In reviewing a plan, the Agency may consider the plan's consistency with other thermostat manufacturer's collection plans in this State and mercury thermostat collection programs in other states. In addition, the Agency may consult with thermostat manufacturers, thermostat wholesalers, thermostat technicians, thermostat retailers, and environmental interest groups. Within 120 days after its receipt of a plan, the Agency must approve or deny the plan in writing. The Agency must approve

If the Agency denies the plan or approves the plan with conditions, the Agency's decision shall be subject to appeal to the Board in accordance with the procedures of Section 40 of the Environmental Protection Act for appealing permit denials or conditions.

(2) No thermostat technician may remove, replace, or otherwise take out of service a mercury thermostat unless the thermostat technician delivers it to a person participating in a collection program required under this Act as a mercury thermostat collection point.

Section 30. Information regarding the collection and recycling of mercury thermostats.

- (1) a description of the collection programs established under this Act;
- (2) a report on the thermostat manufacturers' progress towards achieving the collection goal set forth in Section 5 of this Act; and
- (3) a list of all thermostat wholesalers, thermostat technicians, and thermostat retailers participating in the program as collection points.

(b) No later than December 31, 2014 the Agency shall report to the Governor and General Assembly regarding the effectiveness of the program and make recommendations for changes, and whether the incentives required under subdivision (a)(3) of Section 15 should be continued.

Section 35. Duty to investigate. The Agency has the duty to investigate violations of this Act.

Section 40. Penalties.

(a) Any thermostat manufacturer who violates any provision of this Act or fails to perform any duty imposed by this Act (i) is liable for a civil penalty not to exceed \$1,000 for the first violation and an additional civil penalty not to exceed \$1,000 for each day the first violation continues and (ii) is liable for a civil penalty not to exceed \$5,000 for a second or subsequent violation and an additional civil penalty not to exceed \$1,000 for each day the second or subsequent violation continues.

(b) Any thermostat wholesaler, thermostat technician, or thermostat retailer who violates any provision of this Act or fails to perform any duty imposed by this Act is liable for a civil penalty not to exceed \$250 for the first violation and not to exceed \$500 for a second or subsequent violation.

(c) The penalties provided for in this Section may be recovered in a civil action brought by the

Attorney General on behalf of the Agency and the People of the State of Illinois, or by the State's Attorney of the county in which the violation occurred. Without limiting any other authority that may exist for the awarding of attorney's fees and costs, a court of competent jurisdiction may award costs and reasonable attorney's fees, including the reasonable costs of expert witnesses and consultants, to the Attorney General or the State's Attorney in a case where he or she has prevailed against a person who has committed a willful, knowing, or repeated violation of this Act. Any funds collected under this Section in an action in which the Attorney General has prevailed must be deposited into the Hazardous Waste Fund established under the Environmental Protection Act. Any funds collected under this Section in an action in which a State's Attorney has prevailed shall be retained by the county in which he or she serves.

(d) The Attorney General or the State's Attorney of the county in which the violation occurred may, at the request of the Agency or on his or her own motion, institute a civil action for an injunction, prohibitory or mandatory, to restrain violations of this Act or to require such other actions as may be necessary to address violations of this Act.

(e) The penalties and injunctions provided in this Act are in addition to any penalties, injunctions, or other relief provided under any other law. Nothing in this Act bars a cause of action by the State for any other penalty, injunction, or relief provided by any other law.

Section 45. Recommendations to the Governor and the General Assembly. On or before January 1, 2011, the Agency shall investigate and make recommendations to the Governor and the General Assembly regarding strategies for improving the collection and proper management of mercury thermostats removed, replaced, or otherwise taken out of service by homeowners. In developing its recommendations, the Agency shall consult with thermostat manufacturers, thermostat retailers, local governments, recycling associations, environmental interest groups, and other appropriate stakeholder groups. The Agency shall identify the best available options for collecting mercury thermostats from homeowners taking into account such considerations as cost and convenience, safety and training, education and outreach needs, and shared responsibilities for implementing the collection and recycling program.

AMENDMENT NO. 1 TO SENATE BILL 1706

AMENDMENT NO. 1. Amend Senate Bill 1706 by replacing everything after the enacting clause with the following:

[April 1, 2009]

"Section 5. The Juvenile Court Act of 1987 is amended by changing Sections 5-410 and 5-740 as follows:

(705 ILCS 405/5-410)

Sec. 5-410. Non-secure custody or detention.

(1) Any minor arrested or taken into custody pursuant to this Act who requires care away from his or her home but who does not require secured custody pursuant to paragraph (a) of subsection (2) physical restriction shall be given temporary care in a foster family home or other shelter facility designated by the court.

(2) (a) Any minor 10 years of age or older arrested pursuant to this Act where there is probable cause to believe that the minor is a delinquent minor and that (i) secured custody is a matter of immediate and urgent necessity for the protection of the minor or of the person or property of another, (ii) the minor is likely to flee the jurisdiction of the court, or (iii) the minor was taken into custody under a warrant, may be kept or detained in an authorized detention facility. No minor under 12 years of age shall be detained in a county jail or a municipal lockup for more than 6 hours. Where a court orders a minor to be kept or detained in a facility authorized for juvenile detention in accordance with this Act and it appears from the record that, notwithstanding the order of detention, removal of the minor from the minor's home may also be in the minor's best interest, the court shall further determine whether the removal is, in fact, in the best interests of the minor, consistent with paragraphs (a-5) and (a-10) of this subsection (2) and shall include such findings on the initial court order authorizing the detention.

(a-5) For any minor determined to need care away from home in foster care or shelter care, but who does not require secured custody pursuant to paragraph (a) of this subsection (2) the court shall order, in accordance with subsection (1) of this Section, consistent with the health, safety, and best interests of the minor, the removal because the minor's home cannot provide the quality of care and level of support and supervision the minor needs at the time. Removal from the home may be in the minor's and community's best interest for any of the following reasons: (i) the minor is without the care necessary for the minor's well-being through no fault or lack of concern by a parent, guardian, custodian, or other person. (ii) the minor has no parent, guardian, custodian, or other person able to return the minor to the court when required, or (iii) for the protection of the minor.

(a-10) For any minor who does not require secured custody pursuant to paragraph (a) of this subsection (2) and who is determined to need care away from home in foster care or shelter care the court, in accordance with paragraph (a) of this subsection (2), shall further find that reasonable efforts have been made or that, consistent with the health, safety, and best interests of the minor and the community, no efforts reasonably can be made to prevent or eliminate the necessity of removal of the minor from his or her home. The court shall require documentation from the Probation Department as to the reasonable efforts that were made to prevent or eliminate the necessity of removal of the minor from his or her home or the reasons why no efforts reasonably could be made to prevent or eliminate the necessity of removal.

In making its findings that it is consistent with the health, safety, and best interests of the minor and the community to prescribe shelter care, the court shall state in writing: (i) the factual basis supporting its findings concerning the immediate and urgent necessity for the protection of the minor, (ii) the factual basis for the finding of the minor's and community's best interests, and (iii) the factual basis supporting its findings that reasonable efforts were made to prevent or eliminate the removal of the minor from his or her home or that no efforts reasonably could be made to prevent or eliminate the removal of the minor from his or her home.

Once the court determines that the minor requires care away from home for the protection of the minor and places the minor in a shelter care facility or foster care, the minor shall not be returned to the parent, custodian, or guardian until the court finds that such placement is no longer necessary for the protection of the minor.

(a-15) If the court determines that the minor requires care away from home for the protection of the minor and places the minor in a shelter care facility, there shall be a rebuttable presumption that such findings comply with the factors outlined in paragraphs (a-5) and (a-10) of this subsection (2).

(b) The written authorization of the probation officer or detention officer (or other public officer designated by the court in a county having 3,000,000 or more inhabitants) constitutes authority for the superintendent of any juvenile detention home to detain and keep a minor for up to 40 hours, excluding Saturdays, Sundays and court-designated holidays. These records shall be available to the same persons and pursuant to the same conditions as are law enforcement records as provided in Section 5-905.

(b-4) The consultation required by subsection (b-5) shall not be applicable if the probation officer or detention officer (or other public officer designated by the court in a county having 3,000,000 or more inhabitants) utilizes a scorable detention screening instrument, which has been developed with input by

the State's Attorney, to determine whether a minor should be detained, however, subsection (b-5) shall still be applicable where no such screening instrument is used or where the probation officer, detention officer (or other public officer designated by the court in a county having 3,000,000 or more inhabitants) deviates from the screening instrument.

(b-5) Subject to the provisions of subsection (b-4), if a probation officer or detention officer (or other public officer designated by the court in a county having 3,000,000 or more inhabitants) does not intend to detain a minor for an offense which constitutes one of the following offenses he or she shall consult with the State's Attorney's Office prior to the release of the minor: first degree murder, second degree murder, involuntary manslaughter, criminal sexual assault, aggravated criminal sexual assault, aggravated battery with a firearm, aggravated or heinous battery involving permanent disability or disfigurement or great bodily harm, robbery, aggravated robbery, armed robbery, vehicular hijacking, aggravated vehicular hijacking, vehicular invasion, arson, aggravated arson, kidnapping, aggravated kidnapping, home invasion, burglary, or residential burglary.

(c) Except as otherwise provided in paragraph (a), (d), or (e), no minor shall be detained in a county jail or municipal lockup for more than 12 hours, unless the offense is a crime of violence in which case the minor may be detained up to 24 hours. For the purpose of this paragraph, "crime of violence" has the meaning ascribed to it in Section 1-10 of the Alcoholism and Other Drug Abuse and Dependency Act.

(i) The period of detention is deemed to have begun once the minor has been placed in a locked room or cell or handcuffed to a stationary object in a building housing a county jail or municipal lockup. Time spent transporting a minor is not considered to be time in detention or secure custody.

(ii) Any minor so confined shall be under periodic supervision and shall not be permitted to come into or remain in contact with adults in custody in the building.

(iii) Upon placement in secure custody in a jail or lockup, the minor shall be informed of the purpose of the detention, the time it is expected to last and the fact that it cannot exceed the time specified under this Act.

(iv) A log shall be kept which shows the offense which is the basis for the detention, the reasons and circumstances for the decision to detain and the length of time the minor was in detention.

(v) Violation of the time limit on detention in a county jail or municipal lockup shall not, in and of itself, render inadmissible evidence obtained as a result of the violation of this time limit. Minors under 17 years of age shall be kept separate from confined adults and may not at any time be kept in the same cell, room or yard with adults confined pursuant to criminal law. Persons 17 years of age and older who have a petition of delinquency filed against them may be confined in an adult detention facility. In making a determination whether to confine a person 17 years of age or older who has a petition of delinquency filed against the person, these factors, among other matters, shall be considered:

(A) The age of the person;

(B) Any previous delinquent or criminal history of the person;

(C) Any previous abuse or neglect history of the person; and

(D) Any mental health or educational history of the person, or both.

(d) (i) If a minor 12 years of age or older is confined in a county jail in a county with a population below 3,000,000 inhabitants, then the minor's confinement shall be implemented in such a manner that there will be no contact by sight, sound or otherwise between the minor and adult prisoners. Minors 12 years of age or older must be kept separate from confined adults and may not at any time be kept in the same cell, room, or yard with confined adults. This paragraph (d)(i) shall only apply to confinement pending an adjudicatory hearing and shall not exceed 40 hours, excluding Saturdays, Sundays and court designated holidays. To accept or hold minors during this time period, county jails shall comply with all monitoring standards promulgated by the Department of Corrections and training standards approved by the Illinois Law Enforcement Training Standards Board.

(ii) To accept or hold minors, 12 years of age or older, after the time period prescribed in paragraph (d)(i) of this subsection (2) of this Section but not exceeding 7 days including Saturdays, Sundays and holidays pending an adjudicatory hearing, county jails shall comply with all temporary detention standards promulgated by the Department of Corrections and training standards approved by the Illinois Law Enforcement Training Standards Board.

(iii) To accept or hold minors 12 years of age or older, after the time period prescribed in paragraphs (d)(i) and (d)(ii) of this subsection (2) of this Section, county jails shall comply with all programmatic and training standards for juvenile detention homes promulgated by the Department of Corrections.

(e) When a minor who is at least 15 years of age is prosecuted under the criminal laws of this State,

the court may enter an order directing that the juvenile be confined in the county jail. However, any juvenile confined in the county jail under this provision shall be separated from adults who are confined in the county jail in such a manner that there will be no contact by sight, sound or otherwise between the juvenile and adult prisoners.

(f) For purposes of appearing in a physical lineup, the minor may be taken to a county jail or municipal lockup under the direct and constant supervision of a juvenile police officer. During such time as is necessary to conduct a lineup, and while supervised by a juvenile police officer, the sight and sound separation provisions shall not apply.

(g) For purposes of processing a minor, the minor may be taken to a County Jail or municipal lockup under the direct and constant supervision of a law enforcement officer or correctional officer. During such time as is necessary to process the minor, and while supervised by a law enforcement officer or correctional officer, the sight and sound separation provisions shall not apply.

(3) If the probation officer or State's Attorney (or such other public officer designated by the court in a county having 3,000,000 or more inhabitants) determines that the minor may be a delinquent minor as described in subsection (3) of Section 5-105, and should be retained in custody but does not require physical restriction, the minor may be placed in non-secure custody for up to 40 hours pending a detention hearing.

(4) Any minor taken into temporary custody, not requiring secure detention, may, however, be detained in the home of his or her parent or guardian subject to such conditions as the court may impose. (Source: P.A. 93-255, eff. 1-1-04.)

(705 ILCS 405/5-740)

Sec. 5-740. Placement; legal custody or guardianship.

(1) As to a minor adjudged a ward of the court, if the court finds that the minor's home cannot provide the quality of care and level of support and supervision the minor needs at the time and that the removal of the minor from the home is in the minor's and community's best interest for any of the following reasons: (i) the minor is without the care necessary for the minor's well being through no fault or lack of concern by a parent, guardian, custodian, or other person, or (ii) for the protection of the minor, the court may:

(a) place him or her in the custody of a suitable relative or other person;

(b) place him or her under the temporary guardianship of a probation officer;

(c) commit him or her to an agency for care or placement, except an institution under the authority of the Department of Corrections, the Department of Juvenile Justice or of the Department of Children and Family Services;

(d) commit him or her to some licensed training school or industrial school, or

(e) commit him or her to any appropriate institution having among its purposes the care of delinquent children, including a child protective facility maintained by a child protection district serving the county from which commitment is made, but not including any institution under the authority of the Department of Corrections, the Department of Juvenile Justice, or of the Department of Children and Family Services. As to any minor adjudged a ward of the court who is determined to need care away from home in placement pursuant to subsection (1) above the court, in accordance with this subsection (1), shall further find that reasonable efforts have been made or that, consistent with the health, safety and best interests of the minor and the community, no efforts reasonably can be made to prevent or eliminate the necessity of removal of the minor from his or her home. The court shall require documentation from the Probation Department as to the reasonable efforts that were made to prevent or eliminate the necessity of removal of the minor from his or her home or the reasons why no efforts reasonably could be made to prevent or eliminate the necessity of removal.

In making its findings that it is consistent with the health, safety and best interests of the minor and the community to remove the minor from the home the court shall state in writing the factual basis for the finding of the minor's and community's best interests, and the factual basis supporting its findings that reasonable efforts were made to prevent or eliminate the removal of the minor from his or her home or that no efforts reasonably could be made to prevent or eliminate the removal of the minor from his or her home.

If the court finds that the removal of a minor adjudged a ward of the court from his home is in the best interest of the minor and community and the court finds that it is for the protection of the minor, the minor shall not be returned to the parent, custodian, or guardian until the court finds that such placement is no longer necessary for the protection of the minor. If the court finds that the parents, guardian, or legal custodian of a minor adjudged a ward of the court are unfit or are unable, for some reason other than financial circumstances alone, to care for, protect, train or discipline the minor or are unwilling to do so, and that appropriate services aimed at family preservation and family reunification have been

~~unsuccessful in rectifying the conditions which have led to a finding of unfitness or inability to care for, protect, train or discipline the minor, and that it is in the best interest of the minor to take him or her from the custody of his or her parents, guardian or custodian, the court may:~~

- ~~(a) place him or her in the custody of a suitable relative or other person;~~
~~(b) place him or her under the guardianship of a probation officer;~~
~~(c) commit him or her to an agency for care or placement, except an institution under the authority of the Department of Corrections or of the Department of Children and Family Services;~~
~~(d) commit him or her to some licensed training school or industrial school; or~~
~~(e) commit him or her to any appropriate institution having among its purposes the care of delinquent children, including a child protective facility maintained by a child protection district serving the county from which commitment is made, but not including any institution under the authority of the Department of Corrections or of the Department of Children and Family Services.~~

(2) When making such placement, the court, wherever possible, shall select a person holding the same religious belief as that of the minor or a private agency controlled by persons of like religious faith of the minor and shall require the Department of Children and Family Services to otherwise comply with Section 7 of the Children and Family Services Act in placing the child. In addition, whenever alternative plans for placement are available, the court shall ascertain and consider, to the extent appropriate in the particular case, the views and preferences of the minor.

(3) When a minor is placed with a suitable relative or other person, the court shall appoint him or her the legal custodian or guardian of the person of the minor. When a minor is committed to any agency, the court shall appoint the proper officer or representative of the proper officer as legal custodian or guardian of the person of the minor. Legal custodians and guardians of the person of the minor have the respective rights and duties set forth in subsection (9) of Section 5-105 except as otherwise provided by order of court; but no guardian of the person may consent to adoption of the minor. An agency whose representative is appointed guardian of the person or legal custodian of the minor may place him or her in any child care facility, but the facility must be licensed under the Child Care Act of 1969 or have been approved by the Department of Children and Family Services as meeting the standards established for such licensing. Like authority and restrictions shall be conferred by the court upon any probation officer who has been appointed guardian of the person of a minor.

(4) No placement by any probation officer or agency whose representative is appointed guardian of the person or legal custodian of a minor may be made in any out of State child care facility unless it complies with the Interstate Compact on the Placement of Children.

(5) The clerk of the court shall issue to the guardian or legal custodian of the person a certified copy of the order of court, as proof of his or her authority. No other process is necessary as authority for the keeping of the minor.

(6) Legal custody or guardianship granted under this Section continues until the court otherwise directs, but not after the minor reaches the age of 21 years except as set forth in Section 5-750.

(7) Whenever a minor is removed from home and placed in foster care or other residential placement and the county will be responsible for the costs of such placement under Section 6-7 of this Act, then the Court shall order that the Probation Department shall be responsible for the child's placement, care, and control until such time as the Court finds that such placement is no longer required.

SENATE BILL RECALLED

On motion of Senator Steans, **Senate Bill No. 1828** was recalled from the order of third reading to the order of second reading.

Senator Steans offered the following amendment and moved its adoption:

AMENDMENT NO. 1 TO SENATE BILL 1828

AMENDMENT NO. 1. Amend Senate Bill 1828 by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the P-20 Longitudinal Education Data System Act.

Section 5. Findings; declarations. The General Assembly finds and declares all of the following:

[April 1, 2009]

(1) Sound data collection, reporting, and analysis are critical to building a State education system capable of ensuring all Illinois students are adequately prepared for college and the global workforce. School districts and institutions of higher learning can improve instructional and educational decision-making using data that is collected and made available by this State.

(2) Reliable and sufficient education data is necessary to ensure that this State bases education policy decisions on valid, objective measures of student outcomes. Publicly accessible data on State, school district, and school performance allows the citizens of this State to assess local and statewide investments in education.

(3) A national collaborative effort among State education officials, national education organizations, and State and federal policymakers has defined the essential elements a State longitudinal data system should contain. Public Law 110-69, the America COMPETES Act, requires state longitudinal data systems to include all 10 elements identified by this national, collaborative effort for states to qualify for federal funding opportunities. The federal American Recovery and Reinvestment Act of 2009 requires states to establish longitudinal data systems with all 10 elements to qualify for federal funding for education, public safety, and other government services.

(4) Public Law 110-134 requires the Illinois Early Learning Council to develop recommendations regarding the establishment of a unified data collection system for public early childhood education and development programs and services throughout this State, and those efforts should be coordinated with the development of this State's longitudinal data system.

(5) State education policymaking benefits from partnerships between State education agencies and entities with expertise in education research, including school districts, institutions of higher learning, and research organizations. This State should establish systems and processes to permit qualified researchers to assist with State evaluation and research functions in a manner consistent with privacy protection laws.

(6) This State is committed to establishing and maintaining a longitudinal student unit record data system that educators and policymakers can use to analyze and assess student progress from early learning programs through postsecondary education and into employment. The State Board of Education, the Illinois Community College Board, and the Board of Higher Education have designed, built, and deployed some of the fundamental components of a longitudinal data system and have engaged in extensive efforts to effectively link and use available education data. However, the various education data components maintained by this State must be integrated and managed in a cooperative manner to establish a data-driven, decision-making environment for this State's education system.

(7) The longitudinal data system established by this Act is intended, among other purposes, to link student test scores, length of enrollment, and graduation records over time, as permitted by Section 1111(b)(3)(B) of the federal Elementary and Secondary Education Act (20 U.S.C. 6311(b)(3)(B)).

(8) Students will achieve improved learning outcomes as a result of the longitudinal data system established by this Act through instruction and educational programs informed by valid and reliable data.

(9) State use and management of education data must be in accordance with all legal requirements protecting student privacy and must protect personal information from intentional or accidental release to unauthorized persons and from intentional or accidental use for unauthorized purposes.

Section 10. Definitions. In this Act:

"Community College Board" means the Illinois Community College Board.

"Community colleges" has the meaning ascribed to that term in Section 1-2 of the Public Community College Act.

"Early learning" means any publicly funded education and care program supporting young children not yet enrolled in kindergarten.

"Elementary" means kindergarten through eighth grade.

"Institution of higher learning" has the meaning ascribed to that term in Section 10 of the Higher Education Student Assistance Act.

"Longitudinal data system" means a student unit record data system that links student records from early learning through the postsecondary level, which may consist of separate student unit record systems integrated through agreement and data transfer mechanisms.

"Privacy protection laws" means the federal Family Educational Rights and Privacy Act of 1974 (20

[April 1, 2009]

U.S.C. 1232g), the Illinois School Students Record Act, the Personal Information Protection Act, and any other State or federal law relating to the confidentiality and protection of personally identifiable information.

"Research organization" means a governmental entity, institution of higher learning, public policy or advocacy organization, or other person or entity conducting educational research that (i) is qualified to perform educational research and protect the privacy of student data, (ii) is seeking to perform research for a non-commercial purpose authorized by privacy protection laws, and (iii) agrees to perform the research pursuant to a written agreement meeting the requirements of privacy protection laws and this Act.

"School" means any elementary or secondary educational institution, charter school, vocational school, special education facility, or any other elementary or secondary educational agency or institution, but does not include a non-public school.

"Secondary" means ninth through twelfth grade.

"State Board" means the State Board of Education.

"State Education Authorities" means the State Board, Community College Board, and Board of Higher Education.

Section 15. Establishment of the longitudinal data system and data warehouse.

(a) The State Education Authorities shall jointly establish and maintain a longitudinal data system by entering into one or more agreements that link early learning, elementary, and secondary school student unit records with institution of higher learning student unit records. To the extent authorized by this Section and Section 20 of this Act:

(1) the State Board is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on early learning, public school (kindergarten through grade 12), and non-public school (kindergarten through grade 12) students;

(2) the Community College Board is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on community college students; and

(3) the Board of Higher Education is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on students enrolled in institutions of higher learning, other than community colleges.

(b) On or before June 30, 2013, subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Education Authorities shall improve and expand the longitudinal data system to enable the State Education Authorities to perform or cause to be performed all of the following activities and functions:

(1) Reduce, to the maximum extent possible, the data collection burden on school districts and institutions of higher learning by using data submitted to the system for multiple reporting and analysis functions.

(2) Provide authorized officials of early learning programs, schools, school districts, and institutions of higher learning with access to their own student-level data, summary reports, and data that can be integrated with additional data maintained outside of the system to inform education decision-making.

(3) Link data to instructional management tools that support instruction and assist collaboration among teachers and postsecondary instructors.

(4) Enhance and expand existing high school-to-postsecondary reporting systems to inform school and school district officials, education policymakers, and members of the public about public school students' performance in postsecondary education.

(5) Provide data reporting, analysis, and planning tools that assist with financial oversight, human resource management, and other education support functions.

(6) Improve student access to educational opportunities by linking data to student college and career planning portals, facilitating the submission of electronic transcripts and scholarship and financial aid applications, and enabling the transfer of student records to officials of a school or institution of higher learning where a student enrolls or seeks or intends to enroll.

(7) Establish a public Internet web interface that provides non-confidential data reports and permits queries so that parents, the media, and other members of the public can more easily access information pertaining to statewide, district, and school performance.

(8) Provide research and reports to the General Assembly that assist with evaluating the effectiveness of specific programs and that enable legislators to analyze educational performance within their legislative districts.

(9) Allow the State Education Authorities to efficiently meet federal and State reporting requirements by drawing data for required reports from multiple State systems.

(10) Establish a system to evaluate teacher and administrator preparation programs using student academic growth as one component of evaluation.

(11) In accordance with a data sharing agreement entered into between the State Education Authorities and the Illinois Student Assistance Commission, establish procedures and systems to evaluate the relationship between need-based financial aid and student enrollment and success in institutions of higher learning.

(12) In accordance with data sharing agreements entered into between the State Education Authorities and health and human service agencies, establish procedures and systems to evaluate the relationship between education and other student and family support systems.

(13) In accordance with data sharing agreements entered into between the State Education Authorities and employment and workforce development agencies, establish procedures and systems to evaluate the relationship between education programs and outcomes and employment fields, employment locations, and employment outcomes.

(c) On or before June 30, 2013, subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Board shall establish a data warehouse that integrates data from multiple student unit record systems and supports all of the uses and functions of the longitudinal data system set forth in this Act. The data warehouse must be developed in cooperation with the Community College Board and the Board of Higher Education and must have the ability to integrate longitudinal data from early learning through the postsecondary level in accordance with one or more data sharing agreements entered into among the State Education Authorities. The data warehouse, as integrated with the longitudinal data system, must include, but is not limited to, all of the following elements:

(1) A unique statewide student identifier that connects student data across key databases across years. The unique statewide student identifier must not be derived from a student's social security number and must be provided to institutions of higher learning to assist with linkages between early learning through secondary and postsecondary data.

(2) Student-level enrollment, demographic, and program participation information, including information on participation in dual credit programs.

(3) The ability to match individual students' elementary and secondary test records from year to year to measure academic growth.

(4) Information on untested students in the elementary and secondary levels, and the reasons they were not tested.

(5) A teacher and administrator identifier system with the ability to match students to early learning, elementary, and secondary teachers and elementary and secondary administrators. Information able to be obtained only as a result of the linkage of teacher and student data through the longitudinal data system may not be used by a school district for decisions involving teacher pay or teacher benefits unless the district and the exclusive bargaining representative of the district's teachers, if any, have agreed to this use. Information able to be obtained only as a result of the linkage of teacher and student data through the longitudinal data system may not be used by a school district as part of an evaluation under Article 24A of the School Code unless, in good faith cooperation with the school district's teachers or, where applicable, the exclusive bargaining representative of the school district's teachers, the school district has developed an evaluation plan or substantive change to an evaluation plan that specifically describes the school district's rationale for using this information for evaluations, how this information will be used as part of the evaluation process, and how this information will relate to evaluation standards. However, nothing in this subdivision (5) or elsewhere in this Act limits or restricts (i) a district's use of any local or State data that has been obtained independently from the linkage of teacher and student data through the longitudinal data system or (ii) a charter school's use of any local or State data in connection with teacher pay, benefits, or evaluations.

(6) Student-level transcript information, including information on courses completed and grades earned, from middle and high schools. The State Board shall establish a statewide course classification system based upon the federal School Codes for Exchange of Data or a similar course classification system. Each school district and charter school shall map its course descriptions to the statewide course classification system for the purpose of State reporting. School districts and charter schools are not required to change or modify the locally adopted course descriptions used for all other purposes. The State Board shall establish or contract for the establishment of a technical support and training system to assist schools and districts with the implementation of this item (6) and shall, to the

extent possible, collect transcript data using a system that permits automated reporting from district student information systems.

(7) Student-level college readiness test scores.

(8) Student-level graduation and dropout data.

(9) The ability to match early learning through secondary student unit records with institution of higher learning student unit record systems.

(10) A State data audit system assessing data quality, validity, and reliability.

(d) Using data provided to and maintained by the longitudinal data system, the State Education Authorities may, in addition to functions and activities specified elsewhere in this Section, perform and undertake the following:

(1) research for or on behalf of early learning programs, schools, school districts, or institutions of higher learning, which may be performed by one or more State Education Authorities or through agreements with research organizations meeting all of the requirements of this Act and privacy protection laws; and

(2) audits or evaluations of federal or State-supported education programs and activities to enforce federal or State legal requirements with respect to those programs. Each State Education Authority may assist another State Education Authority with audit, evaluation, or enforcement activities and may disclose education records with each other for those activities relating to any early learning through postsecondary program. The State Education Authorities may disclose student information to authorized officials of a student's former early learning program, school, or school district to assist with the evaluation of federal or State-supported programs.

(e) In establishing, operating, and expanding the longitudinal data system, the State Education Authorities shall convene stakeholders and create opportunities for input and advice in the areas of data ownership, data use, research priorities, data management, confidentiality, data access, and reporting from the system. Such stakeholders include, but are not limited to, institutions of higher learning, school districts, charter schools, early learning programs, teachers, professors, parents, principals and administrators, school research consortiums, education policy and advocacy organizations, news media, the Illinois Student Assistance Commission, the Illinois Education Research Council, the Department of Commerce and Economic Opportunity, the Illinois Early Learning Council, and the Legislative Research Unit.

(f) Representatives of the State Education Authorities shall report to and advise the Illinois P-20 Council on the implementation, operation, and expansion of the longitudinal data system.

(g) Appropriations made to the State Education Authorities for the purposes of this Act shall be used exclusively for expenses for the development and operation of the longitudinal data system. Authorized expenses of the State Education Authorities may relate to contracts with outside vendors for the development and operation of the system, agreements with other governmental entities or research organizations for authorized uses and functions of the system, technical support and training for entities submitting data to the system, or regular or contractual employees necessary for the system's development or operation.

Section 20. Collection and maintenance of data.

(a) The State Board is authorized to collect and maintain data from school districts, schools, and early learning programs and disclose this data to the longitudinal data system for the purposes set forth in this Act. The State Board shall collect data from charter schools with more than one campus in a manner that can be disaggregated by campus site. The State Board may also disclose data to the longitudinal data system that the State Board is otherwise authorized by law to collect and maintain.

On or before July 1, 2010, the State Board shall establish procedures through which State-recognized, non-public schools may elect to participate in the longitudinal data system by disclosing data to the State Board for one or more of the purposes set forth in this Act.

Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Board shall establish or contract for the establishment of a technical support and training system to assist school districts, schools, and early learning programs with data submission, use, and analysis.

(b) The Community College Board is authorized to collect and maintain data from community college districts and disclose this data to the longitudinal data system for the purposes set forth in this Act. The Community College Board may also disclose data to the longitudinal data system that the Community College Board is otherwise authorized by law to collect and maintain.

Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the Community College Board shall establish or contract for the establishment of a technical

support and training system to assist community colleges with data submission, use, and analysis.

(c) The Board of Higher Education is authorized to collect and maintain data from any public institution of higher learning, other than community colleges, and disclose this data to the longitudinal data system for the purposes set forth in this Act. The Board of Higher Education may also disclose data to the longitudinal data system that the Board of Higher Education is otherwise authorized by law to collect and maintain.

Beginning on July 1, 2012, the Board of Higher Education is authorized to collect and maintain data from any non-public institution of higher learning enrolling one or more students receiving Monetary Award Program grants, pursuant to Section 35 of the Higher Education Student Assistance Act, and disclose this data to the longitudinal data system for the purposes set forth in this Act. Prior to July 1, 2012, any non-public institution of higher learning may elect to participate in the longitudinal data system by disclosing data for one or more of the purposes set forth in this Act to the Board of Higher Education or to a consortium that has contracted with the Board of Higher Education pursuant to this subsection (c).

The Board of Higher Education may contract with one or more voluntary consortiums of non-public institutions of higher learning established for the purpose of data sharing, research, and analysis. The contract may allow the consortium to collect data from participating institutions on behalf of the Board of Higher Education. The contract may provide for consultation with a representative committee of participating institutions and a representative of one or more organizations representing the participating institutions prior to the use of data from the consortium for a data sharing arrangement entered into with any party other than a State Education Authority pursuant to Section 25 of this Act. The contract may further provide that individual institutions of higher learning shall have the right to opt out of specific uses of their data or portions thereof for reasons specified in the contract. Student-level data submitted by each institution of higher learning participating in a consortium that has contracted with the Board of Higher Education pursuant to this paragraph shall remain the property of that institution. Upon notice to the consortium and the Board of Higher Education, any non-public institution of higher learning shall have the right to remove its data from the consortium if the institution has reasonable cause to believe that there is a threat to the security of its data or its data is used in a manner that violates the terms of the contract between the consortium and the Board of Higher Education. In the event data is removed from a consortium pursuant to the preceding sentence, the data must be returned by the institution to the consortium after the basis for removal has been corrected. The data submitted from the consortium to the Board of Higher Education must be used only for agreed-upon purposes, as stated in the terms of the contract between the consortium and the Board of Higher Education. Non-public institutions of higher learning submitting student-level data to a consortium that has contracted with the Board of Higher Education pursuant to this paragraph shall not be required to submit student-level data to the Board of Higher Education.

Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the Board of Higher Education shall establish or contract for the establishment of a technical support and training system to assist institutions of higher learning, other than community colleges, with data submission, use, and analysis. The Board of Higher Education may make available grant funding to a consortium of non-public institutions of higher learning to provide assistance in the development of the Board's data collection system. The Board of Higher Education shall engage in a cooperative planning process with public and non-public institutions of higher learning and statewide higher education associations in connection with all of the activities authorized by this subsection (c).

(d) The State Education Authorities shall establish procedures and requirements relating to the submission of data authorized to be collected pursuant to this Section, including requirements for data specifications, quality, security, and timeliness. Section 40. Evaluation. Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Education Authorities shall contract with an independent outside evaluator for oversight of the development and operation of the longitudinal data system. The independent outside evaluator shall annually submit a report to the State Education Authorities, the Illinois P-20 Council, the Speaker and Minority Leader of the House of Representatives, and the President and Minority Leader of the Senate. However, a charter school that is established on or after the effective date of this amendatory Act of the 93rd General Assembly and that operates in a city having a population exceeding 500,000 may not contract with a for-profit entity to manage or operate the school during the period that commences on the effective date of this amendatory Act of the 93rd General Assembly and concludes at the end of the 2004-2005 school year. Except as provided in subsection (i) of this Section, a school district may charge a charter school reasonable rent for the use of the district's buildings, grounds, and facilities. Any services for which a charter school contracts with a school district shall be provided by the district at cost. Any services for which a charter school contracts with a local school board or with the governing body of a State college or university or public community college shall be provided by the public entity at cost.

(i) In no event shall a charter school that is established by converting an existing school or attendance center to charter school status be required to pay rent for space that is deemed available, as negotiated and provided in the charter agreement, in school district facilities. Section 999. Effective date. This Act takes effect upon becoming law."

The motion prevailed.

And the amendment was adopted and ordered printed.

Senator Steans offered the following amendment and moved its adoption:

AMENDMENT NO. 2 TO SENATE BILL 1828

AMENDMENT NO. 2. Amend Senate Bill 1828 by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the P-20 Longitudinal Education Data System Act.

Section 5. Findings; declarations. The General Assembly finds and declares all of the following:

(1) Sound data collection, reporting, and analysis are critical to building a State education system capable of ensuring all Illinois students are adequately prepared for college and the global workforce. School districts and institutions of higher learning can improve instructional and educational decision-making using data that is collected and made available by this State.

(2) Reliable and sufficient education data is necessary to ensure that this State bases education policy decisions on valid, objective measures of student outcomes. Publicly accessible data on State, school district, and school performance allows the citizens of this State to assess local and statewide investments in education.

(3) A national collaborative effort among State education officials, national education organizations, and state and federal policymakers has defined the essential elements a State longitudinal data system should contain. Public Law 110-69, the America COMPETES Act, requires state longitudinal data systems to include all 10 elements identified by this national, collaborative effort for states to qualify for federal funding opportunities. The federal American Recovery and Reinvestment Act of 2009 requires states to establish longitudinal data systems with all 10 elements to qualify for federal funding for education, public safety, and other government services.

