Proceed.

SENATOR HASTINGS:

It brings me a -- a great pleasure today to have the future leaders of our country in the gallery. I was hoping you guys could please rise so you could be recognized. We have Barack Obama and Jesse White Elementary Schools here, led by Mrs. Brown-Williams, who so graciously took {sic} her school down here. It's the eighth grade class and they are just awesome young people. We built these two new schools in the south suburbs. They have the opportunity to learn great things. They are just awesome people. I see 'em walking around. I heard a lot of "Yes, I'm excited to be here today." Right? We heard a lot of, yeses, you're excited to be here today? Great. And then we also -- one of the -- the neat historical facts about this Chamber is that we had the Barack Obama sit in those two seats right there, and then standing next to me is the gentleman who actually replaced Senator Obama, Senator Kwame Raoul. And I just want to say thanks to you guys for coming down and we want to give you a warm Springfield welcome. Thank you, Mr. President.

SENATOR ROSE:

Thank you, Mr. President. Ladies and Gentlemen, Senate Bill 3232 would create a five-year demonstration program in the Illinois Public Aid Code to amplify a privately funded bridge to self-sufficiency for individuals currently living in poverty. It's a very unique idea that came from one of our local hospitals in central Illinois, Carle Hospital in particular. And -- you know, right now, people sort of get stuck in -- in poverty and they're not -- you know, they -- they can't necessarily get a job without giving up some of their benefits and they never get to that next level where they don't have to keep -- to get beyond benefits. This would create a thirty-six-month-long pilot program - again, it would be through a -- a local entity, no GRF involved - that would allow us to get these people to work, get them the training they need to get out of poverty, and stay -- and become self-sufficient taxpaying Illinoisans. I would like to personally thank Senator Scott Bennett for his help on this, who has also been critical and instrumental in supporting this bill, along with myself on behalf of our local folks, Carle Hospital. We believe this will be great for employment in our area and help people, move people out of poverty and into the workforce. Thank you, Mr.

To the bill, Senator.

SENATOR HAINE:

I'm strongly in favor of the bill. It benefits the Senator's district and I do want to call attention, I couldn't help but notice there's a reference to Pulaski County. And as a matter of historical reference, Count Pulaski was a Polish Count, who trained as an officer in the Russian Army and rebelled with the Polish Nationalists in 1780 {sic} against the Czar of Russia and came to the United States to join the American Revolution. He was a very effective military officer. Flash forward to World War II, when the Nazis destroyed the Polish Air Force on the ground in 1939 as they invaded the -- most of the Polish pilots fled west. And fully -- twenty-five percent of the RAF in the Battle of Britain were Polish pilots, and then the battle of -- over Monte Cassino, the Polish Legion which fled Russia, came to Italy, fought under General Clark and took Monte Cassino and smashed the German line, led by General Kesselring. So we have a history of Polish actions for freedom and liberty throughout the world. And I'm not Polish. It's too bad Dan Kotowski isn't here to hear my little historical reference. SENATOR SCHIMPF:

Thank you, Mr. President, Members of the Senate. Senate Bill 3309 is a -- is an initiative of DNR. It's a cleanup bill. It allows -- it amends the Abandoned Mines -- Mined Lands and Water Reclamation Act. we need to support legislative initiatives and policies, as well as to inform the Governor of some issues that we might want to move forward on. As you know, women and girls represent over fifty percent of the population of Illinois, and, yet, for full-time women, we know that for every full-time worker, they make eighty cents per the dollar of their male counterparts. So those are various issues that we would like to consider.

It is not in the budget because we have not put together a budget yet, nor has there been any discussions or in -- in negotiations regarding this piece of legislation. PRESIDING OFFICER: (SENATOR MUÑOZ)

Senator Syverson.

