WHEREAS, ESPs interact daily with students, parents, and staff; responsibilities include, but are not limited to, processing and maintaining vital, confidential data and student records; and

WHEREAS, ESPs keep schools open, operational, safe, accessible, and clean for students, staff, and the community at all times; they are responsible for ensuring proper indoor air quality and for complying with ROE state regulations and federal OSHA standards for safety operations in the school buildings; and

WHEREAS, ESPs ensure that students have access to safe and nutritious meals and ensure that school districts are complying with the federal free and reduced meal guidelines; and

WHEREAS, ESPs perform a wide variety of health assistance that improves and protects student health and welfare; their responsibilities include, but are not limited to, traditional tasks of providing first aid, monitoring immunizations, conducting health screenings, and assisting sick and injured children; ESPs also provide education that encourages students to maintain good health independently; and

WHEREAS, ESPs perform professional responsibilities that contribute directly to student achievement by providing direct services to students and their families, including academic, social emotional, behavioral, English as a second language, special education, and medical and life skills support for general education to ensure all students receive fair and equitable educational opportunities; and