(4) Public Law 110-134 requires the Illinois Early Learning Council to develop recommendations regarding the establishment of a unified data collection system for public early childhood education and development programs and services throughout this State, and those efforts should be coordinated with the development of this State's longitudinal data system.

(5) State education policymaking benefits from partnerships between State education agencies and entities with expertise in education research, including school districts, institutions of higher learning, and research organizations. This State should establish systems and processes to

[April 1, 2009]

permit qualified researchers to assist with State evaluation and research functions in a manner consistent with privacy protection laws.

(6) State education systems and national policymaking benefit from multi-state collaborations that are informed by high quality data collection systems.

(7) This State is committed to establishing and maintaining a longitudinal student unit record data system that educators and policymakers can use to analyze and assess student progress from early learning programs through postsecondary education and into employment. The State Board of Education, the Illinois Community College Board, and the Board of Higher Education have designed, built, and deployed some of the fundamental components of a longitudinal data system and have engaged in extensive efforts to effectively link and use available education data. However, the various education data components maintained by this State must be integrated and managed in a cooperative manner to establish a data-driven, decision-making environment for this State's education system.

(8) The longitudinal data system established by this Act is intended, among other purposes, to link student test scores, length of enrollment, and graduation records over time, as permitted by Section 1111(b)(3)(B) of the federal Elementary and Secondary Education Act (20 U.S.C. 6311(b)(3)(B)).

(9) Students will achieve improved learning outcomes as a result of the longitudinal data system established by this Act through instruction and educational programs informed by valid and reliable data.

(10) State use and management of education data must be in accordance with all legal requirements protecting student privacy and must protect personal information from intentional or accidental release to unauthorized persons and from intentional or accidental use for unauthorized purposes.

unit records with institution of higher learning student unit records. To the extent authorized by this Section and Section 20 of this Act:

- (1) the State Board is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on early learning, public school (kindergarten through grade 12), and non-public school (kindergarten through grade 12) students;
 - (2) the Community College Board is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on community college students; and
 - (3) the Board of Higher Education is responsible for collecting and maintaining authoritative enrollment, completion, and student characteristic information on students enrolled in institutions of higher learning, other than community colleges.

 - (8) Provide research and reports to the General Assembly that assist with evaluating the effectiveness of specific programs and that enable legislators to analyze educational performance within their legislative districts.
 - (9) Allow the State Education Authorities to efficiently meet federal and State reporting requirements by drawing data for required reports from multiple State systems.
 - (10) Establish a system to evaluate teacher and administrator preparation programs using student academic growth as one component of evaluation.
 - (11) In accordance with a data sharing agreement entered into between the State Education Authorities and the Illinois Student Assistance Commission, establish procedures and systems to evaluate the relationship between need-based financial aid and student enrollment and success in institutions of higher learning.
 - (12) In accordance with data sharing agreements entered into between the State Education Authorities and health and human service agencies, establish procedures and systems to evaluate the relationship between education and other student and family support systems.
 - (13) In accordance with data sharing agreements entered into between the State Education Authorities and employment and workforce development agencies, establish procedures and systems to evaluate the relationship between education programs and outcomes and employment fields, employment locations, and employment outcomes.
- (c) On or before June 30, 2013, subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Board shall establish a data warehouse that integrates data from multiple student unit record systems and supports all of the uses and functions of the longitudinal data system set forth in this Act. The data warehouse must be developed in cooperation with the Community College Board and the Board of Higher Education and must have the ability to integrate

longitudinal data from early learning through the postsecondary level in accordance with one or more data sharing agreements entered into among the State Education Authorities. The data warehouse, as integrated with the longitudinal data system, must include, but is not limited to, all of the following elements:

- (1) A unique statewide student identifier that connects student data across key databases across years. The unique statewide student identifier must not be derived from a student's social security number and must be provided to institutions of higher learning to assist with linkages between early learning through secondary and postsecondary data.
 - (2) Student-level enrollment, demographic, and program participation information, including information on participation in dual credit programs.
 - (3) The ability to match individual students' elementary and secondary test records from year to year to measure academic growth.
 - (4) Information on untested students in the elementary and secondary levels, and the reasons they were not tested.
 - (5) A teacher and administrator identifier system with the ability to match students to early learning, elementary, and secondary teachers and elementary and secondary administrators. Information able to be obtained only as a result of the linkage of teacher and student data through the longitudinal data system may not be used by a school district for decisions involving teacher pay or teacher benefits unless the district and the exclusive bargaining representative of the district's teachers, if any, have agreed to this use. Information able to be obtained only as a result of the linkage of teacher and student data through the longitudinal data system may not be used by a school district as part of an evaluation under Article 24A of the School Code unless, in good faith cooperation with the school district's teachers or, where applicable, the exclusive bargaining representative of the school district's teachers, the school district has developed an evaluation plan or substantive change to an evaluation plan that specifically describes the school district's rationale for using this information for evaluations, how this information will be used as part of the evaluation process, and how this information will relate to evaluation standards. However, nothing in this subdivision (5) or elsewhere in this Act limits or restricts (i) a district's use of any local or State data that has been obtained independently from the linkage of teacher and student data through the longitudinal data system or (ii) a charter school's use of any local or State data in connection with teacher pay, benefits, or evaluations.
 - (6) Student-level transcript information, including information on courses completed and grades earned, from middle and high schools. The State Board shall establish a statewide course classification system based upon the federal School Codes for Exchange of Data or a similar course classification system. Each school district and charter school shall map its course descriptions to the statewide course classification system for the purpose of State reporting. School districts and charter schools are not required to change or modify the locally adopted course descriptions used for all other purposes. The State Board shall establish or contract for the establishment of a technical support and training system to assist schools and districts with the implementation of this item (6) and shall, to the extent possible, collect transcript data using a system that permits automated reporting from district student information systems.
 - (7) Student-level college readiness test scores.
 - (8) Student-level graduation and dropout data.
 - (9) The ability to match early learning through secondary student unit records with institution of higher learning student unit record systems.
 - (10) A State data audit system assessing data quality, validity, and reliability.
- (d) Using data provided to and maintained by the longitudinal data system, the State Education Authorities may, in addition to functions and activities specified elsewhere in this Section, perform and undertake the following:
- (1) research for or on behalf of early learning programs, schools, school districts, or institutions of higher learning, which may be performed by one or more State Education Authorities or through agreements with research organizations meeting all of the requirements of this Act and privacy protection laws; and
 - (2) audits or evaluations of federal or State-supported education programs and activities to enforce federal or State legal requirements with respect to those programs. Each State Education Authority may assist another State Education Authority with audit, evaluation, or enforcement activities and may disclose education records with each other for those activities relating to any early learning through postsecondary program. The State Education Authorities may disclose student information to authorized officials of a student's former early learning program, school, or

school district to assist with the evaluation of federal or State-supported education programs.

(e) In establishing, operating, and expanding the longitudinal data system, the State Education Authorities shall convene stakeholders and create opportunities for input and advice in the areas of data ownership, data use, research priorities, data management, confidentiality, data access, and reporting from the system. Such stakeholders include, but are not limited to, public and non-public institutions of higher learning, school districts, charter schools, non-public elementary and secondary schools, early learning programs, teachers, professors, parents, principals and administrators, school research consortiums, education policy and advocacy organizations, news media, the Illinois Student Assistance Commission, the Illinois Education Research Council, the Department of Commerce and Economic Opportunity, the Illinois Early Learning Council, and the Legislative Research Unit.

(f) Representatives of the State Education Authorities shall report to and advise the Illinois P-20 Council on the implementation, operation, and expansion of the longitudinal data system.

(g) Appropriations made to the State Education Authorities for the purposes of this Act shall be used exclusively for expenses for the development and operation of the longitudinal data system. Authorized expenses of the State Education Authorities may relate to contracts with outside vendors for the development and operation of the system, agreements with other governmental entities or research organizations for authorized uses and functions of the system, technical support and training for entities submitting data to the system, or regular or contractual employees necessary for the system's development or operation.

Section 20. Collection and maintenance of data.

(a) The State Board is authorized to collect and maintain data from school districts, schools, and early learning programs and disclose this data to the longitudinal data system for the purposes set forth in this Act. The State Board shall collect data from charter schools with more than one campus in a manner that can be disaggregated by campus site. The State Board may also disclose data to the longitudinal data system that the State Board is otherwise authorized by law to collect and maintain.

On or before July 1, 2010, the State Board shall establish procedures through which State-recognized, non-public schools may elect to participate in the longitudinal data system by disclosing data to the State Board for one or more of the purposes set forth in this Act.

Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the State Board shall establish or contract for the establishment of a technical support and training system to assist school districts, schools, and early learning programs with data submission, use, and analysis.

(b) The Community College Board is authorized to collect and maintain data from community college districts and disclose this data to the longitudinal data system for the purposes set forth in this Act. The Community College Board may also disclose data to the longitudinal data system that the Community College Board is otherwise authorized by law to collect and maintain.

Subject to the availability of funding through appropriations made specifically for the purposes of this Act, the Community College Board shall establish or contract for the establishment of a technical support and training system to assist community colleges with data submission, use, and analysis.

(c) The Board of Higher Education is authorized to collect and maintain data from any public institution of higher learning, other than community colleges, and disclose this data to the longitudinal data system for the purposes set forth in this Act. The Board of Higher Education may also disclose data to the longitudinal data system that the Board of Higher Education is otherwise authorized by law to collect and maintain.

Beginning on July 1, 2012, the Board of Higher Education is authorized to collect and maintain data from any non-public institution of higher learning enrolling one or more students receiving Monetary Award Program grants, pursuant to Section 35 of the Higher Education Student Assistance Act, and disclose this data to the longitudinal data system for the purposes set forth in this Act. Prior to July 1, 2012, any non-public institution of higher learning may elect to participate in the longitudinal data system by disclosing data for one or more of the purposes set forth in this Act to the Board of Higher Education or to a consortium that has contracted with the Board of Higher Education pursuant to this subsection (c).

The Board of Higher Education may contract with one or more voluntary consortiums of non-public institutions of higher learning established for the purpose of data sharing, research, and analysis. The contract may allow the consortium to collect data from participating institutions on behalf of the Board of Higher Education. The contract may provide for consultation with a representative committee of participating institutions and a representative of one or more organizations representing the participating institutions prior to the use of data from the consortium for a data sharing arrangement entered into with

any party other than a State Education Authority pursuant to Section 25 of this Act. The contract may further provide that individual institutions of higher learning shall have the right to opt out of specific uses of their data or portions thereof for reasons specified in the contract. Student-level data submitted by each institution of higher learning participating in a consortium that has contracted with the Board of Higher Education pursuant to this paragraph shall remain the property of that institution. Upon notice to the consortium and the Board of Higher Education, any non-public institution of higher learning shall have the right to remove its data from the consortium if the institution has reasonable cause to believe that there is a threat to the security of its data or its data is used in a manner that violates the terms of the contract between the consortium and the Board of Higher Education. In the event data is removed from a consortium pursuant to the preceding sentence, the data must be returned by the institution to the consortium after the basis for removal has been corrected. A State Education Authority may require that staff responsible for collecting, validating, and submitting data participate in training and technical assistance offered by this State if data is not submitted in accordance with applicable procedures and requirements.

- (C) describes specific data access, use, and security restrictions that the recipient will undertake; and
- (D) includes such other terms and provisions as the State Education Authorities deem necessary to carry out the intent and purposes of this Act.

Section 30. Subject to privacy protection laws. The collection, use, maintenance, disclosure, and sharing of data authorized by this Act must be conducted in accordance with privacy protection laws. The State Education Authorities shall each develop security measures and procedures that protect personal information from intentional or accidental release to unauthorized persons and from intentional or accidental use for unauthorized purposes.

Section 35. No impact on existing authority. Section 10. The Illinois Insurance Code is amended by adding Section 356z.15 as follows:
(215 ILCS 5/356z.15 new)

Sec. 356z.15. Wellness coverage.

(a) A group or individual policy of accident and health insurance or managed care plan amended, delivered, issued, or renewed after the effective date of this amendatory Act of the 96th General Assembly that provides coverage for hospital or medical treatment on an expense incurred basis may offer a reasonably designed program for wellness coverage that allows for a reward, a health spending account contribution, a reduction in premiums or reduced medical, prescription drug, or equipment copayments, coinsurance, or deductibles, or a combination of these incentives, for participation in any health behavior wellness, maintenance, or improvement program approved or offered by the insurer or managed care plan. The insured or enrollee may be required to provide evidence of participation in a program, or demonstrative compliance with treatment recommendations as determined by the health insurer or managed care plan.

(b) For purposes of this Section, "wellness coverage" means health care coverage with the primary purpose to engage and motivate the insured or enrollee through: incentives; provision of health education, counseling, and self-management skills; identification of modifiable health risks; and other activities to influence health behavior changes.

(c) Incentives as outlined in this Section are specific and unique to the offering of wellness coverage and have no application to any other required or optional health care benefit.

(d) Such wellness coverage must satisfy the requirements for an exception from the general prohibition against discrimination based on a health factor under the federal Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191; 110 Stat. 1936), including any federal regulations that are adopted pursuant to that Act.

(e) A plan offering wellness coverage must do the following:

(i) give participants the opportunity to qualify for offered incentives at least once a year;

(ii) allow a reasonable alternative to any individual for whom it is unreasonably difficult, due to a medical condition, to satisfy otherwise applicable wellness program standards. Plans may seek physician verification that health factors make it unreasonably difficult or medically inadvisable for the participant to satisfy the standards; and

(iii) not provide a total incentive that exceeds 20% of the cost of employee-only coverage. The cost of employee-only coverage includes both employer and employee contributions. For plans offering family coverage, the 20% limitation applies to cost of family coverage and applies to the entire family.

(f) A reward, health spending account contribution, or reduction established under this Section does not violate Section 151 of this Code.

(g) Rulemaking authority to implement this amendatory Act of the 96th General Assembly, if any, is conditioned on the rules being adopted in accordance with all provisions of the Illinois Administrative Procedure Act and all rules and procedures of the Joint Committee on Administrative Rules; any purported rule not so adopted, for whatever reason, is unauthorized.

The Board must provide written and consistent decisions that are based on the findings from the Comprehensive Health Plan, as well as other issue or subject specific plans, recommended by the Center for Comprehensive Health Planning. Policies and procedures must include criteria and standards for plan variations and deviations that must be updated. Evidence-based assessments, projections and decisions will be applied regarding capacity, quality, value and equity in the delivery of health care services in Illinois. The integrity of the Certificate of Need process is ensured through implementation of a special panel for nominations of the Certificate of Need Board, as well as revised ethics and communications procedures. Cost containment and support for safety net services must continue to be central tenets of the Certificate of Need process.

Sec. 19.7. Special Nomination Panel.

(a) The Nomination Panel is established to provide a list of candidates to the Governor for appointment to the Illinois Health Facilities and Services Review Board ("Board"), the position of Chairman of the Board, and the Comprehensive Health Planner. Ethics Commissioner appointed by the Attorney General; and (5) the Executive Ethics Commissioner appointed by the Governor. However, the appointing authorities as of the effective date of this amendatory Act of the 96th General Assembly shall remain empowered to fill vacancies on the Nomination Panel until all members of the new Board, the Chairman of the Board, and the Comprehensive Health Planner have been appointed and qualified, regardless of whether such appointing authorities remain members of the Executive Ethics Commission. In the event of such appointing authority's disqualification, resignation, or refusal to serve as an appointing authority, the Constitutional officer that appointed the Executive Ethics Commissioner may name a designee to serve as an appointing authority for the Nomination Panel. The appointing authorities may hold so many public or non-public meetings as is required to fulfill their duties, and may utilize the staff and budget of the Executive Ethics Commission in carrying out their duties; provided, however, that a final vote on appointees to the Nomination Panel shall take place in a meeting governed by the Open Meetings Act. Any ex parte communications regarding the Nomination Panel must be made a part of the record at the next public meeting and part of a written record. The appointing authorities shall file a list of members of the Nomination Panel with the Secretary of State within 60 days after the effective date of this amendatory Act of the 96th General Assembly. A vacancy on the Nomination Panel due to disqualification or resignation must be filled within 60 days of a vacancy and the appointing authorities must file the name of the new appointee with the Secretary of State.

(b) The Nomination Panel shall consist of 9 members, who may include former federal or State judges from Illinois, former federal prosecutors from Illinois, former sworn federal officers with investigatory experience with a federal agency, or former members of federal agencies with experience in regulatory oversight. Two members shall have at least 5 years of experience with nonprofit agencies in Illinois committed to public-interest advocacy. Members shall submit statements of economic interest to the Secretary of State. Each member of the Nomination Panel shall receive \$300 for each day the Nomination Panel meets. The Executive Ethics Commission shall provide staff and support to the Nomination Panel pursuant to appropriations available for those purposes.

(c) Candidates for nomination to the Illinois Health Facilities and Services Review Board, Chairman of the Board, or the position of Comprehensive Health Planner may apply or be nominated. All candidates must fill out a written application and submit to a background investigation to be eligible for consideration. The written application must include, at a minimum, a sworn statement disclosing any communications that the applicant has engaged in with a constitutional officer, a member of the General Assembly, a special government agent (as that term is defined in Section 4A-101 of the Illinois Governmental Ethics Act), a member of the Board or the Nomination Panel, a director, secretary, or other employee of the executive branch of the State, or an employee of the legislative branch of the State related to the regulation of health facilities and services within the last year. (d) Once an application is submitted to the Nomination Panel and until (1) the nominee is rejected by the Nomination Panel, (2) the nominee is rejected by the Governor, (3) the candidate is rejected by the Senate, or (4) the candidate is confirmed by the Senate, whichever is applicable, a candidate may not engage in ex parte communications, as that term is defined in Section 5.7 of this Act.

(e) The Nomination Panel shall conduct a background investigation on candidates eligible for nomination to the Board, Chairman of the Board, or the position of Comprehensive Health Planner. For the purpose of making the initial nominations after the effective date of this amendatory Act of the 96th General Assembly, the Nomination Panel shall request the assistance of the Federal Bureau of Investigation to conduct background investigations. If the Federal Bureau of Investigation does not agree to conduct background investigations, or the Federal Bureau of Investigations cannot conduct the background investigations within 120 days after the request is made, the Nomination Panel may contract with an independent agency that specializes in conducting personal investigations. The Nomination Panel may not engage the services or enter into any contract with State or local law enforcement agencies for the conduct of background investigations.

(f) The Nomination Panel must review written applications, determine eligibility for oral interviews, confirm satisfactory background investigations, and hold public hearings on qualifications of candidates. Initial interviews of candidates need not be held in meetings subject to the Open Meetings Act; members or staff may arrange for informal interviews. Prior to recommendation, however, the Nomination Panel must question candidates in a meeting subject to the Open Meetings Act under oath.

(g) The Nomination Panel must recommend candidates for nomination to the Board, the Chairman of the Board, and the position of Comprehensive Health Planner. The Nomination Panel shall recommend 3

candidates for every open position and prepare a memorandum detailing the candidates' qualifications. The names and the memorandum must be delivered to the Governor and filed with the Secretary of State. The Governor may choose only from the recommendations of the Nomination Panel and must nominate a candidate for every open position within 30 days of receiving the recommendations. The Governor shall file the names of his nominees with the Secretary of the Senate and the Secretary of State. If the Governor does not name a nominee for every open position, then the Nomination Panel may select the remaining nominees for the Board, Chairman of the Board, or the position of Comprehensive Health Planner. serve the residents of a health professional shortage area as determined by the United States Department of Health and Human Services. There shall be no more than 2 birth centers authorized to operate in any single health planning area for obstetric services as determined under the Illinois Health Facilities Planning Act. If a birth center is located outside of a health professional shortage area, (i) the birth center shall be located in a health planning area with a demonstrated need for obstetrical service beds, as determined by the Health Facilities and Services Review Board ~~Illinois Health Facilities Planning Board~~ or (ii) there must be a reduction in the existing number of obstetrical service beds in the planning area so that the establishment of the birth center does not result in an increase in the total number of obstetrical service beds in the health planning area.

(b) Alternative health care models, other than a model authorized under subsections (a-15) and subsection (a-20), shall obtain a certificate of need from the Health Facilities and Services Review Board ~~Illinois Health Facilities Planning Board~~ under the Illinois Health Facilities Planning Act before receiving a license by the Department. If, after obtaining its initial certificate of need, an alternative health care delivery model that is a community based residential rehabilitation center seeks to increase the bed capacity of that center, it must obtain a certificate of need from the Health Facilities and Services Review Board ~~Illinois Health Facilities Planning Board~~ before increasing the bed capacity. Alternative health care models in medically underserved areas shall receive priority in obtaining a certificate of need.

(c) An alternative health care model license shall be issued for a period of one year and shall be annually renewed if the facility or program is in substantial compliance with the Department's rules adopted under this Act. A licensed alternative health care model that continues to be in substantial compliance after the conclusion of the demonstration program shall be eligible for annual renewals unless and until a different licensure program for that type of health care model is established by legislation. The Department may issue a provisional license to any alternative health care model that does not substantially comply with the provisions of this Act and the rules adopted under this Act if (i) the Department finds that the alternative health care model has undertaken changes and corrections which upon completion will render the alternative health care model in substantial compliance with this Act and rules and (ii) the health and safety of the patients of the alternative health care model will be protected during the period for which the provisional license is issued. The Department shall advise the licensee of the conditions under which the provisional license is issued, including the manner in which the alternative health care model fails to comply with the provisions of this Act and rules, and the time within which the changes and corrections necessary for the alternative health care model to substantially comply with this Act and rules shall be completed.

(d) Alternative health care models shall seek certification under Titles XVIII and XIX of the federal Social Security Act. In addition, alternative health care models shall provide charitable care consistent with that provided by comparable health care providers in the geographic area.

(d-5) The Department of Healthcare and Family Services (formerly Illinois Department of Public Aid), in cooperation with the Illinois Department of Public Health, shall develop and implement a reimbursement methodology for all facilities participating in the demonstration program. The Department of Healthcare and Family Services shall keep a record of services provided under the demonstration program to recipients of medical assistance under the Illinois Public Aid Code and shall submit an annual report of that information to the Illinois Department of Public Health.

(e) Alternative health care models shall, to the extent possible, link and integrate their services with nearby health care facilities.

(f) Each alternative health care model shall implement a quality assurance program with measurable benefits and at reasonable cost.

Section 55. The Health Care Worker Self-Referral Act is amended by changing Sections 5, 15, and 30 as follows:

(225 ILCS 47/5)

Sec. 5. Legislative intent. The General Assembly recognizes that patient referrals by health care workers for health services to an entity in which the referring health care worker has an investment interest may present a potential conflict of interest. The General Assembly finds that these referral practices may limit or completely eliminate competitive alternatives in the health care market. In some instances, these referral practices may expand and improve care or may make services available which were previously unavailable. They may also provide lower cost options to patients or increase competition. Generally, referral practices are positive occurrences. However, self-referrals may result in over utilization of health services, increased overall costs of the health care systems, and may affect the quality of health care.

It is the intent of the General Assembly to provide guidance to health care workers regarding acceptable patient referrals, to prohibit patient referrals to entities providing health services in which the referring health care worker has an investment interest, and to protect the citizens of Illinois from unnecessary and costly health care expenditures.

Recognizing the need for flexibility to quickly respond to changes in the delivery of health services, to avoid results beyond the limitations on self referral provided under this Act and to provide minimal disruption to the appropriate delivery of health care, the ~~Health Facilities and Services Review Board~~ Health Facilities Planning Board shall be exclusively and solely authorized to implement and interpret this Act through adopted rules.

The General Assembly recognizes that changes in delivery of health care has resulted in various methods by which health care workers practice their professions. It is not the intent of the General Assembly to limit appropriate delivery of care, nor force unnecessary changes in the structures created by workers for the health and convenience of their patients.

Sec. 30. Nursing home conversion program.

(a) The Department of Public Health, in collaboration with the Department on Aging and the Department of Healthcare and Family Services, shall establish a nursing home conversion program. Start-up grants, pursuant to subsections (l) and (m) of this Section, shall be made available to nursing homes as appropriations permit as an incentive to reduce certified beds, retrofit, and retool operations to meet new service delivery expectations and demands.

(b) Grant moneys shall be made available for capital and other costs related to: (1) the conversion of all or a part of a nursing home to an assisted living establishment or a special program or unit for persons with Alzheimer's disease or related disorders licensed under the Assisted Living and Shared Housing Act

or a supportive living facility established under Section 5-5.01a of the Illinois Public Aid Code; (2) the conversion of multi-resident bedrooms in the facility into single-occupancy rooms; and (3) the development of any of the services identified in a priority service plan that can be provided by a nursing home within the confines of a nursing home or transportation services. Grantees shall be required to provide a minimum of a 20% match toward the total cost of the project.

(c) Nothing in this Act shall prohibit the co-location of services or the development of multifunctional centers under subsection (f) of Section 20, including a nursing home offering community-based services or a community provider establishing a residential facility.

(d) A certified nursing home with at least 50% of its resident population having their care paid for by the Medicaid program is eligible to apply for a grant under this Section.

(e) Any nursing home receiving a grant under this Section shall reduce the number of certified nursing home beds by a number equal to or greater than the number of beds being converted for one or more of the permitted uses under item (1) or (2) of subsection (b). The nursing home shall retain the Certificate of Need for its nursing and sheltered care beds that were converted for 15 years. If the beds are reinstated by the provider or its successor in interest, the provider shall pay to the fund from which the grant was awarded, on an amortized basis, the amount of the grant. The Department shall establish, by rule, the bed reduction methodology for nursing homes that receive a grant pursuant to item (3) of subsection (b).

(f) Any nursing home receiving a grant under this Section shall agree that, for a minimum of 10 years after the date that the grant is awarded, a minimum of 50% of the nursing home's resident population shall have their care paid for by the Medicaid program. If the nursing home provider or its successor in interest ceases to comply with the requirement set forth in this subsection, the provider shall pay to the fund from which the grant was awarded, on an amortized basis, the amount of the grant.

(g) Before awarding grants, the Department of Public Health shall seek recommendations from the Department on Aging and the Department of Healthcare and Family Services. The Department of Public Health shall attempt to balance the distribution of grants among geographic regions, and among small and large nursing homes. The Department of Public Health shall develop, by rule, the criteria for the award of grants based upon the following factors:

- (1) the unique needs of older adults (including those with moderate and low incomes), caregivers, and providers in the geographic area of the State the grantee seeks to serve;
- (2) whether the grantee proposes to provide services in a priority service area;
- (3) the extent to which the conversion or transition will result in the reduction of certified nursing home beds in an area with excess beds;
- (4) the compliance history of the nursing home; and
- (5) any other relevant factors identified by the Department, including standards of need.

(h) A conversion funded in whole or in part by a grant under this Section must not:

- (1) diminish or reduce the quality of services available to nursing home residents;
- (2) force any nursing home resident to involuntarily accept home-based or community-based services instead of nursing home services;
- (3) diminish or reduce the supply and distribution of nursing home services in any community below the level of need, as defined by the Department by rule; or
- (4) cause undue hardship on any person who requires nursing home care.

(i) The Department shall prescribe, by rule, the grant application process. At a minimum, every application must include:

- (1) the type of grant sought;
- (2) a description of the project;
- (3) the objective of the project;
- (4) the likelihood of the project meeting identified needs;
- (5) the plan for financing, administration, and evaluation of the project;
- (6) the timetable for implementation;
- (7) the roles and capabilities of responsible individuals and organizations;
- (8) documentation of collaboration with other service providers, local community government leaders, and other stakeholders, other providers, and any other stakeholders in the community;
- (9) documentation of community support for the project, including support by other service providers, local community government leaders, and other stakeholders;
- (10) the total budget for the project;
- (11) the financial condition of the applicant; and
- (12) any other application requirements that may be established by the Department by

rule.

(j) A conversion project funded in whole or in part by a grant under this Section is exempt from the requirements of the Illinois Health Facilities Planning Act. The Department of Public Health, however, shall send to the Health Facilities and Services Review Board ~~Health Facilities Planning Board~~ a copy of each grant award made under this Section.

(k) Applications for grants are public information, except that nursing home financial condition and any proprietary data shall be classified as nonpublic data.

(l) The Department of Public Health may award grants from the Long Term Care Civil Money Penalties Fund established under Section 1919(h)(2)(A)(ii) of the Social Security Act and 42 CFR 488.422(g) if the award meets federal requirements.

If a business entity with an insurance producer license registers as a viatical settlement broker, then that registration authorizes all partners, officers, members, and designated employees to act as viatical settlement brokers. All persons acting as viatical settlement brokers pursuant to such a registration shall be named in the application and any supplements to the application.

(e) A duly licensed resident insurance producer with a life product line or authority in this State or the insurance producer's home state for at least one year, lawfully transacting business as a viatical settlement broker prior to the effective date of this Act may continue to do so, pending receipt by the Director of the notice required by subsection (d) of this Section, provided that the notice is received by the Director no later than 30 days after the effective date of this Act.

(f) A person licensed as an attorney, certified public accountant, or financial planner accredited by a nationally recognized accreditation agency, who is retained to represent the viator, whose compensation is not paid directly or indirectly by the viatical settlement provider, may negotiate viatical settlement contracts on behalf of the viator without having to obtain a license as a viatical settlement broker.

(g) A person shall not operate as a viatical settlement provider without first obtaining a license from the Director.

(i) Viatical settlement provider licenses may be renewed from year to year on the anniversary date upon payment of the annual renewal fee of \$1,500. Failure to pay the fees by the renewal date results in expiration of the license.

(j) The applicant for a viatical settlement provider license shall provide information on forms required by the Director. The Director shall have authority, at any time, to require the applicant to fully disclose the identity of all stockholders, partners, officers, members, and employees, and the Director may, in the exercise of the Director's discretion, refuse to issue a license in the name of a legal entity if not satisfied

that any officer, employee, stockholder, partner, or member thereof who may materially influence the applicant's conduct meets the standards of this Act.

A viatical settlement provider license issued to a legal entity authorizes all partners, officers, members, and designated employees to act as viatical settlement providers, as applicable, under the license, and all those persons shall be named in the application and any supplements to the application.

(k) Upon the filing of a viatical settlement provider license application and the payment of the license fee, the Director shall make an investigation of each applicant and issue a license if the Director finds that the applicant:

(B) the Director may ask for evidence of financial responsibility at any time the Director deems necessary;

(C) any surety bond issued pursuant to this subsection (k) shall be in the favor of this State and shall specifically authorize recovery by the Director on behalf of any person in this State who sustained damages as the result of erroneous acts, failure to act, conviction of fraud or conviction of unfair practices by the viatical settlement provider;

(5) if a legal entity, provides a certificate of good standing from the state of its domicile; and

(6) has provided an anti-fraud plan that meets the requirements of Section 65 of this Act.

(l) The Director shall not issue a viatical settlement provider license to a nonresident applicant unless a written designation of an agent for service of process is filed and maintained with the Director or the applicant has filed with the Director the applicant's written irrevocable consent that any action against the applicant may be commenced against the applicant by service of process on the Director.

(m) An applicant for a viatical settlement provider license shall provide all information requested by the Director. The Director may, at any time, require the applicant to fully disclose the identity of all stockholders, partners, officers, members, and employees of the viatical settlement provider, and the Director may refuse to issue a license to an applicant that is not an individual if the Director is not satisfied that each stockholder, partner, officer, member, and employee who may materially influence

the applicant's conduct meets the standards set forth in this Act. The Director may also require the applicant to disclose the method the applicant will use to determine and receive life expectancies, the applicant's intended use of life expectancies, and a written plan containing policies and procedures to use when determining life expectancies.

The training shall meet the requirements set forth in subsection (b) of this Section.

(2) An individual already licensed and selling, soliciting, or negotiating viatical settlement contracts on the effective date of this Act may not continue to sell, solicit, or negotiate viatical settlement contracts unless the individual has completed a one-time training course, as set forth in subsection (b) of this Section, within one year after the effective date of this Act.

(b) If the Director denies a viatical settlement provider license application or suspends, revokes, or refuses to renew the license of a viatical settlement provider, the Director shall notify the applicant or viatical settlement provider and advise, in writing, the applicant or viatical settlement provider of the reason for the suspension, revocation, denial, or nonrenewal of the applicant's or licensee's license. The applicant or viatical settlement provider may make a written demand upon the Director within 30 days after the date of mailing for a hearing before the Director to determine the reasonableness of the Director's action. (d) The Director shall keep confidential and not a matter of public record all individual transaction data regarding the business of viatical settlements and data that could compromise the privacy of personal, financial, and health information of the viator or the insured. All proprietary information received by the Director from a viatical settlement provider pursuant to this Section must be given confidential treatment, is not subject to subpoena, and may not be made public by the Director or any other persons.

(a) The Director may when and as often as the Director deems it reasonably necessary to protect the interests of the public, examine the business affairs of any licensee.

In scheduling and determining the nature, scope, and frequency of the examinations, the Director shall consider such matters as consumer complaints, results of financial statement analyses and ratios, changes in management or ownership, actuarial opinions, report of independent certified public accountants, and other relevant criteria as determined by the Director.

[April 1, 2009]

(b) For purposes of completing an examination of a licensee under this Act, the Director may examine or investigate any person, or the business of any person, in so far as the examination or investigation is, in the sole discretion of the Director, necessary or material to the examination.

(c) In lieu of an examination under this Act of any foreign licensee or alien licensee licensed in this State, the Director may, at the Director's discretion, accept an examination report on the licensee as prepared by the chief insurance regulatory official for the licensee's state of domicile or port-of-entry state.

(d) As far as practical, the examination of a foreign licensee or alien licensee shall be made in cooperation with the insurance supervisory officials of other states in which the licensee transacts business.

(e) Licensees shall for 5 years retain copies of:

(1) all proposed, offered, or executed contracts, purchase agreements, underwriting documents, policy forms, and applications from the date of the proposal, offer, or execution of the contract or purchase agreement, whichever is later;

(2) all checks, drafts, or other evidence and documentation related to the payment, transfer, deposit, or release of funds from the date of the transaction;

(3) all other records and documents in any format related to the requirements of this Act, including a record of complaints received against the licensee and agents representing the licensee and a list of all life expectancy providers that have provider services to the licensee.

This subsection (e) does not relieve a person of the obligation to produce records required by this subsection to the Director after the retention period has expired if the person has retained the documents.

Records required to be retained by this subsection (e) must be legible and complete and may be retained in paper, photograph, microprocessor, magnetic, mechanical, or electronic media, or by any process that accurately reproduces or forms a durable medium for the reproduction of a record.

(f) Upon determining that an examination should be conducted, the Director shall appoint one or more examiners to perform the examination and instruct them as to the scope of the examination. The Director may employ any guidelines or procedures for purposes of this subsection (f) that the Director deems appropriate.

Every licensee or person, including all officers, partners, members, directors, employees, controlling persons, and agents of any licensee or person, from whom information is sought shall provide to the examiners timely, convenient, and free access at all reasonable hours at the licensee's or person's offices to all books, records, accounts, papers, documents, assets, and computer or other recordings relating to the property, assets, business, and affairs of the licensee being examined. The officers, directors, employees, and agents of the licensee or person shall facilitate the examination and aid in the examination so far as it is in their power to do so. The refusal of a licensee by its officers, directors, employees, or agents to submit to examination or to comply with any reasonable written request of the Director shall be grounds for revocation, denial of issuance, or non-renewal of any license or authority held by the licensee to engage in the viatical settlement business or other business subject to the Director's jurisdiction.

The Director shall have the power to issue subpoenas, to administer oaths, and to examine under oath any person as to any matter pertinent to the examination. Upon the failure or refusal of a person to obey a subpoena, the Director may petition a court of competent jurisdiction, and upon proper showing, the court may enter an order compelling the witness to appear and testify or produce documentary evidence. Failure to obey the court order shall be punishable as contempt of court.

Subpoenas may be enforced pursuant to Section 403 of the Illinois Insurance Code.

When making an examination under this Act, the Director may retain attorneys, appraisers, independent actuaries, independent certified public accountants, or other professionals and specialists as examiners, the reasonable cost of which shall be borne by the licensee that is the subject of the examination.

(g) Nothing contained in this Act limits the Director's authority to terminate or suspend an examination in order to pursue other legal or regulatory action pursuant to the insurance laws of this State. Findings of fact and conclusions made pursuant to any examination shall be prima facie evidence in any legal or regulatory action.

(h) Nothing contained in this Act shall be construed to limit the Director's authority to use and, if appropriate, to make public any final or preliminary examination report, any examiner or licensee workpapers or other documents, or any other information discovered or developed during the course of any examination in the furtherance of any legal or regulatory action that the Director may, in the Director's discretion, deem appropriate.

(i) No later than 60 days following completion of the examination, the examiner in charge shall file with the Director a verified written report of examination under oath. Upon receipt of the verified report, the Director shall transmit the report to the licensee examined.

