistance, as well as the increase in regulations have and will continue to create more pressures on the cost of attendance.

State appropriations represent operating support provided by the Governor and General Assembly for University programs. A Fiscal Year 2024 budget of \$55.7 million was passed into law by the General Assembly, a notable 7% increase in appropriation.

The University projects tuition and miscellaneous revenues to slightly decrease as compared to Fiscal Year 2023. In March of 2023, the Board of Trustees passed a resolution to increase the tuition rate for new undergraduate and graduate students by 3%. The University offers guaranteed tuition for each new class of entering undergraduate students.

The University's Auxiliary Enterprises projects revenues to remain level as compared to Fiscal Year 2023, due to an increase in the rates assessed for room, board, and fees. Other institutional funds include revenues from sponsored projects and departmental activity revenues. The Fiscal Year 2024 budget for these funds as approved by the Board of Trustees reflects a slightly lower spending level compared to Fiscal Year 2023.

**MANAGEMENT'S DISCUSSION AND ANALYSIS (UNAUDITED)**  
**For the Year Ended June 30, 2023**

Private gifts are an important supplement to the University's sources of funding for operating costs. In Fiscal Year 2023, alumni, friends, staff, corporations, and other organizations contributed nearly \$8.6 million to the Foundation in support of the University. These contributions include gifts and additions to permanent endowments. The Foundation distributed nearly \$8.2 million in Fiscal Year 2023 to support academic enhancement and instructional initiatives, student scholarships, capital improvements, cultural activities, athletics, regional outreach efforts, and alumni and Foundation-sponsored programs at Western Illinois University.

Fiscal Year 2023 continued to be impacted by the COVID-19 pandemic and other external economic factors. The crisis has continued to present a large financial burden to the University between adapting to recruitment and retention of students, keeping up with newly implemented standards, and the rise in inflation of normal operating costs. This is and will continue to generate the need to align budget to meet these new expenditures.

The University is committed to pursuing its goal of concentrating on enrollment and retention across both campuses while strategically adding, and when appropriate, strategically restructuring programs. Cost containment and revenue initiatives are the challenges the University continues to encounter.

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Financial Reporting Entity**

Western Illinois University (University), a component unit of the State of Illinois (State), with a primary focus on instruction and an additional commitment to research and public service, has campuses located in Macomb and Moline, Illinois. The governing body of the University is the Board of Trustees of Western Illinois University (Board). As required by accounting principles generally accepted in the United States of America, these financial statements present the financial position and financial activities of the University and its discretely presented component unit, the Western Illinois University Foundation (Foundation). The Foundation is a legally separate, tax-exempt component unit included in the University's reporting entity because of the significance of its financial relationship with the University. Complete financial statements for the Foundation may be obtained by contacting the Foundation located at 1 University Circle, Macomb, IL 61455-1390.

The Foundation is a University-related organization as defined under *University Guidelines* adopted by the State of Illinois Legislative Audit Commission in 1982 as amended in 1997 and 2020 and 2023. The Foundation was formed for the purpose of providing fundraising and other assistance to the University in order to attract private gifts to support the University's instructional, research and public service activities. In this capacity, the Foundation solicits, receives, holds and administers gifts for the benefit of the University. Although the University does not control the timing or amount of receipts from the Foundation, the majority of resources and income thereon that the Foundation holds and invests are restricted to the activities of the University by the donors.

The University is a component unit of the State of Illinois for financial reporting purposes. The financial balances and activities included in these financial statements are, therefore, also included in the State's annual comprehensive financial report.

**Basis of Accounting and Presentation**

For financial reporting purposes, the University is considered a special-purpose government engaged only in business-type activities, as defined by GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. Business-type activities are those financed in whole or in part by fees charged to external parties for goods and services. Accordingly, the University's financial statements have been presented using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenue is recognized when earned, and expenses are recorded when an obligation has been incurred. All significant intra-agency transactions have been eliminated.

The Foundation is a private nonprofit organization that reports under accounting standards promulgated by the Financial Accounting Standards Board (FASB). As such, certain revenue recognition criteria and other accounting rules are different from the revenue recognition criteria and accounting rules promulgated by the Governmental Accounting Standards Board (GASB) that

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

the University follows. Beginning in Fiscal Year 2018, the Foundation follows Financial Accounting Standards Board (FASB) standards for financial statement presentation. Consequently, reclassifications have been made to convert their statements to the GASB format for inclusion in the Component Unit column of the financial statements and disclosures. Except for reclassifying the Foundation's FASB presentation into the University's GASB presentation, no modifications have been made to the Foundation's financial information in the University's financial reporting entity for these differences.

The University first applies restricted net position when an expense or outlay is incurred for purposes for which both restricted and unrestricted net positions are available.

**Deferred Outflows of Resources**

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. The University deferred outflows of resources include a loss on refunding of bonds payable of \$142,851 and a loss on refunding of Certificates of Participation payable of \$83,512 at June 30, 2023. The loss on refunding resulted from the difference between the reacquisition price and the net carrying amount of the old debt. Total amortization included in interest on capital asset related debt for the year ended June 30, 2023 was \$96,768. Also included in deferred outflows of resources are pension activities of \$446,367 (see Note 10 for more information) at June 30, 2023 and OPEB activities of \$5,635,374 (see Note 11 for more information) at June 30, 2023.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and net position, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenses and other changes in net position during the reporting period. Actual results could differ from those estimates.

**Cash Equivalents**

The University considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2023, cash equivalents consisted primarily of money market and similar funds. Restricted cash and cash equivalents relate to the University's Auxiliary Facilities System and unspent loan funds.

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

**Investments**

The University accounts for its investments at fair value in accordance with GASB Statement No. 72, *Fair Value Measurement and Application*. Accordingly, the change in fair value of investments is recognized as an increase or decrease in investment assets and investment income.

Illinois statutes and Board policy authorize the University to invest in certificates of deposit, The Illinois Funds, United States Government Securities, securities guaranteed by the full faith and credit of the United States government, and any other security permitted by law and approved by the Board.

**Accounts Receivable**

Accounts receivable consists of tuition and fee charges to students, amounts receivable from funding agencies for grants, amounts receivable from third parties and charges for auxiliary enterprise services provided to students, faculty and staff. Accounts receivable is presented net of estimated uncollectible amounts.

**Bonds and Certificates of Participation Issue Costs**

The insurance premium on the bonds and certificates of participation issue costs incurred on the revenue bonds and certificates of participation are being amortized over the life of the bonds/certificates of participation using the straight-line method. Included in operating expenses on the Statement of Revenues, Expenses and Changes in Net Position is total amortization for the year ended June 30, 2023 of \$72,845.

