There being no further amendments, the bill, as amended, was ordered to a third reading.

On motion of Senator Welch, **House Bill No. 2317** was recalled from the order of third reading to the order of second reading.

Senator Welch offered the following amendment and moved its adoption:

AMENDMENT NO. 2

AMENDMENT NO. 2. Amend House Bill 2317, AS AMENDED, with reference to page and line numbers of Senate Amendment No. 1, on page 5, below line 21, by inserting the following:

"Section 10. The Illinois Municipal Code is amended by changing Section 9-2-9 as follows:
(65 ILCS 5/9-2-9) (from Ch. 24, par. 9-2-9)

Sec. 9-2-9. Preliminary procedure for local improvements by special assessment. All ordinances for local improvements to be paid for wholly or in part by special assessment or special taxation shall originate with the board of local improvements. Petitions for any local improvement shall be addressed to that board. The board may originate a scheme for any local improvement to be paid for by special assessment or special tax, either with or without a petition, and in either case shall adopt a resolution describing the proposed improvement. This resolution may provide that specifications for the proposed improvement be made part of the resolution by reference to specifications previously adopted by resolution by the municipality, or to specifications adopted or published by the State of Illinois or a political subdivision thereof, provided that a copy of the specifications so adopted by reference is on file in the office of the clerk of the municipality. This resolution shall be at once transcribed into the records of the board.

The proposed local improvement may consist of the acquisition of the necessary interests in real property and the construction of any public improvement or any combination of public improvements, including, but not limited to, streets ~~street~~, storm drain ~~sewers sewer~~, water ~~mains main~~, or sanitary sewer improvements, sidewalks, walkways, bicycle paths, landscaping, lighting improvements, signage improvements, vehicular parking improvements, any additional improvements necessary to provide access to the public improvements, and all necessary and appurtenances, or any combination thereof, in a local contiguous area pursuant to a single special assessment project, provided that in assessing each lot,

[May 12, 2003]

block, tract, and parcel of property, the commissioner so assessing shall take into consideration whether each lot, block, tract, or parcel is benefited by all or only some of the improvements combined into the single special assessment project. For purposes hereof, a local contiguous area shall be defined as an area in which all of the lots, blocks, tracts, or parcels located within the boundaries thereof will be benefited by one or more of the proposed improvements. The fact that more than one improvement is being constructed as part of a single special assessment project shall not be grounds for an objection by an assessee to the special assessment proceeding in court.

Whenever the proposed improvement requires that private or public property be taken or damaged, the resolution shall describe the property proposed to be taken or damaged for that purpose. The board, by the same resolution, shall fix a day and hour for a public hearing thereon. The hearing shall not be less than 10 days after the adoption of the resolution. The board shall also have an estimate of the cost of the improvement (omitting land to be acquired) made in writing by the engineer of the board, (if there is an engineer, if not, then by the president) over his signature. This estimate shall be itemized to the satisfaction of the board and shall be made a part of the record of the resolution. However, such an estimate is not required in municipalities having a population of 100,000 or more when the proposed improvement consists only of taking or damaging private or public property. And in cities and villages which have adopted prior to the effective date of this Code or which after the effective date of this Code adopt the commission form of municipal government, the estimate of the cost of the improvement, (omitting land to be acquired), shall be made in writing by the public engineer if there is one, of the city or village, if not, then by the mayor or president of the city or village.

Notice of the time and place of the public hearing shall be sent by mail directed to the person who paid the general taxes for the last preceding year on each lot, block, tract, or parcel of land fronting on the proposed improvement not less than 5 days prior to the time set for the public hearing. These notices shall contain (1) the substance of the resolution adopted by the board, (2) when an estimate is required by this Division 2 the estimate of the cost of the proposed improvement, and (3) a notification that the extent, nature, kind, character, and (when an estimate is required by this article) the estimated cost of the proposed improvement may be changed by the board at the public hearing thereon. If upon the hearing the board deems the proposed improvement desirable, it shall adopt a resolution and prepare and submit an ordinance therefor. But in proceedings only for the laying, building, constructing, or renewing of any sidewalk, water service pipe, or house drain, no resolution, public hearing, or preliminary proceedings leading up to the same are necessary. In such proceedings the board may submit to the corporate authorities an ordinance, together with its recommendation and (when an estimate is required) the estimated cost of the improvement, as made by the engineer. Such proceedings shall have the same effect as though a public hearing had been held thereon.

In the event that a local improvement is to be constructed with the assistance of any agency of the Federal government, or other governmental agency, the resolution of the board of local improvements shall set forth that fact and the estimate of cost shall set forth and indicate, in dollars and cents, the estimated amount of assistance to be so provided. AMENDMENT NO. 1

[May 12, 2003]

AMENDMENT NO. 1. Amend House Bill 2280 by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Nurse Licensure Compact Act.