(j) Examination reports shall be comprised only of facts appearing upon the books, records, or other documents of the licensee, its agents, or other persons examined, or as ascertained from the testimony of its officers or agents or other persons examined concerning its affairs and the conclusions and recommendations that the examiners find reasonably warranted from the facts.

(k) The licensee may request a hearing within 10 days after receipt of the examination report by giving the Director written notice of that request, together with a statement of its objections. The Director then must conduct a hearing in conjunction with Sections 402 and 403 of the Illinois Insurance Code. The Director must issue a written order based upon the examination report and upon the hearing within 90 days after the report is filed or within 90 days after the hearing. After the hearing, the Director may make such order or orders as may be reasonably necessary to correct, eliminate, or remedy unlawful conduct.

(l) If the Director determines that regulatory action is appropriate as a result of an examination, the Director may initiate any proceedings or actions provided by law.

(m) Names and individual identification data for all visitors in the possession and control of the Director shall be considered private and confidential and shall not be disclosed by the Director unless required by law.

Except as otherwise provided in this Act, all examination reports, working papers, recorded information, documents, and copies thereof produced by, obtained by or disclosed to the Director or any other person in the course of an examination made under this Act or the law of another state or jurisdiction that is substantially similar to this Act, or in the course of analysis or investigation by the Director of the financial condition or market conduct of a licensee are (i) confidential by law and privileged, (ii) not subject to the Freedom of Information Act, (iii) not subject to subpoena, and (iv) not subject to discovery or admissible in evidence in any private civil action.

[April 1, 2009]

furtherance of any regulatory or legal action brought as part of the Director's official duties.

Documents, materials, or other information, including, but not limited to, all working papers and copies thereof, in the possession or control of the NAIC and its affiliates and subsidiaries are:

- (1) confidential by law and privileged;
- (2) not subject to subpoena; and
- (3) not subject to discovery or admissible in evidence in any private civil action if they are:

(A) created, produced or obtained by, or disclosed to the NAIC and its affiliates and subsidiaries in the course of assisting an examination made under this Act or assisting the Director or the chief insurance regulatory official in another state in the analysis or investigation of the financial condition or market conduct of a licensee; or

(B) disclosed under this subsection (m) by the Director or disclosed under a comparable provision in law of another state by that state's chief insurance regulatory official to the NAIC and its affiliates and subsidiaries.

Neither the Director nor any person that received the documents, material, or other information while acting under the authority of the Director, including the NAIC and its affiliates and subsidiaries, shall be permitted to testify in any private civil action concerning any confidential documents, materials, or information subject to this subsection (m).

(n) In order to assist in the performance of the Director's duties, the Director may:

(1) share documents, materials, or other information, including the confidential and privileged documents, materials, or information subject to subsection (m) of this Section, with other state, federal, and international regulatory agencies, with the NAIC and its affiliates and subsidiaries, and with state, federal, and international law enforcement authorities, provided that the recipient agrees to maintain the confidentiality and privileged status of the document, material, communication, or other information;

(2) receive documents, materials, communications, or information, including otherwise confidential and privileged documents, materials, or information, from the NAIC and its affiliates and subsidiaries and from regulatory and law enforcement officials of other foreign or domestic jurisdictions, and shall maintain as confidential or privileged any document, material, or information received with notice or the understanding that it is confidential or privileged under the laws of the jurisdiction that is the source of the document, material, or information; and

(3) enter into agreements governing sharing and use of information consistent with this Section.

(o) No waiver of any applicable privilege or claim of confidentiality in the documents, materials, or information shall occur as a result of disclosure to the Director under this Section or as a result of sharing as authorized in subsection (n) of this Section.

(p) A privilege established under the law of any state or jurisdiction that is substantially similar to the privilege established under this Section shall be available and enforced in any

[April 1, 2009]

proceeding in, and in any court of, this State.

(q) Nothing contained in this Act prevents or prohibits the Director from disclosing the content of an examination report, preliminary examination report or results, or any matter relating to those reports or results, to the chief insurance regulatory official of any other state or country, or to law enforcement officials of this or any other state or agency of the federal government at any time or to the NAIC, if the agency or office receiving the report or matters relating to it agrees in writing to hold it confidential and in a manner consistent with this Act.

(r) The expenses incurred in conducting an examination shall be paid by the licensee.

(s) No cause of action shall arise nor shall any liability be imposed against the Director, the Director's authorized representatives, or any examiner appointed by the Director for any statements made or conduct performed in good faith while carrying out the provisions of this Act.

No cause of action shall arise, nor shall any liability be imposed against any person for the act of communicating or delivering information or data to the Director or the Director's authorized representative or examiner pursuant to an examination made under this Section, if the act of communication or delivery was performed in good faith and without fraudulent intent or the intent to deceive. This subsection (s) does not abrogate or modify in any way any common law or statutory privilege or immunity heretofore enjoyed by any person identified in this subsection (s).

A person identified in this subsection (s) shall be entitled to an award of attorney's fees and costs if he or she is the prevailing party in a civil cause of action for libel, slander, or any other relevant tort arising out of activities in carrying out the provisions of this Section and the party bringing the action was not substantially justified in doing so. For purposes of this Section, a proceeding is "substantially justified" if it had a reasonable basis in law or fact at the time that it was initiated.

(t) The Director may investigate suspected viatical settlement fraud and persons engaged in the business of viatical settlements.

Section 35. Disclosure to viator.

(a) With each application for a viatical settlement contract, a viatical settlement provider or viatical settlement broker shall provide the viator with at least the following disclosures no later than the time the viatical settlement contract is signed by all parties. The disclosures shall include distribution of a brochure describing the process of viatical settlements. The NAIC form for the brochure shall be used unless another form is developed or approved by the Director. Other disclosures required by this subsection (a) shall be provided in a separate document that is signed by the viator and the viatical settlement provider or viatical settlement broker and shall provide the following information:

(1) If a viator enters into a viatical settlement contract, then the beneficiaries of the life insurance policy lose the life insurance policy's benefits, equity, and protection. In addition, by entering into this viatical settlement contract, the insured may not qualify for another life insurance policy or may be required to pay substantially higher premiums.

(2) That there are possible alternatives to viatical settlement contracts including any accelerated death benefits or policy loans offered under the viator's life insurance policy.

(3) That a viatical settlement broker represents only the viator and not the insurer or the viatical settlement provider and owes a fiduciary duty to the viator, including a duty to act

according to the viator's instructions and in the best interest of the viator.

(4) That some or all of the proceeds of the viatical settlement may be taxable under federal income tax and state franchise and income taxes, and assistance may be sought from a professional tax advisor.

(5) That proceeds of the viatical settlement contract may be subject to the claims of creditors.

(6) That receipt of the proceeds of a viatical settlement may adversely affect the viator's eligibility for Medicaid or other government benefits or entitlements and advice should be obtained from the appropriate government agencies.

(7) That the viator has the right to rescind a viatical settlement contract before the earlier of 30 calendar days after the date upon which the viatical settlement contract is executed by all parties or 15 calendar days after the viatical settlement proceeds have been paid to the viator. Rescission, if exercised by the viator, is effective only if both notice of the rescission is given and the viator repays all proceeds and any premiums, loans, and loan interest paid on the account of the viatical settlement within the rescission period. If the insured dies during the rescission period, the viatical settlement contract is deemed to have been rescinded, subject to repayment by the viator or the viator's estate to the viatical settlement provider of all viatical settlement proceeds and any premiums, loans, and loan interest paid on the account of the viatical settlement within 60 days after the insured's death.

(8) That funds must be sent to the viator within 3 business days after the viatical settlement provider has received the insurer or group administrator's written acknowledgment that ownership of the policy has been transferred and the beneficiary has been designated.

(9) That entering into a viatical settlement contract may cause other rights or benefits, including conversion rights and waiver of premium benefits that may exist under the policy, to be forfeited by the viator. Assistance should be sought from a financial adviser.

(10) That the disclosure document must contain the following language: "A viatical settlement provider or viatical settlement broker may ask the insured for medical, financial, and personal information. All medical, financial, or personal information solicited or obtained by a viatical settlement provider or viatical settlement broker about an insured, including the insured's identity or the identity of the insured's family members, the insured's spouse or the insured's significant other, may be disclosed as necessary to effect the viatical settlement between the viator and the viatical settlement provider. If you are asked to provide this information, you will be asked to consent to the disclosure. The information may be provided to someone who buys the policy or provides funds for the purchase. You may be asked to renew your permission to share information every 2 years.

(11) That, following execution of a viatical settlement contract, the insured may be contacted for the purpose of determining the insured's health status and to confirm the insured's residential or business street address and telephone number, or for other purposes permitted by law. This contact is limited to once every 3 months if the insured has a life expectancy of more than one year, and no more than once each month if the insured has a life expectancy of one year or less. All such contracts shall be made only by a viatical settlement provider licensed in the state in which the viator resided at the time of the viatical settlement, or by the authorized representative of a duly licensed viatical settlement provider.

(12) If the policy to be viaticated is group coverage, the insured is advised to check with the manager of the group about whether permission is required to sell the policy or other conditions.

(13) Entering into a viatical settlement contract will result in investors having a financial interest in the insured's death.

(b) With each application for a viatical settlement, a viatical settlement provider or viatical settlement broker shall provide the prospective viator with a document titled "Important Consumer Notices". The document must be provided to the prospective viator and contain, in conspicuous type size and format, the following:

"By entering into a viatical settlement contract:

(1) You are making a complex financial decision that may or may not be in your or your family's financial best interest. Seek independent advice from financial planning experts and responsible government agencies.

(2) You may not be able to purchase another life insurance policy.

(3) You could lose Medicaid and other valuable government benefits.

(4) You will receive proceeds that may be subject federal and state taxes and to the claims of creditors.

(5) You have sold your life insurance policy to strangers who have a financial interest in the life and death of the person whose life is insured by the policy.

(6) You or your residence may be contacted on a regular basis to determine if you have died or if your health status has deteriorated."

The disclosure document required by this subsection (b) shall be the cover page of the viatical settlement contract and shall be signed by the viator and the viatical settlement provider or viatical settlement broker. The viator and viatical settlement provider or viatical settlement broker shall sign the disclosure prior to signing the viatical settlement contract. A copy of the signed document must be provided to the viator.

(c) A viatical settlement provider shall provide the viator with at least the following disclosures no later than the date the viatical settlement contract is signed by all parties. The disclosures must be displayed conspicuously in the viatical settlement contract or in a separate document signed by the viator and the viatical settlement provider, and provide the following information:

(1) The affiliation, if any, between the viatical settlement provider and the issuer of the policy to be acquired pursuant to a viatical settlement contract.

(2) The name, business address, and telephone number of the viatical settlement provider.

(3) Whether any affiliations or contractual arrangements exist between the viatical settlement provider and the viatical settlement purchaser.

(4) If a policy to be acquired pursuant to a viatical settlement contract has been issued as a joint policy or involves family riders or any coverage of a life other than the insured under

the policy to be acquired pursuant to a viatical settlement contract, the viator must be informed of the possible loss of coverage on the other lives under the policy and must be advised to consult with the viator's insurance producer or the company issuing the policy for advice on the proposed viatical settlement contract.

(5) The dollar amount of the current death benefit payable to the viatical settlement provider under the policy. If known, the viatical settlement provider also shall disclose the availability of additional guaranteed insurance benefits, the dollar amount of accidental death and dismemberment benefits under the policy or certificate, and the extent to which the viator's interest in those benefits will be transferred as a result of the viator's settlement contract.

(6) The name, business address, and telephone number of the escrow agent, and that the viator may inspect or receive copies of the relevant escrow or trust agreements or documents. Also, that an escrow agent shall provide escrow services to the parties pursuant to a written agreement signed by the viatical settlement provider, the viatical settlement broker, and the viator. At the close of escrow, the escrow agent must distribute the proceeds of the sale to the viator, minus any compensation to be paid to any other persons who provided services and to whom the viator has agreed to compensate out of the gross amount offered by the viatical settlement purchaser. All persons receiving any form of compensation under the escrow agreement shall be clearly identified, including name, business address, telephone number, and tax identification number.

(7) The amount of compensation received by the escrow agent.

(c) A viatical settlement broker shall provide the viator with at least the following disclosures no later than the date the viatical settlement contract is signed by all parties. The disclosures shall be conspicuously displayed in the viatical settlement contract or in a separate document signed by the viator and provide the following information:

(1) the name, business address, and telephone number of the viatical settlement broker;

(2) a full, complete, and accurate description of all offers, counteroffers, acceptances, and rejections relating to the proposed viatical settlement contract;

(3) any affiliations or contractual arrangements between the viatical settlement broker and any person making an offer in connection with the proposed viatical settlement contracts;

(4) the amount and method of calculating the broker's compensation, which term "compensation" includes anything of value paid or given to a proposed settlement broker in connection with the proposed viatical settlement contract;

(5) if any portion of the viatical settlement broker's compensation, as defined in paragraph (3) of this subsection (c), is taken from a proposed viatical settlement offer, the broker shall disclose the total amount of the viatical settlement offer and the percentage of the viatical settlement offer comprised by the viatical settlement broker's compensation; and

(6) the name of the legal owner and beneficiary of the insurance policy after the policy is sold pursuant to the viatical settlement contract and whether legal ownership of the policy and the beneficiary's right to collect benefits upon the viator's death can be sold.

(d) If the viatical settlement provider transfers ownership or changes the beneficiary of the insurance policy, then the provider shall communicate in writing the change in ownership or beneficiary to the insured within 20 days after the change.

Section 40. Disclosure to insurer. Prior to the initiation of a plan, transaction, or series of transactions a viatical settlement broker or viatical settlement provider shall fully disclose to an insurer a plan, transaction, or series of transactions to which the viatical settlement broker or viatical settlement provider is a party to originate, renew, continue, or finance a life insurance policy with the insurer for the purpose of engaging in the business of viatical settlements at anytime prior to or during the first 2 years after issuance of the policy. The viatical settlement provider shall, when requested, disclose that the prospective insured has undergone a life expectancy evaluation in connection with the issuance of a policy by a person or entity other than the insurer or its authorized representative. Any disclosure required under this Section must be made in writing.

Section 45. General rules.

(a) A viatical settlement provider entering into a viatical settlement contract shall first obtain:

(1) if the viator is the insured, a written statement from a licensed attending physician that the viator is of sound mind and under no constraint or undue influence to enter into a viatical settlement contract; as used in this item (1), "physician" means a person licensed under the Medical Practice Act of 1987 to practice medicine and surgery or osteopathic medicine and surgery in all its branches; and

(2) a document in which the insured consents in writing to the release of his or her medical records to a licensed viatical settlement provider, viatical settlement broker, and the insurance company that issued the life insurance policy covering the life of the insured.

(b) Within 20 days after a viator executes documents necessary to transfer any rights under an insurance policy or within 20 days after entering any agreement, option, promise, or any other form of understanding, expressed or implied, to viaticate the policy, the viatical settlement provider shall give written notice to the insurer that issued that insurance policy that the policy has or will become a viaticated policy. The notice shall be accompanied by the documents required by subsection (c) of this Section.

(c) The viatical provider shall deliver a copy of the medical release required under paragraph (2) of subsection (a) of this Section, a copy of the viator's application for the viatical settlement contract, the notice required under subsection (b) of this Section and a request for verification of coverage to the insurer that issued the life insurance policy that is the subject of the viatical settlement transaction. The viatical settlement provider shall use the NAIC's form for verification of coverage unless another form is developed and approved by the Director.

(d) Prior to or at the time of execution of the viatical settlement contract, the viatical settlement provider shall obtain a witnessed document in which the viator consents to the viatical settlement contract, represents that the viator has a full and complete understanding of the viatical settlement contract, that he or she has a full and complete understanding of the benefits of the life insurance policy, acknowledges that he or she is entering into the viatical settlement contract freely and voluntarily and, for persons with a terminal or chronic illness or condition, acknowledges that the insured has a terminal or chronic illness and that the terminal or chronic illness or condition was diagnosed after the life insurance policy was issued.

(e) If a viatical settlement broker performs any of the activities required of a viatical settlement provider as described by subsection (a) through (d) of this Section, then the viatical settlement provider is deemed to have fulfilled that requirement.

(f) The insurer shall respond to a request for verification of coverage submitted on an approved form by a viatical settlement provider or viatical settlement broker within 30 calendar days after the date the request is received and shall indicate whether, based on the medical evidence and documents provided, the insurer intends to pursue an investigation at this time regarding the validity of the insurance contract or possible fraud. The insurer shall accept a request for verification of coverage made on an NAIC form or any other form approved by the Director. The insurer shall accept an original or facsimile or electronic copy of such request and any accompanying authorization signed by the viator. Failure by the insurer to meet its obligations under this subsection shall be a violation of subsection (c) of Section 50 and Section 75 of this Act.

(g) All medical information solicited or obtained by any licensee shall be subject to the applicable

[April 1, 2009]

provisions of state law relating to confidentiality of medical information.

(h) All viatical settlement contracts entered into in this State shall provide the viator with an absolute right to rescind the contract before the earlier of 30 calendar days after the date upon which the viatical settlement contract is executed by all parties or 15 calendar days after the viatical settlement proceeds have been sent to the viator as provided in Section 45. Rescission by the viator may be conditioned upon the viator both giving notice and repaying to the viatical settlement provider within the rescission period all proceeds of the settlement and any premiums, loans and loan interest paid by or on behalf of the viatical settlement provider in connection with or as a consequence of the viatical settlement. If the insured dies during the rescission period, the viatical settlement contract shall be deemed to have been rescinded, subject to repayment to the viatical settlement provider or purchaser of all viatical settlement proceeds, and any premiums, loans, and loan interest that have been paid by the viatical settlement provider or viatical settlement purchaser, which shall be paid within 60 calendar days of the death of the insured. In the event of any rescission, if the viatical settlement provider has paid commissions or other compensation to a viatical settlement broker in connection with the rescinded transaction, the viatical settlement broker shall refund all such commissions and compensation to the viatical settlement provider within 5 business days following receipt of written demand from the viatical settlement provider, which demand shall be accompanied by either the viator's notice of rescission if rescinded at the election of the viator, or notice of the death of the insured if rescinded by reason of the death of the insured within the applicable rescission period.

(i) If a viatical settlement contract is rescinded by the viator pursuant to this Section, then ownership of the insurance policy reverts to the viator or to the viator's estate.

(j) The viatical settlement provider shall instruct the viator to send the executed documents required to effect the change in ownership, assignment, or change in beneficiary directly to the escrow agent. Within 3 business days after the date the escrow agent receives the document (or from the date the viatical settlement provider receives the documents, if the viator erroneously provides the documents directly to the viatical settlement provider), the viatical settlement provider shall pay or transfer the gross amount paid by the viatical settlement purchaser to the escrow agent for deposit in a trust account and set up for that purpose by the escrow agent in a state or federally-chartered financial institution whose deposits are insured by the Federal Deposit Insurance Corporation (FDIC). Upon payment of the settlement proceeds into the escrow or trust account, the escrow agent or trustee shall deliver the original change in ownership, assignment, or change in beneficiary forms to the viatical settlement provider, a representative of the viatical settlement provider, or related provider trust. Upon the escrow agent's receipt of the acknowledgment of the properly completed transfer of ownership, assignment, or designation of beneficiary from the insurance company, the escrow agent shall pay the settlement proceeds to the viator. Funds shall be deemed sent by a viatical settlement provider to a viator as of the date that the escrow agent either releases the funds for wire transfer to the viator or places a check for delivery to the viator via United States Postal Service or other nationally recognized delivery service.

(k) Failure to transfer the proceeds to the viator for the viatical settlement contract within the time set forth in the disclosure pursuant to item (7) of subsection (a) of Section 35 of this Act renders the viatical settlement contract voidable by the viator for lack of consideration until the time consideration is tendered to and accepted by the viator. If a viatical settlement contract is voided by the viator pursuant to this subsection (k), then ownership of the policy reverts to the viator or to the viator's estate.

(l) After the viatical settlement contract has been effected, contacts with the insured for the purpose of determining the health status of the insured shall be made only by the viatical settlement provider or the authorized representative of the viatical settlement provider. The viatical settlement provider or authorized representative shall not contact the insured with the purpose of determining the insured's health status more than once every 3 months if the insured has a life expectancy of more than one year or more than once per month if the insured has a life expectancy of one year or less. The viatical settlement provider shall explain the procedure for making these contacts at the time the viatical settlement contract is entered into. For purposes of this Section, viatical settlement providers are responsible for the actions of their authorized representatives.

(m) The insurer that issued the policy being settled pursuant to a viatical settlement contract shall not be responsible for any act or omission of a viatical settlement broker or viatical settlement provider arising out of or in connection with the viatical settlement transaction, unless the insurer receives compensation for the placement of a viatical settlement contract from the viatical settlement provider or viatical settlement broker in connection with the viatical settlement contract.

(n) If there is more than one viator on a single policy and the viators are residents of different states, then the transaction shall be governed by the law of the state in which the viator having the largest percentage ownership resides or, if the viators hold equal ownership, the state of residence of one viator

agreed upon in writing by all the viators.

Subject to the provisions of this subsection (n), if the viator is a resident of this State, then all agreements to be signed by the viator shall provide exclusive jurisdiction to courts of this State and the laws of this State shall govern the agreements. Nothing in the agreements shall abrogate the viator's right to a trial by jury.

(o) Notwithstanding the manner in which the viatical settlement broker is compensated, a viatical settlement broker is deemed to represent only the viator and not the insurer or the viatical settlement provider and owes a fiduciary duty to the viator to act according to the viator's instructions and in the best interest of the viator.

Section 50. Prohibited practices.

(a) It is a violation of this Act for any person to enter into a viatical settlement contract prior to the application of or issuance of a policy that is the subject of the viatical settlement contract. It is a violation of this Act for any person to enter into stranger-originated life insurance or STOLI as defined by this Act.

(b) It is a violation of this Act for any person to issue, solicit, market, or otherwise promote the purchase of a life insurance policy for the purpose of or with emphasis on selling the policy.

(c) It is a violation of this Act for any person to enter into a viatical settlement contract within a 2-year period commencing with the date of issuance of the insurance policy unless the viator certifies to the viatical settlement provider that one or more of the following conditions have been met within the 2-year period:

(1) The policy was issued upon the viator's exercise of conversion rights arising out of a group or individual policy, provided the total of the time covered under the conversion policy plus the time covered under the prior policy is at least 60 months. The time covered under a group policy shall be calculated without regard to any change in insurance carriers, provided the coverage has been continuous and under the same group sponsorship.

(2) The viator certifies and submits independent evidence to the viatical settlement provider that one or more of the following conditions have been met within the 5-year period:

- (A) the viator or insured is terminally or chronically ill;
- (B) the viator's spouse dies;
- (C) the viator divorces his or her spouse;
- (D) the viator retires from full-time employment;
- (E) the viator becomes physically or mentally disabled and a physician determines that the disability prevents the viator from maintaining full-time employment;

(F) a court of competent jurisdiction enters a final order, judgment, or decree on the application of a creditor of the viator, adjudicating the viator bankrupt or insolvent, or approving a petition seeking reorganization of the viator or appointing a receiver, trustee, or liquidator to all or a substantial part of the viator's assets;

(G) the sole beneficiary of the policy is a family member of the viator and the beneficiary dies; or

(H) any other condition that the Director may determine by regulation to be an extraordinary circumstance for the viator or the insured.

(3) The viator enters into a viatical settlement contract more than 2 years after the date of issuance of a policy and, with respect to the policy, at all times prior to the date that is 2 years after policy issuance, the following conditions are met:

(A) policy premiums have been funded exclusively with unencumbered assets, including an interest in the life insurance policy being financed only to the extent of its net cash surrender value, provided by, or fully recourse liability incurred by the insured or person described in subsection (e) of the definition of "viatical settlement contract" found in Section 5 of this Act; and

(B) there is no agreement or understanding with any other person to guarantee any such liability or to purchase or stand ready to purchase the policy, including, through an assumption or forgiveness of the loan.

(d) Copies of the independent evidence described in paragraph (2) of subsection (c) of this Section and documents required by Section 45 shall be submitted to the insurer when the viatical settlement provider or any other party entering into a viatical settlement contract with a viator submits a request to the insurer for verification of coverage. The copies shall be accompanied by a letter of attestation from the viatical settlement provider that the copies are true and correct copies of the documents received by the viatical settlement provider.

(e) If the viatical settlement provider submits to the insurer a copy of the owner or insured's certification described in and the independent evidence required by paragraph (2) of subsection (c) of this Section when the viatical settlement provider submits a request to the insurer to effect the transfer of the policy to the viatical settlement provider, then the copy shall be deemed to conclusively establish that the viatical settlement contract satisfies the requirements of this Section, and the insurer shall timely respond to the request.

(f) No insurer may, as a condition of responding to a request for verification of coverage or effecting the transfer of a policy pursuant to a viatical settlement contract, require that the viator, insured, viatical settlement provider, or viatical settlement broker sign any forms, disclosures, consent, or waiver form that has not been expressly approved by the Director for use in connection with viatical settlement contracts in this State.

(g) Upon receipt of a properly completed request for change of ownership or beneficiary of a policy, the insurer shall respond in writing within 30 calendar days to confirm that the change has been effected or specifying the reasons why the requested change cannot be processed. No insurer shall unreasonably delay effecting change of ownership or beneficiary or seek to interfere with any viatical settlement contract lawfully entered into in this State.

Section 55. Prohibited practices and conflicts of interest.

(a) With respect to any viatical settlement contract or insurance policy, no viatical settlement broker knowingly shall solicit an offer from, effectuate a viatical settlement with, or make a sale to any viatical settlement provider, viatical settlement purchaser, financing entity, or related provider that is controlling, controlled by, or under common control with such viatical settlement broker, unless such relationship is fully disclosed to the viator.

(b) With respect to any viatical settlement contract or insurance policy, no viatical settlement provider knowingly may enter into a viatical settlement contract with a viator, if, in connection with such viatical settlement contract, anything of value will be paid to a viatical settlement broker that is controlling, controlled by, or under common control with such viatical settlement provider or the viatical settlement purchaser, financing entity, or related provider trust that is involved in such viatical settlement contract, unless such relationship is fully disclosed to the viator.

(c) Any disclosure provided pursuant to subsections (a) and (b) of this Section must be provided along with the disclosures required by subsection (a) of Section 35 and contain the following language: "The financial relationship between your viatical settlement broker and the provider of the viatical settlement creates a potential conflict of interest between your financial interests and the financial interests of the

viatical settlement broker and viatical settlement provider. The individual brokering this viatical transaction owes you a fiduciary duty or a duty of loyalty. Your viatical settlement broker must advise you based exclusively upon your best interests, not the best interests of the viatical settlement broker or the viatical settlement provider."

(d) A violation of subsection (a), subsection (b), or subsection (c) shall be deemed viatical settlement fraud.

(e) No person shall issue, solicit, or market the purchase of an insurance policy for the purpose of settling the policy. Nothing in this subsection (e) shall prohibit persons from using and discussing the written materials that the Director shall approve prior to the effective date of this Act and that inform consumers of their rights with respect to a life insurance policy, including the option of entering into a lawful viatical settlement contract. Nothing in this subsection (e) limits or otherwise impairs the terms of a contract between an insurer and its producers.

(f) No person shall enter into a premium finance agreement with any other person or agency or any person affiliated with such person or agency pursuant to which such person shall receive any proceeds, fees, or other consideration, directly or indirectly, from the policy or owner of the policy or any other person with respect to the premium finance agreement or any viatical settlement contract or other transaction related to such policy that are in addition to the amounts required to pay the principal, interest, and service charges related to policy premiums pursuant to the premium finance agreement or subsequent sale of such agreement; provided, further, that any payments, charges, fees, or other amounts in addition to the amounts required to pay the principal, interest, and service charges related to policy premiums paid under the premium finance agreement shall be remitted to the original owner of the policy or to his or her estate if he or she is not living at the time of the determination of overpayment.

(g) A viatical settlement provider shall return all copies of a viatical settlement promotional, advertising, and marketing materials and shall make these material available to the Director on request. In no event shall any marketing materials expressly reference that the insurance is "free" for any period of time. The inclusion of any reference in the marketing materials that would cause a viator to reasonably believe that the insurance is free for any period of time shall be considered a violation of this Act.

(h) No insurance producer, insurance company, viatical settlement broker, or viatical settlement provider shall make any statement or representation to a potential or actual insured or potential or actual viator in connection with the sale or financing of a life insurance policy to the effect that the insurance is free or without cost to the policyholder for any period of time unless provided in the policy.

Section 60. Advertising for viatical settlements.

(a) The purpose of this Section is to provide prospective viators with clear and unambiguous statements in the advertisement of viatical settlements and to assure the clear, truthful, and adequate disclosure of the benefits, risks, limitations, and exclusions of any viatical settlement contract. All product descriptions must be presented in a manner that prevents unfair, deceptive, or misleading advertising and conducive to accurate presentation and description of viatical settlements through the advertising media and material used by licensees.

(b) This Section applies to any advertising of viatical settlement contracts or related products or services circulated or placed directly before the public, including Internet advertising. Where disclosure requirements are established pursuant to federal regulation, this Section shall be interpreted so as to minimize or eliminate conflict with federal regulation wherever possible.

(c) Every licensee shall establish and at all times maintain a system of control over the content, form, and method of dissemination of all advertisements of its contracts, products, and services. All advertisements, regardless of by whom written, created, designed, or presented, shall be the responsibility of the licensees, as well as the individual who created or presented the advertisement. A system of control shall include regular routine notification, at least once a year, to agents and others authorized by the licensee who disseminate advertisements of the requirements and procedures for approval prior to the use of any advertisements not furnished by the licensee.

(d) Advertisements shall be truthful and not misleading in fact or by implication. The form and content of an advertisement of a viatical settlement contract product or service shall be sufficiently complete and clear so as to avoid deception. It shall not have the capacity or tendency to mislead or deceive. Whether an advertisement has the capacity or tendency to mislead or deceive shall be determined by the Director from the overall impression that the advertisement may be reasonably expected to create upon a person of average education or intelligence within the segment of the public to which it is directed.

(e) The information required to be disclosed under this Section shall not be minimized,

rendered obscure, or presented in an ambiguous fashion or intermingled with the text of the advertisement so as to be confusing or misleading.

An advertisement shall not omit material information or use words, phrases, statements, references, or illustrations if the omission or use has the capacity, tendency, or effect of misleading or deceiving viators as to the nature or extent of any benefit, loss covered, premium payable, or state or federal tax consequence. The fact that the viatical settlement contract offered is made available for inspection prior to consummation of the sale, or an offer is made to refund the payment if the viator is not satisfied or that the viatical settlement contract includes a "free look" period that satisfies or exceeds legal requirements, does not remedy misleading statements.

An advertisement shall not use the name or title of an insurance company or an insurance policy unless the advertisement has been approved by the insurer.

An advertisement shall not state or imply that interest charged on an accelerated death benefit or a policy loan is unfair, inequitable, or in any manner an incorrect or improper practice.

The words "free", "no cost", "without cost", "no additional cost", "at no extra cost", or words of similar import shall not be used with respect to any life insurance policy or to any benefit or service unless true. An advertisement may specify the charge for a benefit or a service or may state that a charge is included in the payment or use other appropriate language.

Testimonials, appraisals, or analysis used in advertisements must be genuine; represent the current opinion of the author; be applicable to the viatical settlement contract, product, or service advertised, if any; and be accurately reproduced with sufficient completeness to avoid misleading or deceiving prospective viators as to the nature or scope of the testimonials, appraisal, analysis, or endorsement. In using testimonials, appraisals, or analyses, a licensee under this Act makes as its own all the statements contained therein, and the statements are subject to all the provisions of this Section.

If the individual making a testimonial, appraisal, analysis, or endorsement has a financial interest in the subject of the testimonial, appraisal, analysis, or endorsement, either directly or indirectly as a stockholder, director, officer, employee, or otherwise, or receives any benefit directly or indirectly other than required union scale wages, that fact shall be prominently disclosed in the advertisement.

An advertisement shall not state or imply that a viatical settlement contract, benefit, or service has been approved or endorsed by a group of individuals, society, association, or other organization unless that is the fact and unless any relationship between the group of individuals, society, association, or organization and the licensee is disclosed. If the entity making the endorsement or testimonial is owned, controlled, or managed by the licensee, or receives any payment or other consideration from the viatical settlement licensee for making an endorsement or testimonial, that fact shall be prominently disclosed in the advertisement.

When an endorsement refers to benefits received under a viatical settlement contract all pertinent information shall be retained for a period of 5 years after its use.

(f) An advertisement shall not contain statistical information unless the information accurately reflects recent and relevant facts. The source of all statistics used in an advertisement shall be identified.

(g) An advertisement shall not disparage insurers, viatical settlement providers, viatical settlement brokers, insurance producers, policies, services, or methods of marketing.

(h) The name of the licensee shall be clearly identified in all advertisements about the licensee or its viatical settlement contract, products, or services, and if any specific viatical settlement contract is advertised, the viatical settlement contract shall be identified either by form number or some other appropriate description. If an application is part of the advertisement, the name of the viatical settlement provider or providers shall be shown on the application.

(i) An advertisement shall not use a trade name, group designation, name of the parent company of a licensee, name of a particular division of the licensee, service mark, slogan, symbol, or other device or reference without disclosing the name of the licensee, if the advertisement would have the capacity or tendency to mislead or deceive as to the true identity of the licensee, or to create the impression that a company other than the licensee would have any responsibility for the financial obligation under a viatical settlement contract.

(j) An advertisement shall not use any combination of words, symbols, or physical materials that by their content, phraseology, shape, color, or other characteristics are so similar to a combination of words, symbols, or physical materials used by a government program or agency or otherwise appear to be of such a nature that they tend to mislead prospective viators into believing that the solicitation is in some manner connected with a government program or agency.

(k) An advertisement may state that a licensee is licensed in the state where the advertisement appears, provided it does not exaggerate that fact or suggest or imply that competing licensees may not be so licensed. The advertisement may ask the audience to consult the licensee's Internet website or contact the Division to find out if the state requires licensing and, if so, whether the viatical settlement provider, or viatical settlement broker, is licensed.

(l) An advertisement shall not create the impression that the viatical settlement provider, its financial condition or status, the payment of its claims or the merits, desirability, or advisability of its viatical settlement contracts are recommended or endorsed by any government entity.

(m) The name of the actual licensee shall be stated in all of a licensee's advertisements. An advertisement shall not use a trade name, any group designation, name of any affiliate or controlling entity of the licensee, service mark, slogan, symbol, or other device in a manner that would have the capacity or tendency to mislead or deceive as to the true identity of the actual licensee or create the false impression that an affiliate or controlling entity would have any responsibility for the financial obligation of the licensee.

(n) An advertisement shall not directly or indirectly create the impression that any division or agency of the State or of the U. S. government endorses, approves, or favors:

- (1) any licensee or its business practices or methods of operation;
- (2) any viatical settlement contract; or
- (3) any life insurance policy or life insurance company.

(o) If the advertiser emphasizes the speed with which the viatication will occur, the advertising must disclose the average time frame from completed application to the date of offer and from acceptance of the offer to receipt of the funds by the viator.

(p) If the advertising emphasizes the dollar amounts available to viators, the advertising shall disclose, using the same type and font size as the dollar amount available to the viator, the average purchase price as a percent of face value obtained by viators contracting with the licensee during the past 6 months.

Section 65. Fraud prevention and control.

(a) A person shall not commit the offense of viatical settlement fraud.

A person shall not knowingly or intentionally interfere with the enforcement of the provisions of this Act or investigations of suspected or actual violations of this Act.

A person in the business of viatical settlements shall not knowingly or intentionally permit any person convicted of a felony involving dishonesty or breach of trust to participate in the business of viatical settlements.

(b) Viatical settlements contracts and applications for viatical settlements, regardless of the form of transmission, shall contain the following statement: "Any person who knowingly presents false information in an application for insurance or a viatical settlement contract is guilty of a crime and may be subject to fines and confinement in prison."

The lack of a statement as required in this subsection (b) does not constitute a defense in any prosecution for the offense of viatical settlement fraud.

(c) Any person engaged in the business of viatical settlements having knowledge or a reasonable suspicion that a viatical settlement fraud is being, will be, or has been committed shall provide to the Director such information as required by, and in a manner prescribed by, the Director.

Any other person having knowledge or a reasonable belief that viatical settlement fraud is being, will be, or has been committed may provide to the Director the information required by, and in a manner prescribed by, the Director.

