FINANCIAL STATEMENT REPORT

SUMMARY

The audit of the accompanying financial statements of the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services (Department), was performed by Sikich LLP.

Based on their audit, the auditors expressed an unmodified opinion on the Local Government Health Insurance Reserve Fund's financial statements.

SUMMARY OF FINDINGS

None.

EXIT CONFERENCE

The Department waived an exit conference.

INDEPENDENT AUDITOR'S REPORT

Honorable Frank J. Mautino
Auditor General
State of Illinois

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited the accompanying financial statements of the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services, as of June 30, 2019, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2, the financial statements present only the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services and do not purport to, and do not, present fairly the financial position of the State of Illinois, Department of Central Management Services, as of June 30, 2019, and the respective changes in its financial position or its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Claims for Active Employees for the Ten Years Ended June 30, 2019 on page 17 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted a management's discussion and analysis for the Local Government Health Insurance Reserve Fund that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2019 on our consideration of the State of Illinois, Department of Central Management Services' internal control over financial reporting of the Local Government Health Insurance Reserve Fund and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Illinois, Department of Central Management Services' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Department of Central Management Services' internal control over financial reporting of the Local Government Health Insurance Reserve Fund and its compliance.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

1) Organization

The Local Government Health Insurance Reserve Fund (LGHIRF) was established to provide health and dental insurance to participating local governmental entities. The fund is part of the primary government of the State of Illinois. As a result of the Governor's Executive Order 12-01, the responsibilities in relation to LGHIRF were transferred to the Department of Central Management Services (Department) as of July 1, 2013. The Department is responsible for the financial reporting of the fund.

As of June 30, 2019, there were 256 local governmental entities participating with approximately 4,179 employees, 1,794 dependents and 153 retirees covered. Each participating local governmental unit is required to enter into a written agreement with the Department. The agreement sets forth the responsibilities of both parties. The Department administers the Local Government Health Insurance Plan.

The responsibilities required of the Department are:

- Setting and adjusting premium rates
- Billing and collecting monthly premiums from local governmental units
- Enrollment and termination of members and dependents after notification by the local governmental unit
- Establishment of a Local Government Health Plan Advisory Board, consisting of seven advisors from the participating local governmental units
- Establishment of the Local Government Health Insurance Reserve Fund
- Processing and paying authorized claims

The responsibilities required of the local governmental units are:

- Enrollment of all employees and dependents that meet eligibility guidelines and who elect to participate
- Collection and transmission of monthly member and dependent premiums
- Designation of Health Plan Representative
- Participation in the program for a minimum of two years

2) Summary of Significant Accounting Policies

a) Financial Reporting Entity

As defined by Generally Accepted Accounting Principles (GAAP), the financial reporting entity consists of a primary government, as well as its component units, which are legally separate organizations for which the elected officials of the primary government are financially accountable. Financial accountability is defined as:

- 1) Appointment of a voting majority of the component unit's board and either (a) the primary government's ability to impose its will, or (b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government; or
- 2) Fiscal dependence on the primary government and the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

2) Summary of Significant Accounting Policies (continued)

a) Financial Reporting Entity (continued)

Based upon the required criteria, the LGHIRF has no component units and is not a component unit of any other entity. However, because the LGHIRF is not legally separate from the State of Illinois, the financial statements of the LGHIRF are included in the financial statements of the State of Illinois as a non-major enterprise fund. The State of Illinois' Comprehensive Annual Financial Report may be obtained by writing to the State Comptroller's Office, Division of Financial Reporting, 325 West Adams Street, Springfield, Illinois, 62704-1871.

b) Basis of Presentation

The financial statements present only the LGHIRF administered by the State of Illinois, Department of Central Management Services. They are intended to present the financial position, the changes in financial position, and the cash flows of only the LGHIRF. They do not purport to, and do not, present fairly, the financial position of the State of Illinois or the Department as of June 30, 2019 and the changes in financial position and cash flows for the year ended in conformity with accounting principles generally accepted in the United States of America.

c) Measurement Focus and Basis of Accounting

The LGHIRF prepares its financial statements in accordance with Government Accounting Standards Board (GASB) Statement Nos. 10, 29, 30 and 34.

