## OFFICE OF THE SECRETARY OF STATE

ALEXI GIANNOULIAS ● Secretary of State

### MANAGEMENT ASSERTION LETTER

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Office of the Illinois Secretary of State (Office) and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Office's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Office has materially complied with the specified requirements listed below.

- A. All of the Office's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Office to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code

The employer contributions remitted by the Office to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Office and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

State of Illinois, Office of the Illinois Secretary of State

External Auditors  
State of Illinois, Office of the Secretary of State

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Office of the Illinois Secretary of State (Office) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Office is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Office's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Office's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Office to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Office to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Office and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Office complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Office complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Office's compliance with the specified requirements.

In our opinion, the Office complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as item 2023-001.

The Office's response to the census data compliance finding identified in our examination is described in the accompanying Schedule of Findings. The Office's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

## **Report on Internal Control Over Compliance**

Management of the Office is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Office's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Office's compliance with the specified requirements and to test and report on the Office's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Office's internal control. Accordingly, we do not express an opinion on the effectiveness of the Office's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2023-001 that we consider to be a significant deficiency.

The Office's response to the internal control finding identified in our examination is described in the accompanying Schedule of Findings. The Office's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**SIGNED ORIGINAL ON FILE**

Schaumburg, Illinois  
July 31, 2024

**State of Illinois  
Office of the Secretary of State  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data**

The Office of the Illinois Secretary of State (Office) had certain deficiencies in their internal control to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or other postemployment benefit (OPEB) plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuations (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the Office's employees are members of both the pension plan administered by the System and the State Employees Group Insurance Program (SEGIP) sponsored by the State of Illinois which includes OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During the performance of the forwards testing component of the census examination, the auditors identified two of sixty (3%) employees included on Office payroll reports with an incorrect retirement deduction code.

The result of the error led to inaccurate census data being utilized by the System and the State in the performance of the annual pension and OPEB actuarial valuation processes. The independent actuaries utilized by the System and the State of Illinois for the pension and OPEB plans deemed the error immaterial to the plan level valuations as a whole.

The State Records Act (5 ILCS 160/8) requires the Office make and preserve records containing adequate and proper documentation of its essential transactions to protect the legal and financial rights of the State and of persons directly affected by the Office's activities.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Office establish and maintain a system, or systems, of internal fiscal and administrative control to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

Office officials indicated the exception was due to human error.

Failure to ensure census data reported to the System was complete and accurate may result in significant misstatements of the Office's financial statements and reduce the overall accuracy of System-related pension liabilities, deferred inflows and outflows of resources, and expense recorded by the State and its agencies. (Finding Code No. 2023-001, 2022-001, 2021-001)

**State of Illinois  
Office of the Secretary of State  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data (Continued)**

**Recommendation:**

We recommend the Office strengthen controls to ensure accurate census data is provided to the System for use in the annual actuarial valuation process. If differences are noted between the Office's data and the System's data, these differences should be communicated timely and rectified to ensure the actuarial valuations are using accurate data.

**Office Response:**

The Office agrees with the finding. However, once the errors were found, the Office has since strengthened its internal controls on determining Tier status for new employees. The Office will also continue to monitor and evaluate its internal controls to ensure accurate census data.

External Auditors  
State of Illinois, Department of Children and Family Services

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Children and Family Services (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as item 2023-001.

The Department's response to the census data compliance finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

## **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A *material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2023-001 that we consider to be a significant deficiency.

The Department's response to the internal control finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**Finding No. 2023-001 Inaccurate Census Data**

The Department of Children and Family Services (Department) had certain deficiencies in their internal control to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or other postemployment benefit (OPEB) plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuations (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the Department's employees are members of both the pension plan administered by the System and the State Employees Group Insurance Program (SEGIP) sponsored by the State of Illinois which includes OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During the performance of the backwards testing component of the census examination, the auditors identified one of sixty (2%) employees included on Department payroll reports with an incorrect rate of pay. The rate of pay reported was understated by \$525, or approximately 6%, and the error was applicable to two months of the fiscal year.

The result of the error above led to contributions due to the plan being understated and inaccurate census data being utilized by the System and the State in the performance of the annual pension and OPEB actuarial valuation processes. The independent actuaries utilized by the System and the State of Illinois for the pension and OPEB plans deemed the error immaterial to the plan level valuations as a whole.