**Student Loans Receivable**

The University makes loans to students under various federal and other loan programs. Such loans receivable is presented net of estimated uncollectible amounts.

**Inventories**

Inventories are carried at the lower of cost (determined by first-in, first-out or average cost method, depending on the nature of the inventory item) or market.

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

**Capital Assets**

Capital assets are recorded at cost at the date of acquisition, or acquisition value at the date of donation. The University's capitalization policy for capital assets is as follows: equipment - \$5,000 or greater; land or buildings - \$100,000 or greater; and site, infrastructure, or building improvements - \$25,000 or greater. Intangible assets which are purchased are capitalized at \$100,000 or greater. Internally-generated intangible assets which are primarily software are capitalized at \$1,000,000 or greater. Renovations to buildings and land improvements that increase the value or extend the useful life are capitalized. Routine repairs and maintenance are charged to operating expense in the year in which the expense is incurred. Depreciation is calculated on a straight-line basis over the estimated useful lives of the class of assets.

The following estimated useful lives are being used by the University:

Site improvements	25 years
Buildings	60 years
Building improvements	20 years
Computer equipment	3 years
Trucks greater than 1 ton	12 years
Right to Use Asset	Shorter of lease term or useful life
All other equipment	7 years

University capital assets financed by the State of Illinois Capital Development Board (CDB) are recorded by the University as the funds are expended by the CDB.

**Unearned Revenue**

Unearned revenue represents unearned student tuition and fees and advances on grants and contract awards for which the University has not met all of the applicable eligibility requirements.

**Compensated Absences**

University policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off or, in limited circumstances, as a cash payment. Expense and the related liability recognized as vacation benefits are earned whether the employee is expected to realize the benefit as time off or in cash. Expense and the related liability for sick leave benefits are recognized when earned to the extent the employee is expected to realize the benefit in cash determined using the termination payment method. Sick leave benefits expected to be realized as paid time off are recognized as expense when the time off occurs and no liability is accrued for such benefits employees have earned but not yet realized. Compensated absences liabilities are computed using the regular pay and termination pay rates in effect at the Statement of Net Position date plus an additional amount for compensation-related payments such as social security and Medicare taxes computed using rates in effect at that date.

**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

**Net Position**

The University's net position is classified as follows:

*Net investment in capital assets* - consists of capital assets and right-to-use assets net of accumulated depreciation and reduced by the outstanding balances of bonds, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets and deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt.

*Restricted net position - nonexpendable* – represents endowed funds where the donors have stipulated, as a condition of the gift instrument, that the principal be maintained in perpetuity and invested for the purpose of producing income, which may either be expended or added to the principal.

*Restricted net position - expendable* – net position subject to externally imposed restrictions that can be fulfilled by actions of the University pursuant to those stipulations or that expire by the passage of time.

*Unrestricted* – net position not subject to externally imposed stipulations but may be designated for specific purposes by action of management or the Board of Trustees.

**On-behalf Payments for Group Insurance**

The University had outside sources of financial assistance provided by the State on behalf of the University during the year ended June 30, 2023.

Substantially all active employees participate in group insurance plans provided by the State and administered by the Department of Central Management Services (CMS), primary providing healthcare benefits. In order to fund the State Employee's Group Insurance Program's (SEGIP) pay-as-you-go obligations for both current employees and retirees, the State Employees Group Insurance Act of 1971 (SEGIA) (5 ILCS 375/11) requires contributions based upon total employee compensation paid from any State fund or university component unit, except the university component units shall not be required to make contributions for employees who are totally compensated from each individual university's Income Fund and auxiliary enterprises. Pursuant to a long-standing State policy, the State's General Fund covers the contributions for employees who are totally compensated from each individual university's Income Fund and auxiliary enterprises. This relationship may be modified through the enactment of a Public Act by the State's highest level of decision-making authority exercised by the Governor and the General Assembly pursuant to the State's Constitution.

During the year ended June 30, 2023, total estimated group insurance contributions for the University's employees paid from the University's Income Fund and auxiliary enterprises were \$18,317,756. The University made a voluntary appropriation repayment from either its State

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

appropriation or locally-held resources that was not considered a contribution of \$1,319,936 to help offset the amount the State needed to provide for current employees under the situation described in the preceding paragraph. As such, the State contributed the estimated remaining balance of \$16,997,820 on-behalf of the University to meet this obligation for current employees. As the University is not legally responsible to pay for the on-behalf support provided by the State, the University recognizes non-operating revenues and operating expenses allocated to the related function performed by the employees within the University's financial statements for its current employees' participation in group insurance.

**Pensions**

For the purpose of measuring the net pension liability, deferred outflows and deferred inflows of resources related to pensions, and pension expense, information about the plan net position of the State Universities Retirement System (SURS or the System) and additions to/deductions from SURS' plan net position has been determined on the same basis as they are reported by SURS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

For financial reporting purposes, the State of Illinois and its public universities and community colleges are under a special funding situation. A special funding situation exists when a non-employer entity (the State) is legally responsible for making contributions directly to a pension plan that is used to provide pensions to the employees of another entity (the University) and the non-employer (the State) is the only entity with a legal obligation to make contributions directly to a pension plan. The University recognizes its proportionate share of the State's pension expense relative to the University's employees as non-operating revenue and pension expense, with the expense further allocated to the related function performed by employees.

**Other Postemployment Benefits (OPEB)**

SEGIA (5 ILCS 375), as amended, authorizes the SEGIP, which includes activity for both active employees and retirees, to provide health, dental, vision and life insurance benefits as a single-employer defined benefit OPEB plan not administered as a trust. Substantially all State and university component unit employees become eligible for these OPEB plan benefits when they become annuitants of one of the State sponsored pension plans. CMS administers these benefits for the annuitants with the assistance of the public retirement systems sponsored by the State, including the General Assembly Retirement System (GARS), Judges Retirement System (JRS), State Employees Retirement System (SERS), Teachers' Retirement System (TRS), and SURS.

In order to fund SEGIP's pay-as-you-go obligations for both current employees and retirees, SEGIA (5 ILCS 375/11) requires contributions based upon total employee compensation paid from any State fund or university component unit, except the university component units shall not be required to make contributions for employees who are totally compensated from each individual university's Income Fund and auxiliary enterprises. Pursuant to a long-standing State policy, the State's General Fund covers the contributions for employees who are totally compensated from each individual university's Income Fund and auxiliary enterprises. This relationship may be

modified through the enactment of a Public Act by the State's highest level of decision-making authority exercised by the Governor and the General Assembly pursuant to the State's Constitution.

