After thirty-seven years, Deb is retiring after -- after the 2018 Illinois State Fair. When her husband retires in three years, they're going to move to her family's farm, the Stille farm, which is in Madison County, Representative Charlie Meier and Senator Kyle McCarter's districts. Senate Floor Amendment 1 deletes all and becomes the bill. It provides for the administration of the Grow Your Own Teacher Initiative and preparation program by Grow Your Own Illinois, rather than by the Board of Higher Ed. It also provides that, subject to appropriations, the Board of Higher Education shall allocate funds to Grow Your Own Illinois for purposes of administering the program and awarding grants to the GYOT Initiative. It also expands the definition of "eligible schools" to include early childhood programs in which less than sixty percent of the children it serves are receiving subsidized care. And I'll be happy to answer any questions.

SENATOR ROONEY:

Mr. President, I know it's no secret that over here on our side of the aisle the -- the Grow Your Own program is something that we've often been resistant to, but we appreciate the work of the sponsor on this bill. This bill, in particular, is -- is a fine addition that says there are other levels that people who are going into teaching might want to teach at that, quite frankly, have a better bang for the buck. I think, in the committee, we all agreed that this is a great addition to a program that, quite frankly, we always haven't been supportive of. So I think that this initiative is a good one and I encourage a Yes vote.

SENATOR ANDERSON:

Thank you, Mr. President. House Bill 5693, again, is like language from the House of a bill that we already passed over here. This bill did pass unanimously in -- in both Chambers. What this bill does is it allows trappers -- as of right now, they have to put their personal information and their ID number on the tags on their traps. This would just allow them to use their identification number, which DNR can look up and find their personal information. Again, no opposition. I would ask for a favorable vote.

SENATOR HUTCHINSON:

Thank you for asking that. This -- the original bill, the language called for the architectural guidelines thing that was -- that had a number of provisions in there that were very, very costly. So after conversations with the Office of the Architect of the Capitol, the Secretary of the Senate, our very own Secretary of the Senate here, we were able to identify three existing rooms already. So -- and we took out the language that said that we needed to go by those guidelines so that we could just adapt rooms that we had here. It gives them lots -- a lot more flexibility. Said price tag is nowhere near what it was that, I think, scared all of us when we were first talking about this. So we can identify rooms already, and then as the Capitol goes through other -- other renovations in the future, we know to prepare for lactation rooms. But there'll be no moving of sinks and -- and laying terrazzo floors and high -- it'll be none of that.

The General Assembly would then have sixty days to approve, deny, or modify such a request or else it is deemed approved. I understand that this is a change from what we did with the education formula; however, it just allows, instead of going to the Leaders, it allows Legislators who live in the district to at least have a look at what their school districts are asking to do. I know of no opposition.

SENATOR WEAVER:

Okay. I'd just like people to think about this for just a moment here. We are looking at this bill from a perspective of something that was negotiated very aggressively last year in our -- where we went to the evidence-based model in our school education. Two things that we felt were very important: One was, of course, with regard to our funding that we could do outside of the education process; the other one was with regard to this mandate waiver. I know, when I was out talking to people in the district, I was very proud to say that we had made this process much easier, where local districts would have the ability to come back with a requested waiver and only have that waiver addressed by four Leaders or four people who were representing the Leaders of the four caucuses. It would take three of those people to vote No. I thought it was a very good process. I think it was a fair process. It was an aggressively negotiated process. And to have that pulled back after we had done good faith dealings, I think is inappropriate, and I would aggressively request a No vote on this matter. Thank you.

PRESIDING OFFICER: (SENATOR MUÑOZ)

Any further discussion? Senator Bertino-Tarrant, to close.

SENATOR BERTINO-TARRANT:

Thank you. Yes, I agree, it was negotiated. I'd -- I'd argue how aggressively it was negotiated. Again, I know under the -- we can pat ourselves on the back to say this is streamlining mandate relief, but a waiver is a waiver. Whether they have to come to the General Assembly or to the Leaders, it's -- it's still a -- it's still a -- it's still a mandate that's required. And, again,