The State Records Act (5 ILCS 160/8) requires the Department make and preserve records containing adequate and proper documentation of its essential transactions to protect the legal and financial rights of the State and of persons directly affected by the Department's activities.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Department establish and maintain a system, or systems, of internal fiscal and administrative control to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

Department officials indicated the exception was due to human error.

Failure to ensure census data reported to the System was complete and accurate may result in significant misstatements of the Department's financial statements and reduce the overall accuracy of System-related pension liabilities, deferred inflows and outflows of resources, and expense recorded by the State and its agencies. (Finding Code No. 2023-001, 2022-001)

**State of Illinois  
Department of Children and Family Services  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data (Continued)**

**Recommendation:**

We recommend the Department strengthen controls to ensure accurate census data is provided to the System for use in the annual actuarial valuation process. If differences are noted between the Department's data and the System's data, these differences should be communicated timely and rectified to ensure the actuarial valuations are using accurate data.

**Department Response:**

DCFS agrees with the recommendation. Payroll will coordinate with the Office of Employee Services to gain access to the CMS Personnel system to assist in the discovery and prevention of human errors. The additional layer of security and check work should reduce future errors of this kind. We will also send any errors discovered to SERS as soon as possible to ensure the actuarial valuations are using accurate data.

MANAGEMENT ASSERTION LETTER

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Department of Corrections (Department) and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Department's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Department has materially complied with the specified requirements listed below.

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

State of Illinois, Department of Corrections

State of Illinois, Department of Corrections

External Auditors  
State of Illinois, Department of Corrections

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Corrections (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as item 2023-001.

The Department's response to the census data compliance finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

### **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A *material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2023-001 that we consider to be a significant deficiency.

The Department's response to the internal control finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**State of Illinois  
Department of Corrections  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data**

The Department of Corrections (Department) had certain deficiencies in their internal control to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or other postemployment benefit (OPEB) plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuations (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the Department's employees are members of both the pension plan administered by the System and the State Employees Group Insurance Program (SEGIP) sponsored by the State of Illinois which includes OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During the performance of the forwards testing component of the census examination, the auditors identified one of sixty (2%) employees included on Department payroll reports with an incorrect retirement deduction code.

The result of this error led to inaccurate census data being utilized by the System and the State in the performance of the annual pension and OPEB actuarial valuation processes. The independent actuaries utilized by the System and the State of Illinois for the pension and OPEB plans deemed the error immaterial to the plan level valuations as a whole.

The State Records Act (5 ILCS 160/8) requires the Department make and preserve records containing adequate and proper documentation of its essential transactions to protect the legal and financial rights of the State and of persons directly affected by the Department's activities.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Department establish and maintain a system, or systems, of internal fiscal and administrative control to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

Department officials indicated the exception was due to human error.

Failure to ensure census data reported to the System was complete and accurate may result in significant misstatements of the Department's financial statements and reduce the overall accuracy of System-related pension liabilities, deferred inflows and outflows of resources, and expense recorded by the State and its agencies. MANAGEMENT ASSERTION LETTER

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

All:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Department of Human Services (Department) and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Department's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Department has materially complied with the specified requirements listed below.

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

State of Illinois, Department of Human Services

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Human Services (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as item 2023-001.

The Department's response to the census data compliance finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

### **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. A *material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2023-001 that we consider to be a significant deficiency.

The Department's response to the internal control finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**State of Illinois  
Department of Human Services  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data**

The Department of Human Services (Department) had certain deficiencies in their internal control to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or other postemployment benefit (OPEB) plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuations (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the Department's employees are members of both the pension plan administered by the System and the State Employees Group Insurance Program (SEGIP) sponsored by the State of Illinois which includes OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During the performance of the census examination, it was identified that:

- During forwards testing, the auditors identified one of sixty (2%) employees included on Department payroll reports with an incorrect retirement deduction code.
- During backwards testing, the auditors identified one of sixty (2%) employees included on Department payroll reports with an incorrect retirement deduction code which resulted in them being improperly excluded from participating in the System and therefore improperly excluded from the census data. Nine pay periods of eligible activity and an estimated \$450 of employee contributions were excluded from census data as of year-end.

The result of the errors above led to contributions due to the plan being understated and inaccurate census data being utilized by the System and the State in the performance of the annual pension and OPEB actuarial valuation processes. The independent actuaries utilized by the System and the State of Illinois for the pension and OPEB plans deemed these errors immaterial to the plan level valuations as a whole.