Section 5. Nurse Licensure Compact. The State of Illinois ratifies and approves the Nurse Licensure Compact and enters into it with all other jurisdictions that legally join in the compact, which is, in form, substantially as follows: ARTICLE I. Findings and Declaration of Purpose

(a) The party states find that:

(1) the health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

(2) violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

(3) the expanded mobility of nurses and the use of advanced communication technologies as part of our nation's healthcare delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

(4) new practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

(5) the current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant to both nurses and states.

(b) The general purposes of this Compact are to:

(1) facilitate the states' responsibility to protect the public's health and safety;

(2) ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

(3) facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;

(4) promote compliance with the laws governing the practice of nursing in each jurisdiction;

(5) invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

ARTICLE II. Definitions As used in this Compact:

(a) "Adverse Action" means a home or remote state action.

(b) "Alternative program" means a voluntary, non-disciplinary monitoring program approved by a nurse licensing board.

(c) "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws, which is administered by a non-profit organization composed of and controlled by state nurse licensing boards.

(d) "Current significant investigative information" means:

(1) investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

(2) investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

(e) "Home state" means the party state which is the nurse's primary state of residence.

(f) "Home state action" means any administrative, civil, equitable or criminal action permitted by the home state's laws which are imposed on a nurse by the home state's licensing board or other authority including actions against an individual's license such as: revocation, suspension, probation or any other action which affects a nurse's authorization to practice.

(g) "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

(h) "Multistate licensure privilege" means current, official authority from a remote state permitting the practice of nursing as either a registered nurse or a licensed practical/vocational nurse in such party state. All party states have the authority, in accordance with existing state due process law, to take actions against the nurse's privilege such as: revocation, suspension, probation or any other action which affects a nurse's authorization to practice.

(i) "Nurse" means a registered nurse or licensed practical/vocational nurse, as those terms are defined by each party's state practice laws.

(j) "Party state" means any state that has adopted this Compact.

(k) "Remote state" means a party state, other than the home state,

(1) where the patient is located at the time nursing care is provided, or,

(2) in the case of the practice of nursing not involving a patient, in such party state where the

recipient of nursing practice is located.

(l) "Remote state action" means

(1) any administrative, civil, equitable or criminal action permitted by a remote state's laws which are imposed on a nurse by the remote state's licensing board or other authority including actions against an individual's multistate licensure privilege to practice in the remote state, and

(2) cease and desist and other injunctive or equitable orders issued by remote states or the licensing boards thereof.

(m) "State" means a state, territory, or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

(n) "State practice laws" means those individual party's state laws and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. "State practice laws" does not include the initial qualifications for licensure or requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state. ARTICLE III. General Provisions and Jurisdiction

(a) A license to practice registered nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a multistate licensure privilege to practice as a registered nurse in such party state. A license to practice licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a multistate licensure privilege to practice as a licensed practical/vocational nurse in such party state. In order to obtain or retain a license, an applicant must meet the home state's qualifications for licensure and license renewal as well as all other applicable state laws.

(b) Party states may, in accordance with state due process laws, limit or revoke the multistate licensure privilege of any nurse to practice in their state and may take any other actions under their applicable state laws necessary to protect the health and safety of their citizens. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

(c) Every nurse practicing in a party state must comply with the state practice laws of the state in which the patient is located at the time care is rendered. In addition, the practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of a party state. The practice of nursing will subject a nurse to the jurisdiction of the nurse licensing board and the courts, as well as the laws, in that party state.

(d) This Compact does not affect additional requirements imposed by states for advanced practice registered nursing. However, a multistate licensure privilege to practice registered nursing granted by a party state shall be recognized by other party states as a license to practice registered nursing if one is required by state law as a precondition for qualifying for advanced practice registered nurse authorization.

(e) Individuals not residing in a party state shall continue to be able to apply for nurse licensure as provided for under the laws of each party state. However, the license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state unless explicitly agreed to by that party state. ARTICLE IV. Applications for Licensure in a Party State

(a) Upon application for a license, the licensing board in a party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any restrictions on the multistate licensure privilege, and whether any other adverse action by any state has been taken against the license.

(b) A nurse in a party state shall hold licensure in only one party state at a time, issued by the home state.

(c) A nurse who intends to change primary state of residence may apply for licensure in the new home state in advance of such change. However, new licenses will not be issued by a party state until after a nurse provides evidence of change in primary state of residence satisfactory to the new home state's licensing board.