Given the preceding environment, the University has two separate components of OPEB administered within SEGIP. The (1) State of Illinois and its public universities are under a special funding situation for employees paid from the University's Income Fund or auxiliary enterprises, while (2) the University is responsible for OPEB employer contributions for employees paid from trust, federal, and other funds.

*Special Funding Situation Portion of OPEB*

A special funding situation exists when a non-employer entity (the State) is legally responsible for making contributions directly to an OPEB plan that is used to provide OPEB to the employees of another entity (the University) and the non-employer (the State) is the only entity with a legal obligation to make contributions directly to an OPEB plan.

During the OPEB measurement period ended June 30, 2022, the University made a voluntary appropriation repayment from either its State appropriation or locally-held resources that was not considered a contribution of \$660,712 to help offset the amount the State needed to provide for retirees under the special funding situation described in the preceding paragraph.

The University recognizes the proportionate share of the State's OPEB expense relative to the University's employees as non-operating revenue and OPEB expense, with the expense further allocated to the related function performed by the employees.

*University's Portion of OPEB*

The University reports a liability, expense allocated to the related function performed by the employees, and related deferred inflows and outflows of resources for OPEB based on the University's proportionate share of amounts paid to SEGIP pursuant to SEGIA for its employees paid from trust, federal, and other funds compared to the collective amounts paid to SEGIP pursuant to SEGIA. The collective amounts paid to SEGIP pursuant to SEGIA includes (1) payments from State agencies for State employees, (2) the amount calculated by CMS to represent the amount paid by the General Fund related to the special funding situation, (3) the total voluntary appropriation repayment from all of the universities, and (4) the total of all payments from the universities for employees paid from trust, federal, and other funds. This methodology has been determined by the State to be the best estimate of how future OPEB payments will be determined.

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

Deferred inflows and outflows of resources are recognized in OPEB expense at the beginning of the current period, using a systematic and rational method over a closed period, equal to the average expected remaining service lives of all employees, either active or inactive, provided with OPEB through SEGIP, determined as of the beginning of the measurement period.

**Classification of Revenues**

The University has classified its revenues as either operating or nonoperating according to the following criteria:

*Operating revenues* include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship allowances, (2) sales and services of auxiliary enterprises, (3) most federal, State and local grants and contracts except for certain student financial aid classified as nonoperating revenues, and (4) interest on student loans.

*Nonoperating revenues* include activities that have the characteristics of nonexchange transactions, such as gifts and contributions, and other revenue sources, such as State appropriations, Pell grants, and investment income, that are defined as nonoperating revenues by GASB Statement No. 9, *Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Governmental Entities That Use Proprietary Fund Accounting*, and GASB Statement No. 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. The State of Illinois General Revenue Fund appropriations are reported as nonoperating revenues to the extent that they are expended during the current fiscal year. The University relies on these appropriations to provide funding for operations.

**Scholarship Discounts and Allowances**

Student tuition and fee revenues, and certain other revenues from students, are reported net of scholarship allowances in the Statement of Revenues, Expenses and Changes in Net Position. Scholarship allowances are the difference between the stated charge for goods and services provided by the University, and the amount that is paid by students and/or third parties making payments on the students' behalf. Certain governmental grants, such as Pell grants, and other federal, State or nongovernmental programs are recorded as either operating or nonoperating revenues in the University's financial statements. To the extent that revenues from such programs are used to satisfy tuition and fees and other student charges, the University has recorded a scholarship allowance.

The scholarship allowances on tuition and fees and housing for the year ended June 30, 2023 were \$29,149,320 and \$8,312,217, respectively.

**Collections**

The University has collections of rare manuscripts and art that it does not depreciate. These collections adhere to the University's policy to (a) maintain them for public exhibition, education or research, (b) protect, keep unencumbered, care for and preserve them, and (c) require proceeds from their sale to be used to acquire other collection items.

**Endowments**

On June 30, 2009, the Illinois Governor signed the Uniform Prudent Management of Institutional Funds Act (UPMIFA) into law. UPMIFA replaced the Uniform Management of Institutional Funds Act and eliminates the historic dollar value rule with respect to endowment fund spending. UPMIFA also updated the prudence standard for the management and investment of charitable funds. The Foundation Board utilizes UPMIFA's provisions in spending decisions regarding the Foundation's endowment funds.

For donor restricted endowments, UPMIFA permits the Board of Directors of the Foundation to appropriate an amount of donor restricted endowments. The Board of Directors has established an investment policy with the objectives of protecting the principal of these funds and maximizing total investment return without assuming extraordinary risks. A similar strategy has been implemented for Foundation designated endowments.

For both donor restricted endowments and Foundation designated endowments, it is the goal of the Foundation to provide spendable income levels that are reasonably stable and sufficient to meet budgetary requirements and to maintain a spending rate, currently established at 4.25% for endowment purposes and 1.30% for operational purposes. Distributions are based on a 36-month moving average of endowment market value (excluding farmland values), which ensures a proper balance between the preservation of corpus and enhancement of the purchasing power of investment earnings. The Foundation's policy is to retain the endowment's unrealized appreciation with the endowment (either donor restricted or Foundation designated) after spending rate distributions. As of June 30, 2023, the Foundation had a total of \$ 30,456,410 of net cumulative appreciation from investment of donor restricted endowments and Foundation designated endowments available for expenditure. This amount is allocated between expendable restricted net position and unrestricted net position in the statement of net position based on the classification (restricted nonexpendable vs. unrestricted) of the underlying asset upon which the income was earned.

**Split-Interest Agreements**

The Foundation's split-interest agreements with donors consist of irrevocable charitable remainder trusts and irrevocable charitable trusts for which the Foundation is a beneficiary. The fair value of the trust assets is reported in the Statement of Net Position and changes in the fair value of the assets are recognized in the Statement of Revenues, Expenses, and Changes in Net Position. It is management's intent to record the contribution income from these agreements in the fiscal year

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

the Foundation becomes the irrevocable beneficiary. The Foundation did not receive any new contribution income during Fiscal Year 2023. Any outstanding liabilities relating to the annual distributions required by the trust agreements have been netted with the charitable remainder trust assets in the Statement of Net Position.

**Taxes**

As a State institution of higher education, the income of the University is generally exempt from federal and state income taxes under Section 115(1) of the Internal Revenue Code and a similar provision of state law. However, some activities may be subject to taxation as unrelated business income under the Internal Revenue Code and certain activities are subject to State sales tax. No provision has been made for income taxes in the accompanying statements, as the University had no significant unrelated business income during the year.

The U.S. Treasury Department issued a determination letter dated January of 1948 that the Foundation is exempt from Federal income taxes under what is now Section 501(c)(3) of the Internal Revenue Code.