The State Records Act (5 ILCS 160/8) requires the Department make and preserve records containing adequate and proper documentation of its essential transactions to protect the legal and financial rights of the State and of persons directly affected by the Department's activities.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Department establish and maintain a system, or systems, of internal fiscal and administrative control to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

Department officials indicated these exceptions were due to human error.

**State of Illinois  
Department of Human Services  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data (Continued)**

Failure to ensure census data reported to the System was complete and accurate may result in significant misstatements of the Department's financial statements and reduce the overall accuracy of System-related pension liabilities, deferred inflows and outflows of resources, and expense recorded by the State and its agencies. (Finding Code No. 2023-001, 2022-001)

**Recommendation:**

We recommend the Department strengthen controls to ensure accurate census data is provided to the System for use in the annual actuarial valuation process. If differences are noted between the Department's data and the System's data, these differences should be communicated timely and rectified to ensure the actuarial valuations are using accurate data.

**Department Response:**

The Illinois Department of Human Services (IDHS) accepts the recommendation. The Department will work to continue to train staff and provide oversight to reduce errors resulting from manual processes. The Department will review the annual reconciliation process to identify if any modifications can be made to catch errors of this nature.

MANAGEMENT ASSERTION LETTER

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Department of Lottery (Department) and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Department's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Department has materially complied with the specified requirements listed below.

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Lottery (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Healthcare and Family Services (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

However, the results of our procedures disclosed instances of noncompliance with the specified requirements, which are required to be reported in accordance with criteria established by the *Audit Guide* and are described in the accompanying Schedule of Findings as item 2023-001.

The Department's response to the census data compliance finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

### **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as item 2023-001 that we consider to be a significant deficiency.

The Department's response to the internal control finding identified in our examination is described in the accompanying Schedule of Findings. The Department's response was not subjected to the procedures applied in the examination and, accordingly, we express no opinion on the response.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Schaumburg, Illinois  
July 31, 2024

**State of Illinois  
Department of Healthcare and Family Services  
Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data**

The Department of Healthcare and Family Services (Department) had certain deficiencies in their internal control to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

Census data is demographic data (date of birth, gender, years of service, etc.) of the active, inactive, or retired members of a pension or other postemployment benefit (OPEB) plan. The accumulation of inactive or retired members' census data occurs before the current accumulation period of census data used in the plan's actuarial valuations (which eventually flows into each employer's financial statements), meaning the plan is solely responsible for establishing internal controls over these records and transmitting this data to the plan's actuary. In contrast, responsibility for active members' census data during the current accumulation period is split among the plan and each member's current employer(s). Initially, employers must accurately transmit census data elements of their employees to the plan. Then, the plan must record and retain these records for active employees and then transmit this census data to the plan's actuary.

We noted the Department's employees are members of both the pension plan administered by the System and the State Employees Group Insurance Program (SEGIP) sponsored by the State of Illinois which includes OPEB. In addition, we noted these plans have characteristics of different types of pension and OPEB plans, including single employer plans and cost-sharing multiple-employer plans.

During the performance of the backwards testing component of the census examination, the auditors identified one of sixty (2%) employees included on Department payroll reports with an incorrect date of birth.

The result of the error above led to inaccurate census data being utilized by the System and the State in the performance of the annual pension and OPEB actuarial valuation processes. The independent actuaries utilized by the System and the State of Illinois for the pension and OPEB plans deemed the error immaterial to the plan level valuations as a whole.

The State Records Act (5 ILCS 160/8) requires the Department make and preserve records containing adequate and proper documentation of its essential transactions to protect the legal and financial rights of the State and of persons directly affected by the Department's activities.

Further, the Fiscal Control and Internal Auditing Act (30 ILCS 10/3001) requires the Department establish and maintain a system, or systems, of internal fiscal and administrative control to provide assurance funds applicable to operations are properly recorded and accounted for to permit the preparation of reliable financial and statistical reports.

Department officials indicated the exception was due to conflicting source documents used to validate the employee's date of birth.

Failure to ensure census data reported to the System was complete and accurate may result in significant misstatements of the Department's financial statements and reduce the overall accuracy of System-related pension liabilities, deferred inflows and outflows of resources, and expense recorded by the State and its agencies. (Finding Code No. 2023-001, 2022-001)

**State of Illinois

Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Finding No. 2023-001 Inaccurate Census Data (Continued)**

**Recommendation:**

We recommend the Department strengthen controls to ensure accurate census data is provided to the System for use in the annual actuarial valuation process. If differences are noted between the Department's data and the System's data, these differences should be communicated timely and rectified to ensure the actuarial valuations are using accurate data.