GASB 10 and 30 provide accounting and reporting standards that apply to public entity risk pools and require public entity risk pools to account for their activities using proprietary fund accounting. Proprietary activities are accounted for using the economic resources measurement focus and the accrual basis of accounting.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as subsidies and investment earnings, result from non-exchange transactions or ancillary activities.

d) Cash and Cash Equivalents

Cash equivalents are defined as short-term, highly liquid investments readily convertible to cash with maturities of less than 90 days at the time of purchase. Cash and cash equivalents include cash equity with State Treasurer and cash in banks for locally held funds.

e) Investments

Investments are reported at fair value.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a 2a7-like pool and thus reports all investments at amortized cost rather than market value. The fair value of the pool is the same as the value of the pool shares. The Treasurer's investment policies are governed by state statute. In addition, the Treasurer's Office has adopted its own investment practices which supplement the statutory requirement.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

2) Summary of Significant Accounting Policies (continued)

f) Capital Assets

Capital assets, which includes property, plant, and equipment, are reported at cost or estimated historical cost based on appraisals. Contributed assets are reported at acquisition value at the time received. Capital assets are depreciated using the straight-line method.

Capitalization thresholds and the estimated useful lives are as follows:

Capital Asset Category	Capitalization Threshold	Estimated Useful Life (in years)
Equipment	\$5,000	3-10 years

g) Compensated Absences

The liability for compensated absences reported in the proprietary fund statement of net position consists of unpaid, accumulated vacation, and sick leave balances for Department employees. The liability has been calculated using the vesting method in which leave amounts, for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination, are included. The liability has been calculated based on the employees' current salary level and includes salary related costs (e.g., Social Security and Medicare tax).

Legislation that became effective January 1, 1998, capped the paid sick leave for all State Employees' Retirement System members at December 31, 1997. Employees continue to accrue twelve sick days per year, but will not receive monetary compensation for any additional time earned after December 31, 1997. Sick days earned between 1984 and December 31, 1997, (with a 50% cash value) would only be used after all days with no cash value are depleted. Any sick days earned and unused after December 31, 1997, will be converted to service time for purposes of calculating employee pension benefits.

h) Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

2) Summary of Significant Accounting Policies (continued)

i) Health Benefits Claims Processing

The State Employees Group Insurance Act of 1971 (5 ILCS 375) establishes the Department's responsibility for administering the State's health benefit programs. The Department contracts with third-party administrators to process health, dental, and prescription claims submitted by healthcare service providers relating to the applicable self-insured portions of the health benefit programs accounted for in the Local Government Health Insurance Reserve Fund. It is the Department's policy to recognize claims expense and accrue any unpaid liability relating to claims incurred but not reported (IBNR) based on actuarial projections and reports of processed claims provided by the third-party administrators.

3) Deposits and Investments

a) Deposits

The State Treasurer is the custodian of the State's cash and cash equivalents for funds maintained in the State Treasury. Deposits in the custody of the State Treasurer are pooled and invested with other State funds in accordance with the Deposit of State Moneys Act of the Illinois Compiled Statutes (15 ILCS 520/11). Funds held by the State Treasurer have not been categorized as to credit risk because the Department does not own individual securities. Detail on the nature of these deposits and investments, is available within the State of Illinois' Comprehensive Annual Financial Report.