**Deferred Inflows of Resources**

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until then. Deferred inflows of resources consist of activities related to OPEB and right-to-use lease assets.

**Fiduciary Funds**

The University acts as a fiduciary for the custodial funds meeting the criteria under GASB 84 to be classified as a fiduciary activity. Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. For Western Illinois University, this includes various student, professional, and faculty and staff organizations in which the University has no administrative or financial involvement and is also not the beneficiary of these funds. These fiduciary fund activities and balances are excluded from the University's financial statements because these assets are restricted in purpose and do not represent assets of the University.

The University participates in the U.S. Department of Education's Direct Student Loan Program. While direct loans are considered fiduciary funds by the University, they are normally expected to be held for three months or less and therefore not required to be reported in the fiduciary fund statements.

**New Governmental Accounting Standards**

The Governmental Accounting Standards Board (GASB) has issued the following statements which are effective for periods beginning July 1, 2023, or later which may impact the University:

Statement No. 101 – *Compensated Absences*, the statement updates the recognition and measurement guidance for compensated absences by aligning the recognition and measurement guidance under a unified model. The statement is effective for fiscal years beginning after December 15, 2023. The impact on the University has not yet been determined.

**NOTE 2 – DEPOSITS**

**University**

State law requires collateralization of all deposits with federal depository insurance; bonds and other obligations of the U.S. Treasury, U.S. agencies or instrumentalities of the State of Illinois; bonds of any city, county, school district or special road district of the State of Illinois; bonds of any state; or a surety bond having an aggregate value at least equal to the amount of the deposits.

At June 30, 2023, the book balance of various University bank accounts and certificates of deposit was \$28,838,221, while the bank balance was \$30,099,812. The difference between these amounts represents deposits in transit and a transfer to a money market account in transit as of June 30, 2023. In addition, the University had cash on hand in various petty cash and change funds in the amount of \$58,436 as of June 30, 2023.

**Foundation**

At June 30, 2023, the book balance of the Foundation’s various bank accounts was \$2,130,132, while the bank balance was \$2,149,526. The difference between these amounts primarily represents checks that have been issued, but have not yet cleared the bank, and deposits in transit as of June 30, 2023.

**University**

As of June 30, 2023, the University held investments in the Illinois Funds Investment Pool of \$586,298 which are classified as cash and cash equivalents on the University's Statement of Net Position. The Illinois Funds is an external investment pool administered by the State Treasurer. The fair value of the University's investment fund is the same as the value of pool shares and the investments are reported by the State Treasurer at amortized cost. For the year ended June 30, 2023, there were no limitations or restrictions on any participant withdrawals due to redemption notice periods, liquidity fees, or redemptions gates. The fund is administered in accordance with the provisions of the Public Funds Investment Act (30 ILCS 235). The Illinois Funds is rated AAmmf by Fitch.

*Custodial Credit Risk*

Custodial credit risk is the risk that in the event of a financial institution's failure, a government's deposits, investments or collateral securities that are in the possession of an outside party may not be returned to it. The University's policy for custodial credit risk requires compliance with the provisions of State law.

*Interest Rate Risk*

As a means of limiting its exposure to fair value losses arising from rising interest rates, the University's investment policy limits maturity of its investments to five years or less from the date of purchase.

*Credit Risk*

Credit risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The University's policy limits its investments to the Illinois Funds investment pool, United States Treasury bills, United States Treasury notes, United States Treasury bonds, Federal Farm Credit Banks bonds, Federal Home Loan Banks notes, Federal National Mortgage Association, Federal Land Bank bonds, Government National Mortgage Association, and Federal Home Loan Mortgage Corporation.

The Foundation adheres to the total return concept of investment management. Total return is defined as the aggregate sum of current income and changes in the market value of the assets under management.

*Custodial Credit Risk*

Custodial credit risk is the risk that when, in the event a financial institution or counterparty fails, the Foundation would not be able to recover the value of deposits, investments, or collateral securities that are in the possession of an outside party. The Federal Deposit Insurance Corporation insured account balances of \$2,149,526 as of June 30, 2023.

*Concentration Risk*

Concentration risk exists when a significant portion of the portfolio is invested in items with similar characteristics or subject to similar economic, political, or other conditions. As of June 30, 2023, the Foundation has three single issuer investments that each represents over 5% of the total assets of the Foundation. Foundation management believes these concentration risks represented below are not excessive when considering the overall diversification of the entire investment portfolio.

Vanguard Total Stock Market Index	\$ 17,982,692	17.2%
Mercer Hedge Fund Investors SPC	8,690,667	8.3%

*Interest Rate Risk*

Interest rate risk exists when there is a possibility that changes in interest rates could adversely affect an investment's value. The Foundation does not have a policy that specifically addresses interest rate risk. The Foundation had the following assets, at fair values, exposed to interest rate risk at June 30, 2023:

Cash equivalents held in investment accounts	\$ 4,025,651
Certificates of deposits	1,805,957

*Fair Value Measurements*

The Foundation measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles.

These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1 - Quoted prices for identical investments in active markets
- Level 2 - Observable inputs other than quoted market prices
- Level 3 - Unobservable inputs

Debt and equity securities and real estate exchange traded funds classified in Level 1 are valued using prices quoted in active markets for those securities. Debt securities classified in Level 2 are valued using quoted prices for identical securities in markets that are not active, quoted prices for similar securities in active markets, and matrix pricing based on the securities' relationship to benchmark quoted prices. Real estate classified in Level 2 is valued using similar processes of comparable real estate properties. Charitable remainder trusts classified in Level 3 are valued at the present value of the estimated future cash receipts from the trust assets. Such present values are generally assumed to be the fair market value of the percentage interest of the underlying assets of the trust.

Real asset funds – This type includes seven real asset funds that invest in global real estate, natural resources, and infrastructure. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Foundation’s ownership interest in partners’ capital. The fair values of the investments in this type have been determined using recent observable transaction information for similar investments and nonbinding bids received from potential buyers of the investments. These investments can never be redeemed with the funds, with the exception of Prudential Real Estate Investors. Distribution from each fund will be received as underlying assets of the funds are liquidated. Each fund is expected to have an approximate ten-year life.

Private equity funds – This type includes ten private equity funds that invest in global buyouts, venture capital, special situations, and secondaries and co-investments. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the Foundation’s ownership interest in partners’ capital. The fair values of the investments in this type have been determined using recent observable transaction information for similar investments and nonbinding bids received from potential buyers of the investments. These investments can never be redeemed with the funds. Distributions from each fund will be received as underlying assets of the funds are liquidated. Each fund is expected to have an approximate ten-year life.