**Department Response:**

The Department accepts the recommendation and will ensure documentation to support census data is provided by employees. If differences are noted they will be communicated in a timely manner.

MANAGEMENT ASSERTION LETTER

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Department of Revenue (Department) and reporting their significant elements of census data and related employer and/or employee contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Department's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Department has materially complied with the specified requirements listed below.

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object codes 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

State of Illinois, Department of Revenue

State of Illinois, Department of Revenue

External Auditors  
State of Illinois, Department of Revenue

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Department of Revenue (Department) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Department's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Department to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Department and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Department complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department's compliance with the specified requirements.

In our opinion, the Department complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Department is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department's compliance with the specified requirements and to test and report on the Department's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Department's internal control. Accordingly, we do not express an opinion on the effectiveness of the Department's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

State of Illinois, Capital Development Board

External Auditors  
State of Illinois, Capital Development Board

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System) we have examined compliance by management of the State of Illinois, Capital Development Board (CDB) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023 and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the CDB is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the CDB's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the CDB's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the CDB to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the CDB to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the CDB complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the CDB complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the CDB's compliance with the specified requirements.

In our opinion, the CDB complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the CDB is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the CDB's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the CDB's compliance with the specified requirements and to test and report on the CDB's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the CDB's internal control. Accordingly, we do not express an opinion on the effectiveness of the CDB's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the Water Revolving Fund of the State of Illinois, Environmental Protection Agency (Agency) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023 and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Agency is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Agency's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Agency's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by Agency to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Agency to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Agency complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Agency complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Agency's compliance with the specified requirements.

In our opinion, the Agency complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Agency is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Agency's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Agency's compliance with the specified requirements and to test and report on the Agency's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

MANAGEMENT ASSERTION LETTER

07/31/2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the State of Illinois, Illinois State Board of Education (Agency) and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Agency's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Agency has materially complied with the specified requirements listed below.

- A. All of the Agency's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Agency to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Agency to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Agency and recorded within the Statewide Accounting Management System under detail object codes 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

State of Illinois, Illinois State Board of Education

External Auditors  
State of Illinois, Illinois State Board of Education

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Illinois State Board of Education (Agency) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023 and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Agency is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Agency's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Agency's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Agency to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Agency to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Agency and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Agency complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Agency complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Agency's compliance with the specified requirements.

In our opinion, the Agency complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Agency is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Agency's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Agency's compliance with the specified requirements and to test and report on the Agency's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Illinois Student Assistance Commission (Commission) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Commission is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Commission's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Commission's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Commission to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Commission to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations. Further, General Revenue Fund payroll paid by the Commission and recorded within the Statewide Accounting Management System under detail object code 1120 was complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Commission complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Commission complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Commission's compliance with the specified requirements.

In our opinion, the Commission complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Commission's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Commission's compliance with the specified requirements and to test and report on the Commission's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

State of Illinois, Illinois Workers' Compensation Commission

Board of Trustees  
State Employees' Retirement System

Mr. Timothy B. Blair  
Executive Secretary  
State Employees' Retirement System

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the Self-Insurers Security Fund (Fund 940) of the State of Illinois, Illinois Workers' Compensation Commission (Commission) with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Commission is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Commission's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Commission's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Commission to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Commission to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Commission complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Commission complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Commission's compliance with the specified requirements.

In our opinion, the Commission complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Commission is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Commission's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Commission's compliance with the specified requirements and to test and report on the Commission's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Prior Finding Not Repeated**

**A. Inaccurate Census Data**

In the prior compliance examination, the Illinois Workers' Compensation Commission (Commission) had certain deficiencies in their internal controls in place to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

During the current compliance examination, we did not detect any errors in our testing which would indicate noncompliance in the census data that is provided to the System for use in the annual actuarial valuation process. As a result, this finding is not repeated. (Finding Code No. 2022-001, 2021-001)

