**SENATE RESOLUTION NO. 48**

WHEREAS, XBRL (eXtensible Business Reporting Language) is a freely available and global data format for exchanging business information that standardizes business reporting; and

WHEREAS, The United States Securities and Exchange Commission has recently required the utilization of inline XBRL for certain financial filings with that agency to make the data in SEC reports both human and machine-readable for faster and more efficient analysis and comparison; and

WHEREAS, Other financial agencies that have required financial filings to utilize XBRL include the U.S. Federal Deposit Insurance Corporation, the Federal Energy Regulatory Commission, the Committee of European Banking Supervisors, the United Kingdom's HM Revenue and Customs, Singapore's Accounting and Corporate Regulatory Authority, and India's Ministry of Corporate Affairs; and

WHEREAS, In the states of Florida and California and in Congress, lawmakers are preparing to require all state and local financial information related to municipal bonds and other municipal financial information be migrated to a machine-readable format; and

WHEREAS, Conventional financial documents cannot be read by software because they do not electronically identify each piece of information; and

WHEREAS, Will County Auditor Duffy Blackburn has been the first county official in the country to publish the county's Comprehensive Annual Financial Report (CAFR) for the 2018 fiscal year using data tags to specify each number and line item, including the mathematical relationships between them; and

WHEREAS, Will County Auditor Duffy Blackburn has demonstrated the transparency value of the standardized format of XBRL financial data and predicted the benefits of the universal adoption of this innovation, such as cost cutting for municipal bond markets and improvements to better government; therefore, be it

RESOLVED, BY THE SENATE OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we encourage the adoption and utilization of XBRL by all Illinois municipalities and state agencies in their financial reporting to increase transparency, decrease costs, and more easily permit comparison of financial data; and be it further

RESOLVED, That we further encourage the Office of the Comptroller and the Department of Innovation and Technology to investigate the feasibility of the development of an official XBRL taxonomy for use by Illinois municipalities and state agencies and to make adoption of XBRL by those entities easier and to ensure comparability; and be it further

RESOLVED, That suitable copies of this resolution be delivered to the Illinois Association of County Officials, the Department of Revenue, the Comptroller, the Treasurer, the Secretary of State, the Department of Innovation and Technology, and the Governor's Office of Management and Budget.

Senator Cunningham offered the following Senate Resolution, which was referred to the Committee on Assignments:

[February 9, 2021]

**SENATE RESOLUTION NO. 49**

WHEREAS, Over 100 million operations and procedures are performed every year with anesthesia, and physician anesthesiologists play a critical role, before, during, and after procedures, making patient safety their top priority; and

WHEREAS, Anesthesia is safer than ever before, but there always is a potential for complications and side effects; physician anesthesiologists have the training and expertise to help minimize risks, monitor for any problems, and take quick action; and

WHEREAS, When seconds count and when emergencies or complications occur unexpectedly, physician anesthesiologists draw on their extensive medical education and years of clinical training and experience to make critical decisions that save lives; and

WHEREAS, Physician anesthesiologists are committed to high quality and safe patient care and to educating patients to make their anesthesia even safer, to reduce risk of complication, and to improve recovery from surgery; and

WHEREAS, Physician anesthesiologists are recognized leaders uniquely suited to prevent opioid abuse and misuse by employing opioid-minimizing techniques while ensuring patients have access to appropriate pain treatments; therefore, be it

RESOLVED, BY THE SENATE OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that we declare January 31 through February 6, 2021 as Physician Anesthesiologists Week in the State of Illinois and ask all citizens to join us in recognizing physician anesthesiologists, who have developed the techniques and protocols that have greatly improved the safety of anesthesiology and the well-being of surgical patients each day; and be it further

RESOLVED, That a suitable copy of this resolution be presented to the Illinois Society of Anesthesiologists as a symbol of our respect and esteem.

Senator Holmes offered the following Senate Resolution, which was referred to the Committee on Assignments:

**SENATE RESOLUTION NO. 52**

WHEREAS, Physical education should be viewed as a public health tool that can be used to educate students and empower them to maintain and improve their life-long physical, social, and emotional well-being; and

WHEREAS, Physical education is valued as a foundational component for the health and well-being of students by health experts and policy leaders and has been shown to have a positive association with academic performance as well as mental and social-emotional health; and

WHEREAS, Quality physical education programs enhance the social-emotional learning skills of self-management, social awareness, self-awareness, decision-making, exhibiting responsible behaviors, and relationship skills; and

WHEREAS, Physical education provides opportunities for students to authentically use and evaluate personal Social-Emotional Learning (SEL) competencies in a safe and inclusive setting; and

WHEREAS, Being enrolled in physical education provides an opportunity for students to be active during the school day; the CDC has stated that there are many benefits of physical education in schools; when enrolled in physical education, students can increase their level of physical activity, can improve their grades, cognition, and standardized test scores, and are better able to focus and stay on-task in the classroom; and

[February 9, 2021]

WHEREAS, All physical education programs should follow the same standards; research suggests there are access gaps from school to school; students are entitled to a comprehensive physical education program; and

WHEREAS, Physical education is required to be taught; there is little oversight of compliance to the School Code, and the waiver process is not being strictly followed; and

WHEREAS, The National Physical Activity Plan (NPAP) found that budget cuts had differential impacts on physical education, resulting in racial disparities; NPAP maintains that Black and Latinx students are less likely to be physically active and to have access to certified physical education teachers; these factors lead to lower fitness, which is correlated with poor academic performance, among other adverse outcomes; and

WHEREAS, Another public health concern cited by the NPAP is the lack of a consistent, equitable opportunity for kids to get physical activity; physical education, through the public education system, can mitigate health disparities; physical education classes may be the only organized way for many lower-income kids to get much-needed exercise; and

WHEREAS, Physical education classes may be the only opportunity for students in alternative education programs and students with disabilities to be introduced, to learn, and to develop the knowledge, skills, behaviors, attitudes, and the confidence needed to be active throughout their lives; and

WHEREAS, The Society for Health and Physical Education reports that students who have physical education are 2.5 times more likely to be active adults; the patterns of inactivity in childhood and adolescence track to higher rates of inactivity, obesity, and other health issues (diabetes, heart disease, high blood pressure, osteoporosis) in adulthood; and

WHEREAS, Physical education provides opportunities for movement that in turn lead to decreasing medical costs; the World Health Organization estimates that for every \$1.00 invested in physical activity \$3.20 will be saved in medical costs; and

WHEREAS, The COVID-19 pandemic has, in some cases, eroded physical education programming; steps need to be taken to ensure that all students have standards-based physical education programming when they return to school without the constraints of COVID-19; these steps should include, but are not limited to, making sure that physical education programs teach the Illinois Physical Development and Health Goals and Standards; therefore, be it

RESOLVED, BY THE SENATE OF THE ONE HUNDRED SECOND GENERAL ASSEMBLY OF THE STATE OF ILLINOIS, that physical education is an essential and integral part of educating the whole child and that ALL students in the State of Illinois should have access to equitable, high quality, standards-based physical education programming being supported by equitable resources and funding; and be it further

RESOLVED, That all physical education programs are urged to be in compliance with and accountable for following the Illinois School Code; and be it further

RESOLVED, That suitable copies of this resolution be delivered to the State Superintendent of Education, the Illinois Association of School Boards, the Illinois Association of School Administrators, the Illinois Principal Association, the Illinois Education Association, the Illinois Federation of Teachers, and the Illinois Association of Health, Physical Education, Recreation & Dance.

WHEREAS, COVID-19 is a severe, potentially lethal virus spread through close human interaction; and
