20. SENATOR PARTEE

21. Well thank you ladies and gentlemen, I suppose that to be
22. here on my birthday for the first day of the Session indicates
23. that I have some real devotion to the Citizens of this State,
24. but I would like to say this to you that in all matters I have tried
25. to be candid with you and out of respect for that candid approach
26. that I take on all matters I would be grateful and appreciative

11. Senate Resolution 291 introduced by Senator Partee, it's
12. congratulatory.

13. PRESIDENT

14. Senator Partee.

15. SENATOR PARTEE

16. Maybe th...rather than read this Resolution I think it
17. is completely without controversy. It is a congratulatory
18. Resolution to a young woman who is a lawyer in the state of
19. Texas, at Houston, Texas and she bears the name Miss Barbara
20. Jordon, she became a member of the Texas State Senate, from
21. the 11th district in 1967, she's a graduate of Texas Southern
22. University and of the Boston University Law School, and just
23. the other day the members of the Texas State Senate unanimously
24. elected her as the President pro tempore of the Texas State
25. Senate. I think it is significant for two reasons one is that
26. she is female and the other is that she is black and in the
27. state of Texas I think this is some recognition that people
28. are going to be in many areas of human endeavor given an opportu-
29. nity on the basis of their individual competency and dedication.
30. And this is simply a Senate Resolution congratulating this
31. very fine young woman, and I would ask that all members of
32. the Senate join in its sponsorship.

33. PRESIDENT

1. So order. All in favor of the adoption of the Resolution
2. indicate by saying aye. Contrary minded. Resolution adopted.

this side that it would be in keeping with getting things done to react to that bill and hopefully pass it today. It relates to a matter that many of you have read about...ah...concerning 32 million dollars to be won or lost depending on the hastiness of our action with reference to the Bill Board Bill. Now I understand from the speaker that they were going to take a short break after they started and then that would be the first order of business and it would be sent here and I would hope that we could...ah...act on it today and for that reason I am going to ask for a 30 minute recess so that we can await its arrival here so that we can vote on it today. In the intervening period there will be a Democratic caucus on the sixth floor.

SENATOR CLARKE

Mr. President, members of the Senate, House Bill 3680, I think we're all familiar with it has to do with the bill boards, the highway beautification program, and the bill that we passed which was amended by the Governor relating to the regulation and the possibility as the newspapers have reported if we do not act on this bill in this week Session of a loss of up to 32 million dollars to the State of Illinois and I think it should be made clear..ah..to the public and to the media that this is the first opportunity that we have had to act on this matter that we have not been dilatory in this regard because we passed this bill last year. The Governor on advice from the Attorney General amended this bill in three particulars, and I want to specify and tell you a little bit about what these amendments do. And that amendatory veto was sent back to the legislative body and today has been the first day in which we have had the opportunity to receive..ah..these veto messages and therefore to act on..ah..this matter in this regard and of course we have had favorable consideration from the Federal Department of Transportation in regard to the deadline because while it was suppose to be April 1st they did make an exception of Illinois and said that April 15 would suffice and so we are here today to act on this matter. The veto message in effect first deleted a Section 4.09 with would have permitted signs in zoned agricultural areas. It deleted Section 15 which Section was declared unconstitutional and removed a provision which reported to Directed..Direct, the Department of Transportation to revise the law in the event federal standards were relaxed. And then it revised section 3.11 which was an exception relating to areas along the interstate highways which are built upon right-a-ways any part of which was acquired before July 1, 1956, now these are the only three changes in this bill, they were done by the Chief Executive on the advice of the Attorney General and it is indicated that this

1. would conform this bill with the Federal Highway Act and would
2. therefore...per...put us in the ranks and we're only one of
3. two states that are now...in...not in the ranks conforming
4. to this program so that we would not run the jeopardy of losing
5. ...ah...these millions of dollars annually. And I would ask
6. for your favorable support of this message in these amendatory
7. vetoes.

8. PRESIDENT

9. Senator Partee

10. SENATOR PARTEE

11. Senator Clarke has certainly explained this bill well
12. I would just add to what he has said that it shows that we
13. have acted with complete dispatch in being able to address
14. ourselves to this very momentious question the very first day
15. that we had any opportunity to do so. The message from the
16. Governor only was returned to the House this morning. They
17. have acted on it and it is now here before us and I would...sug...
18. point out to the media that despite what some of them have
19. said about dilatory tactics that this is the absolute first
20. day that this body in both its components, House and Senate
21. could have addressed itself to this question. I would certainly
22. say that what has been done by way of amendatory veto is in
23. this instance a proper application of that power. It is now
24. in an exceptable form under the Highway Advertising Control
25. Act of 1971, it is now bereft of any language which would deem
26. to be unconstitutional by the Illinois Attorney General and
27. it is in the form which qualifies Illinois to receive this
28. 32 million dollars from the Federal Government. 32 million
29. dollars, incidentally which was acquired in large part from
30. Illinois tax payers so certainly we should be getting our money
31. back, and I would certainly recommend to those who would listen
32. to any recommendation that I might make that we should support
33. this measure.

PRESIDENT

Is there further discussion? The...Senator Cherry.