MANAGEMENT ASSERTION LETTER

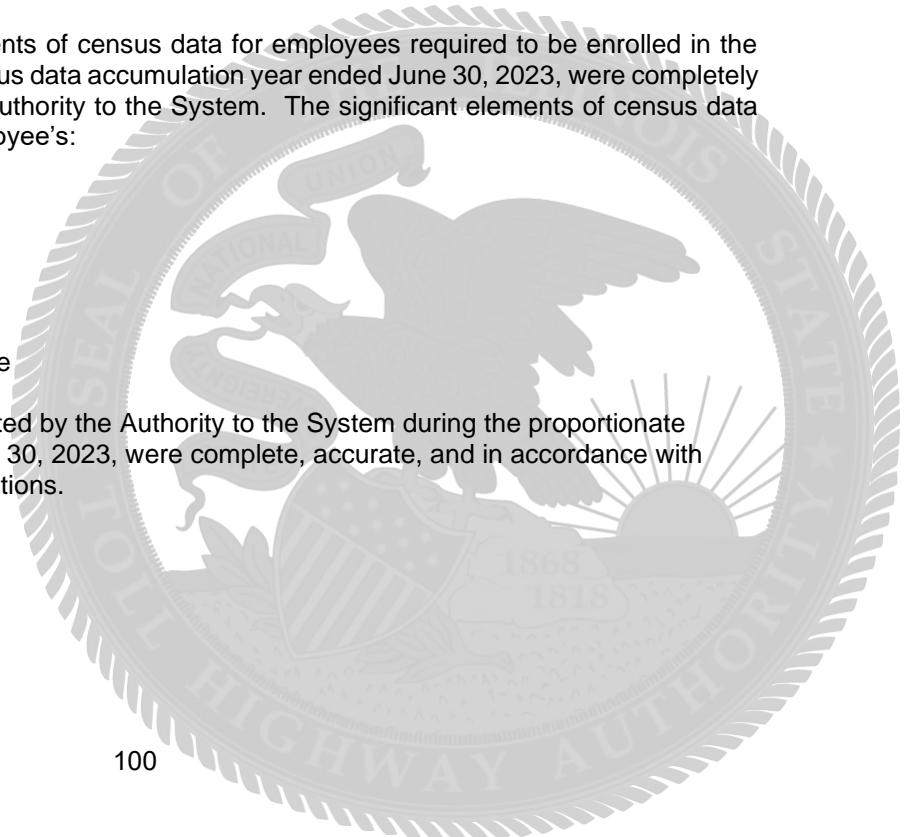

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

We are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations applicable to identifying and enrolling eligible employees of the Illinois State Toll Highway Authority (Authority), a component unit of the State of Illinois, and reporting their significant elements of census data and related employer contributions within the State Employees' Retirement System (System). We are responsible for and we have established and maintained an effective system of internal controls over the specified requirements. We have performed an evaluation of the Authority's compliance with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Authority has materially complied with the specified requirements listed below.

- A. All of the Authority's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.
- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Authority to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code
- C. The employer contributions remitted by the Authority to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Yours truly,

Illinois State Toll Highway Authority

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the Illinois State Toll Highway Authority (Authority), a component unit of the State of Illinois, with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Authority is responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Authority's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Authority's employees required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023.

- B. The changes in significant elements of census data for employees required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Authority to the System.

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Authority to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Authority complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Authority's compliance with the specified requirements.

In our opinion, the Authority complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

#### **Report on Internal Control Over Compliance**

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Authority's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Authority's compliance with the specified requirements and to test and report on the Authority's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

**MANAGEMENT ASSERTION LETTER**

July 31, 2024

RSM US LLP  
1450 American Lane, Suite 1400  
Schaumburg, IL 60173

Ladies and Gentlemen:

The State of Illinois, Illinois State Police (Department) and the Illinois State Toll Highway Authority (Authority), a component unit of the State of Illinois, have shared responsibilities for processing the payroll of sworn officers assigned to the Department's District 15, which is responsible for patrolling the Authority's roadways and facilities. The Department and the Authority are responsible for the identification of, and compliance with, all aspects of laws, rules, and regulations, and the intergovernmental agreement between the Department and the Authority outlining the duties, roles, functions, and responsibilities of the parties as allowed for by the Illinois State Police Act (20 ILCS 2610/20), applicable to identifying and enrolling eligible sworn officers of District 15 with the State Employees' Retirement System (System). The Authority is responsible for processing and paying the payroll for the Department and, therefore, is responsible for reporting the Department's significant elements of census data and authorizing the Comptroller to pay the related employer contributions to the System. We are responsible for, and we have established and maintained an effective system of internal controls over the specified requirements. We have jointly performed an evaluation of our compliance based on the delineated responsibilities of the Department and the Authority with the specified requirements during the applicable periods noted below. Based on this evaluation, we assert the Department and the Authority have materially complied with the specified requirements listed below.