Cash on deposit with the State Treasurer totaled \$3,523 million and cash on deposit for funds held outside the State Treasurer totaled \$0 at June 30, 2019.

b) Investments

Section 2 of the Public Funds Investment Act limits the State's investments outside the State Treasury to securities of the U.S. government or its agencies, short-term obligations of domestic corporations exceeding \$500 million in assets that are rated in the three highest categories by at least two nationally recognized statistical ratings organizations not to exceed ten percent of the domestic corporations outstanding obligations, money market mutual funds invested in the U.S. government and/or its agencies, and repurchase agreements securities of the U.S. government or its agencies or money market mutual funds invested in the U.S. government or its agencies. Investments of public funds in a Public Treasurers' Investment Pool created under Section 17 of the State Treasurer Act are also permitted.

As of June 30, 2019, the Department had the following investments outside of the State Treasury:

	Fair Value (Thousands)	Weighted Average Maturity (Years)
Illinois Public Treasurers' Investment Pool	<u>\$1,322</u>	0.121
Total fixed income investments	<u>\$1,322</u>	

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Department does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

3) Deposits and Investments (continued)

b) Investments (continued)

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The Department does not have a formal investment policy that limits investment choices. Investments in the Illinois Public Treasurers' Investment Pool were rated AAAM by Standard & Poor's.

Custodial Credit Risk: The Department does not have a formal investment policy which restricts investments to address custodial credit risk. Custodial credit risk is the risk that, in the event of failure of the counterparty to a transaction, the Department would not be able to recover the value of investments or collateral securities in the possession of an outside party.

The Illinois Public Treasurers' Investment Pool, known as The Illinois Funds, operates as a qualified external investment pool in accordance with the criteria established in GASB Statement No. 79, Certain External Investment Pools and Pool Participants, and thus, reports all investments at amortized cost rather than market value. The investment in The Illinois Funds by participants is also reported at amortized cost. The Illinois Funds does not have any limitations or restrictions on participant withdrawals. The Illinois Treasurer's Office issues a separate financial report for The Illinois Funds which may be obtained by contacting the Administrative Office at Illinois Business Center, 400 West Monroe Street, Suite 401, Springfield, Illinois 62704.

c) Reconciliation to Statement of Net Position

	Deposits (Thousands)	Investments (Thousands)
Amounts per Note 3(a)(b)	\$3,523	\$1,322
Cash Equivalents	<u>1,322</u>	<u>(1,322)</u>
Total per Statement of Net Position	<u>\$4,845</u>	<u>\$ 0</u>

d) Securities Lending Transactions

The State Treasurer lends securities to broker-dealers and other entities for collateral that will be returned for the same securities in the future. The State Treasurer has, through a Securities Lending Agreement, authorized Deutsche Bank AG to lend the State Treasurer's securities to broker-dealers and banks pursuant to a form of loan agreement.

During fiscal year 2019, Deutsche Bank AG lent U.S. Agency securities and U.S. Treasury securities and received as collateral U.S. dollar denominated cash. Borrowers were required to deliver collateral for each loan equal to at least 100% of the aggregate fair value of the loaned securities. Loans are marked to market daily. If the fair value of collateral falls below 100%, the borrower must provide additional collateral to raise the fair value to 100%.

The State Treasurer did not impose any restrictions during fiscal year 2019 on the amount of the loans of available, eligible securities. In the event of borrower default, Deutsche Bank AG provides the State Treasurer with counterparty default indemnification. In addition, Deutsche Bank AG is obligated to indemnify the State Treasurer if Deutsche Bank AG loses any securities, collateral or investments of the State Treasurer in Deutsche Bank AG's custody. There were no losses during fiscal year 2019 resulting from a default of the borrowers or Deutsche Bank AG.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

3) Deposits and Investments (continued)

d) Securities Lending Transactions (continued)

During fiscal year 2019, the State Treasurer and the borrowers maintained the right to terminate all securities lending transactions on demand. The cash collateral received on each loan was invested in repurchase agreements with approved counterparties collateralized with securities approved by Deutsche Bank AG and marked to market daily at no less than 102%. Because the loans are terminable at will, their duration did not generally match the duration of the investments made with cash collateral. The State Treasurer had no credit risk as a result of its securities lending program as the collateral held exceeded the fair value of the securities lent. The securities lending collateral received that was invested in repurchase agreements and the fair value of securities on loan for the State Treasurer as of June 30, 2019 were \$3,103,274,125 and \$3,064,814,670, respectively.