(d) No civil liability shall be imposed on and no cause of action shall arise from a person's furnishing information concerning suspected, anticipated, or completed viatical settlement fraud or suspected or completed fraudulent insurance acts, if the information is provided to or received from:

- (1) the Director or the Director's employees, agents, or representatives;
- (2) federal, State, or local law enforcement or regulatory officials or their employees, agents, or representatives;

(3) a person involved in the prevention and detection of viatical settlement fraud or that person's agents, employees, or representatives;

(4) the NAIC, the National Association of Securities Dealers (NASD), the North American Securities Administrators Association (NASAA), or their employees, agents, or representatives, or other regulatory body overseeing life insurance, viatical settlements, securities, or investment fraud; or

(5) the life insurer that issued the life insurance policy covering the life of the insured.

(e) The immunity provided by subsection (d) of this Section shall not apply to statements made with actual malice. In an action brought against a person for filing a report or furnishing other information concerning viatical settlement fraud, the party bringing the action shall plead specifically any allegation that subsection (d) does not apply because the person filing the report or furnishing the information did so with actual malice.

(f) A person furnishing information as identified in subsection (d) of this Section shall be entitled to an award of attorney's fees and costs if the person is the prevailing party in a civil cause of action for libel, slander, or any other relevant tort arising out of activities in carrying out the provisions of this Act and the party bringing the action was not substantially justified in doing so. For

purposes of this Section a proceeding is substantially justified if it had a reasonable basis in law or fact at the time that it was initiated. However, such an award does not apply to any person furnishing information concerning the person's own fraudulent viatical settlement acts.

(g) This Section does not abrogate or modify common law or statutory privileges or immunities enjoyed by a person described in subsection (d) of this Section.

Subsection (d) of this Section does not apply to a person furnishing information concerning that person's own suspected, anticipated, or completed viatical settlement fraud or suspected, anticipated, or completed fraudulent insurance acts.

(h) The documents and evidence provided pursuant to subsection (d) of this Section or obtained by the Director in an investigation of suspected or actual viatical settlement fraud shall be privileged and confidential and shall not be a public record and shall not be subject to discovery or subpoena in a civil or criminal action. This subsection (h) does not prohibit release by the Director of documents and evidence obtained in an investigation of suspected or actual viatical settlement fraud: (1) in administrative or judicial proceedings to enforce laws administered by the Director; (2) to federal, State, or local law enforcement or regulatory agencies, to an organization established for the purpose of detecting and preventing viatical settlement fraud or to the NAIC; or (3) at the discretion of the Director, to a person in the business of viatical settlements that is aggrieved by a viatical settlement fraud. Release of documents and evidence under this subsection (h) does not abrogate or modify the privilege granted in this subsection.

(i) This Act shall not do any of the following:

(1) Preempt the authority or relieve the duty of other law enforcement or regulatory agencies to investigate, examine and prosecute suspected violations of law.

(2) Prevent or prohibit a person from disclosing voluntarily information concerning viatical settlement fraud to a law enforcement or regulatory agency other than the Division.

(3) Limit the powers granted elsewhere by the laws of this State to the Director or an insurance fraud unit to investigate and examine possible violations of law and to take appropriate action against wrongdoers.

(i) Viatical settlement providers and viatical settlement brokers shall have in place antifraud initiatives reasonably calculated to detect, prosecute, and prevent viatical settlement fraud. At the discretion of the Director, the Director may order, or a licensee may request and the Director may grant, such modifications of the following required initiatives as necessary to ensure an effective antifraud program. The modifications may be more or less restrictive than the required initiatives so long as the modifications may reasonably be expected to accomplish the purpose of this Section.

Antifraud initiatives shall include the following:

(1) fraud investigators, who may be viatical settlement providers or viatical settlement broker employees or independent contractors; and

(2) an antifraud plan, which shall be submitted to the Director. The antifraud plan shall include, but not be limited to:

On motion of Senator Bond, **Senate Bill No. 2109** was recalled from the order of third reading to the order of second reading.

Senator Bond offered the following amendment and moved its adoption:

AMENDMENT NO. 1 TO SENATE BILL 2109

AMENDMENT NO. 1. Amend Senate Bill 2109 by replacing everything after the enacting clause with the following:

"Section 1. Short title. This Act may be cited as the Illinois Innovation Zone Act.

Section 5. Findings. The General Assembly finds that Illinois faces considerable challenges as it confronts increasing global competition, turbulent financial markets, recessionary pressures, and mounting unemployment levels. Although Illinois businesses, entrepreneurs, and institutions have a rich history of innovation, other states and nations have instituted major financial incentive programs specifically targeted at businesses, institutions, and entrepreneurs to accelerate the pace of innovation and job creation. The State must continue the development of, and implement new measures to, create a vibrant technology-based economy in Illinois and the resultant high-skill, high-wage jobs that a technology-based economy will provide for Illinois' citizens. There are certain areas in this State that need the particular attention of government, business, advanced sciences, and the citizens of Illinois to help attract investments in the advanced sciences for these areas, to directly aid the local community and its residents, and to expand the body of fundamental knowledge. These efforts must include activities that will: (1) encourage and retain entrepreneurs and our highly-skilled and educated graduates and workers; (2) develop an innovation culture that will sustain a technology pipeline; (3) supplement the resources and expertise of local technology-based companies, universities, national laboratories, hospitals and health care institutions, and other institutions; (4) encourage productive regional public and private sector collaborations; (5) ensure a skilled, technologically-competent workforce pipeline; and (6) make Illinois a premier location for technology-based businesses and entrepreneurs. An essential first step to accomplish these goals is the establishment of geographically and strategically based designated Illinois Innovation Zones and the creation of an Illinois Innovation Council to help coordinate and evaluate the progress of the Innovation Zones in achieving the goals of this Act.

Section 10. Definitions. As used in this Act:

"Business" means a for-profit or not-for-profit or non-profit legal entity located in an Innovation Zone including, but not limited to, any sole proprietorship, partnership, corporation, joint venture, association, or cooperative.

"Department" means the Department of Commerce and Economic Opportunity.

"Financial institution" means a trust company, a bank, a savings bank, a credit union, an investment bank, a broker, an investment trust, a pension fund, a building and loan association, a savings and loan association, an insurance company, or any venture capital company that is authorized to do business in this State.

"Loan" means an agreement or contract to provide a loan or other financial aid to a business.

"Participating lender" means a financial institution approved by the Department that assumes a portion of the financing for a business project.

"Project" means any specific economic development activity of a commercial, industrial, manufacturing, agricultural, healthcare or health services, scientific, service, or other business in an Innovation Zone, the result of which yields an increase in jobs and may include the purchase or lease of machinery and equipment, the lease or purchase of real property or funds for infrastructure necessitated by site preparation, building construction, or related purposes. "Project" does not include refinancing current debt.

"Zone" means an Innovation Zone established under this Act.

- (2) is an area that meets all of the following criteria:
 - (A) Is a contiguous area that is properly zoned for commercial/industrial activity, but a zone area may exclude wholly surrounded territory within its boundaries.

Section 20. Initiation of Innovation Zones by a municipality or county.

- (a) No area may be designated as an Innovation Zone except pursuant to an initiating ordinance adopted in accordance with this Section.

- (1) Alter the boundaries of the Innovation Zones.
- (2) Expand, limit, or repeal tax incentives or benefits provided in the ordinance.
- (3) Alter the termination date of the Zone.
- (4) Make technical corrections in the Innovation Zone designating ordinance, but such

amendment shall not be effective unless the Department issues an amended certificate for the Innovation Zone, approving the amended designating ordinance. Upon the adoption of any ordinance amending or repealing the terms of a certified Innovation Zone designating ordinance, the municipality or county shall promptly file with the Department an application for approval thereof, containing substantially the same information as required for an application under Section 25 insofar as material to the proposed changes. The municipality or county must hold a public hearing on the proposed changes as specified in Section 20 and, if the amendment is to effectuate the limitation of tax abatements under Section 45, then the public notice of the hearing shall state that property that is in both the Innovation Zone and a redevelopment project area may not receive tax abatements unless within 60 days after the adoption of the abatement to the designating ordinance the municipality has determined that eligibility for tax abatements has been established,

- (5) Include an area within another municipality or county as part of the designated Innovation Zone provided the requirements of Section 15 are met.
- (6) Effectuate the limitation of tax abatements under Section 45.

No amendment of a certified Innovation Zone designating ordinance is required if the sole change is the addition of new partners to the Memorandum of Understanding or Partnership Agreement that was submitted to the Department as part of the original application to the Department. The Zone Administrator shall provide timely written notification to the Department of the names of any new partners that are added to the Memorandum of Understanding or Partnership Agreement.

(b) The Department shall approve or disapprove a proposed amendment to a certified Innovation Zone within 60 days after its receipt of the application from the municipality or county. The Department may not approve changes in a Zone that are not in conformity with this Act or with other applicable laws. If the Department issues an amended certificate for an Innovation Zone, the amended certificate, together with the amended Zone designating ordinance, shall be filed, recorded, and transmitted as provided in Section 35. If the Department does not take any action to approve or disapprove a proposed amendment to a certified Innovation Zone within 90 days after its receipt, then the proposed amendment will be deemed to be approved and shall take effect.

(c) An Innovation Zone may be decertified by joint action of the Department and the designating county or municipality in accordance with this Section. The designating county or municipality shall conduct at least one public hearing within the Zone prior to its adoption of an ordinance of de-designation. The mayor of the designating municipality or the chairperson of the county board of the designating county shall execute a joint decertification agreement with the Department. A decertification of an Innovation Zone shall not become effective until at least 6 months after the execution of the decertification agreement, which shall be filed in the office of the Secretary of State.

(d) An Innovation Zone may be decertified for cause by the Department in accordance with this Section. Prior to the decertification: (i) the Department shall notify the chief elected official of the designating county or municipality in writing of the specific deficiencies that provide cause for decertification; (ii) the Department shall place the designating county or municipality on probationary status for at least 6 months during which time corrective action may be achieved in the Innovation

Zone by the designating county or municipality; and (iii) the Department shall conduct at least one public hearing within the Zone. If the corrective action is not achieved during the probationary period, the Department shall issue an amended certificate signed by the Director of the Department decertifying the Innovation Zone, which certificate shall be filed in the office of the Secretary of State. A certified copy of the amended Innovation Zone certificate, or a duplicate original thereof, shall be recorded in the office of recorder of the county in which the Innovation Zone lies and shall be provided to the chief elected official of the designating county or municipality. Certification of an Innovation Zone shall not become effective until 60 days after the date of filing.

(e) In the event of a decertification or an amendment reducing the length of the term or the area of an Innovation Zone or the adoption of an ordinance reducing or eliminating tax benefits in an Innovation Zone all benefits previously extended within the Zone pursuant to this Act or pursuant to any other Illinois law providing benefits specifically to or within Innovation Zones shall remain in effect for the original stated term of the Innovation Zone with respect to business enterprises within the Zone on the effective date of such decertification or amendment.

(f) Except as otherwise provided in this Act, with respect to business enterprises that are proposed or under development within a Zone at the time of a decertification or an amendment reducing the length of the term of the Zone, or excluding from the Zone area the site of the proposed enterprise, or an ordinance reducing or eliminating tax benefits in a Zone, or excluding from the Zone area the site of the proposed enterprise, or an ordinance reducing or eliminating tax benefits in a Zone, such business enterprise shall be entitled to the benefits previously applicable within the Zone for the original stated term of the Zone, if the business enterprise establishes:

- (1) that the proposed business enterprise expansion has been committed to be located within the Zone;
- (2) that substantial and binding financial obligations have been made towards the development of the enterprise; and
- (3) that the commitments have been made in reasonable reliance on the benefits and programs that were to have been applicable to the enterprise by reason of the Zone, including in the case of a reduction in term of a Zone, the original length of the term.

In declaratory judgment actions under this Section, the Department and the designating municipality or county shall be necessary parties.

Section 45. Adoption of tax increment financing.

(a) If (i) a redevelopment project area is, will be, or has been created by a municipality under Division 74.4 of the Illinois Municipal Code, (ii) the redevelopment project area containing property that is located in an Innovation Zone, (iii) the municipality adopts an amendment to the Innovation Zone designating ordinance pursuant to Section 40 of this Act specifically concerning the abatement of taxes on property located within a redevelopment project area created pursuant to Division 74.4 of the Illinois Municipal Code, and (iv) the Department certifies the ordinance amendment, then the property that is located in both the Innovation Zone and the redevelopment project area shall not be eligible for the abatement of taxes under Section 18-170 of the Property Tax Code.

No business or expansion or individual, however, that has constructed a new improvement or renovated or rehabilitated an existing improvement and has received an abatement on the improvement under Section 18-170 of the Property Tax Code may be denied any benefit previously extended within the Zone under this Act or under any other Illinois law providing benefits specifically to or within Innovation Zones. If the business or individual presents evidence to the municipality, then within 30 days after the adoption by the municipality of an amendment to the designating ordinance, the sufficiency of which must be determined by findings of the corporate authorities made within 30 days after the receipt of such evidence by the municipality, that before the date of the notice of the public hearing provided by the municipality regarding the amendment to the designating ordinance (i) the business or expansion or individual was committed to locate within the Innovation Zone, (ii) substantial and binding financial obligations were made towards the development of the business, and (iii) those commitments were made in reasonable reliance on the benefits and programs that were applicable to the business or individual by reason of the Innovation Zone, then the business or expansion or individual may not be denied any benefit previously extended within the zone under this Act or under any other Illinois law providing benefits specifically to or within Innovation Zones.

(b) This Section applies to all property located within both a redevelopment project area adopted under Division 74.4 of the Illinois Municipal Code and an Innovation Zone even if the redevelopment project area was adopted before the effective date of this Act.

(c) If (i) a redevelopment project is created by a municipality under Division 74.4 of the Illinois Municipal Code and (ii) the redevelopment project area contains property that is located in an Innovation Zone, then the municipality must adopt an amendment to the certified Innovation Zone designating ordinance under Section 40 that property that is located in both the Innovation Zone and the redevelopment project area shall not be eligible for any abatement of taxes under Section 18-170 of the Property Tax Code for new improvements or the renovation or rehabilitation of existing improvements.

(d) In declaratory judgment actions under this Section, the Department and the designating municipality shall be necessary parties.

Section 50. Powers and duties of Department.

(a) The Department shall administer this Act and shall have the following powers and duties:

(1) To monitor the implementation of this Act and any suggestions for legislation to the Director of the Department and the Illinois Innovation Council by December 31 of every calendar year and to annually report to the General Assembly employment, number of business establishments, the dollar value of new construction, and improvements for each Innovation Zone.

(e) The Department shall provide support and assistance to the members of the Illinois Innovation Council in carrying out their responsibilities and powers established in Section 115 of this Act.

Section 55. State incentives regarding public services and physical infrastructure.

(a) This Act does not restrict tax incentive financing pursuant to the Tax Increment Allocation Redevelopment Act.

(b) Priority in the use of industrial development bonds issued by the Illinois Finance Authority shall be given to businesses located in an Innovation Zone.

(c) The State Treasurer is authorized and encouraged to place deposits of State funds with financial institutions doing business in an Innovation Zone and to encourage angel and venture capital investments in businesses created or located in Innovation Zones.

(d) Priority in the use of business or technology development grant and loan programs, worker training and retraining programs, and any other grant, loan, or assistance programs administered by the Department shall be given to businesses located in an Innovation Zone.

Section 60. Zone administration. The administration of an Innovation Zone shall be under the jurisdiction of the designating municipality or county. Each designating municipality or county shall, by ordinance, designate a Zone Administrator for the certified zones within its jurisdiction. The Zone Administrator must have the capacity to handle the Zone's financial and administrative functions and must have the expertise to facilitate the Zone's efforts at fostering innovation, commercializing research, and creating entrepreneurial opportunities. The Zone Administrator shall be the liaison between the designating municipality or county, the Department, and the Illinois Innovation Council. The Zone Administrator may provide the following services or perform the following functions in coordination with the municipality or county:

(1) Provide or contract for provision of public services.

(2) Exercise authority for the enforcement of any code, permit, or licensing procedure within an Innovation Zone.

(3) Provide a forum for business, education, labor, and government action on Zone innovations.

(4) Receive title to publicly owned land.

(5) Perform such other functions as the responsible government entity may deem appropriate, including offerings and contracts for insurance with businesses within the Zone.

(6) To apply for and Administer any State or federal grant program funds that may be awarded to the Zone for the benefit of business enterprises located in the Zone or any other public or private funds that may be awarded or otherwise received for the benefit of business enterprises or workers within the Zone.

(7) Agree with local governments to provide such public services within the Zones by contracting with private firms and organizations, where feasible and prudent.

(8) Solicit and receive contributions to improve the innovation assets and infrastructure in the Zone.

Section 65. Income tax deduction.

(a) A taxpayer may receive a deduction against income subject to State taxes for a contribution to a designated Zone Organization if the project for which the contribution is made has been specifically approved by the designating municipality or county and by the Department.

(b) Any designated zone organization seeking to have a project approved for contribution must submit an application to the Department describing the nature and benefit of the project and its potential contributors. The designated Zone Organization must be fiscally responsible for the project.

(c) The project must enhance the Innovation Zone in one of the following ways:

(1) by creating permanent jobs;

(2) by furthering the ability of the Zone to attract and develop technology-based business enterprises and entrepreneurs;

(3) by increasing the availability of financial resources that will support the attraction and development of technology-based business enterprises and entrepreneurs, including seed and venture funding; or

(4) by improving the availability of a skilled workforce that will attract and/or support technology-based business enterprises.

(d) If the designated Zone Organization demonstrates its ability to enhance the Zone's activities in one or more of the ways listed in subsection (c) of this Section, then the Department shall approve the organization's proposed projects and specify the amount of contributions that it is eligible to receive for the project. Comments from State elected officials and county and municipal officials in which all or part of the Innovation Zone are located or in which the project is proposed to be located must be solicited by the Department in making its decision.

(e) Within 45 days after the receipt of an application, the Department shall give notice to the applicant as to whether the application has been approved or disapproved. If the Department disapproves the application, then it shall specify the reasons for this decision and allow 60 days for the applicant to amend and resubmit its application. The Department shall provide assistance upon request to applicants. The Department must approve or disapprove resubmitted applications within 30 days after submission. Those resubmitted applications satisfying initial Department objectives must be approved unless reasonable circumstances warrant disapproval.

(f) On an annual basis, the designated Zone Organization shall furnish a statement to the Department on the programmatic and financial status of any approved project and an audited financial statement of the project.

(g) For any project that is approved and for which there is a specified amount of contributions that the designated Zone Organization may receive for an approved project as provided in subsection (d) of this Section, the designated Zone Organization shall provide to the Department any information necessary to determine the eligibility of a contribution to the project for a deduction under Section 203 of the Illinois Income Tax Act. The Department shall certify to the Department of Revenue the taxpayers eligible for and the amounts of contributions which those taxpayers may claim as a deduction under Section 203 of the Illinois Income Tax Act. The total of all actual contributions approved by the Department for deductions under this Section may not exceed \$15,400,000 in any one calendar year.

Section 70. State and local regulatory alternatives.

(a) Agencies may provide in their rules for (i) the exemption of business enterprises within Innovation Zones or (ii) modifications or alternatives specifically applicable to business enterprises within Innovation Zones, that impose less stringent standards or alternative standards for compliance, including performance-based standards as a substitute for specific mandates of methods, procedures, or equipment.

Exemptions, modifications, or alternatives shall be effected by rules adopted in accordance with the

Illinois Administrative Procedure Act. The Agency adopting the exemptions, modifications, or alternatives shall file with its proposed rule its findings that the proposed rule provides economic incentives within Innovation Zones that promote the purposes of this Act, and that, to the extent they include any exemptions or reductions in regulatory standards or requirements, outweigh the need or justification for the existing rule.

(b) If any Agency adopts a rule pursuant to subsection (a) of this Section affecting a rule contained on the list published by the Department pursuant to Section 65, prior to the completion of the rule making process for the Department's rules under that Section, the Agency shall immediately transmit a copy of its proposed rule to the Department, together with a statement of reasons as to why the Department should defer to the Agency's proposed rule. Agency rules adopted under subsection (a) of this Section shall, however, be subject to the exemption rules of the Department adopted under Section 65.

(c) Within Innovation Zones, the designating county or municipality may modify all local ordinances and regulations regarding (1) zoning; (2) licensing; (3) building codes, excluding however, any regulations treating building defects; and (4) rent control and price controls, except for the minimum wage. Notwithstanding any shorter statute of limitation to the contrary, actions against any contractor or architect who designs, constructs, or rehabilitates a building or structure in an Innovation Zone in accordance with local standards specifically applicable within Zones that have been relaxed may be commenced within 10 years from the time of beneficial occupancy of the building or use of the structure.

Section 75. Powers and duties. The Department has the power to:

(1) Provide loans from the funds appropriated to a business undertaking a project and accept mortgages or other evidences of indebtedness or security of such business.

(2) Enter into agreements, accept funds or grants, and cooperate with agencies of the federal government, units of local government, and local regional economic development corporations or organizations for the purposes of carrying out this Act.

(3) Enter into contracts, letters of credit, or any other agreements or contracts with financial institutions necessary or desirable to carry out the purposes of this Act. Any such agreement or contract may include, without limitation, terms and provisions relating to a specific project, such as loan documentation, review and approval procedures, organization and servicing rights, default conditions, and other program aspects.

(5) Establish application, notification, contract, and other procedures, rules, or regulations deemed necessary and appropriate.

(6) Subject to the provisions of any contract with another person and consent to the modification or restructuring of any loan agreement to which the Department is a party.

(7) Take any actions that are necessary or appropriate to protect the State's interest in the event of bankruptcy, default, foreclosure, or noncompliance with the terms and conditions of financial assistance or participation provided under this Act, including the power to sell, dispose, lease, or rent, upon terms and conditions determined by the Director to be appropriate, real or personal property that the Department may receive as a result thereof.

(8) Acquire and accept by gift, grant, purchase, or otherwise, but by condemnation, fee simple title, or such lesser interest as may be desired, in land, to improve or arrange for the improvement of that land for industrial or commercial site development purposes, and to lease or convey such land or interest in land so acquired and so improved, including sale and conveyance subject to a mortgage, for such price, upon such terms, and at such time as the Department may determine. Prior to exercising his or her authority under this subsection, the Director must find that other means of financing and developing of any such project are not reasonably available and that such action is consistent with the purposes and policies of this Act.

(9) Exercise such other powers as are necessary or incidental to the foregoing.

Section 80. Loans. Any loan made under this Act:

(1) May be made only if a participating lender, or other funding source including the applicant, also provides a portion of the financing with respect to the project and only if the Department determines, on the basis of all the information available to it, that the project would not be undertaken in Illinois unless the loan is provided. Financing from another funding source may be in the form of a loan, letter of credit, guarantee, loan participation, bond purchase, direct cash payment, or other form approved by the Department.

(2) May finance no more than 25% of the total amount of any single project and may only be approved for amounts not to exceed \$2,000,000 for any single project, unless waived by the Director upon a finding that a waiver is appropriate to accomplish the purposes of this Act.

(3) Must be protected by adequate security satisfactory to the Department to secure payment of the loan agreement.

(4) Must be in any principal amount and form and contain any terms and provisions with respect to property insurance, repairs, alterations, payment of taxes and assessments, delinquency charges, default remedies, additional security, and other matters that the Department determines is adequate to protect the public interest.

(5) Must include provisions to call the loan agreement as due and payable if the project is not completed, if the project fails to generate anticipated employment opportunities, or if the business ceases to operate the project.

(6) May be made only after the Department has determined that the loan will cause a project to be undertaken that has the potential to create substantial employment in relation to the principal amount of the loan.

(7) May be made only with a business that has certified the project is a new plant start-up or expansion and is not a relocation of an existing business from another site in Illinois unless that relocation results in substantial employment growth.

Section 85. Loan applications.

(a) Applications for loans must be submitted to the Department on forms and subject to filing fees prescribed by the Department. The Department is not prohibited from soliciting applications. The Department shall conduct any investigation and obtain any information concerning the business as is necessary and diligent to complete a loan agreement. The Department's investigation must include facts about the company's history, job opportunities, stability of employment, past and present condition and structure, actual and pro-forma income statements, present and future market prospects, management qualifications, and any other aspect material to the financing request.

(b) After consideration of this information and after any other action that is deemed appropriate, the Department shall approve or deny the application. If the Department approves the application, its approval must specify the amount of funds to be provided and the loan agreement provisions. The Department shall promptly notify the business of its approval or denial of the application.

Section 90. Innovation Zone Loan Fund.

(a) The Innovation Zone Loan Fund is created as a special fund in the State treasury. The Department is authorized to make loans from the Fund for the purposes established under this Act. The State Treasurer has custody of the Fund and may invest in accordance with his or her statutory authority and investment policy. The purpose of the Fund is to offer loans to finance firms considering the location of a proposed business in a certified Innovation Zone and to provide financing to carry out the purposes and provisions of item (8) of Section 75 of this Act. This financing must be in the form of a loan, mortgage, or other debt instrument. All loans must be conditioned on the project receiving financing from participating lenders or other sources. Loan proceeds must be available for project costs associated with an expansion of business capacity and employment, except for debt refinancing. New ventures shall be considered only if the entity is protected with adequate security with regard to its financing and operation. The limitations and conditions with respect to the use of this Fund do not apply in carrying out the purposes and provisions of item (8) of Section 75 of this Act.

(b) Deposits in the Fund include, but are not limited to:

(1) All receipts, including principal and interest payments, royalties or other payments, from any loan made by the Department under this Law.

(2) All proceeds of assets of whatever nature received by the Department as a result of default and delinquency with respect to loans made under this Law, including proceeds from the sale, disposal, lease or rental of real or personal property which the Department may receive as a result thereof.

(3) Any appropriations, grants or gifts made to the Fund.

(4) Any income received from interest on investments of amounts from the Fund not currently needed to meet the obligations of the Fund.

Section 95. Construction. Nothing in this Act may be construed as creating any rights of a competitor

of an approved borrower or any applicant whose application is denied by the Department to challenge any application which is accepted by the Department and any loan or other agreement executed in connection therewith.

Section 100. Confidentiality. Any documentary materials or data made or received by any member, agent, or employee of the Department is deemed to be confidential and is not a public record to the extent that such materials or data consist of trade secrets, commercial, or financial information regarding the operation of any business conducted by an applicant for or recipient of any form of assistance under this Law or such information regarding the competitive position of such business in a particular field of endeavor.

Section 105. Report. On January 1 of each year, the Department shall report on its operation of the Fund for the preceding fiscal year to the Governor, the General Assembly, and the Illinois Innovation Council.

Section 110. Federal programs. The Department is authorized to accept and expend federal moneys pursuant to this Law except that the terms and conditions hereunder that are inconsistent with or prohibited by federal authorization under which such moneys are made available do apply with respect to the expenditure of such moneys.

Section 115. Illinois Innovation Council.

(a) The Illinois Innovation Council, referred to in this Act as the Council, is created to promote cooperation and collaboration among the designated Innovation Zones within the State. The Department shall provide support and assistance to the members of the Council. The Council is charged with the responsibility of assisting the Department with creating a long term strategy based on innovation, designed to foster the creation and growth of technology-based businesses, encourage entrepreneurship and new job creation and investment, maximize the State's technology-based assets and infrastructure, and support public-private partnerships that can attract and support these targeted job creation and investment activities.

In the case of a foreign insurer, as defined by Section 35A-5 of the Illinois Insurance Code, whose state or country of domicile imposes on insurers domiciled in Illinois a retaliatory tax (excluding any insurer whose premiums from reinsurance assumed are 50% or more of its total insurance premiums as determined under paragraph (2) of subsection (b) of Section 304, except that for purposes of this determination premiums from reinsurance do not include premiums from inter-affiliate reinsurance arrangements), beginning with taxable years ending on or after December 31, 1999, the sum of the rates of tax imposed by subsections (b) and (d) shall be reduced (but not increased) to the rate at which the total amount of tax imposed under this Act, net of all credits allowed under this Act, shall equal (i) the total amount of tax that would be imposed on the foreign insurer's net income allocable to Illinois for the taxable year by such foreign insurer's state or country of domicile if that net income were subject to all income taxes and taxes measured by net income imposed by such foreign insurer's state or country of domicile, net of all credits allowed or (ii) a rate of zero if no such tax is imposed on such income by the foreign insurer's state of domicile. For the purposes of this subsection (d-1), an inter-affiliate includes a mutual insurer under common management.

(1) For the purposes of subsection (d-1), in no event shall the sum of the rates of tax imposed by subsections (b) and (d) be reduced below the rate at which the sum of:

(A) the total amount of tax imposed on such foreign insurer under this Act for a taxable year, net of all credits allowed under this Act, plus

(B) the privilege tax imposed by Section 409 of the Illinois Insurance Code, the fire insurance company tax imposed by Section 12 of the Fire Investigation Act, and the fire department taxes imposed under Section 11-10-1 of the Illinois Municipal Code, equals 1.25% for taxable years ending prior to December 31, 2003, or 1.75% for taxable years ending on or after December 31, 2003, of the net taxable premiums written for the taxable year, as described by subsection (1) of Section 409 of the Illinois Insurance Code. This paragraph will in no event increase the rates imposed under subsections (b) and (d).

(2) Any reduction in the rates of tax imposed by this subsection shall be applied first against the rates imposed by subsection (b) and only after the tax imposed by subsection (a) net of all credits allowed under this Section other than the credit allowed under subsection (i) has been reduced to zero, against the rates imposed by subsection (d).

This subsection (d-1) is exempt from the provisions of Section 250.

(e) Investment credit. A taxpayer shall be allowed a credit against the Personal Property Tax Replacement Income Tax for investment in qualified property.

(1) A taxpayer shall be allowed a credit equal to .5% of the basis of qualified

property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1984. There shall be allowed an additional credit equal to .5% of the basis of qualified property placed in service during the taxable year, provided such property is placed in service on or after July 1, 1986, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. The provisions added to this Section by Public Act 85-1200 (and restored by Public Act 87-895) shall be construed as declaratory of existing law and not as a new enactment. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is .5% and the denominator of which is 1%, but shall not exceed .5%. The investment credit shall not be allowed to the extent that it would reduce a taxpayer's liability in any tax year below zero, nor may any credit for qualified property be allowed for any year other than the year in which the property was placed in service in Illinois. For tax years ending on or after December 31, 1987, and on or before December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years if the taxpayer (i) makes investments which cause the creation of a minimum of 2,000 full-time equivalent jobs in Illinois, (ii) is located in an enterprise zone established pursuant to the Illinois Enterprise Zone Act, ~~and~~ (iii) is certified by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) as complying with the requirements specified in clause (i) and (ii) by July 1, 1986, ~~or~~ (iv) is located in an Innovation Zone established pursuant to the Illinois Innovation Zone Act. The Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity) shall notify the Department of Revenue of all such

certifications immediately. For tax years ending after December 31, 1988, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit years. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(2) The term "qualified property" means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings and signs that are real property, but not including land or improvements to real property that are not a structural component of a building such as landscaping, sewer lines, local access roads, fencing, parking lots, and other appurtenances;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (e);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in Illinois by a taxpayer who is primarily engaged in manufacturing, or in mining coal or fluorite, or in retailing, or in the provision of advanced healthcare services or treatments, or was placed in service on or after July 1, 2006 in a River Edge Redevelopment Zone established pursuant to the River Edge Redevelopment Zone Act, or was placed in service on or after July 1, 2009 in an Innovation Zone established pursuant to the Illinois Innovation Zone Act; and

(E) has not previously been used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (e) or subsection (f).

(3) For purposes of this subsection (e), "manufacturing" means the material staging and production of tangible personal property by procedures commonly regarded as manufacturing, processing, fabrication, or assembling which changes some existing material into new shapes, new qualities, or new combinations. For purposes of this subsection (e) the term "mining" shall have the same meaning as the term "mining" in Section 613(c) of the Internal Revenue Code. For purposes of this subsection (e), the term "retailing" means the sale of tangible personal property or services rendered in conjunction with the sale of tangible consumer goods or commodities. For the purposes of this subsection (e), "advanced healthcare services or treatments" means the direct treatment of patients using advanced medical equipment that is located in a facility in an Innovation Zone that conducts research and development activities with a State university utilizing the advanced medical equipment.

(4) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(5) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(6) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(7) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the Personal Property Tax Replacement Income Tax for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation and, (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (7), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(8) Unless the investment credit is extended by law, the basis of qualified property shall not include costs incurred after December 31, 2008, except for costs incurred pursuant to a binding contract entered into on or before December 31, 2008.

(9) Each taxable year ending before December 31, 2000, a partnership may elect to pass through to its partners the credits to which the partnership is entitled under this subsection (e) for the taxable year. A partner may use the credit allocated to him or her under this paragraph only against the tax imposed in subsections (c) and (d) of this Section. If the partnership makes that election, those

credits shall be allocated among the partners in the partnership in accordance with the rules set forth in Section 704(b) of the Internal Revenue Code, and the rules promulgated under that Section, and the allocated amount of the credits shall be allowed to the partners for that taxable year. The partnership shall make this election on its Personal Property Tax Replacement Income Tax return for that taxable year. The election to pass through the credits shall be irrevocable.

For taxable years ending on or after December 31, 2000, a partner that qualifies its partnership for a subtraction under subparagraph (I) of paragraph (2) of subsection (d) of Section 203 or a shareholder that qualifies a Subchapter S corporation for a subtraction under subparagraph (S) of paragraph (2) of subsection (b) of Section 203 shall be allowed a credit under this subsection (e) equal to its share of the credit earned under this subsection (e) during the taxable year by the partnership or Subchapter S corporation, determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. This paragraph is exempt from the provisions of Section 250.

(f) Investment credit; Enterprise Zone; River Edge Redevelopment Zone; Innovation Zone.

(1) A taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service in an Enterprise Zone created pursuant to the Illinois Enterprise Zone Act or, for property placed in service on or after July 1, 2006, a River Edge Redevelopment Zone established pursuant to the River Edge Redevelopment Zone Act or, for investment in qualified property which is placed in service in an Innovation Zone created pursuant to the Illinois Innovation Zone Act. For partners, shareholders of Subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (f) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and Subchapter S of the Internal Revenue Code. The credit shall be .5% of the basis for such property. The credit shall be available only in the taxable year in which the property is placed in service in the Enterprise Zone or River Edge Redevelopment Zone or Innovation Zone and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1985, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (f);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code;

(D) is used in the Enterprise Zone or River Edge Redevelopment Zone or Innovation Zone by the taxpayer; and

(E) has not been previously used in Illinois in such a manner and by such a person as would qualify for the credit provided by this subsection (f) or subsection (e).

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in the Enterprise Zone or River Edge Redevelopment Zone or Innovation Zone by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in service, or the situs of any qualified property is moved outside the Enterprise Zone or River Edge Redevelopment Zone or Innovation Zone within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i)

recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) There shall be allowed an additional credit equal to 0.5% of the basis of qualified property placed in service during the taxable year in a River Edge Redevelopment Zone, provided such property is placed in service on or after July 1, 2006, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is 0.5% and the denominator of which is 1%, but shall not exceed 0.5%.

(8) There shall be allowed an additional credit equal to 0.5% of the basis of qualified property placed in service during the taxable year in an Innovation Zone, provided such property is placed in service on or after July 1, 2009, and the taxpayer's base employment within Illinois has increased by 1% or more over the preceding year as determined by the taxpayer's employment records filed with the Illinois Department of Employment Security. Taxpayers who are new to Illinois shall be deemed to have met the 1% growth in base employment for the first year in which they file employment records with the Illinois Department of Employment Security. If, in any year, the increase in base employment within Illinois over the preceding year is less than 1%, the additional credit shall be limited to that percentage times a fraction, the numerator of which is 0.5% and the denominator of which is 1%, but shall not exceed 0.5%.

(g) Jobs Tax Credit; Enterprise Zone, River Edge Redevelopment Zone, ~~and~~ Foreign Trade Zone or Sub-Zone, and Innovation Zone.

(1) A taxpayer conducting a trade or business in an enterprise zone or an Innovation Zone or a High Impact

Business designated by the Department of Commerce and Economic Opportunity or for taxable years ending on or after December 31, 2006, in a River Edge Redevelopment Zone conducting a trade or business in a federally designated Foreign Trade Zone or Sub-Zone shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section in the amount of \$500 per eligible employee hired to work in the zone during the taxable year.

(2) To qualify for the credit:

(A) the taxpayer must hire 5 or more eligible employees to work in an enterprise zone, River Edge Redevelopment Zone, an Innovation Zone, or federally designated Foreign Trade Zone or Sub-Zone during the taxable year;

(B) the taxpayer's total employment within the enterprise zone, Innovation Zone, River Edge Redevelopment Zone, or federally designated Foreign Trade Zone or Sub-Zone must increase by 5 or more full-time employees beyond the total employed in that zone at the end of the previous tax year for which a jobs tax credit under this Section was taken, or beyond the total employed by the taxpayer as of December 31, 1985, whichever is later; and

(C) the eligible employees must be employed 180 consecutive days in order to be deemed hired for purposes of this subsection.