Absolute return (hedge funds) – This type includes one hedge fund that pursues multiple strategies to diversify risks and reduce volatility. The strategy mix includes investments in long/short equity, long/short credit, relative value arbitrage, merger arbitrage, convertible arbitrage, capital structure arbitrage, fixed income arbitrage, short credit, distressed debt, global macro, special situations, and private investments. The fair values of the investments in this type have been determined using the NAV per share (or its equivalent) of the investments. This type allows for quarterly redemptions with 100 days’ notice.

Three residential buildings with a combined net book value of \$3,207,317 at June 30, 2023 were taken offline in August 2019. Two of these buildings are being maintained and utilized for alternate housing needs with the intent that they will be occupied as residential units in the future. The third is being used to host the county emergency operations center and provides educational laboratory space for the Emergency Management program.

An educational building was taken offline in May 2023 due to the increasing costs necessary to maintain the building. The building will no longer be used and the University reduced the reported balance to zero recognizing an impairment loss of \$46,874. The impairment loss is included in Depreciation Expense on the Statement of Revenues, Expenses and Changes in Net Position.

Construction in progress included engineering and planning costs associated with a new performing arts center with a balance of \$27.6 million, roof replacements with a balance of \$4.4 million, and electrical and water piping upgrades with a balance of \$.5 million. These projects are funded by the Illinois Capital Development Board.

*Lessor Arrangements*

The University leases office space and space on communication towers to various third parties. At June 30, 2023, the receivable balance was \$677,350 which is included in other assets and the deferred inflow balance was \$648,190. The University recognized \$121,884 in lease revenue for the period ending June 30, 2023. Fixed lease payments were received on a monthly basis.

*Subscription-Based Information Technology Arrangements*

The University obtains the right to use vendors' information technology software through various long-term contracts. The University recognizes a subscription liability and an intangible right-of-use subscription asset (the "Subscription-Based IT Arrangements"). The University recognizes subscription assets and liabilities with an initial value of \$20,000 or more.

At the commencement of a subscription, the University initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement date, plus initial implementation costs. Subsequently, the subscription asset is depreciated on a straight-line basis over its useful life.

Key estimates and judgments related to subscriptions include how the University determines the discount rate it uses to discount the expected subscription payments to present value and the subscription term.

The University uses the interest rate charged by the vendor as the discount rate. When the interest rate charged by the vendor is not provided, the University generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.

The subscription term includes the noncancelable period of the subscription.

The University monitors changes in circumstances that would require a remeasurement of its subscriptions and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

Subscription assets are reported with other capital assets, and subscription liabilities are reported with long-term debt on the statement of net position.

**NOTE 10 – PENSION PLANS**

**DEFINED BENEFIT PENSION PLAN**

**General Information about the Pension Plan**

*Plan Description*

Western Illinois University contributes to the State Universities Retirement System (SURS), a cost-sharing multiple-employer defined benefit plan with a special funding situation whereby the State of Illinois (State) makes substantially all actuarially determined required contributions on behalf of the participating employers. SURS was established July 21, 1941, and provides retirement annuities and other benefits for staff members and employees of state universities and community colleges, certain affiliated organizations, and certain other state educational and scientific agencies and for survivors, dependents, and other beneficiaries of such employees. SURS is considered a component unit of the State’s financial reporting entity and is included in the State’s Annual Comprehensive Financial Report (ACFR) as a pension trust fund. SURS is governed by Chapter 40, Act 5, Article 15 of the Illinois Compiled Statutes. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at [www.surs.org](http://www.surs.org).

*Benefits Provided*

A traditional benefit plan was established in 1941. Public Act 90-0448 (effective January 1, 1998) established an alternative defined benefit program known as the portable benefit package. Tier 1 of the traditional and portable plan refers to members that began participation prior to January 1, 2011. Public Act 96-0889 revised the traditional and portable benefit plans for members who began participation on or after January 1, 2011, and who do not have other eligible reciprocal system service. The revised plan is referred to as Tier 2. New employees are allowed six months after their date of hire to make an irrevocable election whether to participate in either the traditional or portable benefit plans. A summary of the benefit provisions as of June 30, 2022, can be found in the Financial Section of SURS ACFR.

*Contributions*

The State is primarily responsible for funding SURS on behalf of the individual employers at an actuarially determined amount. Public Act 88-0593 provides a statutory funding plan consisting of two parts: (i) a ramp-up period from 1996 to 2010 and (ii) a period of contributions equal to a level percentage of the payroll of active members within SURS to reach 90% of the total Actuarial Accrued Liability by the end of fiscal year 2045. Employer contributions from “trust, federal, and other funds” are provided under Section 15-155(b) of the Illinois Pension Code and require employers to pay contributions which are sufficient to cover the accruing normal costs on behalf of applicable employees. The employer normal cost for fiscal year 2022 and fiscal year 2023, respectively, was 12.32% and 12.83% of employee payroll. The normal cost is equal to the value of current year’s pension benefit and does not include any allocation for the past unfunded liability or interest on the unfunded liability. Plan members are required to contribute 8.0% of their annual covered salary, except for police officers and fire fighters who contribute 9.5% of their earnings. The contribution requirements of plan members and employers are established and may be amended by the State’s General Assembly.

Participating employers make contributions toward separately financed specific liabilities under Section 15-139.5(e) of the Illinois Pension Code (relating to contributions payable due to the employment of “affected annuitants” or specific return to work annuitants), Section 15-155(g) (relating to contributions payable due to earning increases exceeding 6% during the final rate of earnings period), and Section 15-155(j-5) (relating to contributions payable due to earnings exceeding the salary set for the Governor).

*Net Pension Liability*

The net pension liability (NPL) was measured as of June 30, 2022. At June 30, 2022, SURS defined benefit plan reported a NPL of \$29,078,053,857.

*Employer Proportionate Share of Net Pension Liability*

The amount of the proportionate share of the NPL to be recognized for Western Illinois University is \$0. The proportionate share of the State’s NPL associated with Western Illinois University is \$501,406,840 or 1.7243%. Western Illinois University’s proportionate share changed by (0.0872%) from 1.8115% since the last measurement date on June 30, 2021. This amount is not recognized in Western Illinois University’s financial statements. The NPL and total pension liability as of June 30, 2022, was determined based on the June 30, 2021, actuarial valuation rolled forward. The basis of allocation used in the proportionate share of net pension liability is the actual reported pensionable contributions made to SURS defined benefit plan during fiscal year 2021.

*Defined Benefit Pension Expense*

For the year ending June 30, 2022, SURS defined benefit plan reported a collective net pension expense of \$1,903,314,699.