(d) When a nurse changes primary state of residence by:

(1) moving between two party states, and obtains a license from the new home state, the license from the former home state is no longer valid;

(2) moving from a non-party state to a party state, and obtains a license from the new home state, the individual state license issued by the non-party state is not affected and will remain in full force if so provided by the laws of the non-party state;

(3) moving from a party state to a non-party state, the license issued by the prior home state converts to an individual state license, valid only in the former home state, without the multistate

licensure privilege to practice in other party states.

ARTICLE V. Adverse Actions In addition to the General Provisions described in Article III, the following provisions apply:

(a) The licensing board of a remote state shall promptly report to the administrator of the coordinated licensure information system any remote state actions including the factual and legal basis for such action, if known. The licensing board of a remote state shall also promptly report any significant current investigative information yet to result in a remote state action. The administrator of the coordinated licensure information system shall promptly notify the home state of any such reports.

(b) The licensing board of a party state shall have the authority to complete any pending investigations for a nurse who changes primary state of residence during the course of such investigations. It shall also have the authority to take appropriate action(s), and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

(c) A remote state may take adverse action affecting the multistate licensure privilege to practice within that party state. However, only the home state shall have the power to impose adverse action against the license issued by the home state.

(d) For purposes of imposing adverse action, the licensing board of the home state shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, it shall apply its own state laws to determine appropriate action.

(e) The home state may take adverse action based on the factual findings of the remote state, so long as each state follows its own procedures for imposing such adverse action.

(f) Nothing in this Compact shall override a party state's decision that participation in an alternative program may be used in lieu of licensure action and that such participation shall remain non-public if required by the party state's laws. Party states must require nurses who enter any alternative programs to agree not to practice in any other party state during the term of the alternative program without prior authorization from such other party state. ARTICLE VI. Additional Authorities Invested

in Party State Nurse Licensing Boards

Notwithstanding any other powers, party state nurse licensing boards shall have the authority to:

(a) if otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse;

(b) issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a nurse licensing board in a party state for the attendance and testimony of witnesses, and/or the production of evidence from another party state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state where the witnesses and/or evidence are located.

(c) issue cease and desist orders to limit or revoke a nurse's authority to practice in their state;

(d) promulgate uniform rules and regulations as provided for in Article VIII(c). ARTICLE VII. Coordinated Licensure Information System

(a) All party states shall participate in a cooperative effort to create a coordinated data base of all licensed registered nurses and licensed practical/vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as contributed by party states, to assist in the coordination of nurse licensure and enforcement efforts.

(b) Notwithstanding any other provision of law, all party states' licensing boards shall promptly report adverse actions, actions against multistate licensure privileges, any current significant investigative information yet to result in adverse action, denials of applications, and the reasons for such denials, to the coordinated licensure information system.

(c) Current significant investigative information shall be transmitted through the coordinated licensure information system only to party state licensing boards.

(d) Notwithstanding any other provision of law, all party states' licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with non-party states or disclosed to other entities or individuals without the express permission of the contributing state.

(e) Any personally identifiable information obtained by a party states' licensing board from the coordinated licensure information system may not be shared with non-party states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the

information.

(f) Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information, shall also be expunged from the coordinated licensure information system.

(g) The Compact administrators, acting jointly with each other and in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection and exchange of information under this Compact. ARTICLE VIII. Compact Administration and

Interchange of Information

(a) The head of the nurse licensing board, or his/her designee, of each party state shall be the administrator of this Compact for his/her state.

(b) The Compact administrator of each party state shall furnish to the Compact administrator of each other party state any information and documents including, but not limited to, a uniform data set of investigations, identifying information, licensure data, and disclosable alternative program participation information to facilitate the administration of this Compact.

(c) Compact administrators shall have the authority to develop uniform rules to facilitate and coordinate implementation of this Compact. These uniform rules shall be adopted by party states, under the authority invested under Article VI (d). ARTICLE IX. Immunity

No party state or the officers or employees or agents of a party state's nurse licensing board who acts in accordance with the provisions of this Compact shall be liable on account of any act or omission in good faith while engaged in the performance of their duties under this Compact. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness. ARTICLE X. Entry into Force, Withdrawal and Amendment

(a) This Compact shall enter into force and become effective as to any state when it has been enacted into the laws of that state. Any party state may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the withdrawing state has given notice of the withdrawal to the executive heads of all other party states.

(b) No withdrawal shall affect the validity or applicability by the licensing boards of states remaining party to the Compact of any report of adverse action occurring prior to the withdrawal.

(c) Nothing contained in this Compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a non-party state that is made in accordance with the other provisions of this Compact.