(3) An "eligible employee" means an employee who is:

(A) Certified by the Department of Commerce and Economic Opportunity as "eligible for services" pursuant to regulations promulgated in accordance with Title II of the Job Training Partnership Act, Training Services for the Disadvantaged or Title III of the Job Training Partnership Act, Employment and Training Assistance for Dislocated Workers Program.

(B) Hired after the enterprise zone, Innovation Zone, River Edge Redevelopment Zone, or federally designated Foreign Trade Zone or Sub-Zone was designated or the trade or business was located in that zone, whichever is later.

(C) Employed in the enterprise zone, Innovation Zone, River Edge Redevelopment Zone, or Foreign Trade Zone or Sub-Zone. An employee is employed in an enterprise zone or an Innovation Zone, or federally designated Foreign Trade Zone or Sub-Zone if his services are rendered there or it is the base of operations for the services performed.

(D) A full-time employee working 30 or more hours per week.

(4) For tax years ending on or after December 31, 1985 and prior to December 31, 1988, the credit shall be allowed for the tax year in which the eligible employees are hired. For tax years ending on or after December 31, 1988, the credit shall be allowed for the tax year immediately following the tax year in which the eligible employees are hired. If the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, earlier credit shall be applied first.

(5) The Department of Revenue shall promulgate such rules and regulations as may be deemed necessary to carry out the purposes of this subsection (g).

(6) The credit shall be available for eligible employees hired on or after January 1, 1986.

(h) Investment credit; High Impact Business.

(1) Subject to subsections (b) and (b-5) of Section 5.5 of the Illinois Enterprise Zone Act, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for investment in qualified property which is placed in service by a Department of Commerce and Economic Opportunity designated High Impact Business. The credit shall be .5% of the basis for such property. The credit shall not be available (i) until the minimum investments in qualified property set forth in subdivision (a)(3)(A) of Section 5.5 of the Illinois Enterprise Zone Act have been satisfied or (ii) until the time authorized in subsection (b-5) of the Illinois Enterprise Zone Act for entities designated as High Impact Businesses under subdivisions (a)(3)(B), (a)(3)(C), and (a)(3)(D) of Section 5.5 of the Illinois Enterprise Zone Act, and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. The credit applicable to such investments shall be taken in the taxable year in which such investments have been completed. The credit for additional investments beyond the minimum investment by a designated high impact business authorized under subdivision (a)(3)(A) of Section 5.5 of the Illinois Enterprise Zone Act shall be available only in the taxable year in which the property is placed in service and shall not be allowed to the extent that it would reduce a taxpayer's liability for the tax imposed by subsections (a) and (b) of this Section to below zero. For tax years ending on or after December 31, 1987, the credit shall be allowed for the tax year in which the property is placed in service, or, if the amount of the credit exceeds the tax liability for that year, whether it exceeds the original liability or the liability as later amended, such excess may be carried forward and applied to the tax liability of the 5 taxable years following the excess credit year. The credit shall be applied to the earliest year for which there is a liability. If there is credit from more than one tax year that is available to offset a liability, the credit accruing first in time shall be applied first.

Changes made in this subdivision (h)(1) by Public Act 88-670 restore changes made by Public Act 85-1182 and reflect existing law.

(2) The term qualified property means property which:

(A) is tangible, whether new or used, including buildings and structural components of buildings;

(B) is depreciable pursuant to Section 167 of the Internal Revenue Code, except that "3-year property" as defined in Section 168(c)(2)(A) of that Code is not eligible for the credit provided by this subsection (h);

(C) is acquired by purchase as defined in Section 179(d) of the Internal Revenue Code; and

(D) is not eligible for the Enterprise Zone Investment Credit provided by subsection (f) of this Section.

(3) The basis of qualified property shall be the basis used to compute the depreciation deduction for federal income tax purposes.

(4) If the basis of the property for federal income tax depreciation purposes is increased after it has been placed in service in a federally designated Foreign Trade Zone or Sub-Zone located in Illinois by the taxpayer, the amount of such increase shall be deemed property placed in service on the date of such increase in basis.

(5) The term "placed in service" shall have the same meaning as under Section 46 of the Internal Revenue Code.

(6) If during any taxable year ending on or before December 31, 1996, any property ceases to be qualified property in the hands of the taxpayer within 48 months after being placed in

service, or the situs of any qualified property is moved outside Illinois within 48 months after being placed in service, the tax imposed under subsections (a) and (b) of this Section for such taxable year shall be increased. Such increase shall be determined by (i) recomputing the investment credit which would have been allowed for the year in which credit for such property was originally allowed by eliminating such property from such computation, and (ii) subtracting such recomputed credit from the amount of credit previously allowed. For the purposes of this paragraph (6), a reduction of the basis of qualified property resulting from a redetermination of the purchase price shall be deemed a disposition of qualified property to the extent of such reduction.

(7) Beginning with tax years ending after December 31, 1996, if a taxpayer qualifies for the credit under this subsection (h) and thereby is granted a tax abatement and the taxpayer relocates its entire facility in violation of the explicit terms and length of the contract under Section 18-183 of the Property Tax Code, the tax imposed under subsections (a) and (b) of this Section shall be increased for the taxable year in which the taxpayer relocated its facility by an amount equal to the amount of credit received by the taxpayer under this subsection (h).

(i) Credit for Personal Property Tax Replacement Income Tax. For tax years ending prior to December 31, 2003, a credit shall be allowed against the tax imposed by subsections (a) and (b) of this Section for the tax imposed by subsections (c) and (d) of this Section. This credit shall be computed by multiplying the tax imposed by subsections (c) and (d) of this Section by a fraction, the numerator of which is base income allocable to Illinois and the denominator of which is Illinois base income, and further multiplying the product by the tax rate imposed by subsections (a) and (b) of this Section.

Any credit earned on or after December 31, 1986 under this subsection which is unused in the year the credit is computed because it exceeds the tax liability imposed by subsections (a) and (b) for that year (whether it exceeds the original liability or the liability as later amended) may be carried forward and applied to the tax liability imposed by subsections (a) and (b) of the 5 taxable years following the excess credit year, provided that no credit may be carried forward to any year ending on or after December 31, 2003. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first.

If, during any taxable year ending on or after December 31, 1986, the tax imposed by subsections (c) and (d) of this Section for which a taxpayer has claimed a credit under this subsection (i) is reduced, the amount of credit for such tax shall also be reduced. Such reduction shall be determined by recomputing the credit to take into account the reduced tax imposed by subsections (c) and (d). If any portion of the reduced amount of credit has been carried to a different taxable year, an amended return shall be filed for such taxable year to reduce the amount of credit claimed.

(j) Training expense credit. Beginning with tax years ending on or after December 31, 1986 and prior to December 31, 2003, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) under this Section for all amounts paid or accrued, on behalf of all persons employed by the taxpayer in Illinois or Illinois residents employed outside of Illinois by a taxpayer, for educational or vocational training in semi-technical or technical fields or semi-skilled or skilled fields, which were deducted from gross income in the computation of taxable income. The credit against the tax imposed by subsections (a) and (b) shall be 1.6% of such training expenses. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this subsection (j) to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

Any credit allowed under this subsection which is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is first computed until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability the earliest credit arising under this subsection shall be applied first. No carryforward credit may be claimed in any tax year ending on or after December 31, 2003.

(k) Research and development credit.

For tax years ending after July 1, 1990 and prior to December 31, 2003, and beginning again for tax years ending on or after December 31, 2004, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for increasing research activities in this State. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 6 1/2% of the qualifying expenditures for increasing research activities in this State. For partners, shareholders of subchapter S corporations, and owners of limited liability companies, if the liability company is treated as a partnership for purposes of federal and State income taxation, there shall be allowed a credit under this

subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

For purposes of this subsection, "qualifying expenditures" means the qualifying expenditures as defined for the federal credit for increasing research activities which would be allowable under Section 41 of the Internal Revenue Code and which are conducted in this State, "qualifying expenditures for increasing research activities in this State" means the excess of qualifying expenditures for the taxable year in which incurred over qualifying expenditures for the base period, "qualifying expenditures for the base period" means the average of the qualifying expenditures for each year in the base period, and "base period" means the 3 taxable years immediately preceding the taxable year for which the determination is being made.

Any credit in excess of the tax liability for the taxable year may be carried forward. A taxpayer may elect to have the unused credit shown on its final completed return carried over as a credit against the tax liability for the following 5 taxable years or until it has been fully used, whichever occurs first; provided that no credit earned in a tax year ending prior to December 31, 2003 may be carried forward to any year ending on or after December 31, 2003.

If an unused credit is carried forward to a given year from 2 or more earlier years, that credit arising in the earliest year will be applied first against the tax liability for the given year. If a tax liability for the given year still remains, the credit from the next earliest year will then be applied, and so on, until all credits have been used or no tax liability for the given year remains. Any remaining unused credit or credits then will be carried forward to the next following year in which a tax liability is incurred, except that no credit can be carried forward to a year which is more than 5 years after the year in which the expense for which the credit is given was incurred.

No inference shall be drawn from this amendatory Act of the 91st General Assembly in construing this Section for taxable years beginning before January 1, 1999.

For tax years ending on or after December 31, 2009, an Innovation Zone, as that term is defined in the Illinois Innovation Zone Act, qualifies for a credit under this subsection (k) for (i) research conducted after the beginning of commercial production; (ii) research adapting an existing product or process to a particular customer's need; (iii) surveys or studies; (iv) research in social sciences, arts, or humanities; or (v) research funded by another person or government entity.

(l) Environmental Remediation Tax Credit.

(i) For tax years ending after December 31, 1997 and on or before December 31, 2001, a taxpayer shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for certain amounts paid for unreimbursed eligible remediation costs, as specified in this subsection. For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14 of the Environmental Protection Act that were paid in performing environmental remediation at a site for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. After the Pollution Control Board rules are adopted pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act, determinations as to credit availability for purposes of this Section shall be made consistent with those rules. For purposes of this Section, "taxpayer" includes a person whose tax attributes the taxpayer has succeeded to under Section 381 of the Internal Revenue Code and "related party" includes the persons disallowed a deduction for losses by paragraphs (b), (c), and (f)(1) of Section 267 of the Internal Revenue Code by virtue of being a related taxpayer, as well as any of its partners. The credit allowed against the tax imposed by subsections (a) and (b) shall be equal to 25% of the unreimbursed eligible remediation costs in excess of \$100,000 per site, except that the \$100,000 threshold shall not apply to any site contained in an enterprise zone as determined by the Department of Commerce and Community Affairs (now Department of Commerce and Economic Opportunity). The total credit allowed shall not exceed \$40,000 per year with a maximum total of \$150,000 per site. For partners and shareholders of subchapter S corporations, there shall be allowed a credit under this subsection to be determined in accordance with the determination of income and distributive share of income under Sections 702 and 704 and subchapter S of the Internal Revenue Code.

(ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is

first earned until it is used. The term "unused credit" does not include any amounts of unreimbursed eligible remediation costs in excess of the maximum credit per site authorized under paragraph (i). This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

(iii) For purposes of this Section, the term "site" shall have the same meaning as under Section 58.2 of the Environmental Protection Act.

(m) Education expense credit. Beginning with tax years ending after December 31, 1999, a taxpayer who is the custodian of one or more qualifying pupils shall be allowed a credit against the tax imposed by subsections (a) and (b) of this Section for qualified education expenses incurred on behalf of the qualifying pupils. The credit shall be equal to 25% of qualified education expenses, but in no event may the total credit under this subsection claimed by a family that is the custodian of qualifying pupils exceed \$500. In no event shall a credit under this subsection reduce the taxpayer's liability under this Act to less than zero. This subsection is exempt from the provisions of Section 250 of this Act.

For purposes of this subsection:

"Qualifying pupils" means individuals who (i) are residents of the State of Illinois, (ii) are under the age of 21 at the close of the school year for which a credit is sought, and (iii) during the school year for which a credit is sought were full-time pupils enrolled in a kindergarten through twelfth grade education program at any school, as defined in this subsection.

"Qualified education expense" means the amount incurred on behalf of a qualifying pupil in excess of \$250 for tuition, book fees, and lab fees at the school in which the pupil is enrolled during the regular school year.

"School" means any public or nonpublic elementary or secondary school in Illinois that is in compliance with Title VI of the Civil Rights Act of 1964 and attendance at which satisfies the requirements of Section 26-1 of the School Code, except that nothing shall be construed to require a child to attend any particular public or nonpublic school to qualify for the credit under this Section.

"Custodian" means, with respect to qualifying pupils, an Illinois resident who is a parent, the parents, a legal guardian, or the legal guardians of the qualifying pupils.

(n) River Edge Redevelopment Zone site remediation tax credit.

For purposes of this Section, "unreimbursed eligible remediation costs" means costs approved by the Illinois Environmental Protection Agency ("Agency") under Section 58.14a of the Environmental Protection Act that were paid in performing environmental remediation at a site within a River Edge Redevelopment Zone for which a No Further Remediation Letter was issued by the Agency and recorded under Section 58.10 of the Environmental Protection Act. The credit must be claimed for the taxable year in which Agency approval of the eligible remediation costs is granted. The credit is not available to any taxpayer if the taxpayer or any related party caused or contributed to, in any material respect, a release of regulated substances on, in, or under the site that was identified and addressed by the remedial action pursuant to the Site Remediation Program of the Environmental Protection Act. Determinations as to credit availability for purposes of this Section shall be made consistent with rules adopted by the Pollution Control Board pursuant to the Illinois Administrative Procedure Act for the administration and enforcement of Section 58.9 of the Environmental Protection Act. (ii) A credit allowed under this subsection that is unused in the year the credit is earned may be carried forward to each of the 5 taxable years following the year for which the credit is

first earned until it is used. This credit shall be applied first to the earliest year for which there is a liability. If there is a credit under this subsection from more than one tax year that is available to offset a liability, the earliest credit arising under this subsection shall be applied first. A credit allowed under this subsection may be sold to a buyer as part of a sale of all or part of the remediation site for which the credit was granted. The purchaser of a remediation site and the tax credit shall succeed to the unused credit and remaining carry-forward period of the seller. To perfect the transfer, the assignor shall record the transfer in the chain of title for the site and provide written notice to the Director of the Illinois Department of Revenue of the assignor's intent to sell the remediation site and the amount of the tax credit to be transferred as a portion of the sale. In no event may a credit be transferred to any taxpayer if the taxpayer or a related party would not be eligible under the provisions of subsection (i).

In addition, the retailer must retain a signed copy of the statement in his or her records. The tax collected under this Act in accordance with this item (25-5) shall be proportionately

(305 ILCS 20/6) (from Ch. 111 2/3, par. 1406)

Sec. 6. Eligibility, Conditions of Participation, and Energy Assistance.

(a) Any person who is a resident of the State of Illinois and whose household income is not greater than an amount determined annually by the Department, in consultation with the Policy Advisory Council, may apply for assistance pursuant to this Act in accordance with regulations promulgated by the Department. In setting the annual eligibility level, the Department shall consider the amount of available funding and may not set a limit higher than 150% of the federal nonfarm poverty level as established by the federal Office of Management and Budget. Notwithstanding any other provision of this Section, in determining the amount of a household's annual income, the Department may consider the household's extraordinary medical expenses, as defined by the Department by rule, including but not limited to expenses related to life support equipment for a household member.

(b) Applicants who qualify for assistance pursuant to subsection (a) of this Section shall, subject to appropriation from the General Assembly and subject to availability of funds to the Department, receive energy assistance as provided by this Act. The Department, upon receipt of monies authorized pursuant to this Act for energy assistance, shall commit funds for each qualified applicant in an amount determined by the Department. In determining the amounts of assistance to be provided to or on behalf of a qualified applicant, the Department shall ensure that the highest amounts of assistance go to households with the greatest energy costs in relation to household income. The Department shall include factors such as energy costs, household size, household income, and region of the State when determining individual household benefits. The Department may also include factors such as extraordinary medical needs of a household member, as defined by the Department by rule, including but not limited to a need for life support equipment, when determining individual household benefits. In setting assistance levels, the Department shall attempt to provide assistance to approximately the same number of households who participated in the 1991 Residential Energy Assistance Partnership Program. Such assistance levels shall be adjusted annually on the basis of funding availability and energy costs. In promulgating rules for the administration of this Section the Department shall assure that a minimum of 1/3 of funds available for benefits to eligible households with the lowest incomes and that elderly and disabled households are offered a priority application period.

(c) If the applicant is not a customer of an energy provider for winter energy services or an applicant for such service, such applicant shall receive a direct energy assistance payment in an amount established by the Department for all such applicants under this Act; provided, however, that such an applicant must have rental expenses for housing greater than 30% of household income.

(d) If the applicant is a customer of an energy provider, such applicant shall receive energy assistance in an amount established by the Department for all such applicants under this Act, such amount to be paid by the Department to the energy provider supplying winter energy service to such applicant. Such applicant shall:

[April 1, 2009]

 - (ii) sign a waiver permitting the Department to receive income information from any public or private agency providing income or energy assistance and from any employer, whether public or private.
- (e) Any qualified applicant pursuant to this Section may receive or have paid on such applicant's behalf an emergency assistance payment to enable such applicant to obtain access to winter energy services. Any such payments shall be made in accordance with regulations of the Department.
- (f) The Department may, if sufficient funds are available, provide additional benefits to certain qualified applicants:
- (i) for the reduction of past due amounts owed to energy providers; and
 - (ii) to assist the household in responding to excessively high summer temperatures or energy costs. Households containing elderly members, children, a person with a disability, or a person with a medical need for conditioned air shall receive priority for receipt of such benefits.

SENATE BILL RECALLED

On motion of Senator Harmon, **Senate Bill No. 1601** was recalled from the order of third reading to the order of second reading.

Senate Floor Amendment No. 1 was held in the Committee on Assignments.

Senator Harmon offered the following amendment and moved its adoption:

AMENDMENT NO. 2 TO SENATE BILL 1601

AMENDMENT NO. 2. Amend Senate Bill 1601 by replacing everything after the enacting clause with the following:

"Section 5. The Illinois Municipal Code is amended by changing Section 11-74.4-3 as follows:

(65 ILCS 5/11-74.4-3) (from Ch. 24, par. 11-74.4-3)

(Text of Section before amendment by P.A. 95-1028)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs

to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate

[April 1, 2009]

ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys,

curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited

to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the

certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first \$100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of \$100,000 but not exceeding \$500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of \$500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first \$100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of \$100,000 but not exceeding \$500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of \$500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40%

in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amending Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted, the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates may not be later than the dates set forth under Section 11-74.4-3.5, ~~or (DDD) (EEE), or (FFF), or (GGG), or (HHH), or (III), or (JJJ), (KKK), (LLL) (MMM), or (NNN) if the ordinance was adopted on December 23, 1986 by the Village of Libertyville.~~

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very

low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to

be demolished to use the site for private investment or devoted to a different use requiring private investment; including any direct or indirect costs relating to LEED certified construction elements;

(4) Costs of the construction of public works or improvements, including any direct or indirect costs relating to LEED certified construction elements, except that on and

after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts with a district average 1995-96 Per Capita Tuition Charge equal to or more than \$5,900, excluding

any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed \$120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent

Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act

or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees of low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

(14) No cost shall be a redevelopment project cost in a redevelopment project area if used to demolish, remove, or substantially modify a historic resource, after August 26, 2008 (the effective date of Public Act 95-934) ~~this amendatory Act of the 95th General Assembly~~, unless no prudent and feasible alternative exists. "Historic resource" for the purpose of this item (14) means (i) a place or structure that is included or eligible for inclusion on the National Register of Historic Places or (ii) a contributing structure in a district on the National Register of Historic Places. This item (14) does not apply to a place or structure for which demolition, removal, or modification is subject to review by the preservation agency of a Certified Local Government designated as such by the National Park Service of the United States Department of the Interior.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment

project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed

Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(x) "LEED certified" means any certification level of construction elements by a qualified Leadership in Energy and Environmental Design Accredited Professional as determined by the U.S. Green Building Council.

(Text of Section after amendment by P.A. 95-1028)

Sec. 11-74.4-3. Definitions. The following terms, wherever used or referred to in this Division 74.4 shall have the following respective meanings, unless in any case a different meaning clearly appears from the context.

(a) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "blighted area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "blighted area" means any improved or vacant area within the boundaries of a redevelopment project area located within the territorial limits of the municipality where:

(1) If improved, industrial, commercial, and residential buildings or improvements are detrimental to the public safety, health, or welfare because of a combination of 5 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the redevelopment project area:

(A) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(B) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(C) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(D) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(E) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(F) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(G) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence of skylights or windows for interior spaces or rooms and improper

window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(H) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(I) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: (i) the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and (ii) the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(J) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(K) Environmental clean-up. The proposed redevelopment project area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(L) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(M) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(2) If vacant, the sound growth of the redevelopment project area is impaired by a combination of 2 or more of the following factors, each of which is (i) present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) Obsolete platting of vacant land that results in parcels of limited or narrow size or configurations of parcels of irregular size or shape that would be difficult to develop on a planned basis and in a manner compatible with contemporary standards and requirements, or platting that failed to create rights-of-ways for streets or alleys or that created inadequate right-of-way widths for streets, alleys, or other public rights-of-way or that omitted easements for public utilities.

(B) Diversity of ownership of parcels of vacant land sufficient in number to retard or impede the ability to assemble the land for development.

(C) Tax and special assessment delinquencies exist or the property has been the

subject of tax sales under the Property Tax Code within the last 5 years.

(D) Deterioration of structures or site improvements in neighboring areas adjacent to the vacant land.

(E) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(F) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years prior to the year in which the redevelopment project area is designated.

(3) If vacant, the sound growth of the redevelopment project area is impaired by one of the following factors that (i) is present, with that presence documented, to a meaningful extent so that a municipality may reasonably find that the factor is clearly present within the intent of the Act and (ii) is reasonably distributed throughout the vacant part of the redevelopment project area to which it pertains:

(A) The area consists of one or more unused quarries, mines, or strip mine ponds.

(B) The area consists of unused rail yards, rail tracks, or railroad rights-of-way.

(C) The area, prior to its designation, is subject to (i) chronic flooding that adversely impacts on real property in the area as certified by a registered professional engineer or appropriate regulatory agency or (ii) surface water that discharges from all or a part of the area and contributes to flooding within the same watershed, but only if the redevelopment project provides for facilities or improvements to contribute to the alleviation of all or part of the flooding.

(D) The area consists of an unused or illegal disposal site containing earth, stone, building debris, or similar materials that were removed from construction, demolition, excavation, or dredge sites.

(E) Prior to November 1, 1999, the area is not less than 50 nor more than 100 acres and 75% of which is vacant (notwithstanding that the area has been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area), and the area meets at least one of the factors itemized in paragraph (1) of this subsection, the area has been designated as a town or village center by ordinance or comprehensive plan adopted prior to January 1, 1982, and the area has not been developed for that designated purpose.

(F) The area qualified as a blighted improved area immediately prior to becoming vacant, unless there has been substantial private investment in the immediately surrounding area.

(b) For any redevelopment project area that has been designated pursuant to this Section by an ordinance adopted prior to November 1, 1999 (the effective date of Public Act 91-478), "conservation area" shall have the meaning set forth in this Section prior to that date.

On and after November 1, 1999, "conservation area" means any improved area within the boundaries of a redevelopment project area located within the territorial limits of the municipality in which 50% or more of the structures in the area have an age of 35 years or more. Such an area is not yet a blighted area but because of a combination of 3 or more of the following factors is detrimental to the public safety, health, morals or welfare and such an area may become a blighted area:

(1) Dilapidation. An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.

(2) Obsolescence. The condition or process of falling into disuse. Structures have become ill-suited for the original use.

(3) Deterioration. With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

(4) Presence of structures below minimum code standards. All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

(5) Illegal use of individual structures. The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

(6) Excessive vacancies. The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.

(7) Lack of ventilation, light, or sanitary facilities. The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.

(8) Inadequate utilities. Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.

(9) Excessive land coverage and overcrowding of structures and community facilities. The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonably required off-street parking, or inadequate provision for loading and service.

(10) Deleterious land use or layout. The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

(11) Lack of community planning. The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

(12) The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

(13) The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

(c) "Industrial park" means an area in a blighted or conservation area suitable for use by any manufacturing, industrial, research or transportation enterprise, of facilities to include but not be limited to factories, mills, processing plants, assembly plants, packing plants, fabricating plants, industrial distribution centers, warehouses, repair overhaul or service facilities, freight terminals, research facilities, test facilities or railroad facilities.

(d) "Industrial park conservation area" means an area within the boundaries of a redevelopment project area located within the territorial limits of a municipality that is a labor surplus municipality or within 1 1/2 miles of the territorial limits of a municipality that is a labor surplus municipality if the area is annexed to the municipality; which area is zoned as industrial no later than at the time the municipality by ordinance designates the redevelopment project area, and which area includes both vacant land suitable for use as an industrial park and a blighted area or conservation area contiguous to such vacant land.

(e) "Labor surplus municipality" means a municipality in which, at any time during the 6 months before the municipality by ordinance designates an industrial park conservation area, the unemployment rate was over 6% and was also 100% or more of the national average unemployment rate for that same time as published in the United States Department of Labor Bureau of Labor Statistics publication entitled "The Employment Situation" or its successor publication. For the purpose of this subsection, if unemployment rate statistics for the municipality are not available, the unemployment rate in the municipality shall be deemed to be the same as the unemployment rate in the principal county in which the municipality is located.

(f) "Municipality" shall mean a city, village, incorporated town, or a township that is located in the unincorporated portion of a county with 3 million or more inhabitants, if the county adopted an ordinance that approved the township's redevelopment plan.

(g) "Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located in a State Sales Tax Boundary during the calendar year 1985.

(g-1) "Revised Initial Sales Tax Amounts" means the amount of taxes paid under the Retailers' Occupation Tax Act, Use Tax Act, Service Use Tax Act, the Service Occupation Tax Act, the Municipal Retailers' Occupation Tax Act, and the Municipal Service Occupation Tax Act by retailers and servicemen on transactions at places located within the State Sales Tax Boundary revised pursuant to Section 11-74.4-8a(9) of this Act.

(h) "Municipal Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid to a municipality from the Local Government Tax Fund arising from sales by retailers and servicemen within the redevelopment project area or State Sales Tax Boundary, as the case may be, for as long as the redevelopment project area or State Sales Tax Boundary, as the case may be, exist over and above the aggregate amount of taxes as certified by the Illinois Department of Revenue and paid under the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act by retailers and servicemen, on transactions at places of business located in the redevelopment project area or State Sales Tax Boundary, as the case may be, during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall determine the Initial Sales Tax Amounts for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amounts". For purposes of determining the Municipal Sales Tax Increment, the Department of Revenue shall for each period subtract from the amount paid to the municipality from the Local Government Tax Fund arising from sales by retailers and servicemen on transactions located in the redevelopment project area or the State Sales Tax Boundary, as the case may be, the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for the Municipal Retailers' Occupation Tax Act and the Municipal Service Occupation Tax Act. For the State Fiscal Year 1989, this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, to June 30, 1989, to determine the tax amounts received from retailers and servicemen pursuant to the Municipal Retailers' Occupation Tax and the Municipal Service Occupation Tax Act which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending June 30 to determine the tax amounts received which shall have

deducted therefrom the certified Initial Sales Tax Amounts, the Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts, as the case may be.

(i) "Net State Sales Tax Increment" means the sum of the following: (a) 80% of the first \$100,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; (b) 60% of the amount in excess of \$100,000 but not exceeding \$500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary; and (c) 40% of all amounts in excess of \$500,000 of State Sales Tax Increment annually generated within a State Sales Tax Boundary. If, however, a municipality established a tax increment financing district in a county with a population in excess of 3,000,000 before January 1, 1986, and the municipality entered into a contract or issued bonds after January 1, 1986, but before December 31, 1986, to finance redevelopment project costs within a State Sales Tax Boundary, then the Net State Sales Tax Increment means, for the fiscal years beginning July 1, 1990, and July 1, 1991, 100% of the State Sales Tax Increment annually generated within a State Sales Tax Boundary; and notwithstanding any other provision of this Act, for those fiscal years the Department of Revenue shall distribute to those municipalities 100% of their Net State Sales Tax Increment before any distribution to any other municipality and regardless of whether or not those other municipalities will receive 100% of their Net State Sales Tax Increment. For Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a State Sales Tax Boundary, the Net State Sales Tax Increment shall be calculated as follows: By multiplying the Net State Sales Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter.

Municipalities that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991, or that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988, shall continue to receive their proportional share of the Illinois Tax Increment Fund distribution until the date on which the redevelopment project is completed or terminated. If, however, a municipality that issued bonds in connection with a redevelopment project in a redevelopment project area within the State Sales Tax Boundary prior to July 29, 1991 retires the bonds prior to June 30, 2007 or a municipality that entered into contracts in connection with a redevelopment project in a redevelopment project area before June 1, 1988 completes the contracts prior to June 30, 2007, then so long as the redevelopment project is not completed or is not terminated, the Net State Sales Tax Increment shall be calculated, beginning on the date on which the bonds are retired or the contracts are completed, as follows: By multiplying the Net State Sales Tax Increment by 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for State Fiscal Year 2008 and thereafter. Refunding of any bonds issued prior to July 29, 1991, shall not alter the Net State Sales Tax Increment.

(j) "State Utility Tax Increment Amount" means an amount equal to the aggregate increase in State electric and gas tax charges imposed on owners and tenants, other than residential customers, of properties located within the redevelopment project area under Section 9-222 of the Public Utilities Act, over and above the aggregate of such charges as certified by the Department of Revenue and paid by owners and tenants, other than residential customers, of properties within the redevelopment project area during the base year, which shall be the calendar year immediately prior to the year of the adoption of the ordinance authorizing tax increment allocation financing.

(k) "Net State Utility Tax Increment" means the sum of the following: (a) 80% of the first \$100,000 of State Utility Tax Increment annually generated by a redevelopment project area; (b) 60% of the amount in excess of \$100,000 but not exceeding \$500,000 of the State Utility Tax Increment annually generated by a redevelopment project area; and (c) 40% of all amounts in excess of \$500,000 of State Utility Tax Increment annually generated by a redevelopment project area. For the State Fiscal Year 1999, and every year thereafter until the year 2007, for any municipality that has not entered into a contract or has not issued bonds prior to June 1, 1988 to finance redevelopment project costs within a redevelopment project area, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in the State Fiscal Year 1999; 80% in the State Fiscal Year 2000; 70% in the State Fiscal Year 2001; 60% in the State Fiscal Year 2002; 50% in the State Fiscal Year 2003; 40% in the State Fiscal Year 2004; 30% in the State Fiscal Year 2005; 20% in the State Fiscal Year 2006; and 10% in the State Fiscal Year 2007. No payment shall be made for the State Fiscal Year 2008 and thereafter.

Municipalities that issue bonds in connection with the redevelopment project during the period from June 1, 1988 until 3 years after the effective date of this Amendatory Act of 1988 shall receive the Net State Utility Tax Increment, subject to appropriation, for 15 State Fiscal Years after the issuance of such bonds. For the 16th through the 20th State Fiscal Years after issuance of the bonds, the Net State Utility Tax Increment shall be calculated as follows: By multiplying the Net State Utility Tax Increment by 90% in year 16; 80% in year 17; 70% in year 18; 60% in year 19; and 50% in year 20. Refunding of any bonds issued prior to June 1, 1988, shall not alter the revised Net State Utility Tax Increment payments set forth above.

(l) "Obligations" mean bonds, loans, debentures, notes, special certificates or other evidence of indebtedness issued by the municipality to carry out a redevelopment project or to refund outstanding obligations.

(m) "Payment in lieu of taxes" means those estimated tax revenues from real property in a redevelopment project area derived from real property that has been acquired by a municipality which according to the redevelopment project or plan is to be used for a private use which taxing districts would have received had a municipality not acquired the real property and adopted tax increment allocation financing and which would result from levies made after the time of the adoption of tax increment allocation financing to the time the current equalized value of real property in the redevelopment project area exceeds the total initial equalized value of real property in said area.

(n) "Redevelopment plan" means the comprehensive program of the municipality for development or redevelopment intended by the payment of redevelopment project costs to reduce or eliminate those conditions the existence of which qualified the redevelopment project area as a "blighted area" or "conservation area" or combination thereof or "industrial park conservation area," and thereby to enhance the tax bases of the taxing districts which extend into the redevelopment project area. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting. Each redevelopment plan shall set forth in writing the program to be undertaken to accomplish the objectives and shall include but not be limited to:

(A) an itemized list of estimated redevelopment project costs;

(B) evidence indicating that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise;

(C) an assessment of any financial impact of the redevelopment project area on or any increased demand for services from any taxing district affected by the plan and any program to address such financial impact or increased demand;

(D) the sources of funds to pay costs;

(E) the nature and term of the obligations to be issued;

(F) the most recent equalized assessed valuation of the redevelopment project area;

(G) an estimate as to the equalized assessed valuation after redevelopment and the general land uses to apply in the redevelopment project area;

(H) a commitment to fair employment practices and an affirmative action plan;

(I) if it concerns an industrial park conservation area, the plan shall also include a general description of any proposed developer, user and tenant of any property, a description of the type, structure and general character of the facilities to be developed, a description of the type, class and number of new employees to be employed in the operation of the facilities to be developed; and

(J) if property is to be annexed to the municipality, the plan shall include the terms of the annexation agreement.

The provisions of items (B) and (C) of this subsection (n) shall not apply to a municipality that before March 14, 1994 (the effective date of Public Act 88-537) had fixed, either by its corporate authorities or by a commission designated under subsection (k) of Section 11-74.4-4, a time and place for a public hearing as required by subsection (a) of Section 11-74.4-5. No redevelopment plan shall be adopted unless a municipality complies with all of the following requirements:

(1) The municipality finds that the redevelopment project area on the whole has not been subject to growth and development through investment by private enterprise and would not reasonably be anticipated to be developed without the adoption of the redevelopment plan.

(2) The municipality finds that the redevelopment plan and project conform to the comprehensive plan for the development of the municipality as a whole, or, for municipalities with a population of 100,000 or more, regardless of when the redevelopment plan and project was adopted,

the redevelopment plan and project either: (i) conforms to the strategic economic development or redevelopment plan issued by the designated planning authority of the municipality, or (ii) includes land uses that have been approved by the planning commission of the municipality.

(3) The redevelopment plan establishes the estimated dates of completion of the redevelopment project and retirement of obligations issued to finance redevelopment project costs. Those dates may not be later than the dates set forth under Section 11-74.4-3.5., ~~or (DDD), (EEE), or (FFF), or (GGG), or (HHH), or (III), or (JJ), (KKK), (LLL) (MMM), or (NNN) if the ordinance was adopted on December 23, 1986 by the Village of Libertyville. (NNN) if the ordinance was adopted on December 22, 1986 by the Village of Hoffman Estates.~~

A municipality may by municipal ordinance amend an existing redevelopment plan to conform to this paragraph (3) as amended by Public Act 91-478, which municipal ordinance may be adopted without further hearing or notice and without complying with the procedures provided in this Act pertaining to an amendment to or the initial approval of a redevelopment plan and project and designation of a redevelopment project area.

(3.5) The municipality finds, in the case of an industrial park conservation area, also that the municipality is a labor surplus municipality and that the implementation of the redevelopment plan will reduce unemployment, create new jobs and by the provision of new facilities enhance the tax base of the taxing districts that extend into the redevelopment project area.

(4) If any incremental revenues are being utilized under Section 8(a)(1) or 8(a)(2) of this Act in redevelopment project areas approved by ordinance after January 1, 1986, the municipality finds: (a) that the redevelopment project area would not reasonably be developed without the use of such incremental revenues, and (b) that such incremental revenues will be exclusively utilized for the development of the redevelopment project area.

(5) If the redevelopment plan will not result in displacement of residents from 10 or more inhabited residential units, and the municipality certifies in the plan that such displacement will not result from the plan, a housing impact study need not be performed. If, however, the redevelopment plan would result in the displacement of residents from 10 or more inhabited residential units, or if the redevelopment project area contains 75 or more inhabited residential units and no certification is made, then the municipality shall prepare, as part of the separate feasibility report required by subsection (a) of Section 11-74.4-5, a housing impact study.

Part I of the housing impact study shall include (i) data as to whether the residential units are single family or multi-family units, (ii) the number and type of rooms within the units, if that information is available, (iii) whether the units are inhabited or uninhabited, as determined not less than 45 days before the date that the ordinance or resolution required by subsection (a) of Section 11-74.4-5 is passed, and (iv) data as to the racial and ethnic composition of the residents in the inhabited residential units. The data requirement as to the racial and ethnic composition of the residents in the inhabited residential units shall be deemed to be fully satisfied by data from the most recent federal census.