4) Long-Term Obligations

Changes in long-term obligations (amounts expressed in thousands) for the year ended June 30, 2019 were as follows:

	Balance July 1, 2018	Additions	Deletions	Balance June 30, 2019	Amounts Due Within One Year
Compensated Absences	\$ 32	\$ 50	\$ (48)	\$ 34	\$ 8
Total	\$ 32	\$ 50	\$ (48)	\$ 34	\$ 8

5) Risk Pool Disclosure

The LGHIRF had previously contracted with third party reinsurers for reinsurance coverage. However, no such coverage was in place for the year ended June 30, 2019.

The basis used in calculating the estimated liability for future claims is based on claims reported but not paid during the fiscal year plus an estimate of claims incurred but not reported (IBNR). The estimate for claims incurred but not reported was calculated using a factor based on historical experience stated as a percentage of claims reported vs. total claims incurred during the policy cycle. The estimated ultimate cost of settling the claims includes the effect of inflation and other societal and economic factors. For the year ended June 30, 2019, all claims are paid on a two-year claim cycle.

Based on the above method, the liability for future claims (amounts expressed in thousands) at June 30, 2019 is as follows:

Claims incurred and reported but not paid as of June 30	\$ 2,505
Estimated liability for claims incurred but not reported	2,103
Total estimated liability for future claims	\$ 4,608

A reconciliation of total benefit claim payments and refunds including claims adjustment expense is as follows (amounts expressed in thousands):

Payments made for benefit claims	\$ 45,587
Less: liability for unpaid claims, beginning of year	(7,750)
Subtotal	37,837
Add: liability for unpaid claims, end of year	4,608
Total benefit claim payments and refunds	\$ 42,445

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

5) Risk Pool Disclosure (continued)

Changes in aggregate liabilities for healthcare claims (amounts expressed in thousands) for the Fund for the year ended June 30, 2019 and 2018 were as follows:

	Healthcare Claims	
	<u>2019</u>	<u>2018</u>
Unpaid claims and claim adjustment expense at beginning of year	\$ 7,750	\$ 8,324
Incurred claim and adjustment expenses:		
Provision for insured claims of the current year	49,274	52,944
Decrease in provisions for claims of prior year	<u>(6,829)</u>	<u>(7,025)</u>
Total incurred claims and claim adjustments	<u>42,445</u>	<u>45,919</u>
Payments:		
Claims and claim adjustment expense attributable to claims of the current year	44,666	45,194
Claims and claim adjustment expense attributable to claims of prior year	<u>921</u>	<u>1,299</u>
Total Payment	<u>45,587</u>	<u>46,493</u>
Total unpaid claims and claim adjustments expense at end of year	<u>\$ 4,608</u>	<u>\$ 7,750</u>

6) Pension Plan

The vested full-time employees paid from the LGHIRF may participate in the State Employees' Retirement System (SERS), which is a pension trust fund in the State of Illinois reporting entity. The SERS is a single-employer defined benefit public employee retirement system (PERS) in which State employees participate, except those covered by the State Universities, Teachers', General Assembly, and Judges' Retirement Systems. The financial position and results of operations of the SERS for fiscal year 2019 are included in the State of Illinois' Comprehensive Annual Financial Report (CAFR) for the year ended June 30, 2019. The SERS issues a separate CAFR that may be obtained by writing to the SERS, 2101 South Veterans Parkway, Springfield, Illinois, 62794-9255.

A summary of SERS benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the SERS' CAFR. Also included is a discussion of employer and employee obligations to contribute and the authority under which those obligations are established.

