Her parents have been involved in local politics and that has led to her interest in government and politics. And she's excited to be a Page today so she can see firsthand how her State works. And I know her parents and, yes, they are very involved and very good people. With her, as well, is a friend of hers, Jaasiel Stauthammer. Won't you stand up? She's a sophomore at Illinois Valley (Central) High School. She's active in the band, plays clarinet, piano, saxophone. Is involved in several ensembles. Outside of school, she enjoys playing softball and she also enjoys learning about the legislative process. I also want to introduce Samantha's mom, who's Jenny Davis, who has -- who's spent some time in Springfield in a -- in a prior life. She's a -- a journalist by trade. She now works as a -- as a -- as the PR person for the Peoria airport. So I'd just like to have the Senate

Madam President, for a point of personal privilege.

PRESIDING OFFICER: (SENATOR MARTINEZ)

Can I please have everyone's attention for one moment, please?

Senator McClure, please.

SENATOR McCLURE:

Thank you, Madam President. Today I am honored to have on the Floor Colin Dobson. He's from Jacksonville. He's a senior in high school and he is also an author. He wrote "A Guide to Finding Birds Along the Illinois River Flyway". He is also widely known throughout the region as being one of the most prolific birdwatchers in Illinois. He has recorded three hundred and sixty-five species in the State and over three hundred and thirty in the Illinois River Flyway region. His notes are considered to be some of the most comprehensive records of the region over the last ten years. He can now identify one hundred percent of the birdcalls along the Illinois River region, which is a very difficult thing to do. And Colin's family is in the gallery. And so I would ask that my colleagues in the State Senate give Colin and his family a warm welcome to the State Senate.

PRESIDING OFFICER: (SENATOR MARTINEZ)

To the family, thank you, thank you for being here. Young man, very impressive. Ladies and Gentlemen, we're going to the top of page 24, continuing on 2nd Reading. Senator Hastings.

So to encompass the two questions you asked, Senator, it is my understanding that we are clarifying the term "religious corporation" in Section 5/2-101(B) includes a "place of worship", such as a church, synagogue, or mosque, with respect to the ability to employ individuals of a particular religion or -- to perform work connected with the carrying -- carrying on their activities. SENATOR McCONCHIE:

Thank you, Mr. President. Ladies and Gentlemen of the Senate, there's a lot of concern about this bill, not because of its intent, but because of what the impact necessarily would be. There is very significant issues with staffing in regards to being able to adjudicate these concerns. There's concern that by the -- this expansion, without the appropriate infrastructure to be able to adjudicate those complaints, that those complaints will take anywhere from five to nine years, not only leaving the complainant but especially those businesses in a holding pattern in regards to being able to get clarity and closure on this. I think that this is something that we'd be able to get to, but we're not quite being

There are car clubs out there that like to fix up vehicles and then donate 'em to single moms or senior citizens or other low-income individuals so they can have a vehicle to get to work or for grocery purposes or other things, and so we worked that through last year. It was 51 to 0. The House did not take it up before the end of Session. The House has now passed that and it's come back to us with one addition -- addition to it, which will allow for the issuance of a Global War on Terrorism license plate for Illinois citizens and residents who've earned the Global War on Terrorism Expeditionary Medal. Senator Cunningham.

SENATOR CUNNINGHAM:

Thank you, Mr. President. House Bill 1579 updates several current statutes that apply to threats that are made to schools in our State. Right now, the current law is mostly set up to deal with situations when someone calls in a threat to 9-1-1 or makes a specific threat about -- involving a bomb towards the school. As we know, most threats that are made against schools today are not made that way; they're often made over social media, often include references to shootings. So this would update the statutes to make sure those are included in threats against schools. Also would allow for special mental evaluations to be ordered by the court for individuals who make threats against schools. I'd be happy to answer any questions. Would appreciate your support.

Pontiac, who have been seriously, seriously, economically disadvantaged by the State of Illinois' decision to close the existing facility, have already moved down the pike on this, very, very far, and now we're coming in at the last hour trying to stop the federal government from doing this. I don't think we have the authority in the first place, so we shouldn't be engaging in this, but, also, in case people haven't noticed, there's a huge jobs problem in this State and this is really, really, bad for -- for these folks, who are counting on this for their community. communication device while operating a motor vehicle, and the violation results in an accident causing great bodily harm to any person, shall have his or her driver's license suspended for a period of one year and shall be assessed a fine of at least a thousand dollars. This bill came about from someone in our district, my -- Representative Hammond and my district, in which someone convicted of using a -- a mobile device, texting, was involved in an accident and the other vehicle driver lost their leg as a result, and the only repercussion was a fine of seventy-five dollars. And when we initially enacted the first bill about texting, it had a -- a graduated series of offenses, and I don't think it was thought through that what do we do if there's bodily harm. And, certainly, we have comparable offenses in our driver's Vehicle Code that address situations. And the idea of distracted driving, texting, and the like has evolved, and I know that we do very much to encourage people not to engage in this activity, but as the victim and his family has described, their lives are affected every day, every moment, because of this person's -- the -- the defendant's choice to text while driving. So there -- I think we do need more repercussion than a seventy-five-dollar fine and a recognition that when there is great bodily injury that a person should have to bear that punishment. So, with that, I'll be happy to answer any questions and I would appreciate an Aye vote.

Senator Glowiak.

SENATOR GLOWIAK:

Thank you, Mr. President and Members of the Senate. As amended, House Bill 2818 allows victims of sexual assault or stalking to apply for the Address Confidentiality program with the Attorney General's Office so that they may list the Attorney General's Office as their contact address instead of revealing their actual address, so running the risk that their abuser may actually locate them. This program is currently established for victims of domestic violence. It also changes the name of the Act to, quote, Address Confidentiality for Victims of Domestic Violence, Sexual Assault, or Stalking Act, end quote, to reflect these changes. The effective date of this is January 1st, 2021. This will give the Attorney General's Office enough time to be able to put this into place. And I ask for an Aye vote.