Part II of the housing impact study shall identify the inhabited residential units in the proposed redevelopment project area that are to be or may be removed. If inhabited residential units are to be removed, then the housing impact study shall identify (i) the number and location of those units that will or may be removed, (ii) the municipality's plans for relocation assistance for those residents in the proposed redevelopment project area whose residences are to be removed, (iii) the availability of replacement housing for those residents whose residences are to be removed, and shall identify the type, location, and cost of the housing, and (iv) the type and extent of relocation assistance to be provided.

(6) On and after November 1, 1999, the housing impact study required by paragraph (5) shall be incorporated in the redevelopment plan for the redevelopment project area.

(7) On and after November 1, 1999, no redevelopment plan shall be adopted, nor an existing plan amended, nor shall residential housing that is occupied by households of low-income and very low-income persons in currently existing redevelopment project areas be removed after November 1, 1999 unless the redevelopment plan provides, with respect to inhabited housing units that are to be removed for households of low-income and very low-income persons, affordable housing and relocation assistance not less than that which would be provided under the federal Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and the regulations under that Act, including the eligibility criteria. Affordable housing may be either existing or newly constructed housing. For purposes of this paragraph (7), "low-income households", "very low-income households", and "affordable housing" have the meanings set forth in the Illinois Affordable Housing Act. The municipality shall make a good faith effort to ensure that this affordable

housing is located in or near the redevelopment project area within the municipality.

(8) On and after November 1, 1999, if, after the adoption of the redevelopment plan for the redevelopment project area, any municipality desires to amend its redevelopment plan to remove more inhabited residential units than specified in its original redevelopment plan, that change shall be made in accordance with the procedures in subsection (c) of Section 11-74.4-5.

(9) For redevelopment project areas designated prior to November 1, 1999, the redevelopment plan may be amended without further joint review board meeting or hearing, provided that the municipality shall give notice of any such changes by mail to each affected taxing district and registrant on the interested party registry, to authorize the municipality to expend tax increment revenues for redevelopment project costs defined by paragraphs (5) and (7.5), subparagraphs (E) and (F) of paragraph (11), and paragraph (11.5) of subsection (q) of Section 11-74.4-3, so long as the changes do not increase the total estimated redevelopment project costs set out in the redevelopment plan by more than 5% after adjustment for inflation from the date the plan was adopted.

(o) "Redevelopment project" means any public and private development project in furtherance of the objectives of a redevelopment plan. On and after November 1, 1999 (the effective date of Public Act 91-478), no redevelopment plan may be approved or amended that includes the development of vacant land (i) with a golf course and related clubhouse and other facilities or (ii) designated by federal, State, county, or municipal government as public land for outdoor recreational activities or for nature preserves and used for that purpose within 5 years prior to the adoption of the redevelopment plan. For the purpose of this subsection, "recreational activities" is limited to mean camping and hunting.

(p) "Redevelopment project area" means an area designated by the municipality, which is not less in the aggregate than 1 1/2 acres and in respect to which the municipality has made a finding that there exist conditions which cause the area to be classified as an industrial park conservation area or a blighted area or a conservation area, or a combination of both blighted areas and conservation areas.

(q) "Redevelopment project costs" mean and include the sum total of all reasonable or necessary costs incurred or estimated to be incurred, and any such costs incidental to a redevelopment plan and a redevelopment project. Such costs include, without limitation, the following:

(1) Costs of studies, surveys, development of plans, and specifications, implementation and administration of the redevelopment plan including but not limited to staff and professional service costs for architectural, engineering, legal, financial, planning or other services, provided however that no charges for professional services may be based on a percentage of the tax increment collected; except that on and after November 1, 1999 (the effective date of Public Act 91-478), no contracts for professional services, excluding architectural and engineering services, may be entered into if the terms of the contract extend beyond a period of 3 years. In addition, "redevelopment project costs" shall not include lobbying expenses. After consultation with the municipality, each tax increment consultant or advisor to a municipality that plans to designate or has designated a redevelopment project area shall inform the municipality in writing of any contracts that the consultant or advisor has entered into with entities or individuals that have received, or are receiving, payments financed by tax increment revenues produced by the redevelopment project area with respect to which the consultant or advisor has performed, or will be performing, service for the municipality. This requirement shall be satisfied by the consultant or advisor before the commencement of services for the municipality and thereafter whenever any other contracts with those individuals or entities are executed by the consultant or advisor;

(1.5) After July 1, 1999, annual administrative costs shall not include general overhead or administrative costs of the municipality that would still have been incurred by the municipality if the municipality had not designated a redevelopment project area or approved a redevelopment plan;

(1.6) The cost of marketing sites within the redevelopment project area to prospective businesses, developers, and investors;

(2) Property assembly costs, including but not limited to acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;

(3) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the cost of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment; including any direct or indirect costs relating to LEED certified construction elements;

(4) Costs of the construction of public works or improvements, including any direct or indirect costs relating to LEED certified construction elements, except that on and

after November 1, 1999, redevelopment project costs shall not include the cost of constructing a new municipal public building principally used to provide offices, storage space, or conference facilities or vehicle storage, maintenance, or repair for administrative, public safety, or public works personnel and that is not intended to replace an existing public building as provided under paragraph (3) of subsection (q) of Section 11-74.4-3 unless either (i) the construction of the new municipal building implements a redevelopment project that was included in a redevelopment plan that was adopted by the municipality prior to November 1, 1999 or (ii) the municipality makes a reasonable determination in the redevelopment plan, supported by information that provides the basis for that determination, that the new municipal building is required to meet an increase in the need for public safety purposes anticipated to result from the implementation of the redevelopment plan;

(5) Costs of job training and retraining projects, including the cost of "welfare to work" programs implemented by businesses located within the redevelopment project area;

(6) Financing costs, including but not limited to all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued hereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for not exceeding 36 months thereafter and including reasonable reserves related thereto;

(7) To the extent the municipality by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project.

(7.5) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after November 1, 1999, an elementary, secondary, or unit school district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act, and which costs shall be paid by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units and shall be calculated annually as follows:

(A) for foundation districts, excluding any school district in a municipality with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general State aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 25% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 17% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts with a district average 1995-96 Per Capita

Tuition Charge of less than \$5,900, no more than 8% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(B) For alternate method districts, flat grant districts, and foundation districts

with a district average 1995-96 Per Capita Tuition Charge equal to or more than \$5,900, excluding any school district with a population in excess of 1,000,000, by multiplying the district's increase in attendance resulting from the net increase in new students enrolled in that school district who reside

in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by the most recently available per capita tuition cost as defined in Section 10-20.12a of the School Code less any increase in general state aid as defined in Section 18-8.05 of the School Code attributable to these added new students subject to the following annual limitations:

(i) for unit school districts, no more than 40% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act;

(ii) for elementary school districts, no more than 27% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act; and

(iii) for secondary school districts, no more than 13% of the total amount of property tax increment revenue produced by those housing units that have received tax increment finance assistance under this Act.

(C) For any school district in a municipality with a population in excess of 1,000,000, the following restrictions shall apply to the reimbursement of increased costs under this paragraph (7.5):

(i) no increased costs shall be reimbursed unless the school district certifies that each of the schools affected by the assisted housing project is at or over its student capacity;

(ii) the amount reimbursable shall be reduced by the value of any land donated to the school district by the municipality or developer, and by the value of any physical improvements made to the schools by the municipality or developer; and

(iii) the amount reimbursed may not affect amounts otherwise obligated by the terms of any bonds, notes, or other funding instruments, or the terms of any redevelopment agreement.

Any school district seeking payment under this paragraph (7.5) shall, after July 1 and before September 30 of each year, provide the municipality with reasonable evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the school district. If the school district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. School districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.5). By acceptance of this reimbursement the school district waives the right to directly or indirectly set aside, modify, or contest in any manner the establishment of the redevelopment project area or projects;

(7.7) For redevelopment project areas designated (or redevelopment project areas amended to add or increase the number of tax-increment-financing assisted housing units) on or after January 1, 2005 (the effective date of Public Act 93-961), a public library district's increased costs attributable to assisted housing units located within the redevelopment project area for which the developer or redeveloper receives financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the assisted housing sites necessary for the completion of that housing as authorized by this Act shall be paid to the library district by the municipality from the Special Tax Allocation Fund when the tax increment revenue is received as a result of the assisted housing units. This paragraph (7.7) applies only if (i) the library district is located in a county that is subject to the Property Tax Extension Limitation Law or (ii) the library district is not located in a county that is subject to the Property Tax Extension Limitation Law but the district is prohibited by any other law from increasing its tax levy rate without a prior voter referendum.

The amount paid to a library district under this paragraph (7.7) shall be calculated by multiplying (i) the net increase in the number of persons eligible to obtain a library card in that district who reside in housing units within the redevelopment project area that have received financial assistance through an agreement with the municipality or because the municipality incurs the cost of necessary infrastructure improvements within the boundaries of the housing sites necessary for the completion of that housing as authorized by this Act since the designation of the redevelopment project area by (ii) the per-patron cost of providing library services so long as it does not exceed \$120. The per-patron cost shall be the Total Operating Expenditures Per Capita as stated in the most recent Illinois Public Library Statistics produced by the Library Research Center at the University of Illinois. The municipality may deduct from the amount that it must pay to a library district under this

paragraph any amount that it has voluntarily paid to the library district from the tax increment revenue. The amount paid to a library district under this paragraph (7.7) shall be no more than 2% of the amount produced by the assisted housing units and deposited into the Special Tax Allocation Fund.

A library district is not eligible for any payment under this paragraph (7.7) unless the library district has experienced an increase in the number of patrons from the municipality that created the tax-increment-financing district since the designation of the redevelopment project area.

Any library district seeking payment under this paragraph (7.7) shall, after July 1 and before September 30 of each year, provide the municipality with convincing evidence to support its claim for reimbursement before the municipality shall be required to approve or make the payment to the library district. If the library district fails to provide the information during this period in any year, it shall forfeit any claim to reimbursement for that year. Library districts may adopt a resolution waiving the right to all or a portion of the reimbursement otherwise required by this paragraph (7.7). By acceptance of such reimbursement, the library district shall forfeit any right to directly or indirectly set aside, modify, or contest in any manner whatsoever the establishment of the redevelopment project area or projects;

(8) Relocation costs to the extent that a municipality determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or State law or in order to satisfy subparagraph (7) of subsection (n);

(9) Payment in lieu of taxes;

(10) Costs of job training, retraining, advanced vocational education or career education, including but not limited to courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in a redevelopment project area; and (ii) when incurred by a taxing district or taxing districts other than the municipality, are set forth in a written agreement by or among the municipality and the taxing district or taxing districts, which agreement describes the program to be undertaken, including but not limited to the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40 and 3-40.1 of the Public Community College Act and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of The School Code;

(11) Interest cost incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:

(A) such costs are to be paid directly from the special tax allocation fund established pursuant to this Act;

(B) such payments in any one year may not exceed 30% of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;

(C) if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this paragraph (11) then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;

(D) the total of such interest payments paid pursuant to this Act may not exceed 30% of the total (i) cost paid or incurred by the redeveloper for the redevelopment project plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by a municipality pursuant to this Act; and

(E) the cost limits set forth in subparagraphs (B) and (D) of paragraph (11) shall be modified for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act. The percentage of 75% shall be substituted for 30% in subparagraphs (B) and (D) of paragraph (11).

(F) Instead of the eligible costs provided by subparagraphs (B) and (D) of paragraph (11), as modified by this subparagraph, and notwithstanding any other provisions of this Act to the contrary, the municipality may pay from tax increment revenues up to 50% of the cost of construction of new housing units to be occupied by low-income households and very low-income households as defined in Section 3 of the Illinois Affordable Housing Act. The cost of construction of those units may be derived from the proceeds of bonds issued by the municipality under this Act or other constitutional or statutory authority or from other sources of municipal revenue that may be reimbursed from tax increment revenues or the proceeds of bonds issued to finance the construction

of that housing.

The eligible costs provided under this subparagraph (F) of paragraph (11) shall be an eligible cost for the construction, renovation, and rehabilitation of all low and very low-income housing units, as defined in Section 3 of the Illinois Affordable Housing Act, within the redevelopment project area. If the low and very low-income units are part of a residential redevelopment project that includes units not affordable to low and very low-income households, only the low and very low-income units shall be eligible for benefits under subparagraph (F) of paragraph (11). The standards for maintaining the occupancy by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, of those units constructed with eligible costs made available under the provisions of this subparagraph (F) of paragraph (11) shall be established by guidelines adopted by the municipality. The responsibility for annually documenting the initial occupancy of the units by low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act, shall be that of the then current owner of the property. For ownership units, the guidelines will provide, at a minimum, for a reasonable recapture of funds, or other appropriate methods designed to preserve the original affordability of the ownership units. For rental units, the guidelines will provide, at a minimum, for the affordability of rent to low and very low-income households. As units become available, they shall be rented to income-eligible tenants. The municipality may modify these guidelines from time to time; the guidelines, however, shall be in effect for as long as tax increment revenue is being used to pay for costs associated with the units or for the retirement of bonds issued to finance the units or for the life of the redevelopment project area, whichever is later.

(11.5) If the redevelopment project area is located within a municipality with a population of more than 100,000, the cost of day care services for children of employees from low-income families working for businesses located within the redevelopment project area and all or a portion of the cost of operation of day care centers established by redevelopment project area businesses to serve employees from low-income families working in businesses located in the redevelopment project area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80% of the municipal, county, or regional median income, adjusted for family size, as the annual income and municipal, county, or regional median income are determined from time to time by the United States Department of Housing and Urban Development.

(12) Unless explicitly stated herein the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost.

(13) After November 1, 1999 (the effective date of Public Act 91-478), none of the redevelopment project costs enumerated in this subsection shall be eligible redevelopment project costs if those costs would provide direct financial support to a retail entity initiating operations in the redevelopment project area while terminating operations at another Illinois location within 10 miles of the redevelopment project area but outside the boundaries of the redevelopment project area municipality. For purposes of this paragraph, termination means a closing of a retail operation that is directly related to the opening of the same operation or like retail entity owned or operated by more than 50% of the original ownership in a redevelopment project area, but it does not mean closing an operation for reasons beyond the control of the retail entity, as documented by the retail entity, subject to a reasonable finding by the municipality that the current location contained inadequate space, had become economically obsolete, or was no longer a viable location for the retailer or serviceman.

(14) No cost shall be a redevelopment project cost in a redevelopment project area if used to demolish, remove, or substantially modify a historic resource, after August 26, 2008 (the effective date of Public Act 95-934) ~~this amendatory Act of the 95th General Assembly~~, unless no prudent and feasible alternative exists. "Historic resource" for the purpose of this item (14) means (i) a place or structure that is included or eligible for inclusion on the National Register of Historic Places or (ii) a contributing structure in a district on the National Register of Historic Places. This item (14) does not apply to a place or structure for which demolition, removal, or modification is subject to review by the preservation agency of a Certified Local Government designated as such by the National Park Service of the United States Department of the Interior.

If a special service area has been established pursuant to the Special Service Area Tax Act or Special Service Area Tax Law, then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act or Special Service Area Tax Law may be used within the redevelopment project area for the purposes permitted by that Act or Law as well as the purposes permitted by this Act.

(r) "State Sales Tax Boundary" means the redevelopment project area or the amended redevelopment project area boundaries which are determined pursuant to subsection (9) of Section 11-74.4-8a of this Act. The Department of Revenue shall certify pursuant to subsection (9) of Section 11-74.4-8a the

appropriate boundaries eligible for the determination of State Sales Tax Increment.

(s) "State Sales Tax Increment" means an amount equal to the increase in the aggregate amount of taxes paid by retailers and servicemen, other than retailers and servicemen subject to the Public Utilities Act, on transactions at places of business located within a State Sales Tax Boundary pursuant to the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act, and the Service Occupation Tax Act, except such portion of such increase that is paid into the State and Local Sales Tax Reform Fund, the Local Government Distributive Fund, the Local Government Tax Fund and the County and Mass Transit District Fund, for as long as State participation exists, over and above the Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts for such taxes as certified by the Department of Revenue and paid under those Acts by retailers and servicemen on transactions at places of business located within the State Sales Tax Boundary during the base year which shall be the calendar year immediately prior to the year in which the municipality adopted tax increment allocation financing, less 3.0% of such amounts generated under the Retailers' Occupation Tax Act, Use Tax Act and Service Use Tax Act and the Service Occupation Tax Act, which sum shall be appropriated to the Department of Revenue to cover its costs of administering and enforcing this Section. For purposes of computing the aggregate amount of such taxes for base years occurring prior to 1985, the Department of Revenue shall compute the Initial Sales Tax Amount for such taxes and deduct therefrom an amount equal to 4% of the aggregate amount of taxes per year for each year the base year is prior to 1985, but not to exceed a total deduction of 12%. The amount so determined shall be known as the "Adjusted Initial Sales Tax Amount". For purposes of determining the State Sales Tax Increment the Department of Revenue shall for each period subtract from the tax amounts received from retailers and servicemen on transactions located in the State Sales Tax Boundary, the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or Revised Initial Sales Tax Amounts for the Retailers' Occupation Tax Act, the Use Tax Act, the Service Use Tax Act and the Service Occupation Tax Act. For the State Fiscal Year 1989 this calculation shall be made by utilizing the calendar year 1987 to determine the tax amounts received. For the State Fiscal Year 1990, this calculation shall be made by utilizing the period from January 1, 1988, until September 30, 1988, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For the State Fiscal Year 1991, this calculation shall be made by utilizing the period from October 1, 1988, until June 30, 1989, to determine the tax amounts received from retailers and servicemen, which shall have deducted therefrom nine-twelfths of the certified Initial State Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts as appropriate. For every State Fiscal Year thereafter, the applicable period shall be the 12 months beginning July 1 and ending on June 30, to determine the tax amounts received which shall have deducted therefrom the certified Initial Sales Tax Amounts, Adjusted Initial Sales Tax Amounts or the Revised Initial Sales Tax Amounts. Municipalities intending to receive a distribution of State Sales Tax Increment must report a list of retailers to the Department of Revenue by October 31, 1988 and by July 31, of each year thereafter.

(t) "Taxing districts" means counties, townships, cities and incorporated towns and villages, school, road, park, sanitary, mosquito abatement, forest preserve, public health, fire protection, river conservancy, tuberculosis sanitarium and any other municipal corporations or districts with the power to levy taxes.

(u) "Taxing districts' capital costs" means those costs of taxing districts for capital improvements that are found by the municipal corporate authorities to be necessary and directly result from the redevelopment project.

(v) As used in subsection (a) of Section 11-74.4-3 of this Act, "vacant land" means any parcel or combination of parcels of real property without industrial, commercial, and residential buildings which has not been used for commercial agricultural purposes within 5 years prior to the designation of the redevelopment project area, unless the parcel is included in an industrial park conservation area or the parcel has been subdivided; provided that if the parcel was part of a larger tract that has been divided into 3 or more smaller tracts that were accepted for recording during the period from 1950 to 1990, then the parcel shall be deemed to have been subdivided, and all proceedings and actions of the municipality taken in that connection with respect to any previously approved or designated redevelopment project area or amended redevelopment project area are hereby validated and hereby declared to be legally sufficient for all purposes of this Act. For purposes of this Section and only for land subject to the subdivision requirements of the Plat Act, land is subdivided when the original plat of the proposed Redevelopment Project Area or relevant portion thereof has been properly certified, acknowledged, approved, and recorded or filed in accordance with the Plat Act and a preliminary plat, if any, for any

subsequent phases of the proposed Redevelopment Project Area or relevant portion thereof has been properly approved and filed in accordance with the applicable ordinance of the municipality.

(w) "Annual Total Increment" means the sum of each municipality's annual Net Sales Tax Increment and each municipality's annual Net Utility Tax Increment. The ratio of the Annual Total Increment of each municipality to the Annual Total Increment for all municipalities, as most recently calculated by the Department, shall determine the proportional shares of the Illinois Tax Increment Fund to be distributed to each municipality.

(x) "LEED certified" means any certification level of construction elements by a qualified Leadership in Energy and Environmental Design Accredited Professional as determined by the U.S. Green Building Council.

Section 95. No acceleration or delay. Where this Act makes changes in a statute that is represented in this Act by text that is not yet or no longer in effect (for example, a Section represented by multiple versions), the use of that text does not accelerate or delay the taking effect of (i) the changes made by this Act or (ii) provisions derived from any other Public Act."

(4) a third-party contract must not be entered into unless the State agency provides a cost comparison, using generally accepted accounting principles, of each and every expenditure category and account that the State agency projects it would incur over the term of the third-party contract if it continued to perform the services using its own public employees with each and every expenditure category and account that is projected a private contractor would incur if a private contractor performed the services;

(5) review and consideration of all bids by private contractors to perform the services shall take place in open session of a meeting announced and scheduled in accordance with the guidelines normally followed for meetings covered by the Open Meetings Act;

(6) a minimum of 2 public hearings to discuss the State agency's proposal to contract with a private contractor to perform services must be held before the State agency may enter into a third-party contract; the State agency must provide notice to the public of the date, time, and location of the first public hearing on or before the initial date that bids to provide the services are solicited or a minimum of 30 days prior to entering into a third-party contract, whichever provides a greater period of notice;

(7) a third-party contract shall contain provisions requiring the private contractor to offer available employee positions pursuant to the third-party contract to qualified public employees who are laid off because of the third-party contract; and

(8) a third-party contract shall contain provisions requiring the private contractor to comply with a policy of nondiscrimination and equal employment opportunity for all persons and to take affirmative steps to provide equal opportunity for all persons.

(b) Notwithstanding subsection (a) of this Section, the State agency may enter into a third-party contract, of no longer than 3 months in duration, with a private contractor for services currently performed by a public employee or employees for the purpose of augmenting the current workforce in an emergency situation that threatens the safety or health of the public employees or the direct recipients of services, provided that the State agency meets all of its obligations under the Illinois Public Labor Relations Act.

(c) For purposes of this Section, "third-party contract" does not include an agreement with the Department of Human Services to provide services under a rate structure that defines wage rates. For purposes of this Section, "third-party contract" does not include an agreement between a State agency and a private contractor (i) in effect on the effective date of this Act; (ii) for services substantially similar to services provided, in whole or in part, by a private contractor to the State agency on or before the

effective date of this Act; or (iii) for professional services, such as audit, accounting, legal, architectural, or engineering services."

[April 1, 2009]

On motion of Senator Harmon, **Senate Bill No. 1607** was recalled from the order of third reading to the order of second reading.

Senator Harmon offered the following amendment and moved its adoption:

AMENDMENT NO. 2 TO SENATE BILL 1607

AMENDMENT NO. 2. Amend Senate Bill 1607, AS AMENDED, by replacing everything after the enacting clause with the following:

"Section 5. The Environmental Protection Act is amended by changing Sections 3.160, 21, 22.51, 31.1, and 42 and by adding Sections 3.202, 3.442, 22.51a, and 22.54 as follows:

(415 ILCS 5/3.160) (was 415 ILCS 5/3.78 and 3.78a)

Sec. 3.160. Construction or demolition debris.

(a) "General construction or demolition debris" means non-hazardous, uncontaminated materials resulting from the construction, remodeling, repair, and demolition of utilities, structures, and roads, limited to the following: bricks, concrete, and other masonry materials; soil; rock; wood, including non-hazardous painted, treated, and coated wood and wood products; wall coverings; plaster; drywall; plumbing fixtures; non-asbestos insulation; roofing shingles and other roof coverings; reclaimed or other asphalt pavement; glass; plastics that are not sealed in a manner that conceals waste; electrical wiring and components containing no hazardous substances; and piping or metals incidental to any of those materials.

General construction or demolition debris does not include general fill ~~uncontaminated~~ soil generated during construction, remodeling, repair, and demolition of utilities, structures, and roads provided the general fill ~~uncontaminated~~ soil is not commingled with any general construction or demolition debris or other waste.

To the extent allowed by federal law, uncontaminated concrete with protruding rebar shall be considered clean construction or demolition debris and shall not be considered "waste" if it is separated or processed and returned to the economic mainstream in the form of raw materials or products within 4 years of its generation, if it is not speculatively accumulated and, if used as a fill material, it is used in accordance with item (i) in subsection (b) of this Section.

(b) "Clean construction or demolition debris" ("CCDD") means uncontaminated broken concrete without protruding metal bars, bricks, rock, stone, or reclaimed or other asphalt pavement ~~or soil~~ generated from construction or demolition activities ; provided that concrete without protruding metal bars, bricks, rock, stone, or reclaimed or other asphalt pavement that is generated from the construction or demolition of a road may be considered "clean construction or demolition debris" if it is uncontaminated except for pavement markings that conform to Illinois Department of Transportation specifications.

CCDD also includes general fill soil generated from construction or demolition activities that is mixed with broken concrete without protruding metal bars, bricks, rock, stone, or reclaimed asphalt pavement that is CCDD. CCDD Clean construction or demolition debris does not include general fill ~~uncontaminated~~ soil generated during construction, remodeling, repair, and demolition of utilities, structures, and roads that provided the uncontaminated soil is not commingled with any CCDD clean ~~construction or demolition debris~~ or other waste.

To the extent allowed by federal law, CCDD clean construction or demolition debris shall not be considered "waste" if it is (i) used as fill material outside of a setback zone if (1) the fill is placed no higher than the highest point of elevation existing prior to the filling immediately adjacent to the fill area, and (2) except as otherwise allowed under subdivision (f)(3) of Section 22.51 of this Act it is ~~is~~ covered by sufficient general fill ~~uncontaminated~~ soil to support vegetation within 30 days of the completion of filling or is ~~is~~ covered by a road or structure and, (3) if used as fill material in a current or former quarry, mine, or other excavation, it is used in accordance with the requirements of Sections 22.51 of this Act and rules adopted thereunder, or (ii) separated or processed and returned to the economic mainstream in the form of raw materials or products, if it is not speculatively accumulated and, if used as a fill material, it is used in accordance with item (i), or (iii) solely broken concrete without protruding metal bars used for erosion control, or (iv) generated from the construction or demolition of a building, road, or other structure and used to construct, on the site where the construction or demolition has taken place, a manmade functional structure not to exceed 20 feet above the highest point of elevation of the property immediately adjacent to the new manmade functional structure as that elevation existed prior to the creation of that new structure, provided that the structure shall be covered with sufficient general fill ~~soil materials~~ to sustain vegetation or by a road or structure, and further provided that no such structure shall be constructed within a home rule municipality with a population

[April 1, 2009]

over 500,000 without the consent of the municipality.

For purposes of this subsection (b), reclaimed or other asphalt pavement shall not be considered speculatively accumulated if: (i) it is not commingled with any other clean construction or demolition debris or any waste; (ii) it is returned to the economic mainstream in the form of raw materials or products within 4 years after its generation; (iii) at least 25% of the total amount present at a site during a calendar year is transported off of the site during the next calendar year; and (iv) if used as a fill material, it is used in accordance with item (i) of the second paragraph of this subsection (b).

(c) "Painted construction or demolition debris" means broken concrete without protruding metal bars, bricks, rock, stone, or reclaimed or other asphalt pavement generated from construction or demolition activities that contains paint but is otherwise uncontaminated. However, concrete without protruding metal bars, bricks, rock, stone, or reclaimed or other asphalt pavement that is generated from the construction or demolition of a road may be considered "clean construction or demolition debris" instead of "painted construction or demolition debris" if it is uncontaminated except for pavement markings that conform to Illinois Department of Transportation specifications.

(415 ILCS 5/3.202 new)

Sec. 3.202. General Fill Soil. For purposes of Sections 3.160, 21, 22.51, and 22.51a of this Act, "General Fill Soil" means soil generated from construction or demolition activities that (i) does not exceed the most stringent Tier 1 exposure route values adopted by the Board pursuant to Title XVII of this Act, as amended, (ii) based upon past and current land uses and reasonable inquiry, is not known or suspected to contain a regulated substance or pesticide for which a Tier 1 exposure route value has not been determined, and (iii) does not contain waste. For purposes of this definition, the most stringent Tier 1 exposure route values adopted by the Board pursuant to Title XVII of this Act shall be determined as follows:

(a) Except as otherwise provided in subsections (b) through (d) of this Section, the most stringent Tier 1 exposure route values are the lowest of the following values for each chemical listed in 35 Ill. Adm. Code 742, Appendix B, as amended:

(1) The Ingestion Exposure Route-Specific Value for Soils listed in Table A of 35 Ill. Adm. Code 742, Appendix B;

(2) The Outdoor Inhalation Exposure Route-Specific Value for Soils listed in Table A of 35 Ill. Adm. Code 742, Appendix B;

(3) The Class I Soil Component of the Groundwater Ingestion Exposure Route Value listed in Table A of 35 Ill. Adm. Code 742, Appendix B;

(4) The Construction Worker Ingestion Exposure Route-Specific Value for Soils listed in Table B of 35 Ill. Adm. Code 742, Appendix B;

(5) The Construction Worker Inhalation Exposure Route-Specific Value for Soils listed in Table B of 35 Ill. Adm. Code 742, Appendix B; and

(6) Indoor inhalation exposure route values as may be established by the Board.

Location and other designations, such as residential and industrial/commercial designations, shall be ignored when comparing the values identified in this subsection (a). The lowest values shall be used regardless of designation.

(b) For inorganic chemicals, either the leachable value or the totals value set forth below can be used as the most stringent Tier 1 exposure route value.

(1) The leachable value for each inorganic chemical is the Class I Soil Component of the Groundwater Ingestion Exposure Route Value listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended.

(2) The totals value for each inorganic chemical is the lowest of the following values, as amended:

(A) The Ingestion Exposure Route-Specific Value for Soils listed in Table A of 35 Ill. Adm. Code 742, Appendix B;

(B) The Outdoor Inhalation Exposure Route-Specific Value for Soils listed in Table A of 35 Ill. Adm. Code 742, Appendix B;

(C) The Construction Worker Ingestion Exposure Route-Specific Value for Soils listed in Table B of 35 Ill. Adm. Code 742, Appendix B;

(D) The Construction Worker Inhalation Exposure Route-Specific Value for Soils listed in Table B of 35 Ill. Adm. Code 742, Appendix B;

(E) The Class I pH Specific Soil Remediation Objective listed in the column labeled "pH of 6.25 to 6.64" in Table C of 35 Ill. Adm. Code 742, Appendix B; and

(F) Indoor inhalation exposure route values as may be established by the Board.

[April 1, 2009]

Location and other designations, such as residential or industrial/commercial designations, shall be ignored when comparing the values identified in this subdivision (b)(2) of this Section. The lowest values shall be used for all soil regardless of designation.

(c) If a chemical's most stringent Tier 1 exposure route value determined under subsections (a) and (b) of this Section is less than the chemical's acceptable detection limit (ADL) listed in 35 Ill. Adm. Code 742, Appendix B, as amended, then the ADL shall serve as the most stringent Tier 1 exposure route value.

(d) The following applies for soil used as fill material or cover material in Chicago, a Metropolitan Area, or a Non-Metropolitan Area as defined in Table H of 35 Ill. Adm. Code 742, Appendix A:

(1) If a chemical's most stringent Tier 1 exposure route value determined under subsections (a) through (c) of this Section is less than the chemical's lowest background concentration listed in Table H of 35 Ill. Adm. Code 742, Appendix A, as amended, then the chemical's lowest background concentration listed in Table H shall serve as the most stringent Tier 1 exposure route value.

(2) For purposes of this subsection (d), the lowest background concentration listed in Table H shall be used, regardless of whether it is the background concentration listed for Chicago, a Metropolitan Area, or a Non-Metropolitan Area.

The most stringent Tier 1 exposure route values shall be determined solely from the values listed in 35 Ill. Adm. Code 742, Appendix A and Appendix B as provided above. Except as provided in subsection (d) of this Section, background concentrations cannot be used. Other provisions of the Board's rules, such as those pertaining to the use of engineered barriers or institutional controls, cannot be used to exclude or otherwise alter exposure routes or exposure route values for purposes of determining the most stringent Tier 1 exposure route.

The Agency shall maintain on its website a list of the most stringent Tier 1 exposure route values adopted by the Board pursuant to Title XVII of this Act, as amended.

To the extent allowed by federal law, general fill soil is not a waste.

(415 ILCS 5/3.442 new)

Sec. 3.442. Restricted Fill Soil. For purposes of Section 22.51 of this Act, "restricted fill soil" means soil generated from construction or demolition activities that (i) does not exceed the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, (ii) based upon past and current land uses and reasonable inquiry, is not known or suspected to contain a regulated substance or pesticide that does not have a Class I Soil Component of the Groundwater Ingestion Exposure Route Value listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, and (iii) does not contain waste. General fill soil that is mixed with restricted fill soil shall be considered restricted fill soil.

(415 ILCS 5/21) (from Ch. 111 1/2, par. 1021)

Sec. 21. Prohibited acts. No person shall:

- (a) Cause or allow the open dumping of any waste.
- (b) Abandon, dump, or deposit any waste upon the public highways or other public property, except in a sanitary landfill approved by the Agency pursuant to regulations adopted by the Board.
- (c) Abandon any vehicle in violation of the "Abandoned Vehicles Amendment to the Illinois Vehicle Code", as enacted by the 76th General Assembly.

(d) Conduct any waste-storage, waste-treatment, or waste-disposal operation:

(1) without a permit granted by the Agency or in violation of any conditions imposed by such permit, including periodic reports and full access to adequate records and the inspection of facilities, as may be necessary to assure compliance with this Act and with regulations and standards adopted thereunder; provided, however, that, except for municipal solid waste landfill units that receive waste on or after October 9, 1993, no permit shall be required for (i) any person conducting a waste-storage, waste-treatment, or waste-disposal operation for wastes generated by such person's own activities which are stored, treated, or disposed within the site where such wastes are generated, or (ii) a facility located in a county with a population over 700,000 as of January 1, 2000, operated and located in accordance with Section 22.38 of this Act, and used exclusively for the transfer, storage, or treatment of general construction or demolition debris;

(2) in violation of any regulations or standards adopted by the Board under this Act; or

(3) which receives waste after August 31, 1988, does not have a permit issued by the Agency, and is (i) a landfill used exclusively for the disposal of waste generated at the site, (ii) a surface impoundment receiving special waste not listed in an NPDES permit, (iii) a waste pile in which the total volume of waste is greater than 100 cubic yards or the waste is stored for over one year, or (iv) a land treatment facility receiving special waste generated at the site; without giving notice of the operation to the Agency by January 1, 1989, or 30 days after the date on which the

operation commences, whichever is later, and every 3 years thereafter. The form for such notification shall be specified by the Agency, and shall be limited to information regarding: the name and address of the location of the operation; the type of operation; the types and amounts of waste stored, treated or disposed of on an annual basis; the remaining capacity of the operation; and the remaining expected life of the operation.

Item (3) of this subsection (d) shall not apply to any person engaged in agricultural activity who is disposing of a substance that constitutes solid waste, if the substance was acquired for use by that person on his own property, and the substance is disposed of on his own property in accordance with regulations or standards adopted by the Board.

This subsection (d) shall not apply to hazardous waste.

(e) Dispose, treat, store or abandon any waste, or transport any waste into this State for disposal, treatment, storage or abandonment, except at a site or facility which meets the requirements of this Act and of regulations and standards thereunder.

(f) Conduct any hazardous waste-storage, hazardous waste-treatment or hazardous waste-disposal operation:

(1) without a RCRA permit for the site issued by the Agency under subsection (d) of

Section 39 of this Act, or in violation of any condition imposed by such permit, including periodic reports and full access to adequate records and the inspection of facilities, as may be necessary to assure compliance with this Act and with regulations and standards adopted thereunder; or

(2) in violation of any regulations or standards adopted by the Board under this Act; or

(3) in violation of any RCRA permit filing requirement established under standards adopted by the Board under this Act; or

(4) in violation of any order adopted by the Board under this Act.

Notwithstanding the above, no RCRA permit shall be required under this subsection or subsection (d) of Section 39 of this Act for any person engaged in agricultural activity who is disposing of a substance which has been identified as a hazardous waste, and which has been designated by Board regulations as being subject to this exception, if the substance was acquired for use by that person on his own property and the substance is disposed of on his own property in accordance with regulations or standards adopted by the Board.

(g) Conduct any hazardous waste-transportation operation:

(1) without registering with and obtaining a permit from the Agency in accordance with the Uniform Program implemented under subsection (l-5) of Section 22.2; or

(2) in violation of any regulations or standards adopted by the Board under this Act.