- A. All of the Department's sworn officers assigned to District 15 required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023. The enrollment of these sworn officers within the System occurred through payroll transactions which were processed by the Authority using information provided by the Department.
- B. The changes in significant elements of census data for District 15's sworn officers required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department through the Authority's payroll transactions to the System. The significant elements of census data of the System include each employee's:
  - social security number;
  - first and last name;
  - date of birth;
  - gender;
  - rate of pay; and,
  - retirement deduction code

**Report on Compliance**

As Special Assistant Auditors for the Auditor General of the State Employees' Retirement System (System), we have examined compliance by management of the State of Illinois, Illinois State Police (Department) and the Illinois State Toll Highway Authority (Authority), a component unit of the State of Illinois, with the specified requirements listed below, as more fully described in the *Audit Guide for Financial Audits and Compliance Attestation Engagements of Illinois State Agencies (Audit Guide)* as adopted by the Auditor General, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

Management of the Department and Authority are responsible for compliance with the specified requirements. Our responsibility is to express an opinion on the Authority's compliance with the specified requirements based on our examination.

The specified requirements are:

- A. All of the Department's sworn officers assigned to District 15 required to be enrolled in the System in accordance with applicable laws, rules, and regulations were properly enrolled in the System during the census data accumulation year ended June 30, 2023. The enrollment of these sworn officers within the System occurred through payroll transactions which were processed by the Authority using information provided by the Department
- B. The changes in significant elements of census data for District 15's sworn officers required to be enrolled in the System occurring during the census data accumulation year ended June 30, 2023, were completely and accurately reported by the Department through the Authority's payroll transactions to the System. The significant elements of census data of the System include each employee's:

The significant elements of census data of the System include each employee's:

- a. social security number;
  - b. first and last name;
  - c. date of birth;
  - d. gender;
  - e. rate of pay; and,
  - f. retirement deduction code.
- C. The employer contributions remitted by the Authority for the Department's sworn officers assigned to District 15 to the System during the proportionate share allocation year ended June 30, 2023, were complete, accurate, and in accordance with applicable laws, rules, and regulations.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants, the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the Illinois State Auditing Act (Act), and the *Audit Guide*. Those standards, the Act, and the *Audit Guide* require that we plan and perform the examination to obtain reasonable assurance about whether the Department and Authority complied with the specified requirements in all material respects. An examination involves performing procedures to obtain evidence about whether the Authority complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material noncompliance with the specified requirements, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

Our examination does not provide a legal determination on the Department and Authority's compliance with the specified requirements.

In our opinion, the Department and Authority complied with the specified requirements, in all material respects, during:

1. the census data accumulation year for the System ended June 30, 2023, and
2. the proportionate share allocation year for the System ended June 30, 2023.

The purpose of this report is solely to describe the scope of our testing and the results of that testing in accordance with the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

### **Report on Internal Control Over Compliance**

Management of the Department and Authority are responsible for establishing and maintaining effective internal control over compliance with the specified requirements (internal control). In planning and performing our examination, we considered the Department and Authority's internal control to determine the examination procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the Department and Authority's compliance with the specified requirements and to test and report on the Department and Authority's internal control in accordance with the *Audit Guide*, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with the specified requirements on a timely basis. *A material weakness in internal control* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that material noncompliance with the specified requirements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our examination we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and the results of that testing based on the requirements of the *Audit Guide*. Accordingly, this report is not suitable for any other purpose.

Compliance Examination of Census Data – Employer Pensions  
Schedule of Findings**

**For the Year Ended June 30, 2023**

---

**Prior Finding Not Repeated**

**A. Inaccurate Census Data**

In the prior compliance examination, the Illinois State Police (Department) had certain deficiencies in their internal controls in place to ensure accurate census data was provided to the State Employees' Retirement System of Illinois (System) for use in the applicable annual actuarial valuations.

During the current compliance examination, our testing indicated the Department had strengthened controls to ensure accurate census data was provided to the System for use in the annual actuarial valuation process, as no exceptions were identified. As a result, this finding is not repeated. (Finding Code No. 2022-001)