The Department pays employer retirement contributions based upon an actuarially determined percentage of their payrolls. For fiscal year 2019, the employer contribution rate was 51.614%. Effective for pay periods beginning after December 31, 1991, the State opted to pay the employee portion of retirement for most State agencies (including the Department) with employees covered by the State Employees' and Teachers' Retirement Systems. However, effective with the fiscal year 2004 budget, the State opted to stop paying the portion or a part of the portion of retirement for many State agencies (including the Department) for certain classes of employees covered by the State Employees' and Teachers' Retirement Systems. The pickup, when applicable, is subject to sufficient annual appropriations and those employees covered may vary across employee groups and State agencies.

STATE OF ILLINOIS
DEPARTMENT OF CENTRAL MANAGEMENT SERVICES
LOCAL GOVERNMENT HEALTH INSURANCE RESERVE FUND
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2019

7) Post-employment Benefits

The State provides health, dental, vision, and life insurance benefits for retirees and their dependents in a program administered by the Department. Substantially all State employees become eligible for post-employment benefits if they eventually become annuitants of one of the State sponsored pension plans. Health, dental, and vision benefits include basic benefits for annuitants and dependents under the State's self-insurance plan and insurance contracts currently in force. Annuitants may be required to contribute towards health, dental, and vision benefits with the amount based on factors such as date of retirement, years of credited service with the State, whether the annuitant is covered by Medicare, and whether the annuitant has chosen a managed health care plan. Annuitants who retired prior to January 1, 1998, and who are vested in the State Employee's Retirement System do not contribute towards health, dental, and vision benefits. For annuitants who retired on or after January 1, 1998, the annuitant's contribution amount is reduced five percent for each year of credited service with the State, allowing those annuitants with twenty or more years of credited service to not have to contribute towards health, dental, and vision benefits. Annuitants also receive life insurance coverage equal to the annual salary of the last day of employment until age 60, at which time the benefit becomes \$5,000.

The total cost of the State's portion of health, dental, vision, and life insurance benefits of all members, including post-employment health, dental, vision, and life insurance benefits, is recognized as an expense by the State in the Illinois Comprehensive Annual Financial Report. The State finances the costs on a pay-as-you-go basis. The total costs incurred for health, dental, vision, and life insurance benefits are not separated by department or component unit for annuitants and their dependents nor active employees and their dependents.

A summary of post-employment benefit provisions, changes in benefit provisions, employee eligibility requirements including eligibility for vesting, and the authority under which benefit provisions are established are included as an integral part of the financial statements of the Department. A copy of the financial statements of the Department may be obtained by writing to the Department of Central Management Services, 401 South Spring Street, Springfield, Illinois, 62706-4100.

8) Contingencies

The Department is a party to numerous legal proceedings, many of which normally occur in the course of operations. These proceedings are not, in the opinion of the Department's legal counsel, likely to have a material adverse impact on the Department's financial position. In the event a material action is settled against the Department, such amounts would be paid from future appropriations or by another State agency. Accordingly, no amounts have been provided in the accompanying financial statements related to outstanding litigation.

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

Honorable Frank J. Mautino
Auditor General
State of Illinois

Report on the Financial Statements

As Special Assistant Auditors for the Auditor General, we have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services’ basic financial statements, and have issued our report thereon dated December 16, 2019

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Local Government Health Insurance Reserve Fund of the State of Illinois, Department of Central Management Services’ financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

Management of the State of Illinois, Department of Central Management Services' is responsible for establishing and maintaining effective internal control over financial reporting (internal control).

In planning and performing our audit of the financial statements, we considered the State of Illinois, Department of Central Management Services' internal control to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the State of Illinois, Department of Central Management Services' internal control. Accordingly, we do not express an opinion on the effectiveness of the State of Illinois, Department of Central Management Services' internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the State of Illinois, Department of Central Management Services' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the State of Illinois, Department of Central Management Services' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