SENATOR SYVERSON:

Thank you. I don't doubt the good work that these home care workers are doing. The concern is, we have billions of dollars of unpaid bills. We have long-term care facilities that haven't been paid. We have seniors that aren't getting paid. We have schools that aren't getting paid. We have large number of people that we have made promises to that we are not currently funding and to have this record amount of increased spending without any revenue to fund it, I think would be a -- would be a mistake. And I, I guess, reluctantly request that we vote a No on this eight hundred million dollars of new spending, and instead let's work on getting our current budget passed and then we can talk about these kinds of bills in the future, once we have a true balanced budget. Ladies and Gentlemen here in the Senate, I think this is a - a good idea. We would all like to help these people and we have a lot of other good ideas of ways that we would like to help other people throughout the State. But as the sponsor just indicated, it might be a good idea for us to sit down and try to figure out a budget before we go spending another eight hundred million dollars - which we don't have. And, realistically, we have some very tough work to do. We'd have to make some tough choices in deciding which programs we're going to cut in order to have a balanced budget and have this additional eight hundred million dollars coming from somewhere. So, until we figure out which programs we're going to cut by eight hundred million dollars, I would strongly encourage us to vote No on this. It makes no sense to just keep thinking we can spend another hundred million here, five hundred million there, billion there. As former Illinois Senator Everett Dirksen said many, many years ago, billion here and a billion there soon adds up to real money. Thank you.

SENATOR AQUINO:

We had -- I made the commitment to make sure that we were -- I didn't make a commitment that I was going to hold it on 2nd. What I did make a commitment, was that we were going to bring all parties together, and because of the deadline, they are -- there is a commitment from the -- the Comptroller's Office that they are going to put it in as an amendment in the House. In terms of the deadline, that's why I want to move it forward. The -- CMS, I talked to them. We can -- if -- if -- if you want, I can pull it now and we can get a -- a word from CMS that they -- they've had those conversations with -- with the Comptroller's Office. If you want me to do that, I'm fine. But, from my understanding, they're going to be okay with the language. We're just waiting on them to

Yes -- yes, Senator, and I do appreciate the short timeline that, you know, we're all feeling a little pressure under, but if you would accommodate us and pull it so that we can confirm that CMS is no longer opposed, that would be a great help to us.

PRESIDING OFFICER: (SENATOR MUÑOZ)

Senator Aquino.

SENATOR AQUINO:

I'll pull it. They -- they -- let me just be clear. They have language that they're going to be not opposed once -- the language in the House. I believe, to this, you know, they're probably going to be opposed without the language here in the Senate. I'm not going to wait for the language here in the Senate. Thank you, Mr. President and Members of the Senate. Senate Bill 1829 amends the School Code. The State's preschool program, known as Preschool for All, operates in both school and community-based settings. This mixed delivery model is one of the system's greatest assets. Unfortunately, community providers have been disproportionately affected by the statewide teacher shortage. This is a bill that tries to find different ways for a piloted program to get certified preschool teachers into classrooms where there are shortages and where community-based childcare programs really can't compete with school districts on wages, benefits, and other things you get when you work for a school district. The bill amends the definition of both "gross" and "net" income to provide that maintenance payments must not be considered income. Thank you, Mr. President and Members of the Senate. Senate Bill 2298 creates the Industrial Hemp Act, which requires a person to apply to the Illinois Department of Agriculture for a license to cultivate and a registration to process industrial hemp. Bill gives the Department the discretion to adopt rules necessary for the administration and enforcement of the Act, including rules concerning the standards and criteria for licensure and registration as well as testing requirements. At this moment, we -- there is going to be some small amendment that I'm aware of just to do some cleanup stuff for DNR. Outside of that, I think this bill is ready to move and I look for all green lights. I'm happy to take any questions and I ask for an Aye vote.

SENATOR SYVERSON:

Thank you, Mr. President. There has been a -- a long-standing interpretation, Attorney General's interpretation, that talked about township officials not being able to hold a job in the same township where they are an elected township official. Recently, there's been a couple cases where that has been abused. And so with this legislation, we have clarified that, yes, in fact, if you are an elected township official, you cannot work for that township. This language was worked on with the Attorney General's Office and with the Township Officials, who both support this clarifying language. I would be happy to answer any questions; otherwise, seek a favorable roll call.