(h) Conduct any hazardous waste-recycling or hazardous waste-reclamation or hazardous waste-reuse operation in violation of any regulations, standards or permit requirements adopted by the Board under this Act.

(i) Conduct any process or engage in any act which produces hazardous waste in violation of any regulations or standards adopted by the Board under subsections (a) and (c) of Section 22.4 of this Act.

(j) Conduct any special waste transportation operation in violation of any regulations, standards or permit requirements adopted by the Board under this Act. However, sludge from a water or sewage treatment plant owned and operated by a unit of local government which (1) is subject to a sludge management plan approved by the Agency or a permit granted by the Agency, and (2) has been tested and determined not to be a hazardous waste as required by applicable State and federal laws and regulations, may be transported in this State without a special waste hauling permit, and the preparation and carrying of a manifest shall not be required for such sludge under the rules of the Pollution Control Board. The unit of local government which operates the treatment plant producing such sludge shall file a semiannual report with the Agency identifying the volume of such sludge transported during the reporting period, the hauler of the sludge, and the disposal sites to which it was transported. This subsection (j) shall not apply to hazardous waste.

(k) Fail or refuse to pay any fee imposed under this Act.

(l) Locate a hazardous waste disposal site above an active or inactive shaft or tunneled mine or within 2 miles of an active fault in the earth's crust. In counties of population less than 225,000 no hazardous waste disposal site shall be located (1) within 1 1/2 miles of the corporate limits as defined on June 30, 1978, of any municipality without the approval of the governing body of the municipality in an official action; or (2) within 1000 feet of an existing private well or the existing source of a public water supply measured from the boundary of the actual active permitted site and excluding existing private wells on the property of the permit applicant. The provisions of this subsection do not apply to publicly-owned sewage works or the disposal or utilization of sludge from publicly-owned sewage works.

(m) Transfer interest in any land which has been used as a hazardous waste disposal site without

written notification to the Agency of the transfer and to the transferee of the conditions imposed by the Agency upon its use under subsection (g) of Section 39.

(n) Use any land which has been used as a hazardous waste disposal site except in compliance with conditions imposed by the Agency under subsection (g) of Section 39.

(o) Conduct a sanitary landfill operation which is required to have a permit under subsection (d) of this Section, in a manner which results in any of the following conditions:

- (1) refuse in standing or flowing waters;
- (2) leachate flows entering waters of the State;
- (3) leachate flows exiting the landfill confines (as determined by the boundaries established for the landfill by a permit issued by the Agency);
- (4) open burning of refuse in violation of Section 9 of this Act;
- (5) uncovered refuse remaining from any previous operating day or at the conclusion of any operating day, unless authorized by permit;
- (6) failure to provide final cover within time limits established by Board regulations;
- (7) acceptance of wastes without necessary permits;
- (8) scavenging as defined by Board regulations;
- (9) deposition of refuse in any unpermitted portion of the landfill;
- (10) acceptance of a special waste without a required manifest;
- (11) failure to submit reports required by permits or Board regulations;
- (12) failure to collect and contain litter from the site by the end of each operating day;
- (13) failure to submit any cost estimate for the site or any performance bond or other security for the site as required by this Act or Board rules.

The prohibitions specified in this subsection (o) shall be enforceable by the Agency either by administrative citation under Section 31.1 of this Act or as otherwise provided by this Act. The specific prohibitions in this subsection do not limit the power of the Board to establish regulations or standards applicable to sanitary landfills.

(p) In violation of subdivision (a) of this Section, cause or allow the open dumping of any waste in a manner which results in any of the following occurrences at the dump site:

- (1) litter;
- (2) scavenging;
- (3) open burning;
- (4) deposition of waste in standing or flowing waters;
- (5) proliferation of disease vectors;
- (6) standing or flowing liquid discharge from the dump site;
- (7) deposition of:
 - (i) general construction or demolition debris as defined in Section 3.160(a) of this Act; or
 - (ii) clean construction or demolition debris as defined in Section 3.160(b) of this Act.

The prohibitions specified in this subsection (p) shall be enforceable by the Agency either by administrative citation under Section 31.1 of this Act or as otherwise provided by this Act. The specific prohibitions in this subsection do not limit the power of the Board to establish regulations or standards applicable to open dumping.

(q) Conduct a landscape waste composting operation without an Agency permit, provided, however, that no permit shall be required for any person:

- (1) conducting a landscape waste composting operation for landscape wastes generated by such person's own activities which are stored, treated or disposed of within the site where such wastes are generated; or
- (2) applying landscape waste or composted landscape waste at agronomic rates; or
- (3) operating a landscape waste composting facility on a farm, if the facility meets all of the following criteria:
 - (A) the composting facility is operated by the farmer on property on which the composting material is utilized, and the composting facility constitutes no more than 2% of the property's total acreage, except that the Agency may allow a higher percentage for individual sites where the owner or operator has demonstrated to the Agency that the site's soil characteristics or crop needs require a higher rate;
 - (B) the property on which the composting facility is located, and any associated property on which the compost is used, is principally and diligently devoted to the production of

agricultural crops and is not owned, leased or otherwise controlled by any waste hauler or generator of nonagricultural compost materials, and the operator of the composting facility is not an employee, partner, shareholder, or in any way connected with or controlled by any such waste hauler or generator;

(C) all compost generated by the composting facility is applied at agronomic rates and used as mulch, fertilizer or soil conditioner on land actually farmed by the person operating the composting facility, and the finished compost is not stored at the composting site for a period longer than 18 months prior to its application as mulch, fertilizer, or soil conditioner;

(D) the owner or operator, by January 1, 1990 (or the January 1 following commencement of operation, whichever is later) and January 1 of each year thereafter, (i) registers the site with the Agency, (ii) reports to the Agency on the volume of composting material received and used at the site, (iii) certifies to the Agency that the site complies with the requirements set forth in subparagraphs (A), (B) and (C) of this paragraph (q)(3), and (iv) certifies to the Agency that all composting material was placed more than 200 feet from the nearest potable water supply well, was placed outside the boundary of the 10-year floodplain or on a part of the site that is floodproofed, was placed at least 1/4 mile from the nearest residence (other than a residence located on the same property as the facility) and there are not more than 10 occupied non-farm residences within 1/2 mile of the boundaries of the site on the date of application, and was placed more than 5 feet above the water table.

For the purposes of this subsection (q), "agronomic rates" means the application of not more than 20 tons per acre per year, except that the Agency may allow a higher rate for individual sites where the owner or operator has demonstrated to the Agency that the site's soil characteristics or crop needs require a higher rate.

(r) Cause or allow the storage or disposal of coal combustion waste unless:

(1) such waste is stored or disposed of at a site or facility for which a permit has been obtained or is not otherwise required under subsection (d) of this Section; or

(2) such waste is stored or disposed of as a part of the design and reclamation of a site or facility which is an abandoned mine site in accordance with the Abandoned Mined Lands and Water Reclamation Act; or

(3) such waste is stored or disposed of at a site or facility which is operating under NPDES and Subtitle D permits issued by the Agency pursuant to regulations adopted by the Board for mine-related water pollution and permits issued pursuant to the Federal Surface Mining Control and Reclamation Act of 1977 (P.L. 95-87) or the rules and regulations thereunder or any law or rule or regulation adopted by the State of Illinois pursuant thereto, and the owner or operator of the facility agrees to accept the waste; and either

(i) such waste is stored or disposed of in accordance with requirements applicable to refuse disposal under regulations adopted by the Board for mine-related water pollution and pursuant to NPDES and Subtitle D permits issued by the Agency under such regulations; or

(ii) the owner or operator of the facility demonstrates all of the following to the Agency, and the facility is operated in accordance with the demonstration as approved by the Agency: (1) the disposal area will be covered in a manner that will support continuous vegetation, (2) the facility will be adequately protected from wind and water erosion, (3) the pH will be maintained so as to prevent excessive leaching of metal ions, and (4) adequate containment or other measures will be provided to protect surface water and groundwater from contamination at levels prohibited by this Act, the Illinois Groundwater Protection Act, or regulations adopted pursuant thereto.

Notwithstanding any other provision of this Title, the disposal of coal combustion waste pursuant to item (2) or (3) of this subdivision (r) shall be exempt from the other provisions of this Title V, and notwithstanding the provisions of Title X of this Act, the Agency is authorized to grant experimental permits which include provision for the disposal of wastes from the combustion of coal and other materials pursuant to items (2) and (3) of this subdivision (r).

(s) After April 1, 1989, offer for transportation, transport, deliver, receive or accept special waste for which a manifest is required, unless the manifest indicates that the fee required under Section 22.8 of this Act has been paid.

(t) Cause or allow a lateral expansion of a municipal solid waste landfill unit on or after October 9, 1993, without a permit modification, granted by the Agency, that authorizes the lateral expansion.

(u) Conduct any vegetable by-product treatment, storage, disposal or transportation operation in violation of any regulation, standards or permit requirements adopted by the Board under this Act. However, no permit shall be required under this Title V for the land application of vegetable by-products

[April 1, 2009]

conducted pursuant to Agency permit issued under Title III of this Act to the generator of the vegetable by-products. In addition, vegetable by-products may be transported in this State without a special waste hauling permit, and without the preparation and carrying of a manifest.

(v) (Blank).

(w) Conduct any generation, transportation, or recycling of construction or demolition debris, clean or general, or painted construction or demolition debris or general fill ~~uncontaminated~~ soil or restricted fill soil that is generated during construction, remodeling, repair, and demolition of utilities, structures, and roads that is not commingled with any waste, without the maintenance of documentation identifying the hauler, generator, place of origin of the debris or soil, the weight or volume of the debris or soil, and the location, owner, and operator of the facility where the debris or soil was transferred, disposed, recycled, or treated. This documentation must be maintained by the generator, transporter, or recycler for 3 years. This subsection (w) shall not apply to (1) a permitted pollution control facility that transfers or accepts construction or demolition debris, clean or general, or painted construction or demolition debris or general fill soil or restricted fill ~~uncontaminated~~ soil for final disposal, recycling, or treatment, (2) a public utility (as that term is defined in the Public Utilities Act) or a municipal utility, (3) the Illinois Department of Transportation, ~~or~~ (4) a municipality or a county highway department, with the exception of any municipality or county highway department located within a county having a population of over 3,000,000 inhabitants or located in a county that is contiguous to a county having a population of over 3,000,000 inhabitants , or (5) the Illinois State Toll Highway Authority; but it shall apply to an entity that contracts with a public utility, a municipal utility, the Illinois Department of Transportation, the Illinois State Toll Highway Authority or a municipality or a county highway department. (a) No person shall conduct any CCDD ~~clean construction or demolition debris~~ fill operation in violation of this Act or any regulations or standards adopted by the Board.

(b)(1)(A) Beginning July 19, 2005 ~~30 days after the effective date of this amendatory Act of the 94th General Assembly~~ but prior to July 1, 2008, no person shall use CCDD ~~clean construction or demolition debris~~ as fill material in a current or former quarry, mine, or other excavation, unless they have applied for an interim authorization from the Agency for the CCDD ~~clean construction or demolition debris~~ fill operation.

(B) The Agency shall approve an interim authorization upon its receipt of a written

application for the interim authorization that is signed by the site owner and the site operator, or their duly authorized agent, and that contains the following information: (i) the location of the site where the CCDD ~~clean construction or demolition debris~~ fill operation is taking place, (ii) the name and address of the site owner, (iii) the name and address of the site operator, and (iv) the types and amounts of CCDD ~~clean construction or demolition debris~~ being used as fill material at the site.

(C) The Agency may deny an interim authorization if the site owner or the site operator, or their duly authorized agent, fails to provide to the Agency the information listed in subsection (b)(1)(B) of this Section. Any denial of an interim authorization shall be subject to appeal to the Board in accordance with the procedures of Section 40 of this Act.

(D) No person shall use CCDD ~~clean construction or demolition debris~~ as fill material in a current or former quarry, mine, or other

excavation for which the Agency has denied interim authorization under subsection (b)(1)(C) of this Section. The Board may stay the prohibition of this subsection (D) during the pendency of an appeal of the Agency's denial of the interim authorization brought under subsection (b)(1)(C) of this Section.

(2) Beginning September 1, 2006, owners and operators of CCDD ~~clean construction or demolition debris~~ fill operations shall, in

accordance with a schedule prescribed by the Agency, submit to the Agency applications for the permits required under this Section. The Agency shall notify owners and operators in writing of the due date for their permit application. The due date shall be no less than 90 days after the date of the

Agency's written notification. Owners and operators who do not receive a written notification from the Agency by October 1, 2007, shall submit a permit application to the Agency by January 1, 2008. The interim authorization of owners and operators who fail to submit a permit application to the Agency by the permit application's due date shall terminate on (i) the due date established by the Agency if the owner or operator received a written notification from the Agency prior to October 1, 2007, or (ii) or January 1, 2008, if the owner or operator did not receive a written notification from the Agency by October 1, 2007.

(3) On and after July 1, 2008, no person shall use CCDD ~~clean construction or demolition debris~~ as fill material in a current or former

quarry, mine, or other excavation (i) without a permit granted by the Agency for the clean construction or demolition debris fill operation or in violation of any conditions imposed by such permit, including periodic reports and full access to adequate records and the inspection of facilities, as may be necessary to assure compliance with this Act and with Board regulations and standards adopted under this Act; or (ii) in violation of any regulations or standards adopted by the Board under this Act.

No person shall use restricted fill soil or painted construction or demolition debris as fill material in a current or former quarry, mine, or other excavation (i) without a permit granted by the Agency or in violation of any conditions imposed by such permit, including periodic reports and full access to adequate records and the inspection of facilities, as may be necessary to assure compliance with this Act and with Board regulations and standards adopted under this Act; or (ii) in violation of any rules or standards adopted by the Board under this Act.

(A) Owners and operators of clean construction or demolition debris fill operations with a permit issued prior to the effective date of this amendatory Act of the 96th General Assembly must, in accordance with a schedule prescribed by the Agency, submit an application for a permit modification to make the permit consistent with the requirements of this Section. The Agency shall notify owners and operators in writing of the due date for the application. The due date shall be no less than 90 days after the date of the Agency's written notification. Owners and operators who do not receive a written notification from the Agency by April 1, 2010, shall submit their application for permit modification by July 1, 2010. Owners and operators seeking a modification that includes the use of restricted fill soil or painted construction or demolition debris as fill material may submit their application for modification prior to the dates set forth in this paragraph or the schedule prescribed by the Agency. Until a permit modification is issued, persons required to submit an application for a permit modification must operate their clean construction or demolition debris fill operation in accordance with the requirements of their permit as modified by the requirements of this Act and Board rules adopted hereunder; provided that until a permit modification is issued no person shall use restricted fill soil or painted construction or demolition debris as fill material without interim authorization under subdivision (b)(3)(B) of this Section.

(B) Prior to January 1, 2011, owners and operators of clean construction or demolition debris fill operations that are required under subdivision (b)(3)(A) of this Section to submit an application for a permit modification may use restricted fill soil or painted construction or demolition debris as fill material at the clean construction or demolition debris fill operation if they obtain interim authorization under this subdivision (b)(3)(B). Within 30 days after receipt of a complete application for interim authorization that includes the following information, the Agency shall approve interim authorization: (i) the owner and the operator of the clean construction or demolition debris fill operation, (ii) the name of the clean construction or demolition debris fill operation and its location, (iii) a copy of the recorded land use restriction required under subdivision (d)(1) of this Section and proof of its recording, and (iv) the signatures of the owner and the operator or their duly authorized agents. The application for interim authorization must be submitted on a form and in a format prescribed by the Agency. Persons using restricted fill soil or painted construction or demolition debris as fill material under an interim authorization must comply with the requirements of subdivisions (d)(1) through (d)(5) of this Section. The interim authorization shall expire 60 days after the date the Agency approves the application for interim authorization unless, within those 60 days, the owner or operator submits an application for a permit modification that includes the use of restricted fill soil or painted construction or demolition debris as fill material. If the application for permit modification is submitted within those 60 days, the interim authorization shall expire on the date the Agency issues its final decision on the application for a permit modification or, if the Agency's decision is appealed, the date of final disposition of the appeal.

(C) Beginning January 1, 2011, no person required under subdivision (b)(3)(A) of this Section to submit an application for a permit modification shall operate a clean construction or demolition debris fill operation without a permit modification granted by the Agency that is consistent with the

[April 1, 2009]

requirements of this Section.

(4) This subsection (b) does not apply to:

(A) the use of CCDD, restricted fill soil, or painted construction or demolition debris ~~clean construction or demolition debris~~ as fill material in a current or former quarry, mine, or other excavation located on the site where the clean construction or demolition debris was generated;

(B) the use of CCDD ~~clean construction or demolition debris~~ as fill material in an excavation other than a current or former quarry

or mine if this use complies with Illinois Department of Transportation specifications; or

(C) current or former quarries, mines, and other excavations that do not use CCDD, restricted fill soil, or painted construction or demolition debris ~~clean construction or demolition debris~~ as fill material.

(c) In accordance with Title VII of this Act, the Board may adopt regulations to promote the purposes of this Section. The Agency shall consult with the mining and construction industries during the development of any regulations to promote the purposes of this Section.

(1) No later than December 15, 2005, the Agency shall propose to the Board, and no later than September 1, 2006, the Board shall adopt, regulations for the use of CCDD ~~clean construction or demolition debris~~ as fill material in current and former quarries, mines, and other excavations. Such regulations shall include, but shall not be limited to, standards for CCDD ~~clean construction or demolition debris~~ fill operations and the submission and review of permits required under this Section.

(2) Until the Board adopts rules under subsection (c)(1) of this Section, all persons using clean construction or demolition debris as fill material in a current or former quarry, mine, or other excavation shall:

(A) Assure that only CCDD ~~clean construction or demolition debris~~ is being used as fill material by screening each truckload of

material received using a device approved by the Agency that detects volatile organic compounds. Such devices may include, but are not limited to, photo ionization detectors. All screening devices shall be operated and maintained in accordance with manufacturer's specifications. Unacceptable fill material shall be rejected from the site; and

(B) Retain for a minimum of 3 years the following information:

- (i) The name of the hauler, the name of the generator, and place of origin of the debris or soil;
- (ii) The approximate weight or volume of the debris or soil; and
- (iii) The date the debris or soil was received.

(d) To the extent allowed by federal law, the Agency shall, in a permit or a permit modification granted under this Section, and in accordance with Sections 39 and 40 of this Act, authorize the use of restricted fill soil and painted construction or demolition debris as fill material at a clean construction or demolition debris fill operation if the requirements of this subsection (d) are met. To the extent allowed by federal law, restricted fill soil and painted construction or demolition debris used as fill material in accordance with the permit and this Section are not waste.

(1) Before restricted fill soil is used as fill material at the clean construction or demolition debris fill operation: (i) a land use restriction that restricts property use to industrial or commercial uses must be recorded in the chain of title for the property on which the clean construction or demolition debris fill operation is located and (ii) proof of the recording must be submitted to the Agency. Upon closure of the clean construction or demolition debris fill operation, the land use restriction may be removed if the site is entered into the Agency's Site Remediation Program and, pursuant to procedures adopted by the Board, the site is demonstrated to meet the Tier 1 residential remediation objectives adopted by the Board pursuant to Title XVII of this Act.

(2) The owner or operator of the clean construction or demolition debris fill operation must develop and implement a closure and post-closure care plan that includes, but is not limited to, the following:

(i) covering all restricted fill soil and painted construction or demolition debris with a minimum of 10 feet of general fill soil, or an engineered barrier approved by the Agency in a permit granted under this Section, within 180 days after completion of filling or as approved by the Agency;

(ii) for all buildings at the site on or after completion of filling, the installation and maintenance of building control technologies as approved by the Agency in accordance with Title XVII of this Act and rules adopted thereunder to prevent indoor inhalation exposures.

(3) Painted construction or demolition debris shall not be used as fill material unless chemical analysis demonstrates that the paint does not exceed the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended. Chemical analysis is not required for pavement markings that conform to Illinois Department of

Transportation specifications.

(4) The owner or operator of the CCDD fill operation must develop and implement a Receipt Control and Screening Plan that includes, but is not limited to, the following:

(A) Documentation from the owner or operator of the site where the restricted fill soil, general fill soil, painted construction or demolition debris, or clean construction or demolition debris was removed that contains the following information for each load received: (i) location of the removal site, (ii) the owner of the removal site, (iii) the site operator or general contractor responsible for removal, and (iv) the hauler of the load.

(B) For all soil, either (i) a certification from the owner or operator of the site from which the soil was removed that the site has never been used for commercial or industrial purposes or (ii) a certification from a Licensed Professional Engineer that the soil is restricted fill soil or general fill soil. Certifications required under subdivision (d)(4)(B) of this Section must be on forms and in a format prescribed by the Agency.

(C) Chemical analysis of paint on painted construction or demolition debris to confirm that the paint does not exceed the Class I Soil Component of the groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended. Chemical analysis is not required for pavement markings that conform to Illinois Department of Transportation specifications.

(D) A visual inspection to confirm that only restricted fill soil, painted construction or demolition debris, clean construction or demolition debris, or general fill soil is being accepted for use as fill.

(E) Screening of the soil with a photo ionization detector or a flame ionization detector, in accordance with procedures approved by the Agency in the CCDD fill operation permit, to confirm that the soil is consistent with the definitions of restricted fill soil or general fill soil and any chemical analysis used to determine that the soil is restricted fill soil or general fill soil.

(F) Confirmation that the soil was not removed from a site as a part of a cleanup or removal of contaminants, including, but not limited to, activities conducted under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended; as a part of a Closure or Corrective Action under the Resource Conservation and Recovery Act, as amended; or under an Agency remediation program, such as the Leaking Underground Storage Tank Program or Site Remediation Program, but excluding sites subject to Section 58.16 of this Act where there is no presence or likely presence of a release or a substantial threat of a release of a regulated substance at, on, to, or from the real property.

(G) Documentation of all activities conducted under the Receipt Control and Screening Plan. Documentation of any chemical analysis must include, but is not limited to, (i) a copy of the lab analysis, (ii) accreditation status of the laboratory performing the analysis, and (iii) certification by an authorized agent of the laboratory that the analysis has been performed in accordance with the Agency's rules for the accreditation of environmental laboratories and the scope of accreditation. Documentation must be submitted on forms and in a format prescribed by the Agency.

(5) The owner or operator of the CCDD fill operation must develop and implement a Testing and Sampling Plan which ensures that soil used as fill does not exceed the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended. The Testing and Sampling Plan must include, but is not limited to, the following:

(A) For every 500 cubic yards of soil used as fill, a minimum of one representative soil sample must be screened with an X-ray Fluorescence Spectroscopy instrument in accordance with procedures approved by the Agency in the CCDD fill operation permit. Soil samples must be screened after the soil is placed as fill at the site. If a screening sample indicates that soil may exceed the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, then additional representative soil samples must be collected and analyzed by a laboratory for all of the chemicals listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, to determine whether the soil exceeds the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended. All soil that exceeds the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, must be removed and disposed of at a landfill.

(B) In addition to the screening and sampling required under subdivision (d)(5)(A) of this Section, for every 2,500 cubic yards of soil used as fill a minimum of one representative soil sample must be collected and analyzed by a laboratory for all of the chemicals listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, to determine whether the soil exceeds the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742,

Appendix B, as amended. The samples may be combined into composite samples as approved by the Agency in the CCDD fill operation permit. Copies of the laboratory analytical results must be submitted to the Agency at least quarterly. The results must be submitted in a form and manner prescribed by the Agency. All soil that exceeds the Class I Soil Component of the Groundwater Ingestion Exposure Route Values listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended, must be removed and disposed at a landfill.

(d) This Section applies only to clean construction or demolition debris that is not considered "waste" as provided in Section 3.160 of this Act.

(e) For purposes of this Section a clean construction or demolition debris fill operation:

(1) The term "operator" means a person responsible for the operation and maintenance of a CCDD clean construction or demolition debris fill operation.

(2) The term "owner" means a person who has any direct or indirect interest in a CCDD clean construction or demolition debris fill operation or in land on which a person operates and maintains a CCDD clean construction or demolition debris fill operation. A "direct or indirect interest" does not include the ownership of publicly traded stock. The "owner" is the "operator" if there is no other person who is operating and maintaining a CCDD clean construction or demolition debris fill operation.

(3) The term "clean construction or demolition debris fill operation" means a current or former quarry, mine, or other excavation where clean construction or demolition debris is used as fill material.

(4) The term "other excavation" does not include holes, trenches, or similar earth removal created as part of normal construction, removal, or maintenance of a structure, utility, or transportation infrastructure.

(f) Owners and operators of CCDD fill operations that are not permitted under subsection (d) of this Section to use restricted fill soil or painted construction or demolition debris as fill material must do all of the following:

(1) Develop and implement a Receipt Control and Screening Plan that includes, but is not limited to, the following:

(A) Documentation from the owner or operator of the site where the general fill soil or clean construction or demolition debris was removed that contains the following information for each load received: (i) location of the removal site; (ii) the owner of the removal site; (iii) the site operator or general contractor responsible for removal; and (iv) the hauler of the load.

(B) For all soil, either (i) a certification from the owner or operator of the site from which the soil was removed that the site has never been used for commercial or industrial purposes and is presumed to be general fill soil, or (ii) a certification from a Licensed Professional Engineer that the soil is general fill soil. Certifications required under subdivision (f)(1)(B) of this Section must be on forms and in a format prescribed by the Agency.

(C) A visual inspection to confirm that only clean construction or demolition debris or general fill soil is being accepted for use as fill.

(A) For every 2,500 cubic yards of soil used as fill, a minimum of one representative soil sample must be collected and analyzed by a laboratory for all of the chemicals listed in Table A of 35 Ill. Adm. Code 742, Appendix B, as amended to determine whether the soil exceeds the most stringent Tier 1 exposure route values adopted by the Board under Title XVII of this Act. The samples may be combined into composite samples as approved by the Agency in the CCDD fill operation permit. Copies of the laboratory analytical results must be submitted to the Agency in a form and manner to be determined by the Agency at least quarterly. Copies of the documentation must be made available to the Agency for inspection and copying during normal business hours.

Chemical analysis conducted under this Section must be conducted in accordance with the requirements of 35 Ill. Adm. Code 742 and "Test Methods for Evaluating Solid Waste, Physical/Chemical Methods", USEPA Publication No. SW-846, as amended.

(h) Except at CCDD fill operations permitted under subsection (d) of this Section to use restricted fill soil as fill material, no person shall use soil other than general fill soil as fill material at a CCDD fill operation. At CCDD fill operations permitted under subsection (d) of this Section to use restricted fill soil as fill material, no person shall use soil other than restricted fill soil or general fill soil as fill material.

(h-5) Except at CCDD fill operations permitted under subsection (d) of this Section to use painted construction or demolition debris as fill material, no person shall use construction or demolition debris other than clean construction or demolition debris as fill material at a CCDD fill operation. At CCDD fill operations permitted under subsection (d) of this Section to use painted construction or demolition debris as fill material, no person shall use construction or demolition debris other than painted construction or demolition debris or clean construction or demolition debris as fill material.

(i) No person shall use, or cause or allow the use of, any site on which a land use restriction has been recorded under subdivision (d)(1) of this Section in a manner that is inconsistent with the land use restriction unless the land use restriction has been removed in accordance with subdivision (d)(1) of this Section.

(j) After completion of filling at a CCDD fill operation where restricted fill soil has been used as fill material, no person shall occupy, or cause or allow the occupancy, of any building at the site unless the building control technologies required under subdivision (d)(2) of this Section have been installed and are maintained. No person shall perform any activity that disturbs the building controls technologies unless the site is entered into the Agency's Site Remediation Program and the activity is approved by the Agency as consistent with Title XVII of this Act and rules adopted thereunder.

(l) No person other than the State of Illinois, its agencies and institutions, or a unit of local government shall use restricted fill soil or painted construction or demolition debris as fill material in a current or former quarry, mine, or other excavation unless that person has posted with the Agency a performance bond or other security for the purpose of insuring (i) closure of the site in accordance with this Section and its regulations and (ii) completion of corrective action remedies required under this Act and its regulations. The amount of the performance bond or other security shall be directly related to the design and volume of the site. The cost estimate for the performance bond or other security shall be calculated using a period of time not to exceed 30 years beyond closure and may be a shorter period as may be approved or required by the Agency. Cost estimates shall be in current dollars. Any moneys forfeited to the State from any performance bond or other security required under this subsection shall be placed in the Landfill Closure and Post-Closure Fund and shall, upon approval by the Governor and the Director, be used by and under the direction of the Agency for the purposes for which such performance bond or other security was issued.

The Agency is authorized to enter into such contracts and agreements as it may deem necessary to carry out the purposes of this Section. Neither the State, nor the Director, nor any State employee is liable for any damages or injuries arising out of or resulting from any action taken under this Section. Nothing in this Section shall bar a cause of action by the State for any other penalty or relief provided by this Act or any other law.

The Agency has the authority to approve or disapprove any performance bond or other security posted under this subsection (l). Any person whose performance bond or other security is disapproved by the Agency may contest the disapproval as a permit denial appeal under Section 40 of this Act.

(m) The Agency may establish the procedures it deems necessary to implement and execute its responsibilities under this Section.

To the extent allowed by federal law, soil and clean construction or demolition debris reused under agreements entered into under this Section are not waste. Intergovernmental Agreements are not required for the purpose of reuse of general fill soil or for the purpose of reuse of soil or clean construction or demolition debris on the site from which it was removed.

Sec. 31.1. Administrative citation.

(a) The prohibitions specified in subsections (o) and (p) of Section 21 and in Sections 22.51 and 22.51a of this Act shall be enforceable either by administrative citation under this Section or as otherwise provided by this Act.

(b) Whenever Agency personnel or personnel of a unit of local government to which the Agency has delegated its functions pursuant to subsection (r) of Section 4 of this Act, on the basis of direct observation, determine that any person has violated any provision of subsection (o) or (p) of Section 21 or any provision of Section 22.51 or 22.51a of this Act, the Agency or such unit of local government may issue and serve an administrative citation upon such person within not more than 60 days after the date of the observed violation. Each such citation issued shall be served upon the person named therein or such person's authorized agent for service of process, and shall include the following information:

(1) a statement specifying the provisions of subsection (o) or (p) of Section 21 or the provisions of Section 22.51 or 22.51a of

which the person was observed to be in violation;

(2) a copy of the inspection report in which the Agency or local government recorded the violation, which report shall include the date and time of inspection, and weather conditions prevailing during the inspection;

(3) the penalty imposed by subdivision (b)(4), ~~or~~ (b)(4-5) or (b)(6) of Section 42 for such violation;

(4) instructions for contesting the administrative citation findings pursuant to this Section, including notification that the person has 35 days within which to file a petition for review before the Board to contest the administrative citation; and

(5) an affidavit by the personnel observing the violation, attesting to their material actions and observations.

(c) The Agency or unit of local government shall file a copy of each administrative citation served under subsection (b) of this Section with the Board no later than 10 days after the date of service.

(d) (1) If the person named in the administrative citation fails to petition the Board for review within 35 days from the date of service, the Board shall adopt a final order, which shall include the administrative citation and findings of violation as alleged in the citation, and shall impose the penalty

specified in subdivision (b)(4), ~~or (b)(4-5)~~ or (b)(6) of Section 42.

(2) If a petition for review is filed before the Board to contest an administrative citation issued under subsection (b) of this Section, the Agency or unit of local government shall appear as a complainant at a hearing before the Board to be conducted pursuant to Section 32 of this Act at a time not less than 21 days after notice of such hearing has been sent by the Board to the Agency or unit of local government and the person named in the citation. In such hearings, the burden of proof shall be on the Agency or unit of local government. If, based on the record, the Board finds that the alleged violation occurred, it shall adopt a final order which shall include the administrative citation and findings of violation as alleged in the citation, and shall impose the penalty specified in subdivision (b)(4), ~~or (b)(4-5)~~ or (b)(6) of Section 42. However, if the Board finds that the person appealing the citation has shown that the violation resulted from uncontrollable circumstances, the Board shall adopt a final order which makes no finding of violation and which imposes no penalty.

(e) Sections 10-25 through 10-60 of the Illinois Administrative Procedure Act shall not apply to any administrative citation issued under subsection (b) of this Section.

(f) The other provisions of this Section shall not apply to a sanitary landfill operated by a unit of local government solely for the purpose of disposing of water and sewage treatment plant sludges, including necessary stabilizing materials.

(g) All final orders issued and entered by the Board pursuant to this Section shall be enforceable by injunction, mandamus or other appropriate remedy, in accordance with Section 42 of this Act.

(4) In an administrative citation action under Section 31.1 of this Act, any person found to have violated any provision of subsection (o) of Section 21 of this Act shall pay a civil penalty of \$500 for each violation of each such provision, plus any hearing costs incurred by the Board and the Agency. Such penalties shall be made payable to the Environmental Protection Trust Fund, to be used in accordance with the provisions of the Environmental Protection Trust Fund Act; except that if a unit of local government issued the administrative citation, 50% of the civil penalty shall be payable to the unit of local government.

(4-5) In an administrative citation action under Section 31.1 of this Act, any person found to have violated any provision of subsection (p) of Section 21 of this Act shall pay a civil penalty of \$1,500 for each violation of each such provision, plus any hearing costs incurred by the Board and the Agency, except that the civil penalty amount shall be \$3,000 for each violation of any provision of subsection (p) of Section 21 that is the person's second or subsequent adjudication violation of that provision. The penalties shall be deposited into the Environmental Protection Trust Fund, to be used in accordance with the provisions of the Environmental Protection Trust Fund Act; except that if a unit of local government issued the administrative citation, 50% of the civil penalty

shall be payable to the unit of local government.

(5) Any person who violates subsection 6 of Section 39.5 of this Act or any CAAPP permit, or term or condition thereof, or any fee or filing requirement, or any duty to allow or carry out inspection, entry or monitoring activities, or any regulation or order relating to the CAAPP shall be liable for a civil penalty not to exceed \$10,000 per day of violation.

(6) In an administrative citation action under Section 31.1 of this Act, any person without a permit issued under Section 22.51 of this Act that is found to have violated any provision of Section 22.51 of this Act shall pay a civil penalty of \$1,500 for each violation of each provision, plus any hearing costs incurred by the Board and the Agency, except that the civil penalty amount shall be \$3,000 for each violation of any provision of Section 22.51 that is the person's second or subsequent adjudicated violation of that provision. Any person with a permit issued under Section 22.51 of this Act that is found to have violated any provision of Section 22.51 or the permit, or any person that is found to have violated Section 22.51a of this Act, shall pay a civil penalty of \$1,000 for each violation of each provision, plus any hearing costs incurred by the Board and the Agency, except that the civil penalty amount shall be \$2,000 for each violation of any provision of Section 22.51, the permit, or Section 22.51a, that is the person's second or subsequent adjudicated violation of that provision. The penalties shall be deposited into the Environmental Protection Trust Fund, to be used in accordance with the provisions of the Environmental Protection Trust Fund Act; except that if a delegated unit of local government issued the administrative citation, 50% of the civil penalty shall be payable to the unit of local government.

(b.5) In lieu of the penalties set forth in subsections (a) and (b) of this Section, any person who fails to file, in a timely manner, toxic chemical release forms with the Agency pursuant to Section 25b-2 of this Act shall be liable for a civil penalty of \$100 per day for each day the forms are late, not to exceed a maximum total penalty of \$6,000. This daily penalty shall begin accruing on the thirty-first day after the date that the person receives the warning notice issued by the Agency pursuant to Section 25b-6 of this Act; and the penalty shall be paid to the Agency. The daily accrual of penalties shall cease as of January 1 of the following year. All penalties collected by the Agency pursuant to this subsection shall be deposited into the Environmental Protection Permit and Inspection Fund.

(c) Any person that violates this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order and causes the death of fish or aquatic life shall, in addition to the other penalties provided by this Act, be liable to pay to the State an additional sum for the reasonable value of the fish or aquatic life destroyed. Any money so recovered shall be placed in the Wildlife and Fish Fund in the State Treasury.

(d) The penalties provided for in this Section may be recovered in a civil action.

(e) The State's Attorney of the county in which the violation occurred, or the Attorney General, may, at the request of the Agency or on his own motion, institute a civil action for an injunction, prohibitory or mandatory, to restrain violations of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order, or to require such other actions as may be necessary to address violations of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order.

(f) The State's Attorney of the county in which the violation occurred, or the Attorney General, shall bring such actions in the name of the people of the State of Illinois. Without limiting any other authority which may exist for the awarding of attorney's fees and costs, the Board or a court of competent jurisdiction may award costs and reasonable attorney's fees, including the reasonable costs of expert witnesses and consultants, to the State's Attorney or the Attorney General in a case where he has prevailed against a person who has committed a wilful, knowing or repeated violation of this Act, any rule or regulation adopted under this Act, any permit or term or condition of a permit, or any Board order.