*Employer Proportionate Share of Defined Benefit Pension Expense*

The employer proportionate share of collective defined benefit pension expense is recognized as nonoperating revenue with matching operating expense (compensation and benefits) in the financial statements. The basis of allocation used in the proportionate share of collective pension expense is the actual reported pensionable contributions made to SURS defined benefit plan during fiscal year 2021. As a result, Western Illinois University recognized revenue and defined benefit pension expense of \$32,819,769 from this special funding situation during the year ended June 30, 2023.

*Deferred Outflows of Resources and Deferred Inflows of Resources Related to Defined Benefit Pensions*

Deferred outflows of resources are the consumption of net position by SURS that is applicable to future reporting periods. Conversely, deferred inflows of resources are the acquisition of net position by SURS that is applicable to future reporting periods.

Western Illinois University paid \$446,367 in federal, trust or grant contributions to SURS defined benefit pension plan during the year ended June 30, 2023. These contributions were made subsequent to the pension liability measurement date of June 30, 2022, and are recognized as deferred outflows of resources as of June 30, 2023.

**Assumptions and Other Inputs**

*Actuarial assumptions*

Actuarial assumptions. The actuarial assumptions used in the June 30, 2022, valuation were based on the results of an actuarial experience study for the period from June 30, 2017, through June 30, 2020. The total pension liability in the June 30, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary increases	3.00 to 12.75 percent, including inflation
Investment rate of return	6.50 percent

Mortality rates were based on the Pub-2010 employee and retiree gender distinct tables with projected generational mortality and a separate mortality assumption for disabled participants.

The long-term expected rate of return on defined benefit pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return were adopted by the plan's trustees after considering input from the plan's investment consultants and actuary.

For each major asset class that is included in the pension plan's target asset allocation as of June 30, 2022, these best estimates are summarized in the following table:

<b>Defined Benefit Plan</b>	<b>Strategic Policy Allocation</b>	<b>Weighted Average Long-Term Expected Real Rate of Return (Arithmetic)</b>

*Discount Rate*

A single discount rate of 6.39% was used to measure the total pension liability. This single discount rate was based on an expected rate of return on pension plan investments of 6.50% and a municipal bond rate of 3.69% (based on the Fidelity 20-Year Municipal GO AA Index as of June 30, 2022). The projection of cash flows used to determine this single discount rate were the amounts of contributions attributable to current plan members and assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the statutory contribution rates under SURS funding policy. Based on these assumptions, the pension plan’s fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2076. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2076, and the municipal bond rate was applied to all benefit payments after that date.

*Sensitivity of the System’s Net Pension Liability to Changes in the Discount Rate*

Regarding the sensitivity of the NPL to changes in the single discount rate, the following presents the State’s NPL, calculated using a single discount rate of 6.39%, as well as what the State’s NPL would be if it were calculated using a single discount rate that is 1-percentage-point lower or 1-percentage-point higher:

1% Decrease	Current Single Discount Rate Assumption	1% Increase
5.39%	6.39%	7.39%
\$ 35,261,802,968	\$ 29,078,053,857	\$ 23,928,731,076

**DEFINED CONTRIBUTION PENSION PLAN**

**General Information about the Pension Plan**

*Plan Description*

Western Illinois University contributes to the Retirement Savings Plan (RSP) administered by the State Universities Retirement System (SURS), a cost-sharing multiple-employer defined contribution pension plan with a special funding situation whereby the State of Illinois (State) makes substantially all required contributions on behalf of the participating employers. SURS was established July 21, 1941, and provides retirement annuities and other benefits for staff members and employees of state universities and community colleges, certain affiliated organizations, and certain other state educational and scientific agencies and for survivors, dependents, and other

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**

beneficiaries of such employees. SURS is governed by Chapter 40, Act 5, Article 15 of the Illinois Compiled Statutes. SURS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by accessing the website at [www.surs.org](http://www.surs.org). The RSP and its benefit terms were established and may be amended by the State's General Assembly.

*Benefits Provided*

A defined contribution pension plan, originally called the Self-Managed Plan, was added to SURS benefit offerings as a result of Public Act 90-0448, effective January 1, 1998. The plan was renamed the RSP effective September 1, 2020, after an extensive plan redesign. New employees are allowed six months after their date of hire to make an irrevocable election whether to participate in either the traditional or portable defined benefit pension plans or the RSP. A summary of the benefit provisions as of June 30, 2022, can be found in SURS Annual Comprehensive Financial Report- Notes to the Financial Statements.

*Contributions*

All employees who have elected to participate in the RSP are required to contribute 8.0% of their annual covered earnings. Section 15-158.2(h) of the Illinois Pension Code provides for an employer contribution to the RSP of 7.6% of employee earnings. The State is primarily responsible for contributing to the RSP on behalf of the individual employers. Employers are required to make the 7.6% contribution for employee earnings paid from "trust, federal, and other funds" as described in Section 15-155(b) of the Illinois Pension Code. The contribution requirements of plan members and employers were established and may be amended by the State's General Assembly.

*Forfeitures*

Employees are not vested in employer contributions to the RSP until they have attained five years of service credit. Should an employee leave SURS-covered employment with less than five years of service credit, the portion of the employee's RSP account designated as employer contributions is forfeited. Employees who later return to SURS-covered employment will have these forfeited employer contributions reinstated to their account, so long as the employee's own contributions remain in the account. Forfeited employer contributions are managed by SURS and are used both to reinstate previously forfeited contributions and to fund a portion of the State's contributions on behalf of the individual employers. The vesting and forfeiture provisions of the RSP were established and may be amended by the State's General Assembly.

**Pension Expense Related to Defined Contribution Pensions**

*Defined Contribution Pension Expense*

For the year ended June 30, 2022, the State's contributions to the RSP on behalf of individual employers totaled \$89,770,940. Of this amount, \$80,902,699 was funded via an appropriation from the State and \$8,868,241 was funded from previously forfeited contributions.

*Employer Proportionate Share of Defined Contribution Pension Expense*

The employer proportionate share of collective defined contribution pension expense is recognized as nonoperating revenue with matching operating expense (compensation and benefits) in the financial statements. The basis of allocation used in the proportionate share of collective defined contribution pension expense is the actual reported pensionable contributions made to the RSP during fiscal year 2022. Western Illinois University's share of pensionable contributions was 1.8585%. As a result, Western Illinois University recognized revenue and defined contribution pension expense of \$1,668,376 from this special funding situation during the year ended June 30, 2023, of which \$164,815 constituted forfeitures.