SENATOR CHERRY

1. I rise to...ah...take this opportunity to compliment all
2. of the members of the Senate for not messing up this bill in
3. the first instance as was done in the House and...ah...I think
4. all of the particularly the spot zoning changes that were made
5. were completely unacceptable and it was for that main reason
6. that this bill was returned as found not acceptable by the
7. Federal Government as not complying with its standards and
8. regulations but it wasn't done in the Senate and I think every
9. member ought to be proud that...ah...this bill passed in the
10. original form and then went to the House...ah...in which these
11. amendments were introduced and while not...ah... being critical
12. of the action of the House...ah...certainly the action was
13. taken made it almost necessary for our state to lose...ah...32½
14. million dollars and...ah...I think we are acting with dispatch
15. and I would urge every member of the Senate to approve the
16. amendatory veto of the Governor.

15. PRESIDENT

16. The motion is to accept the specific recommendations of
17. the Governor as to House Bill No. 3680 and on that question :
18. the secretary will call the roll.

28. SENATOR KNUPPEL

29. For those who belabor the Constitutional Convention I
30. would like to point out that the section of the new constitution
31. which allows the Governor to do just this which is to conform
32. a bill to what the obvious intent of both the House and the
33. Senate was and that is to qualify for federal funds is served

in this instance which would not have been possible under the old constitution. I vote aye.

9. Senator Knuppel had open heart surgery and you can see that
10. he has the same vigor that he had prior to that time and he
11. still slams the microphone down just as hard as he did before.

17. now pending. It is called the Surface Transportation Act of
18. 1971 and the thought behind this commission activity would
19. be that the Federal Government would take a careful indepth
20. look into all surface methods of transportation. And we are
21. simply memorializing Congress to get moving in this area.
22. It is such a vital and important thing to our people. I'm

14. SENATOR LAUGHLIN

15. Well, Senator Partee we certainly don't want to delay
16. this on our side and I have told Senator Knuppel that Senator
17. Gilbert and I will take time to go through this. We would get
18. tomorrow I don't particularly like the idea of saying a specific

16. Are there further announcements? Senator Partee.

17. SENATOR PARTEE

18. Well I want to first congratulate these chairman who are
19. indicating...ah...that they are ready to get right down to work.
20. And I'd like to suggest to any member of the Senate who is either
21. the...A Senate sponsor of a Senate Bill or a Senate sponsor
22. of a House Bill that if there are any bills within your domain
23. that you do not desire to call that you notify either the leadership
24. on this side or the other side of the aisle so that those bills
25. can be removed from the Calendar. Ah...There is just simply
26. no point in carrying them if you...ah...don't plan to do something
27. with them. And I would suggest that the speed and dispatch
28. with which this session of the legislature will finalize itself
29. will depend in a large measure on the dispatch with which you
30. address yourselves to matters of interest to you so if you have
31. bills in the various committees which you desire to be heard
32. the quicker you act for them to be called and notice is given
33. of that call the quicker you will be back to your normal duties,
and I now move Mr. Chairman that we adjourn until 10:00 a.m.
tomorrow morning.

1. PRESIDENT

2. The...the question was on the lights...ah...by Senator
3. Neistein, Senator Partee. Senator Partee.

4. SENATOR PARTEE

5. I'm sorry Senator I did not hear your question. Those
6. lights have been placed there to aid the President in making
7. a determination as to the amount of time expended or consumed
8. by a speaker. Ah...one relates to a...a given number of minutes,
9. I'm not certain, I don't remember off hand...ah...what they
10. are but one of them is green, another is yellow, another is
11. red. The green light would indicate that a person was still
12. within the orbit of the time allotted him. The yellow light,
13. when it comes on, is a warning that...ah...you're almost through
14. and the read light means that the time has expired. It is
15. there to as a mechanical device to aid the presiding officer
16. in determining when time is up. There have been so much argument
17. and discussion about my watch says one thing and another we
18. thought we'd do it in a scientific fashion.

19. PRESIDENT

20. Senator Neistein

21. SENATOR NEISTEIN

22. Ah...Mr. President pro tempore, do I get you properly
23. that those lights are going to operated mechanically and not
24. by anyones...ah...manual operation. How are they rigged up?

25. PRESIDENT

26. Senator Partee.

27. SENATOR PARTEE

28. I, I, never did to...do too well in that phase of school
29. but I would say this to you they'll be done on..in a consistent
30. fashion. It'll be the same everytime.

31. PRESIDENT

32. Senator Clarke.

33. SENATOR CLARKE

1. Mr. President, before we adjourn ..ah..Senator Partee you
2. indicated we're coming in at 10 o'clock tomorrow morning.
3. Could you give the members some hint as to whether we might
4. be going home tomorrow..ah..I think this would..ah..help em in
5. terms of whether they want to check out or not.
6. PRESIDENT
7. Senator Partee.
8. SENATOR PARTEE
9. ..ah..It is in my thought that tomorrow will be the final legisla-
10. tive day of this week. We will not be here Wednesday except perhaps
11. in Perfunctory Session.
12. PRESIDENT
13. Senator Clarke.
14. SENATOR CLARKE
15. Fine, I think that's helpful and ..ah..we..we covered every-
16. thing this morning so there won't be a Republican caucus tomorrow,
17. Senator Bidwill, I don't think we need it.
18. PRESIDENT
19. Senator Carroll.
20. SENATOR CARROLL
21. Well, Mr. President and members, I had a question that had to
22. do with the lights I've just wondering what happens to we
23. people that are color blind.
24. PRESIDENT
25. ..ah..Senator Partee.
26. SENATOR PARTEE
27. I've been striving many years to try to make everybody
28. color blind, Senator.
29. PRESIDENT

31. until 10 o'clock tomorrow morning. All in favor signify by