Any funds collected under this subsection (f) in which the Attorney General has prevailed shall be deposited in the Hazardous Waste Fund created in Section 22.2 of this Act. Any funds collected under this subsection (f) in which a State's Attorney has prevailed shall be retained by the county in which he serves.

(g) All final orders imposing civil penalties pursuant to this Section shall prescribe the time for payment of such penalties. If any such penalty is not paid within the time prescribed, interest on such penalty at the rate set forth in subsection (a) of Section 1003 of the Illinois Income Tax Act, shall be paid for the period from the date payment is due until the date payment is received. However, if the time for payment is stayed during the pendency of an appeal, interest shall not accrue during such stay.

(h) In determining the appropriate civil penalty to be imposed under subdivisions (a), (b)(1), (b)(2), (b)(3), or (b)(5) of this Section, the Board is authorized to consider any matters of record in mitigation or

aggravation of penalty, including but not limited to the following factors:

- (1) the duration and gravity of the violation;
- (2) the presence or absence of due diligence on the part of the respondent in attempting to comply with requirements of this Act and regulations thereunder or to secure relief therefrom as provided by this Act;
- (3) any economic benefits accrued by the respondent because of delay in compliance with requirements, in which case the economic benefits shall be determined by the lowest cost alternative for achieving compliance;
- (4) the amount of monetary penalty which will serve to deter further violations by the respondent and to otherwise aid in enhancing voluntary compliance with this Act by the respondent and other persons similarly subject to the Act;
- (5) the number, proximity in time, and gravity of previously adjudicated violations of this Act by the respondent;
- (6) whether the respondent voluntarily self-disclosed, in accordance with subsection (i) of this Section, the non-compliance to the Agency; and
- (7) whether the respondent has agreed to undertake a "supplemental environmental project," which means an environmentally beneficial project that a respondent agrees to undertake in settlement of an enforcement action brought under this Act, but which the respondent is not otherwise legally required to perform.

In determining the appropriate civil penalty to be imposed under subsection (a) or paragraph (1), (2), (3), or (5) of subsection (b) of this Section, the Board shall ensure, in all cases, that the penalty is at least as great as the economic benefits, if any, accrued by the respondent as a result of the violation, unless the Board finds that imposition of such penalty would result in an arbitrary or unreasonable financial hardship. However, such civil penalty may be off-set in whole or in part pursuant to a supplemental environmental project agreed to by the complainant and the respondent.

(i) A person who voluntarily self-discloses non-compliance to the Agency, of which the Agency had been unaware, is entitled to a 100% reduction in the portion of the penalty that is not based on the economic benefit of non-compliance if the person can establish the following:

- (1) that the non-compliance was discovered through an environmental audit or a compliance management system documented by the regulated entity as reflecting the regulated entity's due diligence in preventing, detecting, and correcting violations;
- (2) that the non-compliance was disclosed in writing within 30 days of the date on which the person discovered it;
- (3) that the non-compliance was discovered and disclosed prior to:
 - (i) the commencement of an Agency inspection, investigation, or request for information;
 - (ii) notice of a citizen suit;
 - (iii) the filing of a complaint by a citizen, the Illinois Attorney General, or the State's Attorney of the county in which the violation occurred;
 - (iv) the reporting of the non-compliance by an employee of the person without that person's knowledge; or
 - (v) imminent discovery of the non-compliance by the Agency;
- (4) that the non-compliance is being corrected and any environmental harm is being remediated in a timely fashion;
- (5) that the person agrees to prevent a recurrence of the non-compliance;
- (6) that no related non-compliance events have occurred in the past 3 years at the same facility or in the past 5 years as part of a pattern at multiple facilities owned or operated by the person;
- (7) that the non-compliance did not result in serious actual harm or present an imminent and substantial endangerment to human health or the environment or violate the specific terms of any judicial or administrative order or consent agreement;
- (8) that the person cooperates as reasonably requested by the Agency after the disclosure; and
- (9) that the non-compliance was identified voluntarily and not through a monitoring, sampling, or auditing procedure that is required by statute, rule, permit, judicial or administrative order, or consent agreement.

If a person can establish all of the elements under this subsection except the element set forth in paragraph (1) of this subsection, the person is entitled to a 75% reduction in the portion of the penalty that is not based upon the economic benefit of non-compliance.

(j) In addition to an other remedy or penalty that may apply, whether civil or criminal, any person who

violates Section 22.52 of this Act shall be liable for an additional civil penalty of up to 3 times the gross amount of any pecuniary gain resulting from the violation.

SENATE BILL RECALLED

On motion of Senator Harmon, **Senate Bill No. 1609** was recalled from the order of third reading to the order of second reading.

Senator Harmon offered the following amendment and moved its adoption:

[April 1, 2009]

AMENDMENT NO. 1 TO SENATE BILL 1609

AMENDMENT NO. 1. Amend Senate Bill 1609 by replacing everything after the enacting clause with the following:

"Section 5. The Design-Build Procurement Act is amended by changing Section 30 as follows:
(30 ILCS 537/30)

(Section scheduled to be repealed on July 1, 2009)

Sec. 30. Procedures for Selection.

(a) The State construction agency must use a two-phase procedure for the selection of the successful design-build entity. Phase I of the procedure will evaluate and shortlist the design-build entities based on qualifications, and Phase II will evaluate the technical and cost proposals.

(b) The State construction agency shall include in the request for proposal the evaluating factors to be used in Phase I. These factors are in addition to any prequalification requirements of design-build entities that the agency has set forth. Each request for proposal shall establish the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the State construction agency. The State construction agency must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The State construction agency shall include the following criteria in every Phase I evaluation of design-build entities: (1) experience of personnel; (2) successful experience with similar project types; (3) financial capability; (4) timeliness of past performance; (5) experience with similarly sized projects; (6) successful reference checks of the firm; (7) commitment to assign personnel for the duration of the project and qualifications of the entity's consultants; and (8) ability or past performance in meeting or exhausting good faith efforts to meet the utilization goals for business enterprises established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act and with Section 2-105 of the Illinois Human Rights Act. The State construction agency may include any additional relevant criteria in Phase I that it deems necessary for a proper qualification review.

The State construction agency may not consider any design-build entity for evaluation or award if the entity has any pecuniary interest in the project or has other relationships or circumstances, including but not limited to, long-term leasehold, mutual performance, or development contracts with the State construction agency, that may give the design-build entity a financial or tangible advantage over other design-build entities in the preparation, evaluation, or performance of the design-build contract or that create the appearance of impropriety. No proposal shall be considered that does not include an entity's plan to comply with the requirements established in the Business Enterprise for Minorities, Females, and Persons with Disabilities Act, for both the design and construction areas of performance, and with Section 2-105 of the Illinois Human Rights Act.

Upon completion of the qualifications evaluation, the State construction agency shall create a shortlist of the most highly qualified design-build entities. The State construction agency, in its discretion, is not required to shortlist the maximum number of entities as identified for Phase II evaluation, provided however, no less than 2 design-build entities nor more than 6 are selected to submit Phase II proposals.

The State construction agency shall notify the entities selected for the shortlist in writing. This notification shall commence the period for the preparation of the Phase II technical and cost evaluations. The State construction agency must allow sufficient time for the shortlisted entities to prepare their Phase II submittals considering the scope and detail requested by the State agency.

(c) The State construction agency shall include in the request for proposal the evaluating factors to be used in the technical and cost submission components of Phase II. Each request for proposal shall establish, for both the technical and cost submission components of Phase II, the relative importance assigned to each evaluation factor and subfactor, including any weighting of criteria to be employed by the State construction agency. The State construction agency must maintain a record of the evaluation scoring to be disclosed in event of a protest regarding the solicitation.

The State construction agency shall include the following criteria in every Phase II technical evaluation of design-build entities: (1) compliance with objectives of the project; (2) compliance of proposed services to the request for proposal requirements; (3) quality of products or materials proposed; (4) quality of design parameters; (5) design concepts; (6) innovation in meeting the scope and performance criteria; and (7) constructability of the proposed project. The State construction agency may include any additional relevant technical evaluation factors it deems necessary for proper selection.

The State construction agency shall include the following criteria in every Phase II cost evaluation: the total project cost, the construction costs, and the time of completion. The State construction agency may include any additional relevant technical evaluation factors it deems necessary for proper selection. The total project cost criteria weighing factor shall be 25%.

[April 1, 2009]

The State construction agency shall directly employ or retain a licensed design professional to evaluate the technical and cost submissions to determine if the technical submissions are in accordance with generally accepted industry standards.

Upon completion of the technical submissions and cost submissions evaluation, the State construction agency may award the design-build contract to the highest overall ranked entity.

SENATE BILLS RECALLED

On motion of Senator Harmon, **Senate Bill No. 1715** was recalled from the order of third reading to the order of second reading.

Senator Harmon offered the following amendment and moved its adoption:

AMENDMENT NO. 2 TO SENATE BILL 1715

AMENDMENT NO. 2. Amend Senate Bill 1715, AS AMENDED, by replacing everything after the enacting clause with the following:

[April 1, 2009]

"Section 5. The Illinois Public Labor Relations Act is amended by changing Section 7 as follows:
(5 ILCS 315/7) (from Ch. 48, par. 1607)

Sec. 7. Duty to bargain. A public employer and the exclusive representative have the authority and the duty to bargain collectively set forth in this Section.

For the purposes of this Act, "to bargain collectively" means the performance of the mutual obligation of the public employer or his designated representative and the representative of the public employees to meet at reasonable times, including meetings in advance of the budget-making process, and to negotiate in good faith with respect to wages, hours, and other conditions of employment, not excluded by Section 4 of this Act, or the negotiation of an agreement, or any question arising thereunder and the execution of a written contract incorporating any agreement reached if requested by either party, but such obligation does not compel either party to agree to a proposal or require the making of a concession.

The duty "to bargain collectively" shall also include an obligation to negotiate over any matter with respect to wages, hours and other conditions of employment, not specifically provided for in any other law or not specifically in violation of the provisions of any law. If any other law pertains, in part, to a matter affecting the wages, hours and other conditions of employment, such other law shall not be construed as limiting the duty "to bargain collectively" and to enter into collective bargaining agreements containing clauses which either supplement, implement, or relate to the effect of such provisions in other laws.

The duty "to bargain collectively" shall also include negotiations as to the terms of a collective bargaining agreement. The parties may, by mutual agreement, provide for arbitration of impasses resulting from their inability to agree upon wages, hours and terms and conditions of employment to be included in a collective bargaining agreement. Such arbitration provisions shall be subject to the Illinois "Uniform Arbitration Act" unless agreed by the parties.

The duty "to bargain collectively" shall also mean that no party to a collective bargaining contract shall terminate or modify such contract, unless the party desiring such termination or modification:

- (1) serves a written notice upon the other party to the contract of the proposed termination or modification 60 days prior to the expiration date thereof, or in the event such contract contains no expiration date, 60 days prior to the time it is proposed to make such termination or modification;
- (2) offers to meet and confer with the other party for the purpose of negotiating a new contract or a contract containing the proposed modifications;
- (3) notifies the Board within 30 days after such notice of the existence of a dispute, provided no agreement has been reached by that time; and
- (4) continues in full force and effect, without resorting to strike or lockout, all the terms and conditions of the existing contract for a period of 60 days after such notice is given to the other party or until the expiration date of such contract, whichever occurs later.

The duties imposed upon employers, employees and labor organizations by paragraphs (2), (3) and (4) shall become inapplicable upon an intervening certification of the Board, under which the labor organization, which is a party to the contract, has been superseded as or ceased to be the exclusive representative of the employees pursuant to the provisions of subsection (a) of Section 9, and the duties so imposed shall not be construed as requiring either party to discuss or agree to any modification of the terms and conditions contained in a contract for a fixed period, if such modification is to become effective before such terms and conditions can be reopened under the provisions of the contract.

Collective bargaining for personal care attendants and personal assistants under the Home Services Program shall be limited to the terms and conditions of employment under the State's control, as defined in the amendatory Act of the 93rd General Assembly.

Collective bargaining for child and day care home providers under the child care assistance program shall be limited to the terms and conditions of employment under the State's control, as defined in this amendatory Act of the 94th General Assembly.

Notwithstanding any other provision of this Section, whenever collective bargaining is for the purpose of establishing an initial agreement following certification of units with less than 35 employees, with respect to public employees other than peace officers, fire fighters, and security employees, the following apply:

- (1) Not later than 10 days after receiving a written request for collective bargaining from an individual or labor organization that has been newly organized or certified as a representative as defined in Section 6(c), or within such further period as the parties agree upon, the parties shall meet and commence to bargain collectively and shall make every reasonable effort to conclude and sign a collective bargaining agreement.
- (2) If after the expiration of the 90-day period beginning on the date on which bargaining is

commenced, or such additional period as the parties may agree upon, the parties have failed to reach an agreement, either party may notify the Illinois Public Labor Relations Board of the existence of a dispute and request mediation. Whenever such a request is received, it shall be the duty of the Board promptly to put itself in communication with the parties and to use its best efforts, by mediation and conciliation, to bring them to agreement.

(3) If after the expiration of the 30-day period beginning on the date on which the request for mediation is made under paragraph (2), or such additional period as the parties may agree upon, the mediator is not able to bring the parties to agreement by conciliation, the mediator shall refer the dispute to an arbitration board established in accordance with this Act. The arbitration panel shall render a decision settling the dispute and such decision shall be binding upon the parties for a period of 2 years, unless amended during such period by written consent of the parties.

And the amendment was adopted and ordered printed.

There being no further amendments, the foregoing Amendment No. 2 was ordered engrossed, and the bill, as amended, was ordered to a third reading.

On motion of Senator Crotty, **Senate Bill No. 27** was recalled from the order of third reading to the order of second reading.

Senator Crotty offered the following amendment and moved its adoption:

(415 ILCS 5/22.55 new)

Sec. 22.55. Household Waste Drop-off Points.

(a) Findings; Purpose and Intent.

(1) The General Assembly finds that protection of human health and the environment can be enhanced if certain commonly generated household wastes are managed separately from the general household waste stream.

(2) The purpose of this Section is to provide, to the extent allowed under federal law, a method for managing certain types of household waste separately from the general household waste stream.

(b) Definitions. For the purposes of this Section:

"Controlled substance" means a controlled substance as defined in the Illinois Controlled Substances Act.

"Household waste" means waste generated from a single residence or multiple residences.

"Household waste drop-off point" means the portion of a site or facility used solely for the receipt and temporary storage of household waste.

"One-day household waste collection event" means a household waste drop-off point approved by the Agency under subsection (d) of this Section.

"Personal care product" means an item other than a pharmaceutical product that is consumed or applied by an individual for personal health, hygiene, or cosmetic reasons. Personal care products include, but are not limited to, items used in bathing, dressing, or grooming.

"Pharmaceutical product" means medicine or a product containing medicine. A pharmaceutical product may be sold by prescription or over the counter. "Pharmaceutical product" does not include (i) medicine that contains a radioactive component or a product that contains a radioactive component or (ii) a controlled substance.

(c) Except as otherwise provided in Agency rules, the following requirements apply to each household waste drop-off point other than a one-day household waste collection event:

(1) A household waste drop-off point must not accept waste other than the following types of household waste: pharmaceutical products, personal care products, batteries other than lead-acid batteries, paints, automotive fluids, compact fluorescent lightbulbs, mercury thermometers, and mercury thermostats.

(2) Except as provided in subdivision (c)(2) of this Section, household waste drop-off points must be located at a site or facility where the types of products accepted at the household waste drop-off point are lawfully sold, distributed, or dispensed. For example, household waste drop-off points that accept prescription pharmaceutical products must be located at a site or facility where prescription

pharmaceutical products are sold, distributed, or dispensed.

(A) Subdivision (c)(2) of this Section does not apply to household waste drop-off points operated by a government or school entity, or by an association or other organization of government or school entities.

(B) Household waste drop-off points that accept mercury thermometers can be located at any site or facility where non-mercury thermometers are sold, distributed, or dispensed.

(C) Household waste drop-off points that accept mercury thermostats can be located at any site or facility where non-mercury thermostats are sold, distributed, or dispensed.

(3) The location of acceptance for each type of waste accepted at the household waste drop-off point must be clearly identified. Locations where pharmaceutical products are accepted must also include a copy of the sign required under subsection (j) of this Section.

(4) Household waste must be accepted only from private individuals. Waste must not be accepted from other persons, including, but not limited to, owners and operators of rented or leased residences where the household waste was generated, commercial haulers, and other commercial, industrial, agricultural, and government operations or entities.

(5) If more than one type of household waste is accepted, each type of household waste must be managed separately prior to its packaging for off-site transfer.

(6) Household waste must not be stored for longer than 90 days after its receipt, except as otherwise approved by the Agency in writing.

(7) Household waste must be managed in a manner that protects against releases of the waste, prevents nuisances, and otherwise protects human health and the environment. Household waste must also be properly secured to prevent unauthorized public access to the waste, including, but not limited to, preventing access to the waste during the non-business hours of the site or facility on which the household waste drop-off point is located. Containers in which pharmaceutical products are collected must be clearly marked "No Controlled Substances".

(8) Management of the household waste must be limited to the following: (i) acceptance of the waste, (ii) temporary storage of the waste prior to transfer, and (iii) off-site transfer of the waste and packaging for off-site transfer.

(9) Off-site transfer of the household waste must comply with federal and State laws and regulations.

(d) One-day household waste collection events. To further aid in the collection of certain household wastes, the Agency may approve the operation of one-day household waste collection events. The Agency shall not approve a one-day household waste collection event at the same site or facility for more than one day each calendar quarter. Requests for approval must be submitted on forms prescribed by the Agency. The Agency must issue its approval in writing, and it may impose conditions as necessary to protect human health and the environment and to otherwise accomplish the purposes of this Act. One-day household waste collection events must be operated in accordance with the Agency's approval, including all conditions contained in the approval. The following requirements apply to all one-day household waste collection events, in addition to the conditions contained in the Agency's approval:

(1) Waste accepted at the event must be limited to household waste and must not include garbage, landscape waste, controlled substances, or other waste excluded by the Agency in the Agency's approval or any conditions contained in the approval.

Household waste must also be properly secured to prevent public access to the waste, including, but not limited to, preventing access to the waste during the event's non-business hours.

(4) Management of the household waste must be limited to the following: (i) acceptance of the waste, (ii) temporary storage of the waste before transfer, and (iii) off-site transfer of the waste or packaging for off-site transfer.

(5) Except as otherwise approved by the Agency, all household waste received at the collection event must be transferred off-site by the end of the day following the collection event.

(6) The transfer and ultimate disposition of household waste received at the collection event must comply with the Agency's approval, including all conditions contained in the approval.

(e) The Agency may adopt rules governing the operation of household waste drop-off points other

than one-day household waste collection events. Those rules must be designed to protect against releases of waste to the environment, prevent nuisances, and otherwise protect human health and the environment. As necessary to address different circumstances, the regulations may contain different requirements for different types of household waste and different types of household waste drop-off points, and the regulations may modify the requirements set forth in subsection (c) of this Section. The regulations may include, but are not limited to, the following: (i) identification of additional types of household waste that can be collected at household waste drop-off points, (ii) identification of the different types of household wastes that can be received at different household waste drop-off points, (iii) the maximum amounts of each type of household waste that can be stored at household waste drop-off points at any one time, and (iv) the maximum time periods each type of household waste can be stored at household waste drop-off points.

(f) Prohibitions.

(1) Except as authorized in a permit issued by the Agency, no person shall cause or allow the operation of a household waste drop-off point other than a one-day household waste collection event in violation of this Section or any regulations adopted under this Section.

(2) No person shall cause or allow the operation of a one-day household waste collection event in violation of this Section or the Agency's approval issued under subsection (d) of this Section, including all conditions contained in the approval.

(g) Permit exemptions.

(1) No permit is required under subdivision (d)(1) of Section 21 of this Act for the operation of a household waste drop-off point other than a one-day household waste collection event if the household waste drop-off point is operated in accordance with this Section and all regulations adopted under this Section.

(2) No permit is required under subdivision (d)(1) of Section 21 of this Act for the operation of a one-day household waste collection event if the event is operated in accordance with this Section and the Agency's approval issued under subsection (d) of this Section, including all conditions contained in the approval, or for the operation of a household waste collection event by the Agency.

(h) This Section does not apply to the following:

(40 ILCS 5/15-136.4)

Sec. 15-136.4. Retirement and Survivor Benefits Under Portable Benefit Package.

(a) This Section 15-136.4 describes the form of annuity and survivor benefits available to a participant who has elected the portable benefit package and has completed the one-year waiting period required under subsection (e) of Section 15-134.5. For purposes of this Section, the term "eligible spouse" means the husband or wife of a participant to whom the participant is married on the date the participant's ~~retirement~~ annuity payment period begins, provided however, that if the participant should die prior to the commencement of retirement annuity benefits, then "eligible spouse" means the husband or wife, if any, to whom the participant was married throughout the one-year period preceding the date of his or her death.

(b) This subsection (b) describes the normal form of annuity payable to a participant subject to this Section 15-136.4. If the participant is unmarried on the date his or her annuity payment period begins ~~payments commence~~, then the annuity payments shall be made in the form of a single-life annuity as described in Section 15-118. If the participant is married on the date his or her annuity payments commence, then the annuity payments shall be paid in the form of a qualified joint and survivor annuity that is the actuarial equivalent of the single-life annuity. Under the "qualified joint and survivor annuity", a reduced amount shall be paid to the participant for his or her lifetime and his or her eligible spouse, if surviving at the participant's death, shall be entitled to receive thereafter a lifetime survivorship annuity in a monthly amount equal to 50% of the reduced monthly amount that was payable to the participant. The last payment of a qualified joint and survivor annuity shall be made as of the first day of the month in which the death of the survivor occurs.

(c) Instead of the normal form of annuity that would be paid under subsection (b), a participant may elect in writing within the 90-day period prior to the date his or her annuity payments commence to waive the normal form of annuity payment and receive an optional form of payment annuity as described in subsection (h). If the participant is married and elects an optional form of payment annuity under subsection (h) other than a joint and survivor annuity with the eligible spouse designated as the contingent annuitant, then such election shall require the consent of his or her eligible spouse in the manner described in subsection (d). At any time during the 90-day period preceding the date the

participant's payment period begins ~~annuity commences~~, the participant may revoke the optional form of payment elected under this subsection (c) and reinstate coverage under the qualified joint and survivor annuity without the spouse's consent, but an election to revoke the optional form elected and elect a new optional form of payment or designate a different contingent annuitant shall not be effective without the eligible spouse's consent.

(d) The eligible spouse's consent to any election made pursuant to this Section that requires the eligible spouse's consent shall be in writing and shall acknowledge the effect of the consent. In addition, the eligible spouse's signature on the written consent must be witnessed by a notary public. The eligible spouse's consent need not be obtained if the system is satisfied that there is no eligible spouse, that the eligible spouse cannot be located, or because of any other relevant circumstances. An eligible spouse's consent under this Section is valid only with respect to the specified optional form of payment and, if applicable, contingent annuitant designated by the participant. If the optional form of payment or the contingent annuitant is subsequently changed (other than by a revocation of the optional form of payment and reinstatement of the qualified joint and survivor annuity), a new consent by the eligible spouse is required. The eligible spouse's consent to an election made by a participant pursuant to this Section, once made, may not be revoked by the eligible spouse.

(e) Within a reasonable period of time preceding the date a participant's annuity commences, a participant shall be supplied with a written explanation of (1) the terms and conditions of the normal form single-life annuity and qualified joint and survivor annuity, (2) the participant's right to elect a single-life annuity or an optional form of payment under subsection (h) subject to his or her eligible spouse's consent, if applicable, and (3) the participant's right to reinstate coverage under the qualified joint and survivor annuity prior to his or her annuity commencement date by revoking an election of an optional form of payment benefit under subsection (h).

(f) If a married participant with at least 1.5 years of service dies prior to commencing retirement annuity payments and prior to taking a refund under Section 15-154, his or her eligible spouse is entitled to receive a pre-retirement survivor annuity, if there is not then in effect a waiver of the pre-retirement survivor annuity. The pre-retirement survivor annuity payable under this subsection shall be a monthly annuity payable for the eligible spouse's life, commencing as of the beginning of the month next following the later of the date of the participant's death or the date the participant would have first met the eligibility requirements for retirement, and continuing through the beginning of the month in which the death of the eligible spouse occurs. The monthly amount payable to the spouse under the pre-retirement survivor annuity shall be equal to the monthly amount that would be payable as a survivor annuity under the qualified joint and survivor annuity described in subsection (b) if: (1) in the case of a participant who dies on or after the date on which the participant has met the eligibility requirements for retirement, the participant had retired with an immediate qualified joint and survivor annuity on the day before the participant's date of death; or (2) in the case of a participant who dies before the earliest date on which the participant would have met the eligibility requirements for retirement age, the participant had separated from service on the date of death, survived to the earliest retirement age based on service prior to his or her death, retired with an immediate qualified joint and survivor annuity at the earliest retirement age, and died on the day after the day on which the participant would have attained the earliest retirement age.

(g) A married participant who has not retired may elect at any time to waive the pre-retirement survivor annuity described in subsection (f). Any such election shall require the consent of the participant's eligible spouse in the manner described in subsection (d) ~~(e)~~. A waiver of the pre-retirement survivor annuity shall increase the lump sum death benefit payable under subsection (b) of Section 15-141. Prior to electing any waiver of the pre-retirement survivor annuity, the participant shall be provided with a written explanation of (1) the terms and conditions of the pre-retirement survivor annuity and the death benefits payable from the system both with and without the pre-retirement survivor annuity, (2) the participant's right to elect a waiver of the pre-retirement survivor annuity coverage subject to his or her spouse's consent, and (3) the participant's right to reinstate pre-retirement survivor annuity coverage at any time by revoking a prior waiver of such coverage.

(h) By filing a timely election with the system, a participant who will be eligible to receive a retirement annuity under this Section may waive the normal form of annuity payment described in subsection (b), subject to obtaining the consent of his or her eligible spouse, if applicable, and elect to receive any one of the following optional forms of payment:

(1) Joint and Survivor Annuity Options: The participant may elect to receive a reduced annuity payable for his or her life and to have a lifetime survivorship annuity in a monthly amount equal to 50%, 75%, or 100% (as elected by the participant) of that reduced monthly amount, to be paid after the participant's death to his or her contingent annuitant, if the contingent annuitant is alive

at the time of the participant's death.

(2) Single-Life Annuity Option (optional for married participants). The participant may elect to receive a single-life annuity payable for his or her life only.

(3) Lump sum retirement benefit. The participant may elect to receive a lump sum retirement benefit that is equal to the amount of a refund payable under Section 15-154(a-2).

All ~~joint and survivor optional~~ annuity forms shall be in an amount that is the actuarial equivalent of the single-life annuity.

For the purposes of this Section, the term "contingent annuitant" means the beneficiary who is designated by a participant at the time the participant elects a joint and survivor annuity to receive the lifetime survivorship annuity in the event the beneficiary survives the participant at the participant's death.

(i) Under no circumstances may an option be elected, changed, or revoked after the date the participant's retirement annuity commences.

(j) An election made pursuant to subsection (h) shall become inoperative if the participant or the contingent annuitant dies before the date the participant's annuity payments commence, or if the eligible spouse's consent is required and not given.

(k) (Blank).

(l) The automatic annual increases described in subsection (d) of Section 15-136 shall apply to retirement benefits under the portable benefit package and the automatic annual increases described in subsection (j) of Section 15-145 shall apply to survivor benefits under the portable benefit package.

(20 ILCS 655/5.5) (from Ch. 67 1/2, par. 609.1)

Sec. 5.5. High Impact Business.

(a) In order to respond to unique opportunities to assist in the encouragement, development, growth and expansion of the private sector through large scale investment and development projects, the Department is authorized to receive and approve applications for the designation of "High Impact Businesses" in Illinois subject to the following conditions:

- (1) such applications may be submitted at any time during the year;
- (2) such business is not located, at the time of designation, in an enterprise zone designated pursuant to this Act;
- (3) the business intends to do one or more of the following:

(A) the business intends to make a minimum investment of \$12,000,000 which will be placed in service in qualified property and intends to create 500 full-time equivalent jobs at a designated location in Illinois or intends to make a minimum investment of \$30,000,000 which will be placed in service in qualified property and intends to retain 1,500 full-time jobs at a designated location in Illinois. The business must certify in writing that the investments would not be placed in service in qualified property and the job creation or job retention would not occur without the tax credits and exemptions set forth in subsection (b) of this Section. The terms "placed in service" and "qualified property" have the same meanings as described in subsection (h) of Section 201 of the Illinois Income Tax Act; or

(B) the business intends to establish a new electric generating facility at a designated location in Illinois. "New electric generating facility", for purposes of this Section, means a newly-constructed electric generation plant or a newly-constructed generation capacity expansion at an existing electric generation plant, including the transmission lines and associated equipment that transfers electricity from points of supply to points of delivery, and for which such new foundation construction commenced not sooner than July 1, 2001. Such facility shall be designed to provide baseload electric generation and shall operate on a continuous basis throughout the year; and (i) shall have an aggregate rated generating capacity of at least 1,000 megawatts for all new units at one site if it uses natural gas as its primary fuel and foundation construction of the facility is commenced on or before December 31, 2004, or shall have an aggregate rated generating capacity of at least 400 megawatts for all new units at one site if it uses coal or gases derived from coal as its primary fuel and shall support the creation of at least 150 new Illinois coal mining jobs, or (ii) shall be funded through a federal Department of Energy grant before December 31, 2010 and shall support the creation of Illinois coal-mining jobs, or (iii) shall use coal gasification or integrated gasification-combined cycle units that generate electricity or chemicals, or both, and shall support the creation of Illinois coal-mining jobs. The business must certify in writing that the investments necessary to establish a new electric generating facility would not be placed in service and the job creation in the case of a coal-fueled plant would not occur without the tax credits and exemptions set forth in subsection (b-5) of this Section. The term "placed in service" has the same meaning as described in subsection (h) of Section 201 of the Illinois Income Tax Act; or

(B-5) the business intends to establish a new gasification facility at a designated location in Illinois. As used in this Section, "new gasification facility" means a newly constructed coal gasification facility that generates chemical feedstocks or transportation fuels derived from coal (which may include, but are not limited to, methane, methanol, and nitrogen fertilizer), that supports the creation or retention of Illinois coal-mining jobs, and that qualifies for financial assistance from the Department before December 31, 2010. A new gasification facility does not include a pilot project located within Jefferson County or within a county adjacent to Jefferson County for synthetic natural gas from coal; or

(C) the business intends to establish production operations at a new coal mine, re-establish production operations at a closed coal mine, or expand production at an existing coal mine at a designated location in Illinois not sooner than July 1, 2001; provided that the production operations result in the creation of 150 new Illinois coal mining jobs as described in subdivision (a)(3)(B) of this Section, and further provided that the coal extracted from such mine is utilized as the predominant source for a new electric generating facility. The business must certify in writing that the investments necessary to establish a new, expanded, or reopened coal mine would not be placed in service and the job creation would not occur without the tax credits and exemptions set forth in subsection (b-5) of this Section. The term "placed in service" has the same meaning as

For the purposes of this Section, "transmission facilities" means transmission lines with a voltage rating of 115 kilovolts or above, including associated equipment, that transfer electricity from points of supply to points of delivery and that transmit a majority of the electricity generated by a new electric generating facility designated as a High Impact Business in accordance with this Section. The business must certify in writing that the investments necessary to construct new transmission facilities or upgrade existing transmission facilities would not be placed in service without the tax credits and exemptions set forth in subsection (b-5) of this Section. The term "placed in service" has the same meaning as described in subsection (h) of Section 201 of the Illinois Income Tax Act; ~~or~~ ~~and~~

(E) the business intends to establish a new wind power facility at a designated location in Illinois. For purposes of this Section, "new wind power facility" means a newly constructed electric generation facility, or a newly constructed expansion of an existing electric generation facility, placed in service on or after July 1, 2009, that generates electricity using wind energy devices, and such facility shall be deemed to include all associated transmission lines, substations, and other equipment related to the generation of electricity from wind energy devices. For purposes of this Section, "wind energy device" means any device, with a nameplate capacity of at least 0.5 megawatts, that is used in the process of converting kinetic energy from the wind to generate electricity; and

(4) no later than 90 days after an application is submitted, the Department shall notify the applicant of the Department's determination of the qualification of the proposed High Impact Business under this Section.

(b) Businesses designated as High Impact Businesses pursuant to subdivision (a)(3)(A) of this Section shall qualify for the credits and exemptions described in the following Acts: Section 9-222 and Section 9-222.1A of the Public Utilities Act, subsection (h) of Section 201 of the Illinois Income Tax Act, and Section 1d of the Retailers' Occupation Tax Act; provided that these credits and exemptions described in these Acts shall not be authorized until the minimum investments set forth in subdivision (a)(3)(A) of this Section have been placed in service in qualified properties and, in the case of the exemptions described in the Public Utilities Act and Section 1d of the Retailers' Occupation Tax Act, the minimum full-time equivalent jobs or full-time jobs set forth in subdivision (a)(3)(A) of this Section have been created or retained. Businesses designated as High Impact Businesses under this Section shall also qualify for the exemption described in Section 5l of the Retailers' Occupation Tax Act. The credit provided in subsection (h) of Section 201 of the Illinois Income Tax Act shall be applicable to investments in qualified property as set forth in subdivision (a)(3)(A) of this Section.

(b-5) Businesses designated as High Impact Businesses pursuant to subdivisions (a)(3)(B), (a)(3)(B-5), (a)(3)(C), and (a)(3)(D) of this Section shall qualify for the credits and exemptions described in the following Acts: Section 5l of the Retailers' Occupation Tax Act, Section 9-222 and Section 9-222.1A of the Public Utilities Act, and subsection (h) of Section 201 of the Illinois Income Tax Act; however, the credits and exemptions authorized under Section 9-222 and Section 9-222.1A of the Public Utilities Act, and subsection (h) of Section 201 of the Illinois Income Tax Act shall not be authorized until the new electric generating facility, the new gasification facility, the new transmission facility, or the new, expanded, or reopened coal mine is operational, except that a new electric generating facility whose primary fuel source is natural gas is eligible only for the exemption under Section 5l of the Retailers' Occupation Tax Act.

(b-6) Businesses designated as High Impact Businesses pursuant to subdivision (a)(3)(E) of this Section shall qualify for the exemptions described in Section 5l of the Retailers' Occupation Tax Act; any business so designated as a High Impact Business being, for purposes of this Section, a "Wind Energy Business".

(c) High Impact Businesses located in federally designated foreign trade zones or sub-zones are also eligible for additional credits, exemptions and deductions as described in the following Acts: Section 9-221 and Section 9-222.1 of the Public Utilities Act; and subsection (g) of Section 201, and Section 203 of the Illinois Income Tax Act.

(d) ~~Except for businesses contemplated under subdivision (a)(3)(E) of this Section, existing~~ Existing Illinois businesses which apply for designation as a High Impact Business must provide the Department with the prospective plan for which 1,500 full-time jobs would be eliminated in the event that the business is not designated.

(e) ~~Except for new wind power facilities contemplated under subdivision (a)(3)(E) of this Section,~~ new New proposed facilities which apply for designation as High Impact Business must provide the

Department with proof of alternative non-Illinois sites which would receive the proposed investment and job creation in the event that the business is not designated as a High Impact Business.

(f) Except for businesses contemplated under subdivision (a)(3)(E) of this Section, in the event that a business is designated a High Impact Business and it is later determined after reasonable notice and an opportunity for a hearing as provided under the Illinois Administrative Procedure Act, that the business would have placed in service in qualified property the investments and created or retained the requisite number of jobs without the benefits of the High Impact Business designation, the Department shall be required to immediately revoke the designation and notify the Director of the Department of Revenue who shall begin proceedings to recover all wrongfully exempted State taxes with interest. The business shall also be ineligible for all State funded Department programs for a period of 10 years.

(g) The Department shall revoke a High Impact Business designation if the participating business fails to comply with the terms and conditions of the designation. However, the penalties for new wind power facilities or Wind Energy Businesses for failure to comply with any of the terms or conditions of the Illinois Prevailing Wage Act shall be only those penalties identified in the Illinois Prevailing Wage Act, and the Department shall not revoke a High Impact Business designation as a result of the failure to comply with any of the terms or conditions of the Illinois Prevailing Wage Act in relation to a new wind power facility or a Wind Energy Business.

(h) Prior to designating a business, the Department shall provide the members of the General Assembly and Commission on Government Forecasting and Accountability with a report setting forth the terms and conditions of the designation and guarantees that have been received by the Department in relation to the proposed business being designated.