**NOTE 11 – OTHER POSTEMPLOYMENT BENEFITS**

**Plan description.** The State Employees Group Insurance Act of 1971 ("SEGIA"), as amended, authorizes the Illinois State Employees Group Insurance Program ("SEGIP") to provide health, dental, vision, and life insurance benefits for certain retirees and their dependents. Substantially all of the University's full-time employees are members of SEGIP. Members receiving monthly benefits from the General Assembly Retirement System ("GARS"), Judges Retirement System ("JRS"), State Employees' Retirement System of Illinois ("SERS"), Teachers' Retirement System ("TRS"), and State Universities Retirement System of Illinois ("SURS") are eligible for these other post-employment benefits ("OPEB"). The eligibility provisions for each of the retirement systems are defined within Note 10. Certain TRS members eligible for coverage under SEGIP include: certified teachers employed by certain State agencies, executives employed by the Board of Education, regional superintendents, regional assistant superintendents, TRS employees, and members with certain reciprocal service.

The Department of Central Management Services ("CMS") administers these benefits for annuitants with the assistance of the public retirement systems sponsored by the State (GARS, JRS, SERS, TRS and SURS). The State recognizes SEGIP OPEB benefits as a single-employer defined benefit plan. The plan does not issue a stand-alone financial report.

**Benefits provided.** The health, dental, and vision benefits provided to and contribution amounts required from annuitants are the result of collective bargaining between the State and the various unions representing the State's and the university component units' employees in accordance with limitations established in SEGIA. Therefore, the benefits provided and contribution amounts are subject to periodic change. Coverage through SEGIP becomes secondary to Medicare after Medicare eligibility has been reached. Members must enroll in Medicare Parts A and B to receive

**WESTERN ILLINOIS UNIVERSITY**  
**A COMPONENT UNIT OF THE STATE OF ILLINOIS**  
**NOTES TO THE BASIC FINANCIAL STATEMENTS**  
**For the Year Ended June 30, 2023**

the subsidized SEGIP premium available to Medicare eligible participants. SEGIA requires the State to provide life insurance benefits for annuitants equal to their annual salary as of the last day of employment until age 60, at which time, the benefit amount becomes \$5,000.

**Funding policy and annual OPEB cost.** OPEB offered through SEGIP are financed through a combination of retiree premiums, SEGIP contributions pursuant to SEGIA (5 ILCS 375/11), and Federal government subsidies from the Medicare Part D program. These contributions are deposited in the Health Insurance Reserve Fund, which covers both active employees and retired members. Annuitants may be required to contribute towards health and vision benefits with the amount based on factors such as date of retirement, years of credited service with the State, whether the annuitant is covered by Medicare, and whether the annuitant has chosen a managed health care plan. Annuitants who retired prior to January 1, 1998, and who are vested in GARS, JRS, SERS, TRS, and SURS do not contribute toward health and vision benefits. For annuitants who retired on or after January 1, 1998, the annuitant's contribution amount is reduced five percent for each year of credited service with the State allowing those annuitants with twenty or more years of credited service to not have to contribute towards health and vision benefits. All annuitants are required to pay for dental benefits regardless of retirement date. CMS' Director, on an annual basis, determines the amount of contributions necessary to fund the basic program of group benefits. The State's contributions are made primarily from the State's General Fund on a pay-as-you-go basis. No assets are accumulated or dedicated to funding the retiree benefits and a separate trust has not been established for the funding of OPEB.

For fiscal year 2023, the annual cost of the basic program of group health, dental, and vision benefits before the State's contribution was \$12,635.52 (\$6,989.76 if Medicare eligible) if the annuitant chose benefits provided by a health maintenance organization and \$14,646.00 (\$5,882.40 if Medicare eligible) if the annuitant chose other benefits. The State is not required to fund the plan other than the pay-as-you-go amount necessary to provide the current benefits to retirees.

**Special Funding Situation Portion of OPEB.** The proportionate share of the State's OPEB expense relative to the University's employees totaled (\$36,032,211) during the year ended June 30, 2023. This amount was recognized by the University as non-operating special funding situation revenue and operating expense allocated to the related function performed by the employees during the year ended June 30, 2023.

**For the Year Ended June 30, 2023**

The University recognized OPEB expense for the year ended June 30, 2023, of (\$1,172,076). In addition, the University recorded \$624,824 of revenue and expenditures in the General Revenue account of the General Fund to account for contributions to SEGIP for University employees that were paid from statewide General Revenue Fund appropriations. At June 30, 2023, the University reported deferred outflows and deferred inflows of resources, as of the measurement date of June 30, 2022, from the following sources:

<b>Deferred outflows of resources</b>	
Differences between expected and actual experience	\$ 91,557
Changes of assumptions	220,922
Changes in proportion and differences between employer contributions and proportionate share of contributions	4,944,756

Changes in proportion and differences between employer contributions and proportionate share of contributions	354,735
<b>Total deferred inflows of resources</b>	<u>\$ 11,568,817</u>

The amounts reported as deferred outflows of resources related to OPEB resulting from the University's contributions subsequent to the measurement date will be recognized as a reduction to the OPEB liability in the year ended June 30, 2024. Other amounts reported as deferred outflows and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

**NOTE 12 – INSURANCE**

Through its participation in the Illinois Public Higher Education Cooperative (IPHEC), the University has contracted with commercial carriers to provide various insurance coverages, including educators’ legal and other general liability insurance. The University’s liability coverages have a \$350,000 deductible per occurrence. Additionally, the University purchases property insurance coverage for the replacement value of University real property and contents. Settled claims have not exceeded commercial coverage in any of the three preceding years.

**NOTE 14 - CONTRACT WITH WESTERN ILLINOIS UNIVERSITY FOUNDATION**

The University has a contract with the Western Illinois University Foundation in which the Foundation has agreed to aid and assist the University in achieving its educational, research, and service goals by developing and administering its gifts. These gifts received by the Foundation are to be used for the benefit of the University in its scholarship, loan, grant and other supporting programs. The University agreed, as part of this contract, to furnish certain services necessary to the operation of the Foundation.

For Fiscal Year 2023, the Foundation did not specifically reimburse the University for \$1,194,544 of personal service costs, facility use and other costs provided by the University. However, the Foundation directly paid expenses for certain University activity from contributions held at the Foundation in the amount of \$2,191,821 for Fiscal Year 2023.

**NOTE 15 - COMMITMENTS AND CONTINGENCIES**

*Claims and Litigation*

The University is currently involved in various claims and pending legal actions related to matters arising from the ordinary conduct of business. The University administration believes that ultimate disposition of the actions will not have a material effect on the financial statements of the University.

*Government Grants*

The University is currently participating in numerous grants from various departments and agencies of the federal and State governments. The expenditures of grant proceeds must be for allowable and eligible purposes. Single audits and audits by the granting department or agency may result in requests for reimbursements of unused grant proceeds or disallowed expenditures. Upon notification of final approval by the granting department or agency, the grants are considered closed.