(d) This Compact may be amended by the party states. No amendment to this Compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states. ARTICLE XI. Construction and Severability

(a) This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held contrary to the constitution of any state party thereto, the Compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

(b) In the event party states find a need for settling disputes arising under this Compact:

(1) The party states may submit the issues in dispute to an arbitration panel which will be comprised of an individual appointed by the Compact administrator in the home state; an individual appointed by the Compact administrator in the remote state(s) involved; and an individual mutually agreed upon by the Compact administrators of all the party states involved in the dispute.

(2) The decision of a majority of the arbitrators shall be final and binding.

Section 10. Compact administrator. The head of the nurse licensing board as used to define the compact administrator in Article VIII(a) of the Compact shall mean the Nursing Act Coordinator as defined under Section 10-15 of the Nursing and Advanced Practice Nursing Act.

Section 12. Rules. The Department of Professional Regulation shall adopt any rules necessary for the implementation of this Act.

Section 15. Compact Evaluation Initiative. Upon the effective date of this Compact, the licensing board shall participate in a Compact Evaluation Initiative designed to evaluate the effectiveness and operability of the Compact. Such Compact Evaluation Initiative shall be conducted by an outside researcher. A component of the Evaluation shall include a remote state identification system through which nurses shall designate those remote states in which the nurse is practicing. A nurse's practice

information in such identification system shall be updated upon issuance and renewal of the nurse license. The Evaluation shall continue until the year 2005, after which time a report shall be produced for comment by the participating licensing boards and shall be submitted to the General Assembly in the form of a Nurse Licensure Compact evaluation report.

Section 20. Costs of investigation and disposition of cases. To facilitate cross-state enforcement efforts, the General Assembly finds that it is necessary for Illinois to have the power to recover from the affected nurse the costs of investigations and disposition of cases resulting from adverse actions taken by this State against that nurse.

Section 25. Statutory obligations. This Compact is designed to facilitate the regulation of nurses and does not relieve employers from complying with statutorily imposed obligations.

Section 30. State labor laws. This Compact does not supersede existing State labor laws.

Section 90. The Nursing and Advanced Practice Nursing Act is amended by changing Sections 5-10, 5-15, and 10-30 as follows:

- (3) a signed and completed application for a temporary license; and
- (4) the required temporary license fee.

(g) The Department may refuse to issue an applicant a temporary license authorized pursuant to this Section if, within 14 working days following its receipt of an application for a temporary license, the Department determines that:

- (1) the applicant has been convicted of a crime under the laws of a jurisdiction of the United States: (i) which is a felony; or (ii) which is a misdemeanor directly related to the practice of the profession, within the last 5 years;
- (2) within the last 5 years the applicant has had a license or permit related to the practice of nursing revoked, suspended, or placed on probation by another jurisdiction, if at least one of the

grounds for revoking, suspending, or placing on probation is the same or substantially equivalent to grounds in Illinois; or

(3) it intends to deny licensure by endorsement.

For purposes of this Section, an "unencumbered license" means a license against which no disciplinary action has been taken or is pending and for which all fees and charges are paid and current.

(h) The Department may revoke a temporary license issued pursuant to this Section if:

(1) it determines that the applicant has been convicted of a crime under the law of any jurisdiction of the United States that is (i) a felony or (ii) a misdemeanor directly related to the practice of the profession, within the last 5 years;

(2) it determines that within the last 5 years the applicant has had a license or permit related to the practice of nursing revoked, suspended, or placed on probation by another jurisdiction, if at least one of the grounds for revoking, suspending, or placing on probation is the same or substantially equivalent to grounds in Illinois; or

(3) it determines that it intends to deny licensure by endorsement.

A temporary license shall expire 6 months from the date of issuance. Further renewal may be granted by the Department in hardship cases, as defined by rule and upon approval of the Director. However, a temporary license shall automatically expire upon issuance of the Illinois license or upon notification that the Department intends to deny licensure, whichever occurs first.

(i) Applicants have 3 years from the date of application to complete the application process. If the process has not been completed within 3 years from the date of application, the application shall be denied, the fee forfeited, and the applicant must reapply and meet the requirements in effect at the time of reapplication.

(j) A practical nurse licensed by a party state under the Nurse Licensure Compact is granted the privilege to practice practical nursing in this State. A registered nurse licensed by a party state under the Nurse Licensure Compact is granted the privilege to practice registered nursing in this State. A practical nurse or registered nurse who has been granted the privilege to practice nursing in this State under this subsection, shall notify the Department, prior to commencing employment in this State as a practical or registered nurse, of the identity and location of the nurse's prospective employer. A practical nurse or registered nurse who has been granted the privilege to practice nursing in this State under this subsection is subject to the schedule of fees authorized under Section 20-35 and the criminal background check required under Section 5-23 of this Act, provided that the practical or registered nurse may exercise her privilege to practice pending completion of the criminal background check.