Currently, tort awards are capped at a hundred thousand dollars, except for torts involving a State employee's operation of a vehicle, which are not capped. 2481 would raise the cap to two million dollars for all cases filed on or after July 1st of 2015. Auto-related claims will remain uncapped. Senate Bill 2481 makes additional procedural changes to clean up the Court of Claims Act at the request of the Court of Claims. Thank you, Mr. President and Members of the Senate. Senate Bill 2559 requires the Illinois Student Assistance Commission to develop a three-year education loan information pilot program for use by each public institution of higher learning that enrolls eligible students for financial aid. Each institution would be required to communicate with each student - it could be in email form - or to their guardians annually, detailing the education loan amounts and the repayment amounts for that individual. You know, the purpose of this legislation is that there's evidence that students really don't have a good understanding of what's in their financial aid packages or how much they may owe once they graduate from a four-year or two-year institution. PRESIDING OFFICER: (SENATOR MUÑOZ)

Senator Syverson.

SENATOR SYVERSON:

Thank you, Mr. President. The -- the number one complaint that the FCC receives every year is from problems involving telemarketing robocalls. They actually receive a staggering thirteen thousand complaints a day, making it the number one complaint filed. In 2017, there was an estimated 2.5 billion robocalls made in the United States. That's up twice as much from the previous year. That's being caused because of new technology with Internet-powered systems that allow for more sophisticated and faster calling systems. In the past, many of these calls were just annoying. You could see the ID, that it was from out of state or out of country, and you wouldn't answer the phone. That has changed today because of what they call spoofing, where individuals receive phone calls and, on your phone ID, you see a local phone number and you think it's a local person calling and you answer the phone and it turns out to be a robocall from out of state or out of country. This legislation tries to address a couple of those issues. One, is it bans the use of spoofing, which means you can't change the ID on the phone that you're calling. So when you're receiving a phone call, they cannot spoof or change that phone ID number that you see on your screen to a local phone. And second, it matches the -- mirrors the federal laws when it comes to giving the Attorney General the power to prosecute and go after these telemarketing companies. We've worked with the

telecommunications companies and the Attorney General's Office to pass this legislation. I do want to clarify that not-for-profits and charitable groups are not -- are not in the underlying part of this bill, are exempted and are not affected by this legislation. With that in mind, I'd be happy to answer any questions. Oh, the last thing is the criminal -- criminal side. Robocalls have cost consumers hundreds of millions of dollars, as they're -- have been fraudulently taken by people scamming. The most recent large scam was IRS calls, in which individuals have lost over a hundred and fifty million dollars from people calling, using local phone numbers, posing themselves as IRS agents wanting to collect those dollars. So this is something that's not just an annoyance, but it is something that is criminally a problem as well. So with that, I'm happy to answer any questions, or otherwise seek a favorable roll call.

Thank -- thank you, Mr. President. We're going back to 3560. There was some confusion earlier if CMS was in support or not. They -- we -- we got an email and confirmation that Senator Tracy was asking for. So we are working with them and -- excuse me, Comptroller's Office and CMS are working together to make sure that there is language in the House. They are supportive. So we would like to move this out, have an amendment in the House, and we will be concurring when it comes back. I -- I ask for an Aye vote. Thank you.

PRESIDING OFFICER: (SENATOR MUÑOZ)

Any discussion? Senator McCarter, for what purpose do you seek recognition?

SENATOR McCARTER:

To the bill.

PRESIDING OFFICER: (SENATOR MUÑOZ)

To the bill, Senator.

SENATOR McCARTER:

Ladies and Gentlemen, this is a common theme: We'll -- we'll -- we'd like to pass this through and we'll bring it back with an amendment. Most of the time, the -- there's a real agreement on this, not all the time. This was one of those times. It wasn't clear, that's the reason I voted No and this is the reason I'm going to vote No again. Thank you.

PRESIDING OFFICER: (SENATOR MUÑOZ)

No other discussion. The question is, shall Senate Bill 3560 pass. All those in favor, vote Aye. Opposed, Nay. The voting is open. Have all voted who wish? Have all voted who wish?