**NOTE 16 – CHANGE IN ACCOUNTING PRINCIPLE**

As of July 1, 2022, the University implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. This Statement establishes a single model for subscription accounting based on the foundational principle that subscriptions are financings of the right to use an underlying asset. A lessee is required to recognize a subscription liability and an intangible right-to-use lease asset.

1. Changes of Benefit Terms

There were no benefit changes recognized in the Total Pension Liability as of June 30, 2022, June 30, 2021, June 30, 2020, June 30, 2019, June 30, 2018 or June 30, 2017.

2. Changes of Assumptions (Fiscal Year 2022)

In accordance with Illinois Compiled Statutes, an actuarial review is to be performed at least once every three years to determine the reasonableness of actuarial assumptions regarding the retirement, disability, mortality, turnover, interest, and salary of the members and benefit recipients of SURS. An experience review for the years June 30, 2017, to June 30, 2020, was performed in Spring 2021, resulting in the adoption of new assumptions as of June 30, 2021. These assumptions are listed below and remained the same for the June 30, 2022, actuarial valuation.

- Salary increase. Change in the overall assumed salary increase rates, ranging from 3.00 percent to 12.75 percent based on years of service, while maintaining the underlying wage inflation rate of 2.25 percent.
- Investment return. Decrease the investment return assumption to 6.50 percent. This reflects decreasing the assumed real rate of return to 4.25 percent and maintaining the underlying assumed price inflation of 2.25 percent.
- Effective rate of interest. Decrease the long-term assumption for the effective rate of interest for crediting the money purchase accounts to 6.50 percent.
- Normal retirement rates. Establish separate rates for members in academic positions and nonacademic positions to reflect that retirement rates for academic positions are lower than for nonacademic positions.
- Early retirement rates. Establish separate rates for members in academic positions and nonacademic positions to reflect that retirement rates for academic positions are lower than for nonacademic positions.
- Turnover rates. Change rates to produce slightly lower expected turnover for most members, while maintaining pattern of decreasing termination rates as years of service increase.
- Mortality rates. Change from the RP-2014 to the Pub-2010 mortality tables to reflect the latter's higher applicability to public pensions. Update the projection scale from the MP-2017 to the MP-2020 scale.
- Disability rates. Establish separate rates for members in academic positions and non-academic positions and maintain separate rates for males and females.
- Plan election. Change plan election assumptions to 75 percent Tier 2 and 25 percent Retirement Savings Plan (RSP) for non-academic members. Change plan election assumptions to 55 percent Tier 2 and 45 percent Retirement Savings Plan (RSP) for academic members.

Changes of Assumptions (Fiscal Year 2019)

In accordance with Illinois Compiled Statutes, an actuarial review is to be performed at least once every three years to determine the reasonableness of actuarial assumptions regarding the retirement, disability, mortality, turnover, interest and salary of the members and benefit recipients of SURS. An experience review for the years June 30, 2014 to June 30, 2017 was performed in February 2018, resulting in the adoption of new assumptions as of June 30, 2018.

- Salary increase. Decrease in the overall assumed salary increase rates, ranging from 3.25 percent to 12.25 percent based on years of service, with underlying wage inflation of 2.25 percent.
- Investment return. Decrease the investment return assumption to 6.75 percent. This reflects maintaining an assumed real rate of return of 4.50 percent and decreasing the underlying assumed price inflation to 2.25 percent.
- Effective rate of interest. Decrease the long-term assumption for the effective rate of interest for crediting the money purchase accounts to 6.75 percent (effective July 2, 2019).
- Normal retirement rates. A slight increase in the retirement rate at age 50. No change to the rates for ages 60-61, 67-74, and 80+, but a slight decrease in rates at all other ages. A rate of 50 percent if the member has 40 or more years of service and is younger than age 80.
- Early retirement rates. Decrease in rates for all Tier 1 early retirement eligibility ages (55-59).
- Turnover rates. Change rates to produce lower expected turnover for members with less than 10 years of service and higher turnover for members with more than 10 years of service.
- Mortality rates. Maintain the RP-2014 mortality tables with projected generational mortality improvement. Update the projection scale from the MP-2014 to the MP-2017 scale.
- Disability rates. Decrease current rates to reflect that certain members who receive disability benefits do not receive the benefits on a long-term basis.

Changes of Assumptions (Fiscal Year 2018)

In accordance with Illinois Compiled Statutes, an actuarial review is to be performed at least once every three years to determine the reasonableness of actuarial assumptions regarding the retirement, disability, mortality, turnover, interest and salary of the members and benefit recipients of SURS. An experience review for the years June 30, 2010 to June 30, 2014 was performed in February 2015, resulting in the adoption of new assumptions as of June 30, 2015.

- Mortality rates. Change from the RP 2000 Mortality table projected to 2017, sex distinct, to the RP-2014 mortality tables with projected generational mortality improvement. Change to a separate mortality assumption for disabled participants.
- Salary increase. Change assumption to service-based rates, ranging from 3.75 percent to 15.00 percent based on years of service, with underlying wage inflation of 3.75 percent.
- Normal retirement rates. Change to retirement rates at ages younger than 60, age 66, and ages 70-79 to reflect observed experiences.
- Early retirement rates. Change to a slight increase to the rates at ages 55 and 56.
- Turnover rates. Change to produce lower expected turnover for members with less than 10 years of service and higher turnover for members with more than 10 years of service than the currently assumed rates.
- Disability rates. Decrease rates and have separate rates for males and females to reflect observed experience.
- Dependent assumption. Maintain the current assumption on marital status that varies by age and sex and the assumption that males are three years older than their spouse.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Honorable Frank J. Mautino  
Auditor General  
State of Illinois

and

Board of Trustees  
Western Illinois University

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities, fiduciary activities, and the discretely presented component unit of Western Illinois University (the "University"), collectively, a component unit of the State of Illinois, as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the University's basic financial statements, and we have issued our report thereon dated February 22, 2024.

Our report includes a reference to another auditor who audited the financial statements of the Western Illinois University Foundation, the discretely presented component unit, as described in our report on the University's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by that auditor.

### **Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the University's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the University's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the University's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the University's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A. **FINDING** (Inadequate Internal Controls over Census Data)

During the previous audit period, the University did not have adequate internal control over reporting its census data and did not have a reconciliation process to provide assurance census data submitted to its pension and other postemployment benefits (OPEB) plans was complete and accurate.

During the current audit period, the reconciliation was prepared and no other exceptions were noted in related to the June 30, 2021 census data. (Finding Code No. 2022-001, 2021-001, 2020-001)
